A BRIEF HISTORY OF BASIC INTELLIGENCE AND *THE WORLD FACTBOOK*

The Intelligence Cycle is the process by which information is acquired, converted into intelligence, and made available to policymakers. Information is raw data from any source, data that may be fragmentary, contradictory, unreliable, ambiguous, deceptive, or wrong. Intelligence is information that has been collected, integrated, evaluated, analyzed, and interpreted. Finished intelligence is the final product of the Intelligence Cycle ready to be delivered to the policymaker.

The three types of finished intelligence are: basic, current, and estimative. Basic intelligence provides the fundamental and factual reference material on a country or issue. Current intelligence reports on new developments. Estimative intelligence judges probable outcomes. The three are mutually supportive: basic intelligence is the foundation on which the other two are constructed; current intelligence continually updates the inventory of knowledge; and estimative intelligence revises overall interpretations of country and issue prospects for guidance of basic and current intelligence. *The World Factbook*, *The President's Daily Brief*, and the *National Intelligence Estimates* are examples of the three types of finished intelligence.

The United States has carried on foreign intelligence activities since the days of George Washington but only since World War II have they been coordinated on a government-wide basis. Three programs have highlighted the development of coordinated basic intelligence since that time: (1) *the Joint Army Navy Intelligence Studies* (JANIS), (2) *the National Intelligence Survey* (NIS), and (3) *The World Factbook*.

During World War II, intelligence consumers realized that the production of basic intelligence by different components of the US Government resulted in a great duplication of effort and conflicting information. The Japanese attack on Pearl Harbor in 1941 brought home to leaders in Congress and the executive branch the need for integrating departmental reports to national policymakers. Detailed and

coordinated information was needed not only on such major powers as Germany and Japan, but also on places of little previous interest. In the Pacific Theater, for example, the Navy and Marines had to launch amphibious operations against many islands about which information was unconfirmed or nonexistent. Intelligence authorities resolved that the United States should never again be caught unprepared.

In 1943, Gen. George B. Strong (G-2), Adm. H. C. Train (Office of Naval Intelligence – ONI), and Gen. William J. Donovan (Director of the Office of Strategic Services – OSS) decided that a joint effort should be initiated. A steering committee was appointed on 27 April 1943 that recommended the formation of a Joint Intelligence Study Publishing Board to assemble, edit, coordinate, and publish the *Joint Army Navy Intelligence Studies* (JANIS). JANIS was the first interdepartmental basic intelligence program to fulfill the needs of the US Government for an authoritative and coordinated appraisal of strategic basic intelligence. Between April 1943 and July 1947, the board published 34 JANIS studies. JANIS performed well in the war effort, and numerous letters of commendation were received, including a statement from Adm. Forrest Sherman, Chief of Staff, Pacific Ocean Areas, which said, “JANIS has become the indispensable reference work for the shore-based planners.”

The need for more comprehensive basic intelligence in the postwar world was well expressed in 1946 by George S. Pettee, a noted author on national security. He wrote in *The Future of American Secret Intelligence* (Infantry Journal Press, 1946, page 46) that world leadership in peace requires even more elaborate intelligence than in war. “The conduct of peace involves all countries, all human activities – not just the enemy and his war production.”

The Central Intelligence Agency was established on 26 July 1947 and officially began operating on 18 September 1947. Effective 1 October 1947, the Director of Central Intelligence assumed operational responsibility for JANIS. On 13 January 1948, the National Security Council issued Intelligence Directive (NSCID) No. 3, which authorized the *National Intelligence Survey* (NIS) program as a peacetime replacement for the wartime JANIS program. Before adequate NIS country sections could be produced, government agencies had to develop more comprehensive gazetteers and better maps. The US Board on Geographic Names (BGN) compiled the names; the Department of the Interior produced the gazetteers; and CIA produced the maps.

The Hoover Commission's Clark Committee, set up in 1954 to study the structure and administration of the CIA, reported to Congress in 1955 that: "The National Intelligence Survey is an invaluable publication which provides the essential elements of basic intelligence on all areas of the world. There will always be a continuing requirement for keeping the Survey up-to-date." The *Factbook* was created as an annual summary and update to the encyclopedic NIS studies. The first classified *Factbook* was published in August 1962, and the first unclassified version was published in June 1971. The NIS program was terminated in 1973 except for the *Factbook*, map, and gazetteer components. The 1975 *Factbook* was the first to be made available to the public with sales through the US Government Printing Office (GPO). The *Factbook* was first made available on the Internet in June 1997. The year 2022 marks the 75th anniversary of the establishment of the Central Intelligence Agency and the 79th year of continuous basic intelligence support to the US Government by *The World Factbook* and its two predecessor programs.

THE EVOLUTION OF THE WORLD FACTBOOK

National Basic Intelligence Factbook produced semiannually until 1980. Country entries include sections on Land, Water, People, Government, Economy, Communications, and Defense Forces.

1981: Publication becomes an annual product and is renamed *The World Factbook*. A total of 165 nations are covered on 225 pages.

1983: Appendices (Conversion Factors, International Organizations) first introduced.

1984: Appendices expanded; now include: A. The United Nations, B. Selected United Nations Organizations, C. Selected International Organizations, D. Country Membership in Selected Organizations, E. Conversion Factors.

1987: A new Geography section replaces the former separate Land and Water sections. UN Organizations and Selected International Organizations appendices merged into a new International Organizations appendix. First multi-color-cover *Factbook*.

1988: More than 40 new geographic entities added to provide complete world coverage without overlap or omission. Among the new entities are Antarctica,

oceans (Arctic, Atlantic, Indian, Pacific), and the World. The front-of-the-book explanatory introduction expanded and retitled to Notes, Definitions, and Abbreviations. Two new Appendices added: Weights and Measures (in place of Conversion Factors) and a Cross-Reference List of Geographic Names. *Factbook* size reaches 300 pages.

1989: Economy section completely revised and now includes an “Overview” briefly describing a country’s economy. New entries added under People, Government, and Communications.

1990: The Government section revised and considerably expanded with new entries.

1991: A new International Organizations and Groups appendix added. *Factbook* size reaches 405 pages.

1992: Twenty new successor state entries replace those of the Soviet Union and Yugoslavia. New countries are respectively: Armenia, Azerbaijan, Belarus, Estonia, Georgia, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, Uzbekistan; and Bosnia and Hercegovina, Croatia, Macedonia, Serbia and Montenegro, Slovenia. Number of nations in the *Factbook* rises to 188.

1993: Czechoslovakia’s split necessitates new Czech Republic and Slovakia entries. New Eritrea entry added after it secedes from Ethiopia. Substantial enhancements made to Geography section.

1994: Two new appendices address Selected International Environmental Agreements. The gross domestic product (GDP) of most developing countries changed to a purchasing power parity (PPP) basis rather than an exchange rate basis. *Factbook* size up to 512 pages.

1995: The GDP of all countries now presented on a PPP basis. New appendix lists estimates of GDP on an exchange rate basis. Communications category split; “Railroads,” “Highways,” “Inland waterways,” “Pipelines,” “Merchant marine,” and “Airports” entries now make up a new Transportation category. *The World Factbook* is first produced on CD-ROM.

1996: Maps accompanying each entry now present more detail. Flags also introduced for nearly all entities. Various new entries appear under Geography

and Communications. *Factbook* abbreviations consolidated into a new Appendix A. Two new appendices present a Cross-Reference List of Country Data Codes and a Cross-Reference List of Hydrogeographic Data Codes. Geographic coordinates added to Appendix H, Cross-Reference List of Geographic Names. *Factbook* size expands by 95 pages in one year to reach 652.

1997: *The World Factbook* introduced onto the Internet. A special printed edition prepared for the CIA's 50th anniversary. A schema or Guide to Country Profiles introduced. New color maps and flags now accompany each country profile. Category headings distinguished by shaded backgrounds. Number of categories expanded to nine with the addition of an Introduction (for only a few countries) and Transnational Issues (which includes "Disputes-international" and "Illicit drugs").

1998: The Introduction category with two entries, "Current issues" and "Historical perspective," expanded to more countries. Last year for the production of CD-ROM versions of the *Factbook*.

1999: "Historical perspective" and "Current issues" entries in the Introduction category combined into a new "Background" statement. Several new Economy entries introduced. A new physical map of the world added to the back-of-the-book reference maps.

2000: A new "country profile" added on the Southern Ocean. The Background statements dramatically expanded to over 200 countries and possessions. A number of new Communications entries added.

2001: Background entries completed for all 267 entities in the *Factbook*. Several new HIV/AIDS entries introduced under the People category. Revision begun on individual country maps to include elevation extremes and a partial geographic grid. Weights and Measures appendix deleted.

2002: New entry on "Distribution of Family income – Gini index" added. Revision of individual country maps continued (process ongoing).

2003: In the Economy category, petroleum entries added for "oil production," "consumption," "exports," "imports," and "proved reserves," as well as "natural gas proved reserves."

2004: Bi-weekly updates launched on *The World Factbook* website. Additional

petroleum entries included for “natural gas production,” “consumption,” “exports,” and “imports.” In the Transportation category, under “Merchant marine,” subfields added for foreign-owned vessels and those registered in other countries. Descriptions of the many forms of government mentioned in the *Factbook* incorporated into the Definitions and Notes.

2005: In the People category, a “Major infectious diseases” field added for countries deemed to pose a higher risk for travelers. In the Economy category, entries included for “Current account balance,” “Investment,” “Public debt,” and “Reserves of foreign exchange and gold.” The Transnational issues category expanded to include “Refugees and internally displaced persons.” Size of the printed *Factbook* reaches 702 pages.

2006: In the Economy category, national GDP figures now presented at Official Exchange Rates (OER) in addition to GDP at purchasing power parity (PPP). Entries in the Transportation section reordered; “Highways” changed to “Roadways,” and “Ports and harbors” to “Ports and terminals.”

2007: In the Government category, the “Capital” entry significantly expanded with up to four subfields, including new information having to do with time. The subfields consist of the name of the capital itself, its geographic coordinates, the time difference at the capital from coordinated universal time (UTC), and, if applicable, information on daylight saving time (DST). Where appropriate, a special note is added to highlight those countries with multiple time zones. A “Trafficking in persons” entry added to the Transnational issues category. A new appendix, Weights and Measures, (re)introduced to the online version of the *Factbook*.

2008: In the Geography category, two fields focus on the increasingly vital resource of water: “Total renewable water resources” and “Freshwater withdrawal.” In the Economy category, three fields added for: “Stock of direct foreign investment – at home,” “Stock of direct foreign investment – abroad,” and “Market value of publicly traded shares.” Concise descriptions of all major religions included in the Definitions and Notes. Responsibility for printing of *The World Factbook* turned over to the Government Printing Office.

2009: The online *Factbook* site completely redesigned with many new features. In the People category, two new fields provide information on education in terms of opportunity and resources: “School Life Expectancy” and “Education

expenditures.” Additionally, the “Urbanization” entry expanded to include all countries. In the Economy category, five fields added: “Central bank discount rate,” “Commercial bank prime lending rate,” “Stock of narrow money,” “Stock of broad money,” and “Stock of domestic credit.”

2010: Weekly updates inaugurated on the *The World Factbook* website. The dissolution of the Netherlands Antilles results in two new listings: Curacao and Sint Maarten. In the Communications category, a “Broadcast media” field replaces the former “Radio broadcast stations” and “TV broadcast stations” entries. In the Geography section, under “Natural hazards,” a Volcanism subfield added for countries with historically active volcanoes. In the Government category, a new “National anthems” field introduced. Concise descriptions of all major Legal systems incorporated into the Definitions and Notes. In order to facilitate comparisons over time, dozens of the entries in the Economy category expanded to include two (and in some cases three) years’ worth of data.

2011: The People section expanded to People and Society, incorporating ten new fields. The Economy category added “Taxes and other revenues” and “Budget surplus (+) or deficit (-),” while the Government section introduced “International law organization participation” and “National symbols.” A new African nation, South Sudan, brings the total number of countries in *The World Factbook* to 195.

2012: A new Energy category introduced with 23 energy-related fields. Several distinctive features added to *The World Factbook* website: 1) playable audio files in the Government section for the National Anthems entry, 2) online graphics in the form of a Population Pyramid feature in the People and Society category’s Age Structure field, and 3) a Users Guide enabling visitors to navigate the *Factbook* more easily and efficiently. A new and distinctive Map of the World Oceans highlights an expanded array of regional and country maps. Size of the printed *Factbook*’s 50th anniversary edition reaches 847 pages.

2013: In the People and Society section five fields introduced: “Demographic profile,” “Mother’s mean age at first birth,” “Contraceptive prevalence rate,” “Dependency ratios,” and “Child labor – children ages 5-14.” In the Transnational Issues category, a new *stateless persons* subfield embedded under the “Refugees and internally displaced persons” entry. In the Economy section two fields added: “GDP – composition by end use” and “Gross national saving.” In the Government category the “Judicial branch” entry revised and expanded to include three new subfields: *highest court(s)*, *judge selection and term of office*, and *subordinate*

courts.

2014: In the Transportation category, the “Ports and terminals” field substantially expanded with subfields for *major seaport(s)*, *river port(s)*, *lake port(s)*, *oil/gas terminal(s)*, *LNG terminal(s)*, *dry bulk cargo port(s)*, *container port(s)*, and *cruise/ferry port(s)*. In the Geography section, the “Land boundaries entry” revised for all countries, including the *total* country border length as well as the border lengths for all *neighboring countries*.

2015: In the Government category, the first part of the “Legislative branch” field thoroughly revised, expanded, and updated for all countries under a new description heading. This subentry includes the legislative structure, the formal name(s), the number of legislative seats, the types of voting constituencies and voting systems, and the member term of office. In the Geography category, the “Land use” entry expanded to include *agricultural land*, *forest land*, and *other* uses. Area Comparison Maps introduced online for about half of the world’s countries. These graphics show the size of a country in relation to a part of the United States. (More maps to follow as they become available.)

2016: In the Government section for all countries, a new “Citizenship” field added to describe policies related to the acquisition of citizenship and to the recognition of dual citizenship. Also, under the “Country name” entry, *etymologies* (historical origins) added to explain how countries acquired their names. In the Energy section, an “Electricity access” field introduced with subfields summarizing *total* access to electricity within an country, as well as for *urban* and *rural* populations. In the Transportation category, an expansive “National air transport system” field presents info on the *number of registered air carriers*, *number of operating aircraft*, *annual passenger traffic*, and *annual freight traffic*.

2017: In the Government category, the “Constitution” entry revised and expanded with new subfields for *history* and *amendments*. Information on piracy moved from the Transportation category to a new “Maritime threats” field in the Military and Security category. In the Transportation section, the “Merchant marine” entry revised to not only include the *total* number of ships, but also the major *types*: bulk carrier, container ship, general cargo, oil tanker, and other. A new “Population distribution” field added to both the Geography and People and Society categories. The Government Printing Office discontinued printing *The Word Factbook*, but annual online editions may be downloaded from the *Factbook* site.

2018: One-Page Country Summaries introduced for selected countries in the *Factbook*; more to follow in the future. The Summaries highlight key information from lengthier *World Factbook* entries and are intended for use by teachers, students, travelers, researchers, news reporters, or anyone with an interest in geography. Dozens of additional area comparison maps added; about two-thirds of country entries now include these popular maps. In the Communications category, a “Broadband – fixed subscriptions” entry now included.

2019: The *Factbook*’s World entry acquires many new Top Ten listings including those for the largest forests, largest deserts, longest mountain ranges, and climate extremes (Top Ten driest, wettest, coldest, and hottest places on earth). Also in the World entry, seven new continent area comparison maps compare their size to that of the US. In each of the five ocean entries, under the Economy section, a “Maritime fisheries” field includes info on major fishing regions, total tonnage caught, and principal fish catches. A Travel Facts feature added to every country entry; this one-page summary compiles important facts to know before travelling to a country and it quickly becomes one of the most popular features on the website. A new Appendix H: Strategic Materials lists all of the compounds, metals, non-metals, and rare earth elements deemed to be of critical importance to US national security.

2020: Three new fields added to the Military and Security category for every country: “Military and security service personnel strengths,” “Military equipment inventories and acquisitions,” and “Military deployments.” One-Page Summaries completed for all of the World’s countries and more than two dozen territories and possessions. Capital city name etymologies entered for all national capitals. A new Terrorism category with a “Terrorist group(s)” entry added to more than 60 countries where the US State Department has these groups operating. A supplemental [Appendix T: Terrorist Organizations](#) provides details on each cited group’s history, goals, leadership, organization, areas of operation, tactics, weapons, size, and sources of support. Completion of the multi-year effort to add area comparison maps for all countries.

2021: A new Environment category introduced with fields that include information on air pollution, water supplies, revenues from natural resources, food insecurity, and waste and recycling. Fields from other *Factbook* sections – climate, land use, urbanization, and major infectious diseases – also gathered into this new category. In the People and Society section, under “Languages,” new *major-language sample(s)* and *audio sample(s)* added. The Travel Facts for all

countries acquire additional entries on Tipping Guidelines, Tourist Attractions, and Major Sports.

DEFINITIONS AND NOTES

Abbreviations This information is included in **Appendix A: Abbreviations**, which includes all abbreviations and acronyms used in the *Factbook*, with their expansions.

Acronyms An acronym is an abbreviation coined from the initial letter of each successive word in a term or phrase. In general, an acronym made up solely from the first letter of the major words in the expanded form is rendered in all capital letters (NATO from North Atlantic Treaty Organization; an exception would be ASEAN for Association of Southeast Asian Nations). In general, an acronym made up of more than the first letter of the major words in the expanded form is rendered with only an initial capital letter (Comsat from Communications Satellite Corporation; an exception would be NAM from Nonaligned Movement). Hybrid forms are sometimes used to distinguish between initially identical terms (ICC for International Chamber of Commerce and ICt for International Criminal Court).

Administrative divisions This entry generally gives the numbers, designatory terms, and first-order administrative divisions as approved by the US Board on Geographic Names (BGN). Changes that have been reported but not yet acted on by the BGN are noted. Geographic names conform to spellings approved by the BGN with the exception of the omission of diacritical marks and special characters.

Age structure This entry provides the distribution of the population according to age. Information is included by sex and age group as follows: *0-14 years (children)*, *15-24 years (early working age)*, *25-54 years (prime working age)*, *55-64 years (mature working age)*, *65 years and over (elderly)*. The age structure of a population affects a nation's key socioeconomic issues. Countries with young populations (high percentage under age 15) need to invest more in schools, while countries with older populations (high percentage ages 65 and over) need to invest more in the health sector. The age structure can also be used to help predict potential political issues. For example, the rapid growth of a young adult population unable to find employment can lead to unrest.

Agricultural products This entry provides a list of a country's most important

agricultural products, listed by annual tonnage.

Air pollutants This entry refers to specified gases and particulates released by various sources of animals, plants, goods, and processes that can contribute to global warming, poor air quality, pollution, and climate change.

particulate matter emissions - This entry provides the modeled annual mean concentration of particulate matter of less than 2.5 microns in diameter (PM_{2.5}) measured in micrograms per cubic meter of air. Exposure to PM_{2.5} pollutants should not exceed an annual mean concentration of 10 micrograms per cubic meter, according to World Health Organization guidelines. Particulate matter are inhalable and respirable particles composed of sulphate, nitrates, ammonia, sodium chloride, black carbon, mineral dust, and water. Fine particles less than 2.5 microns pose the greatest health risks because they can penetrate the lungs and enter the bloodstream. Sources include combustion engines, solid-fuel combustion, and other industrial activities. Exposure to high concentrations of particulate matter is associated with increased mortality and morbidity, although even low concentrations of particulate matter can impact health. By reducing air pollution levels, countries can decrease the burden of disease from stroke, heart disease, lung cancer, and both chronic and acute respiratory diseases, including asthma.

carbon dioxide emissions - This entry provides the annual quantity of carbon dioxide emissions for a country, as measured in megatons. Carbon dioxide is a greenhouse gas emitted through human-influenced and natural processes. Human-influenced sources include the burning of fossil fuels (including coal, natural gas, and oil), solid waste, trees, and other biological materials, as well as certain chemical processes, such as cement production. Natural sources include decomposition, ocean release, and respiration. Carbon dioxide is a major contributor to climate warming, air quality, global warming, and pollution.

methane emissions - This entry provides the annual quantity of methane emissions for a country, as measured in megatons. Methane is a greenhouse gas emitted from the breakdown of organic material from human-influenced and natural processes. Human-influenced sources include the production and transport of coal, natural gas, and oil; the decay of organic waste in landfills; agricultural activities; stationary and mobile combustion; waste water treatment; and certain industrial processes. Natural sources include the decay of plant material in wetlands, the seepage of gas from underground deposits, and the digestion of food by ruminants. Methane emissions cause poor air quality,

health issues for animals and humans, and reduced crop yields, and are a contributor to climate change.

Airports This entry gives the total number of airports or airfields recognizable from the air. The runway(s) may be paved (concrete or asphalt surfaces) or unpaved (grass, earth, sand, or gravel surfaces) and may include closed or abandoned installations. Airports or airfields that are no longer recognizable (overgrown, no facilities, etc.) are not included. Note that not all airports have accommodations for refueling, maintenance, or air traffic control.

Airports - with paved runways This entry gives the *total* number of airports with paved runways (concrete or asphalt surfaces) by length. For airports with more than one runway, only the longest runway is included according to the following five groups - (1) *over 3,047 m* (over 10,000 ft), (2) *2,438 to 3,047 m* (8,000 to 10,000 ft), (3) *1,524 to 2,437 m* (5,000 to 8,000 ft), (4) *914 to 1,523 m* (3,000 to 5,000 ft), and (5) *under 914 m* (under 3,000 ft). Only airports with usable runways are included in this listing. Not all airports have facilities for refueling, maintenance, or air traffic control. The type of aircraft capable of operating from a runway of a given length is dependent upon a number of factors including elevation of the runway, runway gradient, average maximum daily temperature at the airport, engine types, flap settings, and take-off weight of the aircraft.

Airports - with unpaved runways This entry gives the *total* number of airports with unpaved runways (grass, dirt, sand, or gravel surfaces) by length. For airports with more than one runway, only the longest runway is included according to the following five groups - (1) *over 3,047 m* (over 10,000 ft), (2) *2,438 to 3,047 m* (8,000 to 10,000 ft), (3) *1,524 to 2,437 m* (5,000 to 8,000 ft), (4) *914 to 1,523 m* (3,000 to 5,000 ft), and (5) *under 914 m* (under 3,000 ft). Only airports with usable runways are included in this listing. Not all airports have facilities for refueling, maintenance, or air traffic control. The type of aircraft capable of operating from a runway of a given length is dependent upon a number of factors including elevation of the runway, runway gradient, average maximum daily temperature at the airport, engine types, flap settings, and take-off weight of the aircraft.

Alcohol consumption per capita This entry provides information on alcohol consumption per capita (APC), which is the recorded amount of alcohol consumed per capita by persons aged 15 years and over in a calendar year, measured in liters of pure alcohol. APC is broken down further into beer, wine, spirits, and other subfields. Beer includes malt beers, wine includes wine made

from grapes, spirits include all distilled beverages, and other includes one or several other alcoholic beverages, such as fermented beverages made from sorghum, maize, millet, rice, or cider, fruit wine, and fortified wine. APC only takes into account the consumption that is recorded from production, import, export, and sales data, primarily derived from taxation.

Appendixes This section includes *Factbook*-related material by topic.

Area This entry includes three subfields. *Total area* is the sum of all land and water areas delimited by international boundaries and/or coastlines. *Land area* is the aggregate of all surfaces delimited by international boundaries and/or coastlines, excluding inland water bodies (lakes, reservoirs, rivers). *Water area* is the sum of the surfaces of all inland water bodies, such as lakes, reservoirs, or rivers, as delimited by international boundaries and/or coastlines.

Area - comparative This entry provides an area comparison based on total area equivalents. Most entities are compared with the entire US or one of the 50 states based on area measurements (1990 revised) provided by the US Bureau of the Census. The smaller entities are compared with Washington, DC (178 sq km, 69 sq mi) or The Mall in Washington, DC (0.59 sq km, 0.23 sq mi, 146 acres).

Area - rankings This entry, which appears only in the World, Geography category, provides rankings for the earth's largest (or smallest) continents, countries, oceans, islands, mountain ranges, or other physical features.

Background This entry usually highlights major historic events and current issues and may include a statement about one or two key future trends.

Birth rate This entry gives the average annual number of births during a year per 1,000 persons in the population at midyear; also known as crude birth rate. The birth rate is usually the dominant factor in determining the rate of population growth. It depends on both the level of fertility and the age structure of the population.

Broadband - fixed subscriptions This entry gives the total number of fixed-broadband subscriptions, as well as the number of subscriptions per 100 inhabitants. Fixed broadband is a physical wired connection to the Internet (e.g., coaxial cable, optical fiber) at speeds equal to or greater than 256 kilobits/second (256 kbit/s).

Broadcast media This entry provides information on the approximate number of public and private TV and radio stations in a country, as well as basic information on the availability of satellite and cable TV services.

Budget This entry includes *revenues* and *expenditures*. These figures are calculated on an exchange rate basis, i.e., not in purchasing power parity (PPP) terms.

Budget surplus (+) or deficit (-) This entry records the difference between national government revenues and expenditures, expressed as a percent of GDP. A positive (+) number indicates that revenues exceeded expenditures (a budget surplus), while a negative (-) number indicates the reverse (a budget deficit). Normalizing the data, by dividing the budget balance by GDP, enables easy comparisons across countries and indicates whether a national government saves or borrows money. Countries with high budget deficits (relative to their GDPs) generally have more difficulty raising funds to finance expenditures, than those with lower deficits.

Capital This entry gives the *name* of the seat of government, its *geographic coordinates*, the *time difference* relative to **Coordinated Universal Time (UTC)** and the time observed in Washington, DC, and, if applicable, information on *daylight saving time (DST)*. Where appropriate, a special *time zone note* has been added to highlight those countries that have multiple time zones. Finally, *etymology* explains how the capital acquired its name.

Carbon dioxide emissions This field refers to a country's amount of carbon dioxide released by burning coal, petroleum, and natural gas. Data are reported in metric tonnes of CO₂.

Child marriage This entry provides data on the prevalence of child marriage in a country. Data includes the percentage of women aged 20 to 24 years who were first married or in union before age 15, and before age 18; and men aged 20 to 24 years who were first married or in union before age 18. Most girls who marry early drop out of school and often have early, high-risk pregnancies. Child brides are also at risk of abuse, exploitation, and separation from relatives and friends.

Children under the age of 5 years underweight This entry gives the percent of children under five considered to be underweight. Underweight means weight-for-age is less than minus two standard deviations from the median of the World Health Organization Child Growth Standards among children under 5 years of age. This statistic is an indicator of the nutritional status of a community. Children who suffer from growth retardation as a result of poor diets and/or recurrent infections tend to have a greater risk of suffering illness and death.

Citizenship This entry provides information related to the acquisition and exercise of citizenship; it includes four subfields:

citizenship by birth describes the acquisition of citizenship based on place of birth, known as *Jus soli*, regardless of the citizenship of parents.

citizenship by descent only describes the acquisition of citizenship based on the principle of *Jus sanguinis*, or by descent, where at least one parent is a citizen of the state and being born within the territorial limits of the state is not required. The majority of countries adhere to this practice. In some cases, citizenship is conferred through the father or mother exclusively.

dual citizenship recognized indicates whether a state permits a citizen to simultaneously hold citizenship in another state. Many states do not permit dual citizenship and the voluntary acquisition of citizenship in another country is grounds for revocation of citizenship. Holding dual citizenship makes an individual legally obligated to more than one state and can negate the normal consular protections afforded to citizens outside their original country of citizenship.

residency requirement for naturalization lists the length of time an applicant is required to live in a state before applying for naturalization. In most countries citizenship can be acquired through the legal process of naturalization. The requirements for naturalization vary by state but generally include no criminal record, good health, economic wherewithal, and a period of authorized residency in the state. This time period can vary enormously among states and is often used to make the acquisition of citizenship difficult or impossible.

Civil aircraft registration country code prefix This entry provides the one- or two-character alphanumeric code indicating the nationality of civil aircraft. Article 20 of the Convention on International Civil Aviation (Chicago Convention), signed in 1944, requires that all aircraft engaged in international air navigation bear appropriate nationality marks. The aircraft registration number consists of two parts: a prefix consisting of a one- or two-character alphanumeric code indicating nationality and a registration suffix of one to five characters for the specific aircraft. The prefix codes are based upon radio call-signs allocated by the International Telecommunications Union (ITU) to each country. Since 1947, the International Civil Aviation Organization (ICAO) has managed code standards and their allocation.

Climate This entry includes a brief description of typical weather regimes throughout the year; in the World entry only, it includes four subfields that describe climate extremes:

ten driest places on earth (average annual precipitation) describes the annual average precipitation measured in both millimeters and inches for selected

countries with climate extremes.

ten wettest places on earth (average annual precipitation) describes the annual average precipitation measured in both millimeters and inches for selected countries with climate extremes.

ten coldest places on earth (lowest average monthly temperature) describes temperature measured in both degrees Celsius and Fahrenheit as well as the month of the year for selected countries with climate extremes.

ten hottest places on earth (highest average monthly temperature) describes the temperature measured both in degrees Celsius and Fahrenheit as well the month of the year for selected countries with climate extremes.

Coal This field refers to a country's coal and metallurgical coke *production, consumption, exports, imports, and proven reserves*. These energy sources include anthracite, metallurgical, bituminous, subbituminous, and lignite coal and metallurgical coke. *Proven reserves* are those quantities of coal that have been analyzed as commercially recoverable in the future based on known reservoirs and assuming current economic conditions. Data are reported in metric tons, and one metric ton is 1,000 kilograms.

Coastline This entry gives the total length of the boundary between the land area (including islands) and the sea.

Communications This category deals with the means of exchanging information and includes entries on telephones (fixed and mobile), telecommunication systems, broadcast media, Internet users, and broadband subscriptions.

Communications - note This entry includes miscellaneous communications information of significance not included elsewhere.

Constitution This entry provides information on a country's constitution and includes two subfields. The history subfield includes the dates of previous constitutions and the main steps and dates in formulating and implementing the latest constitution. For countries with 1-3 previous constitutions, the years are listed; for those with 4-9 previous, the entry is listed as "several previous," and for those with 10 or more, the entry is "many previous." The amendments subfield summarizes the process of amending a country's constitution – from proposal through passage – and the dates of amendments, which are treated in the same manner as the constitution dates. Where appropriate, summaries are composed from English-language translations of non-English constitutions, which derive from official or non-official translations or machine translators.

The main steps in creating a constitution and amending it usually include the following steps: proposal, drafting, legislative and/or executive branch review and approval, public referendum, and entry into law. This process is lengthy in many countries. Terms commonly used to describe constitutional changes are “amended,” “revised,” or “reformed.” In countries such as South Korea and Turkmenistan, sources differ as to whether changes are stated as new constitutions or are amendments/revisions to existing ones.

A few countries including Canada, Israel, and the UK, have no single constitution document, but have various written and unwritten acts, statutes, common laws, and practices that, when taken together, describe a body of fundamental principles or established precedents as to how their countries are governed. Some special regions (Hong Kong, Macau) and countries (Oman, Saudi Arabia) use the term “basic law” instead of constitution.

A number of self-governing dependencies and territories, such as the Cayman Islands, Bermuda, and Gibraltar (UK), Greenland and Faroe Islands (Denmark), Aruba, Curacao, and Sint Maarten (Netherlands), and Puerto Rico and the Virgin Islands (US), have their own constitutions.

Contraceptive prevalence rate This field gives the percent of women of reproductive age (15-49) who are married or in union and are using, or whose sexual partner is using, a method of contraception according to the date of the most recent available data. The contraceptive prevalence rate is an indicator of health services, development, and women’s empowerment. It is also useful in understanding, past, present, and future fertility trends, especially in developing countries.

Coordinated Universal Time (UTC) UTC is the international atomic time scale that serves as the basis of timekeeping for most of the world. The hours, minutes, and seconds expressed by UTC represent the time of day at the Prime Meridian (0° longitude) located near Greenwich, England, UK as reckoned from midnight. UTC is calculated by the Bureau International des Poids et Mesures (BIPM) in Sevres, France. The BIPM averages data collected from more than 200 atomic time and frequency standards located at about 50 laboratories worldwide. UTC is the basis for all civil time, with the world divided into time zones expressed as positive or negative differences from UTC. UTC is also referred to as “Zulu time.” See the Standard Time Zones of the World map included with the **Reference Maps**.

Country data codes See **Data codes**.

Country map Most versions of the *Factbook* website provides a map in color for each country. The maps were produced from the best information available at the time of preparation. Names and/or boundaries may have changed subsequently.

Country name This entry includes all forms of the country's name approved by the US Board on Geographic Names (Italy is used as an example): *conventional long form* (Italian Republic), *conventional short form* (Italy), *local long form* (Repubblica Italiana), *local short form* (Italia), *former* (Kingdom of Italy), as well as the *abbreviation* (if applicable). Additionally, an *etymology* entry explains how the country acquired its name. Also see the **Terminology** note.

Credit ratings This entry provides the current bond ratings for a country or territory from each of the three major credit bureaus (Fitch, Moody's, and Standard & Poors). These ratings allow investors, including international finance institutions (e.g., the World Bank Group, the International Monetary Fund, etc.) to understand how likely a government's bond is to default. Rating factors include the following aspects: current account balance, debt payment history and timeliness, banking and financial operations, future economic outlook, and national economic strength. While in recent years other credit rating agencies have proliferated, these three credit agencies constitute more than 95% of the credit evaluation market globally and are the primary sovereign debt ratings considered by international and regional finance institutions.

Crude oil - exports This entry is the total amount of crude oil exported, in barrels per day (bbl/day).

Crude oil - imports This entry is the total amount of crude oil imported, in barrels per day (bbl/day).

Crude oil - production This entry is the total amount of crude oil produced, in barrels per day (bbl/day).

Crude oil - proved reserves This entry is the stock of proved reserves of crude oil, in barrels (bbl). Proved reserves are those quantities of petroleum which, by analysis of geological and engineering data, can be estimated with a high degree of confidence to be commercially recoverable from a given date forward, from known reservoirs and under current economic conditions.

Current account balance This entry records a country's net trade in goods and services, plus net earnings from rents, interest, profits, and dividends, and net transfer payments (such as pension funds and worker remittances) to and from the rest of the world during the period specified. These figures are calculated on an exchange rate basis, i.e., not in purchasing power parity (PPP) terms.

Current health expenditure Current health expenditure (CHE) describes the share of spending on health in each country relative to the size of its economy. It includes expenditures corresponding to the final consumption of health care goods and services and excludes investment, exports, and intermediate consumption. CHE shows the importance of the health sector in the economy and indicates the priority given to health in monetary terms. **Note:** Current health expenditure replaces the former Health Expenditures field and is calculated differently.

Date of information In general, information available as of January in a given year is used in the preparation of the printed edition.

Daylight Saving Time (DST) This entry is included for those entities that have adopted a policy of adjusting the official local time forward, usually one hour, from Standard Time during summer months. Such policies are most common in mid-latitude regions.

Death rate This entry gives the average annual number of deaths during a year per 1,000 persons at midyear; also known as crude death rate. The death rate, while only a rough indicator of the mortality situation in a country, accurately indicates the current mortality impact on population growth. This indicator is significantly affected by age distribution, and most countries will eventually show a rise in the overall death rate, in spite of continued decline in mortality at all ages, as declining fertility and increased lifespans result in an aging population.

Debt - external This entry gives the total public and private debt owed to nonresidents repayable in internationally accepted currencies, goods, or services. These figures are calculated on an exchange rate basis, i.e., not in purchasing power parity (PPP) terms.

Demographic profile This entry describes a country's key demographic features and trends and how they vary among regional, ethnic, and socioeconomic sub-populations. Some of the topics addressed are population age structure, fertility, health, mortality, poverty, education, and migration.

Dependency ratios Dependency ratios are a measure of the age structure of a population. They relate the number of individuals that are likely to be economically "dependent" on the support of others. Dependency ratios contrast the ratio of youths (ages 0-14) and the elderly (ages 65+) to the number of those in the working-age group (ages 15-64). Changes in the dependency ratio provide an indication of potential social support requirements resulting from changes in population age structures. As fertility levels decline, the dependency ratio initially falls because the proportion of youths decreases while the proportion of the

population of working age increases. As fertility levels continue to decline, dependency ratios eventually increase because the proportion of the population of working age starts to decline and the proportion of elderly persons continues to increase.

total dependency ratio - The total dependency ratio is the ratio of combined youth population (ages 0-14) and elderly population (ages 65+) per 100 people of working age (ages 15-64). A high total dependency ratio indicates that the working-age population and the overall economy face a greater burden to support and provide social services for youth and elderly persons, who are often economically dependent.

youth dependency ratio - The youth dependency ratio is the ratio of the youth population (ages 0-14) per 100 people of working age (ages 15-64). A high youth dependency ratio indicates that a greater investment needs to be made in schooling and other services for children.

elderly dependency ratio - The elderly dependency ratio is the ratio of the elderly population (ages 65+) per 100 people of working age (ages 15-64). Increases in the elderly dependency ratio put added pressure on governments to fund pensions and healthcare.

potential support ratio - The potential support ratio is the number of working-age people (ages 15-64) per one elderly person (ages 65+). As a population ages, the potential support ratio tends to fall, meaning there are fewer potential workers to support the elderly.

Dependency status This entry describes the formal relationship between a particular nonindependent entity and an independent state.

Dependent areas This entry contains an alphabetical listing of all nonindependent entities associated in some way with a particular independent state.

Diplomatic representation The US Government has diplomatic relations with 190 independent states, including 188 of the 193 UN members (excluded UN members are Bhutan, Cuba, Iran, North Korea, and the US itself). In addition, the US has diplomatic relations with 2 independent states that are not in the UN, the Holy See and Kosovo, as well as with the EU.

Diplomatic representation from the US This entry includes the *chief of mission*, *embassy address*, *mailing address*, *telephone number*, *FAX number*, *email and website addresses*, *branch office locations*, *consulate general locations*, and *consulate locations*.

Diplomatic representation in the US This entry includes the *chief of mission, chancery address, telephone, FAX, email and website addresses, consulate general locations, and consulate locations*. The use of the annotated title Appointed Ambassador refers to a new ambassador who has presented his/her credentials to the secretary of state but not the US president. Such ambassadors fulfill all diplomatic functions except meeting with or appearing at functions attended by the president until such time as they formally present their credentials at a White House ceremony.

Disputes - international This entry includes a wide variety of situations that range from traditional bilateral boundary disputes to unilateral claims of one sort or another. Information regarding disputes over international terrestrial and maritime boundaries has been reviewed by the US Department of State. References to other situations involving borders or frontiers may also be included, such as resource disputes, geopolitical questions, or irredentist issues; however, inclusion does not necessarily constitute official acceptance or recognition by the US Government.

Drinking water source This entry provides information about access to improved or unimproved drinking water sources available to segments of the population of a country. *Improved* drinking water - use of any of the following sources: piped water into dwelling, yard, or plot; public tap or standpipe; tubewell or borehole; protected dug well; protected spring; or rainwater collection. *Unimproved* drinking water - use of any of the following sources: unprotected dug well; unprotected spring; cart with small tank or drum; tanker truck; surface water, which includes rivers, dams, lakes, ponds, streams, canals or irrigation channels; or bottled water.

Economic overview This entry briefly describes five economic components for a given country:

- * *National Economy*, including a brief economic history;
- * *Domestic Markets*, including labor and wage markets, as well as brief commentary on economic sector portfolios;
- * *Financial Power and Public Finance*, including brief discussions of financial market strengths and security, lending/exchange rates (especially if abnormalities exist), and foreign direct investments;
- * *Trade Power and Influence*, including brief commentary on chief imports and

exports; and

* *Regional Strategy and Efforts*, including key partners, regional economic development efforts, and any underlying economic data integrity concerns.

Economy This category includes the entries dealing with the size, development, and management of productive resources, i.e., land, labor, and capital.

Economy of the area administered by Turkish Cypriots This entry, which appears only in the Cyprus, Economy category, provides economic information about the area administered by the Turkish Cypriots.

Education expenditures This entry provides the public expenditure on education as a percent of GDP.

Electricity This field refers to a country's installed generating capacities, consumption, exports, imports, and transmission/distribution losses.

installed generating capacity - the total capacity of a country's currently operational electric power generation, expressed in kilowatts (kW). A kilowatt produces one hour of continuously run electricity, referred to commonly in many appliances as a kilowatt hour (kWh).

consumption - a country's total electricity generated annually plus any imports and minus exports, expressed in kWh.

exports - a country's total amount of exported electricity in kWh.

imports - a country's total amount of imported electricity in kWh.

transmission/distribution losses - the combined difference between the amount of electricity generated and/or imported and the amount consumed and/or exported.

Electricity access This entry provides information on access to electricity. Electrification data – collected from industry reports, national surveys, and international sources – consists of four subfields. *Population without electricity* provides an estimate of the number of citizens that do not have access to electricity. *Electrification – total population* is the percent of a country's total population with access to electricity, *electrification – urban areas* is the percent of a country's urban population with access to electricity, while *electrification – rural areas* is the percent of a country's rural population with access to electricity. Due to differences in definitions and methodology from different sources, data quality may vary from country to country.

Electricity generation sources This field refers a country's energy portfolio of *fossil fuels, nuclear, solar, wind, hydroelectricity, tide and wave, geothermal,*

and *biomass and waste*. Portfolios are expressed as a percentage share of a country's total generating capacity.

Elevation This entry includes the *mean elevation* and elevation extremes, *lowest point* and *highest point*.

Energy This category includes entries dealing with the production, consumption, import, and export of various forms of energy, including electricity, crude oil, refined petroleum products, and natural gas.

Energy consumption per capita This entry refers to a country's total energy consumption per capita, including the consumption of petroleum, dry natural gas, coal, net nuclear, hydroelectric, and non-hydroelectric renewable electricity. Data are reported in British thermal Units per person (Btu/person).

Entities Some of the independent states, dependencies, areas of special sovereignty, and governments included in this publication are not independent, and others are not officially recognized by the US Government. "Independent state" refers to a people politically organized into a sovereign state with a definite territory. "Dependencies" and "areas of special sovereignty" refer to a broad category of political entities that are associated in some way with an independent state. "Country" names used in the table of contents or for page headings are usually the short-form names as approved by the US Board on Geographic Names and may include independent states, dependencies, and areas of special sovereignty, or other geographic entities. There are a total of 266 separate geographic entities in *The World Factbook* that may be categorized as follows:

INDEPENDENT STATES

195 Afghanistan, Albania, Algeria, Andorra, Angola, Antigua and Barbuda, Argentina, Armenia, Australia, Austria, Azerbaijan, The Bahamas, Bahrain, Bangladesh, Barbados, Belarus, Belgium, Belize, Benin, Bhutan, Bolivia, Bosnia and Herzegovina, Botswana, Brazil, Brunei, Bulgaria, Burkina Faso, Burma, Burundi, Cambodia, Cameroon, Canada, Cape Verde, Central African Republic, Chad, Chile, China, Colombia, Comoros, Democratic Republic of the Congo, Republic of the Congo, Costa Rica, Cote d'Ivoire, Croatia, Cuba, Cyprus, Czechia, Denmark, Djibouti, Dominica, Dominican Republic, Ecuador, Egypt, El Salvador, Equatorial Guinea, Eritrea, Estonia, Ethiopia, Fiji, Finland, France, Gabon, The Gambia, Georgia, Germany, Ghana, Greece, Grenada, Guatemala, Guinea, Guinea-Bissau, Guyana, Haiti, Holy See, Honduras, Hungary, Iceland, India, Indonesia, Iran, Iraq, Ireland, Israel, Italy, Jamaica, Japan, Jordan, Kazakhstan, Kenya, Kiribati, North Korea, South Korea, Kosovo, Kuwait,

Kyrgyzstan, Laos, Latvia, Lebanon, Lesotho, Liberia, Libya, Liechtenstein, Lithuania, Luxembourg, Macedonia, Madagascar, Malawi, Malaysia, Maldives, Mali, Malta, Marshall Islands, Mauritania, Mauritius, Mexico, Federated States of Micronesia, Moldova, Monaco, Mongolia, Montenegro, Morocco, Mozambique, Namibia, Nauru, Nepal, Netherlands, NZ, Nicaragua, Niger, Nigeria, Norway, Oman, Pakistan, Palau, Panama, Papua New Guinea, Paraguay, Peru, Philippines, Poland, Portugal, Qatar, Romania, Russia, Rwanda, Saint Kitts and Nevis, Saint Lucia, Saint Vincent and the Grenadines, Samoa, San Marino, Sao Tome and Principe, Saudi Arabia, Senegal, Serbia, Seychelles, Sierra Leone, Singapore, Slovakia, Slovenia, Solomon Islands, Somalia, South Africa, South Sudan, Spain, Sri Lanka, Sudan, Suriname, Swaziland, Sweden, Switzerland, Syria, Tajikistan, Tanzania, Thailand, Timor-Leste, Togo, Tonga, Trinidad and Tobago, Tunisia, Turkey, Turkmenistan, Tuvalu, Uganda, Ukraine, UAE, UK, US, Uruguay, Uzbekistan, Vanuatu, Venezuela, Vietnam, Yemen, Zambia, Zimbabwe

OTHER

2 Taiwan, European Union

DEPENDENCIES AND AREAS OF SPECIAL SOVEREIGNTY

6 Australia - Ashmore and Cartier Islands, Christmas Island, Cocos (Keeling) Islands, Coral Sea Islands, Heard Island and McDonald Islands, Norfolk Island

2 China - Hong Kong, Macau

2 Denmark - Faroe Islands, Greenland

8 France - Clipperton Island, French Polynesia, French Southern and Antarctic Lands, New Caledonia, Saint Barthelemy, Saint Martin, Saint Pierre and Miquelon, Wallis and Futuna

3 Netherlands - Aruba, Curacao, Sint Maarten

3 New Zealand - Cook Islands, Niue, Tokelau

3 Norway - Bouvet Island, Jan Mayen, Svalbard

17 UK - Akrotiri, Anguilla, Bermuda, British Indian Ocean Territory, British Virgin Islands, Cayman Islands, Dhekelia, Falkland Islands, Gibraltar, Guernsey, Jersey, Isle of Man, Montserrat, Pitcairn Islands, Saint Helena, South Georgia and the South Sandwich Islands, Turks and Caicos Islands

14 US - American Samoa, Baker Island*, Guam, Howland Island*, Jarvis Island*, Johnston Atoll*, Kingman Reef*, Midway Islands*, Navassa Island, Northern Mariana Islands, Palmyra Atoll*, Puerto Rico, Virgin Islands, Wake Island (* consolidated in United States Pacific Island Wildlife Refuges entry)

MISCELLANEOUS

5 Antarctica, Gaza Strip, Paracel Islands, Spratly Islands, West Bank

OTHER ENTITIES

5 oceans - Arctic Ocean, Atlantic Ocean, Indian Ocean, Pacific Ocean, Southern Ocean

1 World

266 total

Environment - current issues This entry lists the most pressing and important environmental problems. The following terms and abbreviations are used throughout the entry:

Acidification - the lowering of soil and water pH due to acid precipitation and deposition usually through precipitation; this process disrupts ecosystem nutrient flows and may kill freshwater fish and plants dependent on more neutral or alkaline conditions (see acid rain).

Acid rain - characterized as containing harmful levels of sulfur dioxide or nitrogen oxide; acid rain is damaging and potentially deadly to the earth's fragile ecosystems; acidity is measured using the pH scale where 7 is neutral, values greater than 7 are considered alkaline, and values below 5.6 are considered acid precipitation; note - a pH of 2.4 (the acidity of vinegar) has been measured in rainfall in New England.

Aerosol - a collection of airborne particles dispersed in a gas, smoke, or fog.

Afforestation - converting a bare or agricultural space by planting trees and plants; reforestation involves replanting trees on areas that have been cut or destroyed by fire.

Asbestos - a naturally occurring soft fibrous mineral commonly used in fireproofing materials and considered to be highly carcinogenic in particulate form.

Biodiversity - also biological diversity; the relative number of species, diverse in form and function, at the genetic, organism, community, and ecosystem level; loss of biodiversity reduces an ecosystem's ability to recover from natural or man-induced disruption.

Bio-indicators - a plant or animal species whose presence, abundance, and health reveal the general condition of its habitat.

Biomass - the total weight or volume of living matter in a given area or volume.

Carbon cycle - the term used to describe the exchange of carbon (in various forms, e.g., as carbon dioxide) between the atmosphere, ocean, terrestrial biosphere, and geological deposits.

Catchments - assemblages used to capture and retain rainwater and runoff; an

important water management technique in areas with limited freshwater resources, such as Gibraltar.

DDT (dichloro-diphenyl-trichloro-ethane) - a colorless, odorless insecticide that has toxic effects on most animals; the use of DDT was banned in the US in 1972.

Defoliants - chemicals which cause plants to lose their leaves artificially; often used in agricultural practices for weed control, and may have detrimental impacts on human and ecosystem health.

Deforestation - the destruction of vast areas of forest (e.g., unsustainable forestry practices, agricultural and range land clearing, and the over exploitation of wood products for use as fuel) without planting new growth.

Desertification - the spread of desert-like conditions in arid or semi-arid areas, due to overgrazing, loss of agriculturally productive soils, or climate change.

Dredging - the practice of deepening an existing waterway; also, a technique used for collecting bottom-dwelling marine organisms (e.g., shellfish) or harvesting coral, often causing significant destruction of reef and ocean-floor ecosystems.

Drift-net fishing - done with a net, miles in extent, that is generally anchored to a boat and left to float with the tide; often results in an over harvesting and waste of large populations of non-commercial marine species (by-catch) by its effect of “sweeping the ocean clean.”

Ecosystems - ecological units comprised of complex communities of organisms and their specific environments.

Effluents - waste materials, such as smoke, sewage, or industrial waste which are released into the environment, subsequently polluting it.

Endangered species - a species that is threatened with extinction either by direct hunting or habitat destruction.

Freshwater - water with very low soluble mineral content; sources include lakes, streams, rivers, glaciers, and underground aquifers.

Greenhouse gas - a gas that “traps” infrared radiation in the lower atmosphere causing surface warming; water vapor, carbon dioxide, nitrous oxide, methane, hydrofluorocarbons, and ozone are the primary greenhouse gases in the Earth’s atmosphere.

Groundwater - water sources found below the surface of the earth often in naturally occurring reservoirs in permeable rock strata; the source for wells and natural springs.

Highlands Water Project - a series of dams constructed jointly by Lesotho

and South Africa to redirect Lesotho's abundant water supply into a rapidly growing area in South Africa; while it is the largest infrastructure project in southern Africa, it is also the most costly and controversial; objections to the project include claims that it forces people from their homes, submerges farmlands, and squanders economic resources.

Inuit Circumpolar Conference (ICC) - represents the roughly 150,000 Inuits of Alaska, Canada, Greenland, and Russia in international environmental issues; a General Assembly convenes every three years to determine the focus of the ICC; the most current concerns are long-range transport of pollutants, sustainable development, and climate change.

Metallurgical plants - industries which specialize in the science, technology, and processing of metals; these plants produce highly concentrated and toxic wastes which can contribute to pollution of ground water and air when not properly disposed.

Noxious substances - injurious, very harmful to living beings.

Overgrazing - the grazing of animals on plant material faster than it can naturally regrow leading to the permanent loss of plant cover, a common effect of too many animals grazing limited range land.

Ozone shield - a layer of the atmosphere composed of ozone gas (O₃) that resides approximately 25 miles above the Earth's surface and absorbs solar ultraviolet radiation that can be harmful to living organisms.

Poaching - the illegal killing of animals or fish, a great concern with respect to endangered or threatened species.

Pollution - the contamination of a healthy environment by man-made waste.

Potable water - water that is drinkable, safe to be consumed.

Salination - the process through which fresh (drinkable) water becomes salt (undrinkable) water; hence, desalination is the reverse process; also involves the accumulation of salts in topsoil caused by evaporation of excessive irrigation water, a process that can eventually render soil incapable of supporting crops.

Siltation - occurs when water channels and reservoirs become clotted with silt and mud, a side effect of deforestation and soil erosion.

Slash-and-burn agriculture - a rotating cultivation technique in which trees are cut down and burned in order to clear land for temporary agriculture; the land is used until its productivity declines at which point a new plot is selected and the process repeats; this practice is sustainable while population levels are low and time is permitted for regrowth of natural vegetation; conversely, where

these conditions do not exist, the practice can have disastrous consequences for the environment.

Soil degradation - damage to the land's productive capacity because of poor agricultural practices such as the excessive use of pesticides or fertilizers, soil compaction from heavy equipment, or erosion of topsoil, eventually resulting in reduced ability to produce agricultural products.

Soil erosion - the removal of soil by the action of water or wind, compounded by poor agricultural practices, deforestation, overgrazing, and desertification.

Ultraviolet (UV) radiation - a portion of the electromagnetic energy emitted by the sun and naturally filtered in the upper atmosphere by the ozone layer; UV radiation can be harmful to living organisms and has been linked to increasing rates of skin cancer in humans.

Waterborne diseases - those in which bacteria survive in, and are transmitted through, water; always a serious threat in areas with an untreated water supply.

Environment - international agreements This entry separates country participation in international environmental agreements into two levels - *party to* and *signed, but not ratified*. Agreements are listed in alphabetical order by the abbreviated form of the full name.

Environmental agreements This information is presented in **Appendix C: Selected International Environmental Agreements**, which includes the name, abbreviation, date opened for signature, date entered into force, objective, and parties by category. Refer to an online edition of *The World Factbook* to access this appendix.

Ethnic groups This entry provides an ordered listing of ethnic groups starting with the largest and normally includes the percent of total population.

Exchange rates This entry provides the average annual price of a country's monetary unit for the time period specified, expressed in units of local currency per US dollar, as determined by international market forces or by official fiat. The International Organization for Standardization (ISO) 4217 alphabetic currency code for the national medium of exchange is presented in parenthesis. Closing daily exchange rates are not presented in *The World Factbook*, but are used to convert stock values - e.g., the market value of publicly traded shares - to US dollars as of the specified date.

Executive branch This entry includes five subentries: *chief of state*; *head of government*; *cabinet*; *elections/appointments*; *election results*. *Chief of state* includes the name, title, and beginning date in office of the titular leader of the

country who represents the state at official and ceremonial functions but may not be involved with the day-to-day activities of the government. *Head of government* includes the name, title of the top executive designated to manage the executive branch of the government, and the beginning date in office. *Cabinet* includes the official name of the executive branch's high-ranking body and the method of member selection. *Elections/appointments* includes the process for accession to office, date of the last election, and date of the next election. *Election results* includes each candidate's political affiliation, percent of direct popular vote or indirect legislative/parliamentary percent vote or vote count in the last election.

The executive branches in approximately 80% of the world's countries have separate chiefs of state and heads of government; for the remainder, the chief of state is also the head of government, such as in Argentina, Kenya, the Philippines, the US, and Venezuela. Chiefs of state in just over 100 countries are directly elected, most by majority popular vote; those in another 55 are indirectly elected by their national legislatures, parliaments, or electoral colleges. Another 29 countries have a monarch as the chief of state. In dependencies, territories, and collectivities of sovereign countries - except those of the US - representatives are appointed to serve as chiefs of state.

Heads of government in the majority of countries are appointed either by the president or the monarch or selected by the majority party in the legislative body. Excluding countries where the chief of state is also head of government, in only a few countries is the head of government directly elected through popular vote.

Most of the world's countries have cabinets, the majority of which are appointed by the chief of state or prime minister, many in consultation with each other or with the legislature. Cabinets in only about a dozen countries are elected solely by their legislative bodies.

Exports This entry provides the total US dollar amount of merchandise exports on an f.o.b. (free on board) basis. These figures are calculated on an exchange rate basis, i.e., not in purchasing power parity (PPP) terms.

Exports - commodities This entry provides a listing of the highest-valued exported commodities.

Exports - partners This entry provides a rank ordering of trading partners starting with the most important; it sometimes includes the percent of total dollar value.

Fiscal year This entry identifies the beginning and ending months for a country's accounting period of 12 months, which often is the calendar year but which may begin in any month. All yearly references are for the calendar year (CY) unless indicated as a noncalendar fiscal year (FY).

Flag description This entry provides a written flag description produced from actual flags or the best information available at the time the entry was written. The flags of independent states are used by their dependencies unless there is an officially recognized local flag. Some disputed and other areas do not have flags.

Flag graphic Most versions of the *Factbook* include a color flag at the beginning of the country profile. The flag graphics were produced from actual flags or the best information available at the time of preparation. The flags of independent states are used by their dependencies unless there is an officially recognized local flag. Some disputed and other areas do not have flags.

Food insecurity Food crises are nearly always due to a combination of factors, but it is important to establish whether the nature of food crises is predominantly related to lack of food availability, limited access to food, or severe but localized problems. Countries in crisis requiring external assistance for food are expected to lack the resources to deal with reported critical problems of food insecurity. Three levels of crises are described in this field in descending severity: countries facing an exceptional shortfall in aggregate food production/supplies as a result of crop failure, natural disasters, interruption of imports, disruption of distribution, excessive post-harvest losses, or other supply bottlenecks; countries with widespread lack of access, where a majority of the population is considered to be unable to procure food from local markets, due to very low incomes, exceptionally high food prices, or the inability to circulate within the country; countries with severe localized food insecurity due to the influx of refugees, a concentration of internally displaced persons, or areas with combinations of crop failure and deep poverty.

GDP (official exchange rate) This entry gives the gross domestic product (GDP) or value of all final goods and services produced within a nation in a given year. A nation's GDP at official exchange rates (OER) is the home-currency-denominated annual GDP figure divided by the bilateral average US exchange rate with that country in that year. The measure is simple to compute and gives a precise measure of the value of output. Many economists prefer this measure when gauging the economic power an economy maintains vis-à-vis its neighbors, judging that an exchange rate captures the purchasing power a nation enjoys in the international marketplace. Official exchange rates, however, can be artificially

fixed and/or subject to manipulation - resulting in claims of the country having an under- or over-valued currency - and are not necessarily the equivalent of a market-determined exchange rate. Moreover, even if the official exchange rate is market-determined, market exchange rates are frequently established by a relatively small set of goods and services (the ones the country trades) and may not capture the value of the larger set of goods the country produces. Furthermore, OER-converted GDP is not well suited to comparing domestic GDP over time, since appreciation/depreciation from one year to the next will make the OER GDP value rise/fall regardless of whether home-currency-denominated GDP changed.

GDP - composition, by end use This entry shows who does the spending in an economy: consumers, businesses, government, and foreigners. The distribution gives the percentage contribution to total GDP of *household consumption*, *government consumption*, *investment in fixed capital*, *investment in inventories*, *exports of goods and services*, and *imports of goods and services*, and will total 100 percent of GDP if the data are complete.

household consumption consists of expenditures by resident households, and by nonprofit institutions that serve households, on goods and services that are consumed by individuals. This includes consumption of both domestically produced and foreign goods and services.

government consumption consists of government expenditures on goods and services. These figures exclude government transfer payments, such as interest on debt, unemployment, and social security, since such payments are not made in exchange for goods and services supplied.

investment in fixed capital consists of total business spending on fixed assets, such as factories, machinery, equipment, dwellings, and inventories of raw materials, which provide the basis for future production. It is measured gross of the depreciation of the assets, i.e., it includes investment that merely replaces worn-out or scrapped capital. Earlier editions of *The World Factbook* referred to this concept as Investment (gross fixed) and that data now have been moved to this new field.

investment in inventories consists of net changes to the stock of outputs that are still held by the units that produce them, awaiting further sale to an end user, such as automobiles sitting on a dealer's lot or groceries on the store shelves. This figure may be positive or negative. If the stock of unsold output increases during the relevant time period, *investment in inventories* is positive, but, if the stock of unsold goods declines, it will be negative. *Investment in inventories* normally is an early indicator of the state of the economy. If the stock of unsold

items increases unexpectedly – because people stop buying - the economy may be entering a recession; but if the stock of unsold items falls - and goods “go flying off the shelves” - businesses normally try to replace those stocks, and the economy is likely to accelerate.

exports of goods and services consist of sales, barter, gifts, or grants of goods and services from residents to nonresidents.

imports of goods and services consist of purchases, barter, or receipts of gifts, or grants of goods and services by residents from nonresidents. *Exports* are treated as a positive item, while imports are treated as a negative item. In a purely accounting sense, *imports* have no direct impact on GDP, which only measures output of the domestic economy. Imports are entered as a negative item to offset the fact that the expenditure figures for consumption, investment, government, and exports also include expenditures on imports. These imports contribute directly to foreign GDP but only indirectly to domestic GDP. Because of this negative offset for imports of goods and services, the sum of the other five items, excluding imports, will always total more than 100 percent of GDP. A surplus of exports of goods and services over imports indicates an economy is investing abroad, while a deficit indicates an economy is borrowing from abroad.

GDP - composition, by sector of origin This entry shows where production takes place in an economy. The distribution gives the percentage contribution of *agriculture, industry, and services* to total GDP, and will total 100 percent of GDP if the data are complete. Agriculture includes farming, fishing, and forestry. Industry includes mining, manufacturing, energy production, and construction. Services cover government activities, communications, transportation, finance, and all other private economic activities that do not produce material goods.

GDP methodology In the **Economy** category, GDP dollar estimates for countries are reported both on an official exchange rate (OER) and a purchasing power parity (PPP) basis. Both measures contain information that is useful to the reader. The PPP method involves the use of standardized international dollar price weights, which are applied to the quantities of final goods and services produced in a given economy. The data derived from the PPP method probably provide the best available starting point for comparisons of economic strength and well-being between countries. In contrast, the currency exchange rate method involves a variety of international and domestic financial forces that may not capture the value of domestic output. Whereas PPP estimates for OECD countries are quite reliable, PPP estimates for developing countries are often rough approximations.

In developing countries with weak currencies, the exchange rate estimate of GDP in dollars is typically one-fourth to one-half the PPP estimate. Most of the GDP estimates for developing countries are based on extrapolation of PPP numbers published by the UN International Comparison Program (UNICP) and by Professors Robert Summers and Alan Heston of the University of Pennsylvania and their colleagues. GDP derived using the OER method should be used for the purpose of calculating the share of items such as exports, imports, military expenditures, external debt, or the current account balance, because the dollar values presented in the *Factbook* for these items have been converted at official exchange rates, not at PPP. One should use the OER GDP figure to calculate the proportion of, say, Chinese defense expenditures in GDP, because that share will be the same as one calculated in local currency units. Comparison of OER GDP with PPP GDP may also indicate whether a currency is over- or under-valued. If OER GDP is smaller than PPP GDP, the official exchange rate may be undervalued, and vice versa. However, there is no strong historical evidence that market exchange rates move in the direction implied by the PPP rate, at least not in the short- or medium-term. Note: the numbers for GDP and other economic data should not be chained together from successive volumes of the *Factbook* because of changes in the US dollar measuring rod, revisions of data by statistical agencies, use of new or different sources of information, and changes in national statistical methods and practices.

Geographic coordinates This entry includes rounded latitude and longitude figures for the centroid or center point of a country expressed in degrees and minutes; it is based on the locations provided in the Geographic Names Server (GNS), maintained by the National Geospatial-Intelligence Agency on behalf of the US Board on Geographic Names.

Geographic names Spellings are normally, but not always, those approved by the US Board on Geographic Names (BGN). Alternate names and additional information are included in parentheses.

Geographic overview This entry, which appears only in the World, Geography category, provides basic geographic information about the earth's oceans and continents. The entry also lists all of the countries that compose each continent.

Geography This category includes the entries dealing with the natural environment and the effects of human activity.

Geography - note This entry includes miscellaneous geographic information of significance not included elsewhere.

Gini index See entry for Distribution of family income - Gini index

Gini Index coefficient - distribution of family income This entry measures the degree of inequality in the distribution of family income in a country. The index is calculated from the Lorenz curve, in which cumulative family income is plotted against the number of families arranged from the poorest to the richest. The index is the ratio of (a) the area between a country's Lorenz curve and the 45 degree helping line to (b) the entire triangular area under the 45 degree line. The more nearly equal a country's income distribution, the closer its Lorenz curve to the 45 degree line and the lower its Gini index, e.g., a Scandinavian country with an index of 25. The more unequal a country's income distribution, the farther its Lorenz curve from the 45 degree line and the higher its Gini index, e.g., a Sub-Saharan country with an index of 50. If income were distributed with perfect equality, the Lorenz curve would coincide with the 45 degree line and the index would be zero; if income were distributed with perfect inequality, the Lorenz curve would coincide with the horizontal axis and the right vertical axis and the index would be 100.

GNP Gross national product (GNP) is the value of all final goods and services produced within a nation in a given year, plus income earned by its citizens abroad, minus income earned by foreigners from domestic production. The *Factbook*, following current practice, uses GDP rather than GNP to measure national production. However, the user must realize that in certain countries net remittances from citizens working abroad may be important to national well-being.

Government This category includes the entries dealing with the system for the adoption and administration of public policy.

Government - note This entry includes miscellaneous government information of significance not included elsewhere.

Government type This entry gives the basic form of government. Definitions of the major governmental terms are as follows. (Note that for some countries more than one definition applies.):

Absolute monarchy - a form of government where the monarch rules unhindered, i.e., without any laws, constitution, or legally organized opposition.

Anarchy - a condition of lawlessness or political disorder brought about by the absence of governmental authority.

Authoritarian - a form of government in which state authority is imposed onto many aspects of citizens' lives.

Commonwealth - a nation, state, or other political entity founded on law and united by a compact of the people for the common good.

Communist - a system of government in which the state plans and controls the economy and a single - often authoritarian - party holds power; state controls are imposed with the elimination of private ownership of property or capital while claiming to make progress toward a higher social order in which all goods are equally shared by the people (i.e., a classless society).

Confederacy (Confederation) - a union by compact or treaty between states, provinces, or territories, that creates a central government with limited powers; the constituent entities retain supreme authority over all matters except those delegated to the central government.

Constitutional - a government by or operating under an authoritative document (constitution) that sets forth the system of fundamental laws and principles that determines the nature, functions, and limits of that government.

Constitutional democracy - a form of government in which the sovereign power of the people is spelled out in a governing constitution.

Constitutional monarchy - a system of government in which a monarch is guided by a constitution whereby his/her rights, duties, and responsibilities are spelled out in written law or by custom.

Democracy - a form of government in which the supreme power is retained by the people, but which is usually exercised indirectly through a system of representation and delegated authority periodically renewed.

Democratic republic - a state in which the supreme power rests in the body of citizens entitled to vote for officers and representatives responsible to them.

Dictatorship - a form of government in which a ruler or small clique wield absolute power (not restricted by a constitution or laws).

Ecclesiastical - a government administered by a church.

Emirate - similar to a monarchy or sultanate, but a government in which the supreme power is in the hands of an emir (the ruler of a Muslim state); the emir may be an absolute overlord or a sovereign with constitutionally limited authority.

Federal (Federation) - a form of government in which sovereign power is formally divided - usually by means of a constitution - between a central authority and a number of constituent regions (states, colonies, or provinces) so that each region retains some management of its internal affairs; differs from a confederacy in that the central government exerts influence directly upon both individuals as well as upon the regional units.

Federal republic - a state in which the powers of the central government are restricted and in which the component parts (states, colonies, or provinces) retain a degree of self-government; ultimate sovereign power rests with the voters who chose their governmental representatives.

Islamic republic - a particular form of government adopted by some Muslim states; although such a state is, in theory, a theocracy, it remains a republic, but its laws are required to be compatible with the laws of Islam.

Maoism - the theory and practice of Marxism-Leninism developed in China by Mao Zedong (Mao Tse-tung), which states that a continuous revolution is necessary if the leaders of a communist state are to keep in touch with the people.

Marxism - the political, economic, and social principles espoused by 19th century economist Karl Marx; he viewed the struggle of workers as a progression of historical forces that would proceed from a class struggle of the proletariat (workers) exploited by capitalists (business owners), to a socialist "dictatorship of the proletariat," to, finally, a classless society - Communism.

Marxism-Leninism - an expanded form of communism developed by Lenin from doctrines of Karl Marx; Lenin saw imperialism as the final stage of capitalism and shifted the focus of workers' struggle from developed to underdeveloped countries.

Monarchy - a government in which the supreme power is lodged in the hands of a monarch who reigns over a state or territory, usually for life and by hereditary right; the monarch may be either a sole absolute ruler or a sovereign - such as a king, queen, or prince - with constitutionally limited authority.

Oligarchy - a government in which control is exercised by a small group of individuals whose authority generally is based on wealth or power.

Parliamentary democracy - a political system in which the legislature (parliament) selects the government - a prime minister, premier, or chancellor along with the cabinet ministers - according to party strength as expressed in elections; by this system, the government acquires a dual responsibility: to the people as well as to the parliament.

Parliamentary government (Cabinet-Parliamentary government) - a government in which members of an executive branch (the cabinet and its leader - a prime minister, premier, or chancellor) are nominated to their positions by a legislature or parliament, and are directly responsible to it; this type of government can be dissolved at will by the parliament (legislature) by

means of a no confidence vote or the leader of the cabinet may dissolve the parliament if it can no longer function.

Parliamentary monarchy - a state headed by a monarch who is not actively involved in policy formation or implementation (i.e., the exercise of sovereign powers by a monarch in a ceremonial capacity); true governmental leadership is carried out by a cabinet and its head - a prime minister, premier, or chancellor - who are drawn from a legislature (parliament).

Presidential - a system of government where the executive branch exists separately from a legislature (to which it is generally not accountable).

Republic - a representative democracy in which the people's elected deputies (representatives), not the people themselves, vote on legislation.

Socialism - a government in which the means of planning, producing, and distributing goods is controlled by a central government that theoretically seeks a more just and equitable distribution of property and labor; in actuality, most socialist governments have ended up being no more than dictatorships over workers by a ruling elite.

Sultanate - similar to a monarchy, but a government in which the supreme power is in the hands of a sultan (the head of a Muslim state); the sultan may be an absolute ruler or a sovereign with constitutionally limited authority.

Theocracy - a form of government in which a Deity is recognized as the supreme civil ruler, but the Deity's laws are interpreted by ecclesiastical authorities (bishops, mullahs, etc.); a government subject to religious authority.

Totalitarian - a government that seeks to subordinate the individual to the state by controlling not only all political and economic matters, but also the attitudes, values, and beliefs of its population.

Greenwich Mean Time (GMT) The mean solar time at the Greenwich Meridian, Greenwich, England, with the hours and days, since 1925, reckoned from midnight. GMT is now a historical term having been replaced by UTC on 1 January 1972. See **Coordinated Universal Time**.

Gross domestic product See **GDP**

Gross national product See **GNP**

Gross world product See **GWP**

GWP This entry gives the gross world product (GWP) or aggregate value of all final goods and services produced worldwide in a given year.

Heliports This entry gives the total number of heliports with hard-surface

runways, helipads, or landing areas that support routine sustained helicopter operations exclusively and have support facilities including one or more of the following facilities: lighting, fuel, passenger handling, or maintenance. It includes former airports used exclusively for helicopter operations but excludes heliports limited to day operations and natural clearings that could support helicopter landings and takeoffs.

HIV/AIDs - adult prevalence rate This entry gives an estimate of the percentage of adults (aged 15-49) living with HIV/AIDS. The adult prevalence rate is calculated by dividing the estimated number of adults living with HIV/AIDS at yearend by the total adult population at yearend.

HIV/AIDs - deaths This entry gives an estimate of the number of adults and children who died of AIDS during a given calendar year.

HIV/AIDS - people living with HIV/AIDS This entry gives an estimate of all people (adults and children) alive at yearend with HIV infection, whether or not they have developed symptoms of AIDS.

Hospital bed density This entry provides the number of hospital beds per 1,000 people; it serves as a general measure of inpatient service availability. Hospital beds include inpatient beds available in public, private, general, and specialized hospitals and rehabilitation centers. In most cases, beds for both acute and chronic care are included. Because the level of inpatient services required for individual countries depends on several factors - such as demographic issues and the burden of disease - there is no global target for the number of hospital beds per country. So, while 2 beds per 1,000 in one country may be sufficient, 2 beds per 1,000 in another may be woefully inadequate because of the number of people hospitalized by disease.

Household income or consumption by percentage share Data on household income or consumption come from household surveys, with the results adjusted for household size. Nations use different standards and procedures in collecting and adjusting the data. Surveys based on income will normally show a more unequal distribution than surveys based on consumption. The quality of surveys is improving with time, yet caution is still necessary in making inter-country comparisons.

Hydrographic data codes See **Data codes**

Illicit drugs This entry gives information on the five categories of illicit drugs - narcotics, stimulants, depressants (sedatives), hallucinogens, and cannabis. These categories include many drugs legally produced and prescribed by doctors as well

as those illegally produced and sold outside of medical channels.

Cannabis (*Cannabis sativa*) is the common hemp plant, which provides hallucinogens with some sedative properties, and includes marijuana (pot, Acapulco gold, grass, reefer), tetrahydrocannabinol (THC, Marinol), hashish (hash), and hashish oil (hash oil).

Coca (mostly *Erythroxylum coca*) is a bush with leaves that contain the stimulant used to make cocaine. Coca is not to be confused with cocoa, which comes from cacao seeds and is used in making chocolate, cocoa, and cocoa butter.

Cocaine is a stimulant derived from the leaves of the coca bush.

Depressants (sedatives) are drugs that reduce tension and anxiety and include chloral hydrate, barbiturates (Amytal, Nembutal, Seconal, phenobarbital), benzodiazepines (Librium, Valium), methaqualone (Quaalude), glutethimide (Doriden), and others (Equanil, Placidyl, Valmid).

Drugs are any chemical substances that effect a physical, mental, emotional, or behavioral change in an individual.

Drug abuse is the excessive use of any licit or illicit chemical substance that results in physical, mental, emotional, or behavioral impairment in an individual.

Hallucinogens are drugs that affect sensation, thinking, self-awareness, and emotion. Hallucinogens include LSD (acid, microdot), mescaline and peyote (mexc, buttons, cactus), amphetamine variants (PMA, STP, DOB), phencyclidine (PCP, angel dust, hog), phencyclidine analogues (PCE, PCPy, TCP), and others (psilocybin, psilocyn).

Hashish is the resinous exudate of the cannabis or hemp plant (*Cannabis sativa*).

Heroin is a semisynthetic derivative of morphine.

Mandrax is a trade name for methaqualone, a pharmaceutical depressant.

Marijuana is the dried leaf of the cannabis or hemp plant (*Cannabis sativa*).

Methaqualone is a pharmaceutical depressant, referred to as mandrax in Southwest Asia and Africa.

Narcotics are drugs that relieve pain, often induce sleep, and refer to opium, opium derivatives, and synthetic substitutes. Natural narcotics include opium (paregoric, parepectolin), morphine (MS-Contin, Roxanol), codeine (Tylenol with codeine, Empirin with codeine, Robitussin AC), and thebaine. Semisynthetic narcotics include heroin (horse, smack), and hydromorphone (Dilaudid). Synthetic narcotics include meperidine or Pethidine (Demerol,

Mepergan), methadone (Dolophine, Methadose), and others (Darvon, Lomotil).

Opium is the brown, gummy exudate of the incised, unripe seedpod of the opium poppy.

Opium poppy (*Papaver somniferum*) is the source for the natural and semisynthetic narcotics.

Poppy straw is the entire cut and dried opium poppy-plant material, other than the seeds. Opium is extracted from poppy straw in commercial operations that produce the drug for medical use.

Qat (kat, khat) is a stimulant from the buds or leaves of *Catha edulis* that is chewed or drunk as tea.

Quaaludes is the North American slang term for methaqualone, a pharmaceutical depressant.

Stimulants are drugs that relieve mild depression, increase energy and activity, and include cocaine (coke, snow, crack), amphetamines (Desoxyn, Dexedrine), ephedrine, ecstasy (clarity, essence, doctor, Adam), phenmetrazine (Preludin), methylphenidate (Ritalin), and others (Cylert, Sanorex, Tenuate).

Imports This entry provides the total US dollar amount of merchandise imports on a c.i.f. (cost, insurance, and freight) or f.o.b. (free on board) basis. These figures are calculated on an exchange rate basis, i.e., not in purchasing power parity (PPP) terms.

Imports - commodities This entry provides a listing of the highest-valued imported commodities.

Imports - partners This entry provides a rank ordering of trading partners starting with the most important; it sometimes includes the percent of total dollar value.

Independence For most countries, this entry gives the date that sovereignty was achieved and from which nation, empire, or trusteeship. For the other countries, the date given may not represent “independence” in the strict sense, but rather some significant nationhood event such as the traditional founding date or the date of unification, federation, confederation, establishment, fundamental change in the form of government, or state succession. For a number of countries, the establishment of statehood was a lengthy evolutionary process occurring over decades or even centuries. In such cases, several significant dates are cited. Dependent areas include the notation “none” followed by the nature of their dependency status. Also see the **Terminology** note.

Industrial production growth rate This entry gives the annual percentage

increase in industrial production (includes manufacturing, mining, and construction).

Industries This entry provides a rank ordering of industries starting with the largest by value of annual output.

Infant mortality rate This entry gives the number of deaths of infants under one year old in a given year per 1,000 live births in the same year. This rate is often used as an indicator of the level of health in a country.

Inflation rate (consumer prices) This entry provides the annual inflation rate, as calculated by the percent change in current consumer prices from the previous year's consumer prices.

International disputes see **Disputes – international**.

International law organization participation This entry includes information on a country's acceptance of jurisdiction of the International Court of Justice (ICJ) and of the International Criminal Court (ICCt); 61 countries have accepted ICJ jurisdiction with reservations and 12 have accepted ICJ jurisdiction without reservations; 123 countries and the Palestine Liberation Organization have accepted ICCt jurisdiction. Appendix B: International Organizations and Groups explains the differing mandates of the ICJ and ICCt. Refer to an online edition of *The World Factbook* to access this appendix.

International organization participation This entry lists in alphabetical order by abbreviation those international organizations in which the subject country is a member or participates in some other way.

International organizations This information is presented in Appendix B: International Organizations and Groups which includes the name, abbreviation, date established, aim, members by category, and, when available, contact information (including address, phone, fax, email address, and website address). Refer to an online edition of *The World Factbook* to access this appendix.

Internet country code This entry includes the two-letter codes maintained by the International Organization for Standardization (ISO) in the ISO 3166 Alpha-2 list and used by the Internet Assigned Numbers Authority (IANA) to establish country-coded top-level domains (ccTLDs).

Internet users This entry gives the *total* number of individuals within a country who can access the Internet at home, via any device type (computer or mobile) and connection. The *percent of population* with Internet access (i.e., the penetration rate) helps gauge how widespread Internet use is within a country.

Statistics vary from country to country and may include users who access the Internet at least several times a week to those who access it only once within a period of several months.

Introduction This category includes one entry, **Background**.

Investment (gross fixed) This entry records total business spending on fixed assets, such as factories, machinery, equipment, dwellings, and inventories of raw materials, which provide the basis for future production. It is the measured gross of the depreciation of the assets, i.e., it includes investment that merely replaces worn-out or scrapped capital.

Irrigated land This entry gives the number of square kilometers of land area that is artificially supplied with water.

Judicial branch This entry includes three subfields. The *highest court(s)* subfield includes the name(s) of a country's highest level court(s), the number and titles of the judges, and the types of cases heard by the court, which commonly are based on civil, criminal, administrative, and constitutional law. A number of countries have separate constitutional courts. The *judge selection and term of office* subfield includes the organizations and associated officials responsible for nominating and appointing judges, and a brief description of the process. The selection process can be indicative of the independence of a country's court system from other branches of its government. Also included in this subfield are judges' tenures, which can range from a few years, to a specified retirement age, to lifelong appointments. The *subordinate courts* subfield lists the courts lower in the hierarchy of a country's court system. A few countries with federal-style governments, such as Brazil, Canada, and the US, in addition to their federal court, have separate state- or province-level court systems, though generally the two systems interact.

Labor force This entry contains the total labor force figure.

Labor force - by occupation This entry lists the percentage distribution of the labor force by sector of occupation. *Agriculture* includes farming, fishing, and forestry. *Industry* includes mining, manufacturing, energy production, and construction. *Services* cover government activities, communications, transportation, finance, and all other economic activities that do not produce material goods. The distribution will total less than 100 percent if the data are incomplete and may range from 99-101 percent due to rounding.

Land boundaries This entry contains the *total* length of all land boundaries and the individual lengths for each of the contiguous *border countries*. When

available, official lengths published by national statistical agencies are used. Because surveying methods may differ, country border lengths reported by contiguous countries may differ.

Land use This entry contains the percentage shares of total land area for three different types of land use: *agricultural land*, *forest*, and *other*; *agricultural land* is further divided into *arable land* - land cultivated for crops like wheat, maize, and rice that are replanted after each harvest, *permanent crops* - land cultivated for crops like citrus, coffee, and rubber that are not replanted after each harvest, and includes land under flowering shrubs, fruit trees, nut trees, and vines, and *permanent pastures* and meadows – land used for at least five years or more to grow herbaceous forage, either cultivated or growing naturally; *forest* area is land spanning more than 0.5 hectare with trees higher than five meters and a canopy cover of more than 10% to include windbreaks, shelterbelts, and corridors of trees greater than 0.5 hectare and at least 20 m wide; land classified as *other* includes built-up areas, roads and other transportation features, barren land, or wasteland.

Languages This entry provides a listing of languages spoken in each country and specifies any that are official national or regional languages. When data is available, the languages spoken in each country are broken down according to the percent of the total population speaking each language as a first language, unless otherwise noted. For those countries without available data, languages are listed in rank order based on prevalence, starting with the most-spoken language.

Legal system This entry provides the description of a country's legal system. A statement on judicial review of legislative acts is also included for a number of countries. The legal systems of nearly all countries are generally modeled upon elements of five main types: civil law (including French law, the Napoleonic Code, Roman law, Roman-Dutch law, and Spanish law); common law (including United State law); customary law; mixed or pluralistic law; and religious law (including Islamic law). An additional type of legal system - international law, which governs the conduct of independent nations in their relationships with one another - is also addressed below. The following list describes these legal systems, the countries or world regions where these systems are enforced, and a brief statement on the origins and major features of each.

Civil Law - The most widespread type of legal system in the world, applied in various forms in approximately 150 countries. Also referred to as European continental law, the civil law system is derived mainly from the Roman *Corpus Juris Civilis*, (Body of Civil Law), a collection of laws and legal interpretations compiled under the East Roman (Byzantine) Emperor Justinian I between A.D.

528 and 565. The major feature of civil law systems is that the laws are organized into systematic written codes. In civil law the sources recognized as authoritative are principally legislation - especially codifications in constitutions or statutes enacted by governments - and secondarily, custom. The civil law systems in some countries are based on more than one code.

Common Law - A type of legal system, often synonymous with “English common law,” which is the system of England and Wales in the UK, and is also in force in approximately 80 countries formerly part of or influenced by the former British Empire. English common law reflects Biblical influences as well as remnants of law systems imposed by early conquerors including the Romans, Anglo-Saxons, and Normans. Some legal scholars attribute the formation of the English common law system to King Henry II (r.1154-1189). Until the time of his reign, laws customary among England’s various manorial and ecclesiastical (church) jurisdictions were administered locally. Henry II established the king’s court and designated that laws were “common” to the entire English realm. The foundation of English common law is “legal precedent” - referred to as *stare decisis*, meaning “to stand by things decided.” In the English common law system, court judges are bound in their decisions in large part by the rules and other doctrines developed - and supplemented over time - by the judges of earlier English courts.

Customary Law - A type of legal system that serves as the basis of, or has influenced, the present-day laws in approximately 40 countries - mostly in Africa, but some in the Pacific islands, Europe, and the Near East. Customary law is also referred to as “primitive law,” “unwritten law,” “indigenous law,” and “folk law.” There is no single history of customary law such as that found in Roman civil law, English common law, Islamic law, or the Napoleonic Civil Code. The earliest systems of law in human society were customary, and usually developed in small agrarian and hunter-gatherer communities. As the term implies, customary law is based upon the customs of a community. Common attributes of customary legal systems are that they are seldom written down, they embody an organized set of rules regulating social relations, and they are agreed upon by members of the community. Although such law systems include sanctions for law infractions, resolution tends to be reconciliatory rather than punitive. A number of African states practiced customary law many centuries prior to colonial influences. Following colonization, such laws were written down and incorporated to varying extents into the legal systems imposed by their colonial powers.

European Union Law - A sub-discipline of international law known as

“supranational law” in which the rights of sovereign nations are limited in relation to one another. Also referred to as the Law of the European Union or Community Law, it is the unique and complex legal system that operates in tandem with the laws of the 27 member states of the European Union (EU). Similar to federal states, the EU legal system ensures compliance from the member states because of the Union’s decentralized political nature. The European Court of Justice (ECJ), established in 1952 by the Treaty of Paris, has been largely responsible for the development of EU law. Fundamental principles of European Union law include: *subsidiarity* - the notion that issues be handled by the smallest, lowest, or least centralized competent authority; *proportionality* - the EU may only act to the extent needed to achieve its objectives; *conferral* - the EU is a union of member states, and all its authorities are voluntarily granted by its members; *legal certainty* - requires that legal rules be clear and precise; and *precautionary principle* - a moral and political principle stating that if an action or policy might cause severe or irreversible harm to the public or to the environment, in the absence of a scientific consensus that harm would not ensue, the burden of proof falls on those who would advocate taking the action.

French Law - A type of civil law that is the legal system of France. The French system also serves as the basis for, or is mixed with, other legal systems in approximately 50 countries, notably in North Africa, the Near East, and the French territories and dependencies. French law is primarily codified or systematic written civil law. Prior to the French Revolution (1789-1799), France had no single national legal system. Laws in the northern areas of present-day France were mostly local customs based on privileges and exemptions granted by kings and feudal lords, while in the southern areas Roman law predominated. The introduction of the Napoleonic Civil Code during the reign of Napoleon I in the first decade of the 19th century brought major reforms to the French legal system, many of which remain part of France’s current legal structure, though all have been extensively amended or redrafted to address a modern nation. French law distinguishes between “public law” and “private law.” Public law relates to government, the French Constitution, public administration, and criminal law. Private law covers issues between private citizens or corporations. The most recent changes to the French legal system - introduced in the 1980s - were the decentralization laws, which transferred authority from centrally appointed government representatives to locally elected representatives of the people.

International Law - The law of the international community, or the body of

customary rules and treaty rules accepted as legally binding by states in their relations with each other. International law differs from other legal systems in that it primarily concerns sovereign political entities. There are three separate disciplines of international law: public international law, which governs the relationship between provinces and international entities and includes treaty law, law of the sea, international criminal law, and international humanitarian law; private international law, which addresses legal jurisdiction; and supranational law - a legal framework wherein countries are bound by regional agreements in which the laws of the member countries are held inapplicable when in conflict with supranational laws. At present the European Union is the only entity under a supranational legal system. The term "international law" was coined by Jeremy Bentham in 1780 in his *Principles of Morals and Legislation*, though laws governing relations between states have been recognized from very early times (many centuries B.C.). Modern international law developed alongside the emergence and growth of the European nation-states beginning in the early 16th century. Other factors that influenced the development of international law included the revival of legal studies, the growth of international trade, and the practice of exchanging emissaries and establishing legations. The sources of International law are set out in Article 38-1 of the Statute of the International Court of Justice within the UN Charter.

Islamic Law - The most widespread type of religious law, it is the legal system enforced in over 30 countries, particularly in the Near East, but also in Central and South Asia, Africa, and Indonesia. In many countries Islamic law operates in tandem with a civil law system. Islamic law is embodied in the sharia, an Arabic word meaning "the right path." Sharia covers all aspects of public and private life and organizes them into five categories: obligatory, recommended, permitted, disliked, and forbidden. The primary sources of sharia law are the Qur'an, believed by Muslims to be the word of God revealed to the Prophet Muhammad by the angel Gabriel, and the Sunnah, the teachings of the Prophet and his works. In addition to these two primary sources, traditional Sunni Muslims recognize the consensus of Muhammad's companions and Islamic jurists on certain issues, called *ijmas*, and various forms of reasoning, including analogy by legal scholars, referred to as *qiyas*. Shia Muslims reject *ijmas* and *qiyas* as sources of sharia law.

Mixed Law - Also referred to as pluralistic law, mixed law consists of elements of some or all of the other main types of legal systems - civil, common, customary, and religious. The mixed legal systems of a number of countries came about when colonial powers overlaid their own legal systems upon

colonized regions but retained elements of the colonies' existing legal systems.

Napoleonic Civil Code - A type of civil law, referred to as the Civil Code or *Code Civil des Francais*, forms part of the legal system of France, and underpins the legal systems of Bolivia, Egypt, Lebanon, Poland, and the US state of Louisiana. The Civil Code was established under Napoleon I, enacted in 1804, and officially designated the *Code Napoleon* in 1807. This legal system combined the Teutonic civil law tradition of the northern provinces of France with the Roman law tradition of the southern and eastern regions of the country. The Civil Code bears similarities in its arrangement to the Roman *Body of Civil Law* (see Civil Law above). As enacted in 1804, the Code addressed personal status, property, and the acquisition of property. Codes added over the following six years included civil procedures, commercial law, criminal law and procedures, and a penal code.

Religious Law - A legal system which stems from the sacred texts of religious traditions and in most cases professes to cover all aspects of life as a seamless part of devotional obligations to a transcendent, imminent, or deep philosophical reality. Implied as the basis of religious law is the concept of unalterability, because the word of God cannot be amended or legislated against by judges or governments. However, a detailed legal system generally requires human elaboration. The main types of religious law are sharia in Islam, halakha in Judaism, and canon law in some Christian groups. Sharia is the most widespread religious legal system (see Islamic Law), and is the sole system of law for countries including Iran, the Maldives, and Saudi Arabia. No country is fully governed by halakha, but Jewish people may decide to settle disputes through Jewish courts and be bound by their rulings. Canon law is not a divine law as such because it is not found in revelation. It is viewed instead as human law inspired by the word of God and applying the demands of that revelation to the actual situation of the church. Canon law regulates the internal ordering of the Roman Catholic Church, the Eastern Orthodox Church, and the Anglican Communion.

Roman Law - A type of civil law developed in ancient Rome and practiced from the time of the city's founding (traditionally 753 B.C.) until the fall of the Western Empire in the 5th century A.D. Roman law remained the legal system of the Byzantine (Eastern Empire) until the fall of Constantinople in 1453. Preserved fragments of the first legal text, known as the Law of the Twelve Tables, dating from the 5th century B.C., contained specific provisions designed to change the prevailing customary law. Early Roman law was drawn from custom and statutes; later, during the time of the empire, emperors

asserted their authority as the ultimate source of law. The basis for Roman laws was the idea that the exact form - not the intention - of words or of actions produced legal consequences. It was only in the late 6th century A.D. that a comprehensive Roman code of laws was published (see Civil Law above). Roman law served as the basis of law systems developed in a number of continental European countries.

Roman-Dutch Law - A type of civil law based on Roman law as applied in the Netherlands. Roman-Dutch law serves as the basis for legal systems in seven African countries, as well as Guyana, Indonesia, and Sri Lanka. This law system, which originated in the province of Holland and expanded throughout the Netherlands (to be replaced by the French Civil Code in 1809), was instituted in a number of sub-Saharan African countries during the Dutch colonial period. The Dutch jurist/philosopher Hugo Grotius was the first to attempt to reduce Roman-Dutch civil law into a system in his *Jurisprudence of Holland* (written 1619-20, commentary published 1621). The Dutch historian/lawyer Simon van Leeuwen coined the term "Roman-Dutch law" in 1652.

Spanish Law - A type of civil law, often referred to as the Spanish Civil Code, it is the present legal system of Spain and is the basis of legal systems in 12 countries mostly in Central and South America, but also in southwestern Europe, northern and western Africa, and southeastern Asia. The Spanish Civil Code reflects a complex mixture of customary, Roman, Napoleonic, local, and modern codified law. The laws of the Visigoth invaders of Spain in the 5th to 7th centuries had the earliest major influence on Spanish legal system development. The Christian Reconquest of Spain in the 11th through 15th centuries witnessed the development of customary law, which combined canon (religious) and Roman law. During several centuries of Hapsburg and Bourbon rule, systematic recompilations of the existing national legal system were attempted, but these often conflicted with local and regional customary civil laws. Legal system development for most of the 19th century concentrated on formulating a national civil law system, which was finally enacted in 1889 as the Spanish Civil Code. Several sections of the code have been revised, the most recent of which are the penal code in 1989 and the judiciary code in 2001. The Spanish Civil Code separates public and private law. Public law includes constitutional law, administrative law, criminal law, process law, financial and tax law, and international public law. Private law includes civil law, commercial law, labor law, and international private law.

United States Law - A type of common law, which is the basis of the legal system of the United States and that of its island possessions in the Caribbean

and the Pacific. This legal system has several layers, more possibly than in most other countries, and is due in part to the division between federal and state law. The United States was founded not as one nation but as a union of 13 colonies, each claiming independence from the British Crown. The US Constitution, implemented in 1789, began shifting power away from the states and toward the federal government, though the states today retain substantial legal authority. US law draws its authority from four sources: *constitutional law*, *statutory law*, *administrative regulations*, and *case law*. Constitutional law is based on the US Constitution and serves as the supreme federal law. Taken together with those of the state constitutions, these documents outline the general structure of the federal and state governments and provide the rules and limits of power. US statutory law is legislation enacted by the US Congress and is codified in the United States Code. The 50 state legislatures have similar authority to enact state statutes. Administrative law is the authority delegated to federal and state executive agencies. Case law, also referred to as common law, covers areas where constitutional or statutory law is lacking. Case law is a collection of judicial decisions, customs, and general principles that began in England centuries ago, that were adopted in America at the time of the Revolution, and that continue to develop today.

Legislative branch This entry has three subfields. The *description* subfield provides the legislative structure (unicameral – single house; bicameral – an upper and a lower house); formal name(s); number of member seats; types of constituencies or voting districts (single seat, multi-seat, nationwide); electoral voting system(s); and member term of office. The elections subfield includes the dates of the last election and next election. The *election results* subfield lists *percent of vote by party/coalition* and *number of seats by party/coalition* in the last election (in bicameral legislatures, upper house results are listed first). In general, parties with less than four seats and less than 4 percent of the vote are aggregated and listed as “other,” and non-party-affiliated seats are listed as “independent.” Also, the entries for some countries include two sets of *percent of vote by party* and *seats by party*; the former reflects results following a formal election announcement, and the latter – following a mid-term or byelection – reflects changes in a legislature’s political party composition.

Of the approximately 240 countries with legislative bodies, approximately two-thirds are unicameral, and the remainder, bicameral. The selection of legislative members is typically governed by a country’s constitution and/or its electoral laws. In general, members are either directly elected by a country’s eligible voters

using a defined electoral system; indirectly elected or selected by its province, state, or department legislatures; or appointed by the country's executive body. Legislative members in many countries are selected both directly and indirectly, and the electoral laws of some countries reserve seats for women and various ethnic and minority groups.

Worldwide, the two predominant direct voting systems are plurality/majority and proportional representation. The most common of the several plurality/majority systems is simple majority vote, or first-past-the-post, in which the candidate receiving the most votes is elected. Countries' legislatures such as Bangladesh's Parliament, Malaysia's House of Representatives, and the United Kingdom's House of Commons use this system. Another common plurality/majority system – absolute majority or two-round – requires that candidates win at least 50 percent of the votes to be elected. If none of the candidates meets that vote threshold in the initial election, a second poll or "runoff" is held soon after for the two top vote getters, and the candidate receiving a simple vote majority is declared the winner. Examples of the two-round system are Haiti's Chamber of Deputies, Mali's National Assembly, and Uzbekistan's Legislative Chamber. Other plurality/majority voting systems, referred to as preferential voting and generally used in multi-seat constituencies, are block vote and single non-transferable vote, in which voters cast their ballots by ranking their candidate preferences from highest to lowest.

Proportional representation electoral systems – in contrast to plurality/majority systems – generally award legislative seats to political parties in approximate proportion to the number of votes each receives. For example, in a 100-member legislature, if Party A receives 50 percent of the total vote, Party B, 30 percent, and Party C, 20 percent, then Party A would be awarded 50 seats, Party B 30 seats, and Party C 20 seats. There are various forms of proportional representation and the degree of reaching proportionality varies. Some forms of proportional representation are focused solely on achieving the proportional representation of different political parties and voters cast ballots only for political parties, whereas in other forms, voters cast ballots for individual candidates within a political party.

Many countries – both unicameral and bicameral – use a mix of electoral methods, in which a portion of legislative seats are awarded using one system, such as plurality/majority, while the remaining seats are awarded by another system, such as proportional representation. Many countries with bicameral legislatures use

different voting systems for the two chambers.

Life expectancy at birth This entry contains the average number of years to be lived by a group of people born in the same year, if mortality at each age remains constant in the future. Life expectancy at birth is also a measure of overall quality of life in a country and summarizes the mortality at all ages. It can also be thought of as indicating the potential return on investment in human capital and is necessary for the calculation of various actuarial measures.

Literacy This entry includes a *definition* of literacy and UNESCO's percentage estimates for populations aged 15 years and over, including *total population*, *males*, and *females*. There are no universal definitions and standards of literacy. Unless otherwise specified, all rates are based on the most common definition - the ability to read and write at a specified age. Detailing the standards that individual countries use to assess the ability to read and write is beyond the scope of the *Factbook*. Information on literacy, while not a perfect measure of educational results, is probably the most easily available and valid for international comparisons. Low levels of literacy, and education in general, can impede the economic development of a country in the current rapidly changing, technology-driven world.

Location This entry identifies the country's regional location, neighboring countries, and adjacent bodies of water.

Major aquifers This entry lists the major (mega) aquifer system(s) that underlie a country, keeping in mind that many of these mega aquifers are so large that they extend under multiple countries. More than 30% of freshwater is held in underground aquifers. There is great variation in the size of such aquifers, but a limited number of very large aquifer systems contain a majority of the World's groundwater volume in storage.

Major infectious diseases This entry lists major infectious diseases likely to be encountered in countries where the risk of such diseases is assessed to be very high as compared to the United States. These infectious diseases represent risks to US Government personnel traveling to the specified country for a period of less than three years. The *degree of risk* is assessed by considering the foreign nature of these infectious diseases, their severity, and the probability of being affected by the diseases present. The diseases listed do not necessarily represent the total disease burden experienced by the local population.

The risk to an individual traveler varies considerably by the specific location, visit duration, type of activities, type of accommodations, time of year, and other

factors. Consultation with a travel medicine physician is needed to evaluate individual risk and recommend appropriate preventive measures such as vaccines.

Diseases are organized into the following six exposure categories shown in *italics and listed in typical descending order of risk*. Note: The sequence of exposure categories listed in individual country entries may vary according to local conditions.

food or waterborne diseases acquired through eating or drinking:

Hepatitis A - viral disease that interferes with the functioning of the liver; spread through consumption of food or water contaminated with fecal matter, principally in areas of poor sanitation; victims exhibit fever, jaundice, and diarrhea; 15% of victims will experience prolonged symptoms over 6-9 months; vaccine available.

Hepatitis E - water-borne viral disease that interferes with the functioning of the liver; most commonly spread through fecal contamination of drinking water; victims exhibit jaundice, fatigue, abdominal pain, and dark colored urine.

Typhoid fever - bacterial disease spread through contact with food or water contaminated by fecal matter or sewage; victims exhibit sustained high fevers; left untreated, mortality rates can reach 20%.

vector-borne diseases acquired through the bite of an infected arthropod:

Malaria - caused by single-cell parasitic protozoa *Plasmodium*; transmitted to humans via the bite of the female *Anopheles* mosquito; parasites multiply in the liver attacking red blood cells resulting in cycles of fever, chills, and sweats accompanied by anemia; death due to damage to vital organs and interruption of blood supply to the brain; endemic in 85, mostly tropical, countries with 95% of cases and the majority of 0.4-0.6 million estimated annual deaths occurring in sub-Saharan Africa (six countries – Nigeria, the Democratic Republic of the Congo, Uganda, Mozambique, Angola and Burkina Faso – accounted for just over half of all malaria deaths globally in 2020).

Dengue fever - mosquito-borne (*Aedes aegypti*) viral disease associated with urban environments; manifests as sudden onset of fever and severe headache; occasionally produces shock and hemorrhage leading to death in 5% of cases.

Yellow fever - mosquito-borne (in urban areas *Aedes aegypti*) viral disease associated with urban environments; severity ranges from influenza-like symptoms to severe hepatitis and hemorrhagic fever; occurs only in tropical South America and sub-Saharan Africa, where most cases are reported; fatality rate is less than 20%.

Japanese Encephalitis - mosquito-borne (*Culex tritaeniorhynchus*) viral disease associated with rural areas in Asia; acute encephalitis can progress to paralysis, coma, and death; fatality rates 30%.

African Trypanosomiasis - caused by the parasitic protozoa *Trypanosoma*; transmitted to humans via the bite of bloodsucking tsetse flies; infection leads to malaise and irregular fevers and, in advanced cases when the parasites invade the central nervous system, coma and death; endemic in 36 countries of sub-Saharan Africa; cattle and wild animals act as reservoir hosts for the parasites.

Cutaneous Leishmaniasis - caused by the parasitic protozoa *leishmania*; transmitted to humans via the bite of sandflies; results in skin lesions that may become chronic; endemic in 88 countries; 90% of cases occur in Iran, Afghanistan, Syria, Saudi Arabia, Brazil, and Peru; wild and domesticated animals as well as humans can act as reservoirs of infection.

Plague - bacterial disease transmitted by fleas normally associated with rats; person-to-person airborne transmission also possible; recent plague epidemics occurred in areas of Asia, Africa, and South America associated with rural areas or small towns and villages; manifests as fever, headache, and painfully swollen lymph nodes; disease progresses rapidly and without antibiotic treatment leads to pneumonic form with a death rate in excess of 50%.

Crimean-Congo hemorrhagic fever - tick-borne viral disease; infection may also result from exposure to infected animal blood or tissue; geographic distribution includes Africa, Asia, the Middle East, and Eastern Europe; sudden onset of fever, headache, and muscle aches followed by hemorrhaging in the bowels, urine, nose, and gums; mortality rate is approximately 30%.

Rift Valley fever - viral disease affecting domesticated animals and humans; transmission is by mosquito and other biting insects; infection may also occur through handling of infected meat or contact with blood; geographic distribution includes eastern and southern Africa where cattle and sheep are raised; symptoms are generally mild with fever and some liver abnormalities, but the disease may progress to hemorrhagic fever, encephalitis, or ocular disease; fatality rates are low at about 1% of cases.

Chikungunya - mosquito-borne (*Aedes aegypti*) viral disease associated with urban environments, similar to Dengue Fever; characterized by sudden onset of fever, rash, and severe joint pain usually lasting 3-7 days, some cases result in persistent arthritis.

water-contact diseases acquired through swimming or wading in freshwater lakes, streams, and rivers:

Leptospirosis - bacterial disease that affects animals and humans; infection occurs through contact with water, food, or soil contaminated by animal urine; symptoms include high fever, severe headache, vomiting, jaundice, and diarrhea; untreated, the disease can result in kidney damage, liver failure, meningitis, or respiratory distress; fatality rates are low but left untreated recovery can take months.

Schistosomiasis - caused by parasitic trematode flatworm *Schistosoma*; fresh water snails act as intermediate host and release larval form of parasite that penetrates the skin of people exposed to contaminated water; worms mature and reproduce in the blood vessels, liver, kidneys, and intestines releasing eggs, which become trapped in tissues triggering an immune response; may manifest as either urinary or intestinal disease resulting in decreased work or learning capacity; mortality, while generally low, may occur in advanced cases usually due to bladder cancer; endemic in 74 developing countries with 80% of infected people living in sub-Saharan Africa; humans act as the reservoir for this parasite.

aerosolized dust or soil-contact disease acquired through inhalation of aerosols contaminated with rodent urine:

Lassa fever - viral disease carried by rats of the genus *Mastomys*; endemic in portions of West Africa; infection occurs through direct contact with or consumption of food contaminated by rodent urine or fecal matter containing virus particles; fatality rate can reach 50% in epidemic outbreaks.

respiratory disease acquired through close contact with an infectious person:

Meningococcal meningitis - bacterial disease causing an inflammation of the lining of the brain and spinal cord; one of the most important bacterial pathogens is *Neisseria meningitidis* because of its potential to cause epidemics; symptoms include stiff neck, high fever, headaches, and vomiting; bacteria are transmitted from person to person by respiratory droplets and facilitated by close and prolonged contact resulting from crowded living conditions, often with a seasonal distribution; death occurs in 5-15% of cases, typically within 24-48 hours of onset of symptoms; highest burden of meningococcal disease occurs in the hyperendemic region of sub-Saharan Africa known as the “Meningitis Belt” which stretches from Senegal east to Ethiopia.

animal-contact disease acquired through direct contact with local animals:

Rabies - viral disease of mammals usually transmitted through the bite of an infected animal, most commonly dogs; virus affects the central nervous system causing brain alteration and death; symptoms initially are non-specific fever and headache progressing to neurological symptoms; death occurs within days

of the onset of symptoms.

Major lakes (area sq km) This entry describes one of the two major surface hydrological features of a country: large localized water bodies termed lakes (the other feature is rivers). The entry contains a list of major natural lakes, defined as having an area of 500 sq km or greater. Taken together with major rivers, these features constitute the primary sources of surface freshwater.

Major ocean currents This field describes the major ocean currents found in the ocean basins. Oceanic currents describe the movement of water from one location to another. Currents are generally measured in meters per second or in knots (1 knot = 1.85 kilometers per hour or 1.15 miles per hour). Oceanic currents are driven by three main factors:

1. The rise and fall of the *tides*. Tides create ocean currents, which are strongest near the shore, but also extend into bays and estuaries along the coast. These are called “tidal currents.” Tidal currents change in a very regular pattern and can be predicted for future dates. In some locations, strong tidal currents can travel at speeds of eight knots or more.
2. *Wind*. Winds drive currents that are at or near the ocean’s surface. Near coastal areas winds tend to drive currents on a localized scale and can result in phenomena like coastal upwelling. On a more global scale, in the open ocean, winds drive currents that circulate water for thousands of miles throughout the ocean basins.
3. *Thermohaline circulation*. This is a circulatory process driven by density differences in water due to temperature (thermo) and salinity (haline) variations in different parts of the ocean. Currents driven by thermohaline circulation occur at both deep and shallow ocean levels and move much more slowly than tidal or surface currents.

Currents affect the Earth’s climate by driving warm water from the Equator and cold water from the poles around the Earth.

Major rivers (by length in km) This entry describes one of the two major surface hydrological features of a country: large flowing bodies of water termed rivers (the other feature is lakes). The entry includes a list of major rivers, defined as having a length of 1,000 km or greater. These rivers constitute major drainage basins or watersheds that capture the flow of the majority of surface water flow. Taken together with major lakes, these features constitute the primary sources of surface freshwater.

In instances where a river flows through more than one country, a note has been added to the field to indicate the country where the river starts and the country

where a river ends. [s] after country name indicates river source; [m] after country name indicates river mouth.

Major urban areas - population This entry provides the population of the capital and up to six major cities defined as urban agglomerations with populations of at least 750,000 people. An *urban agglomeration* is defined as comprising the city or town proper and also the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the city. For smaller countries, lacking urban centers of 750,000 or more, only the population of the capital is presented.

Major watersheds (area sq km) This entry lists the major watersheds or catchment areas of major rivers in a country in terms of their area in sq km. Most of the watersheds listed have an area of at least 500,000 sq km, although some smaller but significant watersheds are also included. The watersheds are listed by the ocean into which they drain. When that drainage occurs other than into the ocean proper, italics are used to identify the constituent part of an ocean (e.g., *Black Sea*). However, some watersheds, known as *endorheic basins*, drain internally with no external flow to the ocean. An example of an endorheic basin is the Caspian Sea, the World's largest lake. Given the size of the largest watersheds, they frequently occur across more than one country.

Map description A short description of the country map.

Map references This entry includes the name of the *Factbook* reference map on which a country may be found. Note that boundary representations on these maps are not necessarily authoritative. The entry on **Geographic coordinates** may be helpful in finding some smaller countries.

Marine fisheries This entry describes the major fisheries in the world's oceans in terms of the area covered, their ranking in terms of the global catch, the main producing countries, and the principal species caught. The information is provided by the Fisheries and Aquaculture Department of the UN Food and Agriculture Organization (FAO).

Maritime claims This entry includes the following claims, the definitions of which are excerpted from the United Nations Convention on the Law of the Sea (UNCLOS), which alone contains the full and definitive descriptions:

territorial sea - the sovereignty of a coastal state extends beyond its land territory and internal waters to an adjacent belt of sea, described as the territorial sea in the UNCLOS (Part II); this sovereignty extends to the air space over the territorial sea as well as its underlying seabed and subsoil; every state

has the right to establish the breadth of its territorial sea up to a limit not exceeding 12 nautical miles; the normal baseline for measuring the breadth of the territorial sea is the mean low-water line along the coast as marked on large-scale charts officially recognized by the coastal state; where the coasts of two states are opposite or adjacent to each other, neither state is entitled to extend its territorial sea beyond the median line, every point of which is equidistant from the nearest points on the baseline from which the territorial seas of both states are measured; the UNCLOS describes specific rules for archipelagic states.

contiguous zone - according to the UNCLOS (Article 33), this is a zone contiguous to a coastal state's territorial sea, over which it may exercise the control necessary to: prevent infringement of its customs, fiscal, immigration, or sanitary laws and regulations within its territory or territorial sea; punish infringement of the above laws and regulations committed within its territory or territorial sea; the contiguous zone may not extend beyond 24 nautical miles from the baselines from which the breadth of the territorial sea is measured (e.g., the US has claimed a 12-nautical mile contiguous zone in addition to its 12-nautical mile territorial sea); where the coasts of two states are opposite or adjacent to each other, neither state is entitled to extend its contiguous zone beyond the median line, every point of which is equidistant from the nearest points on the baseline from which the contiguous zone of both states are measured.

exclusive economic zone (EEZ) - the UNCLOS (Part V) defines the EEZ as a zone beyond and adjacent to the territorial sea in which a coastal state has: sovereign rights for the purpose of exploring and exploiting, conserving and managing the natural resources, whether living or non-living, of the waters superjacent to the seabed and of the seabed and its subsoil, and with regard to other activities for the economic exploitation and exploration of the zone, such as the production of energy from the water, currents, and winds; jurisdiction with regard to the establishment and use of artificial islands, installations, and structures; marine scientific research; the protection and preservation of the marine environment; the outer limit of the exclusive economic zone shall not exceed 200 nautical miles from the baselines from which the breadth of the territorial sea is measured.

continental shelf - the UNCLOS (Article 76) defines the continental shelf of a coastal state as comprising the seabed and subsoil of the submarine areas that extend beyond its territorial sea throughout the natural prolongation of its land territory to the outer edge of the continental margin, or to a distance of 200 nautical miles from the baselines from which the breadth of the territorial sea is

measured where the outer edge of the continental margin does not extend up to that distance; the continental margin comprises the submerged prolongation of the landmass of the coastal state, and consists of the seabed and subsoil of the shelf, the slope and the rise; wherever the continental margin extends beyond 200 nautical miles from the baseline, coastal states may extend their claim to a distance not to exceed 350 nautical miles from the baseline or 100 nautical miles from the 2,500-meter isobath, which is a line connecting points of 2,500 meters in depth; it does not include the deep ocean floor with its oceanic ridges or the subsoil thereof.

exclusive fishing zone - while this term is not used in the UNCLOS, some states (e.g., the United Kingdom) have chosen not to claim an EEZ but rather to claim jurisdiction over the living resources off their coast; in such cases, the term exclusive fishing zone is often used; the breadth of this zone is normally the same as the EEZ or 200 nautical miles.

Maritime threats This entry describes the threat of piracy, as defined in Article 101, UN Convention on the Law of the Sea (UNCLOS), or armed robbery against ships, as defined in Resolution A. 1025 (26) adopted on 2 December 2009 at the 26th Assembly Session of the International Maritime Organization. The entry includes the number of ships on the high seas or in territorial waters that were boarded or attacked by pirates, and the number of crewmen abducted or killed, as compiled by the International Maritime Bureau. Information is also supplied on the geographical range of attacks.

Maternal mortality ratio The maternal mortality ratio (MMR) is the annual number of female deaths per 100,000 live births from any cause related to or aggravated by pregnancy or its management (excluding accidental or incidental causes). The MMR includes deaths during pregnancy, childbirth, or within 42 days of termination of pregnancy, irrespective of the duration and site of the pregnancy, for a specified year.

Median age This entry is the age that divides a population into two numerically equal groups; that is, half the people are younger than this age and half are older. It is a single index that summarizes the age distribution of a population. Currently, the median age ranges from a low of about 15 in Niger and Uganda to 40 or more in several European countries and Japan. See the entry for “Age structure” for the importance of a young versus an older age structure and, by implication, a low versus a higher median age.

Member states This entry, which appears only in the European Union, Government category, provides a listing of all of the European Union member

countries, as well as their associated overseas countries and territories.

Merchant marine This entry provides the total and the number of each type of privately or publicly owned commercial ship for each country; military ships are not included; the five ships by type include: *bulk carrier* - for cargo such as coal, grain, cement, ores, and gravel; *container ship* - for loads in truck-size containers, a transportation system called containerization; *general cargo* - also referred to as break-bulk containers - for a wide variety of packaged merchandise, such as textiles, furniture and machinery; *oil tanker* - for crude oil and petroleum products; *other* - includes chemical carriers, dredgers, liquefied natural gas (LNG) carriers, refrigerated cargo ships called reefers, tugboats, passenger vessels (cruise and ferry), and offshore supply ships

Military This category includes the entries dealing with a country's military structure, manpower, and expenditures.

Military - note This entry includes miscellaneous military information of significance not included elsewhere.

Military and security forces This entry lists the military and security forces subordinate to defense ministries or the equivalent (typically ground, naval, air, and marine forces), as well as those belonging to interior ministries or the equivalent (typically gendarmeries, border/coast guards, paramilitary police, and other internal security forces).

Military and security service personnel strengths This entry provides estimates of military and security services personnel strengths. The numbers are based on a wide-range of publicly available information. Unless otherwise noted, military estimates focus on the major services (army, navy, air force, and where applicable, gendarmeries) and do not account for activated reservists or delineate military service members assigned to joint staffs or defense ministries.

Military deployments This entry lists military forces deployed to other countries or territories abroad. *The World Factbook* defines deployed as a permanently stationed force or a temporary deployment of greater than six months. Deployments smaller than 100 personnel or paramilitaries, police, contractors, mercenaries, or proxy forces are not included. Numbers provided are estimates only and should be considered paper strengths, not necessarily the current number of troops on the ground. In addition, some estimates, such as those by the US military, are significantly influenced by deployment policies, contingencies, or world events and may change suddenly. Where available, the organization or mission that at least some of the forces are deployed under is

listed. The following terms and abbreviations are used throughout the entry:

AMISOM - Africa Union (AU) Mission in Somalia; UN-supported, AU-operated peacekeeping mission

BATUS - British Army Training Unit Suffield, Canada

BATUK - British Army Training Unit, Kenya

CSTO - Collective Security Treaty Organization

ECOMIG - ECOWUS Mission in The Gambia; Africa Union-European Union peacekeeping, stabilization, and training mission in Gambia

EUTM - European Union Training Mission

EUFOR - European Union Force Bosnia and Herzegovina (also known as Operation Althea)

EuroCorps - European multi-national corps headquartered in Strasbourg, France, consisting of troops from Belgium, France, Germany, Luxembourg, and Spain; Greece, Italy, Poland, Romania and Turkey are Associated Nations of EuroCorps

G5 Joint Force - G5 Sahel Cross-Border Joint Force comprised of troops from Burkina Faso, Chad, Mali, Mauritania, and Niger

KFOR - the Kosovo Force; a NATO-led international peacekeeping force in Kosovo

MFO - Multinational Force & Observers Sinai, headquartered in Rome

MINUSCA - United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic

MINUSMA - United Nations Multidimensional Integrated Stabilization Mission in Mali

MNJTF - Multinational Joint Task Force Against Boko Haram comprised of troops from Benin, Cameroon, Chad, Niger, and Nigeria with the mission of fighting Boko Haram in the Lake Chad Basin

MONUSCO - United Nations Organization Stabilization Mission in the Democratic Republic of the Congo

NATO - North American Treaty Organization, headquartered in Brussels, Belgium

Operation Barkhane - French-led counterinsurgency and counter-terrorism mission in the Sahel alongside the G5 Joint Force; headquartered in N'Djamena, Chad and supported by Canada, Denmark, Estonia, the European Union, Germany, Spain, the United Kingdom, and the US

Operation Inherent Resolve - US-led coalition to counter the Islamic State in Iraq and Syria and provide assistance and training to Iraqi security forces

UNAFIL - United Nations Interim Force in Lebanon

UNAMID - African Union - United Nations Hybrid Operation in Darfur, Sudan

UNDOF - United Nations Disengagement Observer Force, Golan (Israel-Syria border)

UNFICYP - United Nations Peacekeeping Force in Cyprus

UNISFA - United Nations Interim Security Force for Abyei (Sudan-South Sudan border)

UNMISS - United Nations Mission in the Republic of South Sudan

UNSOM - United Nations Assistance Mission in Somalia

Military equipment inventories and acquisitions This entry provides basic information on each country's military equipment inventories, as well as how they acquire their equipment; it is intended to show broad trends in major military equipment holdings, such as tanks and other armored vehicles, air defense systems, artillery, naval ships, helicopters, and fixed-wing aircraft. Arms acquisition information is an overview of major arms suppliers over a specific period of time, including second-hand arms delivered as aid, with a focus on major weapons systems. It is based on the type and number of weapon systems ordered and delivered and the financial value of the deal. For some countries, general information on domestic defense industry capabilities is provided.

Military expenditures This entry gives estimates on spending on defense programs for the most recent year available as a percent of gross domestic product (GDP). For countries with no military forces, this figure can include expenditures on public security and police.

Military service age and obligation This entry gives the required ages for voluntary or conscript military service and the length of service obligation.

Money figures All money figures are expressed in contemporaneous US dollars unless otherwise indicated.

Mother's mean age at first birth This entry provides the mean (average) age of mothers at the birth of their first child. It is a useful indicator for gauging the success of family planning programs aiming to reduce maternal mortality, increase contraceptive use – particularly among married and unmarried adolescents – delay age at first marriage, and improve the health of newborns.

National air transport system This entry includes four subfields describing the air transport system of a given country in terms of both structure and performance. The first subfield, *number of registered air carriers*, indicates the

total number of air carriers registered with the country's national aviation authority and issued an air operator certificate as required by the Convention on International Civil Aviation. The second subfield, *inventory of registered aircraft operated by air carriers*, lists the total number of aircraft operated by all registered air carriers in the country. The last two subfields measure the performance of the air transport system in terms of both passengers and freight. The subfield, *annual passenger traffic on registered air carriers*, includes the total number of passengers carried by air carriers registered in the country, including both domestic and international passengers, in a given year. The last subfield, *annual freight traffic on registered air carriers*, includes the volume of freight, express, and diplomatic bags carried by registered air carriers and measured in metric tons times kilometers traveled. Freight ton-kilometers equal the sum of the products obtained by multiplying the number of tons of freight, express, and diplomatic bags carried on each flight stage by the stage distance (operation of an aircraft from takeoff to its next landing). For statistical purposes, freight includes express and diplomatic bags but not passenger baggage.

National anthem A generally patriotic musical composition - usually in the form of a song or hymn of praise - that evokes and eulogizes the history, traditions, or struggles of a nation or its people. National anthems can be officially recognized as a national song by a country's constitution or by an enacted law, or simply by tradition. Although most anthems contain lyrics, some do not.

National heritage World Heritage Sites are designated by the United Nations Educational, Scientific, and Cultural Organization (UNESCO), which seeks to encourage the identification, protection, and preservation of cultural, historic, scientific, and natural heritage sites around the world considered to be of outstanding value to humanity. This entry includes two subfields: *total World Heritage Sites* and *selected World Heritage Site locales*. The former consists of natural sites, cultural sites, and mixed (natural and cultural) sites in a country; the latter presents a representative sample of the sites found within a country.

National holiday This entry gives the primary national day of celebration - usually independence day.

National symbol(s) A national symbol is a faunal, floral, or other abstract representation - or some distinctive object - that over time has come to be closely identified with a country or entity. Not all countries have national symbols; a few countries have more than one.

Nationality This entry provides the identifying terms for citizens - *noun* and

adjective.

Natural gas This field refers to a country's natural gas *production, consumption, exports, imports, and proven reserves*. *Proven reserves* are those quantities of natural gas that have been analyzed as commercially recoverable in the future based on known reservoirs and assuming current economic conditions. All data reflect only dry natural gas and exclude non-hydrocarbon gases, as well as vented, flared, and reinjected natural gas. Data are reported using cubic meters.

Natural gas - production This entry is the total natural gas produced in cubic meters (cu m). The discrepancy between the amount of natural gas produced and/or imported and the amount consumed and/or exported is due to the omission of stock changes and other complicating factors.

Natural hazards This entry lists potential natural disasters. For countries where volcanic activity is common, a *volcanism* subfield highlights historically active volcanoes.

Natural resources This entry lists a country's mineral, petroleum, hydropower, and other resources of commercial importance, such as rare earth elements (REEs). In general, products appear only if they make a significant contribution to the economy, or are likely to do so in the future.

Net migration rate This entry includes the figure for the difference between the number of persons entering and leaving a country during the year per 1,000 persons (based on midyear population). An excess of persons entering the country is referred to as net immigration (e.g., 3.56 migrants/1,000 population); an excess of persons leaving the country as net emigration (e.g., -9.26 migrants/1,000 population). The net migration rate indicates the contribution of migration to the overall level of population change. The net migration rate does not distinguish between economic migrants, refugees, and other types of migrants nor does it distinguish between lawful migrants and undocumented migrants.

Obesity - adult prevalence rate This entry gives the percent of a country's population considered to be obese. Obesity is defined as an adult having a Body Mass Index (BMI) greater to or equal to 30.0. BMI is calculated by taking a person's weight in kg and dividing it by the person's squared height in meters.

Ocean currents This entry provides information on ocean currents, which are the continuous, predictable, and directional movements of seawater driven by a number of forces acting upon the water including gravity, wind (Coriolis Effect), and water density (temperature and salinity differences). Depth contours, shoreline configurations, and interactions with other currents can all influence a current's

direction and strength. Ocean currents move primarily in a horizontal direction.

Ocean volume This entry provides the estimated volume of each of the oceans in millions of cubic kilometers and the percent of the World Ocean total volume.

People - note This entry includes miscellaneous demographic information of significance not included elsewhere.

People and Society This category includes entries dealing with national identity (including ethnicities, languages, and religions), demography (a variety of population statistics) and societal characteristics (health and education indicators).

Personal Names - Capitalization The *Factbook* capitalizes the surname or family name of individuals for the convenience of our users who are faced with a world of different cultures and naming conventions. The need for capitalization, bold type, underlining, italics, or some other indicator of the individual's surname is apparent in the following examples: MAO Zedong, Fidel CASTRO Ruz, George W. BUSH, and TUNKU SALAHUDDIN Abdul Aziz Shah ibni Al-Marhum Sultan Hisammuddin Alam Shah. By knowing the surname, a short form without all capital letters can be used with confidence as in President Castro, Chairman Mao, President Bush, or Sultan Tunku Salahuddin. The same system of capitalization is extended to the names of leaders with surnames that are not commonly used such as King CHARLES III. For Vietnamese names, the given name is capitalized because officials are referred to by their given name rather than by their surname. For example, the president of Vietnam is Nguyen Xuan PHUC. His surname is Nguyen, but he is referred to by his given name - President PHUC.

Personal Names - Spelling The romanization of personal names in the *Factbook* normally follows the same transliteration system used by the US Board on Geographic Names for spelling place names. At times, however, a foreign leader expressly indicates a preference for, or the media or official documents regularly use, a romanized spelling that differs from the transliteration derived from the US Government standard. In such cases, the *Factbook* uses the alternative spelling.

Personal Names - Titles The *Factbook* capitalizes any valid title (or short form of it) immediately preceding a person's name. A title standing alone is not capitalized. Examples: President PUTIN and President BIDEN are chiefs of state. In Russia, the president is chief of state and the premier is the head of the government, while in the US, the president is both chief of state and head of government.

Petroleum See entries under **Refined petroleum products**.

Petroleum products See entries under **Refined petroleum products**.

Physicians density This entry gives the number of medical doctors (physicians), including generalist and specialist medical practitioners, per 1,000 of the population. Medical doctors are defined as doctors that study, diagnose, treat, and prevent illness, disease, injury, and other physical and mental impairments in humans through the application of modern medicine. They also plan, supervise, and evaluate care and treatment plans by other health care providers. The World Health Organization estimates that fewer than 2.3 health workers (physicians, nurses, and midwives only) per 1,000 would be insufficient to achieve coverage of primary healthcare needs.

Pipelines This entry gives the lengths and types of pipelines for transporting products like natural gas, crude oil, or petroleum products.

Piracy Piracy is defined by the 1982 United Nations Convention on the Law of the Sea as any illegal act of violence, detention, or depredation directed against a ship, aircraft, persons, or property in a place outside the jurisdiction of any State. Such criminal acts committed in the territorial waters of a littoral state are generally considered to be armed robbery against ships. Information on piracy may be found, where applicable, under **Maritime threats**.

Political parties and leaders This entry includes a listing of significant political parties, coalitions, and electoral lists as of each country's last legislative election, unless otherwise noted. Parties that do not win a seat in national elections are usually not included.

Political structure This entry, which appears only in the European Union, Government category, provides a definition for the entity that is the European Union.

Population This entry gives an estimate from the US Bureau of the Census based on statistics from population censuses, vital statistics registration systems, or sample surveys pertaining to the recent past and on assumptions about future trends. The total population presents one overall measure of the potential impact of the country on the world and within its region. Note: Starting with the 1993 *Factbook*, demographic estimates for some countries (mostly African) have explicitly taken into account the effects of the growing impact of the HIV/AIDS epidemic. These countries are currently: The Bahamas, Benin, Botswana, Brazil, Burkina Faso, Burma, Burundi, Cambodia, Cameroon, Central African Republic, Democratic Republic of the Congo, Republic of the Congo, Cote d'Ivoire,

Ethiopia, Gabon, Ghana, Guyana, Haiti, Honduras, Kenya, Lesotho, Malawi, Mozambique, Namibia, Nigeria, Rwanda, South Africa, Swaziland, Tanzania, Thailand, Togo, Uganda, Zambia, and Zimbabwe.

Population below poverty line National estimates of the percentage of the population falling below the poverty line are based on surveys of sub-groups, with the results weighted by the number of people in each group. Definitions of poverty vary considerably among nations. For example, rich nations generally employ more generous standards of poverty than poor nations.

Population distribution This entry provides a summary description of the population dispersion within a country. While it may suggest population density, it does not provide density figures.

Population growth rate The average annual percent change in the population, resulting from a surplus (or deficit) of births over deaths and the balance of migrants entering and leaving a country. The rate may be positive or negative. The growth rate is a factor in determining how great a burden would be imposed on a country by the changing needs of its people for infrastructure (e.g., schools, hospitals, housing, roads), resources (e.g., food, water, electricity), and jobs. Rapid population growth can be seen as threatening by neighboring countries.

Population pyramid A population pyramid illustrates the age and sex structure of a country's population and may provide insights about political and social stability, as well as economic development. The population is distributed along the horizontal axis, with males shown on the left and females on the right. The male and female populations are broken down into 5-year age groups represented as horizontal bars along the vertical axis, with the youngest age groups at the bottom and the oldest at the top. The shape of the population pyramid gradually evolves over time based on fertility, mortality, and international migration trends.

Some distinctive types of population pyramids are:

- A **youthful distribution** has a broad base and narrow peak and is characterized by a high proportion of children and low proportion of the elderly. This population distribution results from high fertility, high mortality, low life expectancy, and high population growth. It is typical of developing countries where female education and contraceptive use are low and health care and sanitation are poor.
- A **transitional distribution** is caused by declining fertility and mortality rates, increasing life expectancy, and slowing population growth. The population has a larger proportion of working-age people relative to children

and the elderly and produces a barrel-shaped pyramid, where the mid-section bulges and the base and top are narrower. The large proportion of working-age people can create a “demographic bonus” if it is educated and productively employed.

- **A mature distribution** has fairly balanced proportions of the population in the child, working-age, and elderly age groups and will gradually form an inverted triangle population pyramid as population growth continues to fall or ceases and the proportion of older people increases. Low fertility, low mortality, and high life expectancy - made possible by the availability of advanced healthcare, family planning, sanitation, and education - lead to aging populations in industrialized countries.

Ports and terminals This entry lists major ports and terminals primarily on the basis of the amount of cargo tonnage shipped through the facilities on an annual basis. In some instances, the number of containers handled or ship visits were also considered. Most ports service multiple classes of vessels including bulk carriers (dry and liquid), break bulk cargoes (goods loaded individually in bags, boxes, crates, or drums; sometimes palletized), containers, roll-on/roll-off, and passenger ships. The listing leads off with *major seaports* handling all types of cargo. Inland *river/lake ports* are listed separately along with the river or lake name. Ports configured specifically to handle bulk cargoes are designated as *oil terminals* or *dry bulk cargo ports*. *LNG terminals* handle liquefied natural gas (LNG) and are differentiated as either export, where the gas is chilled to a liquid state to reduce its volume for transport on specialized gas carriers, or import, where the off-loaded LNG undergoes a regasification process before entering pipelines for distribution. As break bulk cargoes are largely transported by containers today, the entry also includes a listing of major *container ports* with the corresponding throughput measured in twenty-foot equivalent units (TEUs) referring to a standard container size. Some ports are significant for handling passenger traffic and are listed as *cruise/ferry ports*. In addition to commercial traffic, many seaports also provide important military infrastructure such as naval bases or dockyards.

Preliminary statement This entry, which appears only in the European Union, Introduction category, provides an explanation and justification for the inclusion of a separate European Union geographic entity.

Principality A sovereign state ruled by a monarch with the title of prince; principalities were common in the past, but today only three remain: Liechtenstein, Monaco, and the co-principality of Andorra.

Public debt This entry records the cumulative total of all government borrowings less repayments that are denominated in a country's home currency. Public debt should not be confused with external debt, which reflects the foreign currency liabilities of both the private and public sector and must be financed out of foreign exchange earnings.

Railways This entry states the *total* route length of the railway network and of its component parts by gauge, which is the measure of the distance between the inner sides of the load-bearing rails. The four typical types of gauges are: *broad*, *standard*, *narrow*, and *dual*. Other gauges are listed in a *note*. Some 60% of the world's railways use the standard gauge of 1.4 m (4.7 ft). Gauges vary by country and sometimes within countries. The choice of gauge during initial construction was mainly in response to local conditions and the intent of the builder. Narrow-gauge railways were cheaper to build and could negotiate sharper curves, broad-gauge railways gave greater stability and permitted higher speeds. Standard-gauge railways were a compromise between narrow and broad gauges.

Rare earth elements Rare earth elements or REEs are 17 chemical elements that are critical in many of today's high-tech industries. They include lanthanum, cerium, praseodymium, neodymium, promethium, samarium, europium, gadolinium, terbium, dysprosium, holmium, erbium, thulium, ytterbium, lutetium, scandium, and yttrium. Typical applications for REEs include batteries in hybrid cars, fiber optic cables, flat panel displays, and permanent magnets, as well as some defense and medical products.

Real GDP (purchasing power parity) This entry gives the gross domestic product (GDP) or value of all final goods and services produced within a nation in a given year. A nation's GDP at purchasing power parity (PPP) exchange rates is the sum value of all goods and services produced in the country valued at prices prevailing in the United States in the year noted. This is the measure most economists prefer when looking at per-capita welfare and when comparing living conditions or use of resources across countries. The measure is difficult to compute, as a US dollar value has to be assigned to all goods and services in the country regardless of whether these goods and services have a direct equivalent in the United States (for example, the value of an ox-cart or non-US military equipment); as a result, PPP estimates for some countries are based on a small and sometimes different set of goods and services. In addition, many countries do not formally participate in the World Bank's PPP project that calculates these measures, so the resulting GDP estimates for these countries may lack precision. For many developing countries, PPP-based GDP measures are multiples of the

official exchange rate (OER) measure. The differences between the OER- and PPP-denominated GDP values for most of the wealthy industrialized countries are generally much smaller.

Real GDP growth rate This entry gives a country's real GDP annual growth rate, adjusted for seasonal unemployment and inflation. A country's growth rate is year-over-year, and not compounded.

Real GDP per capita This entry shows real GDP, divided by population as of 1 July for the same year.

Reference maps This section includes world and regional maps.

Refined petroleum products - consumption This entry is the country's total consumption of refined petroleum products, in barrels per day (bbl/day). The discrepancy between the amount of refined petroleum products produced and/or imported and the amount consumed and/or exported is due to the omission of stock changes, refinery gains, and other complicating factors.

Refined petroleum products - exports This entry is the country's total exports of refined petroleum products, in barrels per day (bbl/day).

Refined petroleum products - imports This entry is the country's total imports of refined petroleum products, in barrels per day (bbl/day).

Refined petroleum products - production This entry is the country's total output of refined petroleum products, in barrels per day (bbl/day). The discrepancy between the amount of refined petroleum products produced and/or imported and the amount consumed and/or exported is due to the omission of stock changes, refinery gains, and other complicating factors.

Refugees and internally displaced persons This entry includes those persons residing in a country as *refugees*, *internally displaced persons (IDPs)*, or *stateless persons*. Each country's refugee entry includes only countries of origin that are the source of refugee populations of 5,000 or more. The definition of a *refugee* according to a UN Convention is "a person who is outside his/her country of nationality or habitual residence; has a well-founded fear of persecution because of his/her race, religion, nationality, membership in a particular social group or political opinion; and is unable or unwilling to avail himself/herself of the protection of that country, or to return there, for fear of persecution." The UN established the Office of the UN High Commissioner for Refugees (UNHCR) in 1950 to handle refugee matters worldwide. The UN Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) has a different operational

definition for a Palestinian refugee: “a person whose normal place of residence was Palestine during the period 1 June 1946 to 15 May 1948 and who lost both home and means of livelihood as a result of the 1948 conflict.” The term *internally displaced person* is not specifically covered in the 1951 UN Convention Relating to the Status of Refugees; it is used to describe people who have fled their homes for reasons similar to refugees, but who remain within their own national territory and are subject to the laws of that state. A *stateless person* is defined as someone who is not considered a national by any state under the operation of its law, according to the 1954 UN Convention Relating to the Status of Stateless Persons.

Religions This entry is an ordered listing of religions by adherents starting with the largest group and sometimes includes the percent of total population. The core characteristics and beliefs of the world’s major religions are described below.

Baha’i - Founded by Mirza Husayn-Ali (known as Baha’u’llah) in Iran in 1852, Baha’i faith emphasizes monotheism and believes in one eternal transcendent God. Its guiding focus is to encourage the unity of all peoples on the earth so that justice and peace may be achieved on earth. Baha’i revelation contends the prophets of major world religions reflect some truth or element of the divine, believes all were manifestations of God given to specific communities in specific times, and that Baha’u’llah is an additional prophet meant to call all humankind. Bahais are an open community, located worldwide, with the greatest concentration of believers in South Asia.

Buddhism - Religion or philosophy inspired by the 5th century B.C. teachings of Siddhartha Gautama (also known as Gautama Buddha “the enlightened one”). Buddhism focuses on the goal of spiritual enlightenment centered on an understanding of Gautama Buddha’s Four Noble Truths on the nature of suffering, and on the Eightfold Path of spiritual and moral practice, to break the cycle of suffering of which we are a part. Buddhism ascribes to a karmic system of rebirth. Several schools and sects of Buddhism exist, differing often on the nature of the Buddha, the extent to which enlightenment can be achieved (for one or for all) and by whom (religious orders or laity).

Basic Groupings

Theravada Buddhism: The oldest Buddhist school, Theravada is practiced mostly in Sri Lanka, Cambodia, Laos, Burma, and Thailand, with minority representation elsewhere in Asia and the West. Theravadans follow the Pali Canon of Buddha’s teachings, and believe that one may escape the cycle of rebirth, worldly attachment, and suffering for oneself; this process may take one

or several lifetimes.

Mahayana Buddhism, including subsets Zen and Tibetan (Lamaistic) Buddhism: Forms of Mahayana Buddhism are common in East Asia and Tibet, and parts of the West. Mahayanas have additional scriptures beyond the Pali Canon and believe the Buddha is eternal and still teaching. Unlike Theravada Buddhism, Mahayana schools maintain the Buddha-nature is present in all beings and all will ultimately achieve enlightenment.

Hoa Hao: a minority tradition of Buddhism practiced in Vietnam that stresses lay participation, primarily by peasant farmers; it eschews expensive ceremonies and temples and relocates the primary practices into the home.

Christianity - Descending from Judaism, Christianity's central belief maintains Jesus of Nazareth is the promised messiah of the Hebrew Scriptures, and that his life, death, and resurrection are salvific for the world. Christianity is one of the three monotheistic Abrahamic faiths, along with Islam and Judaism, which traces its spiritual lineage to Abraham of the Hebrew Scriptures. Its sacred texts include the Hebrew Bible and the New Testament (or the Christian Gospels).

Basic Groupings

Catholicism (or Roman Catholicism): This is the oldest established western Christian church and the world's largest single religious body. It is supranational, and recognizes a hierarchical structure with the Pope, or Bishop of Rome, as its head, located at the Vatican. Catholics believe the Pope is the divinely ordered head of the Church from a direct spiritual legacy of Jesus' apostle Peter. Catholicism is comprised of 23 particular Churches, or Rites - one Western (Roman or Latin-Rite) and 22 Eastern. The Latin Rite is by far the largest, making up about 98% of Catholic membership. Eastern-Rite Churches, such as the Maronite Church and the Ukrainian Catholic Church, are in communion with Rome although they preserve their own worship traditions and their immediate hierarchy consists of clergy within their own rite. The Catholic Church has a comprehensive theological and moral doctrine specified for believers in its catechism, which makes it unique among most forms of Christianity.

The Church of Jesus Christ of Latter-day Saints: The Church was organized in 1830 and teaches that it is the restoration of Jesus Christ's original church. It embraces salvation through Christ, personal revelation, and has an open canon, including the King James Bible and the Book of Mormon, which is another testament of Christ's divinity. The Book of Mormon maintains there was an appearance of Jesus in the New World following the Christian account of his resurrection, and that the Americas are uniquely blessed continents. The Church

has a centralized doctrine and leadership structure, but has volunteer, lay clergy who oversee local congregations in 176 countries and territories.

Jehovah's Witnesses structure their faith on the Christian Bible, but their rejection of the Trinity is distinct from mainstream Christianity. They believe that a Kingdom of God, the Theocracy, will emerge following Armageddon and usher in a new earthly society. Adherents are required to evangelize and to follow a strict moral code.

Orthodox Christianity: The oldest established eastern form of Christianity, the Holy Orthodox Church, has a ceremonial head in the Bishop of Constantinople (Istanbul), also known as a Patriarch, but its various regional forms (e.g., Greek Orthodox, Russian Orthodox, Serbian Orthodox, Ukrainian Orthodox) are autocephalous (independent of Constantinople's authority, and have their own Patriarchs). Orthodox churches are highly nationalist and ethnic. The Orthodox Christian faith shares many theological tenets with the Roman Catholic Church, but diverges on some key premises and does not recognize the governing authority of the Pope.

Protestant Christianity: Protestant Christianity originated in the 16th century as an attempt to reform Roman Catholicism's practices, dogma, and theology. It encompasses several forms or denominations which are extremely varied in structure, beliefs, relationship to national governments, clergy, and governance. Many protestant theologies emphasize the primary role of scripture in their faith, advocating individual interpretation of Christian texts without the mediation of a final religious authority such as the Roman Pope. The oldest Protestant denominations include Lutheranism, Calvinism (Presbyterianism), and Anglican Christianity (Episcopalianism), which have established liturgies, governing structure, and formal clergy. Other variants on Protestant Christianity, including Pentecostal movements and independent churches, may lack one or more of these elements, and their leadership and beliefs are individualized and dynamic.

Hinduism - Originating in the Vedic civilization of India (second and first millennium B.C.), Hinduism is an extremely diverse set of beliefs and practices with no single founder or religious authority. Hinduism has many scriptures; the Vedas, the Upanishads, and the Bhagavad-Gita are among some of the most important. Hindus may worship one or many deities, usually with prayer rituals within their own home. The most common figures of devotion are the gods Vishnu, Shiva, and a mother goddess, Devi. Most Hindus believe the soul, or *atman*, is eternal, and goes through a cycle of birth, death, and rebirth (*samsara*) determined by one's positive or negative karma, or the consequences

of one's actions. The goal of religious life is to learn to act so as to finally achieve liberation (*moksha*) of one's soul, escaping the rebirth cycle.

Islam - One of the three monotheistic Abrahamic faiths, Islam originated with the teachings of Muhammad in the 7th century. Muslims believe Muhammad is the final of all religious prophets (beginning with Abraham) and that the Qu'ran, which is the Islamic scripture, was revealed to him by God. Islam derives from the word submission, and obedience to God is a primary theme in this religion. In order to live an Islamic life, believers must follow the five pillars, or tenets, of Islam, which are the testimony of faith (*shahada*), daily prayer (*salah*), giving alms (*zakah*), fasting during Ramadan (*sawm*), and the pilgrimage to Mecca (*hajj*).

Basic Groupings

The two primary branches of Islam are Sunni and Shia, which split from each other over a religio-political leadership dispute about the rightful successor to Muhammad. The Shia believe Muhammad's cousin and son-in-law, Ali, was the only divinely ordained Imam (religious leader), while the Sunni maintain the first three caliphs after Muhammad were also legitimate authorities. In modern Islam, Sunnis and Shia continue to have different views of acceptable schools of Islamic jurisprudence, and who is a proper Islamic religious authority. Islam also has an active mystical branch, Sufism, with various Sunni and Shia subsets.

Sunni Islam accounts for over 87-90% of the world's Muslim population. It recognizes the Abu Bakr as the first caliph after Muhammad. Sunni has four schools of Islamic doctrine and law - Hanafi, Maliki, Shafi'i, and Hanbali - which uniquely interpret the *Hadith*, or recorded oral traditions of Muhammad. A Sunni Muslim may elect to follow any one of these schools, as all are considered equally valid.

Shia Islam represents 10-13% of Muslims worldwide, and its distinguishing feature is its reverence for Ali as an infallible, divinely inspired leader, and as the first Imam of the Muslim community after Muhammad. A majority of Shia are known as "Twelvers," because they believe that the 11 familial successor imams after Muhammad culminate in a 12th Imam (al-Mahdi) who is hidden in the world and will reappear at its end to redeem the righteous.

Variants

Ismaili faith: A sect of Shia Islam, its adherents are also known as "Seveners," because they believe that the rightful seventh Imam in Islamic leadership was Isma'il, the elder son of Imam Jafar al-Sadiq. Ismaili tradition awaits the return of the seventh Imam as the Mahdi, or Islamic messianic figure. Ismailis are

located in various parts of the world, particularly South Asia and the Levant.

Alawi faith: Another Shia sect of Islam, the name reflects followers' devotion to the religious authority of Ali. Alawites are a closed, secretive religious group who assert they are Shia Muslims, although outside scholars speculate their beliefs may have a syncretic mix with other faiths originating in the Middle East. Alawis live mostly in Syria, Lebanon, and Turkey.

Druze faith: A highly secretive tradition and a closed community that derives from the Ismaili sect of Islam; its core beliefs are thought to emphasize a combination of Gnostic principles believing that the Fatimid caliph, al-Hakin, is the one who embodies the key aspects of goodness of the universe, which are, the intellect, the word, the soul, the preceder, and the follower. The Druze have a key presence in Syria, Lebanon, and Israel.

Jainism - Originating in India, Jain spiritual philosophy believes in an eternal human soul, the eternal universe, and a principle of "the own nature of things." It emphasizes compassion for all living things, seeks liberation of the human soul from reincarnation through enlightenment, and values personal responsibility due to the belief in the immediate consequences of one's behavior. Jain philosophy teaches non-violence and prescribes vegetarianism for monks and laity alike; its adherents are a highly influential religious minority in Indian society.

Judaism - One of the first known monotheistic religions, likely dating to between 2000-1500 B.C., Judaism is the native faith of the Jewish people, based upon the belief in a covenant of responsibility between a sole omnipotent creator God and Abraham, the patriarch of Judaism's Hebrew Bible, or *Tanakh*. Divine revelation of principles and prohibitions in the Hebrew Scriptures form the basis of Jewish law, or *halakhah*, which is a key component of the faith. While there are extensive traditions of Jewish halakhic and theological discourse, there is no final dogmatic authority in the tradition. Local communities have their own religious leadership. Modern Judaism has three basic categories of faith: Orthodox, Conservative, and Reform/Liberal. These differ in their views and observance of Jewish law, with the Orthodox representing the most traditional practice, and Reform/Liberal communities the most accommodating of individualized interpretations of Jewish identity and faith.

Shintoism - A native animist tradition of Japan, Shinto practice is based upon the premise that every being and object has its own spirit or *kami*. Shinto practitioners worship several particular *kamis*, including the *kamis* of nature, and families often have shrines to their ancestors' *kamis*. Shintoism has no fixed

tradition of prayers or prescribed dogma, but is characterized by individual ritual. Respect for the *kamis* in nature is a key Shinto value. Prior to the end of World War II, Shinto was the state religion of Japan, and bolstered the cult of the Japanese emperor.

Sikhism - Founded by the Guru Nanak (born 1469), Sikhism believes in a non-anthropomorphic, supreme, eternal, creator God; centering one's devotion to God is seen as a means of escaping the cycle of rebirth. Sikhs follow the teachings of Nanak and nine subsequent gurus. Their scripture, the Guru Granth Sahib - also known as the Adi Granth - is considered the living Guru, or final authority of Sikh faith and theology. Sikhism emphasizes equality of humankind and disavows caste, class, or gender discrimination.

Taoism - Chinese philosophy or religion based upon Lao Tzu's Tao Te Ching, which centers on belief in the Tao, or the way, as the flow of the universe and the nature of things. Taoism encourages a principle of non-force, or *wu-wei*, as the means to live harmoniously with the Tao. Taoists believe the esoteric world is made up of a perfect harmonious balance and nature, while in the manifest world - particularly in the body - balance is distorted. The Three Jewels of the Tao - compassion, simplicity, and humility - serve as the basis for Taoist ethics.

Zoroastrianism - Originating from the teachings of Zoroaster in about the 9th or 10th century B.C., Zoroastrianism may be the oldest continuing creedal religion. Its key beliefs center on a transcendent creator God, Ahura Mazda, and the concept of free will. The key ethical tenets of Zoroastrianism expressed in its scripture, the Avesta, are based on a dualistic worldview where one may prevent chaos if one chooses to serve God and exercises good thoughts, good words, and good deeds. Zoroastrianism is generally a closed religion and members are almost always born to Zoroastrian parents. Prior to the spread of Islam, Zoroastrianism dominated greater Iran. Today, though a minority, Zoroastrians remain primarily in Iran, India (where they are known as Parsi), and Pakistan.

Traditional beliefs

Animism: the belief that non-human entities contain souls or spirits.

Badimo: a form of ancestor worship of the Tswana people of Botswana.

Confucianism: an ideology that humans are perfectible through self-cultivation and self-creation; developed from teachings of the Chinese philosopher Confucius. Confucianism has strongly influenced the culture and beliefs of East Asian countries, including China, Japan, Korea, Singapore, Taiwan, and Vietnam.

Inuit beliefs: a form of shamanism (see below) based on the animistic principles of the Inuit or Eskimo peoples.

Kirant: the belief system of the Kirat, a people who live mainly in the Himalayas of Nepal. It is primarily a form of polytheistic shamanism, but includes elements of animism and ancestor worship.

Pagan is a blanket term used to describe many unconnected belief practices throughout history, usually in reference to religions outside of the Abrahamic category (monotheistic faiths including Judaism, Christianity, and Islam).

Shamanism: beliefs and practices promoting communication with the spiritual world. Shamanistic beliefs are organized around a shaman or medicine man who - as an intermediary between the human and spirit world - is believed to be able to heal the sick (by healing their souls), communicate with the spirit world, and help souls into the afterlife through the practice of entering a trance. In shaman-based religions, the shaman is also responsible for leading sacred rites.

Spiritualism: the belief that souls and spirits communicate with the living usually through intermediaries called mediums.

Syncretic (fusion of diverse religious beliefs and practices)

Cao Dai: a nationalistic Vietnamese sect, officially established in 1926, that draws practices and precepts from Confucianism, Taoism, Buddhism, and Catholicism.

Chondogyo: or the religion of the Heavenly Way, is based on Korean shamanism, Buddhism, and Korean folk traditions, with some elements drawn from Christianity. Formulated in the 1860s, it holds that God lives in all of us and strives to convert society into a paradise on earth, populated by believers transformed into intelligent moral beings with a high social conscience.

Kimbanguism: a puritan form of the Baptist denomination founded by Simon Kimbangu in the 1920s in what is now the Democratic Republic of Congo. Adherents believe that salvation comes through Jesus' death and resurrection, like Christianity, but additionally that living a spiritually pure life following strict codes of conduct is required for salvation.

Modekngai: a hybrid of Christianity and ancient Palauan culture and oral traditions founded around 1915 on the island of Babeldaob. Adherents simultaneously worship Jesus Christ and Palauan goddesses.

Rastafarianism: an afro-centrist ideology and movement based on Christianity that arose in Jamaica in the 1930s; it believes that Haile Selassie I, Emperor of Ethiopia from 1930-74, was the incarnation of the second coming of Jesus.

Santeria: practiced in Cuba, the merging of the Yoruba religion of Nigeria with

Roman Catholicism and native Indian traditions. Its practitioners believe that each person has a destiny and eventually transcends to merge with the divine creator and source of all energy, Olorun.

Voodoo/Vodun: a form of spirit and ancestor worship combined with some Christian faiths, especially Catholicism. Haitian and Louisiana Voodoo, which have included more Catholic practices, are separate from West African Vodun, which has retained a focus on spirit worship.

Non-religious

Agnosticism: the belief that most things are unknowable. In regard to religion, it is usually characterized as neither a belief nor non-belief in a deity.

Atheism: the belief that there are no deities of any kind.

Reserves of foreign exchange and gold This entry gives the dollar value for the stock of all financial assets that are available to the central monetary authority for use in meeting a country's balance of payments needs as of the end-date of the period specified. This category includes not only foreign currency and gold, but also a country's holdings of Special Drawing Rights in the International Monetary Fund, and its reserve position in the Fund.

Revenue from coal This entry refers to the economic profits, expressed as a percentage of a country's GDP, from the extraction of coal. These profits equal coal gross revenues minus cost(s) to extract the coal. Other sources may refer to this field as coal rents.

Revenue from forest resources This entry refers to the economic profits, expressed as a percentage of a country's GDP, from the harvesting of forests (e.g., lumber and timber industries). These profits equal forest gross revenues minus costs to harvest the forest. Other sources may refer to this field as forest rents.

Roadways This entry gives the *total* length of the road network and includes the length of the *paved* and *unpaved* portions.

Sanitation facility access This entry provides information about access to improved or unimproved sanitation facilities available to segments of the population of a country. *Improved* sanitation - use of any of the following facilities: flush or pour-flush to a piped sewer system, septic tank or pit latrine; ventilated improved pit (VIP) latrine; pit latrine with slab; or a composting toilet. *Unimproved* sanitation - use of any of the following facilities: flush or pour-flush not piped to a sewer system, septic tank or pit latrine; pit latrine without a slab or open pit; bucket; hanging toilet or hanging latrine; shared facilities of any type; no facilities; or bush or field.

School life expectancy (primary to tertiary education) School life expectancy (SLE) is the total number of years of schooling (primary to tertiary) that a child can expect to receive, assuming that the probability of his or her being enrolled in school at any particular future age is equal to the current enrollment ratio at that age. Caution must be maintained when utilizing this indicator in international comparisons. For example, a year or grade completed in one country is not necessarily the same in terms of educational content or quality as a year or grade completed in another country. SLE represents the expected number of years of schooling that will be completed, including years spent repeating one or more grades.

Sex ratio This entry includes the number of males for each female in five age groups - *at birth, under 15 years, 15-64 years, 65 years and over*, and for the *total population*. Sex ratio at birth has recently emerged as an indicator of certain kinds of sex discrimination in some countries. For instance, high sex ratios at birth in some Asian countries are now attributed to sex-selective abortion and infanticide due to a strong preference for sons. This will affect future marriage patterns and fertility patterns. Eventually, it could cause unrest among young adult males who are unable to find partners.

Smart City A smart city uses communication and information technology, a wide range of sensors, and data analysis, to improve operational activities, share information, and optimize the quality of life for its citizens. Everyday enhancements may include more effective linkups of urban services, increased safety and security, more efficient resource consumption (and a concomitant reduction in costs), environmental initiatives, and better disaster preparation and response. The vast amount of data collected does present concerns over intrusiveness and can be used to monitor the everyday lives of citizens.

Stateless person Statelessness is the condition whereby an individual is not considered a national by any country. Stateless people are denied basic rights, such as access to employment, housing, education, healthcare, and pensions, and they may be unable to vote, own property, open a bank account, or legally register a marriage or birth. They may also be vulnerable to arbitrary treatment and human trafficking. In at least 30 states, women cannot pass their nationality on to their children. In these countries, if a child's father is foreign, stateless, or absent, the child usually becomes stateless. Estimates of the number of stateless people are inherently imprecise because few countries have procedures to identify them; the UN approximates that there are at least 10 million stateless people worldwide. Stateless people are counted in a country's overall population figure if they have

lived there for a year.

Suffrage This entry gives the age at enfranchisement and whether the right to vote is universal or restricted.

Taxes and other revenues This entry records total taxes and other revenues received by the national government during the time period indicated, expressed as a percent of GDP. Taxes include personal and corporate income taxes, value added taxes, excise taxes, and tariffs. Other revenues include social contributions - such as payments for social security and hospital insurance - grants, and net revenues from public enterprises. Normalizing the data, by dividing total revenues by GDP, enables easy comparisons across countries, and provides an average rate at which all income (GDP) is paid to the national level government for the supply of public goods and services.

Telecommunication systems This entry includes a brief general assessment of a country's telecommunications system with details on the domestic and international components. The following terms and abbreviations are used throughout the entry:

2G - is short for second-generation cellular network. After 2G was launched, the previous mobile wireless network systems were retroactively dubbed 1G. While radio signals on 1G networks are analog, radio signals on 2G networks are digital. Both systems use digital signaling to connect the radio towers (which listen to the devices) to the rest of the mobile system.

3G - is the third generation of wireless mobile telecommunications technology. It is the upgrade for 2.5G and 2.5G GPRS networks, for faster data transfer. This increased speed is based on a set of standards used for mobile devices and mobile telecommunications use services and networks that comply with the International Mobile Telecommunications-2000 (IMT-2000) specifications by the International Telecommunication Union. 3G finds application in wireless voice telephony, mobile Internet access, fixed wireless Internet access, video calls, and mobile TV.

4G - is the fourth generation of broadband cellular network technology, succeeding 3G. The first-release Long Term Evolution (LTE) standard was commercially deployed in Oslo, Norway, and Stockholm, Sweden in 2009, and has since been deployed throughout most parts of the world. Applications, include enhanced mobile web access, IP telephony, high-definition mobile TV, and video conferencing.

5G - is the fifth generation technology standard for cellular networks, which cellular phone companies began deploying worldwide in 2019; it is the planned

successor to the 4G networks which provide connectivity to most current cellphones. Like its predecessors, 5G networks are cellular networks, in which the service area is divided into small geographical areas called cells. All 5G wireless devices in a cell are connected to the Internet and telephone network by radio waves through a local antenna in the cell. The main advantage of the new networks is that they will have greater bandwidth, allowing higher download speeds, eventually up to 10 gigabits per second (Gbit/s). Due to the increased bandwidth, the expectation is that the new networks will not just serve cellphones like existing cellular networks, but also be used as general Internet service providers for laptops and desktop computers, competing with existing ISPs such as cable Internet. Existing 4G cellphones will not be able to use the new networks, which will require new 5G-enabled wireless devices.

ADSL - Asymmetric Digital Subscriber Line (ADSL) is a type of digital subscriber line (DSL) that allows faster data transmission via copper service phone lines to a home or business. ADSL provides an “always on” connection and higher speeds than dial-up Internet can provide. In ADSL, bandwidth and bit rate (i.e., speed) are asymmetric, meaning greater toward the customer (downstream) than the reverse (upstream).

AngoSat 2 - geostationary communications satellite for ground communication and broadcasting infrastructure in Angola, operated by Angosat and built by the Russian company ISS Reshetnev.

Arabsat - Arab Satellite Communications Organization (Riyadh, Saudi Arabia).

Cellular telephone system - the telephones in this system are radio transceivers, with each instrument having its own private radio frequency and sufficient radiated power to reach the booster station in its area (cell), from which the telephone signal is fed to a telephone exchange.

Central American Microwave System - a trunk microwave radio relay system that links the countries of Central America and Mexico with each other.

Coaxial cable - a multichannel communication cable consisting of a central conducting wire, surrounded by and insulated from a cylindrical conducting shell; a large number of telephone channels can be made available within the insulated space by the use of a large number of carrier frequencies.

DSL - Digital Subscriber Line (DSL) is a family of technologies that are used to transmit digital data over telephone lines.

e-services - Electronic services rely on information and communication technologies (ICT); the three main components of e-services are the service

provider, service receiver (or customer), and the channel for delivery, generally the Internet. E-services have expanded to e-health, e-commerce, e-fleet, and e-government, among other services. E-services are also linked to the development of IoT and smart city technology.

ECOWAS telecommunications - Economic Community of West African States regional telecommunications development program, focused on broadband infrastructure, landing of submarine cables, and the establishment of a single liberalized telecoms market.

Eutelsat - European Telecommunications Satellite Organization (Paris).

Fiber-optic cable - a multichannel communications cable using a thread of optical glass fibers as a transmission medium in which the signal (voice, video, etc.) is in the form of a coded pulse of light.

FTTX - Fiber to the x (FTTX) is a generic term for any broadband network architecture using optical fiber to provide all or part of the local loop used for last mile telecommunications. As fiber optic cables are able to carry much more data than copper cables, especially over long distances, copper telephone networks built in the 20th century are being replaced by fiber. FTTX is a general term for several configurations of fiber deployment, broadly organized into two groups: FTTN and FTTP /H/B. Fiber to the node (FTTN), also referred to as Fiber to the neighborhood, delivers fiber to within 300m (1,000 ft) of a customer's premises. Fiber to the premises (FTTP) can be further categorized as fiber to the home (FTTH) or fiber to the building/business (FTTB). FTTN (and FTTC, fiber to the curb (to less than 300m (1,000 ft of a customer's premises)) are seen as interim steps toward full FTTP.

Galileo - Chartered in 2016, Galileo is a global navigation satellite system (GNSS) created by the European Union through the European Space Agency (ESA), and operated by the European Union Agency for the Space Programme (EUSPA). Headquartered in Prague, Czechia, it has two ground operations centers: one in Fucino, Italy, and the other in Oberpfaffenhofen, Germany. The project is named after the Italian astronomer Galileo Galilei and aims to provide an independent high-precision positioning system. Galileo provides a global search and rescue (SAR) function as part of the MEOSAR system.

GPON - stands for Gigabyte Passive Optical Networks, which are networks that rely on optical cables to deliver information from a single feeding fiber from a provider - to multiple destinations - via the use of splitters. GPONs are currently the leading form of Passive Optical Networks (PON) and offer up to a 1:64 ratio on a single fiber. As opposed to a standard copper wire in most networks, GPONs are 95% more energy efficient.

GSM - a global system for mobile (cellular) communications devised by the Groupe Special Mobile of the pan-European standardization organization, Conference Europeenne des Posts et Telecommunications (CEPT) in 1982.

HF - high frequency; any radio frequency in the 3,000- to 30,000-kHz range.

HSPA - High Speed Packet Access (HSPA) is an amalgamation of two mobile protocols, High Speed Downlink Packet Access (HSDPA) and High Speed Uplink Packet Access (HSUPA), that extends and improves the performance of existing 3G mobile telecommunication networks using the Wideband Code Division Multiple Access (WCDMA) protocols. A further improved 3rd Generation Partnership Project (3GPP) standard, Evolved High Speed Packet Access (also known as HSPA+), was released late in 2008 with subsequent worldwide adoption beginning in 2010. The newer standard allows bit-rates to reach as high as 337 Mbit/s in the downlink and 34 Mbit/s in the uplink. However, these speeds are rarely achieved in practice.

ICT - Information and communications technology (ICT) encompasses the capture, storage, retrieval, processing, display, representation, presentation, organization, management, security, transfer, and interchange of data and information; includes all categories of ubiquitous technology used for the gathering, storing, transmitting, retrieving, or processing of information.

Inmarsat - International Maritime Satellite Organization is a British satellite telecommunications company, offering global mobile services. It provides telephone and data services to users worldwide, via portable or mobile terminals that communicate with ground stations through 13 geostationary telecommunications satellites. Inmarsat's network provides communications services to a range of governments, aid agencies, media outlets, and businesses (especially in the shipping, airline, and mining industries) with a need to communicate in remote regions or where there is no reliable terrestrial network.

Intelsat - Intelsat Corporation (formerly International Telecommunications Satellite Organization, INTEL-SAT, INTELSAT) is a communications satellite services provider.

Intersputnik - International Organization of Space Communications (Moscow); first established in the former Soviet Union and the East European countries, it is now marketing its services worldwide with earth stations in North America, Africa, and East Asia.

IP - Internet Protocol is a communications protocol for computers connected to a network, especially the Internet, specifying the format for addresses and units of transmitted data; data traversing the Internet is divided into smaller pieces, called packets.

IoT - the Internet of Things is a system of interrelated computing devices, mechanical, and digital machines provided with unique identifiers (UIDs) and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction.

Iridium - the Iridium satellite constellation provides L band (long wavelength band) voice and data information coverage to satellite phones, pagers, and integrated transceivers over the entire surface of the earth. Iridium Communications owns and operates the constellation, additionally selling equipment and access to its services.

ITU - the International Telecommunication Union (ITU) is a United Nations specialized agency that is responsible for issues that concern information and communication technologies. Founded in 1865, the ITU is the oldest global international organization. The ITU coordinates the shared global use of the radio spectrum, promotes international cooperation in assigning satellite orbits, works to improve telecommunication infrastructure in the developing world, and assists in the development and coordination of worldwide technical standards. The ITU is also active in the areas of broadband Internet, latest-generation wireless technologies, aeronautical and maritime navigation, radio astronomy, satellite-based meteorology, convergence in fixed-mobile phone, Internet access, data, voice, TV broadcasting, and next-generation networks.

IXP - an Internet exchange point (IXP) is a physical location through which Internet infrastructure companies such as Internet service providers (ISPs) and content delivery networks (CDNs) connect with each other.

Kacific 1 - Kacific Broadband Satellites Group (Kacific) is a satellite operator providing high-speed broadband Internet service for the South East Asia and Pacific Islands regions. Its first Ka-band HTS satellite, Kacific1, was designed and built by Boeing and launched into geostationary orbit in December 2019.

Landline - communication wire or cable of any sort that is installed on poles or buried in the ground.

LTE - Long-Term Evolution (LTE) is a standard for wireless broadband communication for mobile devices and data terminals Based on the GSM/EDGE and UMTS/HSPA technologies, it increases communication capacity and speed using a different radio interface together with core network improvements.

LTE Advanced - (aka LTE A) is a mobile communication standard and a major enhancement of the Long Term Evolution (LTE) standard. It was submitted as a candidate 4G in late 2009 as meeting the requirements of the IMT-Advanced standard, and was standardized by the 3rd Generation

Partnership Project (3GPP) in March 2011 as 3GPP Release 10.

LTE-TDD & LTE-FDD - There are two major differences between LTE-TDD and LTE-FDD: how data is uploaded and downloaded, and what frequency spectra the networks are deployed in. While LTE-FDD uses paired frequencies to upload and download data, LTE-TDD uses a single frequency, alternating between uploading and downloading data through time. The ratio between uploads and downloads on a LTE-TDD network can be changed dynamically, depending on whether more data needs to be sent or received. LTE-TDD and LTE-FDD also operate on different frequency bands, with LTE-TDD working better at higher frequencies, and LTE-FDD working better at lower frequencies.

M-commerce - short for mobile commerce, m-commerce is the use of wireless handheld devices like cellphones and tablets to conduct commercial transactions online, including the purchase and sale of products, online banking, and paying bills.

MNO - a mobile network operator (MNO), also known as a wireless service provider, wireless carrier, cellular company, or mobile network carrier, is a provider of wireless communications services that owns or controls all the elements necessary to sell and deliver services to an end user including radio spectrum allocation, wireless network infrastructure, back haul infrastructure, billing, customer care, provisioning computer systems, and marketing and repair organizations.

MNP - mobile number portability

MVNO - a mobile virtual network operator (MVNO) does not own the wireless network infrastructure over which it provides services to its customers. A MVNO enters into a business agreement with a mobile network operator (MNO) to obtain bulk access to network services at wholesale rates, then sets retail prices independently.

Medarabtel - the Middle East Telecommunications Project of the International Telecommunications Union (ITU) providing a modern telecommunications network, primarily by microwave radio relay, linking Algeria, Djibouti, Egypt, Jordan, Libya, Morocco, Saudi Arabia, Somalia, Sudan, Syria, Tunisia, and Yemen; it was initially started in Morocco in 1970 by the Arab Telecommunications Union (ATU) and was known at that time as the Middle East Mediterranean Telecommunications Network.

Microwave radio relay - transmission of long distance telephone calls and television programs by highly directional radio microwaves that are received and sent on from one booster station to another on an optical path.

NB-IoT - narrowband Internet of Things is a low-power, wide-area network (LPWAN) radio technology. NB-IoT improves the power consumption of user devices, system capacity, and spectrum efficiency.

NGN - The next-generation network is the evolution and migration of fixed and mobile network infrastructures from distinct, proprietary networks to converged networks on an IP. One network transports all information and services (voice, data, and media) by encapsulating these into IP packets, similar to those used on the Internet. The result is unrestricted, consistent and ubiquitous access for users to different service providers.

NMT - Nordic Mobile Telephone; NMT is a first generation (1G) mobile cellular phone system based on analog technology that was developed jointly by the national telecommunications authorities of the Nordic countries (Denmark, Finland, Iceland, Norway, and Sweden). NMT-450 analog networks have been replaced with digital networks using the same cellular frequencies.

Orbita - a Russian television service; also the trade name of a packet-switched digital telephone network.

PanAmSat - PanAmSat Corporation (Greenwich, CT) was a satellite service provider.

Radio telephone communications - the two-way transmission and reception of sounds by broadcast radio on authorized frequencies using telephone handsets.

Satellite communication system - a communication system consisting of two or more earth stations and at least one satellite that provide long distance transmission of voice, data, and television; the system usually serves as a trunk connection between telephone exchanges; if the earth stations are in the same country, it is a domestic system.

Satellite earth station - a communications facility with a microwave radio transmitting and receiving antenna, and receiving and transmitting equipment required for communicating with satellites.

Satellite link - a radio connection between a satellite and an earth station permitting communication between them, either one-way (down link from satellite to earth station - television receive-only transmission) or two-way (telephone channels).

SHF - super high frequency; any radio frequency in the 3,000- to 30,000-MHz range.

Shortwave - radio frequencies (from 1.605 to 30 MHz) that fall above the commercial broadcast band and are used for communication over long distances.

SIM card - subscriber identity/identification module card, is a small, removable integrated circuit used in a mobile phone to store data unique to the user, such as an identification number, passwords, phone numbers, and messages.

Solidaridad - geosynchronous satellites in Mexico's system of international telecommunications in the Western Hemisphere.

Spectrum - spectrum management is the allocation and regulation of the electromagnetic spectrum into radio frequency (RF) bands, a procedure normally carried out by governments in most countries. Because radio propagation does not stop at national boundaries, governments have sought to harmonise the allocation of RF bands and their standardization. A spectrum auction is a process whereby a government uses an auction system to sell the rights to transmit signals over specific bands of the electromagnetic spectrum and to assign scarce spectrum resources.

Submarine cable - a cable designed for service under water.

TE North - A submarine cable linking Egypt with France, with a branching unit to Cyprus, developed by Alcatel-Lucent.

Telecommunication (telecom) - is the exchange of signs, signals, messages, words, images and sounds, or information of any nature by wire, radio, optical, or other electromagnetic systems (i.e., via the use of technology). Telecommunication occurs through a transmission medium, such as over physical media, for example, over electrical cable, or via electromagnetic radiation through space such as radio or light.

Teledensity - (telephone density) is the number of telephone connections for every hundred individuals living within an area. It varies widely between nations and also between urban and rural areas within a country. Telephone density correlates closely with the per capita GDP of an area, and is also used as an indicator of the purchasing power of the middle class of a country or specific region.

Telefax - facsimile service between subscriber stations via the public switched telephone network or the international Datel network.

Telegraph - a telecommunications system designed for unmodulated electric impulse transmission.

Telephony - is the field of technology involving the development, application, and deployment of telecommunication services for the purpose of electronic transmission of voice, fax, or data, between distant parties. The history of telephony is intimately linked to the invention and development of the

telephone.

Telex - a communication service involving teletypewriters connected by wire through automatic exchanges.

Trans-Caspian cable - Trans-Caspian Fiber Optic (TCFO) submarine cable; a project between AzerTelecom in Azerbaijan, KazTransCom of Kazakhstan, and Turkmentelekom in Turkmenistan for the construction of a fiber-optic cable in the Caspian Sea.

Tropospheric scatter - a form of microwave radio transmission in which the troposphere is used to scatter and reflect a fraction of the incident radio waves back to earth. Powerful, highly directional antennas are used to transmit and receive the microwave signals. Reliable over-the-horizon communications are realized for distances up to 600 miles in a single hop; additional hops can extend the range of this system for very long distances.

Trunk network - a network of switching centers, connected by multichannel trunk lines.

UHF - ultra high frequency; any radio frequency in the 300- to 3,000-MHz range.

VHF - very high frequency; any radio frequency in the 30- to 300-MHz range.

VNO - A virtual network operator (VNO) is a management services provider and a network services reseller of other telecommunication service providers. VNOs do not possess a telecom network infrastructure; however, they provide telecom services by acquiring the required capacity from other telecom carriers. These network providers are classified as virtual because they offer network services to clients without possessing the actual network. VNOs usually lease bandwidth at agreed wholesale rates from different telecom providers and then offer solutions to their direct customers.

VOD - or video on demand is a video media distribution system that allows users to access video entertainment without a traditional video entertainment device and without the constraints of a typical static broadcasting schedule.

Voice over Internet Protocol - VoIP, also called IP telephony, refers to the delivery of voice communications and multimedia sessions over Internet Protocol (IP) networks, such as the Internet. The terms Internet telephony, broadband telephony, and broadband phone service specifically refer to the provisioning of communications services (voice, fax, text-messaging, voice-messaging) over the public Internet, rather than via the public switched telephone network (PSTN), also known as plain old telephone service (POTS).

VSAT - a VSAT (very-small-aperture terminal) is a two-way satellite ground

station with a dish antenna that is smaller than 3.8 meters. The majority of VSAT antennas range from 75 cm to 1.2 m. Data rates, generally, range from 4 kbit/s up to 16 Mbit/s.

WACS - the West Africa Cable System is a submarine communications cable linking South Africa with the UK along the west coast of Africa and Europe; constructed by Alcatel-Lucent. The cable consists of four fiber pairs and is 14,530 Km in length with 14 landing points – 12 along the western coast of Africa and 2 in Europe – with termination in London, UK.

WiMAX - stands for Worldwide Interoperability for Microwave Access; it is a family of wireless broadband communication standards based on the IEEE 802.16 set of standards, which provide multiple physical layer (PHY) and Media Access Control (MAC) options.

Telephone numbers All telephone numbers in *The World Factbook* consist of the country code in brackets, the city or area code (where required) in parentheses, and the local number. The one component that is not presented is the international access code, which varies from country to country. For example, an international direct dial telephone call placed from the US to Madrid, Spain, would be as follows: 011 [34] (1) 577-xxxx, where 011 is the international access code for station-to-station calls; 01 is for calls other than station-to-station calls, [34] is the country code for Spain, (1) is the city code for Madrid, 577 is the local exchange, and xxxx is the local telephone number. An international direct dial telephone call placed from another country to the US would be as follows: international access code + [1] (202) 939-xxxx, where [1] is the country code for the US, (202) is the area code for Washington, DC, 939 is the local exchange, and xxxx is the local telephone number.

Telephones - fixed lines This entry gives the *total* number of fixed telephone lines in use, as well as the number of *subscriptions per 100 inhabitants*.

Telephones - mobile cellular This entry gives the *total* number of mobile cellular telephone subscribers, as well as the number of *subscriptions per 100 inhabitants*. Note that because of the ubiquity of mobile phone use in developed countries, the number of subscriptions per 100 inhabitants can exceed 100.

Terminology Due to the highly structured nature of the *Factbook* database, some collective generic terms have to be used. For example, the word **Country** in the **Country name** entry refers to a wide variety of dependencies, areas of special sovereignty, uninhabited islands, and other entities in addition to the traditional countries or independent states. **Military** is also used as an umbrella term for

various civil defense, security, and defense activities in many entries. The **Independence** entry includes the usual colonial independence dates and former ruling states as well as other significant nationhood dates such as the traditional founding date or the date of unification, federation, confederation, establishment, or state succession that are not strictly independence dates. Dependent areas have the nature of their dependency status noted in this same entry.

Terrain This entry contains a brief description of the topography of a country.

Terrorist group(s) This entry provides a list of US State Department-designated Foreign Terrorist Organizations (FTO) that are assessed to maintain a presence in each country. This includes cases where sympathizers, supporters, or associates of designated FTOs have carried out attacks or been arrested by security forces for terrorist-type activities in the country. See [Appendix T](#) for details on each FTO.

Time difference This entry is expressed in *The World Factbook* in two ways. First, it is stated as the difference in hours between the capital of an entity and **Coordinated Universal Time (UTC)** during Standard Time. Additionally, the difference in time between the capital of an entity and that observed in Washington, D.C. is also provided. Note that the time difference assumes both locations are simultaneously observing Standard Time or Daylight Saving Time.

Time zones Ten countries (Australia, Brazil, Canada, Indonesia, Kazakhstan, Mexico, New Zealand, Russia, Spain, and the United States) and the island of Greenland observe more than one official time depending on the number of designated time zones within their boundaries. An illustration of time zones throughout the world and within countries can be seen in the Standard Time Zones of the World map included in the **Reference Maps** section of *The World Factbook*.

Tobacco use This entry measures the age standardized prevalence of tobacco use, whether smoked or smokeless or both, among persons 15 years and older for the total population, and separately for the male and female populations.

Total fertility rate This entry gives a figure for the average number of children that would be born per woman if all women lived to the end of their childbearing years and bore children according to a given fertility rate at each age. The total fertility rate (TFR) is a more direct measure of the level of fertility than the crude birth rate, since it refers to births per woman. This indicator shows the potential for population change in the country. A rate of two children per woman is considered the replacement rate for a population, resulting in relative stability in terms of total numbers. Rates above two children indicate populations growing in

size and whose median age is declining. Higher rates may also indicate difficulties for families, in some situations, to feed and educate their children and for women to enter the labor force. Rates below two children indicate populations decreasing in size and growing older. Global fertility rates are in general decline and this trend is most pronounced in industrialized countries, especially Western Europe, where populations are projected to decline dramatically over the next 50 years.

Total renewable water resources This entry provides the long-term average water availability for a country measured in cubic meters per year of precipitation, recharged ground water, and surface inflows from surrounding countries. Total renewable water resources provides the water total available to a country but does not include water resource totals that have been reserved for upstream or downstream countries through international agreements. Note that these values are averages and do not accurately reflect the total available in any given year. Annual available resources can vary greatly due to short-term and long-term climatic and weather variations.

Total water withdrawal This entry provides the annual quantity of water in cubic meters withdrawn for municipal, industrial, and agricultural purposes. Municipal sector use refers to the annual quantity of water withdrawn primarily for direct use by the population through the public distribution network. Industrial sector use refers to the annual quantity of self-supplied water withdrawn for industrial purposes. Agricultural sector use refers to the annual quantity of self-supplied water withdrawn for irrigation, livestock, and aquaculture purposes.

Trafficking in persons Trafficking in persons is modern-day slavery, involving victims who are forced, defrauded, or coerced into labor or sexual exploitation. The International Labor Organization (ILO), the UN agency charged with addressing labor standards, employment, and social protection issues, estimated in 2016 that 24.9 million people worldwide were victims of forced labor, bonded labor, forced child labor, sexual servitude, and involuntary servitude. Human trafficking is a multi-dimensional threat, depriving people of their human rights and freedoms, risking global health, promoting social breakdown, inhibiting development by depriving countries of their human capital, and helping fuel the growth of organized crime. In 2000, the US Congress passed the Trafficking Victims Protection Act (TVPA), reauthorized several times (the latest in (2019), which provides tools for the US to combat trafficking in persons, both domestically and abroad. One of the law's key components is the creation of the US Department of State's annual *Trafficking in Persons Report*, which assesses the government response (i.e., the *current situation*) in some 150 countries with a

significant number of victims trafficked across their borders who are recruited, harbored, transported, provided, or obtained for forced labor or sexual exploitation. Countries in the annual report are rated in three tiers, based on government efforts to combat trafficking. The countries identified in this entry are those listed in the annual *Trafficking in Persons Report* as ‘Tier 2 Watch List’ or ‘Tier 3’ based on the following *tier rating* definitions:

Tier 2 Watch List countries do not fully comply with the minimum standards for the elimination of trafficking but are making significant efforts to do so, and meet one of the following criteria:

1. they display high or significantly increasing number of victims,
2. they have failed to provide evidence of increasing efforts to combat trafficking in persons, or,
3. they have committed to take action over the next year.

Tier 3 countries neither satisfy the minimum standards for the elimination of trafficking nor demonstrate a significant effort to do so. Countries in this tier are subject to potential non-humanitarian and non-trade sanctions.

Transnational issues This category includes four entries - **Disputes - international**, **Refugees and internally displaced persons**, **Trafficking in persons**, and **Illicit drugs** - that deal with current issues going beyond national boundaries.

Transportation This category includes the entries dealing with the means for movement of people and goods.

Transportation - note This entry includes miscellaneous transportation information of significance not included elsewhere.

Unemployment rate This entry contains the percent of the labor force that is without jobs. Substantial underemployment might be noted.

Unemployment, youth ages 15-24 This entry gives the percent of the total labor force ages 15-24 unemployed during a specified year.

Union name This entry, which appears only in the European Union, Government category, provides the full name and abbreviation for the European Union.

Urbanization This entry provides two measures of the degree of urbanization of a population. The first, *urban population*, describes the percentage of the total population living in urban areas, as defined by the country. The second, *rate of urbanization*, describes the projected average rate of change of the size of the

urban population over the given period of time. It is possible for a country with a 100% urban population to still display a change in the rate of urbanization (up or down). For example, a population of 100,000 that is 100% urban can change in size to 110,000 or 90,000 but remain 100% urban.

Additionally, the World entry includes a list of the *ten largest urban agglomerations*. An *urban agglomeration* is defined as comprising the city or town proper and also the suburban fringe or thickly settled territory lying outside of, but adjacent to, the boundaries of the city.

UTC (Coordinated Universal Time) See entry for Coordinated Universal Time.

Waste and recycling This entry provides the amount of municipal solid waste a country produces annually and the amount of that waste that is recycled. Municipal solid waste consists of everyday items that are used and thrown away, including product packaging, furniture, clothing, bottles, food scraps, newspapers, grass clippings, appliances, paint, and batteries. Municipal solid waste - often referred to as trash or garbage - comes from homes, schools, hospitals, and businesses. Recycling is the process of collecting and processing materials that would otherwise be thrown away as trash and turning them into new products. Recycling benefits both communities and the environment.

This entry includes three subfields: *annual amount of municipal solid waste generated* (tons), *annual amount of municipal solid waste recycled* (tons), and *percent of municipal solid waste recycled*.

Waterways This entry gives the total length of navigable rivers, canals, and other inland bodies of water.

Years All year references are for the calendar year (CY) unless indicated as fiscal year (FY). The calendar year is an accounting period of 12 months from 1 January to 31 December. The fiscal year is an accounting period of 12 months other than 1 January to 31 December.

THE HUMAN WORLD

POPULATION

World – 7,772,850,805 (2022 est.)

Most populous countries (in millions) (2022 est.)

1. China 1410.5
2. India 1389.6
3. US 337.3
4. Indonesia 277.3
5. Pakistan 242.9
6. Nigeria 225.1
7. Brazil 217.2
8. Bangladesh 165.7
9. Russia 142
10. Japan 124.2

Least populous countries (2022 est.)

1. Holy See (Vatican City) 1,000
2. Niue 2,000
3. Nauru 9,811
4. Tuvalu 11,544
5. Palau 21,695
6. Monaco 31,400
7. San Marino 34,682
8. Liechtenstein 39,711
9. Dominica 74,629
10. Marshall Islands 79,906

Most densely populated countries (population per sq km) (2022 est.)

1. Monaco 15,700
2. Singapore 8,352
3. Bahrain 2,027
4. Malta 1,469
5. Maldives 1,309

6. Bangladesh 1,273
7. Barbados 704
8. Mauritius 644
9. San Marino 569
10. South Korea 535

Least densely populated countries (population per sq km) (2022 est.)

1. Mongolia 2.1
2. Namibia 3.3
3. Australia 3.4
4. Iceland 3.6
5. Guyana 4
6. Mauritania 4
7. Libya 4.1
8. Suriname 4.1
9. Botswana 4.2
10. Canada 4.2

Largest urban agglomerations (in millions) (2020 est.)

1. Tokyo (Japan) 37.4
2. New Delhi (India) 30.3
3. Shanghai (China) 27.1
4. Sao Paulo (Brazil) 22.0
5. Mexico City (Mexico) 21.8
6. Dhaka (Bangladesh) 21.0
7. Cairo (Egypt) 20.9
8. Beijing (China) 20.5
9. Mumbai (India) 20.4
10. Osaka (Japan) 19.2

Highest population growth rate (2022 est.)

1. Syria 5.91%
2. South Sudan 4.91%
3. Niger 3.66%

4. Burundi 3.63%
5. Equatorial Guinea 3.5%
6. Angola 3.36%
7. Benin 3.34%
8. Uganda 3.27%
9. Democratic Republic of the Congo 3.14%
10. Chad 3.09%

Lowest population growth rate (2022 est.)

1. Moldova -1.12%
2. Latvia -1.11%
3. Romania -1.09%
4. Lithuania -1.04%
5. Serbia -0.75
6. Estonia -0.71%
7. Micronesia -0.67%
8. Bulgaria -0.67%
9. Ukraine -0.5
10. Croatia -0.47

Highest life expectancy at birth (2022 est.)

1. Monaco 89.5
2. Singapore 86.4
3. Japan 84.8
4. San Marino 83.9
5. Canada 83.8
6. Iceland 83.6
7. Andorra 83.4
8. Israel 83.4
9. Switzerland 83.2
10. Malta 83.2

Lowest life expectancy at birth (2022 est.)

1. Afghanistan 53.7

2. Central African Republic 55.5
3. Somalia 55.7
4. Mozambique 57.1
5. Sierra Leone 58.8
6. Chad 59.2
7. South Sudan 59.2
8. Lesotho 59.6
9. Eswatini 59.7
10. Niger 60.1

Highest total fertility rate (children per woman) (2022 est.)

1. Niger 6.82
2. Angola 5.83
3. Democratic Republic of Congo 5.63
4. Mali 5.54
5. Chad 5.46
6. Benin 5.43
7. Uganda 5.36
8. South Sudan 5.32
9. Somalia 5.31
10. Burundi 5.03

Lowest total fertility rate (children per woman) (2022 est.)

1. Taiwan 1.08
2. South Korea 1.1
3. Singapore 1.16
4. Macau 1.22
5. Italy 1.22
6. Hong Kong 1.22
7. Puerto Rico 1.24
8. Spain 1.27
9. Montserrat 1.32
10. Mauritius 1.35

Highest number of people living with HIV/AIDS (millions) (2020 est.)

1. South Africa 7.8
2. India 2.3
3. Mozambique 2.1
4. Nigeria 1.7
5. Tanzania 1.7
6. Zambia 1.5
7. Kenya 1.4
8. Uganda 1.4
9. Zimbabwe 1.3
10. Russia 1

Largest urban agglomerations (in millions) (2020 est.)

1. Tokyo (Japan) 37.4
2. New Delhi (India) 30.3
3. Shanghai (China) 27.1
4. Sao Paulo (Brazil) 22.0
5. Mexico City (Mexico) 21.8
6. Dhaka (Bangladesh) 21.0
7. Cairo (Egypt) 20.9
8. Beijing (China) 20.5
9. Mumbai (India) 20.4
10. Osaka (Japan) 19.2

LANGUAGES

Most spoken languages globally (2020 est.)

1. English 16.5%
2. Mandarin Chinese 14.6%
3. Hindi 8.3%

20.5	Japan
8.3	Germany
7.9	US
50.1	Italy

THE PHYSICAL WORLD

• Dimensions of Planet Earth

- Surface Area – 510.072 million sq km
- Land surface – 148.94 million sq km (29.1% of Earth's surface)
- Water surface – 361.9 million sq km (70.9% of Earth's surface)
- Equatorial circumference – 40,075 km
- Polar circumference – 40,008 km
- Equatorial diameter – 12,756 km
- Polar diameter – 12,714 km
- Mean elevation – 840 m

• Earth Superlatives

- Greatest tidal range – 16.3 m Bay of Fundy, Canada
- Deepest gorge – 4,360 m Colca river, Peru
- Longest gorge – 350 km Grand Canyon, US
- Deepest lake – 1,742 m Lake Baikal, Russia
- Highest navigable lake – 3,810 m Lake Titicaca, Peru/Bolivia
- Longest cave system – 650 km Mammoth Cave, US
- Longest glacier – 515 km Lambert-Fisher Ice Passage, Antarctica
- Deepest depression – -403 m Dead Sea, Israel/Jordan
- Highest point: Mount Everest 8,849 m
- Lowest point:
 - Land – Denman Glacier (Antarctica) more than -3,500 m
 - Ocean – Challenger Deep – 10,924 m, Mariana Trench, (Pacific Ocean)

• Seven Continental Landmasses

- Asia 44,568,500 sq km;
- Africa 30,065,000 sq km;
- North America 24,473,000 sq km;
- South America 17,819,000 sq km;

- Antarctica 14,200,000 sq km;
- Europe 9,948,000 sq km;
- Australia 7,741,220 sq km

• **Ten Largest Islands**

1. Greenland 2,166,086 sq km;
2. New Guinea (Indonesia, Papua New Guinea) 785,753 sq km;
3. Borneo (Brunei, Indonesia, Malaysia) 751,929 sq km;
4. Madagascar 587,713 sq km;
5. Baffin Island (Canada) 507,451 sq km;
6. Sumatra (Indonesia) 472,784 sq km;
7. Honshu (Japan) 227,963 sq km;
8. Victoria Island (Canada) 217,291 sq km;
9. Great Britain (United Kingdom) 209,331 sq km;
10. Ellesmere Island (Canada) 196,236 sq km

CLIMATE

Five Driest Places on Earth (Average Annual Precipitation)

1. McMurdo Dry Valleys, Antarctica 0 mm (0 in)
2. Arica, Chile 0.76 mm (0.03 in)
3. Al Kufrah, Libya 0.86 mm (0.03 in)
4. Aswan, Egypt 0.86 mm (0.03 in)
5. Luxor, Egypt 0.86 mm (0.03 in)

Five Wettest Places on Earth (Average Annual Precipitation)

1. Mawsynram, India 11,871 mm (467.4 in)
2. Cherrapunji, India 11,777 mm (463.7 in)
3. Tutunendo, Colombia 11,770 mm (463.4 in)
4. Cropp River, New Zealand 11,516 mm (453.4 in)
5. San Antonia de Ureca, Equatorial Guinea 10,450 mm (411.4 in)

Five Coldest Places on Earth (Lowest Average Monthly Temperature)

1. Verkhoyansk, Russia (Siberia) -47°C (-53°F) January
2. Oymyakon, Russia (Siberia) -46°C (-52°F) January
3. Eureka, Canada -38.4°C (-37.1°F) February
4. Isachsen, Canada -36°C (-32.8°F) February
5. Alert, Canada -34°C (-28°F) February

Five Hottest Places on Earth (Highest Average Monthly Temperature)

1. Death Valley, US (California) 39°C (101°F) July
2. Iranshahr, Iran 38.3°C (100.9°F) June
3. Ouallene, Algeria 38°C (100.4°F) July
4. Kuwait City, Kuwait 37.7°C (100°F) July
5. Medina, Saudi Arabia 36°C (97°F) July

TERRAIN

Highest point on each continent

- Asia - Mount Everest (China-Nepal) 8,849 m;
- South America - Cerro Aconcagua (Argentina) 6,960 m;
- North America - Denali (Mount McKinley) (United States) 6,190 m;
- Africa - Kilimanjaro (Tanzania) 5,895 m;
- Europe - El'brus (Russia) 5,633 m;
- Antarctica - Vinson Massif 4,897 m;
- Australia - Mount Kosciuszko 2,229 m

Lowest point on each continent

- Antarctica - Denman Glacier more than -3,500 m;
- Asia - Dead Sea (Israel-Jordan) -431 m;
- Africa - Lac Assal (Djibouti) -155 m;
- South America - Laguna del Carbon (Argentina) -105 m;
- North America - Death Valley (United States) -86 m;
- Europe - Caspian Sea (Azerbaijan-Kazakhstan-Russia) -28 m;
- Australia - Lake Eyre -15 m

Ten Largest Natural Lakes:

1. Caspian Sea (Azerbaijan, Iran, Kazakhstan, Russia, Turkmenistan) 374,000 sq km;
2. Lake Superior (Canada, United States) 82,100 sq km;
3. Lake Victoria (Kenya, Tanzania, Uganda) 62,940 sq km;
4. Lake Huron (Canada, United States) 59,600 sq km;
5. Lake Michigan (United States) 57,750 sq km;
6. Lake Tanganyika (Burundi, Democratic Republic of the Congo, Tanzania, Zambia) 32,000 sq km;
7. Great Bear Lake (Canada) 31,328 sq km;
8. Lake Baikal (Russia) 31,500 sq km;
9. Lake Malawi (Malawi, Mozambique, Tanzania) 22,490 sq km;
10. Great Slave Lake (Canada) 28,568 sq km

Ten Longest Rivers:

1. Nile (Africa) 6,650 km;
2. Amazon (South America) 6,436 km;
3. Yangtze (Asia) 6,300 km;
4. Mississippi-Missouri (North America) 6,275 km;
5. Yenisey-Angara (Asia) 5,539 km;
6. Huang He/Yellow (Asia) 5,464 km;
7. Ob-Irtysh (Asia) 5,410 km;
8. Congo (Africa) 4,700 km;
9. Amur (Asia) 4,444 km;
10. Lena (Asia) 4,400 km

FIVE OCEANS OF THE WORLD

Area (% of total World Ocean area)

Pacific – 168,723,000 sq km (46.6%)

Atlantic – 85,133,000 sq km (23.5%)

Indian – 70,560,000 sq km (19.5%)

Southern – 21,960,000 sq km (6.1%)

Arctic – 15,558,000 sq km (4.3%)

Volume (% of total World Ocean volume)

Pacific – 669,880,000 cu km (50.1%)

Atlantic – 310,410,000 cu km (23.3%)

Indian – 264,000,000 cu km (19.8%)

Southern – 71,800,000 cu km (5.4%)

Arctic – 18,750,000 cu km (1.4%)

Average Depth

Pacific – 4,080 m

Indian – 3,741 m

Atlantic – 3,646 m

Southern – 3,270 m

Arctic – 1,205 m

Deepest Points

Pacific – Mariana Trench -10,924 m Challenger Deep

Indian – Java Trench -7,192 m unnamed deep

Atlantic – Puerto Rico Trench -8,605 m unnamed deep

Southern – South Sandwich Trench -7,434 m unnamed deep

Arctic – Molloy Deep -5,577 m

AFGHANISTAN

INTRODUCTION

Background: Ahmad Shah DURRANI unified the Pashtun tribes and founded Afghanistan in 1747. The country served as a buffer between the British and Russian Empires until it won independence from notional British control in 1919. A brief experiment in increased democracy ended in a 1973 coup and a 1978 communist counter coup. The Soviet Union invaded in 1979 to support the tottering Afghan communist regime, touching off a long and destructive war. The USSR withdrew in 1989 under relentless pressure by internationally supported anti-communist mujahidin rebels. A series of subsequent civil wars saw Kabul finally fall in 1996 to the Taliban, a hardline Pakistani-sponsored movement that emerged in 1994 to end the country's civil war and anarchy. Following the 11 September 2001 terrorist attacks, a US, Allied, and anti-Taliban Northern Alliance military action toppled the Taliban for sheltering Usama BIN LADIN.

A UN-sponsored Bonn Conference in 2001 established a process for political reconstruction that included the adoption of a new constitution, a presidential election in 2004, and National Assembly elections in 2005. In December 2004, Hamid KARZAI became the first democratically elected president of Afghanistan and was reelected in August 2009. In February 2020, the US and the Taliban signed the "US-Taliban Agreement," which contained commitments by the US related to the withdrawal from Afghanistan of military forces of the US, its allies, and Coalition partners, as well as commitments by the Taliban related to counterterrorism, among other topics. Following a US drawdown of virtually all of its troops, a summer 2021 Taliban offensive quickly overran the country and the Taliban took over Kabul in August of 2021.

GEOGRAPHY

Location: Southern Asia, north and west of Pakistan, east of Iran

Geographic coordinates: 33 00 N, 65 00 E

Map references: Asia

Area: *total:* 652,230 sq km

land: 652,230 sq km

water: 0 sq km

country comparison to the world: 43

Area - comparative: almost six times the size of Virginia; slightly smaller than Texas

Land boundaries: *total:* 5,987 km

border countries (6): China 91 km; Iran 921 km; Pakistan 2,670 km; Tajikistan 1,357 km; Turkmenistan 804 km; Uzbekistan 144 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: arid to semiarid; cold winters and hot summers

Terrain: mostly rugged mountains; plains in north and southwest

Elevation: *highest point:* Noshak 7,492 m

lowest point: Amu Darya 258 m

mean elevation: 1,884 m

Natural resources: natural gas, petroleum, coal, copper, chromite, talc, barites, sulfur, lead, zinc, iron ore, salt, precious and semiprecious stones, arable land

Land use: *agricultural land:* 58.1% (2018 est.)

arable land: 11.8% (2018)

permanent crops: 0.3% (2018)

permanent pasture: 46% (2018)

forest: 1.8% (2018 est.)

other: 40.1% (2018)

Irrigated land: 32,080 sq km (2012)

Major lakes (area sq km): *salt water lake(s)*: Ab-e Istadah-ye Muqur (endorheic basin) - 520 sq km

Major rivers (by length in km): Amu Darya (shared with Tajikistan [s], Turkmenistan, and Uzbekistan [m]) - 2,620 km; Helmand river source (shared with Iran) - 1,130 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km):

Indian Ocean drainage: Indus (1,081,718 sq km)

Internal (*endorheic basin*) drainage: Amu Darya (534,739 sq km); Tarim Basin (1,152,448 sq km)

Population distribution: populations tend to cluster in the foothills and periphery of the rugged Hindu Kush range; smaller groups are found in many of the country's interior valleys; in general, the east is more densely settled, while the south is sparsely populated

Natural hazards: damaging earthquakes occur in Hindu Kush mountains; flooding; droughts

Geography - note: landlocked; the Hindu Kush mountains that run northeast to southwest divide the northern provinces from the rest of the country; the highest peaks are in the northern Wakhan (Wakhan Corridor)

PEOPLE AND SOCIETY

Population: 38,346,720 (2022 est.)

country comparison to the world: 37

Nationality: *noun:* Afghan(s)

adjective: Afghan

Ethnic groups: Current, reliable statistical data on ethnicity in Afghanistan are not available; Afghanistan's 2004 Constitution cited Pashtun, Tajik, Hazara, Uzbek, Turkman, Baluch, Pachaie, Nuristani, Aymaq, Arab, Qirghiz, Qizilbash, Gujur, and Brahwui ethnicities; Afghanistan has dozens of other small ethnic groups

Languages: Afghan Persian or Dari (official, lingua franca) 77%, Pashto (official) 48%, Uzbeki 11%, English 6%, Turkmani 3%, Urdu 3%, Pachaie 1%, Nuristani 1%, Arabic 1%, Balochi 1%, other <1% (2020 est.)

major-language sample(s):

کتاب حقایق جهان، مرجعی ضروری برای اطلاعات اولیه (Dari)

د-دنيا د حقایقو کتاب، بنیادی معلوماتو لپاره ضروری سرچینه (Pashto)

note 1: percentages sum to more than 100% because many people are multilingual

note 2: Uzbeki, Turkmani, Pachaie, Nuristani, Balochi, and Pamiri are the third official languages in areas where the majority speaks them

Religions: Muslim 99.7% (Sunni 84.7 - 89.7%, Shia 10 - 15%), other <0.3% (2009 est.)

Age structure: 0-14 years: 40.62% (male 7,562,703/female 7,321,646)

15-24 years: 21.26% (male 3,960,044/female 3,828,670)

25-54 years: 31.44% (male 5,858,675/female 5,661,887)

55-64 years: 4.01% (male 724,597/female 744,910)

65 years and over: 2.68% (male 451,852/female 528,831) (2020 est.)

Dependency ratios: *total dependency ratio:* 88.8

youth dependency ratio: 75.3

elderly dependency ratio: 4.8

potential support ratio: 21 (2020 est.)

Median age: *total:* 19.5 years

male: 19.4 years

female: 19.5 years (2020 est.)

country comparison to the world: 201

Population growth rate: 2.3% (2022 est.)

country comparison to the world: 32

Birth rate: 35.46 births/1,000 population (2022 est.)

country comparison to the world: 15

Death rate: 12.33 deaths/1,000 population (2022 est.)

country comparison to the world: 13

Net migration rate: -0.1 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 103

Population distribution: populations tend to cluster in the foothills and periphery of the rugged Hindu Kush range; smaller groups are found in many of the country's interior valleys; in general, the east is more densely settled, while the south is sparsely populated

Urbanization: *urban population:* 26.6% of total population (2022)

rate of urbanization: 3.34% annual rate of change (2020-25 est.)

Major urban areas - population: 4.458 million KABUL (capital) (2022)

Sex ratio: *at birth:* 1.05 male(s)/female

0-14 years: 1.03 male(s)/female

15-24 years: 1.03 male(s)/female

25-54 years: 1.03 male(s)/female

55-64 years: 0.97 male(s)/female

65 years and over: 0.7 male(s)/female

total population: 1.03 male(s)/female (2022 est.)

Mother's mean age at first birth: 19.9 years (2015 est.)

note: data represents median age at first birth among women 25-49

Maternal mortality ratio: 638 deaths/100,000 live births (2017 est.)
country comparison to the world: 11

Infant mortality rate: *total:* 104.89 deaths/1,000 live births
male: 113.33 deaths/1,000 live births
female: 96.03 deaths/1,000 live births (2022 est.)
country comparison to the world: 1

Life expectancy at birth: *total population:* 53.65 years
male: 52.1 years
female: 55.28 years (2022 est.)
country comparison to the world: 227

Total fertility rate: 4.62 children born/woman (2022 est.)
country comparison to the world: 15

Contraceptive prevalence rate: 18.9% (2018)
note: percent of women aged 12-49

Drinking water source: *improved:* *urban:* 100% of population
rural: 68.3% of population
total: 76.5% of population
unimproved: *urban:* 0% of population
rural: 31.7% of population
total: 23.5% of population (2020 est.)

Current health expenditure: 13.2% of GDP (2019)

Physicians density: 0.25 physicians/1,000 population (2020)

Hospital bed density: 0.4 beds/1,000 population (2017)

Sanitation facility access: *improved:* *urban:* 88.2% of population
rural: 52% of population
total: 61.4% of population
unimproved: *urban:* 11.8% of population
rural: 48% of population
total: 38.6% of population (2020 est.)

HIV/AIDS - adult prevalence rate: (2020 est.) <.1%

Major infectious diseases: *degree of risk:* intermediate (2020)

food or waterborne diseases: bacterial diarrhea, hepatitis A, and typhoid fever

vectorborne diseases: Crimea-Congo hemorrhagic fever, malaria

note: Afghanistan is one of two countries with endemic wild polio virus (the other is Pakistan) and considered high risk for international spread of the disease; before any international travel, anyone unvaccinated, incompletely vaccinated, or with an unknown polio vaccination status should complete the routine polio vaccine series; before travel to any high-risk destination, the US Centers for Disease Control and Prevention (CDC) recommends that adults who previously completed the full, routine polio vaccine series receive a single, lifetime booster dose of polio vaccine

Obesity - adult prevalence rate: 5.5% (2016)

country comparison to the world: 176

Alcohol consumption per capita: *total:* 0.01 liters of pure alcohol (2019 est.)

beer: 0 liters of pure alcohol (2019 est.)

wine: 0 liters of pure alcohol (2019 est.)

spirits: 0.01 liters of pure alcohol (2019 est.)

other alcohols: 0 liters of pure alcohol (2019 est.)

country comparison to the world: 183

Tobacco use: *total:* 23.3% (2020 est.)

male: 39.4% (2020 est.)

female: 7.2% (2020 est.)

country comparison to the world: 62

Children under the age of 5 years underweight: 19.1% (2018)

country comparison to the world: 22

Child marriage: *women married by age 15:* 4.2%

women married by age 18: 28.3% (2017 est.)

Education expenditures: 3.2% of GDP (2019 est.)

country comparison to the world: 138

Literacy: *definition:* age 15 and over can read and write

total population: 37.3%

male: 52.1%

female: 22.6% (2021)

School life expectancy (primary to tertiary education): *total:* 10 years

male: 13 years

female: 8 years (2018)

Unemployment, youth ages 15-24: *total:* 16.2%

male: 14.5%

female: 21.1% (2020)

ENVIRONMENT

Environment - current issues: limited natural freshwater resources; inadequate supplies of potable water; soil degradation; overgrazing; deforestation (much of the remaining forests are being cut down for fuel and building materials); desertification; air and water pollution in overcrowded urban areas

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Marine Dumping-London Convention, Nuclear Test Ban, Ozone Layer Protection

signed, but not ratified: Law of the Sea, Marine Life Conservation

Air pollutants: *particulate matter emissions:* 53.17 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 8.67 megatons (2016 est.)

methane emissions: 90.98 megatons (2020 est.)

Climate: arid to semiarid; cold winters and hot summers

Land use: *agricultural land:* 58.1% (2018 est.)

arable land: 11.8% (2018)

permanent crops: 0.3% (2018)

permanent pasture: 46% (2018)

forest: 1.8% (2018 est.)

other: 40.1% (2018)

Urbanization: *urban population:* 26.6% of total population (2022)

rate of urbanization: 3.34% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.2% of GDP (2018 est.)

country comparison to the world: 93

Revenue from coal: *coal revenues:* 0.45% of GDP (2018 est.)

Food insecurity: *severe localized food insecurity: due to civil conflict, population displacement, and economic slowdown* - between November 2021 and March 2022, during the winter lean season, the food insecurity situation was expected to deteriorate and the number of people in “Crisis” or above was likely to increase to 22.8 million, about 35% more than during the same season in 2020/21; following the developments of August 2021 in the country, the international aid flows, an important element of public spending, were halted; the food security situation and agricultural livelihoods in the country is likely to significantly deteriorate in the coming months due to cumulative and cascading impact of multiple shocks, including weather, conflict, economic crisis and the lingering effects of the COVID-19 pandemic (2022)

Waste and recycling: *municipal solid waste generated annually:* 5,628,525 tons (2016 est.)

Major lakes (area sq km): *salt water lake(s):* Ab-e Istadah-ye Muqur (endorheic basin) - 520 sq km

Major rivers (by length in km): Amu Darya (shared with Tajikistan [s], Turkmenistan, and Uzbekistan [m]) - 2,620 km; Helmand river source (shared with Iran) - 1,130 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km):

Indian Ocean drainage: Indus (1,081,718 sq km)

Internal (*endorheic basin*) drainage: Amu Darya (534,739 sq km); Tarim Basin (1,152,448 sq km)

Total water withdrawal: *municipal:* 203.4 million cubic meters (2017 est.)

industrial: 169.5 million cubic meters (2017 est.)

agricultural: 20 billion cubic meters (2017 est.)

Total renewable water resources: 65.33 billion cubic meters (2017

est.)

GOVERNMENT

Country name: *conventional long form:* formerly Islamic Republic of Afghanistan

conventional short form: Afghanistan

local long form: formerly Jamhuri-ye Islami-ye Afghanistan

local short form: Afghanistan

former: Islamic Republic of Afghanistan

etymology: the name “Afghan” originally referred to the Pashtun people (today it is understood to include all the country’s ethnic groups), while the suffix “-stan” means “place of” or “country”; so Afghanistan literally means the “Land of the Afghans”

Government type: the United States does not recognize the Taliban government

Capital: *name:* Kabul

geographic coordinates: 34 31 N, 69 11 E

time difference: UTC+4.5 (9.5 hours ahead of Washington, DC, during Standard Time)

daylight saving time: does not observe daylight savings time

etymology: named for the Kabul River, but the river’s name is of unknown origin

Administrative divisions: 34 provinces (welayat, singular - welayat); Badakhshan, Badghis, Baghlan, Balkh, Bamyan, Daykundi, Farah, Faryab, Ghazni, Ghor, Helmand, Herat, Jowzjan, Kabul, Kandahar, Kapisa, Khost, Kunar, Kunduz, Laghman, Logar, Nangarhar, Nimroz, Nuristan, Paktika, Paktiya, Panjshir, Parwan, Samangan, Sar-e Pul, Takhar, Uruzgan, Wardak, Zabul

Independence: 19 August 1919 (from UK control over Afghan foreign affairs)

National holiday: Independence Day, 19 August (1919)

Constitution: *history:* last ratified in 2004

amendments: formerly proposed by a commission formed by presidential decree followed by the convention of a Grand Council (Loya Jirga) decreed by the president; passage requires at least two-thirds majority vote of the Loya Jirga membership and endorsement by the president

Legal system: before the Taliban's takeover of Kabul in August 2021, Afghanistan had a mixed legal system of civil, customary, and Islamic (sharia) law; after August 2021, the Taliban's so-called "interim government" has claimed to be implementing its own interpretation of Islamic law, partially based on the Hanafi school of Islamic jurisprudence. (2021)

International law organization participation: has not submitted an ICJ jurisdiction declaration; formerly accepted ICtJ jurisdiction

Citizenship: *citizenship by birth*: no

citizenship by descent only: at least one parent must have been born in - and continuously lived in - Afghanistan

dual citizenship recognized: no

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state*: president (vacant); note – before 15 August, 2021, the president was both chief of state and head of government; President Ashraf GHANI departed the country on 15 August 2021; on 7 September 2021, the Taliban announced Mullah Mohammad HASSAN Akhund as the so-called "acting Prime Minister" of a so-called "interim government"; as of November 2021, the group had announced three acting so-called "Deputy Prime Ministers": Mullah Abdul Ghani BERADER, Mullah Abdul Salam HANAFI, and Maulawi Abdul KABIR
head of government: president (vacant); note - President Ashraf GHANI departed the country on 15 August 2021; on 7 September 2021, the Taliban announced Mullah Mohammad HASSAN Akhund as the acting Prime Minister of an interim Taliban government; the US does not recognize the Taliban government; as of November 2021, the group had announced three acting Deputy Prime Ministers: Mullah Abdul Ghani

BERADER, Mullah Abdul Salam HANAFLI, and Maulawi Abdul KABIR
cabinet: before 15 August 2021, the cabinet formerly consisted of 25 ministers appointed by the president, approved by the National Assembly; the Taliban have announced a so-called “cabinet” which includes 33 ministries

elections/appointments: the 2004 Afghan constitution directed that the president should be elected by majority popular vote for a 5-year term (eligible for a second term); election last held on 28 September 2019

election results: no elections have been held since 2019; in that election, Ashraf GHANI was declared winner by the Independent Election Commission on 18 February 2020; the IEC declared Ashraf GHANI the winner with 50.6% of the vote, Abdullah ABDULLAH, Dr. 39.5%, other 0.9%

Legislative branch: *description:* before 15 August, 2021, Afghanistan had a bicameral National Assembly that consisted of a House of Elders and a House of People; since August 15, the Taliban’s so-called “interim government” has not purported to announce the formation of a legislative branch

elections: before 15 August, 2021: House of Elders - district councils - held within 5 days of installation; provincial councils - within 15 days of installation; and presidential appointees - within 2 weeks after the presidential inauguration; note - in early 2016, former President Ashraf Ghani extended their mandate until parliamentary and district elections could be held; former House of People - last held on 20 October 2018

election results: before 15 August 2021, House of Elders - percent of vote by party - NA; seats by party - NA; composition - men 85, women 17, percent of women 16.7% before 15 August 2021, House of People - percent of vote by party NA; seats by party - NA; composition - men 179, women 69, percent of women 27.7%; note - total National Assembly percent of women 24.4%

Judicial branch: *highest court(s):* the Taliban’s so-called “interim government” has a “Supreme Court” (consisting of a supreme court chief and an unknown number of justices); before 15 August, 2021,

Afghanistan had a Supreme Court (consisting of a supreme court chief and 8 justices organized into criminal, public security, civil, and commercial divisions)

judge selection and term of office: the court chief and justices were appointed by the president with the approval of the Wolesi Jirga; court chief and justices served single 10-year terms

subordinate courts: before 15 August 2021, consisted of Appeals Courts; Primary Courts; and Special Courts for issues including narcotics, security, property, family, and juveniles

Political parties and leaders: the Taliban's so-called "interim government" includes mostly Taliban members and not other political parties; before 15 August, 2021, the Ministry of Justice had licensed 72 political parties as of April 2019

International organization participation: before 15 August, 2021, Afghanistan was a member or participant in the following organizations: ADB, CICA, CP, ECO, EITI (candidate country), FAO, G-77, IAEA, IBRD, ICAO, ICC (NGOs), ICCT, ICRM, IDA, IDB, IFAD, IFC, IFRCs, ILO, IMF, Interpol, IOC, IOM, IPU, ISO (correspondent), ITSO, ITU, ITUC (NGOs), MIGA, NAM, OIC, OPCW, OSCE (partner), SAARC, SACEP, SCO (dialogue member), UN, UNAMA, UNCTAD, UNESCO, UNHCR, UNIDO, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* the Afghan Embassy closed in March 2022

chancery: 2341 Wyoming Avenue NW, Washington, DC 20008

telephone: [1] (202) 483-6410

FAX: [1] (202) 483-6488

email address and website:

info@afghanembassy.us

<https://www.afghanembassy.us/>

Diplomatic representation from the US: *chief of mission:* Ambassador (vacant); Charge d'Affaires: Ian McCARY (since August 2021); note – since 15 August 2021, the United States has not yet made a

decision whether to recognize the Taliban or any other entity as the Government of Afghanistan

embassy: Embassy Kabul, operations have been suspended; Department of State's Afghanistan Affairs Unit operates from Doha, Qatar.

Flag description: three equal vertical bands of black (hoist side), red, and green, with the national emblem in white centered on the red band and slightly overlapping the other 2 bands; the center of the emblem features a mosque with pulpit and flags on either side, below the mosque are Eastern Arabic numerals for the solar year 1298 (1919 in the Gregorian calendar, the year of Afghan independence from the UK); this central image is circled by a border consisting of sheaves of wheat on the left and right, in the upper-center is an Arabic inscription of the Shahada (Muslim creed) below which are rays of the rising sun over the Takbir (Arabic expression meaning "God is great"), and at bottom center is a scroll bearing the name Afghanistan; black signifies the past, red is for the blood shed for independence, and green can represent either hope for the future, agricultural prosperity, or Islam

note 1: the United States has not recognized the Taliban or any other entity as the government of Afghanistan and, accordingly, continues to display the flag of Afghanistan as set forth in the country's constitution of 2004

note 2: Afghanistan had more changes to its national flag in the 20th century - 19 by one count - than any other country; the colors black, red, and green appeared on most of them

National symbol(s): lion; national colors: red, green, black

National anthem: *name:* "Milli Surood" (National Anthem)

lyrics/music: Abdul Bari JAHANI/Babrak WASA

note: adopted 2006

National heritage: *total World Heritage Sites:* 2 (both cultural)

selected World Heritage Site locales: Minaret of Jam; Buddhas of Bamyan

note: the monumental 6th- and 7th-century statues were destroyed by the Taliban in 2001

ECONOMY

Economic overview: Prior to 2001, Afghanistan was an extremely poor, landlocked, and foreign aid-dependent country. Increased domestic economic activity occurred following the US-led invasion, as well as significant international economic development assistance. This increased activity expanded access to water, electricity, sanitation, education, and health services, and fostered consistent growth in government revenues since 2014. While international security forces have been drawing down since 2012, with much higher U.S. forces' drawdowns occurring since 2017, economic progress continues, albeit uneven across sectors and key economic indicators. After recovering from the 2018 drought and growing 3.9% in 2019, political instability, expiring international financial commitments, and the COVID-19 pandemic have wrought significant adversity on the Afghan economy, with a projected 5% contraction.

Current political parties' power-sharing agreement following the September 2019 presidential elections as well as ongoing Taliban attacks and peace talks have led to Afghan economic instability. This instability, coupled with expiring international grant and assistance, endangers recent fiscal gains and has led to more internally displaced persons. In November 2020, Afghanistan secured \$12 billion in additional international aid for 2021-2025, much of which is conditional upon Taliban peace progress. Additionally, Afghanistan continues to experience influxes of repatriating Afghanis, mostly from Iran, significantly straining economic and security institutions.

Afghanistan's trade deficit remains at approximately 31% of GDP and is highly dependent on financing through grants and aid. While Afghan agricultural growth remains consistent, recent industrial and services growth have been enormously impacted by COVID-19 lockdowns and trade cessations. While trade with the People's Republic of China has rapidly expanded in recent years, Afghanistan still relies heavily upon India and Pakistan as export partners but is more diverse in its import partners. Furthermore, Afghanistan still struggles to effectively enforce business contracts, facilitate easy tax collection, and enable greater

international trade for domestic enterprises.

Current Afghan priorities focus on the following goals:

- Securing international economic agreements, many of which are contingent on Taliban peace progress;
- Increasing exports to \$2 billion USD by 2023;
- Continuing to expand government revenue collection;
- Countering corruption and navigating challenges from the power-sharing agreement; and
- Developing a strong private sector that can empower the economy.

Real GDP (purchasing power parity): \$77.04 billion (2020 est.)

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 145,787 (2020 est.)

subscriptions per 100 inhabitants: (2020 est.) less than 1

country comparison to the world: 126

Telephones - mobile cellular: *total subscriptions:* 22,678,024 (2020 est.)

subscriptions per 100 inhabitants: 58 (2020 est.)

country comparison to the world: 53

Telecommunication systems: *general assessment:* the return of the Taliban to power in August 2021 following the American-led withdrawal of security forces has thrown the telecom sector into disarray; Afghanistan was near the bottom of the world's rankings in terms of its telecom market maturity, but it had been making some positive progress toward establishing widespread coverage over the prior decade under civilian administration; after the first Taliban regime was toppled in 2001, considerable foreign investment along with open competition in the telecom sector resulted in the transformation of the mobile market; the first mobile network was set up in 2002, and by 2020 coverage had reached 90%; mobile penetration rates, too, had climbed from zero to almost 100% by the time a new insurgency kicked off in 2019 that was closely followed by the start of the Covid-19 pandemic; both events caused a drop in subscriber numbers and in revenue for the mobile operators; it was additional costs involved with repairing and replacing network infrastructure destroyed by the Taliban in the build up to their takeover that put a strain on the operators' finances; with increased levels of risk and uncertainty now associated with running a telecom company in the embattled state (2021)

domestic: before 15 August 2021, less than 1 per 100 for fixed-line teledensity; 58 per 100 for mobile-cellular; an increasing number of Afghans utilize mobile-cellular phone networks (2021)

international: country code - 93; multiple VSAT's provide international and domestic voice and data connectivity (2019)

Broadcast media: since 15 August 2021, independent media outlets have decreased in number due to financial hardships, departure of staff from the country, and restrictions placed by the Taliban; media workers report self-censoring criticism of the Taliban; before 15 August 2021, the former Afghan Government-owned broadcaster, Radio Television Afghanistan (RTA), operated a series of radio and television stations in Kabul and the provinces and the country had an estimated 174 private radio stations and 83 TV stations; television and radio are key media platforms; only about a fifth of Afghans in urban areas use the internet, mostly through smartphones, and young adults are significantly more likely to use the internet (2021)

Internet country code: .af

Internet users: *total:* 7,007,101 (2020 est.)

percent of population: 18% (2020 est.)

MILITARY AND SECURITY

Military and security forces: as of 2022, the Taliban had established a de facto Ministry of Defense and named commanders and deputy commanders for 8 regional corps; in December 2021, it announced the formation of a police force (2022)

Military expenditures: 3.3% of GDP (2019) (approximately \$2.35 billion)

3.2% of GDP (2018) (approximately \$2.31 billion)

3.3% of GDP (2017) (approximately \$2.34 billion)

3.1% of GDP (2016) (approximately \$2.6 billion)

2.9% of GDP (2015) (approximately \$2.22 billion)

country comparison to the world: 27

Military and security service personnel strengths: in May 2022, the de facto Ministry of Defense announced that approximately 130,000 troops had been recruited for a new “National Army” (2022)

note: as of 2022, there were also up to 10,000 foreign fighters in Afghanistan, most of whom were aligned with the Taliban

Military equipment inventories and acquisitions: the Taliban military/security forces are armed largely with equipment captured from the Afghan National Defense and Security Forces (ANDSF) when the central government in Kabul collapsed in 2021 (2022)

Military service age and obligation: not available

note: the Taliban dismissed nearly all women from the former Afghan Government security forces, except those serving in detention facilities and assisting with body searches

Military - note: as of 2022, the Taliban’s primary security threats included ISIS-Khorasan and anti-Taliban resistance elements known as the National Resistance Front and Afghanistan Freedom Front

TERRORISM

Terrorist group(s): Haqqani Taliban Network; Harakat ul-Mujahidin; Harakat ul-Jihad-i-Islami; Islamic Jihad Union; Islamic Movement of Uzbekistan; Islamic State of Iraq and ash-Sham-Khorasan Province (ISIS-K); Islamic Revolutionary Guard Corps (IRGC)/Qods Force; Jaish-e-Mohammed; Jaysh al Adl (Jundallah); Lashkar i Jhangvi; Lashkar-e-Tayyiba; al-Qa'ida; al- Qa'ida in the Indian Subcontinent (AQIS); Tehrik-e-Taliban Pakistan (TTP)

note 1: as of mid-2022, TTP was reportedly the largest component of foreign terrorist fighters in Afghanistan, with an estimated 3-4,000 armed fighters operating primarily along the Afghanistan-Pakistan border

TRANSNATIONAL ISSUES

Disputes - international: *Afghanistan-China:* None identified

Afghanistan-Iran: Afghan and Iranian commissioners have discussed boundary monument densification and resurvey; Iran protests Afghanistan's restricting flow of dammed Helmand River tributaries during drought

Afghanistan-Pakistan: Pakistan has built fences in some portions of its border with Afghanistan which remains open in some areas to terrorist and other illegal activities. Their alignments may not always be in conformance with Durand Line and original surveyed definitions of the boundary.

Afghanistan-Tajikistan: None identified

Afghanistan-Turkmenistan: None identified

Afghanistan-Uzbekistan: None identified. Boundary follows Amu Darya river as delimited in the Afghan-Soviet treaties and not by the river's current course. The boundary was delimited and possibly demarcated during Soviet times (pre-1991). No current negotiations between Afghanistan and Uzbekistan to redelimit the boundary have been identified.

Russia remains concerned about the smuggling of poppy derivatives from Afghanistan through Central Asian countries

Refugees and internally displaced persons: *refugees (country of origin):* 72,188 (Pakistan) (mid-year 2021)

IDPs: 4.314 million (mostly Pashtuns and Kuchis displaced in the south and west due to natural disasters and political instability) (2021)

Trafficking in persons: *current situation:* human traffickers exploit domestic and foreign victims and returning Afghan migrants and exploit Afghan victims abroad; internal trafficking is more prevalent than transnational trafficking; traffickers exploit men, women, and a large number of children domestically; victims are subjected to forced labor in agriculture, brick kilns, carpet weaving, domestic servitude, commercial sex, begging, poppy cultivation and harvesting, salt mining, transnational

drug smuggling, and truck driving; Afghan security forces and non-state armed groups, including the pro-government militias and the Taliban, continue to unlawfully recruit and use child soldiers; sexual exploitation of boys remains pervasive nationwide, and traffickers subject some boys to sexual exploitation abroad

tier rating: Tier 3 — Afghanistan does not fully comply with the minimum standards for the elimination of trafficking in persons and is not making significant efforts to do so; the government decreased law enforcement efforts against civilian and official perpetrators of trafficking, and officials complicit in recruitment and use of child soldiers and the sexual exploitation of boys continued to operate with impunity; authorities continued to arrest, detain, and penalize many trafficking victims, including punishing sex trafficking victims for “moral crimes”; the judiciary remained underfunded, understaffed, and undertrained (2020)

Illicit drugs: the world’s largest producer of illicit opiates, but it is not a major supplier to the United States; 215,000 hectares (ha) of opium poppy cultivated in Afghanistan in 2020; also produces methamphetamine and cannabis products; one of the highest domestic substance abuse rates in the world (2022)

AKROTIRI

INTRODUCTION

Background: By terms of the 1960 Treaty of Establishment that created the independent Republic of Cyprus, the UK retained full sovereignty and jurisdiction over two areas of almost 254 square kilometers - Akrotiri and Dhekelia. The southernmost and smaller of the two is the Akrotiri Sovereign Base Area, which is also referred to as the Western Sovereign Base Area.

GEOGRAPHY

Location: Eastern Mediterranean, peninsula on the southwest coast of Cyprus

Geographic coordinates: 34 37 N, 32 58 E

Map references: Middle East

Area: *total:* 123 sq km

note: includes a salt lake and wetlands

country comparison to the world: 223

Area - comparative: about 0.7 times the size of Washington, DC

Land boundaries: *total:* 48 km

border countries (1): Cyprus 48 km

Coastline: 56.3 km

Climate: temperate; Mediterranean with hot, dry summers and cool winters

Geography - note: British extraterritorial rights also extended to several small off-post sites scattered across Cyprus; of the Sovereign Base Area (SBA) land, 60% is privately owned and farmed, 20% is owned by the Ministry of Defense, and 20% is SBA Crown land

PEOPLE AND SOCIETY

Population: (2020) approximately 18,195 on the Sovereign Base Areas of Akrotiri and Dhekelia including 11,000 Cypriots and 7,195 Service and UK-based contract personnel and dependents

Languages: English, Greek

major-language sample(s): Το Παγκόσμιο Βιβλίο Δεδομένων, η απαραίτητη πηγή βασικών πληροφοριών. (Greek)

ENVIRONMENT

Environment - current issues: hunting around the salt lake; note - breeding place for loggerhead and green turtles; only remaining colony of griffon vultures is on the base

Climate: temperate; Mediterranean with hot, dry summers and cool winters

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Akrotiri

etymology: named for the village that lies within the Western Sovereign Base Area on Cyprus

Dependency status: a special form of UK overseas territory; administered by an administrator who is also the Commander, British Forces Cyprus

Capital: *name:* Episkopi Cantonment (base administrative center for Akrotiri and Dhekelia)

geographic coordinates: 34 40 N, 32 51 E

time difference: UTC+2 (7 hours ahead of Washington, DC, during Standard Time)

daylight saving time: +1hr, begins last Sunday in March; ends last Sunday in October

etymology: “Episkopi” means “episcopal” in Greek and stems from the fact that the site previously served as the bishop’s seat of an Orthodox diocese

Constitution: *history:* presented 3 August 1960, effective 16 August 1960 (The Sovereign Base Areas of Akrotiri and Dhekelia Order in Council 1960 serves as a basic legal document)

amendments: amended 1966

Legal system: laws applicable to the Cypriot population are, as far as possible, the same as the laws of the Republic of Cyprus; note - the Sovereign Base Area Administration has its own court system to deal with civil and criminal matters

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022)

head of government: Administrator Air Vice-Marshal Peter J.M. SQUIRES (since 1 September 2022); note -administrator reports to the British Ministry of Defense and is also Commander, British Forces

Cyprus (BFC); the chief officer, an appointed civilian, is responsible for the day-to-day running of the civil government of the Sovereign Base Areas

elections/appointments: the monarchy is hereditary; administrator appointed by the monarch on the advice of the Ministry of Defense

Judicial branch: *highest court(s):* Senior Judges' Court (consists of several visiting judges from England and Wales)

judge selection and term of office: see entry for United Kingdom

subordinate courts: Resident Judges' Court; Courts Martial

Diplomatic representation in the US: none (overseas territory of the UK)

Diplomatic representation from the US: *embassy:* none (overseas territory of the UK)

Flag description: the flag of the UK is used

National anthem: *note:* as a UK area of special sovereignty, "God Save the King" is official (see United Kingdom)

ECONOMY

Economic overview: Economic activity is limited to providing services to the military and their families located in Akrotiri. All food and manufactured goods must be imported.

Exchange rates: *note:* uses the euro

COMMUNICATIONS

Broadcast media: British Forces Broadcast Service (BFBS) provides multi-channel satellite TV service as well as BFBS radio broadcasts to the Akrotiri Sovereign Base Area

TRANSPORTATION

Airports: *total:* 1 (2021)

country comparison to the world: 209

Airports - with paved runways: 2,438 to 3,047 m: 1 (2021)

MILITARY AND SECURITY

Military - note: defense is the responsibility of the UK; Akrotiri (aka the Western Sovereign Base Area) has a full Royal Air Force base, headquarters for British Forces Cyprus, and the Episkopi Cantonment

TRANSNATIONAL ISSUES

Illicit drugs: NA

ALBANIA

INTRODUCTION

Background: Albania declared its independence from the Ottoman Empire in 1912, but was conquered by Italy in 1939 and occupied by Germany in 1943. Communist partisans took over the country in 1944. Albania allied itself first with the USSR (until 1960), and then with China (to 1978). In the early 1990s, Albania ended 46 years of isolated communist rule and established a multiparty democracy. The transition has proven challenging as successive governments have tried to deal with high unemployment, widespread corruption, dilapidated infrastructure, powerful organized crime networks, and combative political opponents.

Albania has made progress in its democratic development since it first held multiparty elections in 1991, but deficiencies remain. Most of Albania's post-communist elections were marred by claims of electoral fraud; however, international observers judged elections to be largely free and fair since the restoration of political stability following the collapse of pyramid schemes in 1997. Albania joined NATO in April 2009 and in June 2014 became an EU candidate. Albania in April 2017 received a European Commission recommendation to open EU accession negotiations following the passage of historic EU-mandated justice reforms in 2016. Although Albania's economy continues to grow, it has slowed, and the country is still one of the poorest in Europe. A large informal economy and a weak energy and transportation infrastructure remain obstacles.

GEOGRAPHY

Location: Southeastern Europe, bordering the Adriatic Sea and Ionian Sea, between Greece to the south and Montenegro and Kosovo to the north

Geographic coordinates: 41 00 N, 20 00 E

Map references: Europe

Area: *total:* 28,748 sq km

land: 27,398 sq km

water: 1,350 sq km

country comparison to the world: 144

Area - comparative: slightly smaller than Maryland

Land boundaries: *total:* 691 km

border countries (4): Greece 212 km; Kosovo 112 km; Macedonia 181 km; Montenegro 186 km

Coastline: 362 km

Maritime claims: *territorial sea:* 12 nm

continental shelf: 200-m depth or to the depth of exploitation

Climate: mild temperate; cool, cloudy, wet winters; hot, clear, dry summers; interior is cooler and wetter

Terrain: mostly mountains and hills; small plains along coast

Elevation: *highest point:* Maja e Korabit (Golem Korab) 2,764 m

lowest point: Adriatic Sea 0 m

mean elevation: 708 m

Natural resources: petroleum, natural gas, coal, bauxite, chromite, copper, iron ore, nickel, salt, timber, hydropower, arable land

Land use: *agricultural land:* 42.8% (2018 est.)

arable land: 22.3% (2018 est.)

permanent crops: 3% (2018 est.)

permanent pasture: 17.4% (2018 est.)

forest: 28.8% (2018 est.)

other: 28.2% (2018 est.)

Irrigated land: 3,537 sq km (2014)

Major lakes (area sq km): *fresh water lake(s)*: Lake Scutari (shared with Montenegro) - 400 sq km

note - largest lake in the Balkans

Major watersheds (area sq km):

Atlantic Ocean drainage: (*Black Sea*) Danube (795,656 sq km)

Population distribution: a fairly even distribution, with somewhat higher concentrations of people in the western and central parts of the country

Natural hazards: destructive earthquakes; tsunamis occur along southwestern coast; floods; drought

Geography - note: strategic location along Strait of Otranto (links Adriatic Sea to Ionian Sea and Mediterranean Sea)

PEOPLE AND SOCIETY

Population: 3,095,344 (2022 est.)

country comparison to the world: 136

Nationality: *noun:* Albanian(s)

adjective: Albanian

Ethnic groups: Albanian 82.6%, Greek 0.9%, other 1% (including Vlach, Romani, Macedonian, Montenegrin, and Egyptian), unspecified 15.5% (2011 est.)

note: data represent population by ethnic and cultural affiliation

Languages: Albanian 98.8% (official - derived from Tosk dialect), Greek 0.5%, other 0.6% (including Macedonian, Romani, Vlach, Turkish, Italian, and Serbo-Croatian), unspecified 0.1% (2011 est.)

major-language sample(s): Libri i fakteve boterore, burim i pazvendësueshem për informacione elementare. (Albanian)

Religions: Muslim 56.7%, Roman Catholic 10%, Orthodox 6.8%, atheist 2.5%, Bektashi (a Sufi order) 2.1%, other 5.7%, unspecified 16.2% (2011 est.)

note: all mosques and churches were closed in 1967 and religious observances prohibited; in November 1990, Albania began allowing private religious practice

Age structure: 0-14 years: 17.6% (male 284,636/female 256,474)

15-24 years: 15.39% (male 246,931/female 226,318)

25-54 years: 42.04% (male 622,100/female 670,307)

55-64 years: 11.94% (male 178,419/female 188,783)

65 years and over: 13.03% (male 186,335/female 214,276) (2020 est.)

Dependency ratios: *total dependency ratio:* 46.9

youth dependency ratio: 25.3

elderly dependency ratio: 21.6

potential support ratio: 4.6 (2020 est.)

Median age: *total:* 34.3 years

male: 32.9 years

female: 35.7 years (2020 est.)

country comparison to the world: 91

Population growth rate: 0.22% (2022 est.)

country comparison to the world: 179

Birth rate: 12.69 births/1,000 population (2022 est.)

country comparison to the world: 143

Death rate: 7.31 deaths/1,000 population (2022 est.)

country comparison to the world: 111

Net migration rate: -3.23 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 184

Population distribution: a fairly even distribution, with somewhat higher concentrations of people in the western and central parts of the country

Urbanization: *urban population:* 63.8% of total population (2022)

rate of urbanization: 1.29% annual rate of change (2020-25 est.)

Major urban areas - population: 512,000 TIRANA (capital) (2022)

Sex ratio: *at birth:* 1.07 male(s)/female

0-14 years: 1.1 male(s)/female

15-24 years: 1.11 male(s)/female

25-54 years: 0.92 male(s)/female

55-64 years: 0.92 male(s)/female

65 years and over: 0.66 male(s)/female

total population: 0.97 male(s)/female (2022 est.)

Mother's mean age at first birth: 26.6 years (2020 est.)

Maternal mortality ratio: 15 deaths/100,000 live births (2017 est.)

country comparison to the world: 136

Infant mortality rate: *total:* 10.82 deaths/1,000 live births

male: 11.85 deaths/1,000 live births

female: 9.71 deaths/1,000 live births (2022 est.)

country comparison to the world: 131

Life expectancy at birth: *total population: 79.47 years*

male: 76.8 years

female: 82.33 years (2022 est.)

country comparison to the world: 61

Total fertility rate: *1.54 children born/woman (2022 est.)*

country comparison to the world: 194

Contraceptive prevalence rate: *46% (2017/18)*

Drinking water source: *improved: urban: 97.3% of population*

rural: 96.4% of population

total: 97% of population

unimproved: urban: 2.7% of population

rural: 3.6% of population

total: 3% of population (2020 est.)

Current health expenditure: *5.2% of GDP (2018)*

Physicians density: *1.88 physicians/1,000 population (2020)*

Hospital bed density: *2.9 beds/1,000 population (2013)*

Sanitation facility access: *improved: urban: 99.8% of population*

rural: 100% of population

total: 99.9% of population

unimproved: urban: 0.2% of population

rural: 0.5% of population

total: 0.1% of population (2020 est.)

HIV/AIDS - adult prevalence rate: *(2020 est.) <.1*

Obesity - adult prevalence rate: *21.7% (2016)*

country comparison to the world: 85

Alcohol consumption per capita: *total: 4.4 liters of pure alcohol (2019 est.)*

beer: 1.75 liters of pure alcohol (2019 est.)

wine: 1.15 liters of pure alcohol (2019 est.)

spirits: 1.43 liters of pure alcohol (2019 est.)

other alcohols: 0.08 liters of pure alcohol (2019 est.)

country comparison to the world: 90

Tobacco use: *total*: 22.4% (2020 est.)

male: 38.8% (2020 est.)

female: 6% (2020 est.)

country comparison to the world: 69

Children under the age of 5 years underweight: 1.5% (2017/18)

country comparison to the world: 118

Child marriage: *women married by age 15*: 1.4%

women married by age 18: 11.8%

men married by age 18: 1.2% (2018 est.)

Education expenditures: 3.9% of GDP (2019 est.)

country comparison to the world: 105

Literacy: *definition*: age 15 and over can read and write

total population: 98.1%

male: 98.5%

female: 97.8% (2018)

School life expectancy (primary to tertiary education): *total*: 15 years

male: 14 years

female: 15 years (2020)

Unemployment, youth ages 15-24: *total*: 27%

male: 27.8%

female: 25.9% (2019 est.)

ENVIRONMENT

Environment - current issues: deforestation; soil erosion; water pollution from industrial and domestic effluents; air pollution from industrial and power plants; loss of biodiversity due to lack of resources for sound environmental management

Environment - international agreements: *party to:* Air Pollution, Air Pollution-Nitrogen Oxides, Air Pollution-Sulphur 85, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands
signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 17.87 micrograms per cubic meter (2016 est.)
carbon dioxide emissions: 4.54 megatons (2016 est.)
methane emissions: 2.55 megatons (2020 est.)

Climate: mild temperate; cool, cloudy, wet winters; hot, clear, dry summers; interior is cooler and wetter

Land use: *agricultural land:* 42.8% (2018 est.)
arable land: 22.3% (2018 est.)
permanent crops: 3% (2018 est.)
permanent pasture: 17.4% (2018 est.)
forest: 28.8% (2018 est.)
other: 28.2% (2018 est.)

Urbanization: *urban population:* 63.8% of total population (2022)
rate of urbanization: 1.29% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.18% of GDP (2018 est.)
country comparison to the world: 95

Revenue from coal: *coal revenues:* 0.03% of GDP (2018 est.)

Waste and recycling: *municipal solid waste generated annually:*
1,142,964 tons (2015 est.)

Major lakes (area sq km): *fresh water lake(s):* Lake Scutari (shared with Montenegro) - 400 sq km

note - largest lake in the Balkans

Major watersheds (area sq km): *Atlantic Ocean drainage: (Black Sea) Danube* (795,656 sq km)

Total water withdrawal: *municipal:* 283 million cubic meters (2017 est.)

industrial: 231.8 million cubic meters (2017 est.)

agricultural: 905 million cubic meters (2017 est.)

Total renewable water resources: 30.2 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Albania

conventional short form: Albania

local long form: Republika e Shqiperise

local short form: Shqiperia

former: People's Socialist Republic of Albania

etymology: the English-language country name seems to be derived from the ancient Illyrian tribe of the Albani; the native name "Shqiperia" is derived from the Albanian word "Shqiponje" ("Eagle") and is popularly interpreted to mean "Land of the Eagles"

Government type: parliamentary republic

Capital: *name:* Tirana (Tirane)

geographic coordinates: 41 19 N, 19 49 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

daylight saving time: +1hr, begins last Sunday in March; ends last Sunday in October

etymology: the name Tirana first appears in a 1418 Venetian document; the origin of the name is unclear, but may derive from Tirkan Fortress, whose ruins survive on the slopes of Dajti mountain and which overlooks the city

Administrative divisions: 12 counties (qarqe, singular - qark); Berat, Diber, Durres, Elbasan, Fier, Gjirokaster, Korce, Kukes, Lezhe, Shkoder, Tirane, Vlore

Independence: 28 November 1912 (from the Ottoman Empire)

National holiday: Independence Day, 28 November (1912), also known as Flag Day

Constitution: *history:* several previous; latest approved by the Assembly 21 October 1998, adopted by referendum 22 November 1998, promulgated 28 November 1998

amendments: proposed by at least one fifth of the Assembly membership; passage requires at least a two-thirds majority vote by the Assembly; referendum required only if approved by two thirds of the Assembly; amendments approved by referendum effective upon declaration by the president of the republic; amended several times, last in 2020

Legal system: civil law system except in the northern rural areas where customary law known as the “Code of Leke” is still present

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Albania

dual citizenship recognized: yes

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President of the Republic Bajram BEGAJ (since 24 July 2022)

head of government: Prime Minister Edi RAMA (since 10 September 2013); Deputy Prime Minister Arben AHMETAJ (since 18 September 2021)

cabinet: Council of Ministers proposed by the prime minister, nominated by the president, and approved by the Assembly

elections/appointments: president indirectly elected by the Assembly for a 5-year term (eligible for a second term); a candidate needs three-fifths majority vote of the Assembly in 1 of 3 rounds or a simple majority in 2 additional rounds to become president; election last held in 4 rounds on 16, 23, and 30 May and 4 June 2022 (next election to be held in 2027); prime minister appointed by the president on the proposal of the majority party or coalition of parties in the Assembly

election results: 2022: Bajram BEGAJ elected president in the fourth round; Assembly vote - 78-4, opposition parties boycotted

2017: Ilir META elected president in the fourth round; Assembly vote -

Legislative branch: *description:* unicameral Assembly or Kuvendi (140 seats; members directly elected in multi-seat constituencies by proportional representation vote to serve 4-year terms)

elections: last held on 25 April 2021 (next to be held in 2025)

election results: percent of vote by party/coalition - PS 48.7%, PD-Alliance for Change 39.4%, LSI 6.8%, PSD 2.3%, other 2.8%; seats by party/coalition - PS 74, PD-Alliance for Change 59, LSI 4, PSD 3; composition - men 93, women 47, percent of women 33.6%

Judicial branch: *highest court(s):* Supreme Court (consists of 19 judges, including the chief justice); Constitutional Court (consists of 9 judges, including the chairman)

judge selection and term of office: Supreme Court judges appointed by the High Judicial Council with the consent of the president to serve single 9-year terms; Supreme Court chairman is elected for a single 3-year term by the court members; appointments of Constitutional Court judges are rotated among the president, Parliament, and Supreme Court from a list of pre-qualified candidates (each institution selects 3 judges), to serve single 9-year terms; candidates are pre-qualified by a randomly selected body of experienced judges and prosecutors; Constitutional Court chairman is elected by the court members for a single, renewable 3-year term

subordinate courts: Courts of Appeal; Courts of First Instance; specialized courts: Court for Corruption and Organized Crime, Appeals Court for Corruption and Organized Crime (responsible for corruption, organized crime, and crimes of high officials)

Political parties and leaders: Alliance for Change (electoral coalition led by PD)

Democratic Party or PD [Enkelejd ALIBEAJ, interim leader]

Party for Justice, Integration and Unity or PDIU [Shpetim IDRIZI] (part of the Alliance for Change)

Social Democratic Party or PSD [Tom DOSHI]

Socialist Movement for Integration or LSI [Monika KRYEMADHI]

Socialist Party or PS [Edi RAMA]

International organization participation: BSEC, CD, CE, CEI, EAPC, EBRD, EITI (compliant country), FAO, IAEA, IBRD, ICAO, ICC (national committees), ICtI, ICRM, IDA, IDB, IFAD, IFC, IFRCs, ILO, IMF, IMO, Interpol, IOC, IOM, IPU, ISO (correspondent), ITU, ITUC (NGOs), MIGA, NATO, OAS (observer), OIC, OIF, OPCW, OSCE, PCA, SELEC, UN, UNCTAD, UNESCO, UNIDO, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Floreta LULI-FABER (since 18 May 2015)

chancery: 2100 S Street NW, Washington, DC 20008

telephone: [1] (202) 223-4942

FAX: [1] (202) 628-7342

email address and website:

consulate(s) general: New York

Diplomatic representation from the US: *chief of mission:* Ambassador Yuri KIM (since 27 January 2020)

embassy: Rruga Stavro Vinjau, No. 14, Tirana

mailing address: 9510 Tirana Place, Washington DC 20521-9510

telephone: [355] 4 2247-285

FAX: [355] 4 2232-222

email address and website:

ACSTirana@state.gov

<https://al.usembassy.gov/>

Flag description: red with a black two-headed eagle in the center; the design is claimed to be that of 15th-century hero Georgi Kastrioti SKANDERBEG, who led a successful uprising against the Ottoman Turks that resulted in a short-lived independence for some Albanian regions (1443-78); an unsubstantiated explanation for the eagle symbol is the tradition that Albanians see themselves as descendants of the eagle; they refer to themselves as “Shqiptare,” which translates as “sons of the eagle”

National symbol(s): black double-headed eagle; national colors: red, black

National anthem: *name:* “Hymni i Flamurit” (Hymn to the Flag)

lyrics/music: Aleksander Stavre DRENOVA/Ciprian PORUMBESCU

note: adopted 1912

National heritage: *total World Heritage Sites:* 4 (2 cultural, 1 natural, 1 mixed)

selected World Heritage Site locales: Butrint (c); Historic Berat and Gjirokastër (c); Primeval Beech Forests (n); Lake Ohrid Region (m)

ECONOMY

Economic overview: Albania, a formerly closed, centrally planned state, is a developing country with a modern open-market economy. Albania managed to weather the first waves of the global financial crisis but, the negative effects of the crisis caused a significant economic slowdown. Since 2014, Albania's economy has steadily improved and economic growth reached 3.8% in 2017. However, close trade, remittance, and banking sector ties with Greece and Italy make Albania vulnerable to spillover effects of possible debt crises and weak growth in the euro zone.

Remittances, a significant catalyst for economic growth, declined from 12-15% of GDP before the 2008 financial crisis to 5.8% of GDP in 2015, mostly from Albanians residing in Greece and Italy. The agricultural sector, which accounts for more than 40% of employment but less than one quarter of GDP, is limited primarily to small family operations and subsistence farming, because of a lack of modern equipment, unclear property rights, and the prevalence of small, inefficient plots of land. Complex tax codes and licensing requirements, a weak judicial system, endemic corruption, poor enforcement of contracts and property issues, and antiquated infrastructure contribute to Albania's poor business environment making attracting foreign investment difficult. Since 2015, Albania has launched an ambitious program to increase tax compliance and bring more businesses into the formal economy. In July 2016, Albania passed constitutional amendments reforming the judicial system in order to strengthen the rule of law and to reduce deeply entrenched corruption.

Albania's electricity supply is uneven despite upgraded transmission capacities with neighboring countries. However, the government has recently taken steps to stem non-technical losses and has begun to upgrade the distribution grid. Better enforcement of electricity contracts has improved the financial viability of the sector, decreasing its reliance on budget support. Also, with help from international donors, the government is taking steps to improve the poor road and rail networks, a

long standing barrier to sustained economic growth.

Inward foreign direct investment has increased significantly in recent years as the government has embarked on an ambitious program to improve the business climate through fiscal and legislative reforms. The government is focused on the simplification of licensing requirements and tax codes, and it entered into a new arrangement with the IMF for additional financial and technical support. Albania's three-year IMF program, an extended fund facility arrangement, was successfully concluded in February 2017. The Albanian Government has strengthened tax collection amid moderate public wage and pension increases in an effort to reduce its budget deficit. The country continues to face high public debt, exceeding its former statutory limit of 60% of GDP in 2013 and reaching 72% in 2016.

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 223,469 (2020 est.)

subscriptions per 100 inhabitants: 8 (2020 est.)

country comparison to the world: 120

Telephones - mobile cellular: *total subscriptions:* 2,618,880 (2020 est.)

subscriptions per 100 inhabitants: 91 (2020 est.)

country comparison to the world: 144

Telecommunication systems: *general assessment:* Albania's small telecom market has experienced some significant changes in recent years; upgrades were made to the fixed-line infrastructure to support broadband services; fixed-line telephony use and penetration in Albania is declining steadily as subscribers migrate to mobile solutions; the mobile sector is well provided with LTE networks, while operators have invested in 5G; some of these efforts have been made in conjunction with neighboring Kosovo, with the intention of a seamless 5G corridor along the highway connecting the two countries; the country has long sought accession to the European Union (EU) which has benefited its telecoms sector through closer scrutiny of its regulatory regime and through the injection of funding to help modernize infrastructure (2021)

domestic: fixed-line approximately 8 per 100, teledensity continues to decline due to heavy use of mobile-cellular telephone services; mobile-cellular telephone use is widespread and generally effective, 91 per 100 for mobile-cellular (2020)

international: country code - 355; submarine cables for the Adria 1 and Italy-Albania provide connectivity to Italy, Croatia, and Greece; a combination submarine cable and land fiber-optic system, provides additional connectivity to Bulgaria, Macedonia, and Turkey; international traffic carried by fiber-optic cable and, when necessary, by microwave radio relay from the Tirana exchange to Italy and Greece (2019)

Broadcast media: Albania has more than 65 TV stations, including several that broadcast nationally; Albanian TV broadcasts are also

available to Albanian-speaking populations in neighboring countries; many viewers have access to Italian and Greek TV broadcasts via terrestrial reception; Albania's TV stations have begun a government-mandated conversion from analog to digital broadcast; the government has pledged to provide analog-to-digital converters to low-income families affected by this decision; cable TV service is available; 2 public radio networks and roughly 78 private radio stations; several international broadcasters are available (2019)

Internet country code: .al

Internet users: *total:* 2,043,251 (2020 est.)

percent of population: 72% (2020 est.)

country comparison to the world: 127

Broadband - fixed subscriptions: *total:* 508,937 (2020 est.)

subscriptions per 100 inhabitants: 18 (2020 est.)

country comparison to the world: 91

TRANSPORTATION

National air transport system: *number of registered air carriers: 2 (2020)*

inventory of registered aircraft operated by air carriers: 5

annual passenger traffic on registered air carriers: 303,137 (2018)

MILITARY AND SECURITY

Military and security forces: Republic of Albania Armed Forces (Forcat e Armatosura të Republikës së Shqipërisë (FARSH)): Land Forces, Navy Forces (includes Coast Guard), Air Forces

Ministry of Interior: Guard of the Republic, State Police (includes the Border and Migration Police) (2022)

note: the State Police are primarily responsible for internal security, while the Guard of the Republic protects senior state officials, foreign dignitaries, and certain state properties

Military expenditures: 1.6% of GDP (2022 est.)

1.4% of GDP (2021)

1.3% of GDP (2020)

1.5% of GDP (2019) (approximately \$360 million)

1.3% of GDP (2018) (approximately \$330 million)

country comparison to the world: 84

Military and security service personnel strengths: approximately 7,000 total active duty personnel (5,000 Army; 1,500 Navy; 500 Air Force) (2022)

Military equipment inventories and acquisitions: the Albanian military was previously equipped with mostly Soviet-era weapons that were sold or destroyed; its inventory now includes a mix of mostly donated and second-hand European and US equipment; since 2010, it has received limited amounts of equipment from France, Germany, and the US (2021)

Military service age and obligation: 19 is the legal minimum age for voluntary military service; 18 is the legal minimum age in case of general/partial compulsory mobilization; conscription abolished 2010 (2021)

note: as of 2020, women comprised about 14% of the military's full-time personnel, including 20% of the officers

Military - note: Albania became a member of NATO in 2009; as of

2022, Greece and Italy were providing NATO's air policing mission for Albania

TERRORISM

Terrorist group(s): Islamic Revolutionary Guard Corps/Qods Force;
Islamic State of Iraq and ash-Sham (ISIS)

TRANSNATIONAL ISSUES

Disputes - international: none

Refugees and internally displaced persons: *stateless persons:* 1,528 (mid-year 2021)

note: 40,186 estimated refugee and migrant arrivals (January 2015-October 2022)

Illicit drugs: active transshipment point for Albanian narco-trafficking organizations moving illicit drugs such as cocaine and heroin from Turkey and countries in South America and Asia throughout Europe; significant source country for cannabis production

ALGERIA

INTRODUCTION

Background: Algeria has known many empires and dynasties starting with the ancient Numidians (3rd century B.C.), Phoenicians, Carthaginians, Romans, Vandals, Byzantines, over a dozen different Arab and Berber dynasties, Spaniards, and Ottoman Turks. It was under the latter that the Barbary pirates operated from North Africa and preyed on shipping beginning in roughly 1500, peaking in the early to mid-17th century, until finally subdued by the French capture of Algiers in 1830. The French southward conquest of the entirety of Algeria proceeded throughout the 19th century and was marked by many atrocities. The country was heavily colonized by the French in the late 19th and early 20th centuries. A bloody eight-year struggle culminated in Algerian independence in 1962.

Algeria's primary political party, the National Liberation Front (FLN), was established in 1954 as part of the struggle for independence and has since largely dominated politics, though it is falling out of favor with the youth. The Government of Algeria in 1988 instituted a multi-party system in response to public unrest, but the surprising first round success of the Islamic Salvation Front (FIS) in the December 1991 legislative elections led the Algerian army to intervene and postpone the second round of elections to prevent what the secular elite feared would be an extremist-led government from assuming power. The army began a crackdown on the FIS that spurred FIS supporters to begin attacking government targets. Fighting escalated into an insurgency, which saw intense violence from 1992-98, resulting in over 100,000 deaths – many attributed to indiscriminate massacres of villagers by extremists. The government gained the upper hand by the late-1990s, and FIS's armed wing, the Islamic Salvation Army, disbanded in January 2000. FIS membership is illegal.

Former president Abdelaziz BOUTEFLIKA, with the backing of the military, won the presidency in 1999 in an election that was boycotted by several candidates protesting alleged fraud, and won subsequent elections in 2004, 2009, and 2014. Protests broke out across the country in late

February 2019 against President BOUTEFLIKA's decision to seek a fifth term. BOUTEFLIKA resigned in April 2019, and in December 2019, Algerians elected former Prime Minister Abdelmadjid TEBBOUNE as the country's new president. A longtime FLN member, TEBBOUNE ran for president as an independent. In 2020, Algeria held a constitutional referendum, which President TEBBOUNE enacted in January 2021. Subsequent reforms to the national electoral law introduced open list voting to curb corruption. The new law also eliminated gender quotas in Parliament, and the June 2021 legislative elections saw female representation plummet. Local elections took place in November 2021. The referendum, parliamentary elections, and local elections saw record low voter turnout. Since 2014, Algeria's reliance on hydrocarbon revenues to fund the government and finance the large subsidies for the population has fallen under stress because of declining oil prices.

GEOGRAPHY

Location: Northern Africa, bordering the Mediterranean Sea, between Morocco and Tunisia

Geographic coordinates: 28 00 N, 3 00 E

Map references: Africa

Area: *total:* 2,381,740 sq km

land: 2,381,740 sq km

water: 0 sq km

country comparison to the world: 11

Area - comparative: slightly less than 3.5 times the size of Texas

Land boundaries: *total:* 6,734 km

border countries (6): Libya 989 km; Mali 1,359 km; Mauritania 460 km; Morocco 1,941 km; Niger 951 km; Tunisia 1,034 km

Coastline: 998 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive fishing zone: 32-52 nm

Climate: arid to semiarid; mild, wet winters with hot, dry summers along coast; drier with cold winters and hot summers on high plateau; sirocco is a hot, dust/sand-laden wind especially common in summer

Terrain: mostly high plateau and desert; Atlas Mountains in the far north and Hoggar Mountains in the south; narrow, discontinuous coastal plain

Elevation: *highest point:* Tahat 2,908 m

lowest point: Chott Melrhir -40 m

mean elevation: 800 m

Natural resources: petroleum, natural gas, iron ore, phosphates, uranium, lead, zinc

Land use: *agricultural land:* 17.4% (2018 est.)

arable land: 3.2% (2018 est.)

permanent crops: 0.4% (2018 est.)

permanent pasture: 13.8% (2018 est.)

forest: 0.8% (2018 est.)

other: 81.8% (2018 est.)

Irrigated land: 13,600 sq km (2014)

Major watersheds (area sq km):

Atlantic Ocean drainage: Niger (2,261,741 sq km)

Internal (*endorheic basin*) drainage: Lake Chad (2,497,738 sq km)

Major aquifers: Lullemeden-Irhazer Aquifer System, Murzuk-Djado Basin, North Western Sahara Aquifer, Taoudeni-Tanezrouft Basin

Population distribution: the vast majority of the populace is found in the extreme northern part of the country along the Mediterranean Coast as shown in this population distribution map

Natural hazards: mountainous areas subject to severe earthquakes; mudslides and floods in rainy season; droughts

Geography - note: largest country in Africa but 80% desert; canyons and caves in the southern Hoggar Mountains and in the barren Tassili n'Ajjer area in the southeast of the country contain numerous examples of prehistoric art - rock paintings and carvings depicting human activities and wild and domestic animals (elephants, giraffes, cattle) - that date to the African Humid Period, roughly 11,000 to 5,000 years ago, when the region was completely vegetated

PEOPLE AND SOCIETY

Population: 44,178,884 (2022 est.)

country comparison to the world: 34

Nationality: *noun:* Algerian(s)

adjective: Algerian

Ethnic groups: Arab-Berber 99%, European less than 1%

note: although almost all Algerians are Berber in origin (not Arab), only a minority identify themselves as primarily Berber, about 15% of the total population; these people live mostly in the mountainous region of Kabylie east of Algiers and several other communities; the Berbers are also Muslim but identify with their Berber rather than Arab cultural heritage; Berbers have long agitated, sometimes violently, for autonomy; the government is unlikely to grant autonomy but has officially recognized Berber languages and introduced them into public schools

Languages: Arabic (official), French (*lingua franca*), Berber or Tamazight (official); dialects include Kabyle Berber (Taqbaylit), Shawiya Berber (Tacawit), Mzab Berber, Tuareg Berber (Tamahaq)

major-language sample(s):

كتاب حقائق العالم، المصدر الذي لا يمكن الاستغناء عنه للمعلومات الأساسية

(Arabic)

Religions: Muslim (official; predominantly Sunni) 99%, other (includes Christian, Jewish, Ahmadi Muslims, Shia Muslims, Ibadi Muslims) <1% (2012 est.)

Demographic profile: For the first two thirds of the 20th century, Algeria's high fertility rate caused its population to grow rapidly. However, about a decade after independence from France in 1962, the total fertility rate fell dramatically from 7 children per woman in the 1970s to about 2.4 in 2000, slowing Algeria's population growth rate by the late 1980s. The lower fertility rate was mainly the result of women's rising age at first marriage (virtually all Algerian children being born in wedlock) and to a lesser extent the wider use of contraceptives. Later

marriages and a preference for smaller families are attributed to increases in women's education and participation in the labor market; higher unemployment; and a shortage of housing forcing multiple generations to live together. The average woman's age at first marriage increased from about 19 in the mid-1950s to 24 in the mid-1970s to 30.5 in the late 1990s.

Algeria's fertility rate experienced an unexpected upturn in the early 2000s, as the average woman's age at first marriage dropped slightly. The reversal in fertility could represent a temporary fluctuation in marriage age or, less likely, a decrease in the steady rate of contraceptive use.

Thousands of Algerian peasants - mainly Berber men from the Kabylia region - faced with land dispossession and economic hardship under French rule migrated temporarily to France to work in manufacturing and mining during the first half of the 20th century. This movement accelerated during World War I, when Algerians filled in for French factory workers or served as soldiers. In the years following independence, low-skilled Algerian workers and Algerians who had supported the French (known as Harkis) emigrated en masse to France. Tighter French immigration rules and Algiers' decision to cease managing labor migration to France in the 1970s limited legal emigration largely to family reunification.

Not until Algeria's civil war in the 1990s did the country again experience substantial outmigration. Many Algerians legally entered Tunisia without visas claiming to be tourists and then stayed as workers. Other Algerians headed to Europe seeking asylum, although France imposed restrictions. Sub-Saharan African migrants came to Algeria after its civil war to work in agriculture and mining. In the 2000s, a wave of educated Algerians went abroad seeking skilled jobs in a wider range of destinations, increasing their presence in North America and Spain. At the same time, legal foreign workers principally from China and Egypt came to work in Algeria's construction and oil sectors. Illegal migrants from Sub-Saharan Africa, particularly Malians, Nigeriens, and Gambians, continue to come to Algeria in search of work or to use it as a stepping stone to Libya and Europe.

Since 1975, Algeria also has been the main recipient of Sahrawi refugees from the ongoing conflict in Western Sahara (today part of Morocco). More than 100,000 Sahrawis are estimated to be living in five refugee camps in southwestern Algeria near Tindouf.

Age structure: *0-14 years:* 29.58% (male 6,509,490/female 6,201,450)

Child marriage: *women married by age 15:* 0%

women married by age 18: 3.8% (2019 est.)

Education expenditures: 6.1% of GDP (2019 est.)

country comparison to the world: 30

Literacy: *definition:* age 15 and over can read and write

total population: 81.4%

male: 87.4%

female: 75.3% (2018)

School life expectancy (primary to tertiary education): *total:* 14

years

male: 14 years

female: 15 years (2011)

Unemployment, youth ages 15-24: *total:* 39.3%

male: 33.1%

female: 82% (2017 est.)

ENVIRONMENT

Environment - current issues: air pollution in major cities; soil erosion from overgrazing and other poor farming practices; desertification; dumping of raw sewage, petroleum refining wastes, and other industrial effluents is leading to the pollution of rivers and coastal waters; Mediterranean Sea, in particular, becoming polluted from oil wastes, soil erosion, and fertilizer runoff; inadequate supplies of potable water

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Ozone Layer Protection, Ship Pollution, Wetlands
signed, but not ratified: Nuclear Test Ban

Air pollutants: *particulate matter emissions:* 35.17 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 150.01 megatons (2016 est.)

methane emissions: 49.94 megatons (2020 est.)

Climate: arid to semiarid; mild, wet winters with hot, dry summers along coast; drier with cold winters and hot summers on high plateau; sirocco is a hot, dust/sand-laden wind especially common in summer

Land use: *agricultural land:* 17.4% (2018 est.)

arable land: 3.2% (2018 est.)

permanent crops: 0.4% (2018 est.)

permanent pasture: 13.8% (2018 est.)

forest: 0.8% (2018 est.)

other: 81.8% (2018 est.)

Urbanization: *urban population:* 74.8% of total population (2022)

rate of urbanization: 1.99% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.1% of GDP

(2018 est.)

country comparison to the world: 110

Revenue from coal: *coal revenues: 0% of GDP (2018 est.)*

country comparison to the world: 53

Waste and recycling: *municipal solid waste generated annually: 12,378,740 tons (2016 est.)*

municipal solid waste recycled annually: 990,299 tons (2013 est.)

percent of municipal solid waste recycled: 8% (2013 est.)

Major watersheds (area sq km):

Atlantic Ocean drainage: Niger (2,261,741 sq km)

Internal (*endorheic basin*) drainage: Lake Chad (2,497,738 sq km)

Major aquifers: Lullemeden-Irhazer Aquifer System, Murzuk-Djado Basin, North Western Sahara Aquifer, Taoudeni-Tanezrouft Basin

Total water withdrawal: *municipal: 3.6 billion cubic meters (2017 est.)*

industrial: 191 million cubic meters (2017 est.)

agricultural: 6.671 billion cubic meters (2017 est.)

Total renewable water resources: 11.67 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* People's Democratic Republic of Algeria

conventional short form: Algeria

local long form: Al Jumhuriyah al Jaza'iriyah ad Dimuqratiyah ash Sha'biyah

local short form: Al Jaza'ir

etymology: the country name derives from the capital city of Algiers

Government type: presidential republic

Capital: *name:* Algiers

geographic coordinates: 36 45 N, 3 03 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

etymology: name derives from the Arabic "al-Jazair" meaning "the islands" and refers to the four islands formerly off the coast but joined to the mainland since 1525

Administrative divisions: 58 provinces (wilayas, singular - wilaya); Adrar, Ain Defla, Ain Temouchent, Alger, Annaba, Batna, Bechar, Bejaia, Beni Abbes, Biskra, Blida, Bordj Badji Mokhtar, Bordj Bou Arreridj, Bouira, Boumerdes, Chlef, Constantine, Djanet, Djelfa, El Bayadh, El Meghaier, El Meniaa, El Oued, El Tarf, Ghardaia, Guelma, Illizi, In Guezzam, In Salah, Jijel, Khenchela, Laghouat, Mascara, Medea, Mila, Mostaganem, M'Sila, Naama, Oran, Ouargla, Ouled Djellal, Oum el Bouaghi, Relizane, Saida, Setif, Sidi Bel Abbes, Skikda, Souk Ahras, Tamanrasset, Tebessa, Tiaret, Timimoun, Tindouf, Tipaza, Tissemsilt, Tizi Ouzou, Tlemcen, Touggourt

Independence: 5 July 1962 (from France)

National holiday: Independence Day, 5 July (1962); Revolution Day, 1 November (1954)

Constitution: *history:* several previous; latest approved by referendum

November 2020

amendments: proposed by the president of the republic or through the president with the support of three fourths of the members of both houses of Parliament in joint session; passage requires approval by both houses, approval by referendum, and promulgation by the president; the president can forego a referendum if the Constitutional Council determines the proposed amendment does not conflict with basic constitutional principles; articles including the republican form of government, the integrity and unity of the country, and fundamental citizens' liberties and rights cannot be amended; amended 2002, 2008, 2016; last in 2020

Legal system: mixed legal system of French civil law and Islamic law; judicial review of legislative acts in ad hoc Constitutional Council composed of various public officials including several Supreme Court justices

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: the mother must be a citizen of Algeria

dual citizenship recognized: no

residency requirement for naturalization: 7 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Abdelmadjid TEBBOUNE (since 12 December 2019)

head of government: Prime Minister Ayman BENABDERRAHMANE (since 7 July 2021)

cabinet: Cabinet of Ministers appointed by the president

elections/appointments: president directly elected by absolute majority popular vote in two rounds if needed for a 5-year term (eligible for a second term); election last held on 12 December 2019 (next to be held in 2024); prime minister nominated by the president after consultation with the majority party in Parliament

election results: 2019: Abdelmadjid TEBBOUNE (FLN) 58.1%,

Abdelkader BENGRINA (El-Bina) 17.4%, Ali BENFLIS (Talaie El Hurriyet) 10.6%, Azzedine MIHOUBI (National Democratic Rally, RND) 7.3%, Abdelaziz BELAID (Front El Mustakbal, FM) 6.7%

2014: Abdelaziz BOUTEFLIKA reelected president for a fourth term; percent of vote - Abdelaziz BOUTEFLIKA (FLN) 81.5%, Ali BENFLIS (FLN) 12.2%, Abdelaziz BELAID (Future Front) 3.4%, other 2.9%

Legislative branch: *description:* bicameral Parliament or Barlaman consists of:

Council of the Nation or Majlis al-Umma (174 seats; two-thirds of members indirectly elected by simple majority vote by an electoral college composed of local assemblies within each wilaya, and one-third of members appointed by the president; members serve 6-year terms with one-half of the membership renewed every 3 years)

National People's Assembly or al-Majlis al-Sha'abi al-Watani (407 seats including 8 seats for Algerian diaspora); members directly elected in multi-seat constituencies by open-list proportional representation vote to serve 5-year terms); note - in March 2021, President TEBBOUNE ordered the number of Assembly seats be reduced to 407 from 462

elections:

Council of the Nation - last held on 5 February 2022 (next election NA)

National People's Assembly - snap election held on 12 June 2021 (next to be held on 12 June 2026)

election results:

Council of the Nation - percent of vote by party - NA; seats by party - FLN 54, RND 22, Future Front 7, National Construction Movement 5, FFS 4, other 6, independent 18, appointed 58; composition - NA

National People's Assembly - percent of vote by party - NA; seats by party - FLN 98, MSP 65, RND 58, (Future Front) 48, Movement of National Construction 39, other 15, independent 84; composition - men 374, women 33, percent of women 8.1%; note - total Parliament percent of women 7.3%

Judicial branch: *highest court(s):* Supreme Court or Le Cour Suprême, (consists of 150 judges organized into 8 chambers: Civil, Commercial and

Maritime, Criminal, House of Offenses and Contraventions, House of Petitions, Land, Personal Status, and Social; Constitutional Council (consists of 12 members including the court chairman and deputy chairman); note - Algeria's judicial system does not include sharia courts
judge selection and term of office: Supreme Court judges appointed by the High Council of Magistracy, an administrative body presided over by the president of the republic, and includes the republic vice-president and several members; judges appointed for life; Constitutional Council members - 4 appointed by the president of the republic, 2 each by the 2 houses of Parliament, 2 by the Supreme Court, and 2 by the Council of State; Council president and members appointed for single 6-year terms with half the membership renewed every 3 years

subordinate courts: appellate or wilaya courts; first instance or *daira tribunals*

Political parties and leaders: Algerian National Front or FNA [Moussa TOUATI]

Algerian Popular Movement or MPA [Amara BENYOUNES]

Algerian Rally or RA [Ali ZAGHDOUD]

Algeria's Hope Rally or TAJ [Fatma Zohra ZEROUATI]

Democratic and Social Movement or MDS [Fethi GHARES]

Dignity or El Karama [Mohamed DAOUI]

El-Bina (Harakat El-Binaa El-Watani) [Abdelkader BENGRINA]

El-Islah [Filali GHOUINI]

Ennour El Djazairi Party (Algerian Radiance Party) or PED [Badreddine BELBAZ]

Front for Justice and Development or El Adala [Abdallah DJABALLAH]

Future Front or El Mostakbel [Abdelaziz BELAID]

Islamic Renaissance Movement or Ennahda Movement [Mohamed DOUBI]

Justice and Development Front or FJD [Abdallah DJABALLAH]

Movement for National Reform or Islah [Filali GHOUINI]

Movement of Society for Peace or MSP [Abderrazak MAKRI]

National Construction Movement (Harakat Al-bina' Al-watanii) [Abdelkader BENGRINA]

National Democratic Rally (Rassemblement National Democratique) or RND [Tayeb ZITOUNI]

National Front for Social Justice or FNJS [Khaled BOUNEDJEMA]

National Liberation Front or FLN [Abou El Fadhel BAADJI]

National Party for Solidarity and Development or PNSD [Dalila YALAQUI]

National Reform Movement or Islah [Djahid YOUNSI]

National Republican Alliance or ANR [Belkacem SAHLI]

New Dawn Party (El-Fajr El-Jadid) [Tahar BENBAIBECHE]

New Generation (Jil Jadid) [Soufiane DJILALI]

Oath of 1954 or Ahd 54 [Ali Fawzi REBAINE]

Party of Justice and Liberty or PLJ [Djamel Ben ZIADI]

Rally for Culture and Democracy or RCD [Mohcine BELABBAS]

Socialist Forces Front or FFS [Youcef AOUCHICHE]

Union for Change and Progress or UCP [Zoubida ASSOUL]

Union of Democratic and Social Forces or UFDS [Noureddine BAHBOUH]

Vanguard of Liberties (Talaie El Hurriyet) [Abdelkader SAADI]

Workers Party or PT [Louisa HANOUNE]

Youth Party or PJ [Hamana BOUCHARMA]

note: a law banning political parties based on religion was enacted in March 1997

International organization participation: ABEDA, AfDB, AFESD, AMF, AMU, AU, BIS, CAEU, CD, FAO, G-15, G-24, G-77, IAEA, IBRD, ICAO, ICC (national committees), ICRM, IDA, IDB, IFAD, IFC, IFRCS, IHO, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), LAS, MIGA, MONUSCO, NAM, OAPEC, OAS (observer), OIC, OPCW, OPEC, OSCE (partner), UN, UNCTAD, UNESCO, UNHCR, UNIDO, UNITAR, UNWTO, UPU, WCO, WHO, WIPO, WMO, WTO (observer)

Diplomatic representation in the US: *chief of mission:* Ambassador Ahmed BOUTACHE (since 26 October 2021)

chancery: 2118 Kalorama Road NW, Washington, DC 20008

Flag description: two equal vertical bands of green (hoist side) and white; a red, five-pointed star within a red crescent centered over the two-color boundary; the colors represent Islam (green), purity and peace (white), and liberty (red); the crescent and star are also Islamic symbols, but the crescent is more closed than those of other Muslim countries because Algerians believe the long crescent horns bring happiness

National symbol(s): five-pointed star between the extended horns of a crescent moon, fennec fox; national colors: green, white, red

National anthem: *name:* “Kassaman” (We Pledge)

lyrics/music: Mufdi ZAKARIAH/Mohamed FAWZI

note: adopted 1962; ZAKARIAH wrote “Kassaman” as a poem while imprisoned in Algiers by French colonial forces

National heritage: *total World Heritage Sites:* 7 (6 cultural, 1 mixed)

selected World Heritage Site locales: Beni Hammad Fort (c); Djémila (c); Casbah of Algiers (c); M’zab Valley (c); Tassili n’Ajjér (m); Timgad (c); Tipasa (c)

ECONOMY

Economic overview: Algeria's economy remains dominated by the state, a legacy of the country's socialist post-independence development model. In recent years the Algerian Government has halted the privatization of state-owned industries and imposed restrictions on imports and foreign involvement in its economy, pursuing an explicit import substitution policy.

Hydrocarbons have long been the backbone of the economy, accounting for roughly 30% of GDP, 60% of budget revenues, and nearly 95% of export earnings. Algeria has the 10th-largest reserves of natural gas in the world - including the 3rd-largest reserves of shale gas - and is the 6th-largest gas exporter. It ranks 16th in proven oil reserves. Hydrocarbon exports enabled Algeria to maintain macroeconomic stability, amass large foreign currency reserves, and maintain low external debt while global oil prices were high. With lower oil prices since 2014, Algeria's foreign exchange reserves have declined by more than half and its oil stabilization fund has decreased from about \$20 billion at the end of 2013 to about \$7 billion in 2017, which is the statutory minimum.

Declining oil prices have also reduced the government's ability to use state-driven growth to distribute rents and fund generous public subsidies, and the government has been under pressure to reduce spending. Over the past three years, the government has enacted incremental increases in some taxes, resulting in modest increases in prices for gasoline, cigarettes, alcohol, and certain imported goods, but it has refrained from reducing subsidies, particularly for education, healthcare, and housing programs.

Algiers has increased protectionist measures since 2015 to limit its import bill and encourage domestic production of non-oil and gas industries. Since 2015, the government has imposed additional restrictions on access to foreign exchange for imports, and import quotas for specific products, such as cars. In January 2018 the government imposed an indefinite suspension on the importation of roughly 850 products, subject to periodic review.

President BOUTEFLIKA announced in fall 2017 that Algeria intends

to develop its non-conventional energy resources. Algeria has struggled to develop non-hydrocarbon industries because of heavy regulation and an emphasis on state-driven growth. Algeria has not increased non-hydrocarbon exports, and hydrocarbon exports have declined because of field depletion and increased domestic demand.

Real GDP (purchasing power parity): \$468.4 billion (2020 est.)

\$495.56 billion (2019 est.)

\$491.63 billion (2018 est.)

note: data are in 2017 dollars

80.579 (2013 est.)

ENERGY

Electricity access: *electrification - total population:* 99.4% (2019)

electrification - urban areas: 99.6% (2019)

electrification - rural areas: 97% (2019)

Electricity: *installed generating capacity:* 21.694 million kW (2020 est.)

consumption: 66.646 billion kWh (2019 est.)

exports: 673 million kWh (2019 est.)

imports: 531 million kWh (2019 est.)

transmission/distribution losses: 9.897 billion kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 98.9% of total installed capacity (2020 est.)

solar: 0.9% of total installed capacity (2020 est.)

hydroelectricity: 0.1% of total installed capacity (2020 est.)

Coal: *production:* 0 metric tons (2020 est.)

consumption: 85,000 metric tons (2020 est.)

exports: 0 metric tons (2020 est.)

imports: 85,000 metric tons (2020 est.)

proven reserves: 59 million metric tons (2019 est.)

Petroleum: *total petroleum production:* 1,414,800 bbl/day (2021 est.)

refined petroleum consumption: 450,500 bbl/day (2019 est.)

crude oil and lease condensate exports: 633,500 bbl/day (2018 est.)

crude oil and lease condensate imports: 4,100 bbl/day (2018 est.)

crude oil estimated reserves: 12.2 billion barrels (2021 est.)

Refined petroleum products - production: 627,900 bbl/day (2015 est.)

country comparison to the world: 29

Refined petroleum products – exports: 578,800 bbl/day (2015 est.)

country comparison to the world: 15

Refined petroleum products - imports: 82,930 bbl/day (2015 est.)

country comparison to the world: 61

Natural gas: *production:* 87,853,976,000 cubic meters (2019 est.)

consumption: 46,945,035,000 cubic meters (2019 est.)

exports: 42,667,386,000 cubic meters (2019 est.)

imports: 0 cubic meters (2021 est.)

proven reserves: 4,503,900,000,000 cubic meters (2021 est.)

Carbon dioxide emissions: 151.633 million metric tonnes of CO2 (2019 est.)

from coal and metallurgical coke: 352,000 metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 57.867 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 93.414 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 34

Energy consumption per capita: 61.433 million Btu/person (2019 est.)

country comparison to the world: 91

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 4,784,306 (2020 est.)

subscriptions per 100 inhabitants: 11 (2020 est.)

country comparison to the world: 31

Telephones - mobile cellular: *total subscriptions:* 45,555,673 (2020 est.)

subscriptions per 100 inhabitants: 104 (2020 est.)

country comparison to the world: 33

Telecommunication systems: *general assessment:* Algeria has a steadily developing telecom infrastructure with growth encouraged by supportive regulatory measures and by government policies aimed at delivering serviceable internet connections across the country; mobile broadband is largely based on 3G and LTE, and the data rates are also low in global terms; LTE is available in all provinces, investment is required from the mobile network operators (MNOs) to improve the quality of service; the state has previously been hesitant to commit to 5G, instead encouraging the MNOs to undertake upgrades to LTE infrastructure before investing in commercial 5G services; in March 2022, the state is in the process of freeing up the requisite spectrum to enable the MNOs to launch 5G services sometime this year; fixed internet speeds remain slow (2022)

domestic: a limited network of fixed-lines with a teledensity of slightly less than 11 telephones per 100 persons has been offset by the rapid increase in mobile-cellular subscribership; mobile-cellular teledensity was approximately 104 telephones per 100 persons in 2020 (2020)

international: country code - 213; ALPAL-2 is a submarine telecommunications cable system in the Mediterranean Sea linking Algeria and the Spanish Balearic island of Majorca; ORVAL is a submarine cable to Spain; landing points for the TE North/TGN-Eurasia/SEACOM/SeaMeWe-4 fiber-optic submarine cable system that provides links to Europe, the Middle East, and Asia; MED cable connecting Algeria with France; microwave radio relay to Italy, France, Spain,

Morocco, and Tunisia; Algeria part of the 4,500 Km terrestrial Trans Sahara Backbone network which connects to other fiber networks in the region; Alcomstat-1 satellite offering telemedicine network (2020)

Broadcast media: state-run Radio-Télévision Algérienne operates the broadcast media and carries programming in Arabic, Berber dialects, and French; use of satellite dishes is widespread, providing easy access to European and Arab satellite stations; state-run radio operates several national networks and roughly 40 regional radio stations

Internet country code: .dz

Internet users: *total:* 27,626,157 (2020 est.)

percent of population: 63% (2020 est.)

country comparison to the world: 33

Broadband - fixed subscriptions: *total:* 3,790,459 (2020 est.)

subscriptions per 100 inhabitants: 9 (2020 est.)

country comparison to the world: 40

TRANSPORTATION

National air transport system: *number of registered air carriers: 3*
(2020)

Railways: *total: 3,973 km (2014)*

standard gauge: 2,888 km (2014) 1.432-m gauge (283 km electrified)

narrow gauge: 1,085 km (2014) 1.055-m gauge

country comparison to the world: 50

Roadways: *total: 104,000 km (2015)*

paved: 71,656 km (2015)

unpaved: 32,344 km (2015)

country comparison to the world: 45

Merchant marine: total: 114

by type: bulk carrier 1, container ship 2, general cargo 11, oil tanker 11, other 89 (2021)

country comparison to the world: 84

Ports and terminals: *major seaport(s):* Algiers, Annaba, Arzew, Bejaia, Djendjene, Jijel, Mostaganem, Oran, Skikda

LNG terminal(s) (export): Arzew, Bethioua, Skikda

MILITARY AND SECURITY

Military and security forces: Algerian People's National Army (ANP): Land Forces, Naval Forces (includes Coast Guard), Air Forces, Territorial Air Defense Forces, Republican Guard (under ANP but responsible to the President), National Gendarmerie; Ministry of Interior: General Directorate of National Security (national police) (2022)

Military expenditures: 5.6% of GDP (2021 est.)

6.7% of GDP (2020 est.)

6% of GDP (2019) (approximately \$19.2 billion)

5.5% of GDP (2018) (approximately \$17.9 billion)

5.9% of GDP (2017) (approximately \$18.8 billion)

country comparison to the world: 6

Military and security service personnel strengths: approximately 140,000 ANP personnel (120,000 Army; 6,000 Navy; 14,000 Air Force); approximately 130,000 National Gendarmerie; approximately 200,000 General Directorate of National Security (2022)

Military equipment inventories and acquisitions: the ANP's inventory includes mostly Russian-sourced equipment; since 2010, Algeria has received arms from a variety of countries, with Russia as the leading supplier (2022)

Military service age and obligation: 18 is the legal minimum age for voluntary military service for men and women; 19-30 years of age for compulsory service for men (all Algerian men must register at age 17); conscript service obligation reduced from 18 to 12 months in 2014 (2022)

note: as of 2020, conscripts comprised an estimated 70% of the military

Military - note: the ANP has played a large role in the country's politics since independence in 1962, including coups in 1965 and 1991; it was a key backer of BOUTEFLIKA's election in 1999 and remained a center of power during his 20-year rule; the military was instrumental in BOUTEFLIKA's resignation in 2019 when it withdrew support and called for him to be removed from office

the ANP traditionally has focused on internal stability and on Morocco where relations as of 2022 remained tense over Western Sahara and Algerian accusations that Morocco supports the Movement for the Autonomy of Kabylie (MAK), a separatist group in Algeria's Kabylie region; however, following the Arab Spring events of 2011 and a series of cross-border terrorist attacks emanating from Mali in 2012-2013, particularly the 2013 attack on a commercial gas plant by al-Qa'ida-linked terrorists that resulted in the deaths of 35 hostages and 29 jihadists, it has made a concerted effort to beef up security along its other borders and promote regional security cooperation; since 2013, additional Army and paramilitary forces were deployed to the borders with Tunisia, Libya, Niger, and Mali to interdict and deter cross-border attacks by Islamic militant groups; in addition, Algeria has provided security assistance to some neighboring countries, particularly Tunisia, and conducted joint military/counter-terrorism operations (2022)

TERRORISM

Terrorist group(s): al-Qa'ida in the Islamic Maghreb (AQIM); Islamic State of Iraq and ash-Sham (ISIS) – Algeria; al-Mulathamun Battalion (al-Mourabitoun)

TRANSNATIONAL ISSUES

Disputes - international: *Algeria-Morocco:* the Algerian-Moroccan land border remains closed; Algeria's border with Morocco remains an irritant to bilateral relations, each nation accusing the other of harboring militants and arms smuggling; the National Liberation Front's (FLN) assertions of a claim to Chirac Pastures in southeastern Morocco remain a dormant dispute

Algeria-Libya: dormant dispute includes Libyan claims of about 32,000 sq km still reflected on its maps of southeastern Algeria

Algeria-Mali: none identified

Algeria-Mauritania: none identified

Algeria-Niger: none identified

Algeria-Tunisia: none identified

Refugees and internally displaced persons: *refugees (country of origin):* more than 100,000 (Sahrawi, mostly living in Algerian-sponsored camps in the southwestern Algerian town of Tindouf) (2018); 6,750 (Syria) (mid-year 2021)

Trafficking in persons: *current situation:* human traffickers exploit domestic and foreign victims; Algerian women and girls are vulnerable to sex trafficking due to financial problems or after running away from home; undocumented sub-Saharan migrants are vulnerable to labor and sex trafficking and are exploited in restaurants, houses, and informal worksites; sub-Saharan men and women needing more funds for their onward journey to Europe work illegally in construction and commercial sex and are vulnerable to sex trafficking and debt bondage; foreign women and girls, mainly from sub-Saharan Africa, are subject to sex trafficking in bars and informal brothels; criminal begging rings that exploit sub-Saharan African migrant children are common

tier rating: Tier 3 — Algeria does not fully comply with the minimum standards for the elimination of trafficking and is not making significant efforts to do so; authorities prosecuted fewer traffickers and identified fewer victims compared to last year and convicted no traffickers; the

government continued to lack effective procedures and mechanisms to screen for, identify, and refer potential victims to protective services and punished some potential victims for unlawful acts traffickers forced them to commit; the government took some steps to combat trafficking, including prosecuting some traffickers, identifying some victims, and continuing to implement its 2019-2021 national anti-trafficking action plan (2020)

Illicit drugs: NA

AMERICAN SAMOA

INTRODUCTION

Background: Tutuila was settled by 1000 B.C. and the island served as a refuge for exiled chiefs and defeated warriors from the other Samoan islands. The Manu'a Islands developed its own traditional chiefdom that maintained its autonomy by controlling oceanic trade. In 1722, Dutch explorer Jacob ROGGEVEEN was the first European to sail through the Manu'a Islands, and he was followed by French explorer Louis Antoine DE BOUGAINVILLE in 1768. Whalers and missionaries arrived in American Samoa in the 1830s, but American and European traders tended to favor the port in Apia - now in independent Samoa - over the smaller and less-developed Pago Pago on Tutuila. In the mid-1800s, a dispute arose in Samoa over control of the Samoan archipelago, with different chiefs gaining support from Germany, the UK, and the US. In 1872, the high chief of Tutuila offered the US exclusive rights to Pago Pago in return for US protection, but the US rejected this offer. As fighting resumed, the US agreed to the chief's request in 1878 and set up a coaling station at Pago Pago. In 1899, with continued disputes over succession, Germany and the US agreed to divide the Samoan islands, while the UK withdrew its claims in exchange for parts of the Solomon Islands. Local chiefs on Tutuila formally ceded their land to the US in 1900, followed by the chief of Manu'a in 1904. The territory was officially named "American Samoa" in 1911.

The US administered the territory through the Department of the Navy, and in 1918, the naval governor instituted strict quarantine rules to prevent the spread of the Spanish flu, allowing American Samoa to avoid the deadly infection that ravaged the then-New Zealand administered territory of Samoa. In 1949, there was an attempt to organize the territory, granting it formal self-government, but local chiefs helped defeat the measure in the US Congress. Administration was transferred to the Department of the Interior in 1951, and in 1967, American Samoa adopted a constitution that provides significant protections for traditional Samoan land tenure rules, language, and culture. In 1977, after four attempts, voters approved a measure to directly elect their governor.

Nevertheless, American Samoa officially remains an unorganized territory and people born in American Samoa are US nationals instead of US citizens, a status many American Samoans prefer.

GEOGRAPHY

Location: Oceania, group of islands in the South Pacific Ocean, about halfway between Hawaii and New Zealand

Geographic coordinates: 14 20 S, 170 00 W

Map references: Oceania

Area: *total:* 224 sq km

land: 224 sq km

water: 0 sq km

note: includes Rose Atoll and Swains Island

country comparison to the world: 215

Area - comparative: slightly larger than Washington, DC

Land boundaries: *total:* 0 km

Coastline: 116 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm

Climate: tropical marine, moderated by southeast trade winds; annual rainfall averages about 3 m; rainy season (November to April), dry season (May to October); little seasonal temperature variation

Terrain: five volcanic islands with rugged peaks and limited coastal plains, two coral atolls (Rose Atoll, Swains Island)

Elevation: *highest point:* Lata Mountain 964 m

lowest point: Pacific Ocean 0 m

Natural resources: pumice, pumicite

Land use: *agricultural land:* 24.5% (2018 est.)

arable land: 15% (2018 est.)

permanent crops: 9.5% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 75.5% (2018 est.)

other: 0% (2018 est.)

Irrigated land: 0 sq km (2012)

Natural hazards: cyclones common from December to March

volcanism: limited volcanic activity on the Ofu and Olosega Islands; neither has erupted since the 19th century

Geography - note: Pago Pago has one of the best natural deepwater harbors in the South Pacific Ocean, sheltered by shape from rough seas and protected by peripheral mountains from high winds; strategic location in the South Pacific Ocean

PEOPLE AND SOCIETY

Population: 45,443 (2022 est.)

country comparison to the world: 210

Nationality: *noun:* American Samoan(s) (US nationals)

adjective: American Samoan

Ethnic groups: Pacific Islander 92.6% (includes Samoan 88.9%, Tongan 2.9%, other .8%), Asian 3.6% (includes Filipino 2.2%, other 1.4%), mixed 2.7%, other 1.2% (2010 est.)

note: data represent population by ethnic origin or race

Languages: Samoan 88.6% (closely related to Hawaiian and other Polynesian languages), English 3.9%, Tongan 2.7%, other Pacific islander 3%, other 1.8% (2010 est.)

note: most people are bilingual

Religions: Christian 98.3%, other <1%, unaffiliated <1% (2020 est.)

Age structure: 0-14 years: 27.76% (male 7,063/female 6,662)

15-24 years: 18.16% (male 4,521/female 4,458)

25-54 years: 37.49% (male 9,164/female 9,370)

55-64 years: 9.69% (male 2,341/female 2,447)

65 years and over: 6.9% (male 1,580/female 1,831) (2020 est.)

Median age: *total:* 27.2 years

male: 26.7 years

female: 27.7 years (2020 est.)

country comparison to the world: 149

Population growth rate: -1.92% (2022 est.)

country comparison to the world: 236

Birth rate: 16.7 births/1,000 population (2022 est.)

country comparison to the world: 95

Death rate: 6.1 deaths/1,000 population (2022 est.)

country comparison to the world: 154

Net migration rate: -29.8 migrant(s)/1,000 population (2022 est.)
country comparison to the world: 231

Urbanization: *urban population:* 87.2% of total population (2022)
rate of urbanization: 0.26% annual rate of change (2020-25 est.)

Major urban areas - population: 49,000 PAGO PAGO (capital)
(2018)

Sex ratio: *at birth:* 1.06 male(s)/female

0-14 years: 1.06 male(s)/female

15-24 years: 1.02 male(s)/female

25-54 years: 0.97 male(s)/female

55-64 years: 0.96 male(s)/female

65 years and over: 0.69 male(s)/female

total population: 0.99 male(s)/female (2022 est.)

Infant mortality rate: *total:* 10.06 deaths/1,000 live births

male: 12.14 deaths/1,000 live births

female: 7.86 deaths/1,000 live births (2022 est.)

country comparison to the world: 137

Life expectancy at birth: *total population:* 75.32 years

male: 72.83 years

female: 77.97 years (2022 est.)

country comparison to the world: 124

Total fertility rate: 2.21 children born/woman (2022 est.)

country comparison to the world: 85

ENVIRONMENT

Environment - current issues: limited supply of drinking water; pollution; waste disposal; coastal and stream alteration; soil erosion

Climate: tropical marine, moderated by southeast trade winds; annual rainfall averages about 3 m; rainy season (November to April), dry season (May to October); little seasonal temperature variation

Land use: *agricultural land:* 24.5% (2018 est.)

arable land: 15% (2018 est.)

permanent crops: 9.5% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 75.5% (2018 est.)

other: 0% (2018 est.)

Urbanization: *urban population:* 87.2% of total population (2022)

rate of urbanization: 0.26% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0% of GDP (2018 est.)

country comparison to the world: 159

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 54

Waste and recycling: *municipal solid waste generated annually:* 18,989 tons (2016 est.)

GOVERNMENT

Country name: *conventional long form:* American Samoa

conventional short form: American Samoa

former: Eastern Samoa

abbreviation: AS

etymology: the meaning of Samoa is disputed; some modern explanations are that the “sa” connotes “sacred” and “moa” indicates “center,” so the name can mean “Holy Center”; alternatively, some assertions state that it can mean “place of the sacred moa bird” of Polynesian mythology; the name, however, may go back to Proto-Polynesian (PPn) times (before 1000 B.C.); a plausible PPn reconstruction has the first syllable as “sa’a” meaning “tribe or people” and “moa” meaning “deep sea or ocean” to convey the meaning “people of the deep sea”

Government type: unincorporated, unorganized Territory of the US with local self-government; republican form of territorial government with separate executive, legislative, and judicial branches

Dependency status: unincorporated, unorganized Territory of the US; administered by the Office of Insular Affairs, US Department of the Interior

Capital: *name:* Pago Pago

geographic coordinates: 14 16 S, 170 42 W

time difference: UTC-11 (6 hours behind Washington, DC, during Standard Time)

note: pronounced pahn-go pahn-go

Administrative divisions: none (territory of the US); there are no first-order administrative divisions as defined by the US Government, but there are 3 districts and 2 islands* at the second order; Eastern, Manu’a, Rose Island*, Swains Island*, Western

Independence: none (territory of the US)

National holiday: Flag Day, 17 April (1900)

Constitution: *history:* adopted 17 October 1960; revised 1 July 1967
amendments: proposed by either house of the Legislative Assembly; passage requires three-fifths majority vote by the membership of each house, approval by simple majority vote in a referendum, approval by the US Secretary of the Interior, and only by an act of the US Congress; amended several times, last in 2021

Legal system: mixed legal system of US common law and customary law

Citizenship: see United States

Note: in accordance with US Code Title 8, Section 1408, persons born in American Samoa are US nationals but not US citizens

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Joseph R. BIDEN Jr. (since 20 January 2021); Vice President Kamala D. HARRIS (since 20 January 2021)

head of government: Governor Lemanu Peleti MAUGA (since 3 January 2021)

cabinet: Cabinet consists of 12 department directors appointed by the governor with the consent of the Legislature or Fono

elections/appointments: president and vice president indirectly elected on the same ballot by an Electoral College of ‘electors’ chosen from each state to serve a 4-year term (eligible for a second term); under the US Constitution, residents of unincorporated territories, such as American Samoa, do not vote in elections for US president and vice president; however, they may vote in Democratic and Republican presidential primary elections; governor and lieutenant governor directly elected on the same ballot by absolute majority popular vote in 2 rounds if needed for a 4-year term (eligible for a second term); election last held on 3 November 2020 (next to be held in November 2024)

election results: Lemanu Peleti MAUGA elected governor in first round; percent of vote - Lemanu Peleti MAUGA (independent) 60.3%, Gaoteote Palaie TOFAU (independent) 21.9%, I’aulualo Fa’afetai TALIA

(independent) 12.3%

Legislative branch: *description:* bicameral Legislature or Fono consists of:

Senate (18 seats; members indirectly selected by regional governing councils to serve 4-year terms)

House of Representatives (21 seats; 20 members directly elected by simple majority vote and 1 decided by public meeting on Swains Island; members serve 2-year terms)

elections:

Senate - last held on 3 November 2020 (next to be held in November 2024)

House of Representatives - last held on 3 November 2020 (next to be held in November 2024)

election results:

Senate - percent of vote by party - NA; seats by party - independent 18; composition - men 17, women 1; percent of women 5.6%

House of Representatives - percent of vote by party - NA; seats by party - NA; composition - men 20, women 1; percent of women 4.8%; note total Legislature percent of women 5.1%

5

note: American Samoa elects 1 member by simple majority vote to serve a 2-year term as a delegate to the US House of Representatives; the delegate can vote when serving on a committee and when the House meets as the Committee of the Whole House, but not when legislation is submitted for a “full floor” House vote; election of delegate last held on 3 November 2020 (next to be held in November 2022); Amata Coleman RADEWAGEN elected delegate; Amata Coleman RADEWAGEN (Republican Party) 83.5%, Oreta CHRICHTON (Democratic Party) 14.4%, Meleagi SUTTONU-CHAPMAN (Democratic Party) 2.1%

Judicial branch: *highest court(s):* High Court of American Samoa (consists of the chief justice, associate chief justice, and 6 Samoan associate judges and organized into trial, family, drug, and appellate divisions); note - American Samoa has no US federal courts

judge selection and term of office: chief justice and associate chief justice appointed by the US Secretary of the Interior to serve for life; Samoan associate judges appointed by the governor to serve for life

subordinate courts: district and village courts

Political parties and leaders: Democratic Party [T'ia REID, chairman]

Republican Party [Taulapapa William SWORD, chairman]

International organization participation: AOSIS (observer), Interpol (subbureau), IOC, PIF (observer), SPC

Diplomatic representation in the US: none (territory of the US)

Diplomatic representation from the US: *embassy:* none (territory of the US)

Flag description: blue, with a white triangle edged in red that is based on the fly side and extends to the hoist side; a brown and white American bald eagle flying toward the hoist side is carrying 2 traditional Samoan symbols of authority, a war club known as a “fa’alaufa’i” (upper; left talon), and a coconut-fiber fly whisk known as a “fue” (lower; right talon); the combination of symbols broadly mimics that seen on the US Great Seal and reflects the relationship between the US and American Samoa

National symbol(s): a fue (coconut fiber fly whisk; representing wisdom) crossed with a to’oto’o (staff; representing authority); national colors: red, white, blue

National anthem: *name:* “Amerika Samoa” (American Samoa)

lyrics/music: Mariota Tiumalu TUIASOSOPO/Napoleon Andrew TUIELELEAPAGA

note: local anthem adopted 1950; as a territory of the United States, “The Star-Spangled Banner” is official (see United States)

ECONOMY

Economic overview: American Samoa is a traditional Polynesian economy in which more than 90% of the land is communally owned. Economic activity is strongly linked to the US with which American Samoa conducts most of its commerce. Tuna fishing and processing are the backbone of the private sector with processed fish products as the primary exports. The fish processing business accounted for 15.5% of employment in 2015.

In late September 2009, an earthquake and the resulting tsunami devastated American Samoa and nearby Samoa, disrupting transportation and power generation, and resulting in about 200 deaths. The US Federal Emergency Management Agency oversaw a relief program of nearly \$25 million. Transfers from the US Government add substantially to American Samoa's economic well-being.

Attempts by the government to develop a larger and broader economy are restrained by Samoa's remote location, its limited transportation, and its devastating hurricanes. Tourism has some potential as a source of income and jobs.

Real GDP (purchasing power parity): \$658 million (2016 est.)

\$674.9 million (2015 est.)

\$666.9 billion (2014 est.)

note: data are in 2016 US dollars

country comparison to the world: 211

Real GDP growth rate: -2.5% (2016 est.)

1.2% (2015 est.)

1% (2014 est.)

country comparison to the world: 207

Real GDP per capita: \$11,200 (2016 est.)

\$11,300 (2015 est.)

\$11,200 (2014 est.)

country comparison to the world: 134

GDP (official exchange rate): \$658 million (2016 est.)

Inflation rate (consumer prices): -0.5% (2015 est.)

1.4% (2014 est.)

TRANSNATIONAL ISSUES

Disputes - international: none identified

ANDORRA

INTRODUCTION

Background: The Moorish invasion of Spain in the 8th century and subsequent incursions into France were finally stemmed at the Pyrenees by Frankish King Charlemagne, who in 795 created the Hispanic March, a series of buffer states to keep the Muslim Moors from advancing into Christian France. The landlocked Principality of Andorra, one of the smallest states in Europe and nestled high in the Pyrenees between the French and Spanish borders, is the last independent survivor of these March states. For 715 years, from 1278 to 1993, Andorrans lived under a unique coprincipality, ruled by French and Spanish leaders (from 1607 onward, the French chief of state and the Bishop of Urgell). In 1993, this feudal system was modified with the introduction of a modern constitution; the co-princes remained as titular heads of state, but the government transformed into a parliamentary democracy.

Andorra has become a popular tourist destination visited by approximately 8 million people each year drawn by the winter sports, summer climate, and duty-free shopping. Andorra has also become a wealthy international commercial center because of its mature banking sector and low taxes. As part of its effort to modernize its economy, Andorra has opened to foreign investment, and engaged in other reforms, such as advancing tax initiatives aimed at supporting a broader infrastructure. Although not a member of the EU, Andorra enjoys a special relationship with the bloc that is governed by various customs and cooperation agreements and uses the euro as its national currency.

GEOGRAPHY

Location: Southwestern Europe, Pyrenees mountains, on the border between France and Spain

Geographic coordinates: 42 30 N, 1 30 E

Map references: Europe

Area: *total:* 468 sq km

land: 468 sq km

water: 0 sq km

country comparison to the world: 195

Area - comparative: 2.5 times the size of Washington, DC

Land boundaries: *total:* 118 km

border countries (2): France 55 km; Spain 63 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: temperate; snowy, cold winters and warm, dry summers

Terrain: rugged mountains dissected by narrow valleys

Elevation: *highest point:* Pic de Coma Pedrosa 2,946 m

lowest point: Riu Runer 840 m

mean elevation: 1,996 m

Natural resources: hydropower, mineral water, timber, iron ore, lead

Land use: *agricultural land:* 40% (2018 est.)

arable land: 1.7% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 38.3% (2018 est.)

forest: 34% (2018 est.)

other: 26% (2018 est.)

Irrigated land: 0 sq km (2012)

Population distribution: population is unevenly distributed and is

concentrated in the seven urbanized valleys that make up the country's parishes (political administrative divisions)

Natural hazards: avalanches

Geography - note: landlocked; straddles a number of important crossroads in the Pyrenees

PEOPLE AND SOCIETY

Population: 85,560 (2022 est.)

country comparison to the world: 199

Nationality: *noun:* Andorran(s)

adjective: Andorran

Ethnic groups: Andorran 48.3%, Spanish 24.8%, Portuguese 11.2%, French 4.5%, Argentine 1.4%, other 9.8% (2021 est.)

note: data represent population by nationality

Languages: Catalan (official), French, Castilian, Portuguese

Religions: Christian (predominantly Roman Catholic) 89.5, other 8.8%, unaffiliated 1.7% (2020 est.)

Age structure: *0-14 years:* 13.37% (male 5,901/female 5,551)

15-24 years: 10.16% (male 4,474/female 4,227)

25-54 years: 43.19% (male 18,857/female 18,131)

55-64 years: 15.91% (male 7,184/female 6,443)

65 years and over: 17.36% (male 7,544/female 7,323) (2020 est.)

Median age: *total:* 46.2 years

male: 46.3 years

female: 46.1 years (2020 est.)

country comparison to the world: 6

Population growth rate: -0.1% (2022 est.)

country comparison to the world: 203

Birth rate: 6.88 births/1,000 population (2022 est.)

country comparison to the world: 226

Death rate: 7.92 deaths/1,000 population (2022 est.)

country comparison to the world: 96

Net migration rate: 0 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 82

Population distribution: population is unevenly distributed and is

concentrated in the seven urbanized valleys that make up the country's parishes (political administrative divisions)

Urbanization: *urban population:* 87.8% of total population (2022)

rate of urbanization: 0.11% annual rate of change (2020-25 est.)

Major urban areas - population: 23,000 ANDORRA LA VELLA (capital) (2018)

Sex ratio: *at birth:* 1.07 male(s)/female

0-14 years: 1.06 male(s)/female

15-24 years: 1.04 male(s)/female

25-54 years: 1.05 male(s)/female

55-64 years: 1.1 male(s)/female

65 years and over: 0.9 male(s)/female

total population: 1.05 male(s)/female (2022 est.)

Mother's mean age at first birth: 32.8 years (2019)

Infant mortality rate: *total:* 3.44 deaths/1,000 live births

male: 3.54 deaths/1,000 live births

female: 3.34 deaths/1,000 live births (2022 est.)

country comparison to the world: 198

Life expectancy at birth: *total population:* 83.42 years

male: 81.2 years

female: 85.79 years (2022 est.)

country comparison to the world: 9

Total fertility rate: 1.45 children born/woman (2022 est.)

country comparison to the world: 209

Drinking water source: *improved:* urban: 100% of population

rural: 100% of population

total: 100% of population

Current health expenditure: 6.7% of GDP (2019)

Physicians density: 3.33 physicians/1,000 population (2015)

Hospital bed density: 2.5 beds/1,000 population

Sanitation facility access: *improved:* urban: 100% of population
rural: 100% of population
total: 100% of population

Obesity - adult prevalence rate: 25.6% (2016)
country comparison to the world: 49

Alcohol consumption per capita: *total:* 10.99 liters of pure alcohol
(2019 est.)
beer: 3.59 liters of pure alcohol (2019 est.)
wine: 4.98 liters of pure alcohol (2019 est.)
spirits: 2.32 liters of pure alcohol (2019 est.)
other alcohols: 0 liters of pure alcohol (2019 est.)
country comparison to the world: 12

Tobacco use: *total:* 31.8% (2020 est.)
male: 35.3% (2020 est.)
female: 28.3% (2020 est.)
country comparison to the world: 21

Education expenditures: 3.2% of GDP (2019 est.)
country comparison to the world: 139

Literacy: *definition:* age 15 and over can read and write
total population: 100%
male: 100%
female: 100% (2016)

ENVIRONMENT

Environment - current issues: deforestation; overgrazing of mountain meadows contributes to soil erosion; air pollution; wastewater treatment and solid waste disposal

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Hazardous Wastes, Ozone Layer Protection, Wetlands

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 9.95 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 0.47 megatons (2016 est.)

methane emissions: 0.05 megatons (2020 est.)

Climate: temperate; snowy, cold winters and warm, dry summers

Land use: *agricultural land:* 40% (2018 est.)

arable land: 1.7% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 38.3% (2018 est.)

forest: 34% (2018 est.)

other: 26% (2018 est.)

Urbanization: *urban population:* 87.8% of total population (2022)

rate of urbanization: 0.11% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0% of GDP (2018 est.)

country comparison to the world: 160

Waste and recycling: *municipal solid waste generated annually:* 43,000 tons (2012 est.)

Total renewable water resources: 315.6 million cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Principality of Andorra

conventional short form: Andorra

local long form: Principat d'Andorra

local short form: Andorra

etymology: the origin of the country's name is obscure; the name may derive from the Arabic "ad-darra" meaning "the forest," a reference to its location as part of the Spanish March (defensive buffer zone) against the invading Moors in the 8th century; an alternate explanation is that the name originates from a Navarrese word "andurrial" meaning "shrubcovered land"

Government type: parliamentary democracy (since March 1993) that retains its chiefs of state in the form of a co-principality; the two princes are the President of France and Bishop of Seu d'Urgell, Spain

Capital: *name:* Andorra la Vella

geographic coordinates: 42 30 N, 1 31 E

time difference: UTC+1 (6 hours ahead of Washington, DC during Standard Time)

daylight saving time: +1hr, begins last Sunday in March; ends last Sunday in October

etymology: translates as "Andorra the Old" in Catalan

Administrative divisions: 7 parishes (parroquies, singular - parroquia); Andorra la Vella, Canillo, Encamp, Escaldes-Engordany, La Massana, Ordino, Sant Julia de Loria

Independence: 1278 (formed under the joint sovereignty of the French Count of Foix and the Spanish Bishop of Urgell)

National holiday: Our Lady of Meritxell Day, 8 September (1278)

Constitution: *history:* drafted 1991, approved by referendum 14 March 1993, effective 28 April 1993

amendments: proposed by the coprinces jointly or by the General

Council; passage requires at least a two-thirds majority vote by the General Council, ratification in a referendum, and sanctioning by the coprinces

Legal system: mixed legal system of civil and customary law with the influence of canon (religious) law

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICtJ jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: the mother must be an Andorran citizen or the father must have been born in Andorra and both parents maintain permanent residence in Andorra

dual citizenship recognized: no

residency requirement for naturalization: 25 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* Co-prince Emmanuel MACRON (since 14 May 2017); represented by Patrick STROZDA (since 14 May 2017); and Co-prince Archbishop Joan-Enric VIVES i Sicilia (since 12 May 2003); represented by Josep Maria MAURI (since 20 July 2012)

head of government: Xavier Espot ZAMORA (since 16 May 2019)

cabinet: Executive Council of 12 ministers designated by the head of government

elections/appointments: head of government indirectly elected by the General Council (Andorran parliament), formally appointed by the coprinces for a 4-year term; election last held on 7 April 2019 (next to be held in April 2023); the leader of the majority party in the General Council is usually elected head of government

election results: 2019: Xavier Espot ZAMORA (DA) elected head of government; percent of General Council vote - 60.7%

2015: Antoni MARTI elected head of government; percent of General Council vote - 58.3%

Legislative branch: *description:* unicameral General Council of the Valleys or Consell General de les Valls (a minimum of 28 seats; 14

members directly elected in two-seat constituencies (7 parishes) by simple majority vote and 14 directly elected in a single national constituency by proportional representation vote; members serve 4-year terms); note - voters cast two separate ballots - one for a national list and one for a parish list

elections: last held on 7 April 2019 (next to be held in April 2023)

election results: percent of vote by party - DA 35.1%, PS 30.6%, L'A 12.5%, Third Way/Lauredian Union 10.4%, other 11.4%; seats by party - DA 11, PS 7, L'A 4, Third Way/Lauredian Union 4, other 2; composition - men 15, women 13, percent of women 46.4%

Judicial branch: *highest court(s)*: Supreme Court of Justice of Andorra or Tribunal Superior de la Justícia d'Andorra (consists of the court president and 8 judges organized into civil, criminal, and administrative chambers); Constitutional Court or Tribunal Constitucional (consists of 4 magistrates)

judge selection and term of office: Supreme Court president and judges appointed by the Supreme Council of Justice, a 5-member judicial policy and administrative body appointed 1 each by the coprinces, 1 by the General Council, 1 by the executive council president, and 1 by the courts; judges serve 6-year renewable terms; Constitutional magistrates - 2 appointed by the coprinces and 2 by the General Council; magistrates' appointments limited to 2 consecutive 8-year terms

subordinate courts: Tribunal of Judges or Tribunal de Batlles; Tribunal of the Courts or Tribunal de Corts

Political parties and leaders: Democrats for Andorra or DA [Xaviar ESPOT ZAMORA]

Liberals of Andorra or L'A [Jordi GALLARDO FERNANDEZ]

Social Democracy and Progress or SDP [Victor NAUDI ZAMORA]

Social Democratic Party or PS [Susanna VELA]

Third Way/Lauredian Union [Josep PINTAT FORNE]

United for the Progress of Andorra or UPA [Alfons CLAVERA ARIZTI]

note: Andorra has several smaller parties at the parish level (one is Lauredian Union)

International organization participation: CE, FAO, ICAO, ICC (NGOs), ICCT, ICRM, IFRCs, Interpol, IOC, IPU, ITU, OIF, OPCW, OSCE, UN, UNCTAD, UNESCO, Union Latina, UNWTO, WCO, WHO, WIPO, WTO (observer)

Diplomatic representation in the US: *chief of mission:* Ambassador Elisenda VIVES BALMANA (since 2 March 2016)

chancery: 2 United Nations Plaza, 27th Floor, New York, NY 10017

telephone: [1] (212) 750-8064; [1] (212) 750-8065

FAX: [1] (212) 750-6630

email address and website:

contact@andorraun.org

Diplomatic representation from the US: *embassy:* the US does not have an embassy in Andorra; the US ambassador to Spain is accredited to Andorra; US interests in Andorra are represented by the US Consulate General's office in Barcelona (Spain); mailing address: Paseo Reina Elisenda de Montcada, 23, 08034 Barcelona, Espana; telephone: [34] (93) 280-22-27; FAX: [34] (93) 280-61-75; email address: Barcelonaacs@state.gov

Flag description: three vertical bands of blue (hoist side), yellow, and red, with the national coat of arms centered in the yellow band; the latter band is slightly wider than the other 2 so that the ratio of band widths is 8:9:8; the coat of arms features a quartered shield with the emblems of (starting in the upper left and proceeding clockwise): Urgell, Foix, Bearn, and Catalonia; the motto reads VIRTUS UNITA FORTIOR (Strength United is Stronger); the flag combines the blue and red French colors with the red and yellow of Spain to show Franco-Spanish protection

note: similar to the flags of Chad and Romania, which do not have a national coat of arms in the center, and the flag of Moldova, which does bear a national emblem

National symbol(s): red cow (breed unspecified); national colors: blue, yellow, red

National anthem: *name:* "El Gran Carlemany" (The Great

Charlemagne)

lyrics/music: Joan BENLLOCH i VIVO/Enric MARFANY BONS

note: adopted 1921; the anthem provides a brief history of Andorra in a first person narrative

National heritage: *total World Heritage Sites:* 1 (cultural)

selected World Heritage Site locales: Madriu-Perafita-Claror Valley

ECONOMY

Economic overview: Andorra has a developed economy and a free market, with per capita income above the European average and above the level of its neighbors, Spain and France. The country has developed a sophisticated infrastructure including a one-of-a-kind micro-fiber-optic network for the entire country. Tourism, retail sales, and finance comprise more than three-quarters of GDP. Duty-free shopping for some products and the country's summer and winter resorts attract millions of visitors annually. Andorra uses the euro and is effectively subject to the monetary policy of the European Central Bank. Andorra's comparative advantage as a tax haven eroded when the borders of neighboring France and Spain opened and the government eased bank secrecy laws under pressure from the EU and OECD.

Agricultural production is limited - only about 5% of the land is arable - and most food has to be imported, making the economy vulnerable to changes in fuel and food prices. The principal livestock is sheep. Manufacturing output and exports consist mainly of perfumes and cosmetic products, products of the printing industry, electrical machinery and equipment, clothing, tobacco products, and furniture. Andorra is a member of the EU Customs Union and is treated as an EU member for trade in manufactured goods (no tariffs) and as a non-EU member for agricultural products.

To provide incentives for growth and diversification in the economy, the Andorran government began sweeping economic reforms in 2006. The Parliament approved three laws to complement the first phase of economic openness: on companies (October 2007), on business accounting (December 2007), and on foreign investment (April 2008 and June 2012). From 2011 to 2015, the Parliament also approved direct taxes in the form of taxes on corporations, on individual incomes of residents and non-residents, and on capital gains, savings, and economic activities. These regulations aim to establish a transparent, modern, and internationally comparable regulatory framework, in order to attract foreign investment and businesses that offer higher value added.

Real GDP (purchasing power parity): \$3.327 billion (2015 est.)

\$3.363 billion (2014 est.)

\$3.273 billion (2013 est.)

note: data are in 2012 US dollars

Disputes - international: *Andorra-France:* none identified

Andorra-Spain: none identified

ANGOLA

INTRODUCTION

Background: From the late 14th to the mid 19th century a Kingdom of Kongo stretched across central Africa from present-day northern Angola into the current Congo republics. It traded heavily with the Portuguese who, beginning in the 16th century, established coastal colonies and trading posts and introduced Christianity. By the 19th century, Portuguese settlement had spread to the interior; in 1914, Portugal abolished the last vestiges of the Kongo Kingdom and Angola became a Portuguese colony.

Angola scores low on human development indexes despite using its large oil reserves to rebuild since the end of a 27- year civil war in 2002. Fighting between the Popular Movement for the Liberation of Angola (MPLA), led by Jose Eduardo DOS SANTOS, and the National Union for the Total Independence of Angola (UNITA), led by Jonas SAVIMBI, followed independence from Portugal in 1975. Peace seemed imminent in 1992 when Angola held national elections, but fighting picked up again in 1993. Up to 1.5 million lives may have been lost - and 4 million people displaced - during the more than a quarter century of fighting. SAVIMBI's death in 2002 ended UNITA's insurgency and cemented the MPLA's hold on power. DOS SANTOS stepped down from the presidency in 2017, having led the country since 1979. He pushed through a new constitution in 2010. Joao LOURENCO was elected president in August 2017 and became president of the MPLA in September 2018.

GEOGRAPHY

Location: Southern Africa, bordering the South Atlantic Ocean, between Namibia and Democratic Republic of the Congo

Geographic coordinates: 12 30 S, 18 30 E

Map references: Africa

Area: *total:* 1,246,700 sq km

land: 1,246,700 sq km

water: 0 sq km

country comparison to the world: 24

Area - comparative: about eight times the size of Georgia; slightly less than twice the size of Texas

Land boundaries: *total:* 5,369 km

border countries (4): Democratic Republic of the Congo 2,646 km (of which 225 km is the boundary of discontinuous Cabinda Province); Republic of the Congo 231 km; Namibia 1,427 km; Zambia 1,065 km

Coastline: 1,600 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

Climate: semiarid in south and along coast to Luanda; north has cool, dry season (May to October) and hot, rainy season (November to April)

Terrain: narrow coastal plain rises abruptly to vast interior plateau

Elevation: *highest point:* Moca 2,620 m

lowest point: Atlantic Ocean 0 m

mean elevation: 1,112 m

Natural resources: petroleum, diamonds, iron ore, phosphates, copper, feldspar, gold, bauxite, uranium

Land use: *agricultural land:* 45.7% (2018 est.)

arable land: 3.9% (2018 est.)

permanent crops: 0.3% (2018 est.)

permanent pasture: 41.5% (2018 est.)

forest: 54.3% (2018 est.)

Irrigated land: 860 sq km (2014)

Major rivers (by length in km): Zambezi (shared with Zambia [s], Namibia, Botswana, Zimbabwe, and Mozambique [m]) - 2,740 km; Okavango river source (shared with Namibia and Botswana [m]) - 1,600 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km):

Atlantic Ocean drainage: Congo (3,730,881 sq km)

Indian Ocean drainage: Zambezi (1,332,412 sq km)

Internal (*endorheic basin*) drainage: Okavango Basin (863,866 sq km)

Major aquifers: Congo Basin, Upper Kalahari-Cuvelai-Upper Zambezi Basin

Population distribution: most people live in the western half of the country; urban areas account for the highest concentrations of people, particularly the capital of Luanda as shown in this population distribution map

Natural hazards: locally heavy rainfall causes periodic flooding on the plateau

Geography - note: the province of Cabinda is an exclave, separated from the rest of the country by the Democratic Republic of the Congo

PEOPLE AND SOCIETY

Population: 34,795,287 (2022 est.)

country comparison to the world: 42

Nationality: *noun:* Angolan(s)

adjective: Angolan

Ethnic groups: Ovimbundu 37%, Kimbundu 25%, Bakongo 13%, Mestico (mixed European and native African) 2%, European 1%, other 22%

Languages: Portuguese 71.2% (official), Umbundu 23%, Kikongo 8.2%, Kimbundu 7.8%, Chokwe 6.5%, Nhaneca 3.4%, Nganguela 3.1%, Fiote 2.4%, Kwanhama 2.3%, Muhumbi 2.1%, Luvale 1%, other 3.6%; note - data represent most widely spoken languages; shares sum to more than 100% because some respondents gave more than one answer on the census (2014 est.)

Religions: Roman Catholic 41.1%, Protestant 38.1%, other 8.6%, none 12.3% (2014 est.)

Demographic profile: More than two decades after the end of Angola's 27-year civil war, the country still faces a variety of socioeconomic problems, including poverty, high maternal and child mortality, and illiteracy. Despite the country's rapid post-war economic growth based on oil production, about 40 percent of Angolans live below the poverty line and unemployment is widespread, especially among the large young-adult population. Only about 70% of the population is literate, and the rate drops to around 60% for women. The youthful population - about 45% are under the age of 15 - is expected to continue growing rapidly with a fertility rate of more than 5 children per woman and a low rate of contraceptive use. Fewer than half of women deliver their babies with the assistance of trained health care personnel, which contributes to Angola's high maternal mortality rate.

Of the estimated 550,000 Angolans who fled their homeland during its civil war, most have returned home since 2002. In 2012, the UN assessed

that conditions in Angola had been stable for several years and invoked a cessation of refugee status for Angolans. Following the cessation clause, some of those still in exile returned home voluntarily through UN repatriation programs, and others integrated into host countries.

Age structure: 0-14 years: 47.83% (male 7,758,636/female 7,797,869)

15-24 years: 18.64% (male 2,950,999/female 3,109,741)

25-54 years: 27.8% (male 4,301,618/female 4,740,463)

55-64 years: 3.43% (male 523,517/female 591,249)

65 years and over: 2.3% (male 312,197/female 436,050) (2020 est.)

Dependency ratios: total dependency ratio: 94.5

youth dependency ratio: 90.2

elderly dependency ratio: 4.3

potential support ratio: 23.5 (2020 est.)

Median age: total: 15.9 years

male: 15.4 years

female: 16.4 years (2020 est.)

country comparison to the world: 225

Population growth rate: 3.36% (2022 est.)

country comparison to the world: 6

Birth rate: 41.8 births/1,000 population (2022 est.)

country comparison to the world: 2

Death rate: 8.01 deaths/1,000 population (2022 est.)

country comparison to the world: 88

Net migration rate: -0.19 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 108

Population distribution: most people live in the western half of the country; urban areas account for the highest concentrations of people, particularly the capital of Luanda as shown in this population distribution map

Urbanization: urban population: 68.1% of total population (2022)

rate of urbanization: 4.04% annual rate of change (2020-25 est.)

Major urban areas - population: 8.952 million LUANDA (capital), 914,000 Lubango, 862,000 Cabinda, Benguela 777,000 (2022)

Sex ratio: *at birth:* 1.03 male(s)/female

0-14 years: 1 male(s)/female

15-24 years: 0.95 male(s)/female

25-54 years: 0.91 male(s)/female

55-64 years: 0.89 male(s)/female

65 years and over: 0.59 male(s)/female

total population: 0.95 male(s)/female (2022 est.)

Mother's mean age at first birth: 19.4 years (2015/16 est.)

note: data represents median age at first birth among women 20-49

Maternal mortality ratio: 241 deaths/100,000 live births (2017 est.)

country comparison to the world: 45

Infant mortality rate: *total:* 58.86 deaths/1,000 live births

male: 64.11 deaths/1,000 live births

female: 53.46 deaths/1,000 live births (2022 est.)

country comparison to the world: 12

Life expectancy at birth: *total population:* 62.11 years

male: 60.05 years

female: 64.24 years (2022 est.)

country comparison to the world: 214

Total fertility rate: 5.83 children born/woman (2022 est.)

country comparison to the world: 2

Contraceptive prevalence rate: 13.7% (2015/16)

Drinking water source: *improved: urban:* 81.3% of population

rural: 36.5% of population

total: 66.5% of population

unimproved: urban: 18.7% of population

rural: 63.5% of population

total: 33.5% of population (2020 est.)

Current health expenditure: 2.5% of GDP (2019)

Physicians density: 0.21 physicians/1,000 population (2018)

Sanitation facility access: *improved:* urban: 93.7% of population

rural: 30.3% of population

total: 72.7% of population

unimproved: urban: 6.3% of population

rural: 69.7% of population

total: 27.3% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 1.8% (2020 est.)

country comparison to the world: 24

Major infectious diseases: *degree of risk:* very high (2020)

food or waterborne diseases: bacterial and protozoal diarrhea, hepatitis A, typhoid fever

vectorborne diseases: dengue fever, malaria

water contact diseases: schistosomiasis

animal contact diseases: rabies

Obesity - adult prevalence rate: 8.2% (2016)

country comparison to the world: 154

Alcohol consumption per capita: *total:* 5.84 liters of pure alcohol (2019 est.)

beer: 3.78 liters of pure alcohol (2019 est.)

wine: 0.72 liters of pure alcohol (2019 est.)

spirits: 1.27 liters of pure alcohol (2019 est.)

other alcohols: 0.08 liters of pure alcohol (2019 est.)

country comparison to the world: 73

Children under the age of 5 years underweight: 19% (2015/16)

country comparison to the world: 25

Child marriage: *women married by age 15:* 7.9%

women married by age 18: 30.3%

men married by age 18: 6% (2016 est.)

Education expenditures: 1.8% of GDP (2019 est.)

country comparison to the world: 181

Literacy: *definition:* age 15 and over can read and write

total population: 71.1%

male: 82%

female: 60.7% (2015)

School life expectancy (primary to tertiary education): *total:* 10 years

male: 12 years

female: 7 years (2011)

Unemployment, youth ages 15-24: *total:* 17.3%

male: 17.9%

female: 16.7% (2014 est.)

ENVIRONMENT

Environment - current issues: overuse of pastures and subsequent soil erosion attributable to population pressures; desertification; deforestation of tropical rain forest, in response to both international demand for tropical timber and to domestic use as fuel, resulting in loss of biodiversity; soil erosion contributing to water pollution and siltation of rivers and dams; inadequate supplies of potable water

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Marine Dumping-London Protocol, Ozone Layer Protection, Ship Pollution
signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 27.95 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 34.69 megatons (2016 est.)

methane emissions: 23.28 megatons (2020 est.)

Climate: semiarid in south and along coast to Luanda; north has cool, dry season (May to October) and hot, rainy season (November to April)

Land use: *agricultural land:* 45.7% (2018 est.)

arable land: 3.9% (2018 est.)

permanent crops: 0.3% (2018 est.)

permanent pasture: 41.5% (2018 est.)

forest: 54.3% (2018 est.)

Urbanization: *urban population:* 68.1% of total population (2022)

rate of urbanization: 4.04% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.36% of GDP (2018 est.)

country comparison to the world: 74

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

Major infectious diseases: *degree of risk:* very high (2020)

food or waterborne diseases: bacterial and protozoal diarrhea, hepatitis A, typhoid fever

vectorborne diseases: dengue fever, malaria

water contact diseases: schistosomiasis

animal contact diseases: rabies

Waste and recycling: *municipal solid waste generated annually:* 4,213,644 tons (2012 est.)

Major rivers (by length in km): Zambezi (shared with Zambia [s], Namibia, Botswana, Zimbabwe, and Mozambique [m]) - 2,740 km; Okavango river source (shared with Namibia and Botswana [m]) - 1,600 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km):

Atlantic Ocean drainage: Congo (3,730,881 sq km)

Indian Ocean drainage: Zambezi (1,332,412 sq km)

Internal (*endorheic basin*) drainage: Okavango Basin (863,866 sq km)

Major aquifers: Congo Basin, Upper Kalahari-Cuvelai-Upper Zambezi Basin

Total water withdrawal: *municipal:* 319.5 million cubic meters (2017 est.)

industrial: 239.6 million cubic meters (2017 est.)

agricultural: 146.7 million cubic meters (2017 est.)

Total renewable water resources: 148.4 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Angola

conventional short form: Angola

local long form: Republica de Angola

local short form: Angola

former: People's Republic of Angola

etymology: name derived by the Portuguese from the title “ngola” held by kings of the Ndongo (Ndongo was a kingdom in what is now northern Angola)

Government type: presidential republic

Capital: *name:* Luanda

geographic coordinates: 8 50 S, 13 13 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

daylight saving time: does not observe daylight savings time

etymology: originally named “Sao Paulo da Assuncao de Loanda” (Saint Paul of the Assumption of Loanda), which over time was shortened and corrupted to just Luanda

Administrative divisions: 18 provinces (provincias, singular - provincia); Bengo, Benguela, Bie, Cabinda, Cuando Cubango, Cuanza-Norte, Cuanza-Sul, Cunene, Huambo, Huila, Luanda, Lunda-Norte, Lunda-Sul, Malanje, Moxico, Namibe, Uige, Zaire

Independence: 11 November 1975 (from Portugal)

National holiday: Independence Day, 11 November (1975)

Constitution: *history:* previous 1975, 1992; latest passed by National Assembly 21 January 2010, adopted 5 February 2010

amendments: proposed by the president of the republic or supported by at least one third of the National Assembly membership; passage requires at least two-thirds majority vote of the Assembly subject to prior Constitutional Court review if requested by the president of the republic

Legal system: civil legal system based on Portuguese civil law; no judicial review of legislation

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Angola

dual citizenship recognized: no

residency requirement for naturalization: 10 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Joao Manuel Goncalves LOURENCO (since 15 September 2022); Vice President Bornito De Sousa Baltazar DIOGO (since 15 September 2022); note - the president is both chief of state and head of government

head of government: President Joao Manuel Goncalves LOURENCO (since 15 September 2022); Vice President Bornito De Sousa Baltazar DIOGO (since 15 September 2022)

cabinet: Council of Ministers appointed by the president

elections/appointments: the candidate of the winning party or coalition in the last legislative election becomes the president; president serves a 5-year term (eligible for a second consecutive or discontinuous term); last held on 24 August 2022 (next to be held on 24 August 2027) (2022)

election results: Joao Manuel Goncalves LOURENCO (MPLA) elected president by then winning party following the 24 August 2022 general election

Legislative branch: *description:* unicameral National Assembly or Assembleia Nacional (220 seats; members directly elected in a single national constituency and in multi-seat constituencies by closed list proportional representation vote; members serve 5-year terms)

elections: last held on 24 August 2022 (next to be held on 24 August 2027)

election results: percent of vote by party - MPLA 51.1%, UNITA 43.9%,

PRS 1.1%, FNLA 1.1%, PHA 1%, other 1.7%; seats by party - MPLA 124, UNITA 90, PRS 2, FNLA 2; PHA-2; composition - men 146, women 74, percent of women 33.6%

Judicial branch: *highest court(s):* Supreme Court or Supremo Tribunal de Justica (consists of the court president, vice president, and a minimum of 16 judges); Constitutional Court or Tribunal Constitucional (consists of 11 judges)

judge selection and term of office: Supreme Court judges appointed by the president upon recommendation of the Supreme Judicial Council, an 18-member body chaired by the president; judge tenure NA; Constitutional Court judges - 4 nominated by the president, 4 elected by National Assembly, 2 elected by Supreme National Council, 1 elected by competitive submission of curricula; judges serve single 7-year terms

subordinate courts: provincial and municipal courts

Political parties and leaders: Broad Convergence for the Salvation of Angola Electoral Coalition or CASA-CE [Manuel FERNANDES] National Front for the Liberation of Angola or FNLA; note - party has two factions; one led by Lucas NGONDA; the other by Ngola KABANGU

National Union for the Total Independence of Angola or UNITA [Adalberto Costa JUNIOR] (largest opposition party) Popular Movement for the Liberation of Angola or MPLA [Joao LOURENCO]; note- ruling party in power since 1975 Social Renewal Party or PRS [Benedito DANIEL]

International organization participation: ACP, AfDB, AU, CEMAC, CPLP, FAO, G-77, IAEA, IBRD, ICAO, ICRM, IDA, IFAD, IFC, IFRCs, ILO, IMF, IMO, Interpol, IOC, IOM, IPU, ISO (correspondent), ITSO, ITU, ITUC (NGOs), MIGA, NAM, OAS (observer), OPEC, SADC, UN, UNCTAD, UNESCO, UNIDO, Union Latina, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Joaquim do Espirito SANTO (since 16 September 2019)

chancery: 2100-2108 16th Street NW, Washington, DC 20009

telephone: [1] (202) 785-1156

FAX: [1] (202) 822-9049

email address and website:

Flag description: two equal horizontal bands of red (top) and black with a centered yellow emblem consisting of a five-pointed star within half a cogwheel crossed by a machete (in the style of a hammer and sickle); red represents liberty and black the African continent; the symbols characterize workers and peasants

National symbol(s): Palanca Negra Gigante (giant black sable antelope); national colors: red, black, yellow

National anthem: *name:* “Angola Avante” (Forward Angola)

lyrics/music: Manuel Rui Alves MONTEIRO/Rui Alberto Vieira Dias
MINGAO

note: adopted 1975

National heritage: *total World Heritage Sites:* 1 (cultural)

selected World Heritage Site locales: Mbanza-Kongo

ECONOMY

Economic overview: Angola's economy is overwhelmingly driven by its oil sector. Oil production and its supporting activities contribute about 50% of GDP, more than 70% of government revenue, and more than 90% of the country's exports; Angola is an OPEC member and subject to its direction regarding oil production levels. Diamonds contribute an additional 5% to exports. Subsistence agriculture provides the main livelihood for most of the people, but half of the country's food is still imported.

Increased oil production supported growth averaging more than 17% per year from 2004 to 2008. A postwar reconstruction boom and resettlement of displaced persons led to high rates of growth in construction and agriculture as well. Some of the country's infrastructure is still damaged or undeveloped from the 27-year-long civil war (1975-2002). However, the government since 2005 has used billions of dollars in credit from China, Brazil, Portugal, Germany, Spain, and the EU to help rebuild Angola's public infrastructure. Land mines left from the war still mar the countryside, and as a result, the national military, international partners, and private Angolan firms all continue to remove them.

The global recession that started in 2008 stalled Angola's economic growth and many construction projects stopped because Luanda accrued billions in arrears to foreign construction companies when government revenue fell. Lower prices for oil and diamonds also resulted in GDP falling 0.7% in 2016. Angola formally abandoned its currency peg in 2009 but reinstituted it in April 2016 and maintains an overvalued exchange rate. In late 2016, Angola lost the last of its correspondent relationships with foreign banks, further exacerbating hard currency problems. Since 2013 the central bank has consistently spent down reserves to defend the kwanza, gradually allowing a 40% depreciation since late 2014. Consumer inflation declined from 325% in 2000 to less than 9% in 2014, before rising again to above 30% from 2015-2017.

Continued low oil prices, the depreciation of the kwanza, and slower

than expected growth in non-oil GDP have reduced growth prospects, although several major international oil companies remain in Angola. Corruption, especially in the extractive sectors, is a major long-term challenge that poses an additional threat to the economy.

Real GDP (purchasing power parity): \$203.71 billion (2020 est.)

\$212.29 billion (2019 est.)

\$213.62 billion (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 67

Real GDP growth rate: -2.5% (2017 est.)

-2.6% (2016 est.)

ENERGY

Electricity access: *electrification - total population:* 43% (2019)

electrification - urban areas: 61% (2019)

electrification - rural areas: 6% (2019)

Electricity: *installed generating capacity:* 7.344 million kW (2020 est.)

consumption: 11.815 billion kWh (2019 est.)

exports: 0 kWh (2019 est.)

imports: 0 kWh (2019 est.)

transmission/distribution losses: 1.741 billion kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 28.4% of total installed capacity (2020 est.)

solar: 0.1% of total installed capacity (2020 est.)

hydroelectricity: 70.1% of total installed capacity (2020 est.)

biomass and waste: 1.4% of total installed capacity (2020 est.)

Petroleum: *total petroleum production:* 1,197,600 bbl/day (2021 est.)

refined petroleum consumption: 133,400 bbl/day (2019 est.)

crude oil and lease condensate exports: 1,367,400 bbl/day (2018 est.)

crude oil and lease condensate imports: 0 bbl/day (2018 est.)

crude oil estimated reserves: 7.783 billion barrels (2021 est.)

Refined petroleum products - production: 53,480 bbl/day (2015 est.)

country comparison to the world: 80

Refined petroleum products - exports: 30,340 bbl/day (2015 est.)

country comparison to the world: 62

Refined petroleum products - imports: 111,600 bbl/day (2015 est.)

country comparison to the world: 50

Natural gas: *production:* 6,767,715,000 cubic meters (2019 est.)

consumption: 860.887 million cubic meters (2019 est.)

exports: 5,877,945,000 cubic meters (2019 est.)

imports: 0 cubic meters (2021 est.)

proven reserves: 343.001 billion cubic meters (2021 est.)

Carbon dioxide emissions: 19.362 million metric tonnes of CO2 (2019 est.)

from coal and metallurgical coke: 0 metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 17.673 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 1.689 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 84

Energy consumption per capita: 11.693 million Btu/person (2019 est.)

country comparison to the world: 147

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 119,164 (2020 est.)

subscriptions per 100 inhabitants: (2020 est.) less than 1

country comparison to the world: 132

Telephones - mobile cellular: *total subscriptions:* 14,645,050 (2020 est.)

subscriptions per 100 inhabitants: 45 (2020 est.)

country comparison to the world: 70

Telecommunication systems: *general assessment:* Angola's telecom sector in recent years has benefited from political stability, which has encouraged foreign investment in the sector; the government and regulator have also set in train mechanisms to open up the telecom sector to new competitors, mobile services were launched in April 2022; the MNOs were slow to develop LTE services, instead relying on their GSM and 3G network capabilities; there has been slow progress in LTE network development, with only a small proportion of the country covered by network infrastructure; the Ministry of Telecommunications in early 2021 set up a 5G hub to assess 5G user cases; the regulator in November 2021 granted licenses to various companies offering 5G services, with spectrum in the 3.3-3.7GHz range having been set aside for such services (2022)

domestic: only about one fixed-line per 100 persons; mobile-cellular teledensity about 45 telephones per 100 persons (2020)

international: country code - 244; landing points for the SAT-3/WASC, WACS, ACE and SACS fiber-optic submarine cable that provides connectivity to other countries in west Africa, Brazil, Europe and Asia; satellite earth stations - 29, Angosat-2 satellite expected by 2021 (2019)

Broadcast media: state controls all broadcast media with nationwide reach; state-owned Televisao Popular de Angola (TPA) provides terrestrial TV service on 2 channels; a third TPA channel is available via cable and satellite; TV subscription services are available; state-owned Radio Nacional de Angola (RNA) broadcasts on 5 stations; about a half-

dozen private radio stations broadcast locally

Internet country code: .ao

Internet users: *total:* 11,831,857 (2020 est.)

percent of population: 36% (2020 est.)

country comparison to the world: 51

Broadband - fixed subscriptions: *total:* 230,610 (2020 est.)

subscriptions per 100 inhabitants: 0.7 (2020 est.)

123 km 0.600-mm gauge

country comparison to the world: 63

Roadways: *total:* 26,000 km (2018)

paved: 13,600 km (2018)

unpaved: 12,400 km (2018)

country comparison to the world: 102

Waterways: 1,300 km (2011)

country comparison to the world: 57

Merchant marine: *total: 54*

by type: general cargo 13, oil tanker 8, other 33 (2021)

country comparison to the world: 117

Ports and terminals: *major seaport(s):* Cabinda, Lobito, Luanda, Namibe

LNG terminal(s) (export): Angola Soyo

MILITARY AND SECURITY

Military and security forces: Angolan Armed Forces (Forças Armadas Angolanas, FAA): Army, Navy (Marinha de Guerra Angola, MGA), Angolan National Air Force (Força Aerea Nacional Angolana, FANA; under operational control of the Army); Rapid Reaction Police (paramilitary) (2022)

Military expenditures: 1.4% of GDP (2021 est.)

1.7% of GDP (2020 est.)

1.8% of GDP (2019 est.) (approximately \$2.7 billion)

2.1% of GDP (2018 est.) (approximately \$3.02 billion)

2.6% of GDP (2017 est.) (approximately \$3.65 billion)

country comparison to the world: 95

Military and security service personnel strengths: approximately 101,000 active troops (95,000 Army; 1,000 Navy; 5,000 Air Force); estimated 10,000 Rapid Reaction Police (2022)

Military equipment inventories and acquisitions: most Angolan military weapons and equipment are of Russian, Soviet, or Warsaw Pact origin; since 2010, Russia has been the principal supplier of military hardware to Angola (2021)

Military service age and obligation: 20-45 years of age for compulsory and 18-45 years for voluntary military service for men (registration at age 18 is mandatory); 20-45 years of age for voluntary service for women; 2-year conscript service obligation; Angolan citizenship required; the Navy is entirely staffed with volunteers (2021)

Military - note: the Angolan Armed Forces were created in 1991 under the Bicesse Accords signed between the Angolan Government and the National Union for the Total Independence of Angola (UNITA)

the Angolan Armed Forces are responsible for external security but also have domestic security responsibilities, including border security, expulsion of irregular migrants, and small-scale actions against groups like the Front for the Liberation of the Enclave of Cabinda separatists in

Cabinda (2022)

Maritime threats: the International Maritime Bureau reports the territorial waters of Angola are a risk for armed robbery against ships; in 2021, four attacks against commercial vessels were reported, a decrease from the six attacks in 2020; most of these occurred in the main port of Luanda while ships were berthed or at anchor

TRANSNATIONAL ISSUES

Disputes - international: *Angola-Democratic Republic of Congo (DRC):* DRC accuses Angola of shifting monuments

Angola-Namibia: none identified

Angola-Republic of Congo: (Kabinda Exclave) none identified

Angola-Zambia: because the straight-line segments along the left bank (Zambian side) of the Cuando/Kwando River do not conform with the physical alignment of the unstable shoreline, Zambian residents in some areas have settled illegally on sections of shoreline that fall on the Angolan side of the boundary

Refugees and internally displaced persons: *refugees (country of origin):* 37,159 (Democratic Republic of the Congo) (refugees and asylum seekers), 9,272 (Guinea), 6,357 (Cote d'Ivoire), 5,725 (Mauritania) (2022)

Illicit drugs: used as a transshipment point for cocaine destined for Western Europe and other African states, particularly South Africa

ANGUILLA

INTRODUCTION

Background: Colonized by English settlers from Saint Kitts in 1650, Anguilla was administered by Great Britain until the early 19th century, when the island - against the wishes of the inhabitants - was incorporated into a single British dependency along with Saint Kitts and Nevis. Several attempts at separation failed. In 1971, two years after a revolt, Anguilla was finally allowed to secede; this arrangement was formally recognized in 1980, with Anguilla becoming a separate British dependency. On 7 September 2017, the island suffered extensive damage from Hurricane Irma, particularly to communications and residential and business infrastructure.

GEOGRAPHY

Location: Caribbean, islands between the Caribbean Sea and North Atlantic Ocean, east of Puerto Rico

Geographic coordinates: 18 15 N, 63 10 W

Map references: Central America and the Caribbean

Area: *total:* 91 sq km

land: 91 sq km

water: 0 sq km

country comparison to the world: 226

Area - comparative: about one-half the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 61 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm

exclusive fishing zone: 200 nm

Climate: tropical; moderated by northeast trade winds

Terrain: flat and low-lying island of coral and limestone

Elevation: *highest point:* Crocus Hill 73 m

lowest point: Caribbean Sea 0 m

Natural resources: salt, fish, lobster

Land use: *agricultural land:* 0% (2018 est.)

forest: 61.1% (2018 est.)

other: 38.9% (2018 est.)

Irrigated land: 0 sq km (2012)

Population distribution: most of the population is concentrated in The Valley in the center of the island; settlement is fairly uniform in the southwest, but rather sparse in the northeast

Natural hazards: frequent hurricanes and other tropical storms (July to October)

Geography - note: the most northerly of the Leeward Islands in the Lesser Antilles

PEOPLE AND SOCIETY

Population: 18,741 (2022 est.)

country comparison to the world: 219

Nationality: *noun:* Anguillan(s)

adjective: Anguillan

Ethnic groups: African/Black 85.3%, Hispanic 4.9%, mixed 3.8%, White 3.2%, East Indian/Indian 1%, other 1.6%, unspecified 0.3% (2011 est.)

note: data represent population by ethnic origin

Languages: English (official)

Religions: Protestant 73.2% (includes Anglican 22.7%, Methodist 19.4%, Pentecostal 10.5%, Seventh Day Adventist 8.3%, Baptist 7.1%, Church of God 4.9%, Presbyterian 0.2%, Brethren 0.1%), Roman Catholic 6.8%, Jehovah's Witness 1.1%, other Christian 10.9%, other 3.2%, unspecified 0.3%, none 4.5% (2011 est.)

Age structure: *0-14 years:* 21.63% (male 1,991/female 1,922)

15-24 years: 13.9% (male 1,269/female 1,246)

25-54 years: 42.27% (male 3,428/female 4,218)

55-64 years: 12.42% (male 993/female 1,254)

65 years and over: 9.78% (male 874/female 895) (2020 est.)

Median age: *total:* 35.7 years

male: 33.7 years

female: 37.6 years (2020 est.)

country comparison to the world: 81

Population growth rate: 1.8% (2022 est.)

country comparison to the world: 51

Birth rate: 12.01 births/1,000 population (2022 est.)

country comparison to the world: 156

Death rate: 4.64 deaths/1,000 population (2022 est.)

country comparison to the world: 204

Net migration rate: 10.67 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 8

Population distribution: most of the population is concentrated in The Valley in the center of the island; settlement is fairly uniform in the southwest, but rather sparse in the northeast

Urbanization: *urban population:* 100% of total population (2022)

rate of urbanization: 0.47% annual rate of change (2020-25 est.)

Major urban areas - population: 1,000 THE VALLEY (capital) (2018)

Sex ratio: *at birth:* 1.03 male(s)/female

0-14 years: 1.03 male(s)/female

15-24 years: 1.02 male(s)/female

25-54 years: 0.82 male(s)/female

55-64 years: 0.77 male(s)/female

65 years and over: 0.88 male(s)/female

total population: 0.89 male(s)/female (2022 est.)

Infant mortality rate: *total:* 3.07 deaths/1,000 live births

male: 4.01 deaths/1,000 live births

female: 2.1 deaths/1,000 live births (2022 est.)

country comparison to the world: 211

Life expectancy at birth: *total population:* 82.2 years

male: 79.59 years

female: 84.89 years (2022 est.)

country comparison to the world: 26

Total fertility rate: 1.72 children born/woman (2022 est.)

country comparison to the world: 161

Drinking water source: *improved: urban:* 97.5% of population

total: 97.5% of population

unimproved: urban: 2.5% of population

total: 2.5% of population (2017 est.)

Sanitation facility access: *improved: urban:* 99.1% of population
total: 99.1% of population
unimproved: urban: 0.9% of population
total: 0.9% of population (2017 est.)

Education expenditures: 3.6% of GDP (2018 est.)
country comparison to the world: 115

ENVIRONMENT

Environment - current issues: supplies of potable water sometimes cannot meet increasing demand largely because of poor distribution system

Climate: tropical; moderated by northeast trade winds

Land use: *agricultural land:* 0% (2018 est.)

arable land: 0% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 61.1% (2018 est.)

other: 38.9% (2018 est.)

Urbanization: *urban population:* 100% of total population (2022)

rate of urbanization: 0.47% annual rate of change (2020-25 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Anguilla

etymology: the name Anguilla means “eel” in various Romance languages (Spanish, Italian, Portuguese, French) and likely derives from the island’s lengthy shape

Government type: parliamentary democracy (House of Assembly); self-governing overseas territory of the UK

Dependency status: overseas territory of the UK

Capital: *name:* The Valley

geographic coordinates: 18 13 N, 63 03 W

time difference: UTC-4 (1 hour ahead of Washington, DC, during Standard Time)

etymology: name derives from the capital’s location between several hills

Administrative divisions: none (overseas territory of the UK)

Independence: none (overseas territory of the UK)

National holiday: Anguilla Day, 30 May (1967)

Constitution: *history:* several previous; latest 1 April 1982

amendments: amended 1990, 2012, 2017, 2019

Legal system: common law based on the English model

Citizenship: see United Kingdom

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022); represented by Governor Dileeni DANIEL-SELVARATNAM (since 18 January 2021)

head of government: Premier Dr. Ellis WEBSTER (since 30 June 2020); note - starting in 2019, the title of head of government was changed to premier from chief minister of Anguilla

cabinet: Executive Council appointed by the governor from among

elected members of the House of Assembly

elections/appointments: the monarchy is hereditary; governor appointed by the monarch; following legislative elections, the leader of the majority party or majority coalition usually appointed premier by the governor

Legislative branch: *description:* unicameral House of Assembly (11 seats; 7 members directly elected in single-seat constituencies by simple majority vote, 2 appointed by the governor, and 2 ex officio members - the attorney general and deputy governor; members serve five-year terms) *elections:* last held on 29 June 2020 (next to be held in 2025)

election results: percent of vote by party - NA; seats by party - APM 7, AUF 4; composition - men 8, women 3, percent of women 27.3%

Judicial branch: *highest court(s):* the Eastern Caribbean Supreme Court (ECSC) is the superior court of the Organization of Eastern Caribbean States; the ECSC - headquartered on St. Lucia - consists of the Court of Appeal - headed by the chief justice and 4 judges - and the High Court with 18 judges; the Court of Appeal is itinerant, travelling to member states on a schedule to hear appeals from the High Court and subordinate courts; High Court judges reside in the member states, though none on Anguilla

judge selection and term of office: Eastern Caribbean Supreme Court chief justice appointed by Her Majesty, Queen ELIZABETH II; other justices and judges appointed by the Judicial and Legal Services Commission; Court of Appeal justices appointed for life with mandatory retirement at age 65; High Court judges appointed for life with mandatory retirement at age 62

subordinate courts: Magistrate's Court; Juvenile Court

Political parties and leaders: Anguilla Progressive Movement or APM [Dr. Ellis WEBSTER]; (formerly Anguilla United Movement or AUM)

Anguilla United Front or AUF [Cora RICHARDSON-HODGE]

International organization participation: Caricom (associate), CDB, Interpol (subbureau), OECS, UNESCO (associate), UPU

Diplomatic representation in the US: none (overseas territory of the UK)

Diplomatic representation from the US: *embassy:* none (overseas territory of the UK); alternate contact is the US Embassy in Barbados [1] (246) 227-4000

Flag description: blue, with the flag of the UK in the upper hoist-side quadrant and the Anguillan coat of arms centered in the outer half of the flag; the coat of arms depicts three orange dolphins in an interlocking circular design on a white background with a turquoise-blue field below; the white in the background represents peace; the blue base symbolizes the surrounding sea, as well as faith, youth, and hope; the three dolphins stand for endurance, unity, and strength

National symbol(s): dolphin

National anthem: *name:* “God Bless Anguilla”

lyrics/music: Alex RICHARDSON

note: local anthem adopted 1981; as an overseas territory of the United Kingdom, “God Save the King” is official (see United Kingdom)

ECONOMY

Economic overview: Anguilla has few natural resources, is unsuited for agriculture, and the economy depends heavily on luxury tourism, offshore banking, lobster fishing, and remittances from emigrants. Increased activity in the tourism industry has spurred the growth of the construction sector contributing to economic growth. Anguillan officials have put substantial effort into developing the offshore financial sector, which is small but growing. In the medium term, prospects for the economy will depend largely on the recovery of the tourism sector and, therefore, on revived income growth in the industrialized nations as well as on favorable weather conditions.

Real GDP (purchasing power parity): \$175.4 million (2009 est.)

\$191.7 million (2008 est.)

\$108.9 million (2004 est.)

country comparison to the world: 221

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 6,000 (2018 est.)
subscriptions per 100 inhabitants: 42 (2018 est.)
country comparison to the world: 200

Telephones - mobile cellular: *total subscriptions:* 26,000 (2018 est.)
subscriptions per 100 inhabitants: 182 (2018 est.)
country comparison to the world: 212

Telecommunication systems: *general assessment:* in the telecom sector, with declines seen in subscriber numbers (particularly for prepaid mobile services — the mainstay of short-term visitors) and revenue; fixed and mobile broadband services are two areas that have benefited from the crisis to a small extent as employees and students have resorted to working from home, but their contribution to the sector has been insufficient to offset steep falls in other areas of the market; one area of the telecom market that does not yet appear poised for growth is 5G mobile; governments, regulators, and even the mobile network operators have shown that they have little appetite for investing in 5G opportunities at the present time; network expansion and enhancements remain concentrated around improving LTE coverage; until the economies and markets stabilize, and overseas visitors return there is unlikely to be much momentum towards implementing 5G capabilities anywhere in the region (2021)

domestic: fixed-line teledensity is about 42 per 100 persons; mobile-cellular teledensity is roughly 182 per 100 persons (2018)

international: country code - 1-264; landing points for the SSCS, ECFS, GCN and Southern Caribbean Fiber with submarine cable links to Caribbean islands and to the US; microwave radio relay to island of Saint Martin/Sint Maarten (2019)

Broadcast media: 1 private TV station; multi-channel cable TV subscription services are available; about 10 radio stations, one of which is government-owned

Internet country code: .ai

Internet users: *total:* 12,489 (2019 est.)

percent of population: 82% (2019 est.)

country comparison to the world: 215

Broadband - fixed subscriptions: *total:* 5,000 (2018 est.)

subscriptions per 100 inhabitants: 35 (2018 est.)

country comparison to the world: 186

TRANSPORTATION

National air transport system: *number of registered air carriers:* 2 (2020)

inventory of registered aircraft operated by air carriers: 4

Civil aircraft registration country code prefix: VP-A

Airports: *total:* 1 (2021)

country comparison to the world: 210

Airports - with paved runways: *total:* 1

1,524 to 2,437 m: 1 (2021)

Roadways: *total:* 175 km (2004)

paved: 82 km (2004)

unpaved: 93 km (2004)

country comparison to the world: 209

Merchant marine: *total:* 2

by type: other 2 (2021)

country comparison to the world: 173

Ports and terminals: *major seaport(s):* Blowing Point, Road Bay

MILITARY AND SECURITY

Military - note: defense is the responsibility of the UK

TRANSNATIONAL ISSUES

Disputes - international: none identified

Illicit drugs: transshipment point for South American narcotics destined for the US and Europe

ANTARCTICA

INTRODUCTION

Background: Speculation over the existence of a “southern land” was not confirmed until the early 1820s when British and American commercial operators and British and Russian national expeditions began exploring the Antarctic Peninsula region and other areas south of the Antarctic Circle. Not until 1840 was it established that Antarctica was indeed a continent and not merely a group of islands or an area of ocean. Several exploration “firsts” were achieved in the early 20th century, but generally the area saw little human activity. Following World War II, however, the continent experienced an upsurge in scientific research. A number of countries have set up a range of year-round and seasonal stations, camps, and refuges to support scientific research in Antarctica. Seven have made territorial claims and two maintain the basis for a claim, but most countries do not recognize these claims. In order to form a legal framework for the activities of nations on the continent, an Antarctic Treaty was negotiated that neither denies nor gives recognition to existing territorial claims; signed in 1959, it entered into force in 1961. Also relevant to Antarctic governance are the Environmental Protocol to the Antarctic Treaty and the Convention for the Conservation of Antarctic Marine Living Resources.

GEOGRAPHY

Location: continent mostly south of the Antarctic Circle

Geographic coordinates: 90 00 S, 0 00 E

Map references: Antarctic Region

Area: *total:* 14.2 million sq km

land: 14.2 million sq km (285,000 sq km ice-free, 13.915 million sq km ice-covered) (est.)

note: fifth-largest continent, following Asia, Africa, North America, and South America, but larger than Australia and the subcontinent of Europe

country comparison to the world: 2

Area - comparative: slightly less than 1.5 times the size of the US

Land boundaries: 0

note: see entry on Disputes - international

Coastline: 17,968 km

Maritime claims: Australia, Chile, and Argentina claim Exclusive Economic Zone (EEZ) rights or similar over 200 nm extensions seaward from their continental claims, but like the claims themselves, these zones are not accepted by other countries; 22 of 29 Antarctic Treaty consultative parties have made no claims to Antarctic territory, although Russia and the United States have reserved the right to do so, and no country can make a new claim; also see the Disputes - international entry

Climate: the coldest, windiest, and driest continent on Earth; severe low temperatures vary with latitude, elevation, and distance from the ocean; East Antarctica is colder than West Antarctica because of its higher elevation; Antarctic Peninsula has the most moderate climate; higher temperatures occur in January along the coast and average slightly below freezing; summers characterized by continuous daylight, while winters bring continuous darkness; persistent high pressure over the interior brings dry, subsiding air that results in very little cloud cover

Terrain: about 99% thick continental ice sheet and 1% barren rock, with average elevations between 2,000 and 4,000 m; mountain ranges up to nearly 5,000 m; ice-free coastal areas include parts of southern Victoria Land, Wilkes Land, the Antarctic Peninsula area, and parts of Ross Island on McMurdo Sound; glaciers form ice shelves along about half of the coastline, and floating ice shelves constitute 11% of the area of the continent

Elevation: *highest point:* Vinson Massif 4,892 m

lowest point: Denman Glacier more than -3,500 m (-11,500 ft) below sea level

mean elevation: 2,300 m

note: the lowest known land point in Antarctica is hidden in the Denman Glacier; at its surface is the deepest ice yet discovered and the world's lowest elevation not under seawater

Natural resources: iron ore, chromium, copper, gold, nickel, platinum and other minerals, and coal and hydrocarbons have been found in small noncommercial quantities; mineral exploitation except for scientific research is banned by the Environmental Protocol to the Antarctic Treaty; krill, icefish, toothfish, and crab have been taken by commercial fisheries, which are managed through the Commission for the Conservation of Antarctic Living Marine Resources (CCAMLR)

Land use: *agricultural land:* 0% (2018 est.)

Natural hazards: katabatic (gravity-driven) winds blow coastward from the high interior; frequent blizzards form near the foot of the plateau; cyclonic storms form over the ocean and move clockwise along the coast; large icebergs may calve from ice shelf

volcanism: volcanic activity on Deception Island and isolated areas of West Antarctica; other seismic activity rare and weak

Geography - note: the coldest, windiest, highest (on average), and driest continent; during summer, more solar radiation reaches the surface at the South Pole than is received at the Equator in an equivalent period

mostly uninhabitable, 99% of the land area is covered by the Antarctic

ice sheet, the largest single mass of ice on earth covering an area of 14 million sq km (5.4 million sq mi) and containing 26.5 million cu km (6.4 million cu mi) of ice (this is almost 62% of all of the world's fresh water); if all this ice were converted to liquid water, one estimate is that it would be sufficient to raise the height of the world's oceans by 58 m (190 ft)

PEOPLE AND SOCIETY

Population: no indigenous inhabitants, but there are both year-round and summer-only staffed research stations

note: 54 countries have signed the 1959 Antarctic Treaty; 30 of those operate through their National Antarctic Program a number of seasonal-only (summer) and year-round research stations on the continent and its nearby islands south of 60 degrees south latitude (the region covered by the Antarctic Treaty); the population engaging in and supporting science or managing and protecting the Antarctic region varies from approximately 5,000 in summer to 1,100 in winter; in addition, approximately 1,000 personnel, including ship's crew and scientists doing onboard research, are present in the waters of the treaty region

as of 2017, peak summer (December-February) maximum capacity in scientific stations - 4,877 total; Argentina 601, Australia 243, Belarus 12, Belgium 40, Brazil 66, Bulgaria 22, Chile 433, China 166, Czechia 20, Ecuador 34, Finland 17, France 90, France and Italy jointly 80, Germany 104, India 113, Italy 120, Japan 130, South Korea 130, Netherlands 10, NZ 86, Norway 70, Peru 30, Poland 40, Russia 335, South Africa 80, Spain 98, Sweden 20, Ukraine 24, UK 196, US 1,399, Uruguay 68 (2017)

winter (June-August) maximum capacity in scientific station - 1,036 total; Argentina 221, Australia 52, Brazil 15, Chile 114, China 32, France 24, France and Italy jointly 13, Germany 9, India 48, Japan 40, Netherlands 10, South Korea 25, NZ 11, Norway 7, Poland 16, Russia 125, South Africa 15, Ukraine 12, UK 44, US 215, Uruguay 8 (2017)

research stations operated within the Antarctic Treaty area (south of 60 degrees south latitude) by National Antarctic Programs year-round stations - approximately 40 total; Argentina 6, Australia 3, Brazil 1, Chile 6, China 2, France 1, France and Italy jointly 1, Germany 1, India 2, Japan 1, Netherlands 1, South Korea 2, NZ 1, Norway 1, Poland 1, Russia 5, South Africa 1, Ukraine 1, UK 2, US 3, Uruguay 2 (2017)

a range of seasonal-only (summer) stations, camps, and refuges - Argentina, Australia, Belarus, Belgium, Bulgaria, Brazil, Chile, China, Czechia, Ecuador, Finland, France, Germany, India, Italy, Japan,

Netherlands, South Korea, New Zealand, Norway, Peru, Poland, Russia, South Africa, Spain, Sweden, Ukraine, UK, US, and Uruguay (2017)

in addition, during the austral summer some nations have numerous occupied locations such as tent camps, summerlong temporary facilities, and mobile traverses in support of research

ENVIRONMENT

Environment - current issues: the discovery of a large Antarctic ozone hole in the earth's stratosphere (the ozone layer) - first announced in 1985 - spurred the signing of the Montreal Protocol in 1987, an international agreement phasing out the use of ozone-depleting chemicals; the ozone layer prevents most harmful wavelengths of ultra-violet (UV) light from passing through the earth's atmosphere; ozone depletion has been shown to harm a variety of Antarctic marine plants and animals (plankton); in 2016, a gradual trend toward "healing" of the ozone hole was reported; since the 1990s, satellites have shown accelerating ice loss driven by ocean change; although considerable uncertainty remains, scientists are increasing our understanding and ability to model potential impacts of ice loss

Climate: the coldest, windiest, and driest continent on Earth; severe low temperatures vary with latitude, elevation, and distance from the ocean; East Antarctica is colder than West Antarctica because of its higher elevation; Antarctic Peninsula has the most moderate climate; higher temperatures occur in January along the coast and average slightly below freezing; summers characterized by continuous daylight, while winters bring continuous darkness; persistent high pressure over the interior brings dry, subsiding air that results in very little cloud cover

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Antarctica

etymology: name derived from two Greek words meaning “opposite to the Arctic” or “opposite to the north”

Government type: Antarctic Treaty Summary - the Antarctic region is governed by a system known as the Antarctic Treaty system; the system includes: 1. the Antarctic Treaty, signed on 1 December 1959 and entered into force on 23 June 1961, which establishes the legal framework for the management of Antarctica, 2. Measures, Decisions, and Resolutions adopted at Antarctic Treaty Consultative Meetings, 3. The Convention for the Conservation of Antarctic Seals (1972), 4. The Convention for the Conservation of Antarctic Marine Living Resources (1980), and 5. The Protocol on Environmental Protection to the Antarctic Treaty (1991); the Antarctic Treaty Consultative Meetings operate by consensus (not by vote) of all consultative parties at annual Treaty meetings; by January 2022, there were 54 treaty member nations: 29 consultative and 25 non-consultative; consultative (decision-making) members include the seven nations that claim portions of Antarctica as national territory (some claims overlap) and 22 non-claimant nations; the US and Russia have reserved the right to make claims; the US does not recognize the claims of others; Antarctica is administered through meetings of the consultative member nations; measures adopted at these meetings are carried out by these member nations (with respect to their own nationals and operations) in accordance with their own national laws; the years in parentheses indicate when a consultative membership acceded to the Treaty and when it was accepted as a consultative member, while no date indicates the country was an original 1959 treaty signatory; claimant nations are - Argentina, Australia, Chile, France, NZ, Norway, and the UK; nonclaimant consultative nations are - Belgium, Brazil (1975/1983), Bulgaria (1978/1998), China (1983/1985), Czechia (1962/2014), Ecuador (1987/1990), Finland (1984/1989), Germany (1979/1981), India

(1983/1983), Italy (1981/1987), Japan, South Korea (1986/1989), Netherlands (1967/1990), Peru (1981/1989), Poland (1961/1977), Russia, South Africa, Spain (1982/1988), Sweden (1984/1988), Ukraine (1992/2004), Uruguay (1980/1985), and the US; non-consultative members, with year of accession in parentheses, are - Austria (1987), Belarus (2006), Canada (1988), Colombia (1989), Cuba (1984), Denmark (1965), Estonia (2001), Greece (1987), Guatemala (1991), Hungary (1984), Iceland (2015), Kazakhstan (2015), North Korea (1987), Malaysia (2011), Monaco (2008), Mongolia (2015), Pakistan (2012), Papua New Guinea (1981), Portugal (2010), Romania (1971), Slovakia (1962/1993), Slovenia (2019), Switzerland (1990), Turkey (1996), and Venezuela (1999); note - Czechoslovakia acceded to the Treaty in 1962 and separated into the Czech Republic and Slovakia in 1993; Article 1 - area to be used for peaceful purposes only; military activity, such as weapons testing, is prohibited, but military personnel and equipment may be used for scientific research or any other peaceful purpose; Article 2 - freedom of scientific investigation and cooperation shall continue; Article 3 - free exchange of information and personnel, cooperation with the UN and other international agencies; Article 4 - does not recognize, dispute, or establish territorial claims and no new claims shall be asserted while the treaty is in force; Article 5 - prohibits nuclear explosions or disposal of radioactive wastes; Article 6 - includes under the treaty all land and ice shelves south of 60 degrees 00 minutes south and reserves high seas rights; Article 7 - treaty-state observers have free access, including aerial observation, to any area and may inspect all stations, installations, and equipment; advance notice of all expeditions and of the introduction of military personnel must be given; Article 8 - allows for jurisdiction over observers and scientists by their own states; Article 9 - frequent consultative meetings take place among member nations; Article 10 - treaty states will discourage activities by any country in Antarctica that are contrary to the treaty; Article 11 - disputes to be settled peacefully by the parties concerned or, ultimately, by the International Court of Justice; Articles 12, 13, 14 - deal with upholding, interpreting, and amending the treaty among involved nations; other agreements - some 200 measures

adopted at treaty consultative meetings and approved by governments; the Protocol on Environmental Protection to the Antarctic Treaty was signed 4 October 1991 and entered into force 14 January 1998; this agreement provides for the protection of the Antarctic environment and includes five annexes that have entered into force: 1) environmental impact assessment, 2) conservation of Antarctic fauna and flora, 3) waste disposal and waste management, 4) prevention of marine pollution, 5) area protection and management; a sixth annex addressing liability arising from environmental emergencies has yet to enter into force; the Protocol prohibits all activities relating to mineral resources except scientific research; a permanent Antarctic Treaty Secretariat was established in 2004 in Buenos Aires, Argentina

Legal system: Antarctica is administered through annual meetings - known as Antarctic Treaty Consultative Meetings - which include consultative member nations, non-consultative member nations, observer organizations, and expert organizations; decisions from these meetings are carried out by these member nations (with respect to their own nationals and operations) in accordance with their own national laws; more generally, the Antarctic Treaty area, that is to all areas between 60 and 90 degrees south latitude, is subject to a number of relevant legal instruments and procedures adopted by the states party to the Antarctic Treaty; note - US law, including certain criminal offenses by or against US nationals, such as murder, may apply extraterritorially; some US laws directly apply to Antarctica; for example, the Antarctic Conservation Act, 16 U.S.C. section 2401 et seq., provides civil and criminal penalties for the following activities unless authorized by regulation or statute: the taking of native mammals or birds; the introduction of nonindigenous plants and animals; entry into specially protected areas; the discharge or disposal of pollutants; and the importation into the US of certain items from Antarctica; violation of the Antarctic Conservation Act carries penalties of up to \$10,000 in fines and one year in prison; the National Science Foundation and Department of Justice share enforcement responsibilities; Public Law 95-541, the US Antarctic Conservation Act of 1978, as amended in 1996, requires expeditions from the US to

Antarctica to notify, in advance, the Office of Oceans and Polar Affairs, Room 2665, Department of State, Washington, DC 20520, which reports such plans to other nations as required by the Antarctic Treaty; for more information, contact antarctica@state.gov

Flag description: unofficial; a True South flag, created in 2018, has quickly become popular for its simple yet elegant design and has been used by various National Antarctic Programs, Antarctic nonprofits, and expedition teams; the flag's meaning is described as: horizontal stripes of navy and white represent the long days and nights at Antarctica's extreme latitude; in the center, a lone white peak erupts from a field of snow and ice, echoing those of the bergs, mountains, and pressure ridges that define the Antarctic horizon; the long shadow it casts forms the unmistakable shape of a compass arrow pointed south, an homage to the continent's legacy of exploration; together, the two center shapes create a diamond, symbolizing the hope that Antarctica will continue to be a center of peace, discovery, and cooperation for generations to come

ECONOMY

Economic overview: Scientific undertakings rather than commercial pursuits are the predominant human activity in Antarctica. Offshore fishing and tourism, both based abroad, account for Antarctica's limited economic activity.

Antarctic Fisheries, within the area covered by the Convention on Conservation of Antarctic Marine Living Resources currently target Patagonian toothfish, Antarctic toothfish, mackerel icefish and Antarctic krill. The Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR) manages these fisheries using the ecosystem-based and precautionary approach. The Commission's objective is conservation of Antarctic marine living resources and it regulates the fisheries based on the level of information available, and maintaining existing ecological relationships. While Illegal, Unreported and Unregulated (IUU) fishing has declined in the Convention area since 1990, it remains a concern

A total of 73,670 tourists visited the Antarctic Treaty area in the 2019-2020 Antarctic summer, 32 percent greater than the 55,489 visitors in 2018-2019. These estimates were provided to the Antarctic Treaty by the International Association of Antarctica Tour Operators and do not include passengers on overflights. Nearly all of the tourists were passengers on commercial ships and several yachts that make trips during the summer.

ENERGY

Carbon dioxide emissions: 28,000 metric tonnes of CO₂ (2019 est.)
from petroleum and other liquids: 28,000 metric tonnes of CO₂ (2019 est.)
country comparison to the world: 214

COMMUNICATIONS

Telecommunication systems: *general assessment:* scientists with the United States Antarctic Program at McMurdo Station have now got their hands on a Starlink terminal of their own, where it is said to be improving connectivity as they carry out their research; this was made possible through laser links between the SpaceX satellites in orbit that eliminate the need for ground stations at the poles, and makes Antarctica the seventh and final continent to receive Starlink internet coverage (2022)

domestic: commercial cellular networks operating in a small number of locations (2019)

international: country code - none allocated; via satellite (including mobile Inmarsat and Iridium systems) to and from all research stations, ships, aircraft, and most field parties

Internet country code: .aq

Internet users: *total:* 4,400 (2016 est.)

percent of population: 100% (2016 est.)

country comparison to the world: 222

TRANSPORTATION

Airports: *total:* 17 (2021)

country comparison to the world: 141

Airports - with unpaved runways: *total:* 17

over 3,047 m: 4

2,438 to 3,047 m: 2

1,524 to 2,437 m: 2

914 to 1,523 m: 5

under 914 m: 4 (2021)

Heliports: 53 (2021)

note: all year-round and seasonal stations operated by National Antarctic Programs stations have some kind of helicopter landing facilities, prepared (helipads) or unprepared

Ports and terminals: most coastal stations have sparse and intermittent offshore anchorages; a few stations have basic wharf facilities

Transportation - note: US coastal stations include McMurdo (77 51 S, 166 40 E) and Palmer (64 43 S, 64 03 W); government use only; all ships are subject to inspection in accordance with Article 7, Antarctic Treaty; relevant legal instruments and authorization procedures adopted by the states parties to the Antarctic Treaty regulating the Antarctic Treaty area have to be complied with (see “Legal System”); The Hydrographic Commission on Antarctica (HCA), a commission of the International Hydrographic Organization (IHO), is responsible for hydrographic surveying and nautical charting matters in Antarctic Treaty area; it coordinates and facilitates provision of accurate and appropriate charts and other aids to navigation in support of safety of navigation in region; membership of HCA is open to any IHO Member State whose government has acceded to the Antarctic Treaty and which contributes resources or data to IHO Chart coverage of the area

MILITARY AND SECURITY

Military - note: the Antarctic Treaty of 1961 prohibits any measures of a military nature, such as the establishment of military bases and fortifications, the carrying out of military maneuvers, or the testing of any type of weapon; it permits the use of military personnel or equipment for scientific research or for any other peaceful purposes

TRANSNATIONAL ISSUES

Disputes - international: the Antarctic Treaty freezes, and most states do not recognize, the land and maritime territorial claims made by Argentina, Australia, Chile, France, New Zealand, Norway, and the UK (some overlapping) for three-fourths of the continent; the US and Russia reserve the right to make claims

ANTIGUA AND BARBUDA

INTRODUCTION

Background: The Siboney were the first people to inhabit the islands of Antigua and Barbuda in 2400 B.C., but Arawak Indians populated the islands when Christopher COLUMBUS landed on his second voyage in 1493. Early Spanish and French settlements were succeeded by an English colony in 1667. Slavery, to provide labor on the sugar plantations on Antigua, was abolished in 1834. The islands became an independent state within the British Commonwealth of Nations in 1981. On 6 September 2017, Hurricane Irma passed over the island of Barbuda devastating the island and forcing the evacuation of the population to Antigua. Almost all of the structures on Barbuda were destroyed and the vegetation stripped, but Antigua was spared the worst.

GEOGRAPHY

Location: Caribbean, islands between the Caribbean Sea and the North Atlantic Ocean, east-southeast of Puerto Rico

Geographic coordinates: 17 03 N, 61 48 W

Map references: Central America and the Caribbean

Area: *total:* 443 sq km (Antigua 280 sq km; Barbuda 161 sq km)

land: 443 sq km

water: 0 sq km

note: includes Redonda, 1.6 sq km

country comparison to the world: 200

Area - comparative: 2.5 times the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 153 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

continental shelf: 200 nm or to the edge of the continental margin

Climate: tropical maritime; little seasonal temperature variation

Terrain: mostly low-lying limestone and coral islands, with some higher volcanic areas

Elevation: *highest point:* Mount Obama 402 m

lowest point: Caribbean Sea 0 m

Natural resources: NEGL; pleasant climate fosters tourism

Land use: *agricultural land:* 20.5% (2018 est.)

arable land: 9% (2018 est.)

permanent crops: 2.3% (2018 est.)

permanent pasture: 9% (2018 est.)

forest: 18.8% (2018 est.)

other: 60.8% (2018 est.)

Irrigated land: 1.3 sq km (2012)

Population distribution: the island of Antigua is home to approximately 97% of the population; nearly the entire population of Barbuda lives in Codrington

Natural hazards: hurricanes and tropical storms (July to October); periodic droughts

Geography - note: Antigua has a deeply indented shoreline with many natural harbors and beaches; Barbuda has a large western harbor

PEOPLE AND SOCIETY

Population: 100,335 (2022 est.)

country comparison to the world: 196

Nationality: *noun:* Antiguan(s), Barbudan(s)

adjective: Antiguan, Barbudan

Ethnic groups: African descent 87.3%, mixed 4.7%, Hispanic 2.7%, White 1.6%, other 2.7%, unspecified 0.9% (2011 est.)

note: data represent population by ethnic group

Languages: English (official), Antiguan creole

Religions: Protestant 68.3% (Anglican 17.6%, Seventh Day Adventist 12.4%, Pentecostal 12.2%, Moravian 8.3%, Methodist 5.6%, Wesleyan Holiness 4.5%, Church of God 4.1%, Baptist 3.6%), Roman Catholic 8.2%, other 12.2%, unspecified 5.5%, none 5.9% (2011 est.)

Age structure: 0-14 years: 22.52% (male 11,243/female 10,871)

15-24 years: 16.15% (male 7,891/female 7,961)

25-54 years: 41.68% (male 18,757/female 22,167)

55-64 years: 10.74% (male 4,693/female 5,848)

65 years and over: 8.91% (male 3,736/female 5,012) (2020 est.)

Dependency ratios: *total dependency ratio:* 45.3

youth dependency ratio: 31.8

elderly dependency ratio: 13.6

potential support ratio: 7.4 (2020 est.)

Median age: *total:* 32.7 years

male: 30.7 years

female: 34.4 years (2020 est.)

country comparison to the world: 106

Population growth rate: 1.15% (2022 est.)

country comparison to the world: 82

Birth rate: 15.16 births/1,000 population (2022 est.)

country comparison to the world: 115

Death rate: 5.65 deaths/1,000 population (2022 est.)

country comparison to the world: 176

Net migration rate: 2.03 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 49

Population distribution: the island of Antigua is home to approximately 97% of the population; nearly the entire population of Barbuda lives in Codrington

Urbanization: *urban population:* 24.3% of total population (2022)

rate of urbanization: 0.87% annual rate of change (2020-25 est.)

Major urban areas - population: 21,000 SAINT JOHN'S (capital) (2018)

Sex ratio: *at birth:* 1.05 male(s)/female

0-14 years: 1.03 male(s)/female

15-24 years: 0.99 male(s)/female

25-54 years: 0.85 male(s)/female

55-64 years: 0.8 male(s)/female

65 years and over: 0.64 male(s)/female

total population: 0.89 male(s)/female (2022 est.)

Infant mortality rate: *total:* 14.3 deaths/1,000 live births

male: 17.27 deaths/1,000 live births

female: 11.17 deaths/1,000 live births (2022 est.)

country comparison to the world: 106

Life expectancy at birth: *total population:* 77.8 years

male: 75.63 years

female: 80.08 years (2022 est.)

country comparison to the world: 83

Total fertility rate: 1.95 children born/woman (2022 est.)

country comparison to the world: 114

Drinking water source: *improved: total:* 96.7% of population

unimproved: total: 3.2% of population (2017 est.)

Current health expenditure: 4.4% of GDP (2019)

Physicians density: 2.76 physicians/1,000 population (2017)

Hospital bed density: 2.9 beds/1,000 population (2017)

Sanitation facility access: *improved: total:* 91.7% of population
unimproved: total: 8.1% of population (2017 est.)

HIV/AIDS - adult prevalence rate: 1.1% (2018 est.)

country comparison to the world: 37

Obesity - adult prevalence rate: 18.9% (2016)

country comparison to the world: 113

Alcohol consumption per capita: *total:* 11.88 liters of pure alcohol
(2019 est.)

beer: 2.97 liters of pure alcohol (2019 est.)

wine: 3.95 liters of pure alcohol (2019 est.)

spirits: 4.55 liters of pure alcohol (2019 est.)

other alcohols: 0.41 liters of pure alcohol (2019 est.)

country comparison to the world: 6

Education expenditures: 3.3% of GDP (2020 est.)

country comparison to the world: 135

Literacy: *definition:* age 15 and over has completed five or more years of schooling

total population: 99%

male: 98.4%

female: 99.4% (2015)

School life expectancy (primary to tertiary education): *total:* 15 years

male: 14 years

female: 16 years (2012)

ENVIRONMENT

Environment - current issues: water management - a major concern because of limited natural freshwater resources - is further hampered by the clearing of trees to increase crop production, causing rainfall to run off quickly

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Marine Dumping-London Protocol, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Wetlands, Whaling
signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 17.92 micrograms per cubic meter (2016 est.)
carbon dioxide emissions: 0.56 megatons (2016 est.)
methane emissions: 0.22 megatons (2020 est.)

Climate: tropical maritime; little seasonal temperature variation

Land use: *agricultural land:* 20.5% (2018 est.)
arable land: 9% (2018 est.)
permanent crops: 2.3% (2018 est.)
permanent pasture: 9% (2018 est.)
forest: 18.8% (2018 est.)
other: 60.8% (2018 est.)

Urbanization: *urban population:* 24.3% of total population (2022)
rate of urbanization: 0.87% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0% of GDP (2018 est.)
country comparison to the world: 161

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 56

Waste and recycling: *municipal solid waste generated annually:*
30,585 tons (2012 est.)

Total water withdrawal: *municipal:* 7.2 million cubic meters (2017 est.)

industrial: 2.5 million cubic meters (2017 est.)

agricultural: 1.8 million cubic meters (2017 est.)

Total renewable water resources: 52 million cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Antigua and Barbuda

etymology: “antiguo” is Spanish for “ancient” or “old”; the island was discovered by Christopher COLUMBUS in 1493 and, according to tradition, named by him after the church of Santa Maria la Antigua (Old Saint Mary’s) in Seville; “barbuda” is Spanish for “bearded” and the adjective may refer to the alleged beards of the indigenous people or to the island’s bearded fig trees

Government type: parliamentary democracy under a constitutional monarchy; a Commonwealth realm

Capital: *name:* Saint John’s

geographic coordinates: 17 07 N, 61 51 W

time difference: UTC-4 (1 hour ahead of Washington, DC, during Standard Time)

etymology: named after Saint John the Apostle

Administrative divisions: 6 parishes and 2 dependencies*; Barbuda*, Redonda*, Saint George, Saint John, Saint Mary, Saint Paul, Saint Peter, Saint Philip

Independence: 1 November 1981 (from the UK)

National holiday: Independence Day, 1 November (1981)

Constitution: *history:* several previous; latest presented 31 July 1981, effective 31 October 1981 (The Antigua and Barbuda Constitution Order 1981)

amendments: proposed by either house of Parliament; passage of amendments to constitutional sections such as citizenship, fundamental rights and freedoms, the establishment, power, and authority of the executive and legislative branches, the Supreme Court Order, and the procedure for amending the constitution requires approval by at least two-thirds majority vote of the membership of both houses, approval by at

least two-thirds majority in a referendum, and assent to by the governor general; passage of other amendments requires only two-thirds majority vote by both houses; amended 2009, 2011, 2018

Legal system: common law based on the English model

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* yes

citizenship by descent only: yes

dual citizenship recognized: yes

residency requirement for naturalization: 7 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022); represented by Governor General Rodney WILLIAMS (since 14 August 2014)

head of government: Prime Minister Gaston BROWNE (since 13 June 2014)

cabinet: Council of Ministers appointed by the governor general on the advice of the prime minister

elections/appointments: the monarchy is hereditary; governor general appointed by the monarch on the advice of the prime minister; following legislative elections, the leader of the majority party or majority coalition usually appointed prime minister by the governor general

Legislative branch: *description:* bicameral Parliament consists of:

Senate (17 seats; members appointed by the governor general)

House of Representatives (18 seats; members directly elected in single-seat constituencies by simple majority vote to serve 5-year terms)

elections:

Senate - last appointed on 26 March 2018 (next NA)

House of Representatives - last held on 21 March 2018 (next to be held in March 2023)

election results:

Senate - composition - men 8, women 9, percent of women 52.9%

House of Representatives - percent of vote by party - ABLP 59.4%, UPP 37.2%, BPM 1.4%, other 1.9% ; seats by party - ABLP 15, UPP 1, BPM 1; composition - men 16, women 2, percent of women 11.1%; note - total Parliament percent of women 31.4%

Judicial branch: *highest court(s):* the Eastern Caribbean Supreme Court (ECSC) is the superior court of the Organization of Eastern Caribbean States; the ECSC - headquartered on St. Lucia - consists of the Court of Appeal - headed by the chief justice and 4 judges - and the High Court with 18 judges; the Court of Appeal is itinerant, travelling to member states on a schedule to hear appeals from the High Court and subordinate courts; High Court judges reside in the member states, with 2 assigned to Antigua and Barbuda

judge selection and term of office: chief justice of Eastern Caribbean Supreme Court appointed by the Her Majesty, Queen ELIZABETH II; other justices and judges appointed by the Judicial and Legal Services Commission; Court of Appeal justices appointed for life with mandatory retirement at age 65; High Court judges appointed for life with mandatory retirement at age 62

subordinate courts: Industrial Court; Magistrates' Courts

Political parties and leaders: Antigua Labor Party or ABLP [Gaston BROWNE]

Barbuda People's Movement or BPM [Trevor WALKER]

Democratic National Alliance or DNA [Joanne MASSIAH]

Go Green for Life or GGL [Owen GEORGE]

United Progressive Party or UPP [Harold LOVELL]

International organization participation: ACP, AOSIS, C, Caricom, CDB, CELAC, FAO, G-77, IBRD, ICAO, ICC (NGOs), ICCT, ICRM, IDA, IFAD, IFC, IFRCs, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, ISO (subscriber), ITU, ITUC (NGOs), MIGA, NAM (observer), OAS, OECS, OPANAL, OPCW, Petrocaribe, UN, UNCTAD, UNESCO, UPU, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Sir Ronald SANDERS (since 17 September 2015)

chancery: 3234 Prospect Street NW, Washington, DC 20007

telephone: [1] (202) 362-5122

FAX: [1] (202) 362-5225

email address and website:

embantbar@aol.com

consulate(s) general: Miami, New York

Diplomatic representation from the US: *embassy:* the US does not have an embassy in Antigua and Barbuda; the US Ambassador to Barbados is accredited to Antigua and Barbuda; [1] (246) 227-4000

Flag description: red, with an inverted isosceles triangle based on the top edge of the flag; the triangle contains three horizontal bands of black (top), light blue, and white, with a yellow rising sun in the black band; the sun symbolizes the dawn of a new era, black represents the African heritage of most of the population, blue is for hope, and red is for the dynamism of the people; the “V” stands for victory; the successive yellow, blue, and white coloring is also meant to evoke the country’s tourist attractions of sun, sea, and sand

National symbol(s): fallow deer; national colors: red, white, blue, black, yellow

National anthem: *name:* Fair Antigua, We Salute Thee

lyrics/music: Novelle Hamilton RICHARDS/Walter Garnet Picart CHAMBERS

note: adopted 1967; as a Commonwealth country, in addition to the national anthem, “God Save the King” serves as the royal anthem (see United Kingdom)

National heritage: *total World Heritage Sites:* 1 (cultural)

selected World Heritage Site locales: Antigua Naval Dockyard

ECONOMY

Economic overview: Tourism continues to dominate Antigua and Barbuda's economy, accounting for nearly 60% of GDP and 40% of investment. The dual-island nation's agricultural production is focused on the domestic market and constrained by a limited water supply and a labor shortage stemming from the lure of higher wages in tourism and construction. Manufacturing comprises enclave-type assembly for export with major products being bedding, handicrafts, and electronic components.

Like other countries in the region, Antigua's economy was severely hit by effects of the global economic recession in 2009. The country suffered from the collapse of its largest private sector employer, a steep decline in tourism, a rise in debt, and a sharp economic contraction between 2009 and 2011. Antigua has not yet returned to its pre-crisis growth levels. Barbuda suffered significant damages after hurricanes Irma and Maria passed through the Caribbean in 2017.

Prospects for economic growth in the medium term will continue to depend on tourist arrivals from the US, Canada, and Europe and could be disrupted by potential damage from natural disasters. The new government, elected in 2014 and led by Prime Minister Gaston Browne, continues to face significant fiscal challenges. The government places some hope in a new Citizenship by Investment Program, to both reduce public debt levels and spur growth, and a resolution of a WTO dispute with the US.

Real GDP (purchasing power parity): \$1.76 billion (2020 est.)

\$2.09 billion (2019 est.)

\$2.02 billion (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 198

Real GDP growth rate: 2.8% (2017 est.)

5.3% (2016 est.)

4.1% (2015 est.)

country comparison to the world: 102

Real GDP per capita: \$18,000 (2020 est.)

\$21,500 (2019 est.)

\$21,000 (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 94

GDP (official exchange rate): \$1.524 billion (2017 est.)

Inflation rate (consumer prices): 2.5% (2017 est.)

-0.5% (2016 est.)

country comparison to the world: 126

GDP - composition, by sector of origin: *agriculture:* 1.8% (2017 est.)

industry: 20.8% (2017 est.)

services: 77.3% (2017 est.)

GDP - composition, by end use: *household consumption:* 53.5% (2017 est.)

government consumption: 15.2% (2017 est.)

investment in fixed capital: 23.9% (2017 est.)

investment in inventories: 0.1% (2017 est.)

exports of goods and services: 73.9% (2017 est.)

imports of goods and services: -66.5% (2017 est.)

Agricultural products: tropical fruit, milk, mangoes/guavas, melons, tomatoes, pineapples, lemons, limes, eggplants, onions

Industries: tourism, construction, light manufacturing (clothing, alcohol, household appliances)

Industrial production growth rate: 6.8% (2017 est.)

country comparison to the world: 32

Labor force: 30,000 (1991)

country comparison to the world: 203

Labor force - by occupation: *agriculture:* 7%

industry: 11%

services: 82% (1983 est.)

Unemployment rate: 11% (2014 est.)

country comparison to the world: 155

Budget: *revenues:* 298.2 million (2017 est.)

expenditures: 334 million (2017 est.)

Budget surplus (+) or deficit (-): -2.4% (of GDP) (2017 est.)

country comparison to the world: 112

Public debt: 86.8% of GDP (2017 est.)

86.2% of GDP (2016 est.)

country comparison to the world: 30

Taxes and other revenues: 19.6% (of GDP) (2017 est.)

country comparison to the world: 154

Fiscal year: 1 April - 31 March

Current account balance: -\$112 million (2017 est.)

ENERGY

Electricity access: *electrification - total population:* 100% (2020)

Electricity: *installed generating capacity:* 117,000 kW (2020 est.)

consumption: 278 million kWh (2019 est.)

exports: 0 kWh (2020 est.)

imports: 0 kWh (2020 est.)

transmission/distribution losses: 65 million kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 95.4% of total installed capacity (2020 est.)

solar: 4.6% of total installed capacity (2020 est.)

Petroleum: *total petroleum production:* 0 bbl/day (2021 est.)

refined petroleum consumption: 5,000 bbl/day (2019 est.)

Refined petroleum products - exports: 91 bbl/day (2015 est.)

country comparison to the world: 119

Refined petroleum products - imports: 5,065 bbl/day (2015 est.)

country comparison to the world: 172

Carbon dioxide emissions: 729,000 metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 729,000 metric tonnes of CO₂ (2019 est.)

country comparison to the world: 182

Energy consumption per capita: 107.154 million Btu/person (2019 est.)

country comparison to the world: 52

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 27,000 (2020 est.)

subscriptions per 100 inhabitants: 28 (2020 est.)

country comparison to the world: 170

Telephones - mobile cellular: *total subscriptions:* 184,000 (2020 est.)

subscriptions per 100 inhabitants: 188 (2020 est.)

country comparison to the world: 184

Telecommunication systems: *general assessment:* the telecom sector has seen a decline in subscriber numbers (particularly for prepaid mobile services the mainstay of short term visitors) and revenue; fixed and mobile broadband services are two areas that have benefited from the crisis as employees and students have resorted to working from home; one area of the telecom market that is not prepared for growth is 5G mobile; governments, regulators, and even the mobile network operators have shown that they have not been investing in 5G opportunities at the present time; network expansion and enhancements remain concentrated around improving LTE coverage (2021)

domestic: fixed-line teledensity roughly 28 per 100 persons; mobile-cellular teledensity is about 188 per 100 persons (2020)

international: country code - 1-268; landing points for the ECFS and Southern Caribbean Fiber submarine cable systems with links to other islands in the eastern Caribbean; satellite earth stations - 1 Intelsat (Atlantic Ocean) (2019)

Broadcast media: state-controlled Antigua and Barbuda Broadcasting Service (ABS) operates 1 TV station; multi-channel cable TV subscription services are available; ABS operates 1 radio station; roughly 15 radio stations, some broadcasting on multiple frequencies

Internet country code: .ag

Internet users: *total:* 73,807 (2019 est.)

percent of population: 76% (2019 est.)

country comparison to the world: 185

Broadband - fixed subscriptions: *total:* 8,000 (2020 est.)

subscriptions per 100 inhabitants: 8 (2020 est.)

country comparison to the world: 181

TRANSPORTATION

National air transport system: *number of registered air carriers:* 1 (2020)

inventory of registered aircraft operated by air carriers: 10

annual passenger traffic on registered air carriers: 580,174 (2018)

annual freight traffic on registered air carriers: 290,000 (2018) mt-km

Civil aircraft registration country code prefix: V2

Airports: *total:* 3 (2021)

country comparison to the world: 192

Airports - with paved runways: *total:* 2

2,438 to 3,047 m: 1

under 914 m: 1 (2021)

Airports - with unpaved runways: *total:* 1

under 914 m: 1 (2021)

Roadways: *total:* 1,170 km (2011)

paved: 386 km (2011)

unpaved: 784 km (2011)

country comparison to the world: 180

Merchant marine: *total:* 677

by type: bulk carrier 24, container ship 123, general cargo 473, oil tanker 2, other 55 (2021)

country comparison to the world: 35

Ports and terminals: *major seaport(s):* Saint John's

MILITARY AND SECURITY

Military and security forces: Antigua and Barbuda Defense Force (ABDF): Coast Guard and the Antigua and Barbuda Regiment (2022)

Military expenditures: not available

Military and security service personnel strengths: approximately 200 active military personnel (2022)

Military equipment inventories and acquisitions: the ABDF's equipment inventory is limited to small arms, light weapons, and soft-skin vehicles; the Coast Guard maintains ex-US patrol vessels and some smaller boats (2022)

Military service age and obligation: 18-23 years of age for voluntary military service for both men and women; no conscription (2022)

Military - note: has been a member of the Caribbean Regional Security System (RSS) since its creation in 1982; RSS signatories (Barbados, Dominica, Grenada, Saint Kitts, Saint Lucia, and Saint Vincent and the Grenadines) agreed to prepare contingency plans and assist one another, on request, in national emergencies, prevention of smuggling, search and rescue, immigration control, fishery protection, customs and excise control, maritime policing duties, protection of offshore installations, pollution control, national and other disasters, and threats to national security (2022)

TRANSNATIONAL ISSUES

Disputes - international: none identified

Illicit drugs: a transit point for cocaine and marijuana destined for North America, Europe, and elsewhere in the Caribbean

ARCTIC OCEAN

INTRODUCTION

Background: The Arctic Ocean is the smallest of the world's five oceans (after the Pacific Ocean, Atlantic Ocean, Indian Ocean, and the Southern Ocean). The Northwest Passage (US and Canada) and Northern Sea Route (Norway and Russia) are two important seasonal waterways. In recent years the polar ice pack has receded in the summer allowing for increased navigation and raising the possibility of future sovereignty and shipping disputes among the six countries bordering the Arctic Ocean (Canada, Denmark (Greenland), Iceland, Norway, Russia, US).

GEOGRAPHY

Location: body of water between Europe, Asia, and North America, mostly north of the Arctic Circle

Geographic coordinates: 90 00 N, 0 00 E

Map references: Arctic Region

Area: *total:* 15.558 million sq km

note: includes Barents Sea, Beaufort Sea, Chukchi Sea, East Siberian Sea, Greenland Sea, Kara Sea, Laptev Sea, Northwest Passage, Norwegian Sea, and other tributary water bodies

Area - comparative: slightly less than 1.5 times the size of the US

Coastline: 45,389 km

Climate: polar climate characterized by persistent cold and relatively narrow annual temperature range; winters characterized by continuous darkness, cold and stable weather conditions, and clear skies; summers characterized by continuous daylight, damp and foggy weather, and weak cyclones with rain or snow

Ocean volume: *ocean volume:* 18.75 million cu km

percent of World Ocean total volume: 1.4%

Major ocean currents: two major, slow-moving, wind-driven currents (drift streams) dominate: a clockwise drift pattern in the Beaufort Gyre in the western part of the Arctic Ocean and a nearly straight line Transpolar Drift Stream that moves eastward across the ocean from the New Siberian Islands (Russia) to the Fram Strait (between Greenland and Svalbard); sea ice that lies close to the center of the gyre can complete a 360 degree circle in about 2 years, while ice on the gyre periphery will complete the same circle in about 7-8 years; sea ice in the Transpolar Drift crosses the ocean in about 3 years

Elevation: *highest point:* sea level

lowest point: Molloy Deep -5,577 m

mean depth: -1,205 m

Natural resources: sand and gravel aggregates, placer deposits, polymetallic nodules, oil and gas fields, fish, marine mammals (seals and whales)

Natural hazards: ice islands occasionally break away from northern Ellesmere Island; icebergs calved from glaciers in western Greenland and extreme northeastern Canada; permafrost in islands; virtually ice locked from October to June; ships subject to superstructure icing from October to May

Geography - note: major chokepoint is the southern Chukchi Sea (northern access to the Pacific Ocean via the Bering Strait); strategic location between North America and Russia; shortest marine link between the extremes of eastern and western Russia; floating research stations operated by the US and Russia; maximum snow cover in March or April about 20 to 50 centimeters over the frozen ocean; snow cover lasts about 10 months

ENVIRONMENT

Environment - current issues: climate change; changes in biodiversity; water pollution from use of toxic chemicals; endangered marine species include walruses and whales; fragile ecosystem slow to change and slow to recover from disruptions or damage; thinning polar icepack

Marine fisheries: the Arctic fishery region (Region 18) is the smallest in the world with a catch of only 515 mt in 2019, although the Food and Agriculture Organization assesses that some Arctic catches are reported in adjacent regions; Russia and Canada were historically the major producers; in 2017, Canada, Denmark (Greenland), Iceland, Norway, Russia, and the US, along with the People's Republic of China, the European Union, Japan, and the Republic of Korea, agreed to a 16 year ban on fishing in the Central Arctic Ocean to allow for time to study the ecological system of these waters

Regional fisheries bodies: International Council for the Exploration of the Seas

Climate: polar climate characterized by persistent cold and relatively narrow annual temperature range; winters characterized by continuous darkness, cold and stable weather conditions, and clear skies; summers characterized by continuous daylight, damp and foggy weather, and weak cyclones with rain or snow

GOVERNMENT

Country name: *etymology:* the name Arctic comes from the Greek word “arktikos” meaning “near the bear” or “northern,” and that word derives from “arktos,” meaning “bear”; the name refers either to the constellation Ursa Major, the “Great Bear,” which is prominent in the northern celestial sphere, or to the constellation Ursa Minor, the “Little Bear,” which contains Polaris, the North (Pole) Star

ECONOMY

Economic overview: Economic activity is limited to the exploitation of natural resources, including petroleum, natural gas, fish, and seals.

TRANSPORTATION

Ports and terminals: *major seaport(s)*: Churchill (Canada), Murmansk (Russia), Prudhoe Bay (US)

Transportation - note: sparse network of air, ocean, river, and land routes; the Northwest Passage (North America) and Northern Sea Route (Eurasia) are important seasonal waterways

TRANSNATIONAL ISSUES

Disputes - international: record summer melting of sea ice in the Arctic has renewed interest in maritime shipping lanes and sea floor exploration

Canada-US: dispute how to divide the Beaufort Sea and the status of the Northwest Passage but continue to work cooperatively to survey the Arctic continental shelf

Canada-Denmark (Greenland)-Norway: have made submissions to the UN Commission on the Limits of the Continental shelf (CLCS)

Norway-Russia: signed a comprehensive maritime boundary agreement in 2010; Russia has augmented its 2001 CLCS submission:

ARGENTINA

INTRODUCTION

Background: In 1816, the United Provinces of the Rio Plata declared their independence from Spain. After Bolivia, Paraguay, and Uruguay went their separate ways, the area that remained became Argentina. The country's population and culture were heavily shaped by immigrants from throughout Europe, with Italy and Spain providing the largest percentage of newcomers from 1860 to 1930. Up until about the mid-20th century, much of Argentina's history was dominated by periods of internal political unrest and conflict between civilian and military factions.

After World War II, an era of populism under former President Juan Domingo PERON - the founder of the Peronist political movement and direct and indirect military interference in subsequent governments was followed by a military junta that took power in 1976. Democracy returned in 1983 after a failed bid to seize the Falkland Islands (Islas Malvinas) by force, and has persisted despite numerous challenges, the most formidable of which was a severe economic crisis in 2001-02 that led to violent public protests and the successive resignations of several presidents. The years 2003-15 saw Peronist rule by Nestor KIRCHNER (2003-07) and his spouse Cristina FERNANDEZ DE KIRCHNER (2007-15), who oversaw several years of strong economic growth (2003-11) followed by a gradual deterioration in the government's fiscal situation and eventual economic stagnation and isolation. Argentina underwent a brief period of economic reform and international reintegration under Mauricio MACRI (2015-19), but a recession in 2018-19 and frustration with MACRI's economic policies ushered in a new Peronist government in 2019 led by President Alberto FERNANDEZ and Vice President FERNANDEZ DE KIRCHNER. Presidential elections will take place next in 2023.

GEOGRAPHY

Location: Southern South America, bordering the South Atlantic Ocean, between Chile and Uruguay

Geographic coordinates: 34 00 S, 64 00 W

Map references: South America

Area: *total:* 2,780,400 sq km

land: 2,736,690 sq km

water: 43,710 sq km

country comparison to the world: 9

Area - comparative: slightly less than three-tenths the size of the US

Land boundaries: *total:* 11,968 km

border countries (5): Bolivia 942 km; Brazil 1,263 km; Chile 6,691 km; Paraguay 2,531 km; Uruguay 541 km

Coastline: 4,989 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

continental shelf: 200 nm or to the edge of the continental margin

Climate: mostly temperate; arid in southeast; subantarctic in southwest

Terrain: rich plains of the Pampas in northern half, flat to rolling plateau of Patagonia in south, rugged Andes along western border

Elevation: *highest point:* Cerro Aconcagua (located in the northwestern corner of the province of Mendoza; highest point in South America) 6,962 m

lowest point: Laguna del Carbon (located between Puerto San Julian and Comandante Luis Piedra Buena in the province of Santa Cruz) -105 m

mean elevation: 595 m

Natural resources: fertile plains of the pampas, lead, zinc, tin, copper, iron ore, manganese, petroleum, uranium, arable land

Land use: *agricultural land:* 53.9% (2018 est.)

arable land: 13.9% (2018 est.)

permanent crops: 0.4% (2018 est.)

permanent pasture: 39.6% (2018 est.)

forest: 10.7% (2018 est.)

other: 35.4% (2018 est.)

Irrigated land: 23,600 sq km (2012)

Major lakes (area sq km): *fresh water lake(s):* Lago Buenos Aires (shared with Chile) - 2,240 sq km; Lago Argentino - 1,410 sq km; Lago Viedma - 1,090 sq km; Lago San Martin (shared with Chile) - 1,010 sq km; Lago Colhue Huapi - 800 sq km; Lago Fagnano (shared with Chile) - 590 sq km; Lago Nahuel Huapi - 550 sq km

salt water lake(s): Laguna Mar Chiquita - 1,850 sq km;

Major rivers (by length in km): Rio de la Plata/Parana river mouth (shared with Brazil [s], Paraguay, and Uruguay) - 4,880 km; Paraguay (shared with Brazil [s], and Paraguay [m]) - 2,549 km; Uruguay (shared with Brazil [s] and Uruguay [m]) - 1,610 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km):

Atlantic Ocean drainage: Paraná (2,582,704 sq km)

Major aquifers: Guaraní Aquifer System

Population distribution: one-third of the population lives in Buenos Aires; pockets of agglomeration occur throughout the northern and central parts of the country; Patagonia to the south remains sparsely populated

Natural hazards: San Miguel de Tucuman and Mendoza areas in the Andes subject to earthquakes; pamperos are violent windstorms that can strike the pampas and northeast; heavy flooding in some areas

volcanism: volcanic activity in the Andes Mountains along the Chilean border; Copahue (2,997 m) last erupted in 2000; other historically active volcanoes include Llullaillaco, Maipo, Planchon-Peteroa, San Jose,

Tromen, Tupungatito, and Viedma

Geography - note: *note 1:* second-largest country in South America (after Brazil); strategic location relative to sea lanes between the South Atlantic and the South Pacific Oceans (Strait of Magellan, Beagle Channel, Drake Passage); diverse geophysical landscapes range from tropical climates in the north to tundra in the far south; Cerro Aconcagua is the Western Hemisphere's tallest mountain, while Laguna del Carbon is the lowest point in the Western Hemisphere; shares Iguazu Falls, the world's largest waterfalls system, with Brazil

note 2: southeast Bolivia and northwest Argentina seem to be the original development site for peanuts

PEOPLE AND SOCIETY

Population: 46,245,668 (2022 est.)

country comparison to the world: 32

Nationality: *noun:* Argentine(s)

adjective: Argentine

Ethnic groups: European (mostly Spanish and Italian descent) and Mestizo (mixed European and Amerindian ancestry) 97.2%, Amerindian 2.4%, African descent 0.4% (2010 est.)

Languages: Spanish (official), Italian, English, German, French, indigenous (Mapudungun, Quechua)

major-language sample(s):

La Libreta Informativa del Mundo, la fuente indispensable de información básica. (Spanish)

Religions: Roman Catholic 62.9%, Evangelical 15.3% (Pentecostal 13%, other Evangelical 2.3%), Jehovah's Witness and Church of Jesus Christ 1.4%, other 1.2% (includes Muslim, Jewish), none 18.9% (includes agnostic and atheist), unspecified 0.3% (2019 est.)

Demographic profile: Argentina's population continues to grow but at a slower rate because of its steadily declining birth rate. Argentina's fertility decline began earlier than in the rest of Latin America, occurring most rapidly between the early 20th century and the 1950s, and then becoming more gradual. Life expectancy has been improving, most notably among the young and the poor. While the population under age 15 is shrinking, the youth cohort - ages 15-24 - is the largest in Argentina's history and will continue to bolster the working-age population. If this large working-age population is well-educated and gainfully employed, Argentina is likely to experience an economic boost and possibly higher per capita savings and investment. Although literacy and primary school enrollment are nearly universal, grade repetition is problematic and secondary school completion is low. Both of these issues vary widely by region and socioeconomic group.

Argentina has been primarily a country of immigration for most of its history, welcoming European immigrants (often providing needed low-skilled labor) after its independence in the 19th century and attracting especially large numbers from Spain and Italy. More than 7 million European immigrants are estimated to have arrived in Argentina between 1880 and 1930, when it adopted a more restrictive immigration policy. European immigration also began to wane in the 1930s because of the global depression. The inflow rebounded temporarily following WWII and resumed its decline in the 1950s when Argentina's military dictators tightened immigration rules and European economies rebounded. Regional migration increased, however, supplying low-skilled workers escaping economic and political instability in their home countries. As of 2015, immigrants made up almost 5% of Argentina's population, the largest share in South America. Migration from neighboring countries accounted for approximately 80% of Argentina's immigrant population in 2015.

The first waves of highly skilled Argentine emigrant workers headed mainly to the United States and Spain in the 1960s and 1970s, driven by economic decline and repressive military dictatorships. The 2008 European economic crisis drove the return migration of some Argentinean and other Latin American nationals, as well as the immigration of Europeans to South America, where Argentina was a key recipient. In 2015, Argentina received the highest number of legal migrants in Latin America and the Caribbean. The majority of its migrant inflow came from Paraguay and Bolivia.

Age structure: 0-14 years: 24.02% (male 5,629,188/female 5,294,723)
15-24 years: 15.19% (male 3,539,021/female 3,367,321)
25-54 years: 39.6% (male 9,005,758/female 9,002,931)
55-64 years: 9.07% (male 2,000,536/female 2,122,699)
65 years and over: 12.13% (male 2,331,679/female 3,185,262) (2020 est.)

youth dependency ratio: 38.1

elderly dependency ratio: 17.7

potential support ratio: 5.6 (2020 est.)

Median age: *total:* 32.4 years

male: 31.1 years

female: 33.6 years (2020 est.)

country comparison to the world: 110

Population growth rate: 0.82% (2022 est.)

country comparison to the world: 113

Birth rate: 15.58 births/1,000 population (2022 est.)

country comparison to the world: 106

Death rate: 7.32 deaths/1,000 population (2022 est.)

country comparison to the world: 110

Net migration rate: -0.08 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 102

Population distribution: one-third of the population lives in Buenos Aires; pockets of agglomeration occur throughout the northern and central parts of the country; Patagonia to the south remains sparsely populated

Urbanization: *urban population:* 92.3% of total population (2022)

rate of urbanization: 0.97% annual rate of change (2020-25 est.)

Major urban areas - population: 15.370 million BUENOS AIRES (capital), 1.598 million Cordoba, 1.574 million Rosario, 1.209 million Mendoza, 1.014 million San Miguel de Tucuman, 904,000 La Plata (2022)

Sex ratio: *at birth:* 1.07 male(s)/female

0-14 years: 1.06 male(s)/female

15-24 years: 1.06 male(s)/female

25-54 years: 1 male(s)/female

55-64 years: 0.94 male(s)/female

65 years and over: 0.57 male(s)/female

total population: 0.98 male(s)/female (2022 est.)

Maternal mortality ratio: 39 deaths/100,000 live births (2017 est.)

country comparison to the world: 101

Infant mortality rate: *total:* 9.35 deaths/1,000 live births
male: 10.35 deaths/1,000 live births
female: 8.28 deaths/1,000 live births (2022 est.)
country comparison to the world: 141

Life expectancy at birth: *total population:* 78.31 years
male: 75.23 years
female: 81.59 years (2022 est.)
country comparison to the world: 74

Total fertility rate: 2.18 children born/woman (2022 est.)
country comparison to the world: 89

Contraceptive prevalence rate: 70.1% (2019/20)

Drinking water source: *improved:* urban: 99.8% of population
unimproved: urban: 0.2% of population

Current health expenditure: 9.5% of GDP (2019)

Physicians density: 4.06 physicians/1,000 population (2020)

Hospital bed density: 5 beds/1,000 population (2017)

Sanitation facility access: *improved:* urban: 100% of population

HIV/AIDS - adult prevalence rate: 0.4% (2020 est.)
country comparison to the world: 71

Major infectious diseases: *note:* widespread ongoing transmission of a respiratory illness caused by the novel coronavirus (COVID-19) is occurring throughout Argentina; as of 18 August 2022, Argentina has reported a total of 9,633,732 cases of COVID-19 or 21,315.55 cumulative cases of COVID-19 per 100,000 population with a total of 129,566 cumulative deaths or 286.67 cumulative deaths per 100,000 population; as of 17 August 2022, 91.07% of the population has received at least one dose of COVID-19 vaccine

Obesity - adult prevalence rate: 28.3% (2016)
country comparison to the world: 30

Alcohol consumption per capita: *total:* 7.95 liters of pure alcohol

(2019 est.)

beer: 3.62 liters of pure alcohol (2019 est.)

wine: 2.88 liters of pure alcohol (2019 est.)

spirits: 0.72 liters of pure alcohol (2019 est.)

other alcohols: 0.72 liters of pure alcohol (2019 est.)

country comparison to the world: 45

Tobacco use: *total*: 24.5% (2020 est.)

male: 29.4% (2020 est.)

female: 19.6% (2020 est.)

country comparison to the world: 53

Children under the age of 5 years underweight: 1.7% (2018/19)

country comparison to the world: 115

Education expenditures: 4.8% of GDP (2019 est.)

country comparison to the world: 72

Literacy: *definition*: age 15 and over can read and write

total population: 99%

male: 98.9%

female: 99.1% (2018)

School life expectancy (primary to tertiary education): *total*: 18 years

male: 17 years

female: 19 years (2019)

Unemployment, youth ages 15-24: *total*: 30.2%

male: 26.8%

female: 35% (2020 est.)

ENVIRONMENT

Environment - current issues: environmental problems (urban and rural) typical of an industrializing economy such as deforestation, soil degradation (erosion, salinization), desertification, air pollution, and water pollution

Environment - international agreements: *party to:* Antarctic-Environmental Protection, Antarctic-Marine Living Resources, Antarctic Seals, Antarctic Treaty, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Wetlands, Whaling

signed, but not ratified: Marine Dumping-London Protocol, Marine Life Conservation

Air pollutants: *particulate matter emissions:* 11.83 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 201.35 megatons (2016 est.)

methane emissions: 120.66 megatons (2020 est.)

Climate: mostly temperate; arid in southeast; subantarctic in southwest

Land use: *agricultural land:* 53.9% (2018 est.)

arable land: 13.9% (2018 est.)

permanent crops: 0.4% (2018 est.)

permanent pasture: 39.6% (2018 est.)

forest: 10.7% (2018 est.)

other: 35.4% (2018 est.)

Urbanization: *urban population:* 92.3% of total population (2022)

rate of urbanization: 0.97% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.09% of GDP (2018 est.)

country comparison to the world: 115

Revenue from coal: *coal revenues: 0% of GDP (2018 est.)*

country comparison to the world: 57

Waste and recycling: *municipal solid waste generated annually:*
17,910,550 tons (2014 est.)

municipal solid waste recycled annually: 1,074,633 tons (2010 est.)

percent of municipal solid waste recycled: 6% (2010 est.)

Major lakes (area sq km): *fresh water lake(s):* Lago Buenos Aires (shared with Chile) - 2,240 sq km; Lago Argentino - 1,410 sq km; Lago Viedma - 1,090 sq km; Lago San Martin (shared with Chile) - 1,010 sq km; Lago Colhue Huapi - 800 sq km; Lago Fagnano (shared with Chile) - 590 sq km; Lago Nahuel Huapi - 550 sq km

salt water lake(s): Laguna Mar Chiquita - 1,850 sq km;

Major rivers (by length in km): Rio de la Plata/Parana river mouth (shared with Brazil [s], Paraguay, and Uruguay) - 4,880 km; Paraguay (shared with Brazil [s], and Paraguay [m]) - 2,549 km; Uruguay (shared with Brazil [s] and Uruguay [m]) - 1,610 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km):

Atlantic Ocean drainage: Paraná (2,582,704 sq km)

Major aquifers: Guaraní Aquifer System

Total water withdrawal: *municipal:* 5.85 billion cubic meters (2017 est.)

industrial: 4 billion cubic meters (2017 est.)

agricultural: 27.93 billion cubic meters (2017 est.)

Total renewable water resources: 876.24 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Argentine Republic

conventional short form: Argentina

local long form: Republica Argentina

local short form: Argentina

etymology: originally the area was referred to as Tierra Argentina, i.e., “Land beside the Silvery River” or “silvery land,” which referred to the massive estuary in the east of the country, the Rio de la Plata (River of Silver); over time the name shortened to simply Argentina or “silvery”

Government type: presidential republic

Capital: *name:* Buenos Aires

geographic coordinates: 34 36 S, 58 22 W

time difference: UTC-3 (2 hours ahead of Washington, DC, during Standard Time)

etymology: the name translates as “fair winds” in Spanish and derives from the original designation of the settlement that would become the present-day city, “Santa Maria del Buen Aire” (Saint Mary of the Fair Winds)

Administrative divisions: 23 provinces (provincias, singular - provincia) and 1 autonomous city*; Buenos Aires, Catamarca, Chaco, Chubut, Ciudad Autonoma de Buenos Aires*, Cordoba, Corrientes, Entre Rios, Formosa, Jujuy, La Pampa, La Rioja, Mendoza, Misiones, Neuquen, Rio Negro, Salta, San Juan, San Luis, Santa Cruz, Santa Fe, Santiago del Estero, Tierra del Fuego - Antartida e Islas del Atlantico Sur (Tierra del Fuego - Antarctica and the South Atlantic Islands), Tucuman

note: the US does not recognize any claims to Antarctica

Independence: 9 July 1816 (from Spain)

National holiday: Revolution Day (May Revolution Day), 25 May (1810)

Constitution: *history:* several previous; latest effective 11 May 1853

amendments: a declaration of proposed amendments requires two-thirds majority vote by both houses of the National Congress followed by approval by an ad hoc, multi-member constitutional convention; amended several times, last significant amendment in 1994

Legal system: civil law system based on West European legal systems; note - in mid-2015, Argentina adopted a new civil code, replacing the old one in force since 1871

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* yes

citizenship by descent only: yes

dual citizenship recognized: yes

residency requirement for naturalization: 2 years

Suffrage: 18-70 years of age; universal and compulsory; 16-17 years of age - optional for national elections

Executive branch: *chief of state:* President Alberto Angel FERNANDEZ (since 10 December 2019); Vice President Cristina FERNANDEZ DE KIRCHNER (since 10 December 2019); note - the president is both chief of state and head of government

head of government: President Alberto Angel FERNANDEZ (since 10 December 2019); Vice President Cristina FERNANDEZ DE KIRCHNER (since 10 December 2019)

cabinet: Cabinet appointed by the president

elections/appointments: president and vice president directly elected on the same ballot by qualified majority vote (to win, a candidate must receive at least 45% of votes or 40% of votes and a 10-point lead over the second place candidate; if neither occurs, a second round is held); the president serves a 4-year term (eligible for a second consecutive term); election last held on 27 October 2019 (next to be held in October 2023)

election results:

2019: Alberto Angel FERNANDEZ elected president; percent of vote - Alberto Angel FERNANDEZ (TODOS) 48.1%, Mauricio MACRI (PRO)

40.4%, Roberto LAVAGNA (independent) 6.2%, other 5.3%

2015: Mauricio MACRI elected president in second round; percent of vote in first round - Daniel SCIOLI (PJ) 37.1%, Mauricio MACRI (PRO) 34.2%, Sergio MASSA (FR/PJ) 21.4%, other 7.3%; percent of vote in second round - Mauricio MACRI (PRO) 51.4%, Daniel SCIOLI (PJ) 48.6%

Legislative branch: *description:* bicameral National Congress or Congreso Nacional consists of:

Senate or Senado (72 seats; members directly elected on a provincial basis with 2 seats awarded to the party with the most votes and 1 seat to the party with the second highest number of votes; members serve 6-year terms with one-third of the membership renewed every 2 years)

Chamber of Deputies or Cámara de Diputados (257 seats; members directly elected in multi-seat constituencies by party-list proportional representation vote using the D'Hondt method; members serve 4-year terms with one-half of the membership renewed every 2 years)

elections:

Senate - last held on 14 November 2021 (next to be held 29 October 2023)

Chamber of Deputies - last held on 14 November 2021 (next to be held 29 October 2023)

election results:

Senate - percent of vote by bloc or party - NA; seats by bloc or party - FdT 35, JxC 33, other 4; composition (as of February 2022) men 41, women 31, percent of women 43.1%

Chamber of Deputies - percent of vote by bloc or party - NA; seats by bloc or party - FdT 118, JxC 116, FIT-U 4, other: 19; composition (as of February 2022) - men 142, women 115, percent of women 44.7%; note - total National Congress percent of women 44.4%

Judicial branch: *highest court(s):* Supreme Court or Corte Suprema (consists of the court president, vice president, 2 judges, 1 vacancy)

judge selection and term of office: judges nominated by the president and approved by the Senate; ministers can serve until mandatory retirement at

age 75; extensions beyond 75 require renomination by the president and approval by the Senate

subordinate courts: federal level appellate, district, and territorial courts; provincial level supreme, appellate, and first instance courts

Political parties and leaders: Avanza Libertad or AL [Jose Luis ESPERT]

Civic Coalition ARI or CC-ARI [Elisa CARRIO, Maximiliano FERRARO]

Federal Consensus or CF [Roberto LAVAGNA, Juan Manuel URTUBEY]

Frente Civico por Santiago (Civic Front for Santiago) [Gerardo ZAMORA]

Frente de Izquierda (Workers' Left Front) or FIT-U [Nicolas DEL CANO, Miriam BREGMAN] (coalition of leftist parties in lower house; includes PTS, PO, and MST)

Frente de la Concordia Misionero (Front for the Renewal of Social Concord) or FRCS [Carlos Eduardo ROVIRA]

Frente de Todos (Everyone's Front) or FdT [Alberto FERNANDEZ] (includes FR, La Campora, and PJ); note - ruling coalition since 2019; includes several national and provincial Peronist political parties: Frente Renovador (Renewal Front) or FR [Sergio MASSA, Pablo MIROLO] Generacion por un Encuentro Nacional (Generation for a National Encounter) or GEN [Margarita STOLBIZER]

Hacemos por Cordoba (We do for Cordoba) or HC [Juan SCHIARETTI]

Juntos por el Cambio (Together for Change) or JxC [Horacio Rodríguez LARRETA] (includes CC-ARI, PRO, and UCR); note - primary opposition coalition since 2019

Juntos Somos Rio Negro (Together We Are Rio Negro) or JSRN [Alberto WERETILNECK]

Justicialist Party or PJ [Alberto Angel FERNANDEZ]

La Campora [Maximo KIRCHNER]

La Libertad Avanza or LLA [Javier MILEI]

Movimiento Popular Neuquino (Neuquen People's Movement) or MPN [Omar GUTIERREZ]

Partido Socialista or PS [Monica Haydee FEIN]
Propuesta Republicana or PRO [Mauricio MACRI]
Radical Civic Union or UCR [Gerardo MORALES]
Socialist Workers' Party or PTS [Nicolas DEL CANO]
Unidad Federal (coalition of provincial parties in the lower house;
includes FRCS and JSRN)
Workers' Party or PO [Gabriel SOLANO]
Workers' Socialist Movement or MST [Alejandro BODART]
Vamos con Vos (Let's Go with You) or VcV [Florencio RANDAZZO]

International organization participation: AfDB (nonregional member), Australia Group, BCIE, BIS, CAN (associate), CD, CELAC, FAO, FATF, G-15, G-20, G-24, G-77, IADB, IAEA, IBRD, ICAO, ICC (national committees), ICCT, ICRM, IDA, IFAD, IFC, IFRCs, IHO, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), LAES, LAIA, Mercosur, MIGA, MINURSO, MINUSTAH, NAM (observer), NSG, OAS, OPANAL, OPCW, Paris Club (associate), PCA, PROSUR, SICA (observer), UN, UNASUR, UNCTAD, UNESCO, UNFICYP, UNHCR, UNHRC, UNIDO, Union Latina (observer), UNTSO, UNWTO, UPU, Wassenaar Arrangement, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO, ZC

Diplomatic representation in the US: *chief of mission:* Ambassador Jorge Martin Arturo ARGUELLO (since 6 February 2020)

chancery: 1600 New Hampshire Avenue NW, Washington, DC 20009

telephone: [1] (202) 238-6400

Flag description: three equal horizontal bands of sky blue (top), white, and sky blue; centered in the white band is a radiant yellow sun with a human face (delineated in brown) known as the Sun of May; the colors represent the clear skies and snow of the Andes; the sun symbol commemorates the appearance of the sun through cloudy skies on 25 May 1810 during the first mass demonstration in favor of independence; the sun features are those of Inti, the Inca god of the sun

National symbol(s): Sun of May (a sun-with-face symbol); national colors: sky blue, white

National anthem: *name:* “Himno Nacional Argentino” (Argentine National Anthem)

lyrics/music: Vicente LOPEZ y PLANES/Jose Blas PARERA

note: adopted 1813; Vicente LOPEZ was inspired to write the anthem after watching a play about the 1810 May Revolution against Spain

National heritage: *total World Heritage Sites:* 11 (6 cultural, 5 natural)
selected World Heritage Site locales: Los Glaciares National Park (n); Jesuit Missions of the Guaranis (c); Iguazú National Park (n); Cueva de las Manos (c); Valdés Península (n); Ischigualasto/Talampaya National Parks (n); Jesuit Block and Estancias of Córdoba (c); Quebrada de Humahuaca (c); Qhapaq Ñan/Andean Road System (c)

ECONOMY

Economic overview: Argentina benefits from rich natural resources, a highly literate population, an export-oriented agricultural sector, and a diversified industrial base. Although one of the world's wealthiest countries 100 years ago, Argentina suffered during most of the 20th century from recurring economic crises, persistent fiscal and current account deficits, high inflation, mounting external debt, and capital flight.

Cristina FERNANDEZ DE KIRCHNER succeeded her husband as president in late 2007, and in 2008 the rapid economic growth of previous years slowed sharply as government policies held back exports and the world economy fell into recession. In 2010 the economy rebounded strongly, but slowed in late 2011 even as the government continued to rely on expansionary fiscal and monetary policies, which kept inflation in the double digits.

In order to deal with these problems, the government expanded state intervention in the economy: it nationalized the oil company YPF from Spain's Repsol, expanded measures to restrict imports, and further tightened currency controls in an effort to bolster foreign reserves and stem capital flight. Between 2011 and 2013, Central Bank foreign reserves dropped \$21.3 billion from a high of \$52.7 billion. In July 2014, Argentina and China agreed on an \$11 billion currency swap; the Argentine Central Bank has received the equivalent of \$3.2 billion in Chinese yuan, which it counts as international reserves.

With the election of President Mauricio MACRI in November 2015, Argentina began a historic political and economic transformation, as his administration took steps to liberalize the Argentine economy, lifting capital controls, floating the peso, removing export controls on some commodities, cutting some energy subsidies, and reforming the country's official statistics. Argentina negotiated debt payments with holdout bond creditors, continued working with the IMF to shore up its finances, and returned to international capital markets in April 2016.

In 2017, Argentina's economy emerged from recession with GDP growth of nearly 3.0%. The government passed important pension, tax,

and fiscal reforms. And after years of international isolation, Argentina took on several international leadership roles, including hosting the World Economic Forum on Latin America and the World Trade Organization Ministerial Conference, and is set to assume the presidency of the G-20 in 2018.

Real GDP (purchasing power parity): \$893.31 billion (2020 est.)

\$991.52 billion (2019 est.)

\$1,012,670,000,000 (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 49

Natural gas: *production:* 41,194,148,000 cubic meters (2020 est.)

consumption: 49,476,585,000 cubic meters (2019 est.)

exports: 691.241 million cubic meters (2019 est.)

imports: 6,865,323,000 cubic meters (2019 est.)

proven reserves: 396.464 billion cubic meters (2021 est.)

Carbon dioxide emissions: 193.205 million metric tonnes of CO2 (2019 est.)

from coal and metallurgical coke: 2.122 million metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 94.208 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 96.875 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 32

Energy consumption per capita: 79.083 million Btu/person (2019 est.)

country comparison to the world: 77

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 7,356,165 (2020 est.)
subscriptions per 100 inhabitants: 16 (2020 est.)
country comparison to the world: 21

Telephones - mobile cellular: *total subscriptions:* 54,763,900 (2020 est.)
subscriptions per 100 inhabitants: 121 (2020 est.)
country comparison to the world: 29

Telecommunication systems: *general assessment:* Argentina's ongoing problem with hyperinflation continues to distort the telecom market's performance, which shows strong growth in revenue but only modest gains in subscriber numbers each year; the fixed broadband segment has penetration levels only slightly higher than the fixed-line teledensity; nearly a quarter of the country's broadband connections are via DSL, although fiber is starting claim an increasing share of that market as networks expand across most of the main cities; mobile broadband continues to be the preferred platform for internet access, supported by high mobile penetration levels and nationwide LTE coverage; the first 5G service was launched in February 2021 using refarmed LTE frequencies; the anticipated 5G spectrum auctions should drive even stronger uptake in mobile broadband services; while the various fixed, mobile, and cable operators push to expand and enhance their services, the government is also making an active contribution towards boosting broadband connectivity around the country; its national connectivity plan 'Plan Conectar', launched in September 2020, provides funding for a range of programs to increase coverage; in August 2021, the telecom regulator announced the release funding to help operators accelerate the rollout of their broadband infrastructure and services (2021)
domestic: roughly 16 per 100 fixed-line and 121 per 100 mobile-cellular; microwave radio relay, fiber-optic cable, and a domestic satellite system with 40 earth stations serve the trunk network (2020)
international: country code - 54; landing points for the UNISUR,

Bicentenario, Atlantis-2, SAm-1, and SAC, Tannat, Malbec and ARBR submarine cable systems that provide links to Europe, Africa, South and Central America, and US; satellite earth stations - 112 (2019)

Broadcast media: government owns a TV station and radio network; more than two dozen TV stations and hundreds of privately owned radio stations; high rate of cable TV subscription usage (2022)

Internet country code: .ar

Internet users: *total:* 39,024,016 (2020 est.)

container port(s) (TEUs): Buenos Aires (1,485,328) (2019)

LNG terminal(s) (import): Bahia Blanca

river port(s): Arroyo Seco, Rosario, San Lorenzo-San Martin (Parana)

MILITARY AND SECURITY

Military and security forces: Armed Forces of the Argentine Republic (Fuerzas Armadas de la República Argentina): Argentine Army (Ejército Argentino, EA), Navy of the Argentine Republic (Armada Republica, ARA; includes naval aviation and naval infantry), Argentine Air Force (Fuerza Aerea Argentina, FAA); Ministry of Security: Gendarmería Nacional Argentina (National Gendarmerie), Coast Guard (Prefectura Naval) (2022)

Military expenditures: 0.8% of GDP (2021 est.)

0.8% of GDP (2020)

0.7% of GDP (2019) (approximately \$5 billion)

0.8% of GDP (2018) (approximately \$5.3 billion)

0.9% of GDP (2017) (approximately \$5.95 billion)

country comparison to the world: 139

Military and security service personnel strengths: approximately 82,000 active duty personnel (50,000 Army; 18,000 Navy, including about 3,500 marines); 14,000 Air Force); estimated 20,000 Gendarmerie (2022)

Military equipment inventories and acquisitions: the inventory of Argentina's armed forces is a mix of domestically-produced and mostly older imported weapons, largely from Europe and the US; since 2010, France and the US are the leading suppliers of equipment; Argentina has an indigenous defense industry that produces air, land, and sea systems (2022)

Military service age and obligation: 18-24 years of age for voluntary military service for men and women; conscription suspended in 1995; citizens can still be drafted in times of crisis, national emergency, or war, or if the Defense Ministry is unable to fill all vacancies to keep the military functional (2022)

note – as of 2021, women comprised over 21% of the active duty military

Military deployments: 250 Cyprus (UNFICYP) (May 2022)

Military - note: the Army and Navy were both created in 1810 during the Argentine War of Independence, while the Air Force was established in 1945; the military coups d'état in 1930, 1943, 1955, 1962, 1966, and 1976; the 1976 coup, aka the “National Reorganization Process,” marked the beginning of the so-called “Dirty War,” a period of state-sponsored terrorism that saw the deaths or disappearances of thousands of Argentines; the defeat in the 1983 Falklands War led to the downfall of the military junta

Argentina has Major Non-NATO Ally (MNNA) status with the US; MNNA is a designation under US law that provides foreign partners with certain benefits in the areas of defense trade and security cooperation; while MNNA status provides military and economic privileges, it does not entail any security commitments (2022)

TERRORISM

Terrorist group(s): Hizballah

TRANSNATIONAL ISSUES

Disputes - international: *Argentina-Bolivia:* Contraband smuggling, human trafficking, and illegal narcotic trafficking are problems in the porous areas of the border with Bolivia

Argentina-Brazil: Uncontested dispute between Brazil and Uruguay over Brazilera/Brasilera Island in the Quarai/Cuareim River leaves the tripoint with Argentina in question.

Argentina-Chile: The joint boundary commission, established by Chile and Argentina in 2001 has yet to map and demarcate the delimited boundary in the inhospitable Andean Southern Ice Field (Campo de Hielo Sur).

Argentina-Paraguay: None identified

Argentina-Uruguay: In 2010, the ICJ ruled in favor of Uruguay's operation of two paper mills on the Uruguay River, which forms the border with Argentina; the two countries formed a joint pollution monitoring regime. Isla de Martín García situated in the Río de la Plata estuary is wholly within Uruguayan territorial waters but up to its low tide mark, the island is Argentinian territory. The island is accorded unrestricted access rights.

Argentina-United Kingdom: Argentina continues to assert its claims to the UK-administered Falkland Islands (Islas Malvinas), South Georgia, and the South Sandwich Islands in its constitution, forcibly occupying the Falklands in 1982, but in 1995 agreed to no longer seek settlement by force; UK continues to reject Argentine requests for sovereignty talks.

Refugees and internally displaced persons: *refugees (country of origin):* 170,517 (Venezuela) (economic and political crisis; includes Venezuelans who have claimed asylum, are recognized as refugees, or have received alternative legal stay) (2021)

Illicit drugs: counterfeiting, drug trafficking, and other smuggling offenses along the northern border; some money laundering organizations in the Tri-Border Area may have links to the terrorist organization Hizballah; a large producer of chemical precursors

ARMENIA

INTRODUCTION

Background: Armenia prides itself on being the first nation to formally adopt Christianity (early 4th century). Despite periods of autonomy, over the centuries Armenia came under the sway of various empires including the Roman, Byzantine, Arab, Persian, and Ottoman. During World War I in the western portion of Armenia, the Ottoman Empire instituted a policy of forced resettlement coupled with other harsh practices that resulted in at least 1 million Armenian deaths - actions widely recognized as constituting genocide. The eastern area of Armenia was ceded by the Ottomans to Russia in 1828; this portion declared its independence in 1918, but was conquered by the Soviet Red Army in 1920.

Armenia remains involved in the protracted struggle with Azerbaijan over control of Nagorno-Karabakh, a primarily ethnic Armenian region that Moscow recognized in 1923 as an autonomous oblast within Soviet Azerbaijan. In the late Soviet period, a separatist movement developed that sought to end Azerbaijani control over the region. Fighting over Nagorno-Karabakh began in 1988 and escalated after Armenia and Azerbaijan attained independence from the Soviet Union in 1991. By the time a cease-fire took effect in May 1994, separatists, with Armenian support, controlled Nagorno-Karabakh and seven surrounding Azerbaijani territories. Following the Second Nagorno-Karabakh War in September-November 2020, Armenia lost control over much of the territory it had captured a quarter century earlier. Under the terms of a cease-fire agreement signed in November 2020, Armenia returned to Azerbaijan the remaining territories it occupied and some parts of the Nagorno-Karabakh region, including the key city that Armenians call Shushi and Azerbaijanis call Shusha.

Turkey closed the common border with Armenia in 1993 in support of Azerbaijan in its conflict with Armenia over control of Nagorno-Karabakh and surrounding areas, further hampering Armenian economic growth. In 2009, Armenia and Turkey signed Protocols normalizing relations between the two countries, but neither country ratified the Protocols, and Armenia officially withdrew from the Protocols in March

2018. In 2015, Armenia joined the Eurasian Economic Union alongside Russia, Belarus, Kazakhstan, and Kyrgyzstan. In November 2017, Armenia signed a Comprehensive and Enhanced Partnership Agreement (CEPA) with the EU.

In spring 2018, former President of Armenia (2008-18) Serzh SARGSIAN of the Republican Party of Armenia (RPA) tried to extend his time in power by becoming prime minister, prompting popular protests that became known as the “Velvet Revolution” after SARGSIAN was forced to resign. The leader of the protests, Civil Contract party chief Nikol PASHINYAN, was elected by the National Assembly as the new prime minister on 8 May 2018. PASHINYAN’s party prevailed in an early legislative election in December 2018, and he was reelected as prime minister.

GEOGRAPHY

Location: Southwestern Asia, between Turkey (to the west) and Azerbaijan; note - Armenia views itself as part of Europe; geopolitically, it can be classified as falling within Europe, the Middle East, or both

Geographic coordinates: 40 00 N, 45 00 E

Map references: Asia

Area: *total:* 29,743 sq km

land: 28,203 sq km

water: 1,540 sq km

country comparison to the world: 142

Area - comparative: slightly smaller than Maryland

Land boundaries: *total:* 1,570 km

border countries (4): Azerbaijan 996 km; Georgia 219 km; Iran 44 km; Turkey 311 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: highland continental, hot summers, cold winters

Terrain: Armenian Highland with mountains; little forest land; fast flowing rivers; good soil in Aras River valley

Elevation: *highest point:* Aragats Lernagat' 4,090 m

lowest point: Debed River 400 m

mean elevation: 1,792 m

Natural resources: small deposits of gold, copper, molybdenum, zinc, bauxite

Land use: *agricultural land:* 59.7% (2018 est.)

arable land: 15.8% (2018 est.)

permanent crops: 1.9% (2018 est.)

permanent pasture: 42% (2018 est.)

forest: 9.1% (2018 est.)

other: 31.2% (2018 est.)

Irrigated land: 2,740 sq km (2012)

Major lakes (area sq km): *fresh water lake(s):* Lake Sevan - 1,360 sq km

Population distribution: most of the population is located in the northern half of the country; the capital of Yerevan is home to more than five times as many people as Gyumri, the second largest city in the country

Natural hazards: occasionally severe earthquakes; droughts

Geography - note: landlocked in the Lesser Caucasus Mountains; Sevana Lich (Lake Sevan) is the largest lake in this mountain range

PEOPLE AND SOCIETY

Population: 3,000,756 (2022 est.)

country comparison to the world: 138

Nationality: *noun:* Armenian(s)

adjective: Armenian

Ethnic groups: Armenian 98.1%, Yezidi (Kurd) 1.2%, other 0.7% (2011 est.)

Languages: Armenian (official) 97.9%, Kurdish (spoken by Yezidi minority) 1%, other 1%; note - Russian is widely spoken (2011 est.)

major-language sample(s):

Աշխարհի Փաստագիրք, Անդրկասպիկի Աղբյւր
Հիմնական Տեղեկատվություն. (Armenian)

Religions: Armenian Apostolic 92.6%, Evangelical 1%, other 2.4%, none 1.1%, unspecified 2.9% (2011 est.)

Demographic profile: Armenia's population peaked at nearly 3.7 million in the late 1980s but has declined sharply since independence in 1991, to just over 3 million in 2021, largely as a result of its decreasing fertility rate, increasing death rate, and negative net emigration rate. The total fertility rate (the average number of children born per woman) first fell below the 2.1 replacement level in the late 1990s and has hovered around 1.6-1.65 for over 15 years. In an effort to increase the country's birth rate, the government has expanded its child benefits, including a substantial increase in the lump sum payment for having a first and second child and a boost in the monthly payment to mothers of children under two. Reversing net negative migration, however, remains the biggest obstacle to stabilizing or increasing population growth. Emigration causes Armenia not only lose individuals but also the children they might have.

The emigration of a significant number of working-age people combined with decreased fertility and increased life expectancy is causing the elderly share of Armenia's population to grow. The growing elderly

population will put increasing pressure on the government's ability to fund the pension system, health care, and other services for seniors. Improving education, creating more jobs (particularly in the formal sector), promoting labor market participation, and increasing productivity would mitigate the financial impact of supporting a growing elderly population.

Armenia has a long history of migration, some forced and some voluntary. Its large diaspora is diverse and dispersed around the world. Widely varying estimates suggest the Armenian diaspora may number anywhere from 5-9 million, easily outnumbering the number of Armenians living in Armenia. Armenians forged communities abroad from ancient Egypt, Greece and Rome to Russia and to the Americas, where they excelled as craftsmen, merchants, and in other occupations.

Several waves of Armenian migration occurred in the 20th century. In the aftermath of the 1915 Armenian genocide, hundreds of thousands of survivors fled to communities in the Caucasus (including present day Armenia), Lebanon, Syria, Iran, Europe, and Russia and established new communities in Africa and the Americas. In the 1930s, the Soviets deported thousands of Armenians to Siberia and Central Asia. After World War II, the Soviets encouraged the Armenian diaspora in France, the Middle East, and Iran to return the Armenian homeland in order to encourage population growth after significant losses in the male workforce during the war.

Following Armenian independence in 1991, the economic downturn and high unemployment prompted hundreds of thousands of Armenians to seek better economic opportunities primarily in Russia but also in the US, former Soviet states, and Europe. In the early 1990s, hundreds of thousands of Armenians fled from Azerbaijan to Armenia because of the ongoing Nagorno-Karabakh conflict, but many of them then emigrated again, mainly to Russia and the US. When the economy became more stable in the late 1990s, permanent emigration slowed, but Armenians continued to seek temporary seasonal work in Russia. The remittances families receive from relatives working abroad is vital to Armenian households and the country's economy.

Age structure: 0-14 years: 18.64% (male 297,320/female 265,969)
15-24 years: 11.63% (male 184,258/female 167,197)

ENVIRONMENT

Environment - current issues: soil pollution from toxic chemicals such as DDT; deforestation; pollution of Hrazdan and Aras Rivers; the draining of Sevana Lich (Lake Sevan), a result of its use as a source for hydropower, threatens drinking water supplies; restart of Metsamor nuclear power plant in spite of its location in a seismically active zone

Environment - international agreements: *party to:* Air Pollution, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Nuclear Test Ban, Ozone Layer Protection, Wetlands: signed, but not ratified: Air Pollution-Heavy Metals, Air Pollution-Multi-effect Protocol, Air Pollution-Persistent Organic Pollutants

Air pollutants: *particulate matter emissions:* 30.48 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 5.16 megatons (2016 est.)

methane emissions: 2.91 megatons (2020 est.)

Climate: highland continental, hot summers, cold winters

Land use: *agricultural land:* 59.7% (2018 est.)

arable land: 15.8% (2018 est.)

permanent crops: 1.9% (2018 est.)

permanent pasture: 42% (2018 est.)

forest: 9.1% (2018 est.)

other: 31.2% (2018 est.)

Urbanization: *urban population:* 63.6% of total population (2022)

rate of urbanization: 0.23% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.28% of GDP (2018 est.)

country comparison to the world: 82

Revenue from coal: *coal revenues: 0% of GDP (2018 est.)*

country comparison to the world: 58

Waste and recycling: *municipal solid waste generated annually:*
492,800 tons (2014 est.)

Major lakes (area sq km): *fresh water lake(s):* Lake Sevan - 1,360 sq km

Total water withdrawal: *municipal:* 616.4 million cubic meters (2017 est.)

industrial: 122.4 million cubic meters (2017 est.)

agricultural: 2.127 billion cubic meters (2017 est.)

Total renewable water resources: 7.77 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Armenia

conventional short form: Armenia

local long form: Hayastani Hanrapetut'yun

local short form: Hayastan

former: Armenian Soviet Socialist Republic, Armenian Republic

etymology: the etymology of the country's name remains obscure; according to tradition, the country is named after Hayk, the legendary patriarch of the Armenians and the great-great-grandson of Noah; Hayk's descendant, Aram, purportedly is the source of the name Armenia

Government type: parliamentary democracy; note - constitutional changes adopted in December 2015 transformed the government to a parliamentary system

Capital: *name:* Yerevan

geographic coordinates: 40 10 N, 44 30 E

time difference: UTC+4 (9 hours ahead of Washington, DC, during Standard Time)

etymology: name likely derives from the ancient Urartian fortress of Erebuni established on the current site of Yerevan in 782 B.C. and whose impressive ruins still survive

Administrative divisions: 11 provinces (marzer, singular - marz); Aragatsotn, Ararat, Armavir, Geghark'unik', Kotayk', Lorri, Shirak, Syunik', Tavush, Vayots' Dzor, Yerevan

Independence: 21 September 1991 (from the Soviet Union); notable earlier dates: 321 B.C. (Kingdom of Armenia established under the Orontid Dynasty), A.D. 884 (Armenian Kingdom reestablished under the Bagratid Dynasty); 1198 (Cilician Kingdom established); 28 May 1918 (Democratic Republic of Armenia declared)

National holiday: Independence Day, 21 September (1991)

Constitution: *history:* previous 1915, 1978; latest adopted 5 July 1995

amendments: proposed by the president of the republic or by the National Assembly; passage requires approval by the president, by the National Assembly, and by a referendum with at least 25% registered voter participation and more than 50% of votes; constitutional articles on the form of government and democratic procedures are not amendable; amended 2005, 2015, last in 2020; note - a constitutional referendum originally scheduled for 4 May 2020 was indefinitely postponed due to the COVID-19 pandemic that began in early 2020, the Nagorno-Karabakh war in the fall of 2020, and the postwar political crisis of early 2021

Legal system: civil law system

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Armenia

dual citizenship recognized: yes

residency requirement for naturalization: 3 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Vahagn KHACHATURYAN (since 13 March 2022)

head of government: Prime Minister Nikol PASHINYAN (since 10 September 2021); Deputy Prime Ministers Mher GRIGORYAN (since 3 August 2021) and Hambardzum MATEVOSYAN (since 25 November 2021); note - Prime Minister Nikol PASHINYAN resigned on 25 April 2021; he was reappointed by the president on 2 August 2021 and sworn in on 10 September 2021

cabinet: Council of Ministers appointed by the prime minister

elections/appointments: president indirectly elected by the National Assembly in 3 rounds if needed for a single 7-year term; election last held on 2-3 March 2022; prime minister elected by majority vote in 2 rounds if needed by the National Assembly; election last held 2 August 2021; the next parliamentary elections are expected to be held in Armenia by 2026

election results:

2022: Vahagn KHACHATURYAN elected president in second round; note - Vahagn KHACHATURYAN ran unopposed and won the Assembly vote 71-0

2018: Armen SARKISSIAN elected president in first round; note - Armen SARKISSIAN ran unopposed and won the Assembly vote 90-10

note: Nikol PASHINYAN was first elected prime minister on 8 May 2018 and reelected on January 2019; in response to a political crisis that followed Armenia's defeat in the Second Nagorno-Karabakh War in late 2020, PASHINYAN called an early legislative election for June 2021; his party won the election and PASHINYAN was elected to the prime ministership for a third time; his election was confirmed by the president on 2 August 2021, and he was sworn in on 10 September 2021

Legislative branch: *description:* unicameral National Assembly (Parliament) or Azgayin Zhoghov (minimum 101 seats, with additional seats allocated as necessary and generally changing with each parliamentary convocation; current - 107; members directly elected in single-seat constituencies by closed party-list proportional representation vote; members serve 5-year terms; four mandates are reserved for national minorities; no more than 70% of the top membership of a party list can belong to the same sex; political parties must meet a 5% threshold and alliances a 7% threshold to win seats; at least three parties must be seated in the parliament)

elections: last held early on 20 June 2021 (next to be held in June 2026)

election results: percent of vote by party - Civil Contract 53.9%, Armenia Alliance 21.0%, I Have Honour Alliance 5.2%; seats by party - Civil Contract 71 of 107 seats, Armenia Alliance 29, I Have Honour Alliance 7; composition (as of February 2022) - men 69, women 38, percent of women 35.5%

Judicial branch: *highest court(s):* Court of Cassation (consists of the Criminal Chamber with a chairman and 5 judges and the Civil and Administrative Chamber with a chairman and 10 judges – with both civil and administrative specializations); Constitutional Court (consists of 9

judges)

judge selection and term of office: Court of Cassation judges nominated by the Supreme Judicial Council, a 10- member body of selected judges and legal scholars; judges appointed by the president; judges can serve until age 65; Constitutional Court judges - 4 appointed by the president, and 5 elected by the National Assembly; judges can serve until age 70

subordinate courts: criminal and civil appellate courts; administrative appellate court; first instance courts; specialized administrative and bankruptcy courts

Political parties and leaders: 5165 National Conservative Movement Party [Karin TONOYAN]

Alliance of Democrats [Arman BABAJANYAN]

Armenia Alliance or HD [Robert KOCHARYAN]

(alliance of the Armenian Revolutionary Federation and the Reborn Armenia Party)

Armenian National Congress or ANC [Levon TER-PETROSSIAN] (bloc of independent and opposition parties)

Bright Armenia [Edmon MARUKYAN]

Civil Contract or KP [Nikol PASHINYAN]

Homeland of Armenians [Artak GALSTYAN]

Homeland Party [Artur VANETSYAN]

I Have Honor Alliance (alliance of the RPA and the Homeland Party, [Serzh SARGSIAN and Artur VANETSYAN]

Liberal Party [Samvel BABAYAN]

National Democratic Party [Vahe GASPARYAN]

Prosperous Armenia or BHK [Gagik TSARUKYAN]

Republic Party (Hanrapetutyun Party) [Aram SARGSYAN]

Republican Party of Armenia or RPA [Serzh SARGSIAN]

International organization participation: ADB, BSEC, CD, CE, CIS, CSTO, EAEC (observer), EAEU, EAPC, EBRD, FAO, GCTU, IAEA, IBRD, ICAO, ICC (NGOs), ICRM, IDA, IFAD, IFC, IFRCs, ILO, IMF, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, MIGA, NAM (observer), OAS (observer), OIF, OPCW, OSCE, PFP, UN, UNCTAD,

UNESCO, UNHRC, UNIDO, UNIFIL, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Lilit MAKUNTS (since 15 September 2021)

chancery: 2225 R Street NW, Washington, DC 20008

telephone: [1] (202) 319-1976

FAX: [1] (202) 319-2982

email address and website:

armembassyusa@mfa.am

Flag description: three equal horizontal bands of red (top), blue, and orange; the color red recalls the blood shed for liberty, blue the Armenian skies as well as hope, and orange the land and the courage of the workers who farm it

National symbol(s): Mount Ararat, eagle, lion; national colors: red, blue, orange

National anthem: *name:* “Mer Hayrenik” (Our Fatherland)

lyrics/music: Mikael NALBANDIAN/Barsegh KANACHYAN

note: adopted 1991; based on the anthem of the Democratic Republic of Armenia (1918-1922) but with different lyrics

National heritage: *total World Heritage Sites:* 3 (3 cultural)

selected World Heritage Site locales: Monasteries of Haghpat and

Sanahin; Monastery of Geghard and the Upper Azat Valley; Cathedral
and Churches of Echmiatsin

ECONOMY

Economic overview: Under the old Soviet central planning system, Armenia developed a modern industrial sector, supplying machine tools, textiles, and other manufactured goods to sister republics, in exchange for raw materials and energy. Armenia has since switched to small-scale agriculture and away from the large agro industrial complexes of the Soviet era. Armenia has only two open trade borders - Iran and Georgia - because its borders with Azerbaijan and Turkey have been closed since 1991 and 1993, respectively, as a result of Armenia's ongoing conflict with Azerbaijan over the separatist Nagorno-Karabakh region.

Armenia joined the World Trade Organization in January 2003. The government has made some improvements in tax and customs administration in recent years, but anti-corruption measures have been largely ineffective. Armenia will need to pursue additional economic reforms and strengthen the rule of law in order to raise its economic growth and improve economic competitiveness and employment opportunities, especially given its economic isolation from Turkey and Azerbaijan.

Armenia's geographic isolation, a narrow export base, and pervasive monopolies in important business sectors have made it particularly vulnerable to volatility in the global commodity markets and the economic challenges in Russia. Armenia is particularly dependent on Russian commercial and governmental support, as most key Armenian infrastructure is Russian-owned and/or managed, especially in the energy sector. Remittances from expatriates working in Russia are equivalent to about 12-14% of GDP. Armenia joined the Russia-led Eurasian Economic Union in January 2015, but has remained interested in pursuing closer ties with the EU as well, signing a Comprehensive and Enhanced Partnership Agreement with the EU in November 2017. Armenia's rising government debt is leading Yerevan to tighten its fiscal policies – the amount is approaching the debt to GDP ratio threshold set by national legislation.

Real GDP (purchasing power parity): \$37.31 billion (2020 est.)

\$40.38 billion (2019 est.)

\$37.53 billion (2018 est.)

ENERGY

Electricity access: *electrification - total population:* 100% (2020)

Electricity: *installed generating capacity:* 3.633 million kW (2020 est.)

consumption: 5,758,470,000 kWh (2019 est.)

exports: 1.251 billion kWh (2020 est.)

imports: 320 million kWh (2020 est.)

transmission/distribution losses: 548 million kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 40.6% of total installed capacity (2020 est.)

nuclear: 34.8% of total installed capacity (2020 est.)

solar: 0.3% of total installed capacity (2020 est.)

hydroelectricity: 24.3% of total installed capacity (2020 est.)

Coal: *production:* 0 metric tons (2020 est.)

consumption: 12,000 metric tons (2020 est.)

exports: 0 metric tons (2020 est.)

imports: 12,000 metric tons (2020 est.)

proven reserves: 163 million metric tons (2019 est.)

Petroleum: *total petroleum production:* 0 bbl/day (2021 est.)

refined petroleum consumption: 10,900 bbl/day (2019 est.)

Refined petroleum products - imports: 7,145 bbl/day (2015 est.)

country comparison to the world: 158

Natural gas: *production:* 0 cubic meters (2021 est.)

consumption: 2,537,497,000 cubic meters (2019 est.)

exports: 0 cubic meters (2021 est.)

imports: 2,514,220,000 cubic meters (2019 est.)

proven reserves: 0 cubic meters (2021 est.)

Carbon dioxide emissions: 6.354 million metric tonnes of CO₂ (2019 est.)

from coal and metallurgical coke: 12,000 metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 1.364 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 4.978 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 130

Energy consumption per capita: 53.019 million Btu/person (2019 est.)

country comparison to the world: 98

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 427,539 (2020 est.)

subscriptions per 100 inhabitants: 14 (2020 est.)

country comparison to the world: 99

Telephones - mobile cellular: *total subscriptions:* 3,488,797 (2020 est.)

subscriptions per 100 inhabitants: 118 (2020 est.)

country comparison to the world: 135

Telecommunication systems: *general assessment:* Armenia's telecom sector was able to post in the mobile and broadband segments; its fixed-line penetration continues to slide downwards, with the rollout of fiber networks which have encouraged the increase in bundled services; the fixed broadband market remains undeveloped due to the lack of underlying infrastructure outside the main cities (2021)

domestic: roughly 14 per 100 fixed-line and 118 per 100 mobile-cellular; reliable fixed-line and mobile-cellular services are available across Yerevan and in major cities and towns; mobile-cellular coverage available in most rural areas (2020)

international: country code - 374; Yerevan is connected to the Caucasus Cable System fiber-optic cable through Georgia and Iran to Europe; additional international service is available by microwave radio relay and landline connections to the other countries of the Commonwealth of Independent States, through the Moscow international switch, and by satellite to the rest of the world; satellite earth stations - 3 (2019)

Broadcast media: Armenia's government-run Public Television network operates alongside 100 privately owned TV stations that provide local to near nationwide coverage; three Russian TV companies are broadcast in Armenia under interstate agreements; subscription cable TV services are available in most regions; several major international broadcasters are available, including CNN; Armenian TV completed conversion from analog to digital broadcasting in late 2016; Public Radio of Armenia is a national, state-run broadcast network that operates

alongside 18 privately owned radio stations
(2019)

Internet country code: .am

Internet users: *total:* 2,288,566 (July 2022 est.)

percent of population: 77% (July 2022 est.)

country comparison to the world: 125

Broadband - fixed subscriptions: *total:* 430,407 (2020 est.)

subscriptions per 100 inhabitants: 15 (2020 est.)

country comparison to the world: 95

TRANSPORTATION

National air transport system: *number of registered air carriers:* 3 (2020)

inventory of registered aircraft operated by air carriers: 5

Civil aircraft registration country code prefix: EK

Airports: *total:* 7 (2021)

country comparison to the world: 165

Airports - with paved runways: *total:* 10

over 3,047 m: 2

2,438 to 3,047 m: 2

1,524 to 2,437 m: 4

914 to 1,523 m: 2 (2021)

Airports - with unpaved runways: *total:* 1

914 to 1,523 m: 1 (2021)

Pipelines: 3,838 km gas (high and medium pressure) (2017)

Railways: *total:* 780 km (2014)

broad gauge: 780 km (2014) 1.520-m gauge (780 km electrified)

note: 726 km operational

country comparison to the world: 98

Roadways: *total:* 7,700 km (2019)

urban: 3,780 km

non-urban: 3,920 km

country comparison to the world: 140

MILITARY AND SECURITY

Military and security forces: Armenian Armed Forces: Armenian Army (includes land, air, air defense forces) (2022)

Military expenditures: 4.4% of GDP (2021 est.)

5% of GDP (2020 est.)

5.3% of GDP (2019 est.) (approximately \$1.82 billion)

4.6% of GDP (2018 est.) (approximately 1.6 billion)

4.4% of GDP (2017 est.) (approximately \$1.43 billion)

country comparison to the world: 14

Military and security service personnel strengths: approximately 45,000 active troops (42,000 ground; 3,000 air/defense) (2022)

Military equipment inventories and acquisitions: the inventory of the Armenian Armed Forces includes mostly Russian and Soviet-era equipment (2022)

Military service age and obligation: 18-27 for voluntary/contract (men and women) or compulsory (men) military service; contract military service is 3-12 months or 3 or 5 years; conscripts serve 24 months; men under the age of 36, who have not previously served as contract servicemen and are registered in the reserve, as well as women, regardless of whether they are registered in the reserve can be enrolled in contractual military service; all citizens aged 27 to 50 are registered in the military reserve and may be called to serve if mobilization is declared (2022)

note: as of 2021, conscripts comprised about half of the military's active personnel; as of 2018, women made up about 13% of the active duty military

Military - note: since November 2020, Russia has deployed about 2,000 peacekeeping troops to the area in and around Nagorno- Karabakh as part of a cease-fire agreement between Armenia and Azerbaijan; fighting erupted between the two countries over the Nagorno-Karabakh region in September of 2020; Nagorno-Karabakh lies within Azerbaijan but has been under control of ethnic Armenian forces (the "Nagorno-Karabakh

Defense Army”) backed by Armenia since a separatist war there ended in 1994; six weeks of fighting resulted in about 6,500 deaths and ended after Armenia ceded swaths of Nagorno-Karabakh territory; tensions remained high into 2022, and both sides have accused the other of provocations since the fighting ended; Armenia has accused Azerbaijani forces of a series of border intrusions and of seizing pockets of territory

Armenia has been a member of the Collective Security Treaty Organization (CSTO) since 1994 and contributes troops to CSTO’s rapid reaction force

TRANSNATIONAL ISSUES

Disputes - international: local border forces struggle to control the illegal transit of goods and people across the porous, undemarcated Armenian, Azerbaijani, and Georgian borders

Armenia-Azerbaijan: The dispute over the break-away Nagorno-Karabakh region and the Armenian military occupation of surrounding lands in Azerbaijan remains the primary focus of regional instability. Residents have evacuated the former Soviet-era small ethnic enclaves in Armenia and Azerbaijan.

Armenia-Georgia: Georgians restrict Armenian access into Samtse-Javakheti ethnic Armenian areas. Armenia has made no claims to the region.

Armenia-Iran: None identified

Armenia-Turkey: In 2009, Swiss mediators facilitated an accord reestablishing diplomatic ties between Armenia and Turkey, but neither side has ratified the agreement and the rapprochement effort has faltered, in part due to resistance from Azerbaijan. The border has been closed since 1993, and no diplomatic relations established after Armenian independence. In 2022, Turkey and Armenia have agreed to move forward with efforts to normalize relations.

Turkish authorities have complained that blasting from quarries in Armenia might be damaging the ruins of Ani, an ancient city on the high ridge overlooking the Arpaçay valley on the opposite shore.

Refugees and internally displaced persons: *refugees (country of origin):* 38,774 (Azerbaijan), 5,205 (Syria - ethnic Armenians) (mid-year 2021)

stateless persons: 892 (mid-year 2021)

Illicit drugs: a transit country for illicit drugs with its location between source countries Afghanistan and Iran and the markets of Europe and Russia

ARUBA

INTRODUCTION

Background: Discovered and claimed for Spain in 1499, Aruba was acquired by the Dutch in 1636. The island's economy has been dominated by three main industries. A 19th century gold rush was followed by prosperity brought on by the opening in 1924 of an oil refinery. The last decades of the 20th century saw a boom in the tourism industry. Aruba seceded from the Netherlands Antilles in 1986 and became a separate, semi-autonomous member of the Kingdom of the Netherlands. Movement toward full independence was halted at Aruba's request in 1990.

GEOGRAPHY

Location: Caribbean, island in the Caribbean Sea, north of Venezuela

Geographic coordinates: 12 30 N, 69 58 W

Map references: Central America and the Caribbean

Area: *total:* 180 sq km

land: 180 sq km

water: 0 sq km

country comparison to the world: 217

Area - comparative: slightly larger than Washington, DC

Land boundaries: *total:* 0 km

Coastline: 68.5 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm

Climate: tropical marine; little seasonal temperature variation

Terrain: flat with a few hills; scant vegetation

Elevation: *highest point:* Ceru Jamanota 188 m

lowest point: Caribbean Sea 0 m

Natural resources: NEGL; white sandy beaches foster tourism

Land use: *agricultural land:* 11.1% (2018 est.)

arable land: 11.1% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 2.3% (2018 est.)

other: 86.6% (2018 est.)

Population distribution: most residents live in or around Oranjestad and San Nicolaas; most settlements tend to be located on the less mountainous western side of the island

Natural hazards: hurricanes; lies outside the Caribbean hurricane belt

and is rarely threatened

Geography - note: a flat, riverless island renowned for its white sand beaches; its tropical climate is moderated by constant trade winds from the Atlantic Ocean; the temperature is almost constant at about 27 degrees Celsius (81 degrees Fahrenheit)

PEOPLE AND SOCIETY

Population: 122,320 (2022 est.)

country comparison to the world: 188

Nationality: *noun:* Aruban(s)

adjective: Aruban; Dutch

Ethnic groups: Aruban 66%, Colombian 9.1%, Dutch 4.3%, Dominican 4.1%, Venezuelan 3.2%, Curacaoan 2.2%, Haitian 1.5%, Surinamese 1.2%, Peruvian 1.1%, Chinese 1.1%, other 6.2% (2010 est.)

note: data represent population by country of birth

Languages: Papiamentu (official) (a creole language that is a mixture of Portuguese, Spanish, Dutch, English, and, to a lesser extent, French, as well as elements of African languages and the language of the Arawak) 69.4%, Spanish 13.7%, English (widely spoken) 7.1%, Dutch (official) 6.1%, Chinese 1.5%, other 1.7%, unspecified 0.4% (2010 est.)

Religions: Roman Catholic 75.3%, Protestant 4.9% (includes Methodist 0.9%, Adventist 0.9%, Anglican 0.4%, other Protestant 2.7%), Jehovah's Witness 1.7%, other 12%, none 5.5%, unspecified 0.5% (2010 est.)

Age structure: *0-14 years:* 17.55% (male 10,524/female 10,437)

15-24 years: 12.06% (male 7,231/female 7,175)

25-54 years: 40.54% (male 23,387/female 25,029)

55-64 years: 14.79% (male 8,285/female 9,383)

65 years and over: 15.05% (male 7,064/female 10,913) (2020 est.)

Dependency ratios: *total dependency ratio:* 47

youth dependency ratio: 25.6

elderly dependency ratio: 21.5

potential support ratio: 4.7 (2020 est.)

Median age: *total:* 39.9 years

male: 38.2 years

female: 41.5 years (2020 est.)

country comparison to the world: 53

Population growth rate: 1.14% (2022 est.)

country comparison to the world: 83

Birth rate: 11.82 births/1,000 population (2022 est.)

country comparison to the world: 158

Death rate: 8.62 deaths/1,000 population (2022 est.)

country comparison to the world: 72

Net migration rate: 8.18 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 11

Population distribution: most residents live in or around Oranjestad and San Nicolaas; most settlements tend to be located on the less mountainous western side of the island

Urbanization: *urban population:* 44.1% of total population (2022)

rate of urbanization: 0.77% annual rate of change (2020-25 est.)

Major urban areas - population: 30,000 ORANJESTAD (capital) (2018)

Sex ratio: *at birth:* 1.02 male(s)/female

0-14 years: 1.01 male(s)/female

15-24 years: 1 male(s)/female

25-54 years: 0.94 male(s)/female

55-64 years: 0.87 male(s)/female

65 years and over: 0.52 male(s)/female

total population: 0.9 male(s)/female (2022 est.)

Infant mortality rate: *total:* 12.09 deaths/1,000 live births

male: 16.46 deaths/1,000 live births

female: 7.63 deaths/1,000 live births (2022 est.)

country comparison to the world: 117

Life expectancy at birth: *total population:* 78.01 years

male: 74.93 years

female: 81.15 years (2022 est.)

country comparison to the world: 78

Total fertility rate: 1.83 children born/woman (2022 est.)

country comparison to the world: 138

Drinking water source: *improved: urban: 98.1% of population*

rural: 98.1% of population

total: 98.1% of population

unimproved: urban: 1.9% of population

rural: 1.9% of population

total: 1.9% of population (2015 est.)

Sanitation facility access: *improved: urban: 97.7% of population*

rural: 97.7% of population

total: 97.7% of population

unimproved: urban: 2.3% of population

rural: 2.3% of population

total: 2.3% of population (2015 est.)

Education expenditures: 5.5% of GDP (2016 est.)

country comparison to the world: 40

Literacy: *definition: age 15 and over can read and write*

total population: 97.8%

male: 97.8%

female: 97.8% (2018)

School life expectancy (primary to tertiary education): *total: 14*
years

male: 13 years

female: 14 years (2012)

ENVIRONMENT

Environment - current issues: difficulty in properly disposing of waste produced by large numbers of tourists; waste burning that occurs in the landfill causes air pollution and poses an environmental and health risk; ocean environmental damage due to plastic pollution

Air pollutants: *carbon dioxide emissions:* 0.88 megatons (2016 est.)

Climate: tropical marine; little seasonal temperature variation

Land use: *agricultural land:* 11.1% (2018 est.)

arable land: 11.1% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 2.3% (2018 est.)

other: 86.6% (2018 est.)

Urbanization: *urban population:* 44.1% of total population (2022)

rate of urbanization: 0.77% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0% of GDP (2017 est.)

country comparison to the world: 162

Waste and recycling: *municipal solid waste generated annually:* 88,132 tons (2013 est.)

municipal solid waste recycled annually: 9,695 tons (2013 est.)

percent of municipal solid waste recycled: 11% (2013 est.)

GOVERNMENT

Country name: *conventional long form:* Country of Aruba

conventional short form: Aruba

local long form: Land Aruba (Dutch); Pais Aruba (Papiamentu)

local short form: Aruba

etymology: the origin of the island's name is unclear; according to tradition, the name comes from the Spanish phrase "oro huba" (there was gold), but in fact no gold was ever found on the island; another possibility is the native word "oruba," which means "well-situated"

Government type: parliamentary democracy; part of the Kingdom of the Netherlands

Dependency status: constituent country of the Kingdom of the Netherlands; full autonomy in internal affairs obtained in 1986 upon separation from the Netherlands Antilles; Dutch Government responsible for defense and foreign affairs

Capital: *name:* Oranjestad

geographic coordinates: 12 31 N, 70 02 W

time difference: UTC-4 (1 hour ahead of Washington, DC, during Standard Time)

etymology: translates as "orange town" in Dutch; the city is named after William I (1533-1584), Prince of Orange, the first ruler of the Netherlands

Administrative divisions: none (part of the Kingdom of the Netherlands)

note: Aruba is one of four constituent countries of the Kingdom of the Netherlands; the other three are the Netherlands, Curacao, and Sint Maarten

Independence: none (part of the Kingdom of the Netherlands)

National holiday: National Anthem and Flag Day, 18 March (1976)

Constitution: *history:* previous 1947, 1955; latest drafted and approved August 1985, enacted 1 January 1986 (regulates governance of Aruba but

is subordinate to the Charter for the Kingdom of the Netherlands); in 1986, Aruba became a semiautonomous entity within the Kingdom of the Netherlands

Legal system: civil law system based on the Dutch civil code

Citizenship: see the Netherlands

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* King WILLEM-ALEXANDER of the Netherlands (since 30 April 2013); represented by Governor General Alfonso BOEKHOUDT (since 1 January 2017)

head of government: Prime Minister Evelyn WEVER-CROES (since 17 November 2017)

cabinet: Council of Ministers elected by the Legislature (Staten)

elections/appointments: the monarchy is hereditary; governor general appointed by the monarch for a 6-year term; prime minister and deputy prime minister indirectly elected by the Staten for 4-year term; election last held on 25 June 2021 (next to be held by June 2026)

election results: as leader of the majority party of the ruling coalition, Evelyn WEVER-CROES (MEP) elected prime minister; percent of legislative vote - NA

Legislative branch: *description:* unicameral Legislature or Staten (21 seats; members directly elected in a single nationwide constituency by proportional representation vote; members serve 4-year terms)

elections: last held on 25 June 2021 (next to be held in June 2025)

election results: percent of vote by party MEP 35.3%, AVP 31.3%, ROOTS 9.4%, MAS 8%, Accion21 5.8%; seats by party - MEP 9, AVP 7, ROOTS 2, MAS 2, Accion21 1; composition - men 13, women 8, percent of women 38.1%

Judicial branch: *highest court(s):* Joint Court of Justice of Aruba, Curacao, Sint Maarten, and of Bonaire, Sint Eustatius and Saba or “Joint Court of Justice” (sits as a 3-judge panel); final appeals heard by the Supreme Court in The Hague, Netherlands

judge selection and term of office: Joint Court judges appointed for life by

the monarch

subordinate courts: Court in First Instance

Political parties and leaders: Accion21 [Miguel MANSUR]

Aruban People's Party or AVP [Michiel "Mike" EMAN]

Democratic Network or RED [Ricardo CROES]

Movimiento Aruba Soberano (Aruban Sovereignty Movement) or MAS
[Marisol LOPEZ-TROMP]

People's Electoral Movement Party or MEP [Evelyn WEVER-CROES]

Pueblo Orguyoso y Respeta or POR [Alan Howell]

RAIZ (ROOTS) [Ursell ARENDS]

International organization participation: Caricom (observer),
FATF, ILO, IMF, Interpol, IOC, ITUC (NGOs), UNESCO (associate),
UNWTO (associate), UPU

Diplomatic representation in the US: *chief of mission:* none
(represented by the Kingdom of the Netherlands)

Diplomatic representation from the US: *embassy:* the US does not
have an embassy in Aruba; the Consul General to Curacao is accredited to
Aruba

Flag description: blue, with two narrow, horizontal, yellow stripes
across the lower portion and a red, four-pointed star outlined in white in
the upper hoist-side corner; the star represents Aruba and its red soil and
white beaches, its four points the four major languages (Papiamentu,
Dutch, Spanish, English) as well as the four points of a compass, to
indicate that its inhabitants come from all over the world; the blue
symbolizes Caribbean waters and skies; the stripes represent the island's
two main "industries": the flow of tourists to the sun-drenched beaches
and the flow of minerals from the earth

National symbol(s): Hooiberg (Haystack) Hill; national colors: blue,
yellow, red, white

National anthem: *name:* "Aruba Deshi Tera" (Aruba Precious
Country)

lyrics/music: Juan Chabaya 'Padu' LAMPE/Rufo Inocencio WEVER

note: local anthem adopted 1986; as part of the Kingdom of the Netherlands, “Het Wilhelmus” is official (see Netherlands)

ECONOMY

Economic overview: Tourism, petroleum bunkering, hospitality, and financial and business services are the mainstays of the small open Aruban economy.

Tourism accounts for a majority of economic activity; as of 2017, over 2 million tourists visited Aruba annually, with the large majority (80-85%) of those from the US. The rapid growth of the tourism sector has resulted in a substantial expansion of other activities. Construction continues to boom, especially in the hospitality sector.

Aruba is heavily dependent on imports and is making efforts to expand exports to improve its trade balance. Almost all consumer and capital goods are imported, with the US, the Netherlands, and Panama being the major suppliers.

In 2016, Citgo Petroleum Corporation, an indirect wholly owned subsidiary of Petroleos de Venezuela SA, and the Government of Aruba signed an agreement to restart Valero Energy Corp.'s former 235,000-b/d refinery. Tourism and related industries have continued to grow, and the Aruban Government is working to attract more diverse industries. Aruba's banking sector continues to be a strong sector; unemployment has significantly decreased.

Real GDP (purchasing power parity): \$4.158 billion (2017 est.)

\$4.05 billion (2017 est.)

\$4.107 billion (2016 est.)

country comparison to the world: 182

Real GDP growth rate: 1.2% (2017 est.)

-0.1% (2016 est.)

-0.4% (2015 est.)

country comparison to the world: 165

ENERGY

Electricity access: *electrification - total population:* 100% (2020)

Electricity: *installed generating capacity:* 296,000 kW (2020 est.)

consumption: 909.442 million kWh (2019 est.)

exports: 0 kWh (2020 est.)

imports: 0 kWh (2020 est.)

transmission/distribution losses: 10.27 million kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 83.3% of total installed capacity (2020 est.)

solar: 1.2% of total installed capacity (2020 est.)

wind: 15.4% of total installed capacity (2020 est.)

Petroleum: *total petroleum production:* 0 bbl/day (2021 est.)

refined petroleum consumption: 8,100 bbl/day (2019 est.)

Refined petroleum products - imports: 7,891 bbl/day (2015 est.)

country comparison to the world: 153

Carbon dioxide emissions: 1.254 million metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 1.254 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 168

Energy consumption per capita: 174.629 million Btu/person (2019 est.)

country comparison to the world: 26

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 35,000 (2020 est.)

subscriptions per 100 inhabitants: 33 (2020 est.)

country comparison to the world: 167

Telephones - mobile cellular: *total subscriptions:* 141,000 (2020 est.)

subscriptions per 100 inhabitants: 132 (2020 est.)

country comparison to the world: 188

Telecommunication systems: *general assessment:* the telecom sector has seen a decline in subscriber numbers (particularly for prepaid mobile services the mainstay of short term visitors) and revenue; fixed and mobile broadband services are two areas that have benefited from the crisis as employees and students have resorted to working from home; one area of the telecom market that is not prepared for growth is 5G mobile; governments, regulators, and even the mobile network operators have shown that they have not been investing in 5G opportunities at the present time; network expansion and enhancements remain concentrated around improving LTE coverage (2021)

domestic: 33 per 100 fixed-line telephone subscriptions and 132 per 100 mobile-cellular (2020)

international: country code - 297; landing points for the PAN-AM, PCCS, Deep Blue Cable, and Alonso de Ojeda submarine telecommunications cable system that extends from Trinidad and Tobago, Florida, Puerto Rico, Jamaica, Guyana, Sint Eustatius & Saba, Suriname, Dominican Republic, BVI, USVI, Haiti, Cayman Islands, the Netherlands Antilles, through Aruba to Panama, Venezuela, Colombia, Ecuador, Peru and Chile; extensive interisland microwave radio relay links (2019)

Broadcast media: 2 commercial TV stations; cable TV subscription service provides access to foreign channels; about 19 commercial radio stations broadcast (2017)

Internet country code: .aw

Internet users: *total:* 103,121 (2019 est.)

percent of population: 97% (2019 est.)

country comparison to the world: 180

Broadband - fixed subscriptions: *total:* 19,000 (2020 est.)

subscriptions per 100 inhabitants: 18 (2020 est.)

country comparison to the world: 167

TRANSPORTATION

National air transport system: *number of registered air carriers:* 3 (2020)

inventory of registered aircraft operated by air carriers: 19

annual passenger traffic on registered air carriers: 274,280 (2018)

Civil aircraft registration country code prefix: P4

Airports: *total:* 1 (2021)

country comparison to the world: 211

Airports - with paved runways: *total:* 1

2,438 to 3,047 m: 1 (2021)

Roadways: *total:* 1,000 km (2010)

country comparison to the world: 186

Merchant marine: *total:* 1

by type: other 1 (2021)

country comparison to the world: 179

Ports and terminals: *major seaport(s):* Barcadera, Oranjestad

oil terminal(s): Sint Nicolaas

cruise port(s): Oranjestad

MILITARY AND SECURITY

Military and security forces: no regular military forces; Aruban Militia (ARUMIL) (2022)

Military - note: defense is the responsibility of the Kingdom of the Netherlands; the Aruba security services focus on organized crime and terrorism; the Dutch Government controls foreign and defense policy; the Dutch Caribbean Coast Guard (DCCG) provides maritime security

TRANSNATIONAL ISSUES

Disputes - international: none identified

Refugees and internally displaced persons: *refugees (country of origin):* 17,000 (Venezuela) (2021)

Trafficking in persons: *current situation:* human traffickers exploit domestic and foreign victims; foreign men and women are subject to forced labor in Aruba's services and construction sectors; Venezuelans overstaying visas are at risk of forced labor in domestic service, construction, and commercial sex; Chinese men and women and Indian men are subject to forced labor in retail businesses and domestic service; managers of some Chinese-owned grocery stores and restaurants exploit children through sex trafficking and forced labor

tier rating: Tier 2 Watch List — Aruba does not fully meet the minimum standards for the elimination of trafficking but is making significant efforts to do so; the government provided officials with anti-trafficking training, continued an awareness campaign, and continued to implement the 2018-2022 national action plan; however, officials investigated fewer trafficking cases and did not report prosecuting or convicting any traffickers; efforts were hindered by the conflation of trafficking with migrant smuggling; authorities also did not report identifying any victims, including Venezuelan migrants and refugees, who are vulnerable to trafficking (2020)

Illicit drugs: northbound transshipment point for cocaine from Colombia and Venezuela; Cocaine shipped to the United States, other Caribbean islands, Africa, and Europe

ASHMORE AND CARTIER ISLANDS

INTRODUCTION

Background: Indonesian fishermen have long fished in the area around Ashmore Reef and Cartier Island. British explorers were the first Europeans to see Cartier Island and Ashmore Reef in 1800 and 1811, respectively. American whalers frequently sailed by the islands in the 1850s and later settled to mine the phosphate deposits on Ashmore Reef, which were exhausted by 1891. The UK disputed US access to Ashmore Reef and formally annexed it in 1878. Cartier Island was annexed in 1909. In 1931, the UK transferred the islands to Australia, which accepted them in 1934 as part of Western Australia. In 1938, Australia transferred governance to the Northern Territory. During World War II, the islands saw several Allied ship visits and post-war, Cartier Island became a bombing range. In 1978, governance of Ashmore and Cartier Islands was moved to the federal government. Ashmore Reef and Cartier Island became marine reserves in 1983 and 2000 respectively.

In 1974, Australia and Indonesia signed a memorandum of understanding (MOU) to allow Indonesian fishermen to continue fishing around the islands. The MOU also allows Indonesian fishermen to visit the graves of past fishermen, replenish their fresh water, and shelter in the West Island Lagoon of Ashmore Reef. In the 1990s, Indonesia challenged Australia's claims to the islands, which was settled in a maritime boundary treaty in 1997. The islands were a popular first point of contact for migrants and refugees seeking to enter Australia, so in 2001, Australia declared the islands outside the Australian migration zone.

GEOGRAPHY

Location: Southeastern Asia, islands in the Indian Ocean, midway between northwestern Australia and Timor island; Ashmore Reef is 840 km west of Darwin and 610 km north of Broome; Cartier Islet is 70 km east of Ashmore Reef

Geographic coordinates: 12 25 S, 123 20 E

note – Ashmore Reef - 12 14 S, 123 05 E; Cartier Islet - 12 32 S, 123 32 E

Map references: Southeast Asia

Area: *total:* 5 sq km

land: 5 sq km

water: 0 sq km

note: includes Ashmore Reef (West, Middle, and East Islets) and Cartier Island

country comparison to the world: 249

Area - comparative: about eight times the size of the National Mall in Washington, DC

Land boundaries: *total:* 0 km

Coastline: 74.1 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

continental shelf: 200-m depth or to the depth of exploitation

exclusive fishing zone: 200 nm

Climate: tropical

Terrain: low with sand and coral

Elevation: *highest point:* Cartier Island 5 m

lowest point: Indian Ocean 0 m

Natural resources: fish

Land use: *agricultural land*: 0% (2018 est.)

Natural hazards: surrounded by shoals and reefs that can pose maritime hazards

Geography - note: Ashmore Reef National Nature Reserve established in August 1983; Cartier Island Marine Reserve established in 2000

PEOPLE AND SOCIETY

Population: (July 2021 est.) no indigenous inhabitants

note: Indonesian fishermen are allowed access to the lagoon and fresh water at Ashmore Reef's West Island; access to East and Middle Islands is by permit only

Population growth rate: 0.32% (2021 est.)

country comparison to the world: 165

ENVIRONMENT

Environment - current issues: illegal killing of protected wildlife by traditional Indonesian fisherman, as well as fishing by non-traditional Indonesian vessels, are ongoing problems; sea level rise, changes in sea temperature, and ocean acidification are concerns; marine debris

Climate: tropical

Land use: *agricultural land:* 0% (2018 est.)

GOVERNMENT

Country name: *conventional long form:* Territory of Ashmore and Cartier Islands

conventional short form: Ashmore and Cartier Islands

etymology: named after British Captain Samuel ASHMORE, who first sighted his namesake island in 1811, and after the ship Cartier, from which the second island was discovered in 1800

Dependency status: territory of Australia; administered from Canberra by the Department of Regional Australia, Local Government, Arts and Sport

Legal system: the laws of the Commonwealth of Australia and the laws of the Northern Territory of Australia, where applicable, apply

Citizenship: see Australia

Diplomatic representation in the US: none (territory of Australia)

Diplomatic representation from the US: *embassy:* none (territory of Australia)

Flag description: the flag of Australia is used

ECONOMY

Economic overview: no economic activity

TRANSPORTATION

Ports and terminals: none; offshore anchorage only

MILITARY AND SECURITY

Military - note: defense is the responsibility of Australia; periodic visits by the Royal Australian Navy and Royal Australian Air Force

TRANSNATIONAL ISSUES

Disputes - international: *Australia-Indonesia:* Australia has closed parts of the Ashmore and Cartier reserve to Indonesian traditional fishing; Indonesian groups challenge Australia's claim to Ashmore Reef

Illicit drugs: NA

ATLANTIC OCEAN

INTRODUCTION

Background: The Atlantic Ocean is the second largest of the world's five oceans (after the Pacific Ocean, but larger than the Indian Ocean, Southern Ocean, and Arctic Ocean). The Kiel Canal (Germany), Oresund (Denmark-Sweden), Bosphorus (Turkey), Strait of Gibraltar (Morocco-Spain), and the Saint Lawrence Seaway (Canada-US) are important strategic access waterways. The decision by the International Hydrographic Organization in the spring of 2000 to delimit a fifth world ocean, the Southern Ocean, removed the portion of the Atlantic Ocean south of 60 degrees south latitude.

GEOGRAPHY

Location: body of water between Africa, Europe, the Arctic Ocean, the Americas, and the Southern Ocean

Geographic coordinates: 0 00 N, 25 00 W

Map references: Political Map of the World

Area: *total:* 85.133 million sq km

note: includes Baffin Bay, Baltic Sea, Black Sea, Caribbean Sea, Davis Strait, Denmark Strait, part of the Drake Passage, Hudson Bay, Hudson Strait, Gulf of Mexico, Labrador Sea, Mediterranean Sea, North Sea, almost all of the Scotia Sea, and other tributary water bodies

Area - comparative: about 7.5 times the size of the US

Coastline: 111,866 km

Climate: tropical cyclones (hurricanes) develop off the coast of Africa near Cabo Verde and move westward into the Caribbean Sea; hurricanes can occur from May to December but are most frequent from August to November

Ocean volume: *ocean volume:* 310,410,900 cu km

percent of World Ocean total volume: 23.3%

Major ocean currents: clockwise North Atlantic Gyre consists of the northward flowing, warm Gulf Stream in the west, the eastward flowing North Atlantic Current in the north, the southward flowing cold Canary Current in the east, and the westward flowing North Equatorial Current in the south; the counterclockwise South Atlantic Gyre composed of the southward flowing warm Brazil Current in the west, the eastward flowing South Atlantic Current in the south, the northward flowing cold Benguela Current in the east, and the westward flowing South Equatorial Current in the north

Elevation: *highest point:* sea level

lowest point: Puerto Rico Trench -8,605 m

mean depth: -3,646 m

Natural resources: oil and gas fields, fish, marine mammals (seals and whales), sand and gravel aggregates, placer deposits, polymetallic nodules, precious stones

Natural hazards: icebergs common in Davis Strait, Denmark Strait, and the northwestern Atlantic Ocean from February to August and have been spotted as far south as Bermuda and the Madeira Islands; ships subject to superstructure icing in extreme northern Atlantic from October to May; persistent fog can be a maritime hazard from May to September; hurricanes (May to December)

Geography - note: major chokepoints include the Dardanelles, Strait of Gibraltar, access to the Panama and Suez Canals; strategic straits include the Strait of Dover, Straits of Florida, Mona Passage, The Sound (Oresund), and Windward Passage; the Equator divides the Atlantic Ocean into the North Atlantic Ocean and South Atlantic Ocean

ENVIRONMENT

Environment - current issues: endangered marine species include the manatee, seals, sea lions, turtles, and whales; unsustainable exploitation of fisheries (over fishing, bottom trawling, drift net fishing, discards, catch of non-target species); pollution (maritime transport, discharges, offshore drilling, oil spills); municipal sludge pollution off eastern US, southern Brazil, and eastern Argentina; oil pollution in Caribbean Sea, Gulf of Mexico, Lake Maracaibo, Mediterranean Sea, and North Sea; industrial waste and municipal sewage pollution in Baltic Sea, North Sea, and Mediterranean Sea

Marine fisheries: the Atlantic Ocean fisheries are the second most important in the world accounting for 26.4%, or 21,063,495 mt, of the global catch in 2019; of the seven regions delineated by the Food and Agriculture Organization in the Atlantic basin, the most important include the following:

Northeast Atlantic region (Region 27) is the fourth most important in the world producing 10.2% of the global catch or 8,116,507 mt in 2019; the region encompasses the waters north of 36° North latitude and east of 40° West longitude with the major producers including Norway (3,528,240 mt), Russia (1,044,153 mt), Iceland (933,019 mt), UK (823,669 mt), and Denmark (641,927 mt); the region includes the historically important fishing grounds of the North Sea, the Baltic Sea, and the Atlantic waters between Greenland, Iceland, and the British Isles; the principal catches include Atlantic cod, haddock, saithe (pollock), Blue Whiting, herring, and mackerel; not all fish caught are for human consumption, half of fish catches in the North Sea are processed as fish oil or fish meal, which are used in animal fodder

Eastern Central Atlantic region (Region 34) is the second most important Atlantic fishery, and sixth largest in the world producing more than 6.8% of the global catch or 5,397,726 mt in 2019; the region encompasses the waters between 36° North and 6° South latitude and east of 40° West longitude off the west coast of Africa with the major

producers including Morocco (1,419,872 mt), Mauritania (705,850 mt), Senegal (472,571 mt), Nigeria (451,768 mt), Ghana (303,001 mt), Cameroon (265,969 mt), and Sierra Leone (200,000 mt); the principal catches include pilchard, sardinellas, shad, and mackerel

Northwest Atlantic region (Region 21) is the third most important Atlantic fishery and eighth in the world producing 2% of the global catch and 1,679,512 mt in 2019; it encompasses the waters north of 35° North latitude and west of 42° West longitude including the important fishing grounds over the continental shelf of North America such as the Grand Banks, the Georges Bank, and the Flemish Cap, as well as Baffin Bay with the major producers including the US (927,777 mt), Canada (615,651 mt), and Greenland (179,990 mt); the principal catches include sea scallops, prawns, lobster, herring, and menhaden

Mediterranean and Black Sea region (Region 37) is a minor fishing region representing 1.7% or 1,385,190 mt of the world's total capture in 2019; the region encompasses all waters east of the Strait of Gibraltar with the major producers including Turkey (686,650 mt), Italy (281,212 mt), Tunisia (129,325 mt), Spain (119,759 mt), and Russia (72,279 mt); the principal catches include European anchovy, European pilchard, Gobies, and clams

Regional fisheries bodies: Commission for the Conservation of Southern Bluefin Tuna, Fishery Committee for the Eastern Central Atlantic, Fisheries Committee for the West Central Gulf of Guinea, General Fisheries Commission for the Mediterranean, International Commission for the Conservation of Atlantic Tunas, International Council for the Exploration of the Seas, Northwest Atlantic Fisheries Organization, North Atlantic Salmon Conservation Organization, North East Atlantic Fisheries Commission, Southeast Atlantic Fisheries Organization, Western Central Atlantic Fishery Commission

Climate: tropical cyclones (hurricanes) develop off the coast of Africa near Cabo Verde and move westward into the Caribbean Sea; hurricanes can occur from May to December but are most frequent from August to November

GOVERNMENT

Country name: *etymology:* name derives from the Greek description of the waters beyond the Strait of Gibraltar, Atlantis thalassa, meaning “Sea of Atlas”

ECONOMY

Economic overview: The Atlantic Ocean provides some of the world's most heavily trafficked sea routes, between and within the Eastern and Western Hemispheres. Other economic activity includes the exploitation of natural resources, e.g., fishing, dredging of aragonite sands (The Bahamas), and production of crude oil and natural gas (Caribbean Sea, Gulf of Mexico, and North Sea).

TRANSPORTATION

Ports and terminals: *major seaport(s):* Alexandria (Egypt), Algiers (Algeria), Antwerp (Belgium), Barcelona (Spain), Buenos Aires (Argentina), Casablanca (Morocco), Colon (Panama), Copenhagen (Denmark), Dakar (Senegal), Gdansk (Poland), Hamburg (Germany), Helsinki (Finland), Las Palmas (Canary Islands, Spain), Le Havre (France), Lisbon (Portugal), London (UK), Marseille (France), Montevideo (Uruguay), Montreal (Canada), Naples (Italy), New Orleans (US), New York (US), Oran (Algeria), Oslo (Norway), Peiraiefs or Piraeus (Greece), Rio de Janeiro (Brazil), Rotterdam (Netherlands), Saint Petersburg (Russia), Stockholm (Sweden)

Transportation - note: Kiel Canal and Saint Lawrence Seaway are two important waterways; significant domestic commercial and recreational use of Intracoastal Waterway on central and south Atlantic seaboard and Gulf of Mexico coast of US; the International Maritime Bureau reports the territorial waters of littoral states and offshore Atlantic waters as high risk for piracy and armed robbery against ships, particularly in the Gulf of Guinea off West Africa; in 2014, 41 commercial vessels were attacked in the Gulf of Guinea with 5 hijacked and 144 crew members taken hostage; hijacked vessels are often disguised and cargoes stolen; crews have been robbed and stores or cargoes stolen

MILITARY AND SECURITY

Maritime threats: the International Maritime Bureau reports the territorial and offshore waters in the Niger Delta and Gulf of Guinea remain a very high risk for piracy and armed robbery of ships; in 2021, there were 34 reported incidents of piracy and armed robbery at sea in the Gulf of Guinea region; although a significant decrease from the total number of 81 incidents in 2020, it included the one hijacking and three of five ships fired upon worldwide; while boarding and attempted boarding to steal valuables from ships and crews are the most common types of incidents, almost a third of all incidents involve a hijacking and/or kidnapping; in 2021, 57 crew members were kidnapped in seven separate incidents in the Gulf of Guinea, representing 100% of kidnappings worldwide; Nigerian pirates in particular are well armed and very aggressive, operating as far as 200 nm offshore; the Maritime Administration of the US Department of Transportation has issued a Maritime Advisory (2022-001 - Gulf of Guinea-Piracy/Armed Robbery/Kidnapping for Ransom) effective 4 January 2022, which states in part, “Piracy, armed robbery, and kidnapping for ransom continue to serve as significant threats to US-flagged vessels transiting or operating in the Gulf of Guinea;” South American ports in Brazil and Colombia, as well as Caribbean ports in Mexico and Haiti continue to be affected by the crime of armed robbery against ships with 15 incidents reported in 2021 compared to 17 in 2020 with most of these occurring while berthed or anchored

TRANSNATIONAL ISSUES

Disputes - international: some maritime disputes (see littoral states)

AUSTRALIA

INTRODUCTION

Background: Aboriginal Australians arrived on the continent at least 60,000 years ago and developed complex hunter-gatherer societies and oral histories. Dutch navigators led by Abel TASMAN were the first Europeans to land in Australia in 1606, and they mapped the western and northern coasts. They named the continent New Holland but made no attempts to permanently settle it. In 1770, English captain James COOK sailed to the east coast of Australia, named it New South Wales, and claimed it for Great Britain. In 1788 and 1825, Great Britain established New South Wales and then Tasmania as penal colonies respectively. Great Britain and Ireland sent more than 150,000 convicts to Australia before ending the practice in 1868. As Europeans began settling areas away from the coasts, they came into more direct contact with Aboriginal Australians. Europeans also cleared land for agriculture, impacting Aboriginal Australians' ways of life. These issues, along with disease and a policy in the 1900s that forcefully removed Aboriginal children from their parents, reduced the Aboriginal Australian population from more than 700,000 pre-European contact to a low of 74,000 in 1933.

Four additional colonies were established in Australia in the mid-1800s: Western Australia (1829), South Australia (1836), Victoria (1851), and Queensland (1859). Gold rushes beginning in the 1850s brought thousands of new immigrants to New South Wales and Victoria, helping to reorient Australia away from its penal colony roots. In the second half of the 1800s, the colonies were all gradually granted self-government, and in 1901, they federated and became the Commonwealth of Australia. Australia contributed more than 400,000 troops to Allied efforts during World War I, and Australian troops played a large role in the defeat of Japanese troops in the Pacific in World War II. Australia severed most constitutional links with the UK in 1942, and in 1951 signed the Australia, New Zealand, and US (ANZUS) Treaty, cementing its military alliance with the United States. In 2021, Australia, the UK, and the US announced the AUKUS enhanced trilateral security partnership to maintain and expand the three countries' edge in military capabilities and

critical technologies. Australia's post-war economy boomed and by the 1970s, racial policies that prevented most non-Whites from immigrating to Australia were removed, greatly increasing Asian immigration to the country. In recent decades, Australia has become an internationally competitive, advanced market economy due in large part to economic reforms adopted in the 1980s and its proximity to East and Southeast Asia.

In the early 2000s, Australian politics became unstable with frequent attempts to oust party leaders, including five changes of prime minister between 2010 and 2018. As a result, both major parties instituted rules to make it harder to remove a party leader.

GEOGRAPHY

Location: Oceania, continent between the Indian Ocean and the South Pacific Ocean

Geographic coordinates: 27 00 S, 133 00 E

Map references: Oceania

Area: *total:* 7,741,220 sq km

land: 7,682,300 sq km

water: 58,920 sq km

note: includes Lord Howe Island and Macquarie Island

country comparison to the world: 7

Area - comparative: slightly smaller than the US contiguous 48 states

Land boundaries: *total:* 0 km

Coastline: 25,760 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

continental shelf: 200 nm or to the edge of the continental margin

Climate: generally arid to semiarid; temperate in south and east; tropical in north

Terrain: mostly low plateau with deserts; fertile plain in southeast

Elevation: *highest point:* Mount Kosciuszko 2,228 m

lowest point: Lake Eyre -15 m

mean elevation: 330 m

Natural resources: alumina, coal, iron ore, copper, tin, gold, silver, uranium, nickel, tungsten, rare earth elements, mineral sands, lead, zinc, diamonds, opals, natural gas, petroleum; note - Australia is the world's largest net exporter of coal accounting for 29% of global coal exports; as well, Australia is by far the world's largest supplier of opals

Land use: *agricultural land:* 46.65% (2018 est.)

arable land: 4.03% (2018 est.)

permanent crops: 0.04% (2018 est.)

permanent pasture: 42.58% (2018 est.)

forest: 17.42% (2018 est.)

other: 33.42% (2018 est.)

Irrigated land: 25,460 sq km (2014)

Major lakes (area sq km): *fresh water lake(s):* Lake Alexandrina - 570 sq km

salt water lake(s): Lake Eyre - 9,690 sq km; Lake Torrens (ephemeral) - 5,780 sq km; Lake Gairdner - 4,470 sq km; Lake Mackay (ephemeral) - 3,494 sq km; Lake Frome - 2,410 sq km; Lake Amadeus (ephemeral) - 1,032 sq km

Major rivers (by length in km): River Murray - 2,508 km; Darling River - 1,545 km; Murrumbidgee River - 1,485 km; Lachlan River - 1,339 km; Cooper Creek - 1,113 km; Flinders River - 1,004 km

Major watersheds (area sq km):

Indian Ocean drainage: (*Great Australian Bight*) Murray-Darling (1,050,116 sq km)

Internal (*endorheic basin*) drainage: Lake Eyre (1,212,198 sq km)

Major aquifers: Great Artesian Basin, Canning Basin

Population distribution: population is primarily located on the periphery, with the highest concentration of people residing in the east and southeast; a secondary population center is located in and around Perth in the west; of the States and Territories, New South Wales has, by far, the largest population; the interior, or “outback”, has a very sparse population

Natural hazards: cyclones along the coast; severe droughts; forest fires
volcanism: volcanic activity on Heard and McDonald Islands

Geography - note: *note 1:* world’s smallest continent but sixth-largest country; the largest country in Oceania, the largest country entirely in the

Southern Hemisphere, and the largest country without land borders

note 2: the Great Dividing Range that runs along eastern Australia is that continent's longest mountain range and the third-longest land-based range in the world; the term "Great Dividing Range" refers to the fact that the mountains form a watershed crest from which all of the rivers of eastern Australia flow – east, west, north, and south

note 3: Australia is the only continent without glaciers; it is the driest inhabited continent on earth, making it particularly vulnerable to the challenges of climate change; the invigorating sea breeze known as the "Fremantle Doctor" affects the city of Perth on the west coast and is one of the most consistent winds in the world; Australia is home to 10% of the world's biodiversity, and a great number of its flora and fauna exist nowhere else in the world

PEOPLE AND SOCIETY

Population: 26,141,369 (2022 est.)

country comparison to the world: 54

Nationality: *noun:* Australian(s)

adjective: Australian

Ethnic groups: English 36.1%, Australian 33.5%, Irish 11.0%, Scottish 9.3%, Chinese 5.6%, Italian 4.6%, German 4.5%, Aboriginal and Torres Strait Islander 2.8%, Indian 2.8%, Greek 1.8%, Dutch 1.6% (2016 est.)

note: data represent self-identified ancestry, with the option of reporting two ancestries

Languages: English 72.7%, Mandarin 2.5%, Arabic 1.4%, Cantonese 1.2%, Vietnamese 1.2%, Italian 1.2%, Greek 1%, other 14.8%, unspecified 6.5% (2016 est.)

note: data represent language spoken at home

Religions: Protestant 23.1% (Anglican 13.3%, Uniting Church 3.7%, Presbyterian and Reformed 2.3%, Baptist 1.5%, Pentecostal 1.1%, Lutheran .7%, other Protestant .5%), Roman Catholic 22.6%, other Christian 4.2%, Muslim 2.6%, Buddhist 2.4%, Orthodox 2.3% (Eastern Orthodox 2.1%, Oriental Orthodox .2%), Hindu 1.9%, other 1.3%, none 30.1%, unspecified 9.6% (2016 est.)

Age structure: 0-14 years: 18.72% (male 2,457,418/female 2,309,706)
15-24 years: 12.89% (male 1,710,253/female 1,572,794)
25-54 years: 41.15% (male 5,224,840/female 5,255,041)
55-64 years: 11.35% (male 1,395,844/female 1,495,806)
65 years and over: 15.88% (male 1,866,761/female 2,177,996) (2020 est.)

Dependency ratios: *total dependency ratio:* 55.1

youth dependency ratio: 29.9

elderly dependency ratio: 25.1

potential support ratio: 4 (2020 est.)

Median age: *total:* 37.5 years

male: 36.5 years

female: 38.5 years (2020 est.)

country comparison to the world: 69

Population growth rate: 1.25% (2022 est.)

country comparison to the world: 74

Birth rate: 12.3 births/1,000 population (2022 est.)

country comparison to the world: 150

Death rate: 6.77 deaths/1,000 population (2022 est.)

country comparison to the world: 127

Net migration rate: 6.93 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 14

Population distribution: population is primarily located on the periphery, with the highest concentration of people residing in the east and southeast; a secondary population center is located in and around Perth in the west; of the States and Territories, New South Wales has, by far, the largest population; the interior, or “outback”, has a very sparse population

Urbanization: *urban population:* 86.5% of total population (2022)

rate of urbanization: 1.27% annual rate of change (2020-25 est.)

note: data include Christmas Island, Cocos Islands, and Norfolk Island

Major urban areas - population: 5,151 million Melbourne, 5.057 million Sydney, 2.472 million Brisbane, 2.093 million Perth, 1.356 million Adelaide, 467,000 CANBERRA (capital) (2022)

Sex ratio: *at birth:* 1.06 male(s)/female

0-14 years: 1.07 male(s)/female

15-24 years: 1.09 male(s)/female

25-54 years: 1 male(s)/female

55-64 years: 0.93 male(s)/female

65 years and over: 0.72 male(s)/female

total population: 0.99 male(s)/female (2022 est.)

Mother's mean age at first birth: 28.7 years (2019 est.)

Maternal mortality ratio: 6 deaths/100,000 live births (2017 est.)
country comparison to the world: 159

Infant mortality rate: *total:* 3.01 deaths/1,000 live births
male: 3.24 deaths/1,000 live births
female: 2.76 deaths/1,000 live births (2022 est.)
country comparison to the world: 213

Life expectancy at birth: *total population:* 83.09 years
male: 80.93 years
female: 85.36 years (2022 est.)
country comparison to the world: 14

Total fertility rate: 1.73 children born/woman (2022 est.)
country comparison to the world: 159

Contraceptive prevalence rate: 66.9% (2015/16)
note: percent of women aged 18-44

Drinking water source: *improved:* *urban:* 100% of population
rural: 100% of population
total: 100% of population

Current health expenditure: 9.9% of GDP (2019)

Physicians density: 4.13 physicians/1,000 population (2020)

Hospital bed density: 3.8 beds/1,000 population (2016)

Sanitation facility access: *improved:* *total:* 100% of population
unimproved: *total:* 0% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 0.1% (2020 est.)
country comparison to the world: 118

Obesity - adult prevalence rate: 29% (2016)
country comparison to the world: 27

Alcohol consumption per capita: *total:* 9.51 liters of pure alcohol (2019 est.)
beer: 3.71 liters of pure alcohol (2019 est.)

wine: 3.67 liters of pure alcohol (2019 est.)

spirits: 1.32 liters of pure alcohol (2019 est.)

other alcohols: 0.81 liters of pure alcohol (2019 est.)

country comparison to the world: 27

Tobacco use: *total*: 13.6% (2020 est.)

male: 15.6% (2020 est.)

female: 11.5% (2020 est.)

country comparison to the world: 113

Education expenditures: 5.1% of GDP (2018 est.)

country comparison to the world: 56

School life expectancy (primary to tertiary education): *total*: 22
years

male: 21 years

female: 22 years (2019)

Unemployment, youth ages 15-24: *total*: 14.3%

male: 15.3%

female: 13.2% (2020 est.)

ENVIRONMENT

Environment - current issues: soil erosion from overgrazing, deforestation, industrial development, urbanization, and poor farming practices; limited natural freshwater resources; soil salinity rising due to the use of poor quality water; drought, desertification; clearing for agricultural purposes threatens the natural habitat of many unique animal and plant species; disruption of the fragile ecosystem has resulted in significant floral extinctions; the Great Barrier Reef off the northeast coast, the largest coral reef in the world, is threatened by increased shipping and its popularity as a tourist site; overfishing, pollution, and invasive species are also problems

Environment - international agreements: *party to:* Antarctic-Environmental Protection, Antarctic-Marine Living Resources, Antarctic Seals, Antarctic Treaty, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Marine Dumping-London Protocol, Marine Life Conservation, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands, Whaling
signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 7.19 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 375.91 megatons (2016 est.)

methane emissions: 105.01 megatons (2020 est.)

Climate: generally arid to semiarid; temperate in south and east; tropical in north

Land use: *agricultural land:* 46.65% (2018 est.)

arable land: 4.03% (2018 est.)

permanent crops: 0.04% (2018 est.)

permanent pasture: 42.58% (2018 est.)

forest: 17.42% (2018 est.)

other: 33.42% (2018 est.)

Urbanization: *urban population: 86.5% of total population (2022)*

rate of urbanization: 1.27% annual rate of change (2020-25 est.)

note: data include Christmas Island, Cocos Islands, and Norfolk Island

Revenue from forest resources: *forest revenues: 0.13% of GDP (2018 est.)*

country comparison to the world: 105

Revenue from coal: *coal revenues: 0.78% of GDP (2018 est.)*

country comparison to the world: 7

Waste and recycling: *municipal solid waste generated annually: 13.345 million tons (2015 est.)*

municipal solid waste recycled annually: 5,618,245 tons (2015 est.)

percent of municipal solid waste recycled: 42.1% (2015 est.)

Major lakes (area sq km): *fresh water lake(s): Lake Alexandrina - 570 sq km*

salt water lake(s): Lake Eyre - 9,690 sq km; Lake Torrens (ephemeral) - 5,780 sq km; Lake Gairdner - 4,470 sq km; Lake Mackay (ephemeral) - 3,494 sq km; Lake Frome - 2,410 sq km; Lake Amadeus (ephemeral) - 1,032 sq km

Major rivers (by length in km): River Murray - 2,508 km; Darling River - 1,545 km; Murrumbidgee River - 1,485 km; Lachlan River - 1,339 km; Cooper Creek - 1,113 km; Flinders River - 1,004 km

Major watersheds (area sq km):

Indian Ocean drainage: *(Great Australian Bight) Murray-Darling (1,050,116 sq km)*

Internal (*endorheic basin*) drainage: Lake Eyre (1,212,198 sq km)

Major aquifers: Great Artesian Basin, Canning Basin

Total water withdrawal: *municipal: 3.392 billion cubic meters (2017 est.)*

industrial: 2.662 billion cubic meters (2017 est.)

agricultural: 10.5 billion cubic meters (2017 est.)

Total renewable water resources: 492 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Commonwealth of Australia

conventional short form: Australia

etymology: the name Australia derives from the Latin “australis” meaning “southern”; the Australian landmass was long referred to as “Terra Australis” or the Southern Land

Government type: federal parliamentary democracy under a constitutional monarchy; a Commonwealth realm

Capital: *name:* Canberra

geographic coordinates: 35 16 S, 149 08 E

time difference: UTC+10 (14 hours ahead of Washington, DC, during Standard Time)

daylight saving time: +1hr, begins first Sunday in October; ends first Sunday in April

time zone note: Australia has four time zones, including Lord Howe Island (UTC+10:30)

etymology: the name is claimed to derive from either Kambera or Camberry, which are names corrupted from the original native designation for the area “Nganbra” or “Nganbira”

Administrative divisions: 6 states and 2 territories*; Australian Capital Territory*, New South Wales, Northern Territory*, Queensland, South Australia, Tasmania, Victoria, Western Australia

Dependent areas: Ashmore and Cartier Islands, Christmas Island, Cocos (Keeling) Islands, Coral Sea Islands, Heard Island and McDonald Islands, Norfolk Island

Independence: 1 January 1901 (from the federation of UK colonies)

National holiday: Australia Day (commemorates the arrival of the First Fleet of Australian settlers), 26 January (1788); ANZAC Day (commemorates the anniversary of the landing of troops of the Australian and New Zealand Army Corps during World War I at Gallipoli, Turkey),

25 April (1915)

Constitution: *history:* approved in a series of referenda from 1898 through 1900 and became law 9 July 1900, effective 1 January 1901

amendments: proposed by Parliament; passage requires approval of a referendum bill by absolute majority vote in both houses of Parliament, approval in a referendum by a majority of voters in at least four states and in the territories, and Royal Assent; proposals that would reduce a state's representation in either house or change a state's boundaries require that state's approval prior to Royal Assent; amended several times, last in 1977

Legal system: common law system based on the English model

International law organization participation: accepts compulsory ICJ jurisdiction with reservations; accepts ICtJ jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen or permanent resident of Australia

dual citizenship recognized: yes

residency requirement for naturalization: 4 years

Suffrage: 18 years of age; universal and compulsory

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022); represented by Governor General David HURLEY (since 1 July 2019)

head of government: Prime Minister Anthony ALBANESE (since 23 May 2022)

cabinet: Cabinet nominated by the prime minister from among members of Parliament and sworn in by the governor general

elections/appointments: the monarchy is hereditary; governor general appointed by the monarch on the recommendation of the prime minister; following legislative elections, the leader of the majority party or majority coalition is sworn in as prime minister by the governor general

Legislative branch: *description:* bicameral Federal Parliament consists of:

Senate (76 seats; 12 members from each of the 6 states and 2 each from the 2 mainland territories; members directly elected in multi-seat constituencies by proportional representation vote; members serve 6-year terms with one-half of state membership renewed every 3 years and territory membership renewed every 3 years)

House of Representatives (151 seats; members directly elected in single-seat constituencies by majority preferential vote; members serve terms of up to 3 years)

elections:

Senate - last held on 21 May 2022 (next to be held on May 2025)

House of Representatives - last held on 21 May 2022 (next to be held on May 2025)

election results:

Senate (initial results) - percent of vote by party - Liberal/National coalition 32.13%, ALP 29.81%, The Greens 13.85%, One Nation 4.38%, Lambie Network .26%; seats by party - Liberal/National coalition 29, ALP 21, The Greens 9, One Nation 1, Lambie Network 1, undecided 14
House of Representatives (initial results) - percent of vote by party - ALP 32.83%, Liberal/National coalition 35.77%, The Greens 11.85%, Katter's Australian Party 0.4%, Centre Alliance 0.24%, independents 5.52%; seats by party - ALP 76, Liberal/National Coalition 57, The Greens 4, Katter's Australian Party 1, Centre Alliance 1, independent 10, undecided 2

Judicial branch: *highest court(s):* High Court of Australia (consists of 7 justices, including the chief justice); note - each of the 6 states, 2 territories, and Norfolk Island has a Supreme Court; the High Court is the final appellate court beyond the state and territory supreme courts

judge selection and term of office: justices appointed by the governor-general in council for life with mandatory retirement at age 70

subordinate courts: *subordinate courts: at the federal level:* Federal Court; Federal Circuit and Family Court of Australia; *at the state and territory level:* Local Court - New South Wales; Magistrates' Courts - Victoria, Queensland, South Australia, Western Australia, Tasmania, Northern Territory, Australian Capital Territory; District Courts - New South Wales, Queensland, South Australia, Western Australia; County

Court – Victoria; Family Court – Western Australia; Court of Petty Sessions – Norfolk Island

Political parties and leaders: Australian Greens Party or The Greens [Adam BANDT]

Australian Labor Party or ALP [Anthony ALBANESE]

Liberal Party of Australia [Peter DUTTON]

The Nationals [David LITTLEPROUD]

Pauline Hanson's One Nation or PHON or ONP [Pauline HANSON]

International organization participation: ADB, ANZUS, APEC, ARF, ASEAN (dialogue partner), Australia Group, BIS, C, CD, CP, EAS, EBRD, EITI (implementing country), FAO, FATF, G-20, IAEA, IBRD, ICAO, ICC (national committees), ICCT, ICRM, IDA, IEA, IFC, IFRC, IHO, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), MIGA, NEA, NSG, OECD, OPCW, OSCE (partner), Pacific Alliance (observer), Paris Club, PCA, PIF, SAARC (observer), Quad, SICA (observer), Spartecca, SPC, UN, UNCTAD, UNESCO, UNHCR, UNMISS, UNMIT, UNRWA, UNTSO, UNWTO, UPU, Wassenaar Arrangement, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO, ZC

Diplomatic representation in the US: *chief of mission:* Ambassador Arthur SINODINOS (since 6 February 2020)

chancery: 1601 Massachusetts Avenue NW, Washington, DC 20036

telephone: [1] (202) 797-3000

FAX: [1] (202) 797-3168

email address and website:

<https://usa.embassy.gov.au/>

consulate(s) general: Chicago, Honolulu, Houston, Los Angeles, New York, San Francisco

Diplomatic representation from the US: *chief of mission:* Ambassador Caroline KENNEDY (since 25 July 2022)

embassy: Moonah Place, Yarralumla, Australian Capital Territory 2600

mailing address: 7800 Canberra Place, Washington DC 20512-7800

telephone: [61] (02) 6214-5600

FAX: [61] (02) 9373-9184

email address and website:

AskEmbassyCanberra@state.gov

<https://au.usembassy.gov/>

consulate(s) general: Melbourne, Perth, Sydney

Flag description: blue with the flag of the UK in the upper hoist-side quadrant and a large seven-pointed star in the lower hoist-side quadrant known as the Commonwealth or Federation Star, representing the federation of the colonies of Australia in 1901; the star depicts one point for each of the six original states and one representing all of Australia's internal and external territories; on the fly half is a representation of the Southern Cross constellation in white with one small, five pointed star and four larger, seven-pointed stars

National symbol(s): Commonwealth Star (seven-pointed Star of Federation), golden wattle tree (*Acacia pycnantha* Benth), kangaroo, emu; national colors: green, gold

Commonwealth Coat of Arms:

National anthem: *name:* Advance Australia Fair

lyrics/music: Peter Dodds McCORMICK

note 1: adopted 1984; although originally written in the late 19th century, the anthem was not used for all official occasions until 1984; as a Commonwealth country, in addition to the national anthem, "God Save the King" serves as the royal anthem (see United Kingdom)

note 2: the well-known and much-loved bush ballad "Waltzing Matilda" is often referred to as Australia's unofficial national anthem; the original lyrics were written in 1895 by Australian poet Banjo PATERSON, and were first published as sheet music in 1903; since 2012, a Waltzing Matilda Day has been held annually on 6 April, the anniversary of the first performance of the song in 1895

National heritage: *total World Heritage Sites:* 20 (4 cultural, 12 natural, 4 mixed); *note -* includes one site on Heard Island and McDonald Islands

selected World Heritage Site locales: Great Barrier Reef (n); Greater Blue Mountains Area (n); Fraser Island (n); Gondwana Rainforests (n); Lord Howe Island Group (n); Royal Exhibition Building and Carlton Gardens (c); Shark Bay (n); Sydney Opera House (c); Uluru-Kata Tjuta National Park (m); Kakadu National Park (m)

ECONOMY

Economic overview: Australia is an open market with minimal restrictions on imports of goods and services. The process of opening up has increased productivity, stimulated growth, and made the economy more flexible and dynamic. Australia plays an active role in the WTO, APEC, the G20, and other trade forums. Australia's free trade agreement (FTA) with China entered into force in 2015, adding to existing FTAs with the Republic of Korea, Japan, Chile, Malaysia, New Zealand, Singapore, Thailand, and the US, and a regional FTA with ASEAN and New Zealand. Australia continues to negotiate bilateral agreements with Indonesia, as well as larger agreements with its Pacific neighbors and the Gulf Cooperation Council countries, and an Asia-wide Regional Comprehensive Economic Partnership that includes the 10 ASEAN countries and China, Japan, Korea, New Zealand, and India.

Australia is a significant exporter of natural resources, energy, and food. Australia's abundant and diverse natural resources attract high levels of foreign investment and include extensive reserves of coal, iron, copper, gold, natural gas, uranium, and renewable energy sources. A series of major investments, such as the US\$40 billion Gorgon Liquid Natural Gas Project, will significantly expand the resources sector.

For nearly two decades up till 2017, Australia had benefited from a dramatic surge in its terms of trade. As export prices increased faster than import prices, the economy experienced continuous growth, low unemployment, contained inflation, very low public debt, and a strong and stable financial system. Australia entered 2018 facing a range of growth constraints, principally driven by the sharp fall in global prices of key export commodities. Demand for resources and energy from Asia and especially China is growing at a slower pace and sharp drops in export prices have impacted growth.

Real GDP (purchasing power parity): \$1,250,900,000,000 (2020 est.)

\$1,254,480,000,000 (2019 est.)

ENERGY

Electricity access: *electrification - total population: 100% (2020)*

Electricity: *installed generating capacity: 82.517 million kW (2020 est.)*

consumption: 237,388,272,000 kWh (2019 est.)

exports: 0 kWh (2020 est.)

imports: 0 kWh (2020 est.)

transmission/distribution losses: 12,607,778,000 kWh (2019 est.)

Electricity generation sources: *fossil fuels: 75.4% of total installed capacity (2020 est.)*

solar: 8.6% of total installed capacity (2020 est.)

wind: 8.4% of total installed capacity (2020 est.)

hydroelectricity: 6.2% of total installed capacity (2020 est.)

biomass and waste: 1.4% of total installed capacity (2020 est.)

Coal: *production: 504.051 million metric tons (2020 est.)*

consumption: 99.048 million metric tons (2020 est.)

exports: 390.808 million metric tons (2020 est.)

imports: 583,000 metric tons (2020 est.)

proven reserves: 149.079 billion metric tons (2019 est.)

Petroleum: *total petroleum production: 442,500 bbl/day (2021 est.)*

refined petroleum consumption: 1,174,100 bbl/day (2019 est.)

crude oil and lease condensate exports: 197,700 bbl/day (2018 est.)

crude oil and lease condensate imports: 356,900 bbl/day (2018 est.)

crude oil estimated reserves: 2.446 billion barrels (2021 est.)

Refined petroleum products - production: 462,500 bbl/day (2017 est.)

country comparison to the world: 35

Refined petroleum products - exports: 64,120 bbl/day (2017 est.)

country comparison to the world: 48

Refined petroleum products - imports: 619,600 bbl/day (2017 est.)

country comparison to the world: 12

Natural gas: *production:* 142,104,321,000 cubic meters (2020 est.)

consumption: 41,905,381,000 cubic meters (2020 est.)

exports: 101,766,728,000 cubic meters (2020 est.)

imports: 6,295,646,000 cubic meters (2020 est.)

proven reserves: 3,228,115,000,000 cubic meters (2021 est.)

Carbon dioxide emissions: 417.87 million metric tonnes of CO₂ (2019 est.)

from coal and metallurgical coke: 162.26 million metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 158.668 million metric tonnes of CO₂ (2019 est.)

from consumed natural gas: 96.942 million metric tonnes of CO₂ (2019 est.)

country comparison to the world: 15

Energy consumption per capita: 241.004 million Btu/person (2019 est.)

country comparison to the world: 16

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 6.2 million (2020 est.)
subscriptions per 100 inhabitants: 24 (2020 est.)
country comparison to the world: 23

Telephones - mobile cellular: *total subscriptions:* 27.453 million (2020 est.)
subscriptions per 100 inhabitants: 108 (2020 est.)
country comparison to the world: 48

Telecommunication systems: *general assessment:* the Australian telecom market since 2020 has been impacted by the pandemic, which forced many people to school and work from home and thus adopt fixed-line broadband services; internet traffic, both fixed and mobile, increased substantially as a result; in the fixed sector, there is an ongoing migration from copper-based platforms to fiber; the extension of fixed wireless access will mean that up to 120,000 premises currently dependent on satellite broadband will be able to access 5G-based fixed services; the fixed-line market has been falling steadily over the past five years; in the Australian fixed broadband market, there is a dynamic shift among customers to fiber networks; the DSL sector is steadily shrinking while subscribers on HFC infrastructure will continue to be provided by existing cable, with a steady migration to full fiber connectivity (2022)

domestic: 24 per 100 fixed-line telephone subscriptions and 108 per 100 mobile-cellular; more subscribers to mobile services than there are people; 90% of all mobile device sales are now smartphones, growth in mobile traffic brisk (2020)

international: country code - 61; landing points for more than 20 submarine cables including: the SeaMeWe-3 optical telecommunications submarine cable with links to Asia, the Middle East, and Europe; the INDIGO-Central, INDIGO West and ASC, North West Cable System, Australia-Papua New Guinea cable, CSCS, PPC-1, Gondwana-1, SCCN, Hawaiki, TGA, Basslink, Bass Strait-1, Bass Strait-2, JGA-S, with links to other Australian cities, New Zealand and many countries in southeast

Asia, US and Europe; the H2 Cable, AJC, Telstra Endeavor, Southern Cross NEXT with links to Japan, Hong Kong, and other Pacific Ocean countries as well as the US; satellite earth stations - 10 Intelsat (4 Indian Ocean and 6 Pacific Ocean), 2 Inmarsat, 2 Globalstar, 5 other (2019)

Broadcast media: the Australian Broadcasting Corporation (ABC) runs multiple national and local radio networks and TV stations, as well as ABC Australia, a TV service that broadcasts in the Asia-Pacific region and is the main public broadcaster; Special Broadcasting Service (SBS), a second large public broadcaster, operates radio and TV networks broadcasting in multiple languages; several large national commercial TV networks, a large number of local commercial TV stations, and hundreds of commercial radio stations are accessible; cable and satellite systems are available (2022)

Internet country code: .au

Internet users: *total:* 23,123,940 (2020 est.)

percent of population: 90% (2020 est.)

country comparison to the world: 36

Broadband - fixed subscriptions: *total:* 9,099,619 (2020 est.)

subscriptions per 100 inhabitants: 36 (2020 est.)

country comparison to the world: 23

TRANSPORTATION

National air transport system: *number of registered air carriers:* 25 (2020)

inventory of registered aircraft operated by air carriers: 583

annual passenger traffic on registered air carriers: 75,667,645 (2018)

annual freight traffic on registered air carriers: 2,027,640,000 (2018) mt-km

Civil aircraft registration country code prefix: VH

Airports: *total:* 418 (2021)

country comparison to the world: 19

Airports - with paved runways: *total:* 349

over 3,047 m: 11

2,438 to 3,047 m: 14

1,524 to 2,437 m: 155

914 to 1,523 m: 155

under 914 m: 14 (2021)

Airports - with unpaved runways: *total:* 131

1,524 to 2,437 m: 16

914 to 1,523 m: 101

under 914 m: 14 (2021)

Heliports: 1 (2021)

Pipelines: 637 km condensate/gas, 30,054 km gas, 240 km liquid petroleum gas, 3,609 km oil, 110 km oil/gas/water, 72 km refined products (2013)

Railways: *total:* 33,011 km (2015)

standard gauge: 17,446 km (2015) 1.435-m gauge (650 km electrified)

narrow gauge: 12,318 km (2015) 1.067-m gauge (2,075.5 km electrified)

broad gauge: 3,247 km (2015) 1.600-m gauge (372 km electrified)

country comparison to the world: 8

Roadways: *total:* 873,573 km (2015)

urban: 145,928 km (2015)

non-urban: 727,645 km (2015)

country comparison to the world: 9

Waterways: 2,000 km (2011) (mainly used for recreation on Murray and Murray-Darling River systems)

country comparison to the world: 44

Merchant marine: *total:* 581

by type: bulk carrier 2, general cargo 76, oil tanker 7, other 496 (2021)

country comparison to the world: 40

Ports and terminals: *major seaport(s):*

Indian Ocean: Adelaide, Darwin, Fremantle, Geelong, Melbourne

Pacific Ocean: Brisbane, Cairns, Gladstone, Hobart, Newcastle, Port Port Kembla, Sydney

container port(s) (TEUs): Melbourne (2,967,315), Sydney (2,572,714) (2019)

LNG terminal(s) (export): Australia Pacific, Barrow Island, Burrup (Pluto), Curtis Island, Darwin, Karratha, Bladin Point (Ichthys), Gladstone, Prelude (offshore FLNG), Wheatstone

dry bulk cargo port(s): Dampier (iron ore), Dalrymple Bay (coal), Hay Point (coal), Port Hedland (iron ore), Port Walcott (iron ore)

MILITARY AND SECURITY

Military and security forces: Australian Defense Force (ADF): Australian Army, Royal Australian Navy, Royal Australian Air Force (2022)

note: the Army includes a Special Operations Command, while the Navy includes a Naval Aviation Force

Military expenditures: 2% of GDP (2022 est.)

2.1% of GDP (2021)

2.1% of GDP (2020)

2% of GDP (2019) (approximately \$31.5 billion)

1.9% of GDP (2018) (approximately \$29.8 billion)

country comparison to the world: 55

Military and security service personnel strengths: approximately 60,000 active troops (30,000 Army; 15,000 Navy; 15,000 Air Force) (2022)

Military equipment inventories and acquisitions: the Australian military's inventory includes a mix of domestically-produced and imported Western weapons systems; since 2015, the US is the largest supplier of arms; the Australian defense industry produces a variety of land and sea weapons platforms; the defense industry also participates in joint development and production ventures with other Western countries, including the US and Canada (2022)

Military service age and obligation: 17 years of age for voluntary military service (with parental consent); no conscription (abolished 1973); women allowed to serve in all roles, including combat arms, since 2013 (2022)

note 1: foreign nationals who are permanent residents, particularly New Zealanders, or those who have applied for citizenship or overseas candidates who have appropriate experience and qualifications from an overseas military can apply to join the ADF

note 2: in 2020-2021, women comprised nearly 20% of the military

Military deployments: *note:* since the 1990s, Australia has deployed more than 30,000 personnel on nearly 100 UN peacekeeping and coalition military operations, including in Cambodia, Rwanda, the Solomon Islands, Somalia, and East Timor

Military - note: Australia has been part of the Australia, New Zealand, and US Security (ANZUS) Treaty since 1951; Australia is also a member of the Five Powers Defense Arrangements (FPDA), a series of mutual assistance agreements reached in 1971 embracing Australia, Malaysia, New Zealand, Singapore, and the UK; the FPDA commits the members to consult with one another in the event or threat of an armed attack on any of the members and to mutually decide what measures should be taken, jointly or separately; there is no specific obligation to intervene militarily

Australia has a long-standing military relationship with the US; Australian and US forces first fought together in France in 1918 at the Battle of Hamel, and have fought together in every major US conflict since; Australia and the US signed an agreement in 2014 that allowed for closer bi-lateral defense and security cooperation, including annual rotations of US Marines and enhanced rotations of US Air Force aircraft to Australia; Australian military forces train often with US forces; Australia has Major Non-NATO Ally (MNNA) status with the US, a designation under US law that provides foreign partners with certain benefits in the areas of defense trade and security cooperation; Australia also has long-standing defense and security ties to the UK, including a Defense and Security Cooperation Treaty signed in 2013; in 2020, Australia and the UK signed a memorandum of understanding to cooperate on the building of a next generation of frigates for their respective navies; the Australia-UK Ministerial Consultations (AUKMIN) is their premier bilateral forum on foreign policy, defense, and security issues

in 2021, Australia, the UK, and the US announced an enhanced trilateral security partnership called “AUKUS” which would build on existing bilateral ties, including deeper integration of defense and security-related science, technology, industrial bases, and supply chains, as well as deeper cooperation on a range of defense and security

capabilities; the first initiative under AUKUS was a commitment to support Australia in acquiring conventionally armed nuclear-powered submarines for the Royal Australian Navy (2022)

TERRORISM

Terrorist group(s): Islamic State of Iraq and ash-Sham (ISIS)

TRANSNATIONAL ISSUES

Disputes - international: *Australia-Indonesia (Maritime Boundary):*

All borders between Indonesia and Australia have been agreed upon bilaterally, but a 1997 treaty that would settle the last of their maritime and EEZ boundary has yet to be ratified by Indonesia's legislature. Indonesian groups challenge Australia's claim to Ashmore Reef. Australia closed parts of the Ashmore and Cartier reserve to Indonesian traditional fishing.

Australia-Timor-Leste (Maritime Boundary): In 2007, Australia and Timor-Leste agreed to a 50-year development zone and revenue sharing arrangement and deferred a maritime boundary.

Refugees and internally displaced persons: *refugees (country of origin):* 12,701 (Iran), 10,108 (Afghanistan), 5,400 (Pakistan) (mid-year 2021)

stateless persons: 5,770 (mid-year 2021)

Illicit drugs: Tasmania is one of the world's major suppliers of licit opiate products; government maintains strict controls over areas of opium poppy cultivation and output of poppy straw concentrate; major consumer of cocaine and amphetamines

AUSTRIA

INTRODUCTION

Background: Once the center of power for the large Austro-Hungarian Empire, Austria was reduced to a small republic after its defeat in World War I. Following annexation by Nazi Germany in 1938 and subsequent occupation by the victorious Allies in 1945, Austria's status remained unclear for a decade. A State Treaty signed in 1955 ended the occupation, recognized Austria's independence, and forbade unification with Germany. A constitutional law that same year declared the country's "perpetual neutrality" as a condition for Soviet military withdrawal. The Soviet Union's collapse in 1991 and Austria's entry into the EU in 1995 have altered the meaning of this neutrality. A prosperous, democratic country, Austria entered the EU Economic and Monetary Union in 1999.

GEOGRAPHY

Location: Central Europe, north of Italy and Slovenia

Geographic coordinates: 47 20 N, 13 20 E

Map references: Europe

Area: *total:* 83,871 sq km

land: 82,445 sq km

water: 1,426 sq km

country comparison to the world: 114

Area - comparative: about the size of South Carolina; slightly more than two-thirds the size of Pennsylvania

Land boundaries: *total:* 2,524 km

border countries (8): Czech Republic 402 km; Germany 801 km; Hungary 321 km; Italy 404 km; Liechtenstein 34 km; Slovakia 105 km; Slovenia 299 km; Switzerland 158 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: temperate; continental, cloudy; cold winters with frequent rain and some snow in lowlands and snow in mountains; moderate summers with occasional showers

Terrain: mostly mountains (Alps) in the west and south; mostly flat or gently sloping along the eastern and northern margins

Elevation: *highest point:* Grossglockner 3,798 m

lowest point: Neusiedler See 115 m

mean elevation: 910 m

Natural resources: oil, coal, lignite, timber, iron ore, copper, zinc, antimony, magnesite, tungsten, graphite, salt, hydropower

Land use: *agricultural land:* 38.4% (2018 est.)

arable land: 16.5% (2018 est.)

permanent crops: 0.8% (2018 est.)

permanent pasture: 21.1% (2018 est.)

forest: 47.2% (2018 est.)

other: 14.4% (2018 est.)

Irrigated land: 1,170 sq km (2012)

Major lakes (area sq km): *fresh water lake(s)*: Lake Constance (shared with Switzerland and Germany) - 540 sq km

Major rivers (by length in km): Danube (shared with Germany [s], Slovakia, Czechia, Hungary, Croatia, Serbia, Bulgaria, Ukraine, Moldova, and Romania [m]) - 2,888 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km):

Atlantic Ocean drainage: Rhine-Maas (198,735 sq km), (*Black Sea*) Danube (795,656 sq km)

Population distribution: the northern and eastern portions of the country are more densely populated; nearly two-thirds of the populace lives in urban areas

Natural hazards: landslides; avalanches; earthquakes

Geography - note: *note 1*: landlocked; strategic location at the crossroads of central Europe with many easily traversable Alpine passes and valleys; major river is the Danube; population is concentrated on eastern lowlands because of steep slopes, poor soils, and low temperatures elsewhere

note 2: the world's largest and longest ice cave system at 42 km (26 mi) is the Eisriesenwelt (Ice Giants World) inside the Hochkogel mountain near Werfen, about 40 km south of Salzburg; ice caves are bedrock caves that contain year-round ice formations; they differ from glacial caves, which are transient and are formed by melting ice and flowing water within and under glaciers

PEOPLE AND SOCIETY

Population: 8,913,088 (2022 est.)

country comparison to the world: 99

Nationality: *noun:* Austrian(s)

adjective: Austrian

Ethnic groups: Austrian 80.8%, German 2.6%, Bosnian and Herzegovinian 1.9%, Turkish 1.8%, Serbian 1.6%, Romanian 1.3%, other 10% (2018 est.)

note: data represent population by country of birth

Languages: German (official nationwide) 88.6%, Turkish 2.3%, Serbian 2.2%, Croatian (official in Burgenland) 1.6%, other (includes Slovene, official in southern Carinthia, and Hungarian, official in Burgenland) 5.3% (2001 est.)

major-language sample(s):

Das World Factbook, die unverzichtbare Quelle für grundlegende Informationen. (German)

Religions: Catholic 57%, Eastern Orthodox 8.7%, Muslim 7.9%, Evangelical Christian 3.3%, other/none/unspecified 23.1% (2018 est.)

note: data on Muslim is a 2016 estimate; data on other/none/unspecified are from 2012-2018 estimates

Age structure: *0-14 years:* 14.01% (male 635,803/female 605,065)

15-24 years: 10.36% (male 466,921/female 451,248)

25-54 years: 41.35% (male 1,831,704/female 1,831,669)

55-64 years: 14.41% (male 635,342/female 641,389)

65 years and over: 19.87% (male 768,687/female 991,621) (2020 est.)

Dependency ratios: *total dependency ratio:* 50.6

youth dependency ratio: 21.7

elderly dependency ratio: 28.9

potential support ratio: 3.5 (2020 est.)

Median age: *total:* 44.5 years

male: 43.1 years

female: 45.8 years (2020 est.)

country comparison to the world: 14

Population growth rate: 0.32% (2022 est.)

country comparison to the world: 166

Birth rate: 9.45 births/1,000 population (2022 est.)

country comparison to the world: 193

Death rate: 9.85 deaths/1,000 population (2022 est.)

country comparison to the world: 38

Net migration rate: 3.55 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 35

Population distribution: the northern and eastern portions of the country are more densely populated; nearly two-thirds of the populace lives in urban areas

Urbanization: *urban population:* 59.3% of total population (2022)

rate of urbanization: 0.68% annual rate of change (2020-25 est.)

Major urban areas - population: 1.960 million VIENNA (capital) (2022)

Sex ratio: *at birth:* 1.05 male(s)/female

0-14 years: 1.05 male(s)/female

15-24 years: 1.03 male(s)/female

25-54 years: 1 male(s)/female

55-64 years: 0.99 male(s)/female

65 years and over: 0.65 male(s)/female

total population: 0.96 male(s)/female (2022 est.)

Mother's mean age at first birth: 29.7 years (2020 est.)

Maternal mortality ratio: 5 deaths/100,000 live births (2017 est.)

country comparison to the world: 163

Infant mortality rate: *total:* 3.24 deaths/1,000 live births

male: 3.65 deaths/1,000 live births

female: 2.81 deaths/1,000 live births (2022 est.)

country comparison to the world: 205

Life expectancy at birth: *total population: 82.27 years*

male: 79.64 years

female: 85.04 years (2022 est.)

country comparison to the world: 25

Total fertility rate: *1.51 children born/woman (2022 est.)*

country comparison to the world: 199

Contraceptive prevalence rate: *79% (2019)*

note: percent of women aged 16-49

Drinking water source: *improved: urban: 100% of population*

rural: 100% of population

total: 100% of population

Current health expenditure: *10.4% of GDP (2019)*

Physicians density: *5.29 physicians/1,000 population (2020)*

Hospital bed density: *7.3 beds/1,000 population (2018)*

Sanitation facility access: *improved: urban: 100% of population*

rural: 100% of population

total: 100% of population

HIV/AIDS - adult prevalence rate: *0.1% (2017 est.)*

country comparison to the world: 119

Obesity - adult prevalence rate: *20.1% (2016)*

country comparison to the world: 105

Alcohol consumption per capita: *total: 11.9 liters of pure alcohol (2019 est.)*

beer: 6.3 liters of pure alcohol (2019 est.)

wine: 3.7 liters of pure alcohol (2019 est.)

spirits: 1.9 liters of pure alcohol (2019 est.)

other alcohols: 0 liters of pure alcohol (2019 est.)

country comparison to the world: 5

Tobacco use: *total:* 26.4% (2020 est.)

male: 27.7% (2020 est.)

female: 25% (2020 est.)

country comparison to the world: 42

Education expenditures: 5.2% of GDP (2018 est.)

country comparison to the world: 53

School life expectancy (primary to tertiary education): *total:* 16 years

male: 16 years

female: 16 years (2019)

Unemployment, youth ages 15-24: *total:* 10.5%

male: 11.3%

female: 9.5% (2020 est.)

ENVIRONMENT

Environment - current issues: some forest degradation caused by air and soil pollution; soil pollution results from the use of agricultural chemicals; air pollution results from emissions by coal- and oil-fired power stations and industrial plants and from trucks transiting Austria between northern and southern Europe; water pollution; the Danube, as well as some of Austria's other rivers and lakes, are threatened by pollution

Environment - international agreements: *party to:* Air Pollution, Air Pollution-Heavy Metals, Air Pollution-Nitrogen Oxides, Air Pollution-Persistent Organic Pollutants, Air Pollution-Sulphur 85, Air Pollution-Sulphur 94, Air Pollution-Volatile Organic Compounds, Antarctic Treaty, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands, Whaling
signed, but not ratified: Air Pollution-Multi-effect Protocol, Antarctic-Environmental Protection

Air pollutants: *particulate matter emissions:* 12.43 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 61.45 megatons (2016 est.)

methane emissions: 6.34 megatons (2020 est.)

Climate: temperate; continental, cloudy; cold winters with frequent rain and some snow in lowlands and snow in mountains; moderate summers with occasional showers

Land use: *agricultural land:* 38.4% (2018 est.)

arable land: 16.5% (2018 est.)

permanent crops: 0.8% (2018 est.)

permanent pasture: 21.1% (2018 est.)

forest: 47.2% (2018 est.)

other: 14.4% (2018 est.)

Urbanization: *urban population: 59.3% of total population (2022)*

rate of urbanization: 0.68% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues: 0.07% of GDP (2018 est.)*

country comparison to the world: 122

Revenue from coal: *coal revenues: 0% of GDP (2018 est.)*

country comparison to the world: 59

Waste and recycling: *municipal solid waste generated annually: 4.836 million tons (2015 est.)*

municipal solid waste recycled annually: 1,240,918 tons (2015 est.)

percent of municipal solid waste recycled: 25.7% (2015 est.)

Major lakes (area sq km): *fresh water lake(s): Lake Constance (shared with Switzerland and Germany) - 540 sq km*

Major rivers (by length in km): Danube (shared with Germany [s], Slovakia, Czechia, Hungary, Croatia, Serbia, Bulgaria, Ukraine, Moldova, and Romania [m]) - 2,888 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km):

Atlantic Ocean drainage: Rhine-Maas (198,735 sq km), (*Black Sea*) Danube (795,656 sq km)

Total water withdrawal: *municipal: 720 million cubic meters (2017 est.)*

industrial: 2.695 billion cubic meters (2017 est.)

agricultural: 77.1 million cubic meters (2017 est.)

Total renewable water resources: 77.7 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Austria

conventional short form: Austria

local long form: Republik Oesterreich

local short form: Oesterreich

etymology: the name Oesterreich means “eastern realm” or “eastern march” and dates to the 10th century; the designation refers to the fact that Austria was the easternmost extension of Bavaria, and, in fact, of all the Germans; the word Austria is a Latinization of the German name

Government type: federal parliamentary republic

Capital: *name:* Vienna

geographic coordinates: 48 12 N, 16 22 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

daylight saving time: +1hr, begins last Sunday in March; ends last Sunday in October

etymology: the origin of the name is disputed but may derive from early Celtic settlements of the area; a possible reconstructed Celtic name from several centuries B.C. is Vedunia (meaning “forest stream”); under Roman settlement, beginning around 15 B.C., the name became Vindobona (likely from the Celtic *windo*, meaning “white, fair, or bright” and *bona* meaning “base, fortification, or settlement” to give a connotation of “white settlement” or “white fort”); archeological remains of the latter survive at many sites in the center of Vienna

Administrative divisions: 9 states (Bundeslaender, singular - Bundesland); Burgenland, Kaernten (Carinthia), Niederoesterreich (Lower Austria), Oberoesterreich (Upper Austria), Salzburg, Steiermark (Styria), Tirol (Tyrol), Vorarlberg, Wien (Vienna)

Independence: *no official date of independence:* 976 (Margravate of Austria established); 17 September 1156 (Duchy of Austria founded); 6 January 1453 (Archduchy of Austria acknowledged); 11 August 1804

(Austrian Empire proclaimed); 30 March 1867 (Austro-Hungarian dual monarchy established); 12 November 1918 (First Republic proclaimed); 27 April 1945 (Second Republic proclaimed)

National holiday: National Day (commemorates passage of the law on permanent neutrality), 26 October (1955)

Constitution: *history:* several previous; latest adopted 1 October 1920, revised 1929, replaced May 1934, replaced by German Weimar constitution in 1938 following German annexation, reinstated 1 May 1945
amendments: proposed through laws designated “constitutional laws” or through the constitutional process if the amendment is part of another law; approval required by at least a two-thirds majority vote by the National Assembly and the presence of one half of the members; a referendum is required only if requested by one third of the National Council or Federal Council membership; passage by referendum requires absolute majority vote; amended many times, last in 2020

Legal system: civil law system; judicial review of legislative acts by the Constitutional Court

International law organization participation: accepts compulsory ICJ jurisdiction; accepts ICtJ jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Austria

dual citizenship recognized: no

residency requirement for naturalization: 10 years

Suffrage: 16 years of age; universal

Executive branch: *chief of state:* President Alexander VAN DER BELLEN (since 26 January 2017); note - President Alexander VAN DER BELLEN was re-elected to a second six year term on 9 October 2022

head of government: Chancellor Karl NEHAMMER (since 6 December 2021); note - Chancellor Alexander SCHALLENBERG resigned on 2 December 2021

cabinet: Council of Ministers chosen by the president on the advice of the

chancellor

elections/appointments: president directly elected by absolute majority popular vote in 2 rounds if needed for a 6-year term (eligible for a second term); elections last held on 24 April 2016 (first round), 22 May 2016 (second round, which was annulled), and 4 December 2016 (second round re-vote) (next election to be held on 9 October 2022); chancellor appointed by the president but determined by the majority coalition parties in the Federal Assembly; vice chancellor appointed by the president on the advice of the chancellor

election results: 2016: Alexander VAN DER BELLEN elected in second round; percent of vote in first round - Norbert HOFER (FPOe) 35.1%, Alexander VAN DER BELLEN (independent, allied with the Greens) 21.3%, Irmgard GRISS (independent) 18.9%, Rudolf HUNDSTORFER (SPOe) 11.3%, Andreas KHOL (OeVP) 11.1%, Richard LUGNER (independent) 2.3%; percent of vote in second round re-vote - Alexander VAN DER BELLEN 53.8%, Norbert HOFER 46.2%

2010: Heinz FISCHER re-elected; percent of vote - Heinz FISCHER 79.3%, Barbara ROSENKRANZ 15.2%, Rudolf GEHRING 5.4%

Legislative branch: *description:* bicameral Federal Assembly or Bundesversammlung consists of:

Federal Council or Bundesrat (61 seats; members appointed by state parliaments with each state receiving 3 to 12 seats in proportion to its population; members serve 5- or 6-year terms)

National Council or Nationalrat (183 seats; members directly elected in single-seat constituencies by proportional representation vote; members serve 5-year terms)

elections: Federal Council - last appointed in 2021

National Council - last held on 29 September 2019 (next to be held in 2024); note - election was originally scheduled for 2022, but President VAN DER BELLEN called for an early election

election results: Federal Council - percent of vote by party - OeVP 42.6%, SPOe 31.2%, FPOe 16.4%, The Greens 8.2%, NEOS 1.6%; seats by party - OeVP 26, SPOe 19, FPOe 10, The Greens 5, NEOS 1; composition (as of March 2022) - men 36, women 25, percent of women

41%

National Council - percent of vote by party - OeVP 37.5%, SPOe 21.2%, FPOe 16.2%, The Greens 13.9%, NEOS 8.1%, other 3.1%; seats by party - OeVP 71, SPOe 40, FPOe 31, The Greens 26, NEOS 15; composition (as of March 2022) - men 107, women 76, percent of women 41.5%

Judicial branch: *highest court(s):* Supreme Court of Justice or Oberster Gerichtshof (consists of 85 judges organized into 17 senates or panels of 5 judges each); Constitutional Court or Verfassungsgerichtshof (consists of 20 judges including 6 substitutes; Administrative Court or Verwaltungsgerichtshof - 2 judges plus other members depending on the importance of the case)

judge selection and term of office: Supreme Court judges nominated by executive branch departments and appointed by the president; judges serve for life; Constitutional Court judges nominated by several executive branch departments and approved by the president; judges serve for life; Administrative Court judges recommended by executive branch departments and appointed by the president; terms of judges and members determined by the president

subordinate courts: Courts of Appeal (4); Regional Courts (20); district courts (120); county courts

Political parties and leaders: Austrian People's Party or OeVP [Karl NEHAMMER]

Communist Party of Austria or KPOe [Mirko MESSNER]

Freedom Party of Austria or FPOe [Herbert KICKI]

The Greens - The Green Alternative [Werner KOGLER]

NEOS - The New Austria and Liberal Forum [Beate MEINL-REISINGER]

Social Democratic Party of Austria or SPOe [Pamela RENDI-WAGNER]

International organization participation: ADB (nonregional member), AfDB (nonregional member), Australia Group, BIS, BSEC (observer), CD, CE, CEI, CERN, EAPC, EBRD, ECB, EIB, EMU, ESA, EU, FAO, FATF, G-9, IADB, IAEA, IBRD, ICAO, ICC (national committees), ICCt, ICRM, IDA, IEA, IFAD, IFC, IFRCS, IGAD

(partners), ILO, IMF, IMO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), MIGA, MINURSO, NEA, NSG, OAS (observer), OECD, OIF (observer), OPCW, OSCE, Paris Club, PCA, PFP, Schengen Convention, SELEC (observer), UN, UNCTAD, UNESCO, UNFICYP, UNHCR, UNIDO, UNIFIL, UNTSO, UNWTO, UPU, Wassenaar Arrangement, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO, ZC

telephone: [43] (1) 31339-0

FAX: [43] (1) 310-06-82

email address and website:

ConsulateVienna@state.gov

<https://at.usembassy.gov/>

Flag description: three equal horizontal bands of red (top), white, and red; the flag design is certainly one of the oldest - if not the oldest - national banners in the world; according to tradition, in 1191, following a fierce battle in the Third Crusade, Duke Leopold V of Austria's white tunic became completely blood-spattered; upon removal of his wide belt or sash, a white band was revealed; the red-white-red color combination was subsequently adopted as his banner

National symbol(s): eagle, edelweiss, Alpine gentian; national colors:

red, white

National anthem: *name:* “Bundeshymne” (Federal Hymn)

lyrics/music: Paula von PRERADOVIC/Wolfgang Amadeus MOZART or Johann HOLZER (disputed)

note 1: adopted 1947; the anthem is also known as “Land der Berge, Land am Strome” (Land of the Mountains, Land by the River); Austria adopted a new national anthem after World War II to replace the former imperial anthem composed by Franz Josef HAYDN, which had been appropriated by Germany in 1922 and was thereafter associated with the Nazi regime; a gender-neutral version of the lyrics was adopted by the Austrian Federal Assembly in fall 2011 and became effective 1 January 2012

note 2: the beloved waltz “The Blue Danube” (“An der schoenen, blauen Donau”), composed in 1866 by the Austrian composer Johann STRAUSS II, is consistently referred to as Austria’s unofficial national anthem

National heritage: *total World Heritage Sites:* 12 (11 cultural, 1 natural)

selected World Heritage Site locales: Historic Salzburg (c); Palace and Gardens of Schönbrunn (c); Halstadt– Dachstein/Salzkammergut Cultural Landscape (c); Semmering railway (c); Historic Graz and Schloss Eggenberg (c); Wachau Cultural Landscape (c); Historic Vienna (c); Fertő/Neusiedlersee Cultural Landscape (c); Baden bei Wien (c); Primeval Beech Forests - Dürrenstein, Kalkalpen (n)

ECONOMY

Economic overview: Austria is a well-developed market economy with skilled labor force and high standard of living. It is closely tied to other EU economies, especially Germany's, but also the US', its third-largest trade partner. Its economy features a large service sector, a sound industrial sector, and a small, but highly developed agricultural sector.

Austrian economic growth strengthened in 2017, with a 2.9% increase in GDP. Austrian exports, accounting for around 60% of the GDP, were up 8.2% in 2017. Austria's unemployment rate fell by 0.3% to 5.5%, which is low by European standards, but still at its second highest rate since the end of World War II, driven by an increased number of refugees and EU migrants entering the labor market.

Austria's fiscal position compares favorably with other euro-zone countries. The budget deficit stood at a low 0.7% of GDP in 2017 and public debt declined again to 78.4% of GDP in 2017, after reaching a post-war high 84.6% in 2015. The Austrian government has announced it plans to balance the fiscal budget in 2019. Several external risks, such as Austrian banks' exposure to Central and Eastern Europe, the refugee crisis, and continued unrest in Russia/Ukraine, eased in 2017, but are still a factor for the Austrian economy. Exposure to the Russian banking sector and a deep energy relationship with Russia present additional risks.

Austria elected a new pro-business government in October 2017 that campaigned on promises to reduce bureaucracy, improve public sector efficiency, reduce labor market protections, and provide positive investment incentives.

Real GDP (purchasing power parity): \$463.12 billion (2020 est.)

\$495.8 billion (2019 est.)

\$488.86 billion (2018 est.)

ENERGY

Electricity access: *electrification - total population: 100% (2020)*

Electricity: *installed generating capacity: 28.376 million kW (2020 est.)*

consumption: 69,905,200,000 kWh (2020 est.)

exports: 22,918,265,000 kWh (2020 est.)

imports: 24.522 billion kWh (2020 est.)

transmission/distribution losses: 3.192 billion kWh (2020 est.)

Electricity generation sources: *fossil fuels: 17.4% of total installed capacity (2020 est.)*

solar: 2.8% of total installed capacity (2020 est.)

wind: 9.4% of total installed capacity (2020 est.)

hydroelectricity: 62.9% of total installed capacity (2020 est.)

biomass and waste: 7.4% of total installed capacity (2020 est.)

Coal: *production: 1.327 million metric tons (2020 est.)*

consumption: 4.899 million metric tons (2020 est.)

exports: 1,000 metric tons (2020 est.)

imports: 3.667 million metric tons (2020 est.)

proven reserves: 0 metric tons (2019 est.)

Petroleum: *total petroleum production: 20,100 bbl/day (2021 est.)*

refined petroleum consumption: 278,700 bbl/day (2019 est.)

crude oil and lease condensate exports: 0 bbl/day (2018 est.)

crude oil and lease condensate imports: 168,300 bbl/day (2018 est.)

crude oil estimated reserves: 35.2 million barrels (2021 est.)

Refined petroleum products - production: 186,500 bbl/day (2017 est.)

country comparison to the world: 54

Refined petroleum products - exports: 49,960 bbl/day (2017 est.)

country comparison to the world: 55

Refined petroleum products - imports: 135,500 bbl/day (2017 est.)

country comparison to the world: 42

Natural gas: *production:* 924.515 million cubic meters (2019 est.)

consumption: 9,207,632,000 cubic meters (2019 est.)

exports: 2,800,248,000 cubic meters (2019 est.)

imports: 14,114,028,000 cubic meters (2019 est.)

proven reserves: 5.04 billion cubic meters (2021 est.)

Carbon dioxide emissions: 65.54 million metric tonnes of CO₂ (2019 est.)

from coal and metallurgical coke: 10.508 million metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 37.336 million metric tonnes of CO₂ (2019 est.)

from consumed natural gas: 17.695 million metric tonnes of CO₂ (2019 est.)

country comparison to the world: 52

Energy consumption per capita: 171.299 million Btu/person (2019 est.)

country comparison to the world: 28

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 3,786,725 (2020 est.)
subscriptions per 100 inhabitants: 42 (2020 est.)
country comparison to the world: 35

Telephones - mobile cellular: *total subscriptions:* 10,717,445 (2020 est.)
subscriptions per 100 inhabitants: 119 (2020 est.)
country comparison to the world: 85

Telecommunication systems: *general assessment:* mature telecom market; the mobile market benefits from a growing number of Mobile Virtual Network Operators; the telcos as well as the government and regulator have been focused on delivering improved telecom infrastructure; the government has a program to provide a national gigabit service by 2030, delivered by private enterprise though with some state funding; this is based on fiber networks supported by 5G, with the Mobile Network Operators able to expand the reach of their 5G services following auctions held in March 2019 and September 2020; the fixed-line broadband market is still dominated by the DSL sector, while the cable broadband sector has held a steady share of connections in recent years; the fiber sector was slow to develop, and although fiber remains low there are plans to build out the network infrastructure (2021)

domestic: developed and efficient; 42 per 100 fixed-line for households, 174 per 100 for companies; roughly 119 per 100 mobile-cellular; broadband: 138 per 100 on smartphones; roughly 29 per 100 fixed broadband and 107 per 100 mobile broadband (2020)

international: country code - 43; earth stations available in the Astra, Intelsat, Eutelsat satellite systems (2019)

Broadcast media: worldwide cable and satellite TV are available; the public incumbent ORF competes with three other major, several regional domestic, and up to 400 international TV stations; TV coverage is in principle 100%, but only 90% use broadcast media; Internet streaming not only complements, but increasingly replaces regular TV stations (2019)

Internet country code: .at

Internet users: *total:* 7,846,840 (2020 est.)

percent of population: 88% (2020 est.)

country comparison to the world: 73

Broadband - fixed subscriptions: *total:* 2.606 million (2020 est.)

subscriptions per 100 inhabitants: 29 (2020 est.)

country comparison to the world: 49

Communications - note: *note 1:* the Austrian National Library contains important collections of the Imperial Library of the Holy Roman Empire and of the Austrian Empire, as well as of the Austrian Republic; among its more than 12 million items are outstanding holdings of rare books, maps, globes, papyrus, and music; its Globe Museum is the only one in the world

note 2: on 1 October 1869, Austria-Hungary introduced the world's first postal card - postal stationery with an imprinted stamp indicating the prepayment of postage; simple and cheap (sent for a fraction of the cost of a regular letter), postal cards became an instant success, widely produced in the millions worldwide

note 3: Austria followed up with the creation of the world's first commercial picture postcards - cards bearing a picture or photo to which postage is affixed - in May 1871; sent from Vienna, the image served as a souvenir of the city; together, postal cards and post cards served as the world's e-mails of the late 19th and early 20th centuries

note 4: Austria was also an airmail pioneer; from March to October of 1918, it conducted the world's first regular (daily) airmail service - between the imperial cities of Vienna, Krakow, and Lemberg - a combined distance of some 650 km (400 mi) (earlier airmail services had been set up in a few parts of the world but only for short stretches, and none lasted beyond a few days or weeks); an expansion of the route in June of 1918 allowed private mail to be flown to Kyiv, in newly independent Ukraine, which made the route the world's first regular international airmail service (covering a distance of some 1,200 km; 750 mi)

TRANSPORTATION

National air transport system: *number of registered air carriers:* 11 (2020)

inventory of registered aircraft operated by air carriers: 130

annual passenger traffic on registered air carriers: 12,935,505 (2018)

annual freight traffic on registered air carriers: 373.51 million (2018)

MILITARY AND SECURITY

Military and security forces: Austrian Armed Forces: Land Forces, Air Forces, Cyber Forces, Special Forces (2022)

Military expenditures: 0.9% of GDP (2021 est.)

0.7% of GDP (2020)

0.7% of GDP (2019) (approximately \$3.78 billion)

0.7% of GDP (2018) (approximately \$3.82 billion)

0.8% of GDP (2017) (approximately \$3.71 billion)

country comparison to the world: 136

Military and security service personnel strengths: approximately 25,000 active duty personnel (20,000 Army; 5,000 Air Force) (2022)

Military equipment inventories and acquisitions: the Austrian military's inventory includes a mix of domestically-produced and imported weapons systems from European countries and the US; the Austrian defense industry produces a range of equipment and partners with other countries (2021)

Military service age and obligation: registration requirement at age 17, the legal minimum age for voluntary military service; men above the age of 18 are subject to compulsory military service; women may volunteer; compulsory service is for 6 months, or optionally, alternative civil/community service (Zivildienst) for 9 months (2022)

note 1: as of 2019, women made up about 4% of the military's full-time personnel

note 2: in a January 2013 referendum, a majority of Austrians voted in favor of retaining the system of compulsory military service (with the option of alternative/non-military service) instead of switching to a professional army system; approximately 40% of those liable to compulsory service have opted in favor of alternative civil/community service

Military deployments: 170 Bosnia-Herzegovina (EUFOR stabilization force); 300 Kosovo (NATO/KFOR); 200 Lebanon (UNIFIL) (Aug 2022)

Military - note: Austria is constitutionally non-aligned but is an EU member and actively participates in EU peacekeeping and crisis management operations under the Common Security and Defense Policy; Austria is not a member of NATO but joined NATO's Partnership for Peace framework in 1995 and participates in NATO-led crisis management and peacekeeping operations; as of 2022, more than 100,000 Austrian military and civilian personnel had taken part in more than 50 international peace support and humanitarian missions since 1960 (2022)

TERRORISM

Terrorist group(s): Islamic State of Iraq and ash-Sham (ISIS)

TRANSNATIONAL ISSUES

Disputes - international: none identified

Refugees and internally displaced persons: *refugees (country of origin):* 57,887 (Syria), 41,037 (Afghanistan), 9,661 (Iraq), 8,212 (Somalia), 7,046 (Iran), 7,003 (Russia) (mid-year 2021); 86,903 (Ukraine) (as of 22 November 2022)

stateless persons: 3,229 (mid-year 2021)

Illicit drugs: transshipment point for Southwest Asian heroin and South American cocaine destined for Western Europe; increasing consumption of European-produced synthetic drugs

AZERBAIJAN

INTRODUCTION

Background: Azerbaijan - a secular nation with a majority-Turkic and majority-Shia Muslim population - was briefly independent (from 1918 to 1920) following the collapse of the Russian Empire; it was subsequently incorporated into the Soviet Union for seven decades. Azerbaijan remains involved in the protracted Nagorno-Karabakh conflict with Armenia. Nagorno-Karabakh was a primarily ethnic Armenian region that Moscow recognized in 1923 as an autonomous oblast within Soviet Azerbaijan. In the late Soviet period, a separatist movement developed which sought to end Azerbaijani control over the region. Fighting over Nagorno-Karabakh began in 1988 and escalated after Armenia and Azerbaijan attained independence from the Soviet Union in 1991. By the time a ceasefire took effect in May 1994, separatists, with Armenian support, controlled Nagorno-Karabakh and seven surrounding Azerbaijani territories.

Under the terms of a cease-fire agreement following Azerbaijan's victory in the Second Nagorno-Karabakh War that took place from September-November 2020, Armenia returned to Azerbaijan the remaining territories it had occupied and also the southern part of Nagorno-Karabakh, including the culturally and historically important city that Azerbaijanis call Shusha and Armenians call Shushi. Despite Azerbaijan's territorial gains, peace in the region remains elusive because of unsettled issues concerning the delimitation of borders, the opening of regional transportation and communication links, the status of ethnic enclaves near border regions, and the final status of the Nagorno-Karabakh region. Russian peacekeepers deployed to Nagorno-Karabakh to supervise the cease-fire for a minimum five-year term have not prevented the outbreak of sporadic, low-level military clashes along the Azerbaijan-Armenia border in 2021.

In the three decades following its independence in 1991, Azerbaijan has succeeded in significantly reducing the poverty rate and has directed revenues from its oil and gas production to develop the country's infrastructure. However, corruption remains a burden on the economy, and Western observers and members of the country's political opposition

have accused the government of authoritarianism, pointing to elections that are neither free nor fair, state control of the media, and the systematic abuse of human rights targeting individuals and groups who are perceived as threats to the administration. The country's leadership has remained in the ALIYEV family since Heydar ALIYEV, formerly the most highly ranked Azerbaijani member of the Communist Party during the Soviet period, became president in the midst of the first Nagorno-Karabakh War in 1993. Heydar ALIYEV groomed his son to succeed him, and Ilham ALIYEV subsequently became president in 2003. As a result of two national referendums that eliminated presidential term limits and extended the presidential term from 5 to 7 years, President ALIYEV secured a fourth term in April 2018 in an election that international observers noted had serious shortcomings. Reforms are underway to diversify the country's economy away from its dependence on oil and gas; additional reforms are needed to address weaknesses in government institutions, particularly in the education and health sectors, and the court system.

GEOGRAPHY

Location: Southwestern Asia, bordering the Caspian Sea, between Iran and Russia, with a small European portion north of the Caucasus range

Geographic coordinates: 40 30 N, 47 30 E

Map references: Asia

Area: *total:* 86,600 sq km

land: 82,629 sq km

water: 3,971 sq km

note: includes the exclave of Naxcivan Autonomous Republic and the Nagorno-Karabakh region; the region's autonomy was abolished by Azerbaijani Supreme Soviet on 26 November 1991

country comparison to the world: 113

Area - comparative: about three-quarters the size of Pennsylvania; slightly smaller than Maine

Land boundaries: *total:* 2,468 km

border countries (5): Armenia 996 km; Georgia 428 km; Iran 689 km; Russia 338 km; Turkey 17 km

Coastline: 0 km (landlocked); *note* - Azerbaijan borders the Caspian Sea (713 km)

Maritime claims: none (landlocked)

Climate: dry, semiarid steppe

Terrain: large, flat Kur-Araz Ovaligi (Kura-Araks Lowland, much of it below sea level) with Great Caucasus Mountains to the north, Qarabag Yaylasi (Karabakh Upland) to the west; Baku lies on Abseron Yasaqligi (Apsheron Peninsula) that juts into Caspian Sea

Elevation: *highest point:* Bazarduzu Dagi 4,466 m

lowest point: Caspian Sea -28 m

mean elevation: 384 m

Natural resources: petroleum, natural gas, iron ore, nonferrous metals,

bauxite

Land use: *agricultural land:* 57.6% (2018 est.)

arable land: 22.8% (2018 est.)

permanent crops: 2.7% (2018 est.)

permanent pasture: 32.1% (2018 est.)

forest: 11.3% (2018 est.)

other: 31.1% (2018 est.)

Irrigated land: 14,277 sq km (2012)

Major lakes (area sq km): *salt water lake(s):* Caspian Sea (shared with Iran, Russia, Turkmenistan, and Kazakhstan) - 374,000 sq km

Population distribution: highest population density is found in the far eastern area of the country, in and around Baku; apart from smaller urbanized areas, the rest of the country has a fairly light and evenly distributed population

Natural hazards: droughts

Geography - note: both the main area of the country and the Naxcivan exclave are landlocked

PEOPLE AND SOCIETY

Population: 10,353,296 (2022 est.)

country comparison to the world: 90

Nationality: *noun:* Azerbaijani(s)

adjective: Azerbaijani

Ethnic groups: Azerbaijani 91.6%, Lezghin 2%, Russian 1.3%, Armenian 1.3%, Talysh 1.3%, other 2.4% (2009 est.)

note: the Nagorno-Karabakh region, which is part of Azerbaijan on the basis of the borders recognized when the Soviet Union dissolved in 1991, is populated almost entirely by ethnic Armenians; Azerbaijan has over 80 ethnic groups

Languages: Azerbaijani (Azeri) (official) 92.5%, Russian 1.4%, Armenian 1.4%, other 4.7% (2009 est.)

major-language sample(s): Dünya fakt kitabı, əsas məlumatlar üçün əvəz olunmaz mənbədir (Azerbaijani)

note: Russian is widely spoken

Religions: Muslim 97.3% (predominantly Shia), Christian 2.6%, other <0.1, unaffiliated <0.1 (2020 est.)

note: religious affiliation for the majority of Azerbaijanis is largely nominal, percentages for actual practicing adherents are probably much lower

Demographic profile: Azerbaijan's citizenry has over 80 ethnic groups. The far eastern part of the country has the highest population density, particularly in and around Baku. Apart from smaller urbanized areas, the rest of the country has a fairly light and evenly distributed population. Approximately 57% of the country's inhabitants lives in urban areas. While the population is continuing to grow, it is in the early stages of aging. The declining fertility rate – which has decreased from about 5.5 children per woman in the 1950s to less than the 2.1 replacement level in 2022 – combined with increasing life expectancy has resulted in the elderly making up a larger share of Azerbaijan's populace.

The percentage of elderly residents and the slowed growth and eventual shrinkage of the working-age population could put pressure on the country's pension and healthcare systems.

Age structure: 0-14 years: 22.84% (male 1,235,292/female 1,095,308)

15-24 years: 13.17% (male 714,718/female 629,494)

25-54 years: 45.29% (male 2,291,600/female 2,330,843)

55-64 years: 11.41% (male 530,046/female 634,136)

65 years and over: 7.29% (male 289,604/female 454,769) (2020 est.)

Dependency ratios: *total dependency ratio:* 43.4

youth dependency ratio: 33.7

elderly dependency ratio: 9.7

potential support ratio: 10.3 (2020 est.)

female: 99.7% (2019)

School life expectancy (primary to tertiary education): *total:* 14
years

male: 13 years

female: 14 years (2020)

Unemployment, youth ages 15-24: *total:* 12.4%

male: 10.9%

female: 14.2% (2019 est.)

ENVIRONMENT

Environment - current issues: local scientists consider the Abseron Yasaqligi (Apsheeron Peninsula) (including Baku and Sumqayit) and the Caspian Sea to be the ecologically most devastated area in the world because of severe air, soil, and water pollution; soil pollution results from oil spills, from the use of DDT pesticide, and from toxic defoliants used in the production of cotton; surface and underground water are polluted by untreated municipal and industrial wastewater and agricultural run-off

Environment - international agreements: *party to:* Air Pollution, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Ozone Layer Protection, Ship Pollution, Wetlands

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 18.2 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 37.62 megatons (2016 est.)

methane emissions: 44.87 megatons (2020 est.)

Climate: dry, semiarid steppe

Land use: *agricultural land:* 57.6% (2018 est.)

arable land: 22.8% (2018 est.)

permanent crops: 2.7% (2018 est.)

permanent pasture: 32.1% (2018 est.)

forest: 11.3% (2018 est.)

other: 31.1% (2018 est.)

Urbanization: *urban population:* 57.2% of total population (2022)

rate of urbanization: 1.38% annual rate of change (2020-25 est.)

note: data include Nagorno-Karabakh

Revenue from forest resources: *forest revenues:* 0.02% of GDP

(2018 est.)

country comparison to the world: 138

Revenue from coal: *coal revenues: 0% of GDP (2018 est.)*

country comparison to the world: 60

Waste and recycling: *municipal solid waste generated annually: 2,930,349 tons (2015 est.)*

Major lakes (area sq km): *salt water lake(s): Caspian Sea (shared with Iran, Russia, Turkmenistan, and Kazakhstan) - 374,000 sq km*

Total water withdrawal: *municipal: 449.6 million cubic meters (2017 est.)*

industrial: 3.062 billion cubic meters (2017 est.)

agricultural: 9.27 billion cubic meters (2017 est.)

Total renewable water resources: *34.675 billion cubic meters (2017 est.)*

GOVERNMENT

Country name: *conventional long form:* Republic of Azerbaijan

conventional short form: Azerbaijan

local long form: Azərbaycan Respublikası

local short form: Azərbaycan

former: Azerbaijan Soviet Socialist Republic

etymology: the name translates as “Land of Fire” and refers to naturally occurring surface fires on ancient oil pools or from natural gas discharges

Government type: presidential republic

Capital: *name:* Baku (Baki, Baky)

geographic coordinates: 40 23 N, 49 52 E

time difference: UTC+4 (9 hours ahead of Washington, DC, during Standard Time)

daylight saving time: does not observe daylight savings time

etymology: the name derives from the Persian designation of the city “bad-kube” meaning “wind-pounded city” and refers to the harsh winds and severe snow storms that can hit the city

note: at approximately 28 m below sea level, Baku’s elevation makes it the lowest capital city in the world

Administrative divisions: 66 districts (rayonlar; rayon - singular), 11 cities (saharlar; sahar - singular);

rayons: Abseron, Agcabadi, Agdam, Agdas, Agstafa, Agsu, Astara, Babak, Balakan, Barda, Beylaqan, Bilasuvar, Cabrayil, Calilabad, Culfa, Daskasan, Fuzuli, Gadabay, Goranboy, Goycay, Goygol, Hacıqabul, İmişli, İsmayilli, Kalbəcər, Kəngərli, Kürdəmir, Ləcin, Lənkəran, Lerik, Məsəlli, Neftçala, Oguz, Ordubad, Qabala, Qax, Qazax, Qobustan, Quba, Qubadlı, Qusar, Saatlı, Səbriabad, Səbran, Sadərak, Sahbuz, Səki, Salyan, Samaxı, Samkir, Samux, Sarur, Siyazan, Susa, Tartar, Tovuz, Ucar, Xacmaz, Xızı, Xocalı, Xocavənd, Yardimli, Yevlax, Zəngilan, Zaqatala, Zardab

cities: Baku, Gəncə, Lənkəran, Mingəçevir, Naftalan, Naxçıvan (Naxçıvan), Səki, Sirvan, Sumqayıt, Xankəndi, Yevlax

Independence: 30 August 1991 (declared from the Soviet Union); 18 October 1991 (adopted by the Supreme Council of Azerbaijan)

National holiday: Republic Day (founding of the Democratic Republic of Azerbaijan), 28 May (1918)

Constitution: *history:* several previous; latest adopted 12 November 1995

amendments: proposed by the president of the republic or by at least 63 members of the National Assembly; passage requires at least 95 votes of Assembly members in two separate readings of the draft amendment six months apart and requires presidential approval after each of the two Assembly votes, followed by presidential signature; constitutional articles on the authority, sovereignty, and unity of the people cannot be amended; amended 2002, 2009, 2016

Legal system: civil law system

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* yes

citizenship by descent only: yes

dual citizenship recognized: no

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Ilham ALIYEV (since 31 October 2003); First Vice President Mehriban ALIYEVA (since 21 February 2017)

head of government: Prime Minister Ali ASADOV (since 8 October 2019); First Deputy Prime Minister Yaqub EYYUBOV (since June 2006)

cabinet: Council of Ministers appointed by the president and confirmed by the National Assembly

elections/appointments: president directly elected by absolute majority popular vote in 2 rounds (if needed) for a 7-year term; a single individual is eligible for unlimited terms; election last held on 11 April 2018 (next to be held in 2025); prime minister and first deputy prime minister appointed

by the president and confirmed by the National Assembly; note - a constitutional amendment approved in a September 2016 referendum expanded the presidential term from 5 to 7 years; a separate constitutional amendment approved in the same referendum also introduced the post of first vice-president and additional vice-presidents, who are directly appointed by the president

election results: Ilham ALIYEV reelected president (11 April 2018) in first round; percent of vote - Ilham ALIYEV (YAP) 86%, Zahid ORUJ (independent) 3.1%, other 10.9%

note: OSCE observers noted shortcomings in the election, including a restrictive political environment, limits on fundamental freedoms, a lack of genuine competition, and ballot box stuffing

Legislative branch: *description:* unicameral National Assembly or Milli Mejlis (125 seats; members directly elected in single-seat constituencies by simple majority vote to serve 5-year terms)

elections: last held early on 9 February 2020 (next to be held in 2025)

election results: percent of vote by party - NA; seats by party - YAP 69, CSP 3, AVP 1, CUP 1, ADMP 1, PDR 1, Great Order 1, National Front Party 1, REAL 1, VP 1, Whole Azerbaijan Popular Front 1, party unknown 1, independent 41; composition - men 103, women 22, percent of women 17.6%

Judicial branch: *highest court(s):* Supreme Court (consists of the chairman, vice chairman, and 23 judges in plenum sessions and organized into civil, economic affairs, criminal, and rights violations chambers); Constitutional Court (consists of 9 judges)

judge selection and term of office: Supreme Court judges nominated by the president and appointed by the Milli Majlis; judges appointed for 10 years; Constitutional Court chairman and deputy chairman appointed by the president; other court judges nominated by the president and appointed by the Milli Majlis to serve single 15-year terms

subordinate courts: Courts of Appeal (replaced the Economic Court in 2002); district and municipal courts

Political parties and leaders: Azerbaijan Democratic Enlightenment

Party or ADMP [Elshan MASAYEV]
Civic Solidarity Party or VHP [Sabir RUSTAMKHANLI]
Civic Unity Party or CUP [Sabir HAJIYEV]
Great Order Party [Fazil MUSTAFA]
Islamic Party of Azerbaijan or AiP [Mavsum SAMADOV]
Musavat [Arif HAJILI]
Popular Front Party [Ali KARIMLI]
Motherland Party or AVP [Fazail AGAMALI]
National Front Party [Razi NURULLAYEV]
National Revival Movement Party [Faraj GULIYEV]
Party for Democratic Reforms or PDR [Asim MOLLAZADE]
Republican Alternative Party or REAL [Ilgar MAMMADOV]
Social Democratic Party [Ayaz MUTALIBOV]
Social Prosperity Party [Asli KAZIMOVA]
Unity Party or VP [Tahir KARIMLI]
Whole Azerbaijan Popular Front Party [Gudrat HASANGULIYEV]
New Azerbaijan Party (Yeni Azərbaycan Partiyası) or YAP [Ilham ALIYEV]

International organization participation: ADB, BSEC, CD, CE, CICA, CIS, EAPC, EBRD, ECO, FAO, GCTU, GUAM, IAEA, IBRD, ICAO, ICC (NGOs), ICRM, IDA, IDB, IFAD, IFC, IFRCS, ILO, IMF, IMO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), MIGA, NAM, OAS (observer), OIC, OPCW, OSCE, PFP, UN, UNCTAD, UNESCO, UNHCR, UNIDO, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO (observer)

Diplomatic representation in the US: *chief of mission:* Ambassador Kahzar IBRAHIM (since 15 September 2021)

chancery: 2741 34th Street NW, Washington, DC 20008

Flag description: three equal horizontal bands of sky blue (top), red, and green; a vertical crescent moon and an eight-pointed star in white are centered in the red band; the blue band recalls Azerbaijan's Turkic heritage, red stands for modernization and progress, and green refers to Islam; the crescent moon and star are a Turkic insignia; the eight star points represent the eight Turkic peoples of the world

National symbol(s): flames of fire; national colors: blue, red, green

National anthem: *name:* "Azerbaijan Marsi" (March of Azerbaijan)

lyrics/music: Ahmed JAVAD/Uzeyir HAJIBEYOV

note: adopted 1992; although originally written in 1919 during a brief period of independence, "Azerbaijan Marsi" did not become the official anthem until after the dissolution of the Soviet Union

National heritage: *total World Heritage Sites:* 3 (all cultural)

selected World Heritage Site locales: Walled City of Baku; Gobustan Rock Art Cultural Landscape; Historic Center of Sheki

ECONOMY

Economic overview: Prior to the decline in global oil prices since 2014, Azerbaijan's high economic growth was attributable to rising energy exports and to some non-export sectors. Oil exports through the Baku-Tbilisi-Ceyhan Pipeline, the Baku-Novorossiysk, and the Baku-Supsa Pipelines remain the main economic driver, but efforts to boost Azerbaijan's gas production are underway. The expected completion of the geopolitically important Southern Gas Corridor (SGC) between Azerbaijan and Europe will open up another source of revenue from gas exports. First gas to Turkey through the SGC is expected in 2018 with project completion expected by 2020-21.

Declining oil prices caused a 3.1% contraction in GDP in 2016, and a 0.8% decline in 2017, highlighted by a sharp reduction in the construction sector. The economic decline was accompanied by higher inflation, a weakened banking sector, and two sharp currency devaluations in 2015. Azerbaijan's financial sector continued to struggle. In May 2017, Baku allowed the majority state-owned International Bank of Azerbaijan (IBA), the nation's largest bank, to default on some of its outstanding debt and file for restructuring in Azerbaijani courts; IBA also filed in US and UK bankruptcy courts to have its restructuring recognized in their respective jurisdictions.

Azerbaijan has made limited progress with market-based economic reforms. Pervasive public and private sector corruption and structural economic inefficiencies remain a drag on long-term growth, particularly in non-energy sectors. The government has, however, made efforts to combat corruption, particularly in customs and government services. Several other obstacles impede Azerbaijan's economic progress, including the need for more foreign investment in the non-energy sector and the continuing conflict with Armenia over the Nagorno-Karabakh region. While trade with Russia and the other former Soviet republics remains important, Azerbaijan has expanded trade with Turkey and Europe and is seeking new markets for non-oil/gas exports - mainly in the agricultural sector - with Gulf Cooperation Council member countries, the

US, and others. It is also improving Baku airport and the Caspian Sea port of Alat for use as a regional transportation and logistics hub.

Long-term prospects depend on world oil prices, Azerbaijan's ability to develop export routes for its growing gas production, and its ability to improve the business environment and diversify the economy. In late 2016, the president approved a strategic roadmap for economic reforms that identified key non-energy segments of the economy for development, such as agriculture, logistics, information technology, and tourism. In October 2017, the long-awaited Baku-Tbilisi-Kars railway, stretching from the Azerbaijani capital to Kars in north-eastern Turkey, began limited service.

Real GDP (purchasing power parity): \$138.51 billion (2020 est.)

ENERGY

Electricity access: *electrification - total population: 100% (2020)*

Electricity: *installed generating capacity: 7.677 million kW (2020 est.)*

consumption: 21,026,630,000 kWh (2019 est.)

exports: 1.491 billion kWh (2020 est.)

imports: 137 million kWh (2020 est.)

transmission/distribution losses: 2.226 billion kWh (2019 est.)

Electricity generation sources: *fossil fuels: 94.2% of total installed capacity (2020 est.)*

solar: 0.2% of total installed capacity (2020 est.)

wind: 0.4% of total installed capacity (2020 est.)

hydroelectricity: 4.4% of total installed capacity (2020 est.)

biomass and waste: 0.8% of total installed capacity (2020 est.)

Coal: *production: 0 metric tons (2020 est.)*

consumption: 19,000 metric tons (2020 est.)

exports: 0 metric tons (2020 est.)

imports: 19,000 metric tons (2020 est.)

proven reserves: 0 metric tons (2019 est.)

Petroleum: *total petroleum production: 711,700 bbl/day (2021 est.)*

refined petroleum consumption: 107,500 bbl/day (2019 est.)

crude oil and lease condensate exports: 679,900 bbl/day (2018 est.)

crude oil and lease condensate imports: 0 bbl/day (2018 est.)

crude oil estimated reserves: 7 billion barrels (2021 est.)

Refined petroleum products - production: 138,900 bbl/day (2015 est.)

country comparison to the world: 61

Refined petroleum products - exports: 46,480 bbl/day (2015 est.)

country comparison to the world: 57

Refined petroleum products - imports: 5,576 bbl/day (2015 est.)

country comparison to the world: 168

Natural gas: *production:* 23,075,077,000 cubic meters (2019 est.)

consumption: 11,467,681,000 cubic meters (2019 est.)

exports: 11,586,357,000 cubic meters (2019 est.)

imports: 1,233,225,000 cubic meters (2019 est.)

proven reserves: 1,699,008,000,000 cubic meters (2021 est.)

Carbon dioxide emissions: 35.389 million metric tonnes of CO₂ (2019 est.)

from coal and metallurgical coke: 29,000 metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 12.863 million metric tonnes of CO₂ (2019 est.)

from consumed natural gas: 22.497 million metric tonnes of CO₂ (2019 est.)

country comparison to the world: 72

Energy consumption per capita: 64.416 million Btu/person (2019 est.)

country comparison to the world: 86

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 1,652,688 (2020 est.)
subscriptions per 100 inhabitants: 16 (2020 est.)
country comparison to the world: 59

Telephones - mobile cellular: *total subscriptions:* 10,344,300 (2020 est.)
subscriptions per 100 inhabitants: 102 (2020 est.)
country comparison to the world: 87

Telecommunication systems: *general assessment:* in spite of the telecom sector being one of the major contributors to Azerbaijan's non-oil GDP, overall development, growth, and investment in the sector has been held back by years of political and civil unrest coupled with endemic corruption; mobile penetration rates reached 100% as far back as 2011 but have largely stagnated since then; the Mobile Network Operators (MNOs) are slowly extending the reach of their LTE networks around the country, and this increased coverage (along with access to faster data-based services) is expected to produce a moderate resurgence for both mobile and mobile broadband over the next few years as customers migrate from 3G to 4G. 5G services are still some ways off, as the demand for high-speed data and fast broadband can easily be met by existing capacity on LTE networks; fixed-line teledensity continues to drop down each year as customers consolidate their telecommunications services around the mobile platform; the rate of decline is comparatively slower than other countries, since Azerbaijan has a relatively high proportion of (87%) of fixed-line broadband customers still on DSL; fiber is gradually being rolled out in urban areas, and this makes up the bulk of the growth being seen in the overall fixed broadband market; DSL's predominance, however, will serve to keep Azerbaijan's average access speeds in the sub-10Mbps range for the foreseeable future (2020)

domestic: teledensity of some 16 fixed-lines per 100 persons; mobile-cellular teledensity of 102 telephones per 100 persons; satellite service connects Baku to a modern switch in its exclave of Naxcivan

(Nakhchivan) (2020)

international: country code - 994; the TAE fiber-optic link transits Azerbaijan providing international connectivity to neighboring countries; the old Soviet system of cable and microwave is still serviceable; satellite earth stations - 2 (2019)

Broadcast media: 3 state-run and 1 public TV channels; 4 domestic commercial TV stations and about 15 regional TV stations; cable TV services are available in Baku; 1 state-run and 1 public radio network operating; a small number of private commercial radio stations broadcasting; local FM relays of Baku commercial stations are available in many localities; note - all broadcast media is pro-government, and most private broadcast media outlets are owned by entities directly linked to the government

Internet country code: .az

Internet users: *total:* 8,745,304 (2022 est.)

percent of population: 85% (2022 est.)

country comparison to the world: 61

Broadband - fixed subscriptions: *total:* 1,995,474 (2020 est.)

subscriptions per 100 inhabitants: 20 (2020 est.)

country comparison to the world: 58

TRANSPORTATION

National air transport system: *number of registered air carriers:* 42 (2020)

inventory of registered aircraft operated by air carriers: 44

annual passenger traffic on registered air carriers: 2,279,546 (2018)

annual freight traffic on registered air carriers: 44.09 million (2018) mt-km

Civil aircraft registration country code prefix: 4K

Airports: *total:* 23 (2021)

country comparison to the world: 132

Airports - with paved runways: *total:* 30

over 3,047 m: 5

2,438 to 3,047 m: 5

1,524 to 2,437 m: 13

914 to 1,523 m: 4

under 914 m: 3 (2021)

Airports - with unpaved runways: *total:* 7

under 914 m: 7 (2021)

Heliports: 1 (2021)

Pipelines: 89 km condensate, 3,890 km gas, 2,446 km oil (2013)

Railways: *total:* 2,944.3 km (2017)

broad gauge: 2,944.3 km (2017) 1.520-m gauge (approx. 1,767 km electrified)

country comparison to the world: 62

Roadways: *total:* 24,981 km (2013)

note: total roadway length has increased significantly and continues to grow due to the recovery of Armenian-held territories and related reconstruction efforts. No updated figure is currently available.

country comparison to the world: 104

Merchant marine: *total:* 305

by type: general cargo 38, oil tanker 43, other 224 (2021)

country comparison to the world: 54

Ports and terminals: *major seaport(s):* Baku (Baki) located on the Caspian Sea

MILITARY AND SECURITY

Military and security forces: Azerbaijan Armed Forces: Land Forces (Combined Arms Army), Air Forces, Navy Forces; Ministry of Internal Affairs: State Border Service (includes Coast Guard), Internal Security Troops (2022)

Military expenditures: 5.2% of GDP (2021 est.)

5.4% of GDP (2020 est.)

3.8% of GDP (2019 est.) (approximately \$3.4 billion)

3.6% of GDP (2018 est.) (approximately \$3.2 billion)

3.8% of GDP (2017 est.) (approximately \$3.26 billion)

country comparison to the world: 9

Military and security service personnel strengths: information varies; approximately 65,000 active armed forces (55,000 Army; 2,000 Navy; 8,000 Air Force); approximately 15,000 Ministry of Internal Affairs troops (2022)

Military equipment inventories and acquisitions: the military's inventory is comprised mostly of Russian and Soviet-era weapons systems with a small mix of equipment from other countries, including Israel and Turkey (2022)

Military service age and obligation: 18-35 years of age for compulsory military service for men; 17-35 years of age for voluntary service for men and women (2022)

note: as of 2018, women made up an estimated 3% of the active duty military

Military - note: since November 2020, Russia has deployed about 2,000 peacekeeping troops to the area in and around Nagorno- Karabakh as part of a cease-fire agreement between Armenia and Azerbaijan; fighting erupted between the two countries over the Nagorno-Karabakh region in September of 2020; Nagorno-Karabakh lies within Azerbaijan but has been under control of ethnic Armenian forces (the "Nagorno-Karabakh Defense Army") backed by Armenia since a separatist war there ended in

1994; six weeks of fighting resulted in about 6,500 deaths and ended after Armenia ceded swaths of Nagorno-Karabakh territory; tensions remained high in 2022, and both sides have accused the other of provocations since the fighting ended; Armenia has accused Azerbaijani forces of a series of border intrusions and of seizing pockets of territory

TERRORISM

Terrorist group(s): Islamic State of Iraq and ash-Sham (ISIS); Islamic Revolutionary Guard Corps (IRGC)/Qods Force

TRANSNATIONAL ISSUES

Disputes - international: Local border forces struggle to control the illegal transit of goods and people across the porous, undemarcated Armenian, Azerbaijani, and Georgian borders.

Armenia-Azerbaijan: The dispute over the break-away Nagorno-Karabakh region and the Armenian military occupation of surrounding lands in Azerbaijan remains the primary focus of regional instability. Residents have evacuated the former Soviet-era small ethnic enclaves in Armenia and Azerbaijan.

Azerbaijan-Georgia: A joint boundary commission agrees on most of the alignment, leaving only small areas at certain crossing points in dispute. Consequently, the two states have yet to agree on a delimitation or demarcation of their common boundary. One area of contention is where the international boundary should run through the 6th-13th Century David-Gareja monastery complex.

Azerbaijan-Iran: none identified

Azerbaijan-Russia: Russia complains of cross-border smuggling.

Azerbaijan-Turkey: none identified

Caspian Sea (Maritime Boundary): Azerbaijan, Kazakhstan, and Russia ratified the Caspian seabed delimitation treaties based on equidistance, while Iran continues to insist on a one-fifth slice of the sea. Bilateral talks continue with Turkmenistan on dividing the seabed and contested oilfields in the middle of the Caspian.

Refugees and internally displaced persons: *IDPs:* 655,000 (conflict with Armenia over Nagorno-Karabakh; IDPs are mainly ethnic Azerbaijanis but also include ethnic Kurds, Russians, and Turks predominantly from occupied territories around Nagorno-Karabakh; includes IDPs' descendants, returned IDPs, and people living in insecure areas and excludes people displaced by natural disasters; around half the IDPs live in the capital Baku) (2021)

stateless persons: 3,585 (mid-year 2021)

Illicit drugs: limited illicit cultivation of cannabis and opium poppy,

mostly for CIS consumption; small government eradication program;
transit point for Southwest Asian opiates bound for Russia and to a lesser
extent the rest of Europe

BAHAMAS, THE

INTRODUCTION

Background: Lucayan Indians inhabited the islands when Christopher COLUMBUS first set foot in the New World on San Salvador in 1492. British settlement of the islands began in 1647; the islands became a colony in 1783. Piracy thrived in the 17th and 18th centuries because of The Bahamas close proximity to shipping lanes. Since attaining independence from the UK in 1973, The Bahamas has prospered through tourism, international banking, and investment management, which comprise up to 85% of GDP. Because of its proximity to the US - the nearest Bahamian landmass being only 80 km (50 mi) from Florida - the country is a major transshipment point for illicit trafficking, particularly to the US mainland, as well as Europe. US law enforcement agencies cooperate closely with The Bahamas, and the US Coast Guard assists Bahamian authorities in maritime security and law enforcement through Operation Bahamas, Turks and Caicos, or OPBAT.

GEOGRAPHY

Location: chain of islands in the North Atlantic Ocean, southeast of Florida, northeast of Cuba; note - although The Bahamas does not border the Caribbean Sea, geopolitically it is often designated as a Caribbean nation

Geographic coordinates: 24 15 N, 76 00 W

Map references: Central America and the Caribbean

Area: *total:* 13,880 sq km

land: 10,010 sq km

water: 3,870 sq km

country comparison to the world: 160

Area - comparative: slightly smaller than Connecticut

Land boundaries: *total:* 0 km

Coastline: 3,542 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm

Climate: tropical marine; moderated by warm waters of Gulf Stream

Terrain: long, flat coral formations with some low rounded hills

Elevation: *highest point:* 1.3 km NE of Old Bight on Cat Island 64 m

lowest point: Atlantic Ocean 0 m

Natural resources: salt, aragonite, timber, arable land

Land use: *agricultural land:* 1.4% (2018 est.)

arable land: 0.8% (2018 est.)

permanent crops: 0.4% (2018 est.)

permanent pasture: 0.2% (2018 est.)

forest: 51.4% (2018 est.)

other: 47.2% (2018 est.)

Irrigated land: 10 sq km (2012)

Population distribution: most of the population lives in urban areas, with two-thirds living on New Providence Island where Nassau is located

Natural hazards: hurricanes and other tropical storms cause extensive flood and wind damage

Geography - note: strategic location adjacent to US and Cuba; extensive island chain of which 30 are inhabited

PEOPLE AND SOCIETY

Population: 355,608 (2022 est.)

country comparison to the world: 178

Nationality: *noun:* Bahamian(s)

adjective: Bahamian

Ethnic groups: African descent 90.6%, White 4.7%, mixed 2.1%, other 1.9%, unspecified 0.7% (2010 est.)

note: data represent population by racial group

Languages: English (official), Creole (among Haitian immigrants)

Religions: Protestant 69.9% (includes Baptist 34.9%, Anglican 13.7%, Pentecostal 8.9% Seventh Day Adventist 4.4%, Methodist 3.6%, Church of God 1.9%, Brethren 1.6%, other Protestant .9%), Roman Catholic 12%, other Christian 13% (includes Jehovah's Witness 1.1%), other 0.6%, none 1.9%, unspecified 2.6% (2010 est.)

Age structure: 0-14 years: 21.7% (male 38,811/female 37,719)

15-24 years: 14.91% (male 26,636/female 25,945)

25-54 years: 43.56% (male 76,505/female 77,119)

55-64 years: 10.75% (male 17,508/female 20,391)

65 years and over: 9.08% (male 12,587/female 19,434) (2021 est.)

Dependency ratios: *total dependency ratio:* 41.5

youth dependency ratio: 30.6

elderly dependency ratio: 11

potential support ratio: 9.1 (2020 est.)

Median age: *total:* 32.8 years

male: 31.7 years

female: 34 years (2020 est.)

country comparison to the world: 104

Population growth rate: 0.82% (2022 est.)

country comparison to the world: 114

Birth rate: 14.64 births/1,000 population (2022 est.)

country comparison to the world: 118

Death rate: 6.41 deaths/1,000 population (2022 est.)

country comparison to the world: 139

Net migration rate: 0 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 84

Population distribution: most of the population lives in urban areas, with two-thirds living on New Providence Island where Nassau is located

Urbanization: *urban population:* 83.5% of total population (2022)

rate of urbanization: 1.02% annual rate of change (2020-25 est.)

Major urban areas - population: 280,000 NASSAU (capital) (2018)

Sex ratio: *at birth:* 1.03 male(s)/female

0-14 years: 1.03 male(s)/female

15-24 years: 1.03 male(s)/female

25-54 years: 0.99 male(s)/female

55-64 years: 0.86 male(s)/female

65 years and over: 0.5 male(s)/female

total population: 0.95 male(s)/female (2022 est.)

Maternal mortality ratio: 70 deaths/100,000 live births (2017 est.)

country comparison to the world: 83

Infant mortality rate: *total:* 12.78 deaths/1,000 live births

male: 13.22 deaths/1,000 live births

female: 12.33 deaths/1,000 live births (2022 est.)

country comparison to the world: 111

Life expectancy at birth: *total population:* 76.13 years

male: 73.2 years

female: 79.14 years (2022 est.)

country comparison to the world: 107

Total fertility rate: 1.98 children born/woman (2022 est.)

country comparison to the world: 111

Drinking water source: *improved: total: 98.9% of population
unimproved: total: 1.1% of population (2017 est.)*

Current health expenditure: 5.8% of GDP (2019)

Physicians density: 1.94 physicians/1,000 population (2017)

Hospital bed density: 3 beds/1,000 population (2017)

Sanitation facility access: *improved: total: 98.2% of population
unimproved: total: 1.8% of population (2017 est.)*

HIV/AIDS - adult prevalence rate: 1.2% (2020 est.)
country comparison to the world: 34

Obesity - adult prevalence rate: 31.6% (2016)
country comparison to the world: 21

Alcohol consumption per capita: *total: 9.48 liters of pure alcohol
(2019 est.)*

beer: 3.66 liters of pure alcohol (2019 est.)

wine: 1.43 liters of pure alcohol (2019 est.)

spirits: 4.08 liters of pure alcohol (2019 est.)

other alcohols: 0.31 liters of pure alcohol (2019 est.)

country comparison to the world: 28

Tobacco use: *total: 10.6% (2020 est.)*

male: 18.8% (2020 est.)

female: 2.4% (2020 est.)

country comparison to the world: 134

Education expenditures: 2.5% of GDP (2020 est.)

country comparison to the world: 167

Unemployment, youth ages 15-24

total: 25.8%

male: 20.8%

female: 31.6% (2016 est.)

ENVIRONMENT

Environment - current issues: coral reef decay; solid waste disposal

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Wetlands

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 17.56 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 1.79 megatons (2016 est.)

methane emissions: 0.23 megatons (2020 est.)

Climate: tropical marine; moderated by warm waters of Gulf Stream

Land use: *agricultural land:* 1.4% (2018 est.)

arable land: 0.8% (2018 est.)

permanent crops: 0.4% (2018 est.)

permanent pasture: 0.2% (2018 est.)

forest: 51.4% (2018 est.)

other: 47.2% (2018 est.)

Urbanization: *urban population:* 83.5% of total population (2022)

rate of urbanization: 1.02% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.01% of GDP (2018 est.)

country comparison to the world: 146

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 61

Waste and recycling: *municipal solid waste generated annually:* 264,000 tons (2015 est.)

Total water withdrawal: *municipal:* 31 million cubic meters (2017)

est.)

Total renewable water resources: 700 million cubic meters (2017
est.)

GOVERNMENT

Country name: *conventional long form:* Commonwealth of The Bahamas

conventional short form: The Bahamas

etymology: name derives from the Spanish “baha mar,” meaning “shallow sea,” which describes the shallow waters of the Bahama Banks

Government type: parliamentary democracy under a constitutional monarchy; a Commonwealth realm

Capital: *name:* Nassau

geographic coordinates: 25 05 N, 77 21 W

time difference: UTC-5 (same time as Washington, DC, during Standard Time)

daylight saving time: +1hr, begins second Sunday in March; ends first Sunday in November

etymology: named after William III (1650-1702), king of England, Scotland, and Ireland, who was a member of the House of Nassau

Administrative divisions: 31 districts; Acklins Islands, Berry Islands, Bimini, Black Point, Cat Island, Central Abaco, Central Andros, Central Eleuthera, City of Freeport, Crooked Island and Long Cay, East Grand Bahama, Exuma, Grand Cay, Harbour Island, Hope Town, Inagua, Long Island, Mangrove Cay, Mayaguana, Moore’s Island, North Abaco, North Andros, North Eleuthera, Ragged Island, Rum Cay, San Salvador, South Abaco, South Andros, South Eleuthera, Spanish Wells, West Grand Bahama

Independence: 10 July 1973 (from the UK)

National holiday: Independence Day, 10 July (1973)

Constitution: *history:* previous 1964 (preindependence); latest adopted 20 June 1973, effective 10 July 1973

amendments: proposed as an “Act” by Parliament; passage of amendments to articles such as the organization and composition of the

branches of government requires approval by at least two-thirds majority of the membership of both houses of Parliament and majority approval in a referendum; passage of amendments to constitutional articles such as fundamental rights and individual freedoms, the powers, authorities, and procedures of the branches of government, or changes to the Bahamas Independence Act 1973 requires approval by at least three-fourths majority of the membership of both houses and majority approval in a referendum; amended many times, last in 2016

Legal system: common law system based on the English model

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of The Bahamas

dual citizenship recognized: no

residency requirement for naturalization: 6-9 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022); represented by Governor General Cornelius A. SMITH (since 28 June 2019)

head of government: Prime Minister Philip DAVIS (since 17 September 2021)

cabinet: Cabinet appointed by governor general on recommendation of prime minister

elections/appointments: the monarchy is hereditary; governor general appointed by the monarch on the advice of the prime minister; following legislative elections, the leader of the majority party or majority coalition usually appointed prime minister by the governor general; the prime minister recommends the deputy prime minister

Legislative branch: *description:* bicameral Parliament consists of:

Senate (16 seats; members appointed by the governor general - 9 selected on the advice of the prime minister, 4 on the advice of the leader of the

opposition party, and 3 on the advice of the prime minister in consultation with the opposition leader; members serve 5-year terms)

House of Assembly (39 seats; members directly elected in single-seat constituencies by simple majority vote to serve 5-year terms)

elections:

Senate - last appointments on 24 May 2017 (next appointments in 2022)

House of Assembly - last held on 16 September 2021 (next to be held by September 2026)

election results:

Senate - appointed; composition as of March 2022 - men 12, women 4, percent of women 25%

House of Assembly - percent of vote by party - PLP 52.5%, FNM 36.2%; seats by party - PLP 32, FNM 7; composition as of March 2022 - men 32, women 7, percent of women 18%; note - total Parliament percent of women 20%

note: the government may dissolve the parliament and call elections at any time

Judicial branch: *highest court(s):* Court of Appeal (consists of the court president and 4 justices, organized in 3-member panels); Supreme Court (consists of the chief justice and a maximum of 11 and a minimum of 2 justices)

judge selection and term of office: Court of Appeal president and Supreme Court chief justice appointed by the governor-general on the advice of the prime minister after consultation with the leader of the opposition party; other Court of Appeal and Supreme Court justices appointed by the governor general upon recommendation of the Judicial and Legal Services Commission, a 5-member body headed by the chief justice; Court of Appeal justices appointed for life with mandatory retirement normally at age 68 but can be extended until age 70; Supreme Court justices appointed for life with mandatory retirement normally at age 65 but can be extended until age 67

subordinate courts: Industrial Tribunal; Stipendiary and Magistrates' Courts; Family Island Administrators

note: The Bahamas is a member of the 15-member Caribbean Community

but is not party to the agreement establishing the Caribbean Court of Justice as its highest appellate court; the Judicial Committee of the Privy Council (in London) serves as the final court of appeal for The Bahamas

Political parties and leaders: Democratic National Alliance or DNA [Arinthia KOMOLAFE]

Free National Movement or FNM [Michael PINTARD]

Progressive Liberal Party or PLP [Philip “Brave” DAVIS]

International organization participation: ACP, AOSIS, C, Caricom, CDB, CELAC, FAO, G-77, IADB, IAEA, IBRD, ICAO, ICC (NGOs), ICRM, IDA, IFAD, IFC, IFRCs, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, ISO (correspondent), ITSO, ITU, LAES, MIGA, NAM, OAS, OPANAL, OPCW, Petrocaribe, UN, UNCTAD, UNESCO, UNIDO, UNWTO, UPU, WCO, WHO, WIPO, WMO, WTO (observer)

Diplomatic representation in the US: *chief of mission:* Ambassador Wendall Kermith JONES (since 19 April 2022)

chancery: 600 New Hampshire Ave NW, Suite 530, Washington, DC 20037

telephone: [1] (202) 319-2660

FAX: [1] (202) 319-2668

email address and website:

embassy@bahamasembdc.org

<https://www.bahamasembdc.org/>

consulate(s) general: Atlanta, Miami, New York, Washington, DC

Diplomatic representation from the US: *chief of mission:* Ambassador (vacant); Charge d’ Affaires Usha E. PITTS (since 1 January 2021)

embassy: 42 Queen Street, Nassau

mailing address: 3370 Nassau Place, Washington, DC 20521-3370

telephone: [1] (242) 322-1181

FAX: [1] (242) 356-7174

email address and website:

acs Nassau@state.gov

<https://bs.usembassy.gov/>

Flag description: three equal horizontal bands of aquamarine (top), gold, and aquamarine, with a black equilateral triangle based on the hoist side; the band colors represent the golden beaches of the islands surrounded by the aquamarine sea; black represents the vigor and force of a united people, while the pointing triangle indicates the enterprise and determination of the Bahamian people to develop the rich resources of land and sea

National symbol(s): blue marlin, flamingo, Yellow Elder flower;
national colors: aquamarine, yellow, black

National anthem: *name:* “March On, Bahamaland!”

lyrics/music: Timothy GIBSON

note: adopted 1973; as a Commonwealth country, in addition to the national anthem, “God Save the King” serves as the royal anthem (see United Kingdom)

ECONOMY

Economic overview: The Bahamas has the second highest per capita GDP in the English-speaking Caribbean with an economy heavily dependent on tourism and financial services. Tourism accounts for approximately 50% of GDP and directly or indirectly employs half of the archipelago's labor force. Financial services constitute the second-most important sector of the Bahamian economy, accounting for about 15% of GDP. Manufacturing and agriculture combined contribute less than 7% of GDP and show little growth, despite government incentives aimed at those sectors. The new government led by Prime Minister Hubert MINNIS has prioritized addressing fiscal imbalances and rising debt, which stood at 75% of GDP in 2016. Large capital projects like the Baha Mar Casino and Hotel are driving growth. Public debt increased in 2017 in large part due to hurricane reconstruction and relief financing. The primary fiscal balance was a deficit of 0.4% of GDP in 2016. The Bahamas is the only country in the Western Hemisphere that is not a member of the World Trade Organization.

Real GDP (purchasing power parity): \$12.1 billion (2020 est.)

\$14.45 billion (2019 est.)

\$14.28 billion (2018 est.)

ENERGY

Electricity access: *electrification - total population:* 100% (2020)

Electricity: *installed generating capacity:* 578,000 kW (2020 est.)

consumption: 2,103,248,000 kWh (2019 est.)

exports: 0 kWh (2019 est.)

imports: 0 kWh (2020 est.)

transmission/distribution losses: 245,000 kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 99.8% of total installed capacity (2020 est.)

solar: 0.2% of total installed capacity (2020 est.)

Petroleum: total petroleum production: 0 bbl/day (2021 est.)

refined petroleum consumption: 25,800 bbl/day (2019 est.)

Refined petroleum products – imports: 19,150 bbl/day (2015 est.)

country comparison to the world: 123

Natural gas: *production:* 0 cubic meters (2021 est.)

consumption: 4.417 million cubic meters (2019 est.)

exports: 0 cubic meters (2021 est.)

imports: 4.417 million cubic meters (2019 est.)

proven reserves: 0 cubic meters (2021 est.)

Carbon dioxide emissions: 3.984 million metric tonnes of CO₂ (2019 est.)

from coal and metallurgical coke: 0 metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 3.976 million metric tonnes of CO₂ (2019 est.)

from consumed natural gas: 7,000 metric tonnes of CO₂ (2019 est.)

country comparison to the world: 142

Energy consumption per capita: 140.505 million Btu/person (2019 est.)

country comparison to the world: 37

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 91,000 (2020 est.)

subscriptions per 100 inhabitants: 23 (2020 est.)

country comparison to the world: 139

Telephones - mobile cellular: *total subscriptions:* 466,000 (2020 est.)

subscriptions per 100 inhabitants: 119 (2020 est.)

country comparison to the world: 175

Telecommunication systems: *general assessment:* the telecom sector has seen a decline in subscriber numbers (particularly for prepaid mobile services the mainstay of short term visitors) and revenue; fixed and mobile broadband services are two areas that have benefited from the crisis as employees and students have resorted to working from home (2021)

domestic: 23 per 100 fixed-line, 119 per 100 mobile-cellular (2020)

international: country code - 1-242; landing points for the ARCOS-1, BICS, Bahamas 2-US, and BDSN fiber-optic submarine cables that provide links to South and Central America, parts of the Caribbean, and the US; satellite earth stations - 2; the Bahamas Domestic Submarine Network links all of the major islands; (2019)

Broadcast media: The Bahamas has 4 major TV providers that provide service to all major islands in the archipelago; 1 TV station is operated by government-owned, commercially run Broadcasting Corporation of the Bahamas (BCB) and competes freely with 4 privately owned TV stations; multi-channel cable TV subscription service is widely available; there are 32 licensed broadcast (radio) service providers, 31 are privately owned FM radio stations operating on New Providence, Grand Bahama Island, Abaco Island, and on smaller islands in the country; the BCB operates a multi-channel radio broadcasting network that has national coverage; the sector is regulated by the Utilities Regulation and Competition Authority (2019)

Internet country code: .bs

Internet users: *total:* 342,126 (2020 est.)

percent of population: 87% (2020 est.)

country comparison to the world: 169

Broadband - fixed subscriptions: *total:* 83,000 (2020 est.)

subscriptions per 100 inhabitants: 21 (2020 est.)

country comparison to the world: 130

TRANSPORTATION

National air transport system: *number of registered air carriers:* 5 (2020)

inventory of registered aircraft operated by air carriers: 35

annual passenger traffic on registered air carriers: 1,197,116 (2018)

annual freight traffic on registered air carriers: 160,000 (2018) mt-km

Civil aircraft registration country code prefix: C6

Airports: *total:* 54 (2021)

country comparison to the world: 85

Airports - with paved runways: *total:* 24

over 3,047 m: 2

2,438 to 3,047 m: 2

1,524 to 2,437 m: 13

914 to 1,523 m: 7 (2021)

Airports - with unpaved runways: *total:* 37

1,524 to 2,437 m: 4

914 to 1,523 m: 16

under 914 m: 17 (2021)

Heliports: 1 (2021)

Roadways: *total:* 2,700 km (2011)

paved: 1,620 km (2011)

unpaved: 1,080 km (2011)

country comparison to the world: 167

Merchant marine: *total:* 1,323

by type: bulk carrier 333, container ship 45, general cargo 64, oil tanker 224, other 657 (2021)

country comparison to the world: 19

Ports and terminals: *major seaport(s):* Freeport, Nassau, South Riding Point

cruise port(s): Nassau

container port(s) (TEUs): Freeport (1,396,568) (2019)

MILITARY AND SECURITY

Military and security forces: Royal Bahamas Defense Force (RBDF): includes land, air, maritime elements (2022)

note: the RBDF is primarily responsible for external security but also provides security at a detention center for migrants and performs some domestic security functions, such as guarding embassies; the Royal Bahamas Police Force (RBPF) maintains internal security; both the RBDF and the RBPF report to the minister of national security

Military expenditures: 0.8% of GDP (2022 est.)

0.9% of GDP (2021)

0.9% of GDP (2020)

0.7% of GDP (2019)

0.7% of GDP (2018)

country comparison to the world: 140

Military and security service personnel strengths: approximately 1,500 active RBDF personnel (2022)

Military equipment inventories and acquisitions: most of the RBDF's major equipment inventory is supplied by the Netherlands (2022)

Military service age and obligation: 18 years of age for voluntary male and female service; no conscription (2022)

Military - note: the RBDF was established in 1980; its primary responsibilities are disaster relief, maritime security, and counter-narcotics operations; it is a naval force, but includes a lightly-armed marine infantry/commando squadron for base and internal security, as well as a few light non-combat aircraft; the maritime element has coastal patrol craft and patrol boats; the RBDF maintains training relationships with the UK and the US (2022)

TRANSNATIONAL ISSUES

Disputes - international: *The Bahamas-US (Maritime Boundary):* In declaring its archipelagic waters and 200 nm EEZ in 1993 legislation, The Bahamas did not delimit the outer limits of the EEZ; but in areas where EEZs overlap with neighbors, The Bahamas agreed to equidistance as a line of separation. However, The Bahamas has yet to define maritime boundaries with any of its neighbors, including the United States, whose Florida coast lays about 70 nm from Grand Bahama Island.

Illicit drugs: a significant transit point for illegal drugs bound for the United States; illicit production of marijuana continues

BAHRAIN

INTRODUCTION

Background: In 1783, the Sunni Al-KHALIFA family took power in Bahrain. In order to secure these holdings, it entered into a series of treaties with the UK during the 19th century that made Bahrain a British protectorate. The archipelago attained its independence in 1971. A steady decline in oil production and reserves since 1970 prompted Bahrain to take steps to diversify its economy, in the process developing petroleum processing and refining, aluminum production, and hospitality and retail sectors. It has also endeavored to become a leading regional banking center, especially with respect to Islamic finance. Bahrain's small size, central location among Gulf countries, economic dependence on Saudi Arabia, and proximity to Iran require it to play a delicate balancing act in foreign affairs among its larger neighbors. Its foreign policy activities usually fall in line with Saudi Arabia and the UAE.

The Sunni royal family has long struggled to manage relations with its large Shia-majority population. In early 2011, amid Arab uprisings elsewhere in the region, the Bahraini Government confronted similar pro-democracy and reform protests at home with police and military action, including deploying Gulf Cooperation Council security forces to Bahrain. Failed political talks prompted opposition political societies to boycott 2014 legislative and municipal council elections. In 2018, a law preventing members of political societies dissolved by the courts from participating in elections effectively sidelined the majority of opposition figures from taking part in national elections. As a result, most members of parliament are independents. Ongoing dissatisfaction with the political status quo continues to factor into sporadic clashes between demonstrators and security forces. On 15 September 2020, Bahrain and the United Arab Emirates signed peace agreements (the Abraham Accords) with Israel – brokered by the US – in Washington DC. Bahrain and the UAE thus became the third and fourth Middle Eastern countries, along with Egypt and Jordan, to recognize Israel.

GEOGRAPHY

Location: Middle East, archipelago in the Persian Gulf, east of Saudi Arabia

Geographic coordinates: 26 00 N, 50 33 E

Map references: Middle East

Area: *total:* 760 sq km

land: 760 sq km

water: 0 sq km

country comparison to the world: 187

Area - comparative: 3.5 times the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 161 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

continental shelf: extending to boundaries to be determined

Climate: arid; mild, pleasant winters; very hot, humid summers

Terrain: mostly low desert plain rising gently to low central escarpment

Elevation: *highest point:* Jabal ad Dukhan 135 m

lowest point: Persian Gulf 0 m

Natural resources: oil, associated and nonassociated natural gas, fish, pearls

Land use: *agricultural land:* 11.3% (2018 est.)

arable land: 2.1% (2018 est.)

permanent crops: 3.9% (2018 est.)

permanent pasture: 5.3% (2018 est.)

forest: 0.7% (2018 est.)

other: 88% (2018 est.)

Irrigated land: 40 sq km (2012)

Major aquifers: Arabian Aquifer System

Population distribution: smallest population of the Gulf States, but urbanization rate exceeds 90%; largest settlement concentration is found on the far northern end of the island in and around Manamah and Al Muharraq

Natural hazards: periodic droughts; dust storms

Geography - note: close to primary Middle Eastern petroleum sources; strategic location in Persian Gulf, through which much of the Western world's petroleum must transit to reach open ocean

PEOPLE AND SOCIETY

Population: 1,540,558 (2022 est.)

note: immigrants make up approximately 45% of the total population, according to UN data (2019)

country comparison to the world: 155

Nationality: *noun:* Bahraini(s)

adjective: Bahraini

Ethnic groups: Bahraini 46%, Asian 45.5%, other Arab 4.7%, African 1.6%, European 1%, other 1.2% (includes Gulf Co-operative country nationals, North and South Americans, and Oceanians) (2010 est.)

total population: 97.5%

male: 99.9%

female: 94.9% (2018)

School life expectancy (primary to tertiary education): *total:* 16 years

male: 16 years

female: 17 years (2019)

Unemployment, youth ages 15-24: *total:* 5.3%

male: 2.6%

female: 12.2% (2012 est.)

ENVIRONMENT

Environment - current issues: desertification resulting from the degradation of limited arable land, periods of drought, and dust storms; coastal degradation (damage to coastlines, coral reefs, and sea vegetation) resulting from oil spills and other discharges from large tankers, oil refineries, and distribution stations; lack of freshwater resources (groundwater and seawater are the only sources for all water needs); lowered water table leaves aquifers vulnerable to saline contamination; desalinization provides some 90% of the country's freshwater

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Ozone Layer Protection, Ship Pollution, Wetlands

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 69.04 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 31.69 megatons (2016 est.)

methane emissions: 15.47 megatons (2020 est.)

Climate: arid; mild, pleasant winters; very hot, humid summers

Land use: *agricultural land:* 11.3% (2018 est.)

arable land: 2.1% (2018 est.)

permanent crops: 3.9% (2018 est.)

permanent pasture: 5.3% (2018 est.)

forest: 0.7% (2018 est.)

other: 88% (2018 est.)

Urbanization: *urban population:* 89.7% of total population (2022)

rate of urbanization: 1.99% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0% of GDP (2018 est.)

country comparison to the world: 163

Revenue from coal: *coal revenues: 0% of GDP (2018 est.)*

country comparison to the world: 62

Waste and recycling: *municipal solid waste generated annually:*

951,943 tons (2016 est.)

municipal solid waste recycled annually: 76,155 tons (2012 est.)

percent of municipal solid waste recycled: 8% (2012 est.)

Major aquifers: Arabian Aquifer System

Total water withdrawal: *municipal: 275.6 million cubic meters (2017 est.)*

industrial: 14.1 million cubic meters (2017 est.)

agricultural: 144.7 million cubic meters (2017 est.)

Total renewable water resources: 116 million cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Kingdom of Bahrain

conventional short form: Bahrain

local long form: Mamlakat al Bahrayn

local short form: Al Bahrayn

former: Dilmun, Tylos, Awal, Mishmahig, Bahrayn, State of Bahrain

etymology: the name means “the two seas” in Arabic and refers to the water bodies surrounding the archipelago

Government type: constitutional monarchy

Capital: *name:* Manama

geographic coordinates: 26 14 N, 50 34 E

time difference: UTC+3 (8 hours ahead of Washington, DC, during Standard Time)

etymology: name derives from the Arabic “al-manama” meaning “place of rest” or “place of dreams”

Administrative divisions: 4 governorates (muhafazat, singular - muhafazah); Asimah (Capital), Janubiyah (Southern), Muharraq, Shamaliyah (Northern)

note: each governorate administered by an appointed governor

Independence: 15 August 1971 (from the UK)

National holiday: National Day, 16 December (1971); note - 15 August 1971 was the date of independence from the UK, 16 December 1971 was the date of independence from British protection

Constitution: *history:* adopted 14 February 2002

amendments: proposed by the king or by at least 15 members of either chamber of the National Assembly followed by submission to an Assembly committee for review and, if approved, submitted to the government for restatement as drafts; passage requires a two-thirds majority vote by the membership of both chambers and validation by the king; constitutional articles on the state religion (Islam), state language

(Arabic), and the monarchy and “inherited rule” cannot be amended; amended 2012, 2017

Legal system: mixed legal system of Islamic (sharia) law, English common law, Egyptian civil, criminal, and commercial codes; customary law

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: the father must be a citizen of Bahrain

dual citizenship recognized: no

residency requirement for naturalization: 25 years; 15 years for Arab nationals

Suffrage: 20 years of age; universal

Executive branch: *chief of state:* King HAMAD bin Isa Al-Khalifa (since 6 March 1999); Crown Prince SALMAN bin Hamad Al-Khalifa (born 21 October 1969)

head of government: Prime Minister Crown Prince SALMAN bin Hamad Al-Khalifa (since 11 November 2020); Deputy Prime Minister and Minister for Infrastructure KHALID bin Abdallah Al Khalifa (since 13 June 2022)

cabinet: Cabinet appointed by the monarch

elections/appointments: the monarchy is hereditary; prime minister appointed by the monarch

Legislative branch: *description:* bicameral National Assembly consists of:

Consultative Council or Majlis al-Shura (40 seats; members appointed by the king)

Council of Representatives or Majlis al-Nuwab (40 seats; members directly elected in single-seat constituencies by absolute majority vote in 2 rounds if needed; members serve 4-year renewable terms)

elections:

Consultative Council - last appointments on 12 December 2018 (next

NA)

Council of Representatives - first round for 9 members held on 24 November 2018; second round for remaining 31 members held on 1 December 2018 (next to be held on 12 November 2022)

election results:

Consultative Council - composition - men 31, women 9, percent of women 22.5%

Council of Representatives (for 2018 election) - percent of vote by society - NA; seats by society - Islamic Al-Asalah (Sunni Salafi) 3, Minbar al-Taquadumi (Communist) 2, National Unity Gathering (Sunni progovernment) 1, National Islamic Minbar (Sunni Muslim Brotherhood) 1, independent 33; composition - men 34, women 6, percent of women 15%; note - total National Assembly percent of women 19%

Judicial branch: *highest court(s):* Court of Cassation (consists of the chairman and 3 judges); Supreme Court of Appeal (consists of the chairman and 3 judges); Constitutional Court (consists of the president and 6 members); High Sharia Court of Appeal (court sittings include the president and at least one judge)

judge selection and term of office: Court of Cassation judges appointed by royal decree and serve for a specified tenure; Constitutional Court president and members appointed by the Higher Judicial Council, a body chaired by the monarch and includes judges from the Court of Cassation, sharia law courts, and Civil High Courts of Appeal; members serve 9-year terms; High Sharia Court of Appeal member appointments by royal decree for a specified tenure

subordinate courts: Civil High Courts of Appeal; middle and lower civil courts; High Sharia Court of Appeal; Senior Sharia Court; Administrative Courts of Appeal; military courts

note: the judiciary of Bahrain is divided into civil law courts and sharia law courts; sharia courts (involving personal status and family law) are further divided into Sunni Muslim and Shia Muslim; the Courts are supervised by the Supreme Judicial Council.

Political parties and leaders: *note:* political parties are prohibited,

but political societies were legalized under a July 2005 law

International organization participation: ABEDA, AFESD, AMF, CAEU, CICA, FAO, G-77, GCC, IAEA, IBRD, ICAO, ICC (national committees), ICRM, IDA, IDB, IFC, IFRCs, IHO, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM (observer), IPU, ISO, ITSO, ITU, ITUC (NGOs), LAS, MIGA, NAM, OAPEC, OIC, OPCW, PCA, UN, UNCTAD, UNESCO, UNIDO, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Abdulla bin Rashid AL KHALIFA (since 21 July 2017)

chancery: 3502 International Drive NW, Washington, DC 20008

telephone: [1] (202) 342-1111

Flag description: red, the traditional color for flags of Persian Gulf states, with a white serrated band (five white points) on the hoist side; the five points represent the five pillars of Islam

note: until 2002, the flag had eight white points, but this was reduced to five to avoid confusion with the Qatari flag

National symbol(s): a red field surmounted by a white serrated band with five white points; national colors: red, white

National anthem: *name:* “Bahrainona” (Our Bahrain)

lyrics/music: unknown

note: adopted 1971; although Mohamed Sudqi AYYASH wrote the original lyrics, they were changed in 2002 following the transformation of Bahrain from an emirate to a kingdom

National heritage: *total World Heritage Sites:* 3 (all cultural)

selected World Heritage Site locales: Dilmun Burial Mounds; Qal’at al-Bahrain – Ancient Harbor and Capital of Dilmun; Bahrain Pearling Path

ECONOMY

Economic overview: Oil and natural gas play a dominant role in Bahrain's economy. Despite the Government's past efforts to diversify the economy, oil still comprises 85% of Bahraini budget revenues. In the last few years lower world energy prices have generated sizable budget deficits - about 10% of GDP in 2017 alone. Bahrain has few options for covering these deficits, with low foreign assets and fewer oil resources compared to its GCC neighbors. The three major US credit agencies downgraded Bahrain's sovereign debt rating to "junk" status in 2016, citing persistently low oil prices and the government's high debt levels. Nevertheless, Bahrain was able to raise about \$4 billion by issuing foreign currency denominated debt in 2017.

Other major economic activities are production of aluminum - Bahrain's second biggest export after oil and gas - finance, and construction. Bahrain continues to seek new natural gas supplies as feedstock to support its expanding petrochemical and aluminum industries. In April 2018 Bahrain announced it had found a significant oil field off the country's west coast, but is still assessing how much of the oil can be extracted profitably.

In addition to addressing its current fiscal woes, Bahraini authorities face the long-term challenge of boosting Bahrain's regional competitiveness — especially regarding industry, finance, and tourism — and reconciling revenue constraints with popular pressure to maintain generous state subsidies and a large public sector. Since 2015, the government lifted subsidies on meat, diesel, kerosene, and gasoline and has begun to phase in higher prices for electricity and water. As part of its diversification plans, Bahrain implemented a Free Trade Agreement (FTA) with the US in August 2006, the first FTA between the US and a Gulf state. It plans to introduce a Value Added Tax (VAT) by the end of 2018.

Real GDP (purchasing power parity): \$69.65 billion (2020 est.)
\$73.95 billion (2019 est.)

914 to 1,523 m: 1 (2021)

Heliports: 1 (2021)

Pipelines: 20 km gas, 54 km oil (2013)

Roadways: *total:* 4,122 km (2010)

paved: 3,392 km (2010)

unpaved: 730 km (2010)

country comparison to the world: 152

Merchant marine: *total:* 205

by type: general cargo 12, oil tanker 4, other 189 (2021)

country comparison to the world: 65

Ports and terminals: *major seaport(s):* Mina' Salman, Sitrah

MILITARY AND SECURITY

Military and security forces: Bahrain Defense Force (BDF): Royal Bahraini Army (includes the Royal Guard), Royal Bahraini Navy, Royal Bahraini Air Force; Ministry of Interior: National Guard, Special Security Forces Command (SSFC), Coast Guard (2022)

note: the Royal Guard is officially under the command of the Army, but exercises considerable autonomy; the National Guard's primary mission is to guard critical infrastructure such as the airport and oil fields; while the Guard is under the Ministry of Interior, it reports directly to the king

Military expenditures: 3.6% of GDP (2021 est.)

4.2% of GDP (2020 est.)

4% of GDP (2019 est.) (approximately \$2.09 billion)

4% of GDP (2018 est.) (approximately \$2.08 billion)

4.2% of GDP (2017 est.) (approximately \$2.18 billion)

country comparison to the world: 22

Military and security service personnel strengths: information varies; approximately 10,000 active personnel (7,500 Army; 1,000 Navy; 1,500 Air Force); approximately 3,000 National Guard (2022)

Military equipment inventories and acquisitions: the inventory of the Bahrain Defense force consists of a mix of equipment acquired from a wide variety of suppliers; since 2010, the US is the leading supplier of arms to Bahrain (2022)

Military service age and obligation: 18 years of age for voluntary military service; 15 years of age for non-commissioned officers, technicians, and cadets; no conscription (2022)

note: the BDF hires foreign nationals, Sunni Muslims primarily from Arabic countries and Pakistan, to serve under contract; as of 2020, foreigners were estimated to comprise as much as 80% of the military; the policy has become a controversial issue with the primarily Shia population; during the 2011, the BDF reportedly deployed mostly foreign personnel against protesters

Military - note: Bahrain hosts the US Naval Forces Central Command (USNAVCENT; established 1983), which includes the US 5th Fleet, several subordinate naval task forces, and the Combined Maritime Forces (established 2002), a coalition of more than 30 nations providing maritime security for regional shipping lanes; in 2018, the UK opened a naval support base in Bahrain

in addition to the US and UK, Bahrain maintains close security ties to Saudi Arabia and the United Arab Emirates (UAE); both Saudi Arabia and the UAE sent forces to Bahrain to assist with internal security following the 2011 uprising; in 2015, Bahrain joined the Saudi Arabia-led military action to try to restore the Government of Yemen that was ousted by Iranian-backed Huthi rebels, supplying a few hundred troops and combat aircraft

Bahrain has Major Non-NATO Ally (MNNA) status with the US; MNNA is a designation under US law that provides foreign partners with certain benefits in the areas of defense trade and security cooperation; while MNNA status provides military and economic privileges, it does not entail any security commitments (2022)

TERRORISM

Terrorist group(s): al-Ashtar Brigades; Islamic Revolutionary Guard Corps/Qods Force

note 1: in addition to the al-Ashtar Brigades and the IRGC/Qods Force, Saraya al-Mukhtar (aka The Mukhtar Brigade) is an Iran-backed terrorist organization based in Bahrain, reportedly receiving financial and logistic support from the IRGC; Saraya al-Mukhtar's self-described goal is to depose the Bahraini Government with the intention of paving the way for Iran to exert greater influence in Bahrain; the group was designated by the US as a Specially Designated Global Terrorist in Dec 2020

TRANSNATIONAL ISSUES

Disputes - international: none identified

BANGLADESH

INTRODUCTION

Background: The huge delta region formed at the confluence of the Ganges and Brahmaputra River systems - now referred to as Bangladesh - was a loosely incorporated outpost of various empires centered on the Gangetic plain for much of the first millennium A.D. Muslim conversions and settlement in the region began in the 10th century, primarily from Arab and Persian traders and preachers. Europeans established trading posts in the area in the 16th century. Eventually the area known as Bengal, primarily Hindu in the western section and mostly Muslim in the eastern half, became part of British India. Partition in 1947 resulted in an eastern wing of Pakistan in the Muslim-majority area, which became East Pakistan. Calls for greater autonomy and animosity between the eastern and western wings of Pakistan led to a Bengali independence movement. That movement, led by the Awami League (AL) and supported by India, won the independence war for Bangladesh in 1971.

The post-independence AL government faced daunting challenges and in 1975 it was overthrown by the military, triggering a series of military coups that resulted in a military-backed government and subsequent creation of the Bangladesh Nationalist Party (BNP) in 1978. That government also ended in a coup in 1981, followed by military-backed rule until democratic elections occurred in 1991. The BNP and AL have alternated in power since 1991, with the exception of a military-backed, emergency caretaker regime that suspended parliamentary elections planned for January 2007 in an effort to reform the political system and root out corruption. That government returned the country to fully democratic rule in December 2008 with the election of the AL and Prime Minister Sheikh HASINA. In January 2014, the incumbent AL won the national election by an overwhelming majority after the BNP boycotted the election, which extended HASINA's term as prime minister. In December 2018, HASINA secured a third consecutive term (fourth overall) with the AL coalition securing 96% of available seats, amid widespread claims of election irregularities. With the help of international development assistance, Bangladesh has reduced the poverty rate from

over half of the population to less than a third, achieved Millennium Development Goals for maternal and child health, and made great progress in food security since independence. The economy has grown at an annual average of about 6% for the last two decades. In 2021 the UN approved a resolution to allow Bangladesh to officially graduate from least-developed-country (LDC) status in 2026, based on World Bank criteria.

GEOGRAPHY

Location: Southern Asia, bordering the Bay of Bengal, between Burma and India

Geographic coordinates: 24 00 N, 90 00 E

Map references: Asia

Area: *total:* 148,460 sq km

land: 130,170 sq km

water: 18,290 sq km

country comparison to the world: 94

Area - comparative: slightly larger than Pennsylvania and New Jersey combined; slightly smaller than Iowa

Land boundaries: *total:* 4,413 km

border countries (2): Burma 271 km; India 4,142 km

Coastline: 580 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 18 nm

exclusive economic zone: 200 nm

continental shelf: to the outer limits of the continental margin

Climate: tropical; mild winter (October to March); hot, humid summer (March to June); humid, warm rainy monsoon (June to October)

Terrain: mostly flat alluvial plain; hilly in southeast

Elevation: *highest point:* Mowdok Taung 1,060 m

lowest point: Indian Ocean 0 m

mean elevation: 85 m

Natural resources: natural gas, arable land, timber, coal

Land use: *agricultural land:* 70.1% (2018 est.)

arable land: 59% (2018 est.)

permanent crops: 6.5% (2018 est.)

permanent pasture: 4.6% (2018 est.)

forest: 11.1% (2018 est.)

other: 18.8% (2018 est.)

Irrigated land: 53,000 sq km (2012)

Major rivers (by length in km): Brahmaputra river mouth (shared with China [s] and India) - 3,969 km; Ganges river mouth (shared with India [s]) - 2,704 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Indian Ocean drainage: Brahmaputra (651,335 sq km), Ganges (1,016,124 sq km)

Major aquifers: Indus-Ganges-Brahmaputra Basin

Natural hazards: droughts; cyclones; much of the country routinely inundated during the summer monsoon season

Geography - note: most of the country is situated on deltas of large rivers flowing from the Himalayas: the Ganges unites with the Jamuna (main channel of the Brahmaputra) and later joins the Meghna to eventually empty into the Bay of Bengal

PEOPLE AND SOCIETY

Population: 165,650,475 (2022 est.)

country comparison to the world: 8

Nationality: *noun:* Bangladeshi(s)

adjective: Bangladeshi

Ethnic groups: Bengali at least 98.9%, other indigenous ethnic groups 1.1% (2011 est.)

note: Bangladesh's government recognizes 27 indigenous ethnic groups under the 2010 Cultural Institution for Small Anthropological Groups Act; other sources estimate there are about 75 ethnic groups; critics of the 2011 census claim that it underestimates the size of Bangladesh's ethnic population

Languages: Bangla 98.8% (official, also known as Bengali), other 1.2% (2011 est.)

major-language sample(s):

বিশ্ব ফেসবুক, মৌলিক তথ্যের অপরিহার্য উৎস (Bangla)

Religions: Muslim 88.4%, other 11.6% (2020 est.)

rural: 1.3% of population

total: 1.1% of population (2020 est.)

Current health expenditure: 2.5% of GDP (2019)

Physicians density: 0.67 physicians/1,000 population (2020)

Hospital bed density: 0.8 beds/1,000 population (2016)

Sanitation facility access: *improved: urban:* 85.3% of population

rural: 73.5% of population

total: 78% of population

unimproved: urban: 14.7% of population

rural: 26.5% of population

total: 22% of population (2020 est.)

HIV/AIDS - adult prevalence rate: (2018 est.) <.1%

Major infectious diseases: *degree of risk:* high (2020)

food or waterborne diseases: bacterial and protozoal diarrhea, hepatitis A and E, and typhoid fever

vectorborne diseases: dengue fever and malaria are high risks in some locations

water contact diseases: leptospirosis

animal contact diseases: rabies

note: widespread ongoing transmission of a respiratory illness caused by the novel coronavirus (COVID-19) is occurring throughout Bangladesh;

as of 18 August 2022, Bangladesh has reported a total of 2,009,434 cases of COVID-19 or 1,220.13 cumulative cases of COVID-19 per 100,000 population with a total of 29,314 cumulative deaths or a rate of 17.8 cumulative deaths per 100,000 population; as of 17 August 2022, 76.89% of the population has received at least one dose of COVID-19 vaccine

Obesity - adult prevalence rate: 3.6% (2016)

country comparison to the world: 191

Alcohol consumption per capita: *total:* 0 liters of pure alcohol (2019 est.)

beer: 0 liters of pure alcohol (2019 est.)

wine: 0 liters of pure alcohol (2019 est.)

spirits: 0 liters of pure alcohol (2019 est.)

other alcohols: 0 liters of pure alcohol (2019 est.)

country comparison to the world: 185

Tobacco use: *total:* 34.7% (2020 est.)

male: 52.2% (2020 est.)

female: 17.1% (2020 est.)

country comparison to the world: 17

Children under the age of 5 years underweight: 22.6% (2019)

country comparison to the world: 16

Child marriage: *women married by age 15:* 15.5%

women married by age 18: 51.4% (2019 est.)

Education expenditures: 1.3% of GDP (2019 est.)

country comparison to the world: 186

Literacy: *definition:* age 15 and over can read and write

total population: 74.9%

male: 77.8%

female: 72% (2020)

School life expectancy (primary to tertiary education): *total:* 12 years

male: 12 years

female: 13 years (2020)

Unemployment, youth ages 15-24: *total*: 12.8%

male: 10.8%

female: 16.8% (2017 est.)

ENVIRONMENT

Environment - current issues: many people are landless and forced to live on and cultivate flood-prone land; waterborne diseases prevalent in surface water; water pollution, especially of fishing areas, results from the use of commercial pesticides; ground water contaminated by naturally occurring arsenic; intermittent water shortages because of falling water tables in the northern and central parts of the country; soil degradation and erosion; deforestation; destruction of wetlands; severe overpopulation with noise pollution

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Wetlands

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 58.33 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 84.25 megatons (2016 est.)

methane emissions: 59.3 megatons (2020 est.)

Climate: tropical; mild winter (October to March); hot, humid summer (March to June); humid, warm rainy monsoon (June to October)

Land use: *agricultural land:* 70.1% (2018 est.)

arable land: 59% (2018 est.)

permanent crops: 6.5% (2018 est.)

permanent pasture: 4.6% (2018 est.)

forest: 11.1% (2018 est.)

other: 18.8% (2018 est.)

Urbanization: *urban population:* 39.7% of total population (2022)

rate of urbanization: 2.88% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.08% of GDP (2018 est.)

country comparison to the world: 117

Revenue from coal: *coal revenues:* 0.02% of GDP (2018 est.)

country comparison to the world: 42

Food insecurity: *severe localized food insecurity: due to economic constraints* - losses in income and remittances caused by the COVID-19 pandemic and its containment measures led to an increase in poverty; in 2022, food insecurity is expected to increase and remain at high levels due to the impact of recent shocks, including floods that occurred in mid-May 2022 in the northeastern parts of the country and the elevated international prices of energy, fuel and food, which have been transmitted to the domestic markets (2022)

Waste and recycling: *municipal solid waste generated annually:* 14,778,497 tons (2012 est.)

Major rivers (by length in km)

Brahmaputra river mouth (shared with China [s] and India) - 3,969 km;

Ganges river mouth (shared with India [s]) - 2,704 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km)

Indian Ocean drainage: Brahmaputra (651,335 sq km), Ganges (1,016,124 sq km)

Major aquifers: Indus-Ganges-Brahmaputra Basin

Total water withdrawal: *municipal:* 3.6 billion cubic meters (2017 est.)

industrial: 770 million cubic meters (2017 est.)

agricultural: 31.5 billion cubic meters (2017 est.)

Total renewable water resources: 1.227 trillion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* People's Republic of Bangladesh

conventional short form: Bangladesh

local long form: Gana Prajatantri Bangladesh

local short form: Bangladesh

former: East Bengal, East Pakistan

etymology: the name - a compound of the Bengali words "Bangla" (Bengal) and "desh" (country) - means "Country of Bengal"

Government type: parliamentary republic

Capital: *name:* Dhaka

geographic coordinates: 23 43 N, 90 24 E

time difference: UTC+6 (11 hours ahead of Washington, DC, during Standard Time)

etymology: the origins of the name are unclear, but some sources state that the city's site was originally called "dhakka," meaning "watchtower," and that the area served as a watch-station for Bengal rulers

Administrative divisions: 8 divisions; Barishal, Chattogram, Dhaka, Khulna, Mymensingh, Rajshahi, Rangpur, Sylhet

Independence: 16 December 1971 (from Pakistan)

National holiday: Independence Day, 26 March (1971); Victory Day, 16 December (1971); note - 26 March 1971 is the date of the Awami League's declaration of an independent Bangladesh, and 16 December (Victory Day) memorializes the military victory over Pakistan and the official creation of the state of Bangladesh

Constitution: *history:* previous 1935, 1956, 1962 (preindependence); latest enacted 4 November 1972, effective 16 December 1972, suspended March 1982, restored November 1986

amendments: proposed by the House of the Nation; approval requires at least two-thirds majority vote of the House membership and assent of the

president of the republic; amended many times, last in 2018

Legal system: mixed legal system of mostly English common law and Islamic law

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Bangladesh

dual citizenship recognized: yes, but limited to select countries

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Abdul HAMID (since 24 April 2013); note - Abdul HAMID served as acting president following the death of Zillur RAHMAN in March 2013; HAMID was subsequently indirectly elected by the National Parliament and sworn in 24 April 2013

head of government: Prime Minister Sheikh HASINA Wazed (since 6 January 2009)

cabinet: Cabinet selected by the prime minister, appointed by the president

elections/appointments: president indirectly elected by the National Parliament for a 5-year term (eligible for a second term); election last held on 7 February 2018 (next to be held by 2023); the president appoints as prime minister the majority party leader in the National Parliament

election results: 2018: President Abdul HAMID (AL) reelected by the National Parliament unopposed for a second term; Sheikh HASINA reappointed prime minister as leader of the majority AL party following parliamentary elections in 2018

Legislative branch: *description:* unicameral House of the Nation or Jatiya Sangsad (350 seats; 300 members in single-seat territorial constituencies directly elected by simple majority vote; 50 members - reserved for women only - indirectly elected by the elected members by proportional representation vote using single transferable vote; all

members serve 5-year terms)

elections: last held on 30 December 2018 (next to be held in December 2023)

election results: percent of vote by party - NA; seats by party as of February 2022 - AL 299, JP 27, BNP 7, other 10, independent 4; composition - men 277, women 73, percent of women 20.9%

Judicial branch: *highest court(s):* Supreme Court of Bangladesh (organized into the Appellate Division with 7 justices and the High Court Division with 99 justices)

judge selection and term of office: chief justice and justices appointed by the president; justices serve until retirement at age 67

subordinate courts: civil courts include: Assistant Judge's Court; Joint District Judge's Court; Additional District Judge's Court; District Judge's Court; criminal courts include: Court of Sessions; Court of Metropolitan Sessions; Metropolitan Magistrate Courts; Magistrate Court; special courts/tribunals

Political parties and leaders: Awami League or AL [Sheikh HASINA]

Bangladesh Jamaat-i-Islami or JIB [Shafiqur RAHMAN]

Bangladesh Nationalist Front or BNF [S. M. Abul Kalam AZAD]

Bangladesh Nationalist Party or BNP [Tarique RAHMAN, acting chairperson; Khaleda ZIA]

Bangladesh Tariqat Federation or BTF [Syed Nozibul Bashar MAIZBHANDARI]

Jatiya Party or JP (Ershad faction) [Rowshan ERSHAD]

Jatiya Party or JP (Manju faction) [Anwar Hossain MANJU]

Liberal Democratic Party or LDP [Oli AHMED]

National Socialist Party (Jatiya Samajtantrik Dal) or JSD [Hasanul Haque INU]

Workers Party or WP [Rashed Khan MENON]

International organization participation: ADB, ARF, BIMSTEC, C, CD, CICA (observer), CP, D-8, FAO, G-77, IAEA, IBRD, ICAO, ICC (national committees), ICRM, IDA, IDB, IFAD, IFC, IFRCs, IHO, ILO,

IMF, IMO, IMSO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), MIGA, MINURSO, MINUSMA, MONUSCO, NAM, OIC, OPCW, PCA, SAARC, SACEP, UN, UNAMID, UNCTAD, UNESCO, UNHCR, UNIDO, UNISFA, UNIFIL, UNMIL, UNMISS, UNOCI, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador M Shahidul ISLAM (since 17 February 2021)

chancery: 3510 International Drive NW, Washington, DC 20008

telephone: [1] (202) 244-0183

FAX: [1] (202) 244-2771; [1] (202) 244 7830

email address and website:

mission.washington@mofa.gov.bd

<http://www.bdembassyusa.org/>

consulate(s) general: Los Angeles, New York

Diplomatic representation from the US: *chief of mission:* Ambassador Peter HAAS (since 15 March 2022)

embassy: Madani Avenue, Baridhara, Dhaka - 1212

mailing address: 6120 Dhaka Place, Washington DC 20521-6120

telephone: [880] (2) 5566-2000

FAX: [880] (2) 5566-2907

email address and website:

DhakaACS@state.gov

<https://bd.usembassy.gov/>

Flag description: green field with a large red disk shifted slightly to the hoist side of center; the red disk represents the rising sun and the sacrifice to achieve independence; the green field symbolizes the lush vegetation of Bangladesh

National symbol(s): Bengal tiger, water lily; national colors: green, red

National anthem: *name:* “Amar Shonar Bangla” (My Golden Bengal)

lyrics/music: Rabindranath TAGORE

note: adopted 1971; Rabindranath TAGORE, a Nobel laureate, also wrote India’s national anthem

National heritage: *total World Heritage Sites:* 3 (2 cultural, 1 natural)
selected World Heritage Site locales: Bagerhat Historic Mosque (c);
Ruins of the Buddhist Vihara at Paharpur (c); Sundarbans (n)

ECONOMY

Economic overview: Bangladesh's economy has grown roughly 6% per year since 2005 despite prolonged periods of political instability, poor infrastructure, endemic corruption, insufficient power supplies, and slow implementation of economic reforms. Although more than half of GDP is generated through the services sector, almost half of Bangladeshis are employed in the agriculture sector, with rice as the single-most-important product.

Garments, the backbone of Bangladesh's industrial sector, accounted for more than 80% of total exports in FY 2016-17. The industrial sector continues to grow, despite the need for improvements in factory safety conditions. Steady export growth in the garment sector, combined with \$13 billion in remittances from overseas Bangladeshis, contributed to Bangladesh's rising foreign exchange reserves in FY 2016-17. Recent improvements to energy infrastructure, including the start of liquefied natural gas imports in 2018, represent a major step forward in resolving a key growth bottleneck.

Real GDP (purchasing power parity): \$793.49 billion (2020 est.)

\$775.08 billion (2019 est.)

\$716.65 billion (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 31

Real GDP growth rate: 7.4% (2017 est.)

7.2% (2016 est.)

6.8% (2015 est.)

country comparison to the world: 12

Real GDP per capita: \$4,800 (2020 est.)

\$4,800 (2019 est.)

\$4,400 (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 175

GDP (official exchange rate): \$329.545 billion (2020 est.)

Inflation rate (consumer prices): 5.5% (2019 est.)

5.5% (2018 est.)

5.6% (2017 est.)

country comparison to the world: 187

Credit ratings:

Fitch rating: *BB-* (2014)

Moody's rating: Ba3 (2012)

Standard & Poors rating: BB- (2010)

note: The year refers to the year in which the current credit rating was first obtained.

GDP - composition, by sector of origin: *agriculture:* 14.2% (2017 est.)

industry: 29.3% (2017 est.)

services: 56.5% (2017 est.)

GDP - composition, by end use: *household consumption:* 68.7% (2017 est.)

government consumption: 6% (2017 est.)

investment in fixed capital: 30.5% (2017 est.)

investment in inventories: 1% (2017 est.)

exports of goods and services: 15% (2017 est.)

imports of goods and services: -20.3% (2017 est.)

Agricultural products: rice, potatoes, maize, sugar cane, milk, vegetables, onions, jute, mangoes/guavas, wheat

Industries: jute, cotton, garments, paper, leather, fertilizer, iron and steel, cement, petroleum products, tobacco, pharmaceuticals, ceramics, tea, salt, sugar, edible oils, soap and detergent, fabricated metal products, electricity, natural gas

Industrial production growth rate: 10.2% (2017 est.)

country comparison to the world: 15

Labor force: 66.64 million (2017 est.)

note: extensive migration of labor to Saudi Arabia, Kuwait, UAE, Oman, Qatar, and Malaysia

country comparison to the world: 7

Labor force - by occupation: *agriculture:* 42.7%

industry: 20.5%

services: 36.9% (2016 est.)

Unemployment rate: 4.4% (2017 est.)

4.4% (2016 est.)

note: about 40% of the population is underemployed; many persons counted as employed work only a few hours a week and at low wages

country comparison to the world: 64

Unemployment, youth ages 15-24: *total:* 12.8%

ENERGY

Electricity access: *electrification - total population:* 83% (2019)

electrification - urban areas: 93% (2019)

electrification - rural areas: 77% (2019)

Electricity: *installed generating capacity:* 18,461 million kW (2020 est.)

consumption: 76,849,877,000 kWh (2019 est.)

exports: 0 kWh (2019 est.)

imports: 6.786 billion kWh (2019 est.)

transmission/distribution losses: 9.537 billion kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 98.6% of total installed capacity (2020 est.)

solar: 0.6% of total installed capacity (2020 est.)

hydroelectricity: 0.8% of total installed capacity (2020 est.)

Coal: *production:* 1.016 million metric tons (2020 est.)

consumption: 9.345 million metric tons (2020 est.)

exports: 0 metric tons (2020 est.)

imports: 8.329 million metric tons (2020 est.)

proven reserves: 293 million metric tons (2019 est.)

Petroleum: *total petroleum production:* 13,500 bbl/day (2021 est.)

refined petroleum consumption: 122,500 bbl/day (2019 est.)

crude oil and lease condensate exports: 0 bbl/day (2018 est.)

crude oil and lease condensate imports: 21,600 bbl/day (2018 est.)

crude oil estimated reserves: 28 million barrels (2021 est.)

Refined petroleum products - production: 26,280 bbl/day (2015 est.)

country comparison to the world: 86

Refined petroleum products - exports: 901 bbl/day (2015 est.)

country comparison to the world: 108

Refined petroleum products - imports: 81,570 bbl/day (2015 est.)

country comparison to the world: 63

Natural gas: *production:* 28,629,927,000 cubic meters (2019 est.)

consumption: 31,268,968,000 cubic meters (2019 est.)

exports: 0 cubic meters (2021 est.)

imports: 2,639,041,000 cubic meters (2019 est.)

proven reserves: 126.293 billion cubic meters (2021 est.)

Carbon dioxide emissions: 96.18 million metric tonnes of CO₂ (2019 est.)

from coal and metallurgical coke: 16.538 million metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 18.535 million metric tonnes of CO₂ (2019 est.)

from consumed natural gas: 61.107 million metric tonnes of CO₂ (2019 est.)

country comparison to the world: 44

Energy consumption per capita: 9.917 million Btu/person (2019 est.)

country comparison to the world: 155

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 1,390,048 (2020 est.)
subscriptions per 100 inhabitants: 1 (2020 est.)
country comparison to the world: 65

Telephones - mobile cellular: *total subscriptions:* 176,279,465 (2020 est.)
subscriptions per 100 inhabitants: 107 (2020 est.)
country comparison to the world: 9

Telecommunication systems: *general assessment:* Bangladesh's economic resurgence over the last decade took a battering in 2020 and 2021 as a result of the Covid-19 pandemic; the country had been on track to move off the United Nation's Least Developed Countries list by 2026, however the crisis may have pushed that back a few years; the telecommunications sector experienced a set of challenges, with mobile data usage exploding at the same time as many consumers were being forced to curb their spending in other areas; the demand on data grew so large and so rapidly that Bangladesh came close to running out of bandwidth; at the start of 2020, Bangladesh was consuming around 900Gb/s on average, well below the 2,642GB/s capacity of its submarine cables; this ballooned to over 2,300Gb/s during the pandemic; Bangladesh was looking forward to adding 7,200Gb/s capacity when the SEA-ME-WE-6 submarine cable goes into service in mid-2024, but the sudden upsurge in downloads is forcing state-run company Bangladesh Submarine Cable Company Limited (BSCCL) to scramble to find alternatives before the country's internet supply is maxed out; the increased demand during the Covid-19 crisis also put pressure on the country's existing mobile networks, already under strain as a result of strong growth in the mobile broadband market coupled with significant untapped potential for mobile services in general across the country; this led to premium prices being paid at auction for spectrum in the 1800MHz and 2100MHz bands, most of which will be used to enhance and expand LTE services; a 5G spectrum auction had been anticipated for 2020, but

low interest from the MNOs in going down that path when there are still so many areas waiting for LTE access means that 5G will likely be deferred until 2023 (2021)

domestic: fixed-line teledensity remains less than 1 per 100 persons; mobile-cellular telephone subscribership has been increasing rapidly and now exceeds 107 per 100 persons; mobile subscriber growth is anticipated over the next five years to 2023 (2020)

international: country code - 880; landing points for the SeaMeWe-4 and SeaMeWe-5 fiber-optic submarine cable system that provides links to Europe, the Middle East, and Asia; satellite earth stations - 6; international radiotelephone communications and landline service to neighboring countries (2019)

Broadcast media: state-owned Bangladesh Television (BTV) broadcasts throughout the country. Some channels, such as BTV World, operate via satellite. The government also owns a medium wave radio channel and some private FM radio broadcast news channels. Of the 41 Bangladesh approved TV stations, 26 are currently being used to broadcast. Of those, 23 operate under private management via cable distribution. Collectively, TV channels can reach more than 50 million people across the country.

MILITARY AND SECURITY

Military and security forces: Armed Forces of Bangladesh (aka Bangladesh Defense Force): Bangladesh Army, Bangladesh Navy, Bangladesh Air Force; Ministry of Home Affairs: Border Guard Bangladesh (BGB), Bangladesh Coast Guard, Rapid Action Battalion (RAB), Ansars, Village Defense Party (VDP) (2022)

note 1: the Armed Forces of Bangladesh are jointly administered by the Ministry of Defense (MOD) and the Armed Forces Division (AFD), both under the Prime Minister's Office; the AFD has ministerial status and parallel functions with MOD; the AFD is a joint coordinating headquarters for the three services and also functions as a joint command center during wartime; to coordinate policy, the prime minister and the president are advised by a six-member board, which includes the three service chiefs of staff, the principal staff officer of the AFD, and the military secretaries to the prime minister and president

note 2: the RAB, Ansars, and VDP are paramilitary organizations for internal security; the RAB is a joint task force founded in 2004 and composed of members of the police, Army, Navy, Air Force, and Border Guards seconded to the RAB from their respective units; its mandate includes internal security, intelligence gathering related to criminal activities, and government-directed investigations

Military expenditures: 1.1% of GDP (2022 est.)

1.2% of GDP (2021 est.)

1.3% of GDP (2020)

1.4% of GDP (2019) (approximately \$5.12 billion)

1.4% of GDP (2018) (approximately \$4.57 billion)

country comparison to the world: 121

Military and security service personnel strengths: information varies; approximately 165,000 total active personnel (135,000 Army; 15,000 Navy; 15,000 Air Force) (2022)

Military equipment inventories and acquisitions: much of the military's inventory is comprised of Chinese- and Russian-origin

equipment, with a smaller mix from a variety of other suppliers; since 2010, China has been the leading provider of arms to Bangladesh; as of 2022, Bangladesh was undertaking a large defense modernization program, with a focus on naval acquisitions (2022)

Military service age and obligation: 16-21 years of age for voluntary military service; Bangladeshi nationality and 10th grade education required; officers: 17-21 years of age, Bangladeshi nationality, and 12th grade education required (2022)

Military deployments: 1,375 Central African Republic (MINUSCA); 1,625 Democratic Republic of the Congo (MONUSCO; plus about 190 police); 120 Lebanon (UNIFIL); 1,100 Mali (MINUSMA; plus about 280 police); 1,600 South Sudan (UNMISS); 180 Sudan (UNISFA) (May 2022)

Military - note: the military's chief areas of focus are border, economic exclusion zone, and domestic security; the Army maintains a large domestic security presence in the Chittagong Hills area where it conducted counterinsurgency operations against tribal guerrillas from the 1970s until the late 1990s; since 2009, the military has been in a force-wide expansion and modernization program known as Forces Goal 2030 (2022)

Maritime threats: the International Maritime Bureau reports the territorial waters of Bangladesh remain a risk for armed robbery against ships; there were no attacks reported in 2021 as opposed to four ships that were boarded in 2020

TERRORISM

Terrorist group(s): Harakat ul-Jihad-i-Islami/Bangladesh; Islamic State of Iraq and ash-Sham in Bangladesh (ISB); al-Qa'ida; al-Qa'ida in the Indian Subcontinent (AQIS)

TRANSNATIONAL ISSUES

Disputes - international: *Bangladesh-Burma:* Burmese border authorities are constructing a 200 km (124 mi) wire fence designed to deter illegal cross-border transit and tensions from the military build-up along border.

Bangladesh-India: Bangladesh referred its maritime boundary claims with Burma and India to the International Tribunal on the Law of the Sea; Indian Prime Minister Singh's September 2011 visit to Bangladesh resulted in the signing of a Protocol to the 1974 Land Boundary Agreement between India and Bangladesh, which had called for the settlement of longstanding boundary disputes over undemarcated areas and the exchange of territorial enclaves, but which had never been implemented.

Refugees and internally displaced persons: *refugees (country of origin):* 943,529 (Burma) (2022) (includes an estimated 773,972 Rohingya refugees who have fled conflict since 25 August 2017)

IDPs: 427,000 (conflict, development, human rights violations, religious persecution, natural disasters) (2021)

stateless persons: 889,704 (mid-year 2021)

Illicit drugs: transit country for illegal drugs produced in neighboring countries; does not manufacture precursor chemicals with the exception of sulphuric acid, hydrochloric acid, and toluene

BARBADOS

INTRODUCTION

Background: The island was uninhabited when first settled by the British in 1627. African slaves worked the sugar plantations established on the island, which initially dominated the Caribbean sugar industry. By 1720, Barbados was no longer a dominant force within the sugar industry, having been surpassed by the Leeward Islands and Jamaica. Slavery was abolished in 1834. The Barbadian economy remained heavily dependent on sugar, rum, and molasses production through most of the 20th century. The gradual introduction of social and political reforms in the 1940s and 1950s led to complete independence from the UK in 1966. In the 1990s, tourism and manufacturing surpassed the sugar industry in economic importance. Barbados became a republic on 30 November 2021, with the former Governor-General Sandra MASON elected as the first president. Barbados plans to create a new constitution in 2022.

GEOGRAPHY

Location: Caribbean, island in the North Atlantic Ocean, northeast of Venezuela

Geographic coordinates: 13 10 N, 59 32 W

Map references: Central America and the Caribbean

Area: *total:* 430 sq km

land: 430 sq km

water: 0 sq km

country comparison to the world: 201

Area - comparative: 2.5 times the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 97 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm

Climate: tropical; rainy season (June to October)

Terrain: relatively flat; rises gently to central highland region

Elevation: *highest point:* Mount Hillaby 336 m

lowest point: Atlantic Ocean 0 m

Natural resources: petroleum, fish, natural gas

Land use: *agricultural land:* 32.6% (2018 est.)

arable land: 25.6% (2018 est.)

permanent crops: 2.3% (2018 est.)

permanent pasture: 4.7% (2018 est.)

forest: 19.4% (2018 est.)

other: 48% (2018 est.)

Irrigated land: 50 sq km (2012)

Population distribution: most densely populated country in the eastern Caribbean; approximately one-third live in urban areas

Natural hazards: infrequent hurricanes; periodic landslides

Geography - note: easternmost Caribbean island

PEOPLE AND SOCIETY

Population: 302,674 (2022 est.)

country comparison to the world: 180

Nationality: *noun:* Barbadian(s) or Bajan (colloquial)

adjective: Barbadian or Bajan (colloquial)

Ethnic groups: African descent 92.4%, mixed 3.1%, White 2.7%, East Indian 1.3%, other 0.2%, unspecified 0.3% (2010 est.)

Languages: English (official), Bajan (English-based creole language, widely spoken in informal settings)

Religions: Protestant 66.4% (includes Anglican 23.9%, other Pentecostal 19.5%, Adventist 5.9%, Methodist 4.2%, Wesleyan 3.4%, Nazarene 3.2%, Church of God 2.4%, Baptist 1.8%, Moravian 1.2%, other Protestant 0.9%), Roman Catholic 3.8%, other Christian 5.4% (includes Jehovah's Witness 2.0%, other 3.4%), Rastafarian 1%, other 1.5%, none 20.6%, unspecified 1.2% (2010 est.)

Age structure: 0-14 years: 17.49% (male 25,762/female 25,764)

15-24 years: 12.34% (male 18,024/female 18,330)

25-54 years: 42.69% (male 62,655/female 63,093)

55-64 years: 13.91% (male 19,533/female 21,430)

65 years and over: 13.57% (male 16,398/female 23,571) (2020 est.)

Dependency ratios: total dependency ratio: 50.3

youth dependency ratio: 25.2

elderly dependency ratio: 25.1

potential support ratio: 4 (2020 est.)

Median age: total: 39.5 years

male: 38.4 years

female: 40.7 years (2020 est.)

country comparison to the world: 55

Population growth rate: 0.26% (2022 est.)

country comparison to the world: 172

Birth rate: 10.83 births/1,000 population (2022 est.)

country comparison to the world: 174

Death rate: 7.96 deaths/1,000 population (2022 est.)

country comparison to the world: 93

Net migration rate: -0.29 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 116

Population distribution: most densely populated country in the eastern Caribbean; approximately one-third live in urban areas

Urbanization: *urban population:* 31.3% of total population (2022)

rate of urbanization: 0.46% annual rate of change (2020-25 est.)

Major urban areas - population: 89,000 BRIDGETOWN (capital) (2018)

Sex ratio: *at birth:* 1.01 male(s)/female

0-14 years: 1 male(s)/female

15-24 years: 0.98 male(s)/female

25-54 years: 0.98 male(s)/female

55-64 years: 0.92 male(s)/female

65 years and over: 0.55 male(s)/female

total population: 0.93 male(s)/female (2022 est.)

Maternal mortality ratio: 27 deaths/100,000 live births (2017 est.)

country comparison to the world: 115

Infant mortality rate: *total:* 10 deaths/1,000 live births

male: 11.58 deaths/1,000 live births

female: 8.41 deaths/1,000 live births (2022 est.)

country comparison to the world: 139

Life expectancy at birth: *total population:* 78.55 years

male: 75.79 years

female: 81.35 years (2022 est.)

country comparison to the world: 69

Total fertility rate: 1.7 children born/woman (2022 est.)

country comparison to the world: 167

Contraceptive prevalence rate: 59.2% (2012)

Drinking water source: *improved: total:* 98.8% of population
unimproved: total: 2% of population (2020 est.)

Current health expenditure: 6.3% of GDP (2019)

Physicians density: 2.49 physicians/1,000 population (2017)

Hospital bed density: 6 beds/1,000 population (2017)

Sanitation facility access: *improved: total:* 100% of population
unimproved: total: 0% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 1.1% (2019 est.)
country comparison to the world: 38

Obesity - adult prevalence rate: 23.1% (2016)
country comparison to the world: 67

Alcohol consumption per capita: *total:* 9.94 liters of pure alcohol
(2019 est.)

beer: 3.66 liters of pure alcohol (2019 est.)

wine: 1.36 liters of pure alcohol (2019 est.)

spirits: 4.75 liters of pure alcohol (2019 est.)

other alcohols: 0.17 liters of pure alcohol (2019 est.)

country comparison to the world: 22

Tobacco use: *total:* 8.5% (2020 est.)

male: 15% (2020 est.)

female: 1.9% (2020 est.)

country comparison to the world: 142

Children under the age of 5 years underweight: 3.5% (2012)
country comparison to the world: 90

Education expenditures: 4.3% of GDP (2020 est.)
country comparison to the world: 89

Literacy: *definition:* age 15 and over can read and write
total population: 99.6%
male: 99.6%

female: 99.6% (2014)

School life expectancy (primary to tertiary education): *total: 15*
years

male: 14 years

female: 17 years (2011)

Unemployment, youth ages 15-24: *total: 26%*

male: 30.3%

female: 21.2% (2019 est.)

ENVIRONMENT

Environment - current issues: pollution of coastal waters from waste disposal by ships; soil erosion; illegal solid waste disposal threatens contamination of aquifers

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Marine Dumping-London Protocol, Ozone Layer Protection, Ship Pollution, Wetlands

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 22.24 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 1.28 megatons (2016 est.)

methane emissions: 2.35 megatons (2020 est.)

Climate: tropical; rainy season (June to October)

Land use: *agricultural land:* 32.6% (2018 est.)

arable land: 25.6% (2018 est.)

permanent crops: 2.3% (2018 est.)

permanent pasture: 4.7% (2018 est.)

forest: 19.4% (2018 est.)

other: 48% (2018 est.)

Urbanization: *urban population:* 31.3% of total population (2022)

rate of urbanization: 0.46% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.01% of GDP (2018 est.)

country comparison to the world: 147

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 63

Waste and recycling: *municipal solid waste generated annually:*

174,815 tons (2011 est.)

municipal solid waste recycled annually: 15,733 tons (2015 est.)

percent of municipal solid waste recycled: 9% (2015 est.)

Total water withdrawal: *municipal:* 20 million cubic meters (2017 est.)

industrial: 6.2 million cubic meters (2017 est.)

agricultural: 54.8 million cubic meters (2017 est.)

Total renewable water resources: 80 million cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Barbados

etymology: the name derives from the Portuguese “as barbadass,” which means “the bearded ones” and can refer either to the long, hanging roots of the island’s bearded fig trees or to the alleged beards of the native Carib inhabitants

Government type: parliamentary republic; a Commonwealth realm

Capital: *name:* Bridgetown

geographic coordinates: 13 06 N, 59 37 W

time difference: UTC-4 (1 hour ahead of Washington, DC, during Standard Time)

etymology: named after a bridge constructed over the swampy area (known as the Careenage) around the Constitution River that flows through the center of Bridgetown

Administrative divisions: 11 parishes and 1 city*; Bridgetown*, Christ Church, Saint Andrew, Saint George, Saint James, Saint John, Saint Joseph, Saint Lucy, Saint Michael, Saint Peter, Saint Philip, Saint Thomas

Independence: 30 November 1966 (from the UK)

National holiday: Independence Day, 30 November (1966)

Constitution: *history:* adopted 22 November 1966, effective 30 November 1966; Constitution (Amendment) (No. 2) Bill, 2021 establishes Barbados as a republic and revokes the earlier Order in Council

amendments: proposed by Parliament; passage of amendments to constitutional sections such as citizenship, fundamental rights and freedoms, and the organization and authorities of the branches of government requires two-thirds majority vote by the membership of both houses of Parliament; passage of other amendments only requires a

majority vote of both houses; amended several times, last in 2021

note: following the transition to a republic in November 2021, the Government of Barbados in February 2022 began the process of establishing a constitution commission to review a new draft constitution

Legal system: English common law; no judicial review of legislative acts

International law organization participation: accepts compulsory ICJ jurisdiction with reservations; accepts ICCT jurisdiction

Citizenship: *citizenship by birth:* yes

citizenship by descent only: yes

dual citizenship recognized: yes

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Sandra MASON (since 30 November 2021)

head of government: Prime Minister Mia MOTTLEY (since 25 May 2018)

cabinet: Cabinet appointed by the president on the advice of the prime minister

elections/appointments: the president is elected by an electoral college of both Houses of Parliament for a four year renewable term; election last held 20 October 2021; following legislative elections, the leader of the majority party or leader of the majority coalition usually appointed prime minister by the president; the prime minister recommends the deputy prime minister

election results: Sandra MASON elected as first president on 20 October 2021

Legislative branch: *description:* bicameral Parliament consists of:

Senate (21 seats - 18 for current term; members appointed by the president - 12 on the advice of the prime minister, 2 on the advice of the opposition leader, and 7 at the discretion of the president)

House of Assembly (30 seats; members directly elected in single-seat

constituencies by simple majority vote to serve 5-year terms)

elections:

Senate - last appointments on 4 February 2022 (next appointments in February 2027)

House of Assembly - last held on 19 January 2022 (next to be held in January 2027)

election results:

Senate - appointed; composition as of March 2022- men 10, women 8, percent of women 44.4%

House of Assembly - percent of vote by party - BLP 69%, DLP 26.5%, other 4.5%; seats by party - BLP 30; composition as of March 2022 - men 22, women 8, percent of women 26.7%; note - total Parliament percent of women 33.3%

note: tradition dictates that the election is held within 5 years of the last election, but constitutionally it is 5 years from the first seating of Parliament plus a 90-day grace period

Judicial branch: *highest court(s):* Supreme Court (consists of the High Court with 8 justices) and the Court of Appeal (consists of the High Court chief justice and president of the court and 4 justices; note - in 2005, Barbados acceded to the Caribbean Court of Justice as the final court of appeal, replacing that of the Judicial Committee of the Privy Council (in London))

judge selection and term of office: Supreme Court chief justice appointed by the president on the recommendation of the prime minister and opposition leader of Parliament; other justices appointed by the president on the recommendation of the Judicial and Legal Service Commission, a 5-member independent body consisting of the Supreme Court chief justice, the commission head, and presidential appointees recommended by the prime minister; justices serve until mandatory retirement at age 65

subordinate courts: Magistrates' Courts

Political parties and leaders: Alliance Party for Progress or APP [Joseph ATHERLEY]

Barbados Labor Party or BLP [Mia MOTTLEY]

Democratic Labor Party or DLP [Ronnie YEARWOOD]

International organization participation: ACP, AOSIS, C, Caricom, CDB, CELAC, FAO, G-77, IADB, IBRD, ICAO, ICCT, ICRM, IDA, IFAD, IFC, IFRCS, ILO, IMF, IMO, Interpol, IOC, ISO, ITSO, ITU, ITUC (NGOs), LAES, MIGA, NAM, OAS, OPANAL, OPCW, UN, UNCTAD, UNESCO, UNHCR, UNIDO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Noel Anderson LYNCH (since 11 January 2019)

chancery: 2144 Wyoming Avenue NW, Washington, DC 20008

telephone: [1] (202) 939-9200

FAX: [1] (202) 332-7467

email address and website:

washington@foreign.gov.bb

consulate(s) general: Miami, New York

Diplomatic representation from the US

chief of mission: Ambassador Linda S. TAGLIALATELA (since 1 February 2016) note - also accredited to Antigua and Barbuda, Dominica, Grenada, Saint Kitts and Nevis, Saint Lucia, and Saint Vincent and the Grenadines

embassy: Wildey Business Park, St. Michael BB 14006, Barbados, W.I.

mailing address: 3120 Bridgetown Place, Washington DC 20521-3120

telephone: (246) 227-4000

FAX: (246) 431-0179

email address and website:

BridgetownACS@state.gov

<https://bb.usembassy.gov/>

Flag description: three equal vertical bands of ultramarine blue (hoist side), gold, and ultramarine blue with the head of a black trident centered on the gold band; the band colors represent the blue of the sea and sky and the gold of the beaches; the trident head represents independence and a break with the past (the colonial coat of arms contained a complete trident)

National symbol(s): Neptune's trident, pelican, Red Bird of Paradise flower (also known as Pride of Barbados); national colors: blue, yellow, black

National anthem: *name:* "The National Anthem of Barbados"

lyrics/music: Irving BURGIE/C. Van Roland EDWARDS

note: adopted 1966; the anthem is also known as "In Plenty and In Time of Need"

National heritage: *total World Heritage Sites:* 1 (cultural)

selected World Heritage Site locales: Historic Bridgetown and its Garrison

ECONOMY

Economic overview: Barbados is the wealthiest and one of the most developed countries in the Eastern Caribbean and enjoys one of the highest per capita incomes in the region. Historically, the Barbadian economy was dependent on sugarcane cultivation and related activities. However, in recent years the economy has diversified into light industry and tourism. Offshore finance and information services are important foreign exchange earners, boosted by being in the same time zone as eastern US financial centers and by a relatively highly educated workforce. Following the 2008-09 recession, external vulnerabilities such as fluctuations in international oil prices have hurt economic growth, raised Barbados' already high public debt to GDP ratio - which stood at 105% of GDP in 2016 - and cut into its international reserves.

Real GDP (purchasing power parity): \$3.7 billion (2020 est.)

\$4.49 billion (2019 est.)

\$4.49 billion (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 68

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 128,000 (2020 est.)

subscriptions per 100 inhabitants: 45 (2020 est.)

country comparison to the world: 130

Telephones - mobile cellular: *total subscriptions:* 295,000 (2020 est.)

subscriptions per 100 inhabitants: 103 (2020 est.)

country comparison to the world: 179

Telecommunication systems: *general assessment:* the telecom sector has seen a decline in subscriber numbers (particularly for prepaid mobile services the mainstay of short term visitors) and revenue; fixed and mobile broadband services are two areas that have benefited from the crisis as employees and students have resorted to working from home; one area of the telecom market that is not prepared for growth is 5G mobile; governments, regulators, and even the mobile network operators have shown that they have not been investing in 5G opportunities at the present time; network expansion and enhancements remain concentrated around improving LTE coverage (2021)

domestic: fixed-line teledensity of roughly 45 per 100 persons; mobile-cellular telephone density about 103 per 100 persons (2020)

international: country code - 1-246; landing points for the ECFS and Southern Caribbean Fiber submarine cable with links to 15 other islands in the eastern Caribbean extending from the British Virgin Islands to Trinidad and Puerto Rico; satellite earth stations - 1 (Intelsat - Atlantic Ocean); tropospheric scatter to Trinidad and Saint Lucia (2019)

Broadcast media: government-owned Caribbean Broadcasting Corporation (CBC) operates the lone terrestrial TV station; CBC also operates a multi-channel cable TV subscription service; roughly a dozen radio stations, consisting of a CBC-operated network operating alongside privately owned radio stations (2019)

Internet country code: .bb

Internet users: *total:* 235,357 (2019 est.)

percent of population: 82% (2019 est.)

country comparison to the world: 173

Broadband - fixed subscriptions: *total:* 128,000 (2020 est.)

subscriptions per 100 inhabitants: 45 (2020 est.)

country comparison to the world: 125

TRANSPORTATION

Civil aircraft registration country code prefix: 8P

Airports: *total:* 1 (2021)

country comparison to the world: 212

Airports - with paved runways: *total:* 1

over 3,047 m: 1 (2021)

Pipelines: 33 km gas, 64 km oil, 6 km refined products (2013)

Roadways: *total:* 1,700 km (2015)

paved: 1,700 km (2015)

country comparison to the world: 173

Merchant marine: *total:* 165

by type: bulk carrier 46, general cargo 103, other 16 (2021)

country comparison to the world: 71

Ports and terminals: *major seaport(s):* Bridgetown

MILITARY AND SECURITY

Military and security forces: Barbados Defense Force: The Barbados Regiment, The Barbados Coast Guard (2022)

Military expenditures: 0.8% of GDP (2022 est.)

0.9% of GDP (2021 est.)

0.9% of GDP (2020 est.)

0.8% of GDP (2019 est.) (approximately \$35 million)

0.8% of GDP (2018 est.) (approximately \$40 million)

country comparison to the world: 141

Military and security service personnel strengths: approximately 600 active personnel (2022)

Military equipment inventories and acquisitions: the Netherlands provide the BDF's major equipment inventory (maritime patrol boats) (2022)

Military service age and obligation: voluntary service only (men and women); 17 years, 9 months to 17 years, 11 months with letter of consent from a parent or guardian, or be in the age range of 18-25 years at the start of recruit training; citizens of Barbados by descent or naturalization (2022)

Military - note: Barbados has been a member of the Caribbean Regional Security System (RSS) since its creation in 1982; RSS signatories (Antigua and Barbuda, Dominica, Grenada, Saint Kitts and Nevis, Saint Lucia, and Saint Vincent and the Grenadines) agreed to prepare contingency plans and assist one another, on request, in national emergencies, prevention of smuggling, search and rescue, immigration control, fishery protection, customs and excise control, maritime policing duties, protection of off-shore installations, pollution control, national and other disasters, and threats to national security; the RSS is headquartered in Barbados (2022)

TRANSNATIONAL ISSUES

Disputes - international: *Barbados-Venezuela (Maritime Boundary):*

Barbados joins other Caribbean states and the United Kingdom to counter Venezuela's claim that Aves Island, a large sandbar with some vegetation, sustains human habitation or economic life, the criteria under the UN Convention on the Law of the Sea (UNCLOS), Article 121, which would permit Venezuela to extend its EEZ/continental shelf over a large portion of the eastern Caribbean Sea. The dispute hampers hydrocarbon prospecting and creation of exploration blocks.

Barbados-Trinidad and Tobago (Maritime Boundary): Barbados and Trinidad and Tobago abide by the April 2006 Permanent Court of Arbitration decision delimiting a maritime boundary and limiting catches of flying fish in Trinidad and Tobago's exclusive economic zone.

Illicit drugs: a transit point for cocaine and marijuana destined for North America, Europe, and elsewhere in the Caribbean

BELARUS

INTRODUCTION

Background: After seven decades as a constituent republic of the USSR, Belarus attained its independence in 1991. It has retained closer political and economic ties to Russia than have any of the other former Soviet republics. Belarus and Russia signed a treaty on a two-state union on 8 December 1999 envisioning greater political and economic integration. Although Belarus agreed to a framework to carry out the accord, serious implementation has yet to take place and current negotiations on further integration have been contentious. Since his election in July 1994 as the country's first and only directly elected president, Alyaksandr LUKASHENKA has steadily consolidated his power through authoritarian means and a centralized economic system. Government restrictions on political and civil freedoms, freedom of speech and the press, peaceful assembly, and religion have remained in place. Restrictions on political freedoms have grown increasingly strained following the disputed presidential election in August 2020. The election results sparked largescale protests as members of the opposition and civil society criticized the election's validity. Alyaksandr LUKASHENKA has remained in power as the disputed winner of the presidential election after quelling protests in late 2020.

GEOGRAPHY

Location: Eastern Europe, east of Poland

Geographic coordinates: 53 00 N, 28 00 E

Map references: Europe

Area: *total:* 207,600 sq km

land: 202,900 sq km

water: 4,700 sq km

country comparison to the world: 86

Area - comparative: slightly less than twice the size of Kentucky; slightly smaller than Kansas

Land boundaries: *total:* 3,599 km

border countries (5): Latvia 161 km; Lithuania 640 km; Poland 375 km; Russia 1,312 km; Ukraine 1,111 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: cold winters, cool and moist summers; transitional between continental and maritime

Terrain: generally flat with much marshland

Elevation: *highest point:* Dzyarzhynskaya Hara 346 m

lowest point: Nyoman River 90 m

mean elevation: 160 m

Natural resources: timber, peat deposits, small quantities of oil and natural gas, granite, dolomitic limestone, marl, chalk, sand, gravel, clay

Land use: *agricultural land:* 43.7% (2018 est.)

arable land: 27.2% (2018 est.)

permanent crops: 0.6% (2018 est.)

permanent pasture: 15.9% (2018 est.)

forest: 42.7% (2018 est.)

other: 13.6% (2018 est.)

Irrigated land: 1,140 sq km (2012)

Major rivers (by length in km): Dnieper (shared with Russia [s] and Ukraine [m]) - 2,287 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: (*Black Sea*) Dnieper (533,966 sq km)

Population distribution: a fairly even distribution throughout most of the country, with urban areas attracting larger and denser populations

Natural hazards: large tracts of marshy land

Geography - note: landlocked; glacial scouring accounts for the flatness of Belarusian terrain and for its 11,000 lakes

PEOPLE AND SOCIETY

Population: 9,413,505 (2022 est.)

country comparison to the world: 96

Nationality: *noun:* Belarusian(s)

adjective: Belarusian

Ethnic groups: Belarusian 83.7%, Russian 8.3%, Polish 3.1%, Ukrainian 1.7%, other 2.4%, unspecified 0.9% (2009 est.)

Languages: Russian (official) 70.2%, Belarusian (official) 23.4%, other 3.1% (includes small Polish- and Ukrainian-speaking minorities), unspecified 3.3% (2009 est.)

major-language sample(s):

Книга фактов о мире – незаменимый источник базовой информации.
(Russian)

Religions: Orthodox 48.3%, Catholic 7.1%, other 3.5%, non-believers 41.1% (2011 est.)

Age structure: *0-14 years:* 16.09% (male 784,231/female 740,373)

15-24 years: 9.59% (male 467,393/female 441,795)

25-54 years: 43.94% (male 2,058,648/female 2,105,910)

55-64 years: 14.45% (male 605,330/female 763,972)

65 years and over: 15.93% (male 493,055/female 1,017,211) (2020 est.)

Dependency ratios: *total dependency ratio:* 48.9

youth dependency ratio: 25.7

elderly dependency ratio: 23.2

potential support ratio: 4.3 (2020 est.)

Median age: *total:* 40.9 years

male: 38 years

ENVIRONMENT

Environment - current issues: soil pollution from pesticide use; southern part of the country contaminated with fallout from 1986 nuclear reactor accident at Chornobyl' in northern Ukraine

Environment - international agreements: *party to:* Air Pollution, Air Pollution-Nitrogen Oxides, Air Pollution-Sulphur 85, Antarctic-Environmental Protection, Antarctic Treaty, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Wetlands
signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 18.06 micrograms per cubic meter (2016 est.)
carbon dioxide emissions: 58.28 megatons (2016 est.)
methane emissions: 17.19 megatons (2020 est.)

Climate: cold winters, cool and moist summers; transitional between continental and maritime

Land use: *agricultural land:* 43.7% (2018 est.)
arable land: 27.2% (2018 est.)
permanent crops: 0.6% (2018 est.)
permanent pasture: 15.9% (2018 est.)
forest: 42.7% (2018 est.)
other: 13.6% (2018 est.)

Urbanization: *urban population:* 80.3% of total population (2022)
rate of urbanization: 0.28% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 1.02% of GDP (2018 est.)
country comparison to the world: 52

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 64

Waste and recycling: *municipal solid waste generated annually:* 4.28 million tons (2015 est.)

municipal solid waste recycled annually: 684,800 tons (2016 est.)

percent of municipal solid waste recycled: 16% (2016 est.)

Major rivers (by length in km): Dnieper (shared with Russia [s] and Ukraine [m]) - 2,287 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: (*Black Sea*) Dnieper (533,966 sq km)

Total water withdrawal: *municipal:* 523 million cubic meters (2017 est.)

industrial: 443 million cubic meters (2017 est.)

agricultural: 431 million cubic meters (2017 est.)

Total renewable water resources: 57.9 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Belarus

conventional short form: Belarus

local long form: Respublika Byelarus' (Belarusian)/ Respublika Belarus' (Russian)

local short form: Byelarus' (Belarusian)/ Belarus' (Russian)

former: Belorussian (Byelorussian) Soviet Socialist Republic

etymology: the name is a compound of the Belarusian words "bel" (white) and "Rus" (the Old East Slavic ethnic designation) to form the meaning White Russian or White Ruthenian

Government type: presidential republic in name, although in fact a dictatorship

Capital: *name:* Minsk

geographic coordinates: 53 54 N, 27 34 E

time difference: UTC+2 (7 hours ahead of Washington, DC, during Standard Time)

etymology: the origin of the name is disputed; Minsk may originally have been located 16 km to the southwest, on the banks of Menka River; remnants of a 10th-century settlement on the banks of the Menka have been found

Administrative divisions: 6 regions (voblastsi, singular - voblasts') and 1 municipality* (horad); Brest, Homyel' (Gomel'), Horad Minsk* (Minsk City), Hrodna (Grodno), Mahilyow (Mogilev), Minsk, Vitsyebsk (Vitebsk)

note: administrative divisions have the same names as their administrative centers; Russian spelling provided for reference when different from Belarusian

Independence: 25 August 1991 (from the Soviet Union)

National holiday: Independence Day, 3 July (1944); note - 3 July 1944 was the date Minsk was liberated from German troops, 25 August 1991 was the date of independence from the Soviet Union

Constitution: *history:* several previous; latest drafted between late 1991 and early 1994, signed 15 March 1994

amendments: proposed by the president of the republic through petition to the National Assembly or by petition of least 150,000 eligible voters; approval required by at least two-thirds majority vote in both chambers or by simple majority of votes cast in a referendum; amended 1996, 2004

Legal system: civil law system; note - nearly all major codes (civil, civil procedure, criminal, criminal procedure, family, and labor) were revised and came into force in 1999 and 2000

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Belarus

dual citizenship recognized: no

residency requirement for naturalization: 7 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Alyaksandr LUKASHENKA (since 20 July 1994)

head of government: Prime Minister Raman HALOWCHENKA (since 4 June 2020); First Deputy Prime Minister Mikalay SNAPKOW (since 4 June 2020); Deputy Prime Ministers Uladzimir KUKHARAW, Ihar PETRYSHENKA (since 18 August 2018), Yuryy NAZARAW (since 3 March 2020), Alyaksandr SUBOTSIN (since 4 June 2020)

cabinet: Council of Ministers appointed by the president

elections/appointments: president directly elected by absolute majority popular vote in 2 rounds if needed for a 5-year term (no term limits); first election took place on 23 June and 10 July 1994; according to the 1994 constitution, the next election should have been held in 1999; however, Alyaksandr LUKASHENKA extended his term to 2001 via a November 1996 referendum; subsequent election held on 9 September 2001; an October 2004 referendum ended presidential term limits and allowed the

President LUKASHENKA to run and win in a third (19 March 2006), fourth (19 December 2010), fifth (11 October 2015), and sixth (9 August 2020); next election to be held in (2025); prime minister and deputy prime ministers appointed by the president and approved by the National Assembly

election results: Alyaksandr LUKASHENKA reelected president (9 August 2022); percent of vote - Alyaksandr LUKASHENKA (independent) 80.1%, Svyatlana TSIKHANOWSKAYA (independent) 10.1%, other 9.8%; note - widespread street protests erupted following announcement of the election results amid allegations of voter fraud
Alyaksandr LUKASHENKA president (11 October 2015); percent of vote - Alyaksandr LUKASHENKA (independent) 84.1%, Tatsyana KARATKEVICH 4.4%, Sergey GAYDUKEVICH 3.3%, other 8.2%.

Legislative branch: *description:* bicameral National Assembly or Natsyyalny Skhod consists of:

Council of the Republic or Savet Respubliki (64 seats; 56 members indirectly elected by regional and Minsk city councils and 8 members appointed by the president; members serve 4-year terms)

House of Representatives or Palata Pradstawnikow (110 seats; members directly elected in single-seat constituencies by absolute majority vote in 2 rounds if needed; members serve 4-year terms)

elections:

Council of the Republic - indirect election last held on 7 November 2019

House of Representatives - last held on 17 November 2019 (next to be held in 2023); OSCE observers determined that the election was neither free nor impartial and that vote counting was problematic in a number of polling stations; pro-LUKASHENKA candidates won every seat; international observers determined that the previous elections, on 28 September 2008, 23 September 2012, and 11 September 2016 also fell short of democratic standards, with pro-LUKASHENKA candidates winning every, or virtually every, seat

election results:

Council of the Republic - percent of vote by party - NA; seats by party - NA; composition - NA

House of Representatives - percent of vote by party - NA; seats by party - KPB 11, Republican Party of Labor and Justice 6, BPP 2, LDP 1, BAP 1, independent 89; composition - men 66, women 44, percent of women 40%

note: the US does not recognize the legitimacy of the National Assembly

Judicial branch: *highest court(s):* Supreme Court (consists of the chairman and deputy chairman and organized into several specialized panels, including economic and military; number of judges set by the president of the republic and the court chairman); Constitutional Court (consists of 12 judges, including a chairman and deputy chairman)

judge selection and term of office: Supreme Court judges appointed by the president with the consent of the Council of the Republic; judges initially appointed for 5 years and evaluated for life appointment; Constitutional Court judges - 6 appointed by the president and 6 elected by the Council of the Republic; the presiding judge directly elected by the president and approved by the Council of the Republic; judges can serve for 11 years with an age limit of 70

subordinate courts: oblast courts; Minsk City Court; town courts; Minsk city and oblast economic courts

Political parties and leaders: *pro-government parties:* Belarusian Agrarian Party or BAP [Mikhail RUSY]

Belarusian Patriotic Party or BPP [Mikalay ULAKHOVICH]

Belarusian Social Sport Party or BSSP [Uladzimir ALEKSANDROVICH]

Communist Party of Belarus or KPB [Alyaksey SOKOL]

Liberal Democratic Party or LDP [Aleh GAYDUKEVICH]

Republican Party [Uladzimir BELAZOR]

Republican Party of Labor and Justice [Alyaksandr STSYAPANAW]

Social Democratic Party of Popular Accord [Syarhey YERMAK]

opposition parties: Belarusian Christian Democracy Party [Paval SEVYARYNETS, Volha KAVALKOVA, Vital RYMASHEWSKI] (unregistered)

Belarusian Party of the Green [Dzimtry KUCHUK]

Belarusian Party of the Left “Just World” [Syarhey KALYAKIN]

Belarusian Social-Democratic Assembly of BSDH [Syarhey
CHERACHEN]

Belarusian Social Democratic Party (“Assembly”) or BSDPH [Ihar
BARYSAW]

Belarusian Social Democratic Party (People’s Assembly) or BSDP
[Mikalay STATKEVICH] (unregistered)

BPF Party [Ryhor KASTUSYOW]

Christian Conservative Party or BPF [Zyanon PAZNYAK]

United Civic Party or UCP [Mikalay KAZLOW]

International organization participation: BSEC (observer), CBSS (observer), CEI, CIS, CSTO, EAEC, EAEU, EAPC, EBRD, FAO, GCTU, IAEA, IBRD, ICAO, ICC (NGOs), ICRM, IDA, IFC, IFRCs, ILO, IMF, IMSO, Interpol, IOC, IOM, IPU, ISO, ITU, ITUC (NGOs), MIGA, NAM, NSG, OPCW, OSCE, PCA, PFP, SCO (dialogue member), UN, UNCTAD, UNESCO, UNIDO, UNIFIL, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO (observer), ZC

Diplomatic representation in the US: *chief of mission:* Ambassador (vacant; recalled by Belarus in 2008); Charge d’Affaires Pavel SHIDLOVSKY (since 9 August 2022)

chancery: 1619 New Hampshire Avenue NW, Washington, DC 20009

telephone: [1] (202) 986-1606

FAX: [1] (202) 986-1805

email address and website:

Flag description: red horizontal band (top) and green horizontal band one-half the width of the red band; a white vertical stripe on the hoist side bears Belarusian national ornamentation in red; the red band color recalls past struggles from oppression, the green band represents hope and the many forests of the country

National symbol(s): no clearly defined current national symbol, the mounted knight known as Pahonia (the Chaser) is the traditional Belarusian symbol; national colors: green, red, white

National anthem: *name:* “My, Bielarusy” (We Belarusians)

lyrics/music: Mikhas KLIMKOVICH and Uladzimir KARYZNA/Nester SAKALOUSKI

note: music adopted 1955, lyrics adopted 2002; after the fall of the Soviet Union, Belarus kept the music of its Soviet-era anthem but adopted new lyrics; also known as “Dziarzauny himn Respubliki Bielarus” (State Anthem of the Republic of Belarus)

National heritage: *total World Heritage Sites:* 4 (3 cultural, 1 natural)

selected World Heritage Site locales: Białowieża Forest (n); Mir Castle Complex (c); Architectural, Residential, and Cultural Complex of the Radziwill Family at Nesvizh (c)

ECONOMY

Economic overview: As part of the former Soviet Union, Belarus had a relatively well-developed industrial base, but it is now outdated, inefficient, and dependent on subsidized Russian energy and preferential access to Russian markets. The country's agricultural base is largely dependent on government subsidies. Following the collapse of the Soviet Union, an initial burst of economic reforms included privatization of state enterprises, creation of private property rights, and the acceptance of private entrepreneurship, but by 1994 the reform effort dissipated. About 80% of industry remains in state hands, and foreign investment has virtually disappeared. Several businesses have been renationalized. State-owned entities account for 70-75% of GDP, and state banks make up 75% of the banking sector.

Economic output declined for several years following the break-up of the Soviet Union, but revived in the mid-2000s. Belarus has only small reserves of crude oil and imports crude oil and natural gas from Russia at subsidized, below market, prices. Belarus derives export revenue by refining Russian crude and selling it at market prices. Russia and Belarus have had serious disagreements over prices and quantities for Russian energy. Beginning in early 2016, Russia claimed Belarus began accumulating debt – reaching \$740 million by April 2017 – for paying below the agreed price for Russian natural gas and Russia cut back its export of crude oil as a result of the debt. In April 2017, Belarus agreed to pay its gas debt and Russia restored the flow of crude.

New non-Russian foreign investment has been limited in recent years, largely because of an unfavorable financial climate. In 2011, a financial crisis led to a nearly three-fold devaluation of the Belarusian ruble. The Belarusian economy has continued to struggle under the weight of high external debt servicing payments and a trade deficit. In mid-December 2014, the devaluation of the Russian ruble triggered a near 40% devaluation of the Belarusian ruble.

Belarus's economy stagnated between 2012 and 2016, widening productivity and income gaps between Belarus and neighboring countries.

Budget revenues dropped because of falling global prices on key Belarusian export commodities. Since 2015, the Belarusian government has tightened its macro-economic policies, allowed more flexibility to its exchange rate, taken some steps towards price liberalization, and reduced subsidized government lending to state-owned enterprises. Belarus returned to modest growth in 2017, largely driven by improvement of external conditions and Belarus issued sovereign debt for the first time since 2011, which provided the country with badly-needed liquidity, and issued \$600 million worth of Eurobonds in February 2018, predominantly to US and British investors.

Real GDP (purchasing power parity): \$179.97 billion (2020 est.)

\$181.61 billion (2019 est.)

\$179.1 billion (2018 est.)

note: data are in 2017 dollars

ENERGY

Electricity access: *electrification - total population: 100% (2020)*

Electricity: *installed generating capacity: 11.36 million kW (2020 est.)*

consumption: 32,665,500,000 kWh (2019 est.)

exports: 4.777 billion kWh (2020 est.)

imports: 4.277 billion kWh (2020 est.)

transmission/distribution losses: 2.711 billion kWh (2019 est.)

Electricity generation sources: *fossil fuels: 95.8% of total installed capacity (2020 est.)*

nuclear: 0.9% of total installed capacity (2020 est.)

solar: 0.5% of total installed capacity (2020 est.)

wind: 0.5% of total installed capacity (2020 est.)

hydroelectricity: 1.1% of total installed capacity (2020 est.)

biomass and waste: 1.2% of total installed capacity (2020 est.)

Coal: *production: 0 metric tons (2020 est.)*

consumption: 621,000 metric tons (2020 est.)

exports: 1.574 million metric tons (2020 est.)

imports: 2.117 million metric tons (2020 est.)

proven reserves: 0 metric tons (2019 est.)

Petroleum: *total petroleum production: 34,300 bbl/day (2021 est.)*

refined petroleum consumption: 134,600 bbl/day (2019 est.)

crude oil and lease condensate exports: 32,200 bbl/day (2018 est.)

crude oil and lease condensate imports: 383,200 bbl/day (2018 est.)

crude oil estimated reserves: 198 million barrels (2021 est.)

Refined petroleum products - production: 477,200 bbl/day (2015 est.)

country comparison to the world: 34

Refined petroleum products - exports: 351,200 bbl/day (2015 est.)

country comparison to the world: 25

Refined petroleum products - imports: 14,630 bbl/day (2015 est.)

country comparison to the world: 135

Natural gas: *production:* 68.951 million cubic meters (2019 est.)

consumption: 18,639,590,000 cubic meters (2019 est.)

exports: 0 cubic meters (2021 est.)

imports: 18,673,429,000 cubic meters (2019 est.)

proven reserves: 2.832 billion cubic meters (2021 est.)

Carbon dioxide emissions: 54.695 million metric tonnes of CO2 (2019 est.)

from coal and metallurgical coke: 1.623 million metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 16.856 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 36.217 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 56

Energy consumption per capita: 102.558 million Btu/person (2019 est.)

country comparison to the world: 56

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 4,406,560 (2020 est.)
subscriptions per 100 inhabitants: 47 (2020 est.)
country comparison to the world: 33

Telephones - mobile cellular: *total subscriptions:* 11,704,084 (2020 est.)
subscriptions per 100 inhabitants: 124 (2020 est.)
country comparison to the world: 80

Telecommunication systems: *general assessment:* the Government of Belarus has successfully promoted the migration to an all-IP platform as part of a wider effort towards a digital transformation for the economy; the state-supported infrastructure operator beCloud has built an extensive fiber network, which reaches all but the smallest settlements in the country; Belarus has the second-highest fiber subscription rate in Europe, behind only Iceland; LTE coverage is almost universal, while considerable progress has also been made in developing 5G services (2021)

domestic: fixed-line teledensity is improving although rural areas continue to be underserved, approximately 47 per 100 fixed-line; mobile-cellular teledensity now roughly 124 telephones per 100 persons (2020)

international: country code - 375; Belarus is landlocked and therefore a member of the Trans-European Line (TEL), Trans-Asia-Europe (TAE) fiber-optic line, and has access to the Trans-Siberia Line (TSL); 3 fiber-optic segments provide connectivity to Latvia, Poland, Russia, and Ukraine; worldwide service is available to Belarus through this infrastructure; additional analog lines to Russia; Intelsat, Eutelsat, and Intersputnik earth stations; almost 31,000 base stations in service in 2019 (2020)

Broadcast media: 7 state-controlled national TV channels; Polish and Russian TV broadcasts are available in some areas; state-run Belarusian Radio operates 5 national networks and an external service; Russian and Polish radio broadcasts are available (2019)

Internet country code: .by

Internet users: *total:* 8,027,601 (July 2022 est.)

percent of population: 85% (July 2022 est.)

country comparison to the world: 71

Broadband - fixed subscriptions: *total:* 3,255,552 (2020 est.)

subscriptions per 100 inhabitants: 35 (2020 est.)

country comparison to the world: 44

TRANSPORTATION

National air transport system: *number of registered air carriers:* 2 (2020)

inventory of registered aircraft operated by air carriers: 30

annual passenger traffic on registered air carriers: 2,760,168 (2018)

annual freight traffic on registered air carriers: 1.9 million (2018) mt-km

Civil aircraft registration country code prefix: EW

MILITARY AND SECURITY

Military and security forces: Belarus Armed Forces: Army, Air and Air Defense Force, Special Operations Force, Special Troops (electronic warfare, signals, engineers, biological/chemical/nuclear protection troops, etc); Ministry of Interior: State Border Troops, Militia, Internal Troops (2022)

Military expenditures: 1.2% of GDP (2021 est.)

1.5% of GDP (2020 est.)

1.5% of GDP (2019 est.) (approximately \$2.11 billion)

1.5% of GDP (2018 est.) (approximately \$2.05 billion)

1.5% of GDP (2017 est.) (approximately \$1.98 billion)

country comparison to the world: 110

Military and security service personnel strengths: approximately 45,000 active duty troops; information on the individual services varies, but reportedly includes about 25,000 Army, 15,000 Air/Air Defense, and 5,000 Special Operations forces (2022)

Military equipment inventories and acquisitions: the inventory of the Belarus Armed Forces is comprised mostly of Russian/Soviet-origin equipment, and since 2010 Russia has been the leading provider of arms; Belarus's defense industry manufactures some equipment (mostly modernized Soviet designs), including vehicles, guided weapons, and electronic warfare systems (2021)

Military service age and obligation: 18-27 years of age for compulsory military or alternative service; conscript service obligation is 12-18 months, depending on academic qualifications, and 24-36 months for alternative service, also depending on academic qualifications; 17-year-olds are eligible to become cadets at military higher education institutes, where they are classified as military personnel (2022)

note: conscripts can be assigned to the military, to the Ministry of Interior as internal or border troops, or to the Ministry of Labor and Social Protection (alternative service); as of 2020, conscripts comprised an

estimated 40% of the military

Military - note: Belarus has close security ties with Russia, including an integrated air and missile defense system, joint training exercises, and the establishment of three joint training centers since 2020 (1 in Belarus, 2 in Russia); Russia has been the principal supplier of arms to Belarus, and Belarusian troops reportedly train on Russian equipment; Russia leases from Belarus a strategic ballistic missile defense site operated by Russian Aerospace Forces and a global communications facility for the Russian Navy; in 2020, the countries signed an agreement allowing for close security cooperation between the Belarusian Ministry of Interior and the Russian National Guard, including protecting public order and key government facilities, and combating extremism and terrorism; in 2022, Belarus allowed Russian military forces to stage on its territory for its invasion of Ukraine

Belarus has been a member of the Collective Security Treaty Organization (CSTO) since 1994 and contributes an airborne brigade to CSTO's rapid reaction force (KSOR) (2022)

TRANSNATIONAL ISSUES

Disputes - international: *Belarus-Latvia:* Boundary demarcated with Latvia.

Belarus-Lithuania: Boundary demarcated with Lithuania.

Belarus-Poland: As a member state that forms part of the EU's external border, Poland has implemented strict Schengen border rules to restrict illegal immigration and trade along its border with Belarus.

Refugees and internally displaced persons: *refugees (country of origin):* 16,433 (Ukraine) (as of 22 November 2022)
stateless persons: 6,104 (mid-year 2021)

Trafficking in persons: *current situation:* human traffickers exploit domestic and foreign victims and exploit Belarusians abroad; the majority of trafficking victims are men subjected to forced labor; most Belarusian victims are trafficked in Belarus and Russia, but also in Poland, Turkey, and other Eurasian and Middle Eastern countries; the government continued to subject factory workers, civil servants, and students to state-sponsored forced labor harvesting crops on state-owned farms or cleaning streets

tier rating: Tier 3 — Belarus does not fully meet the minimum standards for the elimination of trafficking because of a government policy or pattern of government-sponsored forced labor in public works projects and the agricultural sector; however, authorities convicted traffickers under its trafficking statute for the first time in eight years, increased training for law enforcement officers, and confirmed significantly more victims; the government adopted a national action plan to protect minors from sexual violence and exploitation (2020)

Illicit drugs: limited cultivation of opium poppy and cannabis, mostly for the domestic market; transshipment point for illicit drugs to and via Russia, and to the Baltics and Western Europe; a small and lightly regulated financial center; anti-moneylaundering legislation does not meet international standards and was weakened further when know-your-customer requirements were curtailed in 2008; few investigations or

prosecutions of money-laundering activities

BELGIUM

INTRODUCTION

Background: Belgium became independent from the Netherlands in 1830; it was occupied by Germany during World Wars I and II. The country prospered in the past half century as a modern, technologically advanced European state and member of NATO and the EU. In recent years, political divisions between the Dutch-speaking Flemish of the north and the French-speaking Walloons of the south have led to constitutional amendments granting these regions formal recognition and autonomy. The capital city of Brussels is home to numerous international organizations, including the EU and NATO.

GEOGRAPHY

Location: Western Europe, bordering the North Sea, between France and the Netherlands

Geographic coordinates: 50 50 N, 4 00 E

Map references: Europe

Area: *total:* 30,528 sq km

land: 30,278 sq km

water: 250 sq km

country comparison to the world: 140

Area - comparative: about the size of Maryland

Land boundaries: *total:* 1,297 km

border countries (4): France 556 km; Germany 133 km; Luxembourg 130 km; Netherlands 478 km

Coastline: 66.5 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: geographic coordinates define outer limit

continental shelf: median line with neighbors

Climate: temperate; mild winters, cool summers; rainy, humid, cloudy

Terrain: flat coastal plains in northwest, central rolling hills, rugged mountains of Ardennes Forest in southeast

Elevation: *highest point:* Botrange 694 m

lowest point: North Sea 0 m

mean elevation: 181 m

Natural resources: construction materials, silica sand, carbonates, arable land

Land use: *agricultural land:* 44.1% (2018 est.)

arable land: 27.2% (2018 est.)

permanent crops: 0.8% (2018 est.)

permanent pasture: 16.1% (2018 est.)

forest: 22.4% (2018 est.)

other: 33.5% (2018 est.)

Irrigated land: 230 sq km (2012)

Major watersheds (area sq km): Atlantic Ocean drainage: Seine (78,919 sq km), Rhine-Maas (198,735 sq km)

Population distribution: most of the population concentrated in the northern two-thirds of the country; the southeast is more thinly populated; considered to have one of the highest population densities in the world; approximately 97% live in urban areas

Natural hazards: flooding is a threat along rivers and in areas of reclaimed coastal land, protected from the sea by concrete dikes

Geography - note: crossroads of Western Europe; most West European capitals are within 1,000 km of Brussels, the seat of both the EU and NATO

PEOPLE AND SOCIETY

Population: 11,847,338 (2022 est.)

country comparison to the world: 81

Nationality: *noun:* Belgian(s)

adjective: Belgian

Ethnic groups: Belgian 75.2%, Italian 4.1%, Moroccan 3.7%, French 2.4%, Turkish 2%, Dutch 2%, other 10.6% (2012 est.)

Languages: Dutch (official) 60%, French (official) 40%, German (official) less than 1%

major-language sample(s): Het Wereld Feitenboek, een omnisbare bron van informatie. (Dutch)

Net migration rate: 4.38 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 26

Population distribution: most of the population concentrated in the northern two-thirds of the country; the southeast is more thinly populated; considered to have one of the highest population densities in the world; approximately 97% live in urban areas

Urbanization: *urban population:* 98.2% of total population (2022)

rate of urbanization: 0.38% annual rate of change (2020-25 est.)

Major urban areas - population: 2.110 million BRUSSELS (capital), 1.053 million Antwerp (2022)

Sex ratio: *at birth:* 1.05 male(s)/female

0-14 years: 1.05 male(s)/female

15-24 years: 1.05 male(s)/female

25-54 years: 1.02 male(s)/female

55-64 years: 0.99 male(s)/female

65 years and over: 0.65 male(s)/female

total population: 0.97 male(s)/female (2022 est.)

Mother's mean age at first birth: 29.2 years (2020 est.)

Maternal mortality ratio: 5 deaths/100,000 live births (2017 est.)

country comparison to the world: 164

Infant mortality rate: *total:* 3.19 deaths/1,000 live births

male: 3.63 deaths/1,000 live births

female: 2.73 deaths/1,000 live births (2022 est.)

country comparison to the world: 207

Life expectancy at birth: *total population:* 81.86 years

male: 79.25 years

female: 84.59 years (2022 est.)

country comparison to the world: 32

Total fertility rate: 1.77 children born/woman (2022 est.)

country comparison to the world: 149

Contraceptive prevalence rate: 66.7% (2018)

Drinking water source: *improved: urban:* 100% of population

rural: 100% of population

total: 100% of population

Current health expenditure: 10.7% of GDP (2019)

Physicians density: 6.08 physicians/1,000 population (2020)

Hospital bed density: 5.6 beds/1,000 population (2019)

Sanitation facility access: *improved: urban:* 100% of population

rural: 100% of population

total: 100% of population

Obesity - adult prevalence rate: 22.1% (2016)

country comparison to the world: 81

Alcohol consumption per capita: *total:* 9.15 liters of pure alcohol (2019 est.)

beer: 4.35 liters of pure alcohol (2019 est.)

wine: 3.41 liters of pure alcohol (2019 est.)

spirits: 1.09 liters of pure alcohol (2019 est.)

other alcohols: 0.3 liters of pure alcohol (2019 est.)

country comparison to the world: 34

Tobacco use: *total:* 23.4% (2020 est.)

male: 25.8% (2020 est.)

female: 21% (2020 est.)

country comparison to the world: 61

Children under the age of 5 years underweight: 1% (2014/15)

country comparison to the world: 121

Education expenditures: 6.4% of GDP (2018 est.)

country comparison to the world: 26

School life expectancy (primary to tertiary education): *total:* 20 years

male: 19 years

female: 21 years (2019)

Unemployment, youth ages 15-24: *total:* 15.3%

male: 15.5%

female: 15.1% (2020 est.)

ENVIRONMENT

Environment - current issues: *intense pressures from human activities:* urbanization, dense transportation network, industry, extensive animal breeding and crop cultivation; air and water pollution also have repercussions for neighboring countries

Environment - international agreements: *party to:* Air Pollution, Air Pollution-Heavy Metals, Air Pollution-Multi-effect Protocol, Air Pollution-Nitrogen Oxides, Air Pollution-Persistent Organic Pollutants, Air Pollution-Sulphur 85, Air Pollution-Sulphur 94, Air Pollution-Volatile Organic Compounds, Antarctic-Environmental Protection, Antarctic-Marine Living Resources, Antarctic Seals, Antarctic Treaty, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Marine Dumping-London Protocol, Marine Life Conservation, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands, Whaling

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 12.88 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 96.89 megatons (2016 est.)

methane emissions: 7.78 megatons (2020 est.)

Climate: temperate; mild winters, cool summers; rainy, humid, cloudy

Land use: *agricultural land:* 44.1% (2018 est.)

arable land: 27.2% (2018 est.)

permanent crops: 0.8% (2018 est.)

permanent pasture: 16.1% (2018 est.)

forest: 22.4% (2018 est.)

other: 33.5% (2018 est.)

Urbanization: *urban population:* 98.2% of total population (2022)

rate of urbanization: 0.38% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues: 0.02% of GDP (2018 est.)*

country comparison to the world: 139

Revenue from coal: *coal revenues: 0% of GDP (2018 est.)*

country comparison to the world: 65

Waste and recycling: *municipal solid waste generated annually: 4.708 million tons (2015 est.)*

municipal solid waste recycled annually: 1,614,985 tons (2015 est.)

percent of municipal solid waste recycled: 34.3% (2015 est.)

Major watersheds (area sq km): Atlantic Ocean drainage: Seine (78,919 sq km), Rhine-Maas (198,735 sq km)

Total water withdrawal: *municipal: 739 million cubic meters (2017 est.)*

industrial: 3.21 billion cubic meters (2017 est.)

agricultural: 45 million cubic meters (2017 est.)

Total renewable water resources: 18.3 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Kingdom of Belgium

conventional short form: Belgium

local long form: Royaume de Belgique (French)/Koninkrijk België (Dutch)/Koenigreich Belgien (German)

local short form: Belgique/Belgie/Belgien

etymology: the name derives from the Belgae, an ancient Celtic tribal confederation that inhabited an area between the English Channel and the west bank of the Rhine in the first centuries B.C.

Government type: federal parliamentary democracy under a constitutional monarchy

Capital: *name:* Brussels

geographic coordinates: 50 50 N, 4 20 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

daylight saving time: +1hr, begins last Sunday in March; ends last Sunday in October

etymology: may derive from the Old Dutch *bruoc/broek*, meaning “marsh” and *sella/zele/sel* signifying “home” to express the meaning “home in the marsh”

Administrative divisions: 3 regions (French: regions, singular - region; Dutch: gewesten, singular - gewest); Brussels-Capital Region, also known as Brussels Hoofdstedelijk Gewest (Dutch), Region de Bruxelles-Capitale (French long form), Bruxelles-Capitale (French short form); Flemish Region (Flanders), also known as Vlaams Gewest (Dutch long form), Vlaanderen (Dutch short form), Region Flamande (French long form), Flandre (French short form); Walloon Region (Wallonia), also known as Region Wallone (French long form), Wallonie (French short form), Waals Gewest (Dutch long form), Wallonie (Dutch short form)

note: as a result of the 1993 constitutional revision that furthered devolution into a federal state, there are now three levels of government

(federal, regional, and linguistic community) with a complex division of responsibilities; the 2012 sixth state reform transferred additional competencies from the federal state to the regions and linguistic communities

Independence: 4 October 1830 (a provisional government declared independence from the Netherlands); 21 July 1831 (King LEOPOLD I ascended to the throne)

National holiday: Belgian National Day (ascension to the throne of King LEOPOLD I), 21 July (1831)

Constitution: *history:* drafted 25 November 1830, approved 7 February 1831, entered into force 26 July 1831, revised 14 July 1993 (creating a federal state)

amendments: “revisions” proposed as declarations by the federal government in accord with the king or by Parliament followed by dissolution of Parliament and new elections; adoption requires two-thirds majority vote of a two-thirds quorum in both houses of the next elected Parliament; amended many times, last in 2019

Legal system: civil law system based on the French Civil Code; note - Belgian law continues to be modified in conformance with the legislative norms mandated by the European Union; judicial review of legislative acts

International law organization participation: accepts compulsory ICJ jurisdiction with reservations; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Belgium

dual citizenship recognized: yes

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal and compulsory

Executive branch: *chief of state:* King PHILIPPE (since 21 July 2013); Heir Apparent Princess ELISABETH (daughter of the monarch, born 25

October 2001)

head of government: Prime Minister Alexander DE CROO (since 1 October 2020); Deputy Prime Ministers Vincent Van QUICKENBORNE (since 1 October 2020), Sophie WILMES (since 1 October 2020), Vincent VAN PETEGHEM (since 1 October 2020), Frank VANDENBROUCKE (since 1 October 2020), Pierre-Yves DERMAGNE (since 1 October 2020), Petra DE SUTTER (since 1 October 2020), Georges GILKINET (since 1 October 2020)

cabinet: Council of Ministers formally appointed by the monarch

elections/appointments: the monarchy is hereditary and constitutional; following legislative elections, the leader of the majority party or majority coalition usually appointed prime minister by the monarch and approved by Parliament

Legislative branch: *description:* bicameral Parliament consists of: Senate or Senaat (in Dutch), Senat (in French) (60 seats; 50 members indirectly elected by the community and regional parliaments based on their election results, and 10 elected by the 50 other senators; members serve 5-year terms) Chamber of Representatives or Kamer van Volksvertegenwoordigers (in Dutch), Chambre des Représentants (in French) (150 seats; members directly elected in multi-seat constituencies by proportional representation vote; members serve 5-year terms)

elections:

Senate - last held 26 May 2019 (next to be held in 2024)

Chamber of Representatives - last held on 26 May 2019 (next to be held in 2024); note - elections coincided with the EU elections

election results:

Senate - percent of vote by party - N-VA 15%, VB 12%, PS 12%, MR 12%, CD&V 8.3%, Open VLD 8.3%, Ecolo 15%, SP.A 6.7%, CDH 3.3%, PVDA-PTB 8.3%; seats by party - N-VA 9, VB 7, PS 7, MR 7, CD&V 5, Open VLD 5, Ecolo 9, SP.A 4, CDH 2, PVDA-PTB 5; composition as of March 2022 - men 31, women 29, percent of women 48.3% Chamber of Representatives - percent of vote by party - N-VA 16.7%, VB 12%, PS 13.3%, CD&V 8%, PVDA-PTB 8%, Open VLD 8%, MR 9.3%, SP.A 6%, Ecolo 8.7%, Green 5.3%, CDH 3.3%, Defi 1.3%;

seats by party - N-VA 25, VB 18, PS 20, CD&V 12, PVDA+PTB 12, Open VLD 12, MR 14, SP.A 9, Ecolo 13, Green 8, CDH 5, Defi 2; composition as of March 2022 - men 87, women 63, percent of women 42%; note - overall Parliament percent of women 43.8%

note: the 1993 constitutional revision that further devolved Belgium into a federal state created three levels of government (federal, regional, and linguistic community) with a complex division of responsibilities; this reality leaves six governments, each with its own legislative assembly; changes above occurred since the sixth state reform

Judicial branch: *highest court(s):* Constitutional Court or Grondwettelijk Hof (in Dutch) and Cour Constitutionnelle (in French) (consists of 12 judges - 6 Dutch-speaking and 6 French-speaking); Supreme Court of Justice or Hof van Cassatie (in Dutch) and Cour de Cassation (in French) (court organized into 3 chambers: civil and commercial; criminal; social, fiscal, and armed forces; each chamber includes a Dutch division and a French division, each with a chairperson and 5-6 judges)

judge selection and term of office: Constitutional Court judges appointed by the monarch from candidates submitted by Parliament; judges appointed for life with mandatory retirement at age 70; Supreme Court judges appointed by the monarch from candidates submitted by the High Council of Justice, a 44-member independent body of judicial and non-judicial members; judges appointed for life

subordinate courts: Courts of Appeal; regional courts; specialized courts for administrative, commercial, labor, immigration, and audit issues; magistrate's courts; justices of the peace

Political parties and leaders:

Flemish parties: Christian Democratic and Flemish or CD&V [Sammy MAHDI]

Forward [Conner ROUSSEAU] (formerly Social Progressive Alternative or SP.A)

Groen or Green [Nadia NAJI and Jeremie VANEECKHOUT] (formerly AGALEV, Flemish Greens)

New Flemish Alliance or N-VA [Bart DE WEVER]

Open Flemish Liberals and Democrats or Open VLD [Egbert LACHAERT]

Vlaams Belang (Flemish Interest) or VB [Tom VAN GRIEKEN]

Francophone parties:: Ecolo (Francophone Greens) [Jean-Marc NOLLET and Rajae MAOUANE]

Francophone Federalist Democrats or Defi [Francois DE SMET]

Les Engagés [Maxine PREVOT] (formerly Humanist and Democratic Center or CDH)

People's Party or PP [Mischaël MODRIKAMEN] (dissolved 18 June 2019)

Reform Movement or MR [George-Louis BOUCHEZ]

Socialist Party or PS [Paul MAGNETTE]

Workers' Party or PVDA-PTB [Raoul HEDEBOUW]

International organization participation: ADB (nonregional members), AfDB (nonregional members), Australia Group, Benelux, BIS, CD, CE, CERN, EAPC, EBRD, ECB, EIB, EITI (implementing country), EMU, ESA, EU, FAO, FATF, G-9, G-10, IADB, IAEA, IBRD, ICAO, ICC (national committees), ICCT, ICRM, IDA, IEA, IFAD, IFC, IFRCS, IGAD (partners), IHO, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), MIGA, MONUSCO, NATO, NEA, NSG, OAS (observer), OECD, OIF, OPCW, OSCE, Pacific Alliance (observer), Paris Club, PCA, Schengen Convention, SELEC (observer), UN, UNCTAD, UNESCO, UNHCR, UNIDO, UNIFIL, UNRWA, UNTSO, UPU, Wassenaar Arrangement, WCO, WHO, WIPO, WMO, WTO, ZC

Diplomatic representation in the US: *chief of mission:* Ambassador Jean-Arthur REGIBEAU (since 17 September 2020)

chancery: 1430 K Street NW, Washington DC 20005

Flag description: three equal vertical bands of black (hoist side), yellow, and red; the vertical design was based on the flag of France; the colors are those of the arms of the duchy of Brabant (yellow lion with red claws and tongue on a black field)

National symbol(s): golden rampant lion; national colors: red, black, yellow

National anthem: *name:* “La Brabanconne” (The Song of Brabant)

lyrics/music: Louis-Alexandre DECHET [French] and Victor CEULEMANS [Dutch]/Francois VAN CAMPENHOUT

note: adopted 1830; according to legend, Louis-Alexandre DECHET, an actor at the theater in which the revolution against the Netherlands began, wrote the lyrics with a group of young people in a Brussels cafe

National heritage: *total World Heritage Sites:* 15 (14 cultural, 1 natural)

selected World Heritage Site locales: Belfries of Belgium (c); Historic Brugge (c); The Grand Place, Brussels (c); Major Town Houses of Victor Horta (c); Notre-Dame Cathedral, Tournai (c); Spa, Liege (c); Primeval Beech Forests - Sonian Wood (n); Stoclet Palace (c)

ECONOMY

Economic overview: Belgium's central geographic location and highly developed transport network have helped develop a well-diversified economy, with a broad mix of transport, services, manufacturing, and high tech. Service and high-tech industries are concentrated in the northern Flanders region while the southern region of Wallonia is home to industries like coal and steel manufacturing. Belgium is completely reliant on foreign sources of fossil fuels, and the planned closure of its seven nuclear plants by 2025 should increase its dependence on foreign energy. Its role as a regional logistical hub makes its economy vulnerable to shifts in foreign demand, particularly with EU trading partners. Roughly three-quarters of Belgium's trade is with other EU countries, and the port of Zeebrugge conducts almost half its trade with the United Kingdom alone, leaving Belgium's economy vulnerable to the outcome of negotiations on the UK's exit from the EU.

Belgium's GDP grew by 1.7% in 2017 and the budget deficit was 1.5% of GDP. Unemployment stood at 7.3%, however the unemployment rate is lower in Flanders than Wallonia, 4.4% compared to 9.4%, because of industrial differences between the regions. The economy largely recovered from the March 2016 terrorist attacks that mainly impacted the Brussels region tourist and hospitality industry. Prime Minister Charles MICHEL's center-right government has pledged to further reduce the deficit in response to EU pressure to decrease Belgium's high public debt of about 104% of GDP, but such efforts would also dampen economic growth. In addition to restrained public spending, low wage growth and higher inflation promise to curtail a more robust recovery in private consumption.

The government has pledged to pursue a reform program to improve Belgium's competitiveness, including changes to labor market rules and welfare benefits. These changes have generally made Belgian wages more competitive regionally, but have raised tensions with trade unions, which have called for extended strikes. In 2017, Belgium approved a tax reform plan to ease corporate rates from 33% to 29% by 2018 and down to 25%

by 2020. The tax plan also included benefits for innovation and SMEs, intended to spur competitiveness and private investment.

Real GDP (purchasing power parity): \$557.11 billion (2020 est.)

\$594.47 billion (2019 est.)

\$584.05 billion (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 36

Real GDP growth rate: 1.41% (2019 est.)

ENERGY

Electricity access: *electrification - total population: 100% (2020)*

Electricity: *installed generating capacity: 26.929 million kW (2020 est.)*

consumption: 81,171,300,000 kWh (2020 est.)

exports: 14.053 billion kWh (2020 est.)

imports: 13.394 billion kWh (2020 est.)

transmission/distribution losses: 3.444 billion kWh (2020 est.)

Electricity generation sources: *fossil fuels: 33.1% of total installed capacity (2020 est.)*

nuclear: 38.1% of total installed capacity (2020 est.)

solar: 5.8% of total installed capacity (2020 est.)

wind: 15% of total installed capacity (2020 est.)

hydroelectricity: 0.3% of total installed capacity (2020 est.)

biomass and waste: 7.7% of total installed capacity (2020 est.)

Coal: *production: 1.105 million metric tons (2020 est.)*

consumption: 4.167 million metric tons (2020 est.)

exports: 504,000 metric tons (2020 est.)

imports: 3.467 million metric tons (2020 est.)

proven reserves: 0 metric tons (2019 est.)

Petroleum: *total petroleum production: 11,400 bbl/day (2021 est.)*

refined petroleum consumption: 642,300 bbl/day (2019 est.)

crude oil and lease condensate exports: 0 bbl/day (2018 est.)

crude oil and lease condensate imports: 666,700 bbl/day (2018 est.)

crude oil estimated reserves: 0 barrels (2021 est.)

Refined petroleum products - production: 731,700 bbl/day (2017 est.)

country comparison to the world: 25

Refined petroleum products - exports: 680,800 bbl/day (2017 est.)

country comparison to the world: 12

Refined petroleum products - imports: 601,400 bbl/day (2017 est.)

country comparison to the world: 14

Natural gas: *production:* 0 cubic meters (2021 est.)

consumption: 18,171,598,000 cubic meters (2019 est.)

exports: 3,942,860,000 cubic meters (2019 est.)

imports: 22,606,066,000 cubic meters (2019 est.)

proven reserves: 0 cubic meters (2021 est.)

Carbon dioxide emissions: 128.247 million metric tonnes of CO2 (2019 est.)

from coal and metallurgical coke: 10.301 million metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 83.474 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 34.472 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 37

Energy consumption per capita: 234.216 million Btu/person (2019 est.)

country comparison to the world: 17

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 3,634,639 (2020 est.)
subscriptions per 100 inhabitants: 31 (2020 est.)
country comparison to the world: 36

Telephones - mobile cellular: *total subscriptions:* 11,529,728 (2020 est.)
subscriptions per 100 inhabitants: 99 (2020 est.)
country comparison to the world: 81

Telecommunication systems: *general assessment:* mobile networks have been upgraded to support growing mobile data use among subscribers, with near-comprehensive LTE coverage; operators have also trialed 5G in preparation for launching services; the auction of 5G-suitable spectrum has been delayed to the beginning of 2022, while the onerous restrictions on radiation have meant that some 5G trials have been suspended; there is effective competition in Belgium between the DSL and cable platforms, while in recent years government support has also encouraged investment in fiber networks; in a bid to encourage investment in under served areas, the regulator in 2018 amended the conditions by which market players grant wholesale access to copper and fiber infrastructure; in May 2019 it opened a further consultation on cost models for access to the networks of cablecos and fiber infrastructure (2021)

domestic: about 31 per 100 fixed-line and 99 per 100 mobile-cellular; nationwide mobile-cellular telephone system; extensive cable network; limited microwave radio relay network (2020)

international: country code - 32; landing points for Concerto, UK-Belgium, Tangerine, and SeaMeWe-3, submarine cables that provide links to Europe, the Middle East, Australia, and Asia; satellite earth stations - 7 (Intelsat - 3) (2019)

Broadcast media: a segmented market with the three major communities (Flemish-, French-, and German-speaking) each having responsibility for their own broadcast media; multiple TV channels exist

for each community; additionally, in excess of 90% of households are connected to cable and can access broadcasts of TV stations from neighboring countries; each community has a public radio network coexisting with private broadcasters

Internet country code: .be

Internet users: *total:* 10,620,701 (2020 est.)

percent of population: 92% (2020 est.)

country comparison to the world: 54

Broadband - fixed subscriptions: *total:* 4,734,210 (2020 est.)

subscriptions per 100 inhabitants: 41 (2020 est.)

country comparison to the world: 34

TRANSPORTATION

National air transport system: *number of registered air carriers:* 7 (2020)

inventory of registered aircraft operated by air carriers: 117

annual passenger traffic on registered air carriers: 13,639,487 (2018)

annual freight traffic on registered air carriers: 1,285,340,000 (2018) mt-km

Civil aircraft registration country code prefix: OO

Airports: *total:* 41 (2021)

country comparison to the world: 102

Airports - with paved runways: *total:* 26

over 3,047 m: 6

2,438 to 3,047 m: 9

1,524 to 2,437 m: 2

914 to 1,523 m: 1

under 914 m: 8 (2021)

Airports - with unpaved runways: *total:* 15

under 914 m: 15 (2021)

Heliports: 1 (2021)

Pipelines: 3,139 km gas, 154 km oil, 535 km refined products (2013)

Railways: *total:* 3,592 km (2014)

standard gauge: 3,592 km (2014) 1,435-m gauge (2,960 km electrified)

country comparison to the world: 55

Roadways: *total:* 118,414 km (2015)

paved: 118,414 km (2015) (includes 1,747 km of expressways)

country comparison to the world: 41

Waterways: 2,043 km (2012) (1,528 km in regular commercial use)

country comparison to the world: 43

Merchant marine: *total:* 201

by type: bulk carrier 19, container ship 7, general cargo 16, oil tanker 21, other 138 (2021)

country comparison to the world: 68

Ports and terminals: *major seaport(s):* Oostende, Zeebrugge

container port(s) (TEUs): Antwerp (11,860,204) (2019)

LNG terminal(s) (import): Zeebrugge

river port(s): Antwerp, Gent (Schelde River)

Brussels (Senne River) Liege (Meuse River)

MILITARY AND SECURITY

Military and security forces: Belgian Armed Forces: Land Component, Marine (Naval) Component, Air Component, Medical Service (2022)

Military expenditures: 1.2% of GDP (2022 est.)

1.1% of GDP (2021)

1% of GDP (2020)

0.9% of GDP (2019) (approximately \$5.54 billion)

0.9% of GDP (2018) (approximately \$5.43 billion)

country comparison to the world: 111

Military and security service personnel strengths: approximately 25,000 active duty personnel (10,000 Land Component; 1,500 Marine Component; 5,000 Air Force Component; 1,500 Medical Service; 7,000 other, including joint staff, support, and training schools) (2022)

Military equipment inventories and acquisitions: the Belgian Armed Forces have a mix of weapons systems from European countries, Israel, and the US; since 2010, several European nations have been the leading suppliers of armaments; Belgium has an export-focused defense industry that focuses on components and subcontracting (2021)

Military service age and obligation: 18 years of age for voluntary military service for men and women; conscription abolished in 1995 (2022)

note 1: in 2020, women comprised about 9% of the military's full-time personnel

note 2: foreign nationals 18-34 years of age who speak Dutch or French and are citizens of EU countries, Iceland, Lichtenstein, Norway, and Switzerland may apply to join the military

Military deployments: 125 France (contributing member of EuroCorps); 250 Romania (NATO) (2022)

note: in response to Russia's 2022 invasion of Ukraine, some NATO countries, including Belgium, have sent additional troops and equipment

to the battlegroups deployed in NATO territory in eastern Europe

Military - note: Belgium is a member of NATO and was one of the original 12 countries to sign the North Atlantic Treaty (also known as the Washington Treaty) in 1949; Belgium hosts the NATO headquarters in Brussels

in 2015, Belgium, the Netherlands, and Luxembourg signed an agreement to conduct joint air policing of their territories; under the agreement, which went into effect in January of 2017, the Belgian and Dutch Air Forces trade responsibility for patrolling the skies over the three countries

in 2018, the Defense Ministers of Belgium, Denmark and the Netherlands signed a Memorandum of Understanding (MOU) for the creation of a Composite Special Operations Component Command (C-SOCC); the C-SOCC was declared operational in December 2020

TERRORISM

Terrorist group(s): Islamic Revolutionary Guard Corps/Qods Force;
Islamic State of Iraq and ash-Sham (ISIS)

TRANSNATIONAL ISSUES

Disputes - international: none identified

Refugees and internally displaced persons: *refugees (country of origin):* 18,493 (Syria), 5,094 (Iraq) (2020); 60,241 (Ukraine) (as of 22 November 2022)

stateless persons: 1,159 (mid-year 2021)

Illicit drugs: a primary entry point for cocaine smuggled into Europe; also a transit point for precursor chemicals from China for amphetamine and MDMA (ecstasy) production labs in Belgium; a transit country for new psychoactive substances (NPS); increasing number of amphetamine and ecstasy production labs in Belgium; heroin also transits through Belgium.

BELIZE

INTRODUCTION

Background: Belize was the site of several Mayan city states until their decline at the end of the first millennium A.D. The British and Spanish disputed the region in the 17th and 18th centuries; it formally became the colony of British Honduras in 1862. Territorial disputes between the UK and Guatemala delayed the independence of Belize until 1981. Guatemala refused to recognize the new nation until 1992 and the two countries are involved in an ongoing border dispute. Both nations have voted to send the dispute for final resolution to the International Court of Justice. Tourism has become the mainstay of the economy. Current concerns include the country's heavy foreign debt burden, high crime rates, high unemployment combined with a majority youth population, growing involvement in the Mexican and South American drug trade, and one of the highest HIV/AIDS prevalence rates in Central America.

GEOGRAPHY

Location: Central America, bordering the Caribbean Sea, between Guatemala and Mexico

Geographic coordinates: 17 15 N, 88 45 W

Map references: Central America and the Caribbean

Area: *total:* 22,966 sq km

land: 22,806 sq km

water: 160 sq km

country comparison to the world: 151

Area - comparative: slightly smaller than Massachusetts

Land boundaries: *total:* 542 km

border countries (2): Guatemala 266 km; Mexico 276 km

Coastline: 386 km

Maritime claims: *territorial sea:* 12 nm in the north, 3 nm in the south; note - from the mouth of the Sarstoon River to Ranguana Cay, Belize's territorial sea is 3 nm; according to Belize's Maritime Areas Act, 1992, the purpose of this limitation is to provide a framework for negotiating a definitive agreement on territorial differences with Guatemala

exclusive economic zone: 200 nm

Climate: tropical; very hot and humid; rainy season (May to November); dry season (February to May)

Terrain: flat, swampy coastal plain; low mountains in south

Elevation: *highest point:* Doyle's Delight 1,124 m

lowest point: Caribbean Sea 0 m

mean elevation: 173 m

Natural resources: arable land potential, timber, fish, hydropower

Land use: *agricultural land:* 6.9% (2018 est.)

arable land: 3.3% (2018 est.)

permanent crops: 1.4% (2018 est.)

permanent pasture: 2.2% (2018 est.)

forest: 60.6% (2018 est.)

other: 32.5% (2018 est.)

Irrigated land: 35 sq km (2012)

Population distribution: approximately 25% to 30% of the population lives in the former capital, Belize City; over half of the overall population is rural; population density is slightly higher in the north and east

Natural hazards: frequent, devastating hurricanes (June to November) and coastal flooding (especially in south)

Geography - note: only country in Central America without a coastline on the North Pacific Ocean

PEOPLE AND SOCIETY

Population: 412,387 (2022 est.)

country comparison to the world: 175

Nationality: *noun:* Belizean(s)

adjective: Belizean

Ethnic groups: Mestizo 52.9%, Creole 25.9%, Maya 11.3%, Garifuna 6.1%, East Indian 3.9%, Mennonite 3.6%, White 1.2%, Asian 1%, other 1.2%, unknown 0.3% (2010 est.)

note: percentages add up to more than 100% because respondents were able to identify more than one ethnic origin

Languages: English 62.9% (official), Spanish 56.6%, Creole 44.6%, Maya 10.5%, German 3.2%, Garifuna 2.9%, other 1.8%, unknown 0.5%; note - shares sum to more than 100% because some respondents gave more than one answer on the census (2010 est.)

major-language sample(s): The World Factbook, the indispensable source for basic information. (English)

La Libreta Informativa del Mundo, la fuente indispensable de información básica. (Spanish)

Religions: Roman Catholic 40.1%, Protestant 31.5% (includes Pentecostal 8.4%, Seventh Day Adventist 5.4%, Anglican 4.7%, Mennonite 3.7%, Baptist 3.6%, Methodist 2.9%, Nazarene 2.8%), Jehovah's Witness 1.7%, other 10.5% (includes Baha'i, Buddhist, Hindu, Church of Jesus Christ, Muslim, Rastafarian, Salvation Army), unspecified 0.6%, none 15.5% (2010 est.)

Demographic profile: Migration continues to transform Belize's population. About 16% of Belizeans live abroad, while immigrants constitute approximately 15% of Belize's population. Belizeans seeking job and educational opportunities have preferred to emigrate to the United States rather than former colonizer Great Britain because of the United States' closer proximity and stronger trade ties with Belize. Belizeans also emigrate to Canada, Mexico, and English-speaking Caribbean countries.

The emigration of a large share of Creoles (Afro-Belizeans) and the influx of Central American immigrants, mainly Guatemalans, Salvadorans, and Hondurans, has changed Belize's ethnic composition. Mestizos have become the largest ethnic group, and Belize now has more native Spanish speakers than English or Creole speakers, despite English being the official language. In addition, Central American immigrants are establishing new communities in rural areas, which contrasts with the urbanization trend seen in neighboring countries. Recently, Chinese, European, and North American immigrants have become more frequent.

Immigration accounts for an increasing share of Belize's population growth rate, which is steadily falling due to fertility decline. Belize's declining birth rate and its increased life expectancy are creating an aging population. As the elderly population grows and nuclear families replace extended households, Belize's government will be challenged to balance a rising demand for pensions, social services, and healthcare for its senior citizens with the need to reduce poverty and social inequality and to improve sanitation.

Age structure: *0-14 years:* 32.57% (male 66,454/female 63,700)

15-24 years: 19% (male 39,238/female 36,683)

25-54 years: 37.72% (male 73,440/female 77,300)

55-64 years: 6.18% (male 12,235/female 12,444)

65 years and over: 4.53% (male 8,781/female 9,323) (2020 est.)

Dependency ratios: *total dependency ratio:* 52

youth dependency ratio: 44.4

elderly dependency ratio: 7.6

potential support ratio: 13.1 (2020 est.)

Median age: *total:* 23.9 years

male: 23 years

female: 24.8 years (2020 est.)

country comparison to the world: 172

Population growth rate: 1.64% (2022 est.)

country comparison to the world: 58

Birth rate: 21.28 births/1,000 population (2022 est.)

country comparison to the world: 64

Death rate: 3.94 deaths/1,000 population (2022 est.)

country comparison to the world: 216

Net migration rate: -0.96 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 143

Population distribution: approximately 25% to 30% of the population lives in the former capital, Belize City; over half of the overall population is rural; population density is slightly higher in the north and east

Urbanization: *urban population:* 46.4% of total population (2022)

rate of urbanization: 2.3% annual rate of change (2020-25 est.)

Major urban areas - population: 23,000 BELMOPAN (capital) (2018)

Sex ratio: *at birth:* 1.05 male(s)/female

0-14 years: 1.04 male(s)/female

15-24 years: 1.12 male(s)/female

25-54 years: 0.93 male(s)/female

55-64 years: 0.96 male(s)/female

65 years and over: 0.78 male(s)/female

total population: 1 male(s)/female (2022 est.)

Maternal mortality ratio: 36 deaths/100,000 live births (2017 est.)

country comparison to the world: 104

Infant mortality rate: *total:* 11.15 deaths/1,000 live births

male: 12.36 deaths/1,000 live births

female: 9.88 deaths/1,000 live births (2022 est.)

country comparison to the world: 130

Life expectancy at birth: *total population:* 75.82 years

male: 74.23 years

female: 77.5 years (2022 est.)

country comparison to the world: 114

Total fertility rate: 2.62 children born/woman (2022 est.)

country comparison to the world: 64

Contraceptive prevalence rate: 51.4% (2015/16)

Drinking water source: *improved: urban:* 100% of population

rural: 99.4% of population

total: 99.7% of population

unimproved: urban: 0% of population

rural: 0.6% of population

total: 0.3% of population (2020 est.)

Current health expenditure: 6% of GDP (2019)

Physicians density: 1.08 physicians/1,000 population (2018)

Hospital bed density: 1 beds/1,000 population (2017)

Sanitation facility access: *improved: urban:* 99.1% of population

rural: 95.7% of population

total: 97.3% of population

unimproved: urban: 0.9% of population

rural: 4.3% of population

total: 2.7% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 1.2% (2020 est.)

country comparison to the world: 35

Obesity - adult prevalence rate: 24.1% (2016)

country comparison to the world: 60

Alcohol consumption per capita: *total:* 5.93 liters of pure alcohol (2019 est.)

beer: 3.88 liters of pure alcohol (2019 est.)

wine: 0.68 liters of pure alcohol (2019 est.)

spirits: 1.19 liters of pure alcohol (2019 est.)

other alcohols: 0.17 liters of pure alcohol (2019 est.)

country comparison to the world: 72

Tobacco use: *total:* 8.5% (2020 est.)

male: 15.1% (2020 est.)

female: 1.8% (2020 est.)

country comparison to the world: 143

Children under the age of 5 years underweight: 4.6% (2015/16)

country comparison to the world: 81

Child marriage: *women married by age 15:* 6.3%

women married by age 18: 33.5%

men married by age 18: 22.2% (2016 est.)

Education expenditures: 7.9% of GDP (2020 est.)

country comparison to the world: 11

School life expectancy (primary to tertiary education): *total:* 13 years

male: 13 years

female: 13 years (2020)

Unemployment, youth ages 15-24: *total:* 19.3%

male: 12.7%

female: 28.5% (2019 est.)

ENVIRONMENT

Environment - current issues: deforestation; water pollution, including pollution of Belize's Barrier Reef System, from sewage, industrial effluents, agricultural runoff; inability to properly dispose of solid waste

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Ozone Layer Protection, Ship Pollution, Wetlands, Whaling
signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 21.23 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 0.57 megatons (2016 est.)

methane emissions: 0.55 megatons (2020 est.)

Climate: tropical; very hot and humid; rainy season (May to November); dry season (February to May)

Land use: *agricultural land:* 6.9% (2018 est.)

arable land: 3.3% (2018 est.)

permanent crops: 1.4% (2018 est.)

permanent pasture: 2.2% (2018 est.)

forest: 60.6% (2018 est.)

other: 32.5% (2018 est.)

Urbanization: *urban population:* 46.4% of total population (2022)

rate of urbanization: 2.3% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.31% of GDP (2018 est.)

country comparison to the world: 79

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 66

Waste and recycling: *municipal solid waste generated annually:*
101,379 tons (2015 est.)

Total water withdrawal: *municipal:* 11.4 million cubic meters (2017 est.)

industrial: 21.2 million cubic meters (2017 est.)

agricultural: 68.4 million cubic meters (2017 est.)

Total renewable water resources: 21.734 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Belize

former: British Honduras

etymology: may be named for the Belize River, whose name possibly derives from the Maya word “belix,” meaning “muddy-watered”

Government type: parliamentary democracy (National Assembly) under a constitutional monarchy; a Commonwealth realm

Capital: *name:* Belmopan

geographic coordinates: 17 15 N, 88 46 W

time difference: UTC-6 (1 hour behind Washington, DC, during Standard Time)

etymology: the decision to move the capital of the country inland to higher and more stable land was made in the 1960s; the name chosen for the new city was formed from the union of two words: “Belize,” the name of the longest river in the country, and “Mopan,” one of the rivers in the area of the new capital that empties into the Belize River

Administrative divisions: 6 districts; Belize, Cayo, Corozal, Orange Walk, Stann Creek, Toledo

Independence: 21 September 1981 (from the UK)

National holiday: Battle of St. George’s Caye Day (National Day), 10 September (1798); Independence Day, 21 September (1981)

Constitution: *history:* previous 1954, 1963 (preindependence); latest signed and entered into force 21 September 1981

amendments: proposed and adopted by two-thirds majority vote of the National Assembly House of Representatives except for amendments relating to rights and freedoms, changes to the Assembly, and to elections and judiciary matters, which require at least three-quarters majority vote of the House; both types of amendments require assent of the governor general; amended several times, last in 2017

Legal system: English common law

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* yes

citizenship by descent only: yes

dual citizenship recognized: yes

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022); represented by Governor Froyla TZALAM (since 27 May 2021)

head of government: Prime Minister Juan Antonio BRICENO (since 12 November 2020); Deputy Prime Minister Cordel HYDE (since 16 November 2020)

cabinet: Cabinet appointed by the governor general on the advice of the prime minister from among members of the National Assembly

elections/appointments: the monarchy is hereditary; governor general appointed by the monarch; following legislative elections, the leader of the majority party or majority coalition usually appointed prime minister by the governor general; prime minister recommends the deputy prime minister

Legislative branch: *description:* bicameral National Assembly consists of:

Senate (14 seats, including the president); members appointed by the governor general - 6 on the advice of the prime minister, 3 on the advice of the leader of the opposition, and 1 each on the advice of the Belize Council of Churches and Evangelical Association of Churches, the Belize Chamber of Commerce and Industry and the Belize Better Business Bureau, non-governmental organizations in good standing, and the National Trade Union Congress and the Civil Society Steering Committee; Senate president elected from among the Senate members or from outside the Senate; members serve 5-year terms

House of Representatives (31 seats; members directly elected in single-seat constituencies by simple majority vote to serve 5-year terms)

elections:

Senate - last appointed 11 November 2020 (next appointments in November 2025)

House of Representatives - last held on 11 November 2020 (next to be held in November 2025)

election results: Senate - all members appointed; composition as of March 2022 - composition - men 9, women 5, percent of women 35.7%

House of Representatives - percent of vote by party - PUP 59.6%, UDP 38.8%, other 1.6%; seats by party - PUP 26, UDP 5; composition as of March 2022 - men 27, women 4, percent of women 12.9%; note - total percent of women in the National Assembly 20%

Judicial branch: *highest court(s):* Supreme Court of Judicature (consists of the Court of Appeal with the court president and 3 justices, and the Supreme Court with the chief justice and 10 justices); note - in 2010, Belize acceded to the Caribbean Court of Justice as the final court of appeal, replacing that of the Judicial Committee of the Privy Council in London

judge selection and term of office: Court of Appeal president and justices appointed by the governor-general upon advice of the prime minister after consultation with the National Assembly opposition leader; justices' tenures vary by terms of appointment; Supreme Court chief justice appointed by the governor-general upon the advice of the prime minister and the National Assembly opposition leader; other judges appointed by the governor-general upon the advice of the Judicial and Legal Services Section of the Public Services Commission and with the concurrence of the prime minister after consultation with the National Assembly opposition leader; judges can be appointed beyond age 65 but must retire by age 75; in 2013, the Supreme Court chief justice overturned a constitutional amendment that had restricted Court of Appeal judge appointments to as short as 1 year

subordinate courts: Magistrates' Courts; Family Court

Political parties and leaders: Belize Progressive Party or BPP [Wil MAHEIA] (formed in 2015 from a merger of the People's National Party, elements of the Vision Inspired by the People, and other smaller political groups)

People's United Party or PUP [Juan Antonio "Johnny" BRICENO]

United Democratic Party or UDP [Dean Oliver Barrow and Patrick FABER]

Vision Inspired by the People or VIP [Hubert ENRIQUEZ]

International organization participation: ACP, AOSIS, C, Caricom, CD, CDB, CELAC, FAO, G-77, IADB, IAEA, IBRD, ICAO, ICC (NGOs), ICRM, IDA, IFAD, IFC, IFRCS, ILO, IMF, IMO, Interpol, IOC, IOM, ITU, LAES, MIGA, NAM, OAS, OPANAL, OPCW, PCA, Petrocaribe, SICA, UN, UNCTAD, UNESCO, UNIDO, UPU, WCO, WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Lynn Raymond YOUNG (since 7 July 2021)

chancery: 2535 Massachusetts Avenue NW, Washington, DC 20008-2826

telephone: [1] (202) 332-9636

FAX: [1] (202) 332-6888

email address and website:

reception.usa@mfa.gov.bz

<https://www.belizeembassyusa.mfa.gov.bz/>

consulate(s) general: Los Angeles, New York (consular services temporarily suspended beginning 18 December 2020)

consulate(s): Miami

Diplomatic representation from the US: *chief of mission:* Ambassador (vacant); Charge d'Affaires Leyla MOSES-ONES (since August 2021)

embassy: Floral Park Road, Belmopan, Cayo

mailing address: 3050 Belmopan Place, Washington DC 20521-3050

telephone: (501) 822-4011

FAX: (501) 822-4012

email address and website:

ACSBelize@state.gov

<https://bz.usembassy.gov/>

Flag description: royal blue with a narrow red stripe along the top and the bottom edges; centered is a large white disk bearing the coat of arms; the coat of arms features a shield flanked by two workers in front of a mahogany tree with the related motto SUB UMBRA FLOREO (I Flourish in the Shade) on a scroll at the bottom, all encircled by a green garland of 50 mahogany leaves; the colors are those of the two main political parties: blue for the PUP and red for the UDP; various elements of the coat of arms - the figures, the tools, the mahogany tree, and the garland of leaves - recall the logging industry that led to British settlement of Belize

note: Belize's flag is the only national flag that depicts human beings; two British overseas territories, Montserrat and the British Virgin Islands, also depict humans

National symbol(s): Baird's tapir (a large, browsing, forest-dwelling mammal), keel-billed toucan, Black Orchid; national colors: red, blue

National anthem: *name:* Land of the Free

lyrics/music: Samuel Alfred HAYNES/Selwyn Walford YOUNG

note: adopted 1981; as a Commonwealth country, in addition to the national anthem, "God Save the King" serves as the royal anthem (see United Kingdom)

National heritage: *total World Heritage Sites:* 1 (natural)

selected World Heritage Site locales: Belize Barrier Reef Reserve System

ECONOMY

Economic overview: Tourism is the number one foreign exchange earner in this small economy, followed by exports of sugar, bananas, citrus, marine products, and crude oil.

The government's expansionary monetary and fiscal policies, initiated in September 1998, led to GDP growth averaging nearly 4% in 1999-2007, but GDP growth has averaged only 2.1% from 2007-2016, with 2.5% growth estimated for 2017. Belize's dependence on energy imports makes it susceptible to energy price shocks.

Although Belize has the third highest per capita income in Central America, the average income figure masks a huge income disparity between rich and poor, and a key government objective remains reducing poverty and inequality with the help of international donors. High unemployment, a growing trade deficit and heavy foreign debt burden continue to be major concerns. Belize faces continued pressure from rising sovereign debt, and a growing trade imbalance.

Real GDP (purchasing power parity): \$2.43 billion (2020 est.)

\$2.83 billion (2019 est.)

\$2.78 billion (2018 est.)

note: data are in 2017 dollars

ENERGY

Electricity access: *electrification - total population:* 99.5% (2018)
electrification - urban areas: 98.2% (2018)
electrification - rural areas: 100% (2018)

Electricity: *installed generating capacity:* 204,000 kW (2020 est.)
consumption: 992.305 million kWh (2019 est.)
exports: 0 kWh (2019 est.)
imports: 240 million kWh (2019 est.)
transmission/distribution losses: 80.3 million kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 63.6% of total installed capacity (2020 est.)
solar: 0.2% of total installed capacity (2020 est.)
hydroelectricity: 13.4% of total installed capacity (2020 est.)
biomass and waste: 22.9% of total installed capacity (2020 est.)

Petroleum: *total petroleum production:* 1,300 bbl/day (2021 est.)
refined petroleum consumption: 3,900 bbl/day (2019 est.)
crude oil and lease condensate exports: 1,200 bbl/day (2018 est.)
crude oil and lease condensate imports: 0 bbl/day (2018 est.)
crude oil estimated reserves: 6.7 million barrels (2021 est.)

Refined petroleum products - production: 36 bbl/day (2015 est.)
country comparison to the world: 109

Refined petroleum products - exports: 0 bbl/day (2015 est.)
country comparison to the world: 130

Refined petroleum products - imports: 4,161 bbl/day (2015 est.)
country comparison to the world: 176

Carbon dioxide emissions: 541,000 metric tonnes of CO₂ (2019 est.)
from petroleum and other liquids: 541,000 metric tonnes of CO₂ (2019 est.)
country comparison to the world: 188

Energy consumption per capita: 31.552 million Btu/person (2019)

est.)

country comparison to the world: 120

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 19,000 (2020 est.)

subscriptions per 100 inhabitants: 5 (2020 est.)

country comparison to the world: 175

Telephones - mobile cellular: *total subscriptions:* 264,000 (2020 est.)

subscriptions per 100 inhabitants: 66 (2020 est.)

country comparison to the world: 181

Telecommunication systems: *general assessment:* Belize's fixed-line teledensity and mobile penetration remain lower than average for the region, a legacy of insufficient market competition and under investment in telecoms services; a significant investment in infrastructure, launching an LTE-A service at the end of 2016 and in mid-2017 completing a submarine cable to Ambergris Caye, enabling it to launch an FttP service in San Pedro; the infrastructure has been updated from the legacy copper to fiber; investments have been made to provide high speed broadband to 80% of residences across Belize. (2021)

domestic: roughly 5 per 100 fixed-line and mobile-cellular teledensity of 66 per 100 persons; mobile sector accounting for over 90% of all phone subscriptions (2020)

international: country code - 501; landing points for the ARCOS and SEUL fiber-optic telecommunications submarine cable that provides links to South and Central America, parts of the Caribbean, and the US; satellite earth station - 8 (Intelsat - 2, unknown - 6) (2019)

Broadcast media: 8 privately owned TV stations; multi-channel cable TV provides access to foreign stations; about 25 radio stations broadcasting on roughly 50 different frequencies; state-run radio was privatized in 1998 (2019)

Internet country code: .bz

Internet users: *total:* 202,787 (2020 est.)

percent of population: 51% (2020 est.)

country comparison to the world: 176

Broadband - fixed subscriptions: *total:* 36,000 (2020 est.)

subscriptions per 100 inhabitants: 9 (2020 est.)

MILITARY AND SECURITY

Military and security forces: Belize Defense Force (BDF): Army, Air Wing; Belize Coast Guard (2022)

note: the Ministry of National Defense and Border Security is responsible for oversight of the BDF and the Coast Guard, while the Ministry of Home Affairs and New Growth Industries has responsibility for police and prisons

Military expenditures: 1.2% of GDP (2022 est.)

1.3% of GDP (2021 est.)

1.5% of GDP (2020 est.)

1.4% of GDP (2019 est.) (approximately \$35 million)

1.4% of GDP (2018 est.) (approximately \$35 million)

country comparison to the world: 112

Military and security service personnel strengths: approximately 1,300 BDF personnel; approximately 300 Belize Coast Guard (2022)

Military equipment inventories and acquisitions: the BDF's inventory is limited and consists mostly of UK- and US-origin equipment (2022)

Military service age and obligation: 18 years of age for voluntary military service; laws allow for conscription only if volunteers are insufficient, but conscription has never been implemented; volunteers typically outnumber available positions by 3:1; initial service obligation 12 years (2022)

Military - note: the BDF traces its history back to the Prince Regent Royal Honduras Militia, a volunteer force established in 1817; the BDF was established in 1978 from the disbanded Police Special Force and the Belize Volunteer Guard to assist the resident British forces with the defense of Belize against Guatemala

the British Army has maintained a presence in Belize since its independence; as of 2022, the presence consisted of a small training support unit that provides jungle training to troops from the UK and

international partners

TRANSNATIONAL ISSUES

Disputes - international: *Belize-Guatemala:* Demarcated but insecure boundary due to Guatemala's claims to more than half of Belizean territory. Line of Adjacency operates in lieu of an international boundary to control influx of Guatemalan squatters onto Belizean territory. Smuggling, narcotics trafficking, and human trafficking for sexual exploitation and debt bondage are all problems. Belize lacks resources to detect and extradite impoverished Guatemalan peasants squatting in Belizean rain forests in the remote border areas. At present, Belize and Honduras 12-nm territorial sea claims close off Guatemalan access to Caribbean in the Bahia de Amatique. Maritime boundary remains unresolved pending further negotiation.

Belize-Honduras: Honduras claims the Belizean-administered Sapodilla Cays off the coast of Belize in its constitution, but agreed to a joint ecological park around the cays should Guatemala consent to a maritime corridor in the Caribbean under the OAS-sponsored 2002 Belize-Guatemala Differendum.

Belize-Mexico: Belize and Mexico are working to solve minor border demarcation discrepancies arising from inaccuracies in the 1898 border treaty. Transshipment of illegal narcotics, smuggling, human trafficking, illegal immigration, and the growing of marijuana in very low population areas are all issues in the region today.

Illicit drugs: a transit country for illegal drugs, mainly cocaine, originating from countries in South America; low domestic drug consumption problem outside of recreational cannabis

BENIN

INTRODUCTION

Background: Present day Benin is comprised of about 42 ethnic groups, including the Yoruba in the southeast, who migrated from what is now Nigeria in the 12th century; the Dendi in the north-central area, who came from Mali in the 16th century; the Bariba and the Fula in the northeast; the Ottamari in the Atakora mountains; the Fon in the area around Abomey in the south-central area; and the Mina, Xueda, and Aja, who came from Togo, on the coast. The Kingdom of Dahomey emerged on the Abomey plateau in the 17th century and was a regional power for much of the 18th and 19th centuries. Dahomey had an organized domestic economy, international trade with Europeans, and a highly organized military. The growth of Dahomey coincided with the growth of the Atlantic slave trade, and it became known as a major source of enslaved people. France began to control the coastal areas of Dahomey in the second half of the 19th century; the entire kingdom was conquered by 1894. French Dahomey achieved independence in 1960; it changed its name to the Republic of Benin in 1975.

A succession of military governments ended in 1972 with the rise to power of Mathieu KEREKOU and the establishment of a government based on Marxist-Leninist principles. A move to representative government began in 1989. Two years later, free elections ushered in former Prime Minister Nicephore SOGLO as president, marking the first successful transfer of power in Africa from a dictatorship to a democracy. KEREKOU was returned to power by elections held in 1996 and 2001, though some irregularities were alleged. KEREKOU stepped down at the end of his second term in 2006 and was succeeded by Thomas YAYI Boni, a political outsider and independent, who won a second five-year term in March 2011. Patrice TALON, a wealthy businessman, took office in 2016; the space for pluralism, dissent, and free expression has narrowed under his administration. TALON won a second term in April 2021.

GEOGRAPHY

Location: Western Africa, bordering the Bight of Benin, between Nigeria and Togo

Geographic coordinates: 9 30 N, 2 15 E

Map references: Africa

Area: *total:* 112,622 sq km

land: 110,622 sq km

water: 2,000 sq km

country comparison to the world: 102

Area - comparative: slightly smaller than Pennsylvania

Land boundaries: *total:* 2,123 km

border countries (4): Burkina Faso 386 km; Niger 277 km; Nigeria 809 km; Togo 651 km

Coastline: 121 km

Maritime claims: *territorial sea:* 200 nm; note: the US does not recognize this claim

continental shelf: 200 nm

exclusive fishing zone: 200 nm

Climate: tropical; hot, humid in south; semiarid in north

Terrain: mostly flat to undulating plain; some hills and low mountains

Elevation: *highest point:* unnamed elevation 675 m; located 2.5 km southeast of the town of Kotopounga

lowest point: Atlantic Ocean 0 m

mean elevation: 273 m

Natural resources: small offshore oil deposits, limestone, marble, timber

Land use: *agricultural land:* 31.3% (2018 est.)

arable land: 22.9% (2018 est.)

permanent crops: 3.5% (2018 est.)

permanent pasture: 4.9% (2018 est.)

forest: 40% (2018 est.)

other: 28.7% (2018 est.)

Irrigated land: 230 sq km (2012)

Major watersheds (area sq km): Atlantic Ocean drainage: Niger (2,261,741 sq km), Volta (410,991 sq km)

Population distribution: the population is primarily located in the south, with the highest concentration of people residing in and around the cities on the Atlantic coast; most of the north remains sparsely populated with higher concentrations of residents in the west as shown in this population distribution map

Natural hazards: hot, dry, dusty harmattan wind may affect north from December to March

Geography - note: sandbanks create difficult access to a coast with no natural harbors, river mouths, or islands

PEOPLE AND SOCIETY

Population: 13,754,688 (2022 est.)

country comparison to the world: 74

Nationality: *noun:* Beninese (singular and plural)

adjective: Beninese

Ethnic groups: Fon and related 38.4%, Adja and related 15.1%, Yoruba and related 12%, Bariba and related 9.6%, Fulani and related 8.6%, Ottamari and related 6.1%, Yoa-Lokpa and related 4.3%, Dendi and related 2.9%, other 0.9%, foreigner 1.9% (2013 est.)

Languages: 55 languages; French (official); Fon (a Gbe language) and Yoruba are the most important indigenous languages in the south; half a dozen regionally important languages in the north, including Bariba (once counted as a Gur language) and Fulfulde

Religions: Muslim 27.7%, Roman Catholic 25.5%, Protestant 13.5% (Celestial 6.7%, Methodist 3.4%, other Protestant 3.4%), Vodoun 11.6%, other Christian 9.5%, other traditional religions 2.6%, other 2.6%, none 5.8% (2013 est.)

Demographic profile: Benin has a youthful age structure – almost 65% of the population is under the age of 25 – which is bolstered by high fertility and population growth rates. Benin's total fertility has been falling over time but remains high, declining from almost 7 children per women in 1990 to 4.8 in 2016. Benin's low contraceptive use and high unmet need for contraception contribute to the sustained high fertility rate. Although the majority of Beninese women use skilled health care personnel for antenatal care and delivery, the high rate of maternal mortality indicates the need for more access to high quality obstetric care.

Poverty, unemployment, increased living costs, and dwindling resources increasingly drive the Beninese to migrate. An estimated 4.4 million, more than 40%, of Beninese live abroad. Virtually all Beninese emigrants move to West African countries, particularly Nigeria and Cote d'Ivoire. Of the less than 1% of Beninese emigrants who settle in Europe,

the vast majority live in France, Benin's former colonial ruler.

With about 40% of the population living below the poverty line, many desperate parents resort to sending their children to work in wealthy households as domestic servants (a common practice known as *vidomegon*), mines, quarries, or agriculture domestically or in Nigeria and other neighboring countries, often under brutal conditions. Unlike in other West African countries, where rural people move to the coast, farmers from Benin's densely populated southern and northwestern regions move to the historically sparsely populated central region to pursue agriculture. Immigrants from West African countries came to Benin in increasing numbers between 1992 and 2002 because of its political stability and porous borders.

Age structure: *0-14 years:* 45.56% (male 2,955,396/female 2,906,079)

15-24 years: 20.36% (male 1,300,453/female 1,318,880)

25-54 years: 28.54% (male 1,735,229/female 1,935,839)

55-64 years: 3.15% (male 193,548/female 211,427)

65 years and over: 2.39% (male 140,513/female 167,270) (2020 est.)

Dependency ratios: *total dependency ratio:* 82.6

youth dependency ratio: 76.6

elderly dependency ratio: 6

potential support ratio: 16.7 (2020 est.)

Median age: *total:* 17 years

male: 16.4 years

female: 17.6 years (2020 est.)

country comparison to the world: 218

Population growth rate: 3.34% (2022 est.)

country comparison to the world: 7

Birth rate: 41.15 births/1,000 population (2022 est.)

country comparison to the world: 3

Death rate: 8.01 deaths/1,000 population (2022 est.)

country comparison to the world: 89

Net migration rate: 0.24 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 76

Population distribution: the population is primarily located in the south, with the highest concentration of people residing in and around the cities on the Atlantic coast; most of the north remains sparsely populated with higher concentrations of residents in the west as shown in this population distribution map

Urbanization: *urban population:* 49.5% of total population (2022)
rate of urbanization: 3.74% annual rate of change (2020-25 est.)

Major urban areas - population: 285,000 PORTO-NOVO (capital) (2018); 1.189 million Abomey-Calavi, 709,000 COTONOU (seat of government) (2022)

Sex ratio: *at birth:* 1.05 male(s)/female

0-14 years: 1.02 male(s)/female

15-24 years: 1 male(s)/female

25-54 years: 0.9 male(s)/female

55-64 years: 0.91 male(s)/female

65 years and over: 0.72 male(s)/female

total population: 0.97 male(s)/female (2022 est.)

Mother's mean age at first birth: 20.5 years (2017/18 est.)

note: data represents median age at first birth among women 25-49

Maternal mortality ratio: 397 deaths/100,000 live births (2017 est.)

country comparison to the world: 27

Infant mortality rate: *total:* 55.76 deaths/1,000 live births

male: 60.79 deaths/1,000 live births

female: 50.48 deaths/1,000 live births (2022 est.)

country comparison to the world: 15

Life expectancy at birth: *total population:* 62.21 years

male: 60.39 years

female: 64.14 years (2022 est.)

country comparison to the world: 213

Total fertility rate: 5.43 children born/woman (2022 est.)

country comparison to the world: 6

Contraceptive prevalence rate: 15.5% (2017/18)

Drinking water source: *improved: urban:* 79% of population

rural: 70.8% of population

total: 74.7% of population

unimproved: urban: 21% of population

rural: 29.2% of population

total: 25.3% of population (2020 est.)

Current health expenditure: 2.4% of GDP (2019)

Physicians density: 0.07 physicians/1,000 population (2019)

Hospital bed density: 0.5 beds/1,000 population

Sanitation facility access: *improved: urban:* 56.3% of population

rural: 18.1% of population

total: 36.6% of population

unimproved: urban: 43.7% of population

rural: 81.9% of population

total: 63.4% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 0.9% (2020 est.)

country comparison to the world: 46

Major infectious diseases: *degree of risk:* very high (2020)

food or waterborne diseases: bacterial and protozoal diarrhea, hepatitis A, and typhoid fever

vectorborne diseases: dengue fever and malaria

animal contact diseases: rabies

respiratory diseases: meningococcal meningitis

note: on 21 March 2022, the US Centers for Disease Control and Prevention (CDC) issued a Travel Alert for polio in Africa; Benin is currently considered a high risk to travelers for circulating vaccine-derived polioviruses (cVDPV); vaccine-derived poliovirus (VDPV) is a strain of the weakened poliovirus that was initially included in oral polio vaccine (OPV) and *that has changed over time and behaves more like the*

wild or naturally occurring virus; this means it can be spread more easily to people who are unvaccinated against polio and who come in contact with the stool or respiratory secretions, such as from a sneeze, of an “infected” person who received oral polio vaccine; the CDC recommends that before any international travel, anyone unvaccinated, incompletely vaccinated, or with an unknown polio vaccination status should complete the routine polio vaccine series; before travel to any high-risk destination, the CDC recommends that adults who previously completed the full, routine polio vaccine series receive a single, lifetime booster dose of polio vaccine

Obesity - adult prevalence rate: 9.6% (2016)

country comparison to the world: 142

Alcohol consumption per capita: *total:* 1.25 liters of pure alcohol (2019 est.)

beer: 0.81 liters of pure alcohol (2019 est.)

wine: 0.02 liters of pure alcohol (2019 est.)

spirits: 0.2 liters of pure alcohol (2019 est.)

other alcohols: 0.22 liters of pure alcohol (2019 est.)

country comparison to the world: 145

Tobacco use: *total:* 6.9% (2020 est.)

male: 11.8% (2020 est.)

female: 1.9% (2020 est.)

country comparison to the world: 156

Children under the age of 5 years underweight: 16.8% (2017/18)

country comparison to the world: 31

Child marriage: *women married by age 15:* 9.4%

women married by age 18: 30.6%

men married by age 18: 4.8% (2018 est.)

Education expenditures: 3% of GDP (2019 est.)

country comparison to the world: 149

Literacy: *definition:* age 15 and over can read and write

total population: 42.4%

male: 54%

female: 31.1% (2018)

School life expectancy (primary to tertiary education): *total: 13*
years

male: 14 years

female: 11 years (2016)

Unemployment, youth ages 15-24: *total: 3.9%*

male: 3.2%

female: 4.5% (2018 est.)

ENVIRONMENT

Environment - current issues: inadequate supplies of potable water; water pollution; poaching threatens wildlife populations; deforestation; desertification (the spread of the desert into agricultural lands in the north is accelerated by regular droughts)

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands, Whaling

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 33.11 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 6.48 megatons (2016 est.)

methane emissions: 5.8 megatons (2020 est.)

Climate: tropical; hot, humid in south; semiarid in north

Land use: *agricultural land:* 31.3% (2018 est.)

arable land: 22.9% (2018 est.)

permanent crops: 3.5% (2018 est.)

permanent pasture: 4.9% (2018 est.)

forest: 40% (2018 est.)

other: 28.7% (2018 est.)

Urbanization: *urban population:* 49.5% of total population (2022)

rate of urbanization: 3.74% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 2.24% of GDP (2018 est.)

country comparison to the world: 31

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 67

Waste and recycling: *municipal solid waste generated annually:* 685,936 tons (1993 est.)

municipal solid waste recycled annually: 171,484 tons (2005 est.)

percent of municipal solid waste recycled: 25% (2005 est.)

Major watersheds (area sq km): Atlantic Ocean drainage: Niger (2,261,741 sq km), Volta (410,991 sq km)

Total water withdrawal: *municipal:* 145 million cubic meters (2017 est.)

industrial: 30 million cubic meters (2017 est.)

agricultural: 59 million cubic meters (2017 est.)

Total renewable water resources: 26.39 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Benin

conventional short form: Benin

local long form: Republique du Benin

local short form: Benin

former: Dahomey, People's Republic of Benin

etymology: named for the Bight of Benin, the body of water on which the country lies

Government type: presidential republic

Capital: *name:* Porto-Novo (constitutional capital); Cotonou (seat of government)

geographic coordinates: 6 29 N, 2 37 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

etymology: the name Porto-Novo is Portuguese for "new port"; Cotonou means "by the river of death" in the native Fon language

Administrative divisions: 12 departments; Alibori, Atacora, Atlantique, Borgou, Collines, Couffo, Donga, Littoral, Mono, Oueme, Plateau, Zou

Independence: 1 August 1960 (from France)

National holiday: Independence Day, 1 August (1960)

Constitution: *history:* previous 1946, 1958 (preindependence); latest adopted by referendum 2 December 1990, promulgated 11 December 1990

amendments: proposed concurrently by the president of the republic (after a decision in the Council of Ministers) and the National Assembly; consideration of drafts or proposals requires at least three-fourths majority vote of the Assembly membership; passage requires approval in a referendum unless approved by at least four-fifths majority vote of the Assembly membership; constitutional articles affecting territorial

sovereignty, the republican form of government, and secularity of Benin cannot be amended; amended 2019

Legal system: civil law system modeled largely on the French system and some customary law

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Benin

dual citizenship recognized: yes

residency requirement for naturalization: 10 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Patrice TALON (since 6 April 2016); note - the president is both chief of state and head of government

head of government: President Patrice TALON (since 6 April 2016); prime minister position abolished

cabinet: Council of Ministers appointed by the president

elections/appointments: president directly elected by absolute majority popular vote in 2 rounds if needed for a 5-year term (eligible for a second term); last held on 11 April 2021 (next to be held in April 2026)

election results: Patrice TALON elected to a second term; percent of vote - Patrice TALON (independent) 86.4%, Alassane SOUMANOU (FCBE) 11.3%, other 2.3% (2021)

Legislative branch: *description:* unicameral National Assembly or Assemblée Nationale (83 seats - current 81; members directly elected in multi-seat constituencies by proportional representation vote; members serve 4-year terms)

elections: last held on 28 April 2019 (next to be held in April 2023)

election results: percent of vote by party - Union Progressiste 56.2%, Bloc Republicain 43.8%; seats by party - Union Progressiste 47, Bloc Republicain 36; composition as of February 2022 - men 75, women 6, percent of women 7.4%

Judicial branch: *highest court(s)*: Supreme Court or Cour Supreme (consists of the chief justice and 16 justices organized into an administrative division, judicial chamber, and chamber of accounts); Constitutional Court or Cour Constitutionnelle (consists of 7 members, including the court president); High Court of Justice (consists of the Constitutional Court members, 6 members appointed by the National Assembly, and the Supreme Court president); note - jurisdiction of the High Court of Justice is limited to cases of high treason by the national president or members of the government while in office

judge selection and term of office: Supreme Court president and judges appointed by the president of the republic upon the advice of the National Assembly; judges appointed for single renewable 5-year terms; Constitutional Court members - 4 appointed by the National Assembly and 3 by the president of the republic; members appointed for single renewable 5-year terms; other members of the High Court of Justice elected by the National Assembly; member tenure NA

subordinate courts: Court of Appeal or Cour d'Appel; district courts; village courts; Assize courts

Political parties and leaders: African Movement for Development and Progress or MADEP [Sefou FAGBOHOUN]

Alliance for a Triumphant Benin or ABT [Abdoulaye BIO TCHANE]

Benin Renaissance or RB [Lehady SOGLO]

Cowrie Force for an Emerging Benin or FCBE [Yayi BONI]

Democratic Renewal Party or PRD [Adrien HOUNGBEDJI]

National Alliance for Development and Democracy or AND [Valentin Aditi HOUDE]

New Consciousness Rally or NC [Pascal KOUPAKI]

Patriotic Awakening or RP [Janvier YAHOUÉDEOU]

Social Democrat Party or PSD [Emmanuel GOLOU]

Sun Alliance or AS [Sacca LAFIA]

Union Makes the Nation or UN [Adrien HOUNGBEDJI] (includes PRD, MADEP)

United Democratic Forces or FDU [Mathurin NAGO]

note: approximately 20 additional minor parties

International organization participation: ACP, AfDB, AU, CD, ECOWAS, Entente, FAO, FZ, G-77, IAEA, IBRD, ICAO, ICCT, ICRM, IDA, IDB, IFAD, IFC, IFRCS, ILO, IMF, IMO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), MIGA, MINUSMA, MNJTF, MONUSCO, NAM, OAS (observer), OIC, OIF, OPCW, PCA, UN, UNAMID, UNCTAD, UNESCO, UNHCR, UNHRC, UNIDO, UNISFA, UNMIL, UNMISS, UNOCI, UNWTO, UPU, WADB (regional), WAEMU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Jean Claude Felix DO REGO (since 17 July 2020)

chancery: 2124 Kalorama Road NW, Washington, DC 20008

telephone: [1] (202) 232-6656; [1] (202) 232-2611

Flag description: two equal horizontal bands of yellow (top) and red (bottom) with a vertical green band on the hoist side; green symbolizes hope and revival, yellow wealth, and red courage

note: uses the popular Pan-African colors of Ethiopia

National symbol(s): *leopard; national colors:* green, yellow, red

National anthem: *name:* “L’Aube Nouvelle” (The Dawn of a New

Day)

lyrics/music: Gilbert Jean DAGNON

note: adopted 1960

National heritage: *total World Heritage Sites:* 2 (1 cultural, 1 natural)

selected World Heritage Site locales: Royal Palaces of Abomey (c); W-Arly-Pendjari Complex (n)

ECONOMY

Economic overview: The free market economy of Benin has grown consecutively for four years, though growth slowed in 2017, as its close trade links to Nigeria expose Benin to risks from volatile commodity prices. Cotton is a key export commodity, with export earnings significantly impacted by the price of cotton in the broader market. The economy began deflating in 2017, with the consumer price index falling 0.8%.

During the first two years of President TALON's administration, which began in April 2016, the government has followed an ambitious action plan to kickstart development through investments in infrastructure, education, agriculture, and governance. Electricity generation, which has constrained Benin's economic growth, has increased and blackouts have been considerably reduced. Private foreign direct investment is small, and foreign aid accounts for a large proportion of investment in infrastructure projects.

Benin has appealed for international assistance to mitigate piracy against commercial shipping in its territory, and has used equipment from donors effectively against such piracy. Pilferage has significantly dropped at the Port of Cotonou, though the port is still struggling with effective implementation of the International Ship and Port Facility Security (ISPS) Code. Projects included in Benin's \$307 million Millennium Challenge Corporation (MCC) first compact (2006-11) were designed to increase investment and private sector activity by improving key institutional and physical infrastructure. The four projects focused on access to land, access to financial services, access to justice, and access to markets (including modernization of the port). The Port of Cotonou is a major contributor to Benin's economy, with revenues projected to account for more than 40% of Benin's national budget.

Benin will need further efforts to upgrade infrastructure, stem corruption, and expand access to foreign markets to achieve its potential. In September 2015, Benin signed a second MCC Compact for \$375 million that entered into force in June 2017 and is designed to strengthen

the national utility service provider, attract private sector investment, fund infrastructure investments in electricity generation and distribution, and develop off-grid electrification for poor and unserved households. As part of the Government of Benin's action plan to spur growth, Benin passed public private partnership legislation in 2017 to attract more foreign investment, place more emphasis on tourism, facilitate the development of new food processing systems and agricultural products, encourage new information and communication technology, and establish Independent Power Producers. In April 2017, the IMF approved a three year \$150.4 million Extended Credit Facility agreement to maintain debt sustainability and boost donor confidence.

Real GDP (purchasing power parity): \$40.29 billion (2020 est.)

\$38.79 billion (2019 est.)

Carbon dioxide emissions: 6.903 million metric tonnes of CO₂ (2019 est.)

from coal and metallurgical coke: 274,000 metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 6.592 million metric tonnes of CO₂ (2019 est.)

from consumed natural gas: 37,000 metric tonnes of CO₂ (2019 est.)

country comparison to the world: 126

Energy consumption per capita: 8.468 million Btu/person (2019 est.)

country comparison to the world: 159

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 32,386 (2020 est.)

subscriptions per 100 inhabitants: (2020 est.) less than 1

country comparison to the world: 169

Telephones - mobile cellular: *total subscriptions:* 11,140,891 (2020 est.)

subscriptions per 100 inhabitants: 92 (2020 est.)

country comparison to the world: 83

Telecommunication systems: *general assessment:* Benin's telecom market continues to be restricted by the poor condition of the country's fixed-line infrastructure; this has hampered the development of fixed-line voice and internet services, and there is negligible revenue derived from these sectors; mobile networks account for almost all internet connections, and also carry most voice traffic; there is promise for considerable change in the mobile sector; slow progress is being made in developing competition in the mobile sector; in May 2021 the government sought foreign companies to bid for a fourth mobile license; improved international internet connectivity has contributed to a reduction in end-user pricing, and provided the potential to transform many areas of the country's economy, bringing a greater proportion of the population into the orbit of internet commerce and connectivity; a 2,000km fiber project started in 2016 was finally completed in mid-2021, prompting the government to secure a loan to build additional fiber infrastructure connecting four of the country's 12 departments (2022)

domestic: fixed-line teledensity only about 1 per 100 persons; spurred by the presence of multiple mobile-cellular providers, cellular telephone subscribership has increased rapidly, nearing 92 per 100 persons (2020)

international: country code - 229; landing points for the SAT-3/WASC and ACE fiber-optic submarine cable that provides connectivity to Europe, and most West African countries; satellite earth stations - 7 (Intelsat-Atlantic Ocean) (2019)

Broadcast media: state-run Office de Radiodiffusion et de Television

du Benin (ORTB) operates a TV station providing a wide broadcast reach; several privately owned TV stations broadcast from Cotonou; satellite TV subscription service is available; state-owned radio, under ORTB control, includes a national station supplemented by a number of regional stations; substantial number of privately owned radio broadcast stations; transmissions of a few international broadcasters are available on FM in Cotonou (2019)

Internet country code: .bj

Internet users: *total:* 3,152,032 (2020 est.)

percent of population: 26% (2020 est.)

country comparison to the world: 111

Broadband - fixed subscriptions: *total:* 29,981 (2020 est.)

subscriptions per 100 inhabitants: 0.3 (2020 est.)

country comparison to the world: 155

TRANSPORTATION

National air transport system: *number of registered air carriers:* 1 (2015)

inventory of registered aircraft operated by air carriers: 1 (2015)

annual passenger traffic on registered air carriers: 112,392 (2015)

annual freight traffic on registered air carriers: 805,347 (2015) mt-km

Civil aircraft registration country code prefix: TY

MILITARY AND SECURITY

Military and security forces: Benin Armed Forces (Forces Armees Beninoises, FAB): Army, Navy, Air Force; Ministry of Interior and Public Security: Republican Police (Police Republique, DGPR) (2022)

Military expenditures: 0.7% of GDP (2021 est.)

0.5% of GDP (2020 est.)

0.5% of GDP (2019 est.) (approximately \$130 million)

0.7% of GDP (2018 est.) (approximately \$140 million)

0.9% of GDP (2017 est.) (approximately \$160 million)

country comparison to the world: 147

Military and security service personnel strengths: approximately 7,000 active duty BDF troops; estimated 5,000 Republican Police (2022)

Military equipment inventories and acquisitions: the FAB is equipped with a small mix of mostly older French and Soviet-era equipment (2021)

Military service age and obligation: 18-35 years of age for voluntary and selective compulsory military service; a higher education diploma is required; both sexes are eligible for military service; conscript service is 18 months (2022)

Military deployments: 260 (plus about 160 police) Mali (MINUSMA) (May 2022)

Military - note: as of 2022, a key focus for the security forces of Benin was countering infiltrations into the country by terrorist groups tied to al-Qa'ida and the Islamic State of Iraq and ash-Sham (ISIS) operating just over the border from north Benin in Burkina Faso and Niger; in May 2022, the Benin Government said it was "at war" with terrorism after suffering a series of attacks from these groups; in addition, the FAB participated in the Multinational Joint Task Force (MNJTF) along with Cameroon, Chad, Niger, and Nigeria against Boko Haram and other terrorist groups operating in the general area of the Lake Chad Basin and

along Nigeria's northeast border

the FAB has a close working relationship with the Belgian armed forces; the Belgians offer military advice, training, and second-hand equipment donations, and deploy to Benin for limited military exercises (2022)

Maritime threats: the International Maritime Bureau reports the territorial and offshore waters in the Niger Delta and Gulf of Guinea remain a very high risk for piracy and armed robbery of ships; in 2021, there were 34 reported incidents of piracy and armed robbery at sea in the Gulf of Guinea region; although a significant decrease from the total number of 81 incidents in 2020, it included the one hijacking and three of five ships fired upon worldwide; while boarding and attempted boarding to steal valuables from ships and crews are the most common types of incidents, almost a third of all incidents involve a hijacking and/or kidnapping; in 2021, 57 crew members were kidnapped in seven separate incidents in the Gulf of Guinea, representing 100% of kidnappings worldwide; Nigerian pirates in particular are well armed and very aggressive, operating as far as 200 nm offshore; the Maritime Administration of the US Department of Transportation has issued a Maritime Advisory (2022-001 - Gulf of Guinea-Piracy/Armed Robbery/Kidnapping for Ransom) effective 4 January 2022, which states in part, "Piracy, armed robbery, and kidnapping for ransom continue to serve as significant threats to US-flagged vessels transiting or operating in the Gulf of Guinea"

TERRORISM

Terrorist group(s): al-Qa'ida (Jama'at Nusrat al Islam wal Muslimeen); Islamic State in the Greater Sahara (ISIS-GS); Boko Haram

TRANSNATIONAL ISSUES

Disputes - international: *Benin-Burkina Faso:* Benin retains a border dispute with Burkina Faso near the town of Koualau/Kourou.

Benin-Togo: Talks continue between Benin and Togo on funding the Adjarala hydroelectric dam on the Mona River.

Benin-Niger: The location of Benin-Niger-Nigeria tripoint is unresolved.

Illicit drugs: a significant transit and departure country for cocaine shipments in Africa destined for Europe

BERMUDA

INTRODUCTION

Background: Bermuda was first settled in 1609 by shipwrecked English colonists heading for Virginia. Self-governing since 1620, Bermuda is the oldest and most populous of the British overseas territories. Vacationing to the island to escape North American winters first developed in Victorian times. Tourism continues to be important to the island's economy, although international business has overtaken it in recent years. Bermuda has also developed into a highly successful offshore financial center. A referendum on independence from the UK was soundly defeated in 1995.

GEOGRAPHY

Location: North America, group of islands in the North Atlantic Ocean, east of South Carolina (US)

Geographic coordinates: 32 20 N, 64 45 W

Map references: North America

Area: *total:* 54 sq km

land: 54 sq km

water: 0 sq km

country comparison to the world: 230

Area - comparative: about one-third the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 103 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm

exclusive fishing zone: 200 nm

Climate: subtropical; mild, humid; gales, strong winds common in winter

Terrain: low hills separated by fertile depressions

Elevation: *highest point:* Town Hill 79 m

lowest point: Atlantic Ocean 0 m

Natural resources: limestone, pleasant climate fostering tourism

Land use: *agricultural land:* 14.8% (2018 est.)

arable land: 14.8% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 20% (2018 est.)

other: 65.2% (2018 est.)

Population distribution: relatively even population distribution

throughout

Natural hazards: hurricanes (June to November)

Geography - note: consists of about 138 coral islands and islets with ample rainfall, but no rivers or freshwater lakes; some land was leased by the US Government from 1941 to 1995

PEOPLE AND SOCIETY

Population: 72,337 (2022 est.)

country comparison to the world: 202

Nationality: *noun:* Bermudian(s)

adjective: Bermudian

Ethnic groups: African descent 52%, White 31%, mixed 9%, Asian 4%, other 4% (2010 est.)

Languages: English (official), Portuguese

Religions: Protestant 46.2% (includes Anglican 15.8%, African Methodist Episcopal 8.6%, Seventh Day Adventist 6.7, Pentecostal 3.5%, Methodist 2.7%, Presbyterian 2.0%, Church of God 1.6%, Baptist 1.2%, Salvation Army 1.1%, Brethren 1.0%, other Protestant 2.0%), Roman Catholic 14.5%, Jehovah's Witness 1.3%, other Christian 9.1%, Muslim 1%, other 3.9%, none 17.8%, unspecified 6.2% (2010 est.)

Age structure: *0-14 years:* 16.7% (male 6,053/female 5,928)

15-24 years: 11.88% (male 4,290/female 4,235)

25-54 years: 35.31% (male 12,758/female 12,575)

55-64 years: 16.37% (male 5,560/female 6,185)

65 years and over: 19.74% (male 6,032/female 8,134) (2020 est.)

Median age: *total:* 43.6 years

male: 41.6 years

female: 45.7 years (2020 est.)

country comparison to the world: 23

Population growth rate: 0.34% (2022 est.)

country comparison to the world: 163

Birth rate: 11.03 births/1,000 population (2022 est.)

country comparison to the world: 167

Death rate: 9.11 deaths/1,000 population (2022 est.)

country comparison to the world: 56

Net migration rate: 1.49 migrant(s)/1,000 population (2022 est.)
country comparison to the world: 59

Population distribution: relatively even population distribution throughout

Urbanization: *urban population:* 100% of total population (2022)
rate of urbanization: -0.2% annual rate of change (2020-25 est.)

Major urban areas - population: 10,000 HAMILTON (capital) (2018)

Sex ratio: *at birth:* 1.05 male(s)/female
0-14 years: 1.05 male(s)/female
15-24 years: 1.06 male(s)/female
25-54 years: 1.02 male(s)/female
55-64 years: 0.91 male(s)/female
65 years and over: 0.6 male(s)/female
total population: 0.95 male(s)/female (2022 est.)

Infant mortality rate: *total:* 2.19 deaths/1,000 live births
male: 2.51 deaths/1,000 live births
female: 1.86 deaths/1,000 live births (2022 est.)
country comparison to the world: 221

Life expectancy at birth: *total population:* 82.04 years
male: 78.96 years
female: 85.28 years (2022 est.)
country comparison to the world: 28

Total fertility rate: 1.9 children born/woman (2022 est.)
country comparison to the world: 125

Drinking water source: *improved: urban:* 99.9% of population
total: 99.9% of population
unimproved: urban: 0.1% of population
total: 0.1% of population (2020)

Sanitation facility access: *improved: urban:* 99.9% of population
total: 99.9% of population

unimproved: urban: 0.1% of population

total: 0.1% of population (2020)

Education expenditures: 1.3% of GDP (2017 est.)

country comparison to the world: 187

School life expectancy (primary to tertiary education): *total: 13*
years

male: 12 years

female: 13 years (2015)

Unemployment, youth ages 15-24: *total: 29.3%*

male: 29.7%

female: 29% (2014 est.)

ENVIRONMENT

Environment - current issues: dense population and heavy vehicle traffic create serious congestion and air pollution problems; water resources scarce (most obtained as rainwater or from wells); solid waste disposal; hazardous waste disposal; sewage disposal; overfishing; oil spills

Air pollutants: *carbon dioxide emissions:* 0.61 megatons (2016 est.)

Climate: subtropical; mild, humid; gales, strong winds common in winter

Land use: *agricultural land:* 14.8% (2018 est.)

arable land: 14.8% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 20% (2018 est.)

other: 65.2% (2018 est.)

Urbanization: *urban population:* 100% of total population (2022)

rate of urbanization: -0.2% annual rate of change (2020-25 est.)

Waste and recycling: *municipal solid waste generated annually:* 82,000 tons (2012 est.)

municipal solid waste recycled annually: 1,640 tons (2012 est.)

percent of municipal solid waste recycled: 2% (2012 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Bermuda

former: Somers Islands

etymology: the islands making up Bermuda are named after Juan de BERMUDEZ, an early 16th century Spanish sea captain and the first European explorer of the archipelago

Government type: Overseas Territory of the UK with limited self-government; parliamentary democracy

Dependency status: overseas territory of the UK

Capital: *name:* Hamilton

geographic coordinates: 32 17 N, 64 47 W

time difference: UTC-4 (1 hour ahead of Washington, DC, during Standard Time)

daylight saving time: +1hr, begins second Sunday in March; ends first Sunday in November

etymology: named after Henry HAMILTON (ca. 1734-1796) who served as governor of Bermuda from 1788-1794

Administrative divisions: 9 parishes and 2 municipalities*; Devonshire, Hamilton, Hamilton*, Paget, Pembroke, Saint George*, Saint George's, Sandys, Smith's, Southampton, Warwick

Independence: none (overseas territory of the UK)

National holiday: Bermuda Day, 24 May; note - formerly known as Victoria Day, Empire Day, and Commonwealth Day

Constitution: *history:* several previous (dating to 1684); latest entered into force 8 June 1968 (Bermuda Constitution Order 1968)

amendments: proposal procedure - NA; passage by an Order in Council in the UK; amended several times, last in 2012

Legal system: English common law

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of the UK
dual citizenship recognized: yes

residency requirement for naturalization: 10 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022); represented by Governor Rena LALGIE (since 14 December 2020)

head of government: Premier David BURT (since 19 July 2017)

cabinet: Cabinet nominated by the premier, appointed by the governor

elections/appointments: the monarchy is hereditary; governor appointed by the monarch; following legislative elections, the leader of the majority party or majority coalition usually appointed premier by the governor

Legislative branch: *description:* bicameral Parliament consists of:

Senate (11 seats; 3 members appointed by the governor, 5 by the premier, and 3 by the opposition party; members serve 5-year terms) and the

House of Assembly (36 seats; members directly elected in single-seat constituencies by simple majority vote to serve up to 5-year terms)

House of Assembly (36 seats; members directly elected in single-seat constituencies by simple majority vote to serve up to 5-year terms)

elections:

Senate - last appointments in August 2017 (next appointments in 2022)

House of Assembly - last held on 1 October 2020 (next to be held not later than 2025)

election results: Senate - composition as of March 2022 - men 5, women 6, percent of women 54.5%

House of Assembly - percent of vote by party - PLP 62.1%, OBA 32.3%, other 5.4%, independent 0.2%; seats by party - PLP 30, OBA 6; composition as of March 2022 - men 28, women 8, percent of women 22.2%; note - total Parliament percent of women as of March 2022 - 29.8%

Judicial branch: *highest court(s)*: Court of Appeal (consists of the court president and at least 2 justices); Supreme Court (consists of the chief justice, 4 puisne judges, and 1 associate justice); note - the Judicial Committee of the Privy Council (in London) is the court of final appeal
judge selection and term of office: Court of Appeal justice appointed by the governor; justice tenure by individual appointment; Supreme Court judges nominated by the Judicial and Legal Services Commission and appointed by the governor; judge tenure based on terms of appointment
subordinate courts: commercial court (began in 2006); magistrates' courts

Political parties and leaders: Free Democratic Movement or FDM [Marc A. R. BEAN]

One Bermuda Alliance or OBA [N. H. Cole SIMONS]

Progressive Labor Party or PLP [E. David BURT]

International organization participation: Caricom (associate), ICC (NGOs), Interpol (subbureau), IOC, ITUC (NGOs), UPU, WCO

Diplomatic representation in the US: none (overseas territory of the UK)

Diplomatic representation from the US: *chief of mission*: Consul General Karen GRISSETTE (since 6 July 2021)

embassy: US Consulate Bermuda, 16 Middle Road, Devonshire, DV 03, Bermuda

mailing address: 5300 Hamilton Place, Washington, DC 20520-5300

telephone: (441) 295-1342

FAX: (441) 295-1592

email address and website:

HamiltonConsulate@state.gov

<https://bm.usconsulate.gov/>

consulate(s) general: 16 Middle Road, Devonshire DV 03

Flag description: red, with the flag of the UK in the upper hoist-side quadrant and the Bermudian coat of arms (a white shield with a red lion standing on a green grassy field holding a scrolled shield showing the

sinking of the ship Sea Venture off Bermuda in 1609) centered on the outer half of the flag; it was the shipwreck of the vessel, filled with English colonists originally bound for Virginia, that led to the settling of Bermuda

note: the flag is unusual in that it is only British overseas territory that uses a red ensign, all others use blue

National symbol(s): red lion

Coat of arms of Bermuda:

National anthem: *name:* Hail to Bermuda

lyrics/music: Bette JOHNS

note: serves as a local anthem; as a territory of the United Kingdom, “God Save the King” is official (see United Kingdom)

National heritage: *total World Heritage Sites:* 1 (cultural); *note -* excerpted from the UK entry

selected World Heritage Site locales: Historic Town of St George and Related Fortifications

ECONOMY

Economic overview: International business, which consists primarily of insurance and other financial services, is the real bedrock of Bermuda's economy, consistently accounting for about 85% of the island's GDP. Tourism is the country's second largest industry, accounting for about 5% of Bermuda's GDP but a much larger share of employment. Over 80% of visitors come from the US and the sector struggled in the wake of the global recession of 2008-09. Even the financial sector has lost roughly 5,000 high-paying expatriate jobs since 2008, weighing heavily on household consumption and retail sales. Bermuda must import almost everything. Agriculture and industry are limited due to the small size of the island.

Bermuda's economy returned to negative growth in 2016, reporting a contraction of 0.1% GDP, after growing by 0.6% in 2015. Unemployment reached 7% in 2016 and 2017, public debt is growing and exceeds \$2.4 billion, and the government continues to work on attracting foreign investment. Still, Bermuda enjoys one of the highest per capita incomes in the world.

MILITARY AND SECURITY

Military and security forces: Royal Bermuda Regiment; Bermuda Police Service (2022)

note: the Royal Bermuda Regiment is a reserve multi-role battalion that carries out two primary functions – providing military aid to civil authorities and humanitarian and disaster relief

Military and security service personnel strengths: the Royal Bermuda Regiment has about 350 troops (2022)

Military equipment inventories and acquisitions: the Regiment is equipped with small arms (2021)

Military service age and obligation: men and women who are Commonwealth citizens and 18-45 years of age can volunteer for the Bermuda Regiment; service is for a minimum period of three years and two months from the date of enlistment; service can be extended only by volunteering or an executive order from the Governor; annual training commitment is about 30 days a year, which includes a two-week camp, weekends, and drill nights (2022)

Military - note: defense is the responsibility of the UK

TRANSNATIONAL ISSUES

Disputes - international: none identified

BHUTAN

INTRODUCTION

Background: Following Britain's victory in the 1865 Duar War, Britain and Bhutan signed the Treaty of Sinchulu, under which Bhutan would receive an annual subsidy in exchange for ceding land to British India. Ugyen WANGCHUCK - who had served as the de facto ruler of an increasingly unified Bhutan and had improved relations with the British toward the end of the 19th century - was named king in 1907. Three years later, a treaty was signed whereby the British agreed not to interfere in Bhutanese internal affairs, and Bhutan allowed Britain to direct its foreign affairs. Bhutan negotiated a similar arrangement with independent India in 1949. The Indo-Bhutanese Treaty of Friendship returned to Bhutan a small piece of the territory annexed by the British, formalized the annual subsidies the country received, and defined India's responsibilities in defense and foreign relations. Under a succession of modernizing monarchs beginning in the 1950s, Bhutan joined the UN in 1971 and slowly continued its engagement beyond its borders.

In 2005, King Jigme Singye WANGCHUCK unveiled the draft of Bhutan's first constitution - which introduced major democratic reforms - and held a national referendum for its approval. The King abdicated the throne in 2006 in favor of his son, Jigme Khesar Namgyel WANGCHUCK. In 2007, India and Bhutan renegotiated their treaty, eliminating the clause that stated that Bhutan would be "guided by" India in conducting its foreign policy, although Thimphu continues to coordinate closely with New Delhi. In 2008, Bhutan held its first parliamentary election in accordance with the constitution. Bhutan experienced a peaceful turnover of power following a parliamentary election in 2013, which resulted in the defeat of the incumbent party. In 2018, the incumbent party again lost the parliamentary election. Of the more than 100,000 ethnic Nepali - predominantly Lhotshampa - refugees who fled or were forced out of Bhutan in the 1990s, about 6,500 remain displaced in Nepal.

GEOGRAPHY

Location: Southern Asia, between China and India

Geographic coordinates: 27 30 N, 90 30 E

Map references: Asia

Area: *total:* 38,394 sq km

land: 38,394 sq km

water: 0 sq km

country comparison to the world: 136

Area - comparative: slightly larger than Maryland; about one-half the size of Indiana

Land boundaries: *total:* 1,136 km

border countries (2): China 477 km; India 659 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: varies; tropical in southern plains; cool winters and hot summers in central valleys; severe winters and cool summers in Himalayas

Terrain: mostly mountainous with some fertile valleys and savanna

Elevation: *highest point:* Gangkar Puensum 7,570 m

lowest point: Drangeme Chhu 97 m

mean elevation: 2,220 m

Natural resources: timber, hydropower, gypsum, calcium carbonate

Land use: *agricultural land:* 13.6% (2018 est.)

arable land: 2.6% (2018 est.)

permanent crops: 0.3% (2018 est.)

permanent pasture: 10.7% (2018 est.)

forest: 85.5% (2018 est.)

other: 0.9% (2018 est.)

Irrigated land: 320 sq km (2012)

Natural hazards: violent storms from the Himalayas are the source of the country's Bhutanese name, which translates as Land of the Thunder Dragon; frequent landslides during the rainy season

Geography - note: landlocked; strategic location between China and India; controls several key Himalayan mountain passes

PEOPLE AND SOCIETY

Population: 867,775 (2022 est.)

country comparison to the world: 165

Nationality: *noun:* Bhutanese (singular and plural)

adjective: Bhutanese

Ethnic groups: Ngalop (also known as Bhote) 50%, ethnic Nepali 35% (predominantly Lhotshampas), indigenous or migrant tribes 15%

Languages: Sharchopkha 28%, Dzongkha (official) 24%, Lhotshamkha 22%, other 26% (includes foreign languages) (2005 est.)

Religions: Lamaistic Buddhist 75.3%, Indian- and Nepali-influenced Hinduism 22.1%, other 2.6% (2005 est.)

Age structure: *0-14 years:* 24.52% (male 98,113/female 93,740)

15-24 years: 17.77% (male 70,768/female 68,211)

25-54 years: 44.72% (male 184,500/female 165,374)

55-64 years: 6.39% (male 26,714/female 23,280)

65 years and over: 6.6% (male 26,797/female 24,821) (2020 est.)

Dependency ratios: *total dependency ratio:* 45.1

country comparison to the world: 37

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 68

Waste and recycling: *municipal solid waste generated annually:* 111,314 tons (2007 est.)

municipal solid waste recycled annually: 957 tons (2016 est.)

percent of municipal solid waste recycled: 0.9% (2016 est.)

Total water withdrawal: *municipal:* 17 million cubic meters (2017 est.)

industrial: 3 million cubic meters (2017 est.)

agricultural: 318 million cubic meters (2017 est.)

Total renewable water resources: 78 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Kingdom of Bhutan

conventional short form: Bhutan

local long form: Druk Gyalkhap

local short form: Druk Yul

etymology: named after the Bhotia, the ethnic Tibetans who migrated from Tibet to Bhutan; “Bod” is the Tibetan name for their land; the Bhutanese name “Druk Yul” means “Land of the Thunder Dragon”

Government type: constitutional monarchy

Capital: *name:* Thimphu

geographic coordinates: 27 28 N, 89 38 E

time difference: UTC+6 (11 hours ahead of Washington, DC, during Standard Time)

etymology: the origins of the name are unclear; the traditional explanation, dating to the 14th century, is that *thim* means “dissolve” and *phu* denotes “high ground” to express the meaning of “dissolving high ground,” in reference to a local deity that dissolved before a traveler’s eyes, becoming a part of the rock on which the present city stands

Administrative divisions: 20 districts (dzongkhag, singular and plural); Bumthang, Chhukha, Dagana, Gasa, Haa, Lhuentse, Mongar, Paro, Pemagatshel, Punakha, Samdrup Jongkhar, Samtse, Sarpang, Thimphu, Trashigang, Trashy Yangtse, Trongsa, Tsirang, Wangdue Phodrang, Zhemgang

Independence: 17 December 1907 (became a unified kingdom under its first hereditary king); 8 August 1949 (Treaty of Friendship with India maintains Bhutanese independence)

National holiday: National Day (Ugyen WANGCHUCK became first hereditary king), 17 December (1907)

Constitution: *history:* previous governing documents were various royal decrees; first constitution drafted November 2001 to March 2005,

ratified 18 July 2008

amendments: proposed as a motion by simple majority vote in a joint session of Parliament; passage requires at least a three-fourths majority vote in a joint session of the next Parliament and assent by the king

Legal system: civil law based on Buddhist religious law

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: the father must be a citizen of Bhutan

dual citizenship recognized: no

residency requirement for naturalization: 10 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* King Jigme Khesar Namgyel WANGCHUCK (since 14 December 2006); note - King Jigme Singye WANGCHUCK abdicated the throne on 14 December 2006 to his son

head of government: Prime Minister Lotay TSHERING (since 7 November 2018)

cabinet: Council of Ministers or Lhengye Zhungtshog members nominated by the monarch in consultation with the prime minister and approved by the National Assembly; members serve 5-year terms

elections/appointments: the monarchy is hereditary but can be removed by a two-thirds vote of Parliament; leader of the majority party in Parliament is nominated as the prime minister, appointed by the monarch

Legislative branch: *description:* bicameral Parliament or Chi Tshog consists of:

non-partisan National Council or Gyelyong Tshogde (25 seats; 20

members directly elected in single-seat constituencies by simple majority vote and 5 members appointed by the king; members serve 5-year terms)

National Assembly or Tshogdu (47 seats; members directly elected in single-seat constituencies in a two-round majoritarian voting system; members serve 5-year terms)

elections:

National Council election last held on 20 April 2018 (next to be held in 2023)

National Assembly - first round held on 15 September 2018 and second round held on 18 October 2018 (next to be held in 2023)

election results:

National Council - seats by party - independent 20 (all candidates ran as independents); composition - men 23, women 2, percent of women 8%

National Assembly - first round - percent of vote by party - DNT 31.9%, DPT 30.9%, PDP 27.4%, BKP 9.8%; second round - percent of vote by party - NA; seats by party - DNT 30, DPT 17; composition - men 40, women 7, percent of women 14.9%; note - total Parliament percent of women 12.5%

Judicial branch: *highest court(s):* Supreme Court (consists of the chief justice and 4 associate justices); note - the Supreme Court has sole jurisdiction in constitutional matters

judge selection and term of office: Supreme Court chief justice appointed by the monarch upon the advice of the National Judicial Commission, a 4-member body to include the Legislative Committee of the National Assembly, the attorney general, the Chief Justice of Bhutan and the senior Associate Justice of the Supreme Court; other judges (drangpons) appointed by the monarch from among the High Court judges selected by the National Judicial Commission; chief justice serves a 5-year term or until reaching age 65 years, whichever is earlier; the 4 other judges serve 10-year terms or until age 65, whichever is earlier

subordinate courts: High Court (first appellate court); District or Dzongkhag Courts; sub-district or Dungkhag Courts

Political parties and leaders: Bhutan Kuen-Nyam Party

Bhutan Peace and Prosperity Party (Druk Phuensum Tshogpa) or DPT [Dorji WANGDI] (Druk Chirwang Tshogpa or DCT merged with DPT in March 2018)

People's Democratic Party or PDP [Tshering TOBGAY]

United Party of Bhutan (Druk Nyamrup Tshogpa) or DNT [Lotay TSHERING]

International organization participation: ADB, BIMSTEC, CP, FAO, G-77, IBRD, ICAO, IDA, IFAD, IFC, IMF, Interpol, IOC, IOM (observer), IPU, ISO (correspondent), ITSO, ITU, MIGA, NAM, OPCW, SAARC, SACEP, UN, UNCTAD, UNESCO, UNIDO, UNISFA, UNTSO, UNWTO, UPU, WCO, WHO, WIPO, WMO, WTO (observer)

Diplomatic representation in the US: *chief of mission:* Ambassador Doma TSHERING (since 13 September 2017)

note – also the Permanent Representative to the UN

telephone: [1] (212) 682-2268

FAX: [1] (212) 661-0551

consulate(s) general: New York

embassy: 343 East 43rd Street, New York, NY 10017

note – the Permanent Mission to the UN for Bhutan has consular jurisdiction in the US

Diplomatic representation from the US: *embassy:* none; frequent informal contact is maintained via the US embassy in New Delhi (India) and Bhutan's Permanent Mission to the UN

Flag description: divided diagonally from the lower hoist-side corner; the upper triangle is yellow and the lower triangle is orange; centered along the dividing line is a large black and white dragon facing away from the hoist side; the dragon, called the Druk (Thunder Dragon), is the emblem of the nation; its white color stands for purity and the jewels in its claws symbolize wealth; the background colors represent spiritual and secular powers within Bhutan: the orange is associated with Buddhism, while the yellow denotes the ruling dynasty

National symbol(s): thunder dragon known as Druk Gyalpo; national colors: orange, yellow

National anthem: *name:* “Druk tsendhen” (The Thunder Dragon Kingdom)

lyrics/music: Gyaldun Dasho Thinley DORJI/Aku TONGMI

note: adopted 1953

ECONOMY

Economic overview: Bhutan's small economy is based largely on hydropower, agriculture, and forestry, which provide the main livelihood for more than half the population. Because rugged mountains dominate the terrain and make the building of roads and other infrastructure difficult and expensive, industrial production is primarily of the cottage industry type. The economy is closely aligned with India's through strong trade and monetary links and is dependent on India for financial assistance and migrant laborers for development projects, especially for road construction. Bhutan signed a pact in December 2014 to expand duty-free trade with Bangladesh.

Multilateral development organizations administer most educational, social, and environment programs, and take into account the government's desire to protect the country's environment and cultural traditions. For example, the government is cautious in its expansion of the tourist sector, restricting visits to environmentally conscientious tourists. Complicated controls and uncertain policies in areas such as industrial licensing, trade, labor, and finance continue to hamper foreign investment.

Bhutan's largest export - hydropower to India - could spur sustainable growth in the coming years if Bhutan resolves chronic delays in construction. Bhutan's hydropower exports comprise 40% of total exports and 25% of the government's total revenue. Bhutan currently taps only 6.5% of its 24,000-megawatt hydropower potential and is behind schedule in building 12 new hydropower dams with a combined capacity of 10,000 megawatts by 2020 in accordance with a deal signed in 2008 with India. The high volume of imported materials to build hydropower plants has expanded Bhutan's trade and current account deficits. Bhutan also signed a memorandum of understanding with Bangladesh and India in July 2017 to jointly construct a new hydropower plant for exporting electricity to Bangladesh.

Real GDP (purchasing power parity): \$8.42 billion (2020 est.)
\$9.03 billion (2019 est.)

ENERGY

Electricity access: *electrification - total population: 100% (2020)*

Electricity: *installed generating capacity: 2.334 million kW (2020 est.)*

consumption: 4,314,890,000 kWh (2019 est.)

exports: 4.6 billion kWh (2019 est.)

imports: 22.85 million kWh (2019 est.)

transmission/distribution losses: 60 million kWh (2019 est.)

Electricity generation sources: *hydroelectricity: 100% of total installed capacity (2020 est.)*

Coal: *production: 174,000 metric tons (2020 est.)*

consumption: 211,000 metric tons (2020 est.)

exports: 0 metric tons (2020 est.)

imports: 37,000 metric tons (2020 est.)

proven reserves: 0 metric tons (2019 est.)

Petroleum: *total petroleum production: 0 bbl/day (2021 est.)*

refined petroleum consumption: 4,400 bbl/day (2019 est.)

Refined petroleum products - imports: *3,120 bbl/day (2015 est.)*

country comparison to the world: 183

Carbon dioxide emissions: *934,000 metric tonnes of CO₂ (2019 est.)*

from coal and metallurgical coke: 328,000 metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 606,000 metric tonnes of CO₂ (2019 est.)

country comparison to the world: 174

Energy consumption per capita: *100.135 million Btu/person (2019 est.)*

country comparison to the world: 59

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 22,987 (2020 est.)

subscriptions per 100 inhabitants: 3 (2020 est.)

country comparison to the world: 173

Telephones - mobile cellular: *total subscriptions:* 745,137 (2020 est.)

subscriptions per 100 inhabitants: 97 (2020 est.)

country comparison to the world: 167

Telecommunication systems: *general assessment:* the small land-locked Kingdom of Bhutan has only recently emerged from decades of isolation from the modern world; that, and its mountainous terrain, left the country far back in the field in terms of teledensity as well as access to the Internet; over the last decade, the country has undergone a significant transformation due to the opening of its borders, liberalization of its telecom sector, and the active support from the government towards increased competition in the mobile, broadband, and ISP segments; the relatively widespread availability of the mobile platform has caused an explosion in mobile broadband subscriber numbers, growing from zero to over 100% penetration in just ten years (between 2010 and 2019).; the onset of the Covid-19 crisis in 2020 caused the subscription rates to drop back a little; growth is projected to return in 2022 (along with the broader mobile market) as the overall economy recovers; the government opens up more to foreign investment, trade, and tourism; and network expansion continues – the recent (December 2021) launch of 5G services by both of the country's mobile operators being particularly noteworthy (2022)

domestic: approximately 3 to 100 fixed-line and 97 to 100 mobile cellular; domestic service inadequate, notably in rural areas (2020)

international: country code - 975; international telephone and telegraph service via landline and microwave relay through India; satellite earth station - 1 Intelsat

Broadcast media: state-owned TV station established in 1999; cable TV service offers dozens of Indian and other international channels; first

radio station, privately launched in 1973, is now state-owned; 5 private radio stations are currently broadcasting (2012)

Internet country code: .bt

Internet users: *total:* 416,671 (2020 est.)

percent of population: 54% (2020 est.)

country comparison to the world: 162

Broadband - fixed subscriptions: *total:* 3,189 (2020 est.)

subscriptions per 100 inhabitants: 0.4 (2020 est.)

country comparison to the world: 192

TRANSPORTATION

National air transport system: *number of registered air carriers:* 2 (2020)

inventory of registered aircraft operated by air carriers: 6

annual passenger traffic on registered air carriers: 275,849 (2018)

annual freight traffic on registered air carriers: 690,000 (2018) mt-km

Civil aircraft registration country code prefix: A5

Airports: *total:* 2 (2021)

country comparison to the world: 196

Airports - with paved runways: *total:* 2

1,524 to 2,437 m: 1

914 to 1,523 m: 1 (2021)

Airports - with unpaved runways: *total:* 1

914 to 1,523 m: 1 (2012)

Roadways: *total:* 12,205 km (2017)

urban: 437 km (2017)

country comparison to the world: 132

MILITARY AND SECURITY

Military and security forces: Royal Bhutan Army (includes Royal Bodyguard and an air wing); National Militia; Ministry of Home and Cultural Affairs; Royal Bhutan Police (2022)

note: the Royal Bhutan Police (RBP) agency is responsible for internal security; the Army is responsible for external threats but also has responsibility for some internal security functions, including conducting counterinsurgency operations, guarding forests, and providing security for prominent persons

Military and security service personnel strengths: the Royal Bhutan Army has an estimated 8,000 personnel (2022)

Military equipment inventories and acquisitions: India has provided most of the Royal Bhutan Army's equipment (2022)

Military service age and obligation: 18 years of age for voluntary military service; no conscription; militia training is compulsory for males aged 20-25, over a 3-year period; in 2021, the Royal Bhutan Army graduated from a year-long training course the first batch of 150 women to be allowed to serve in combat roles; previously, women were allowed to serve in medical and other non-combat roles (2022)

Military - note: India is responsible for military training, arms supplies, and the air defense of Bhutan (2022)

TRANSNATIONAL ISSUES

Disputes - international: *Bhutan-China:* Lacking any treaty describing the boundary, Bhutan and China continue negotiations to establish a common boundary alignment to resolve territorial disputes arising from substantial cartographic discrepancies, the most contentious of which lie in Bhutan's west along China's Chumbi salient.

Bhutan-India: none identified

Trafficking in persons: *current situation:* human traffickers exploit domestic and foreign victims in Bhutan and Bhutanese abroad; some traffickers posing as recruiters use the lure of well-paying jobs overseas to exploit Bhutanese citizens for forced labor; some Bhutanese working in hospitality, retail, and service industries in the Gulf states and India, Thailand, and the UK reported trafficking indicators, including illegal recruitment fees, wage deductions, restricted movement, passport retention, and non-payment of wages; Bhutanese women and girls working as domestics, caregivers, and entertainers are subject to sex and labor trafficking domestically; Bhutanese and Indian women may be forced to work in hotels, massage parlors, and nightclubs, while male Indian workers face unauthorized deductions and non-payment of wages in the construction and hydropower sectors

tier rating:

Tier 2 Watch List — Bhutan does not fully meet the minimum standards for the elimination of trafficking but is making significant efforts to do so; among its accomplishments, Bhutan convicted one trafficker, appealed the dismissal of trafficking charges in a second case, finalized and disseminated standard operating procedures for victim identification and referral, and initiated an investigation into reports of labor exploitation; the government also continued to work with an international organization on anti-trafficking training and public awareness events; however, Bhutanese courts continued to dismiss and refile on lesser charges human trafficking cases due to inconsistencies between Bhutanese law and the international definition of trafficking;

additionally, authorities did not identify any trafficking victims during the reporting period and did not provide protective services to Bhutanese victims of forced labor abroad (2020)

BOLIVIA

INTRODUCTION

Background: Bolivia, named after independence fighter Simon BOLIVAR, broke away from Spanish rule in 1825. Much of its subsequent history has consisted of a series of coups and countercoups, with the last coup occurring in 1978. Democratic civilian rule was established in 1982, but leaders have faced problems of deep-seated poverty, social unrest, and illegal drug production.

In December 2005, Bolivians elected Movement Toward Socialism leader Evo MORALES president - by the widest margin of any leader since the restoration of civilian rule in 1982 - after he ran on a promise to change the country's traditional political class and empower the nation's poor and indigenous majority. In December 2009 and October 2014, President MORALES easily won reelection. His party maintained control of the legislative branch of the government, which has allowed him to continue his "process of change." In February 2016, MORALES narrowly lost a referendum to approve a constitutional amendment that would have allowed him to compete in the 2019 presidential election. However, a 2017 Supreme Court ruling stating that term limits violate human rights provided the justification for MORALES to be chosen by his party to run again in 2019. MORALES attempted to claim victory in the October 2019 election, but widespread allegations of electoral fraud, rising violence, and pressure from the military ultimately forced him to flee the country. An interim government, led by President Jeanine ANEZ Chavez, prepared new elections that took place in October 2020; President Luis Alberto ARCE Catacora took office the following month.

GEOGRAPHY

Location: Central South America, southwest of Brazil

Geographic coordinates: 17 00 S, 65 00 W

Map references: South America

Area: *total:* 1,098,581 sq km

land: 1,083,301 sq km

water: 15,280 sq km

country comparison to the world: 29

Area - comparative: slightly less than three times the size of Montana

Land boundaries: *total:* 7,252 km

border countries (5): Argentina 942 km; Brazil 3,403 km; Chile 942 km; Paraguay 753 km; Peru 1,212 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: varies with altitude; humid and tropical to cold and semiarid

Terrain: rugged Andes Mountains with a highland plateau (Altiplano), hills, lowland plains of the Amazon Basin

Elevation: *highest point:* Nevado Sajama 6,542 m

lowest point: Rio Paraguay 90 m

mean elevation: 1,192 m

Natural resources: tin, natural gas, petroleum, zinc, tungsten, antimony, silver, iron, lead, gold, timber, hydropower

Land use: *agricultural land:* 34.3% (2018 est.)

arable land: 3.6% (2018 est.)

permanent crops: 0.2% (2018 est.)

permanent pasture: 30.5% (2018 est.)

forest: 52.5% (2018 est.)

other: 13.2% (2018 est.)

Irrigated land: 3,000 sq km (2012)

Major lakes (area sq km): *fresh water lake(s):* Lago Titicaca (shared with Peru) - 8,030 sq km

salt water lake(s): Lago Poopo - 1,340 sq km

Major watersheds (area sq km): Atlantic Ocean drainage: Amazon (6,145,186 sq km), Paraná (2,582,704 sq km)

Major aquifers: Amazon Basin

Population distribution: a high altitude plain in the west between two cordillera of the Andes, known as the Altiplano, is the focal area for most of the population; a dense settlement pattern is also found in and around the city of Santa Cruz, located on the eastern side of the Andes

Natural hazards: flooding in the northeast (March to April)

volcanism: volcanic activity in Andes Mountains on the border with Chile; historically active volcanoes in this region are Irruputuncu (5,163 m), which last erupted in 1995, and the Olca-Paruma volcanic complex (5,762 m to 5,167 m)

Geography - note: *note 1:* landlocked; shares control of Lago Titicaca, world's highest navigable lake (elevation 3,805 m), with Peru

note 2: the southern regions of Peru and the extreme northwestern part of Bolivia are considered to be the place of origin for the common potato, while southeast Bolivia and northwest Argentina seem to be the original development site for peanuts

PEOPLE AND SOCIETY

Population: 12,054,379 (2022 est.)

country comparison to the world: 79

Nationality: *noun:* Bolivian(s)

adjective: Bolivian

Ethnic groups: Mestizo (mixed White and Amerindian ancestry) 68%, Indigenous 20%, White 5%, Cholo/Chola 2%, African descent 1%, other 1%, unspecified 3%; 44% of respondents indicated feeling part of some indigenous group, predominantly Quechua or Aymara (2009 est.)

note: results among surveys vary based on the wording of the ethnicity question and the available response choices; the 2001 national census did not provide “Mestizo” as a response choice, resulting in a much higher proportion of respondents identifying themselves as belonging to one of the available indigenous ethnicity choices; the use of “Mestizo” and “Cholo” varies among response choices in surveys, with surveys using the terms interchangeably, providing one or the other as a response choice, or providing the two as separate response choices

Languages: Spanish (official) 60.7%, Quechua (official) 21.2%, Aymara (official) 14.6%, Guaraní (official) 0.6%, other native languages 0.4%, foreign languages 2.4%, none 0.1%; *note* - Bolivia’s 2009 constitution designates Spanish and all indigenous languages as official; 36 indigenous languages are specified, including a few that are extinct (2001 est.)

major-language sample(s): La Libreta Informativa del Mundo, la fuente indispensable de información básica. (Spanish)

Religions: Roman Catholic 70%, Evangelical 14.5%, Adventist 2.5%, Church of Jesus Christ 1.2%, agnostic 0.3%, atheist 0.8%, other 3.5%, none 6.6%, unspecified 0.6% (2018 est.)

Demographic profile: Bolivia ranks at or near the bottom among Latin American countries in several areas of health and development, including poverty, education, fertility, malnutrition, mortality, and life expectancy.

On the positive side, more children are being vaccinated and more pregnant women are getting prenatal care and having skilled health practitioners attend their births.

Bolivia's income inequality is the highest in Latin America and one of the highest in the world. Public education is of poor quality, and educational opportunities are among the most unevenly distributed in Latin America, with girls and indigenous and rural children less likely to be literate or to complete primary school. The lack of access to education and family planning services helps to sustain Bolivia's high fertility rate—approximately three children per woman. Bolivia's lack of clean water and basic sanitation, especially in rural areas, contributes to health problems.

Between 7% and 16% of Bolivia's population lives abroad (estimates vary in part because of illegal migration). Emigrants primarily seek jobs and better wages in Argentina (the principal destination), the US, and Spain. In recent years, more restrictive immigration policies in Europe and the US have increased the flow of Bolivian emigrants to neighboring countries. Fewer Bolivians migrated to Brazil in 2015 and 2016 because of its recession; increasing numbers have been going to Chile, mainly to work as miners.

Age structure: 0-14 years: 30.34% (male 1,799,925/female 1,731,565)
15-24 years: 19.21% (male 1,133,120/female 1,103,063)
25-54 years: 38.68% (male 2,212,096/female 2,289,888)
55-64 years: 6.06% (male 323,210/female 382,139)
65 years and over: 5.71% (male 291,368/female 373,535) (2020 est.)

Dependency ratios: *total dependency ratio:* 60.5

55-64 years: 0.97 male(s)/female

65 years and over: 0.72 male(s)/female

total population: 1.01 male(s)/female (2022 est.)

Mother's mean age at first birth: 21.1 years (2008 est.)

note: data represents median age at first birth among women 25-49

Maternal mortality ratio: 155 deaths/100,000 live births (2017 est.)

country comparison to the world: 56

Infant mortality rate: *total:* 22.28 deaths/1,000 live births

male: 24.5 deaths/1,000 live births

female: 19.95 deaths/1,000 live births (2022 est.)

country comparison to the world: 72

Life expectancy at birth: *total population: 72.5 years*

male: 71.04 years

female: 74.02 years (2022 est.)

country comparison to the world: 153

Total fertility rate: 2.33 children born/woman (2022 est.)

country comparison to the world: 77

Contraceptive prevalence rate: 66.5% (2016)

Drinking water source: *improved: urban: 99.2% of population*

rural: 80.2% of population

total: 93.5% of population

unimproved: urban: 0.8% of population

rural: 19.8% of population

total: 6.5% of population (2020 est.)

Current health expenditure: 6.9% of GDP (2019)

Physicians density: 1.03 physicians/1,000 population (2017)

Hospital bed density: 1.3 beds/1,000 population (2017)

Sanitation facility access: *improved: urban: 97.8% of population*

rural: 48.4% of population

total: 83.1% of population

unimproved: urban: 2.2% of population

rural: 51.6% of population

total: 16.9% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 0.2% (2020 est.)

country comparison to the world: 96

Major infectious diseases: *degree of risk: very high (2020)*

food or waterborne diseases: bacterial diarrhea and hepatitis A

vectorborne diseases: dengue fever and malaria

Obesity - adult prevalence rate: 20.2% (2016)

country comparison to the world: 102

Alcohol consumption per capita: *total:* 2.98 liters of pure alcohol (2019 est.)

beer: 2.22 liters of pure alcohol (2019 est.)

wine: 0.14 liters of pure alcohol (2019 est.)

spirits: 0.54 liters of pure alcohol (2019 est.)

other alcohols: 0.08 liters of pure alcohol (2019 est.)

country comparison to the world: 115

Tobacco use: *total:* 12.7% (2020 est.)

male: 20.5% (2020 est.)

female: 4.8% (2020 est.)

country comparison to the world: 120

Children under the age of 5 years underweight: 3.4% (2016)

country comparison to the world: 91

Child marriage: *women married by age 15:* 3.4%

women married by age 18: 19.7%

men married by age 18: 5.2% (2016 est.)

Education expenditures: 7.3% of GDP (2014 est.)

country comparison to the world: 17

Literacy: *definition:* age 15 and over can read and write

total population: 92.5%

male: 96.5%

female: 88.6% (2015)

Unemployment, youth ages 15-24: *total:* 16.1%

male: 15.7%

female: 16.6% (2020 est.)

ENVIRONMENT

Environment - current issues: the clearing of land for agricultural purposes and the international demand for tropical timber are contributing to deforestation; soil erosion from overgrazing and poor cultivation methods (including slash-and-burn agriculture); desertification; loss of biodiversity; industrial pollution of water supplies used for drinking and irrigation

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Wetlands,
signed, but not ratified: Environmental Modification, Marine Life Conservation

Air pollutants: *particulate matter emissions:* 20.24 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 21.61 megatons (2016 est.)

methane emissions: 21.01 megatons (2020 est.)

Climate: varies with altitude; humid and tropical to cold and semiarid

Land use: *agricultural land:* 34.3% (2018 est.)

arable land: 3.6% (2018 est.)

permanent crops: 0.2% (2018 est.)

permanent pasture: 30.5% (2018 est.)

forest: 52.5% (2018 est.)

other: 13.2% (2018 est.)

Urbanization: *urban population:* 70.8% of total population (2022)

rate of urbanization: 1.87% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.33% of GDP (2018 est.)

country comparison to the world: 78

Revenue from coal: *coal revenues: 0% of GDP (2018 est.)*

country comparison to the world: 69

Major infectious diseases: *degree of risk: very high (2020)*

food or waterborne diseases: bacterial diarrhea and hepatitis A

vectorborne diseases: dengue fever and malaria

Waste and recycling: *municipal solid waste generated annually: 2,219,052 tons (2015 est.)*

municipal solid waste recycled annually: 268,727 tons (2015 est.)

percent of municipal solid waste recycled: 12.1% (2015 est.)

Major lakes (area sq km): *fresh water lake(s): Lago Titicaca (shared with Peru) - 8,030 sq km*

salt water lake(s): Lago Poopo - 1,340 sq km

Major watersheds (area sq km): Atlantic Ocean drainage: Amazon (6,145,186 sq km), Paraná (2,582,704 sq km)

Major aquifers: Amazon Basin

Total water withdrawal: *municipal: 136 million cubic meters (2017 est.)*

industrial: 32 million cubic meters (2017 est.)

agricultural: 1.92 billion cubic meters (2017 est.)

Total renewable water resources: 574 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Plurinational State of Bolivia

conventional short form: Bolivia

local long form: Estado Plurinacional de Bolivia

local short form: Bolivia

etymology: the country is named after Simon BOLIVAR, a 19th-century leader in the South American wars for independence

Government type: presidential republic

Capital: *name:* La Paz (administrative capital); Sucre (constitutional [legislative and judicial] capital)

geographic coordinates: 16 30 S, 68 09 W

time difference: UTC-4 (1 hour ahead of Washington, DC, during Standard Time)

etymology: La Paz is a shortening of the original name of the city, Nuestra Senora de La Paz (Our Lady of Peace); Sucre is named after Antonio Jose de SUCRE (1795-1830), military hero in the independence struggle from Spain and the second president of Bolivia

note: at approximately 3,630 m above sea level, La Paz's elevation makes it the highest capital city in the world

Administrative divisions: 9 departments (departamentos, singular - departamento); Beni, Chuquisaca, Cochabamba, La Paz, Oruro, Pando, Potosi, Santa Cruz, Tarija

Independence: 6 August 1825 (from Spain)

National holiday: Independence Day, 6 August (1825)

Constitution: *history:* many previous; latest drafted 6 August 2006 to 9 December 2008, approved by referendum 25 January 2009, effective 7 February 2009

amendments: proposed through public petition by at least 20% of voters or by the Plurinational Legislative Assembly; passage requires approval by at least two-thirds majority vote of the total membership of the

Assembly and approval in a referendum; amended 2013

Legal system: civil law system with influences from Roman, Spanish, canon (religious), French, and indigenous law

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* yes

citizenship by descent only: yes

dual citizenship recognized: yes

residency requirement for naturalization: 3 years

Suffrage: 18 years of age; universal and compulsory

Executive branch: *chief of state:* President Luis Alberto ARCE Catacora (since 8 November 2020); Vice President David CHOQUEHUANCA Cespedes (since 8 November 2020); note - the president is both chief of state and head of government

head of government: President Luis Alberto ARCE Catacora (since 8 November 2020); Vice President David CHOQUEHUANCA Cespedes (since 8 November 2020)

cabinet: Cabinet appointed by the president

elections/appointments: president and vice president directly elected on the same ballot one of 3 ways: candidate wins at least 50% of the vote, or at least 40% of the vote and 10% more than the next highest candidate; otherwise a second round is held and the winner determined by simple majority vote; president and vice president are elected by majority vote to serve a 5-year term; no term limits (changed from two consecutive term limit by Constitutional Court in late 2017); election last held on 18 October 2020 (next to be held in October 2025)

election results:

2020: Luis Alberto ARCE Catacora elected president; percent of vote - Luis Alberto ARCE Catacora (MAS) 55.1%; Carlos Diego MESA Gisbert (CC) 28.8%; Luis Fernando CAMACHO Vaca (Creemos) 14%; other 2.1%

2018: Juan Evo MORALES Ayma reelected president; percent of vote -

Juan Evo MORALES Ayma (MAS) 61%; Samuel DORIA MEDINA Arana (UN) 24.5%; Jorge QUIROGA Ramirez (POC) 9.1%; other 5.4%; note - MORALES resigned from office on 10 November 2019 over alleged election rigging; resignations of all his constitutionally designated successors followed, including the Vice President, President of the Senate, President of the Chamber of Deputies, and First Vice President of the Senate, leaving the Second Vice President of the Senate, Jeanine ANEZ Chavez, the highest-ranking official still in office; her appointment to the presidency was endorsed by Bolivia's Constitutional Court, and she served as interim president until the 8 November 2020 inauguration of Luis Alberto ARCE Catacora, who was winner of the 18 October 2020 presidential election

Legislative branch: *description:* bicameral Plurinational Legislative Assembly or Asamblea Legislativa Plurinacional consists of:

Chamber of Senators or Camara de Senadores (36 seats; members directly elected in multi-seat constituencies by party-list proportional representation vote; members serve 5-year terms)

Chamber of Deputies or Camara de Diputados (130 seats; 70 members directly elected in single-seat constituencies by simple majority vote, 53 directly elected in single-seat constituencies by closed party-list proportional representation vote, and 7 (apportioned to non-contiguous, rural areas in 7 of the 9 states) directly elected in single-seat constituencies by simple majority vote; members serve 5-year terms)

elections:

Chamber of Senators - last held on 18 October 2020 (next to be held in 2025)

Chamber of Deputies - last held on 18 October 2020 (next to be held in 2025)

election results:

Chamber of Senators - percent of vote by party - NA; seats by party - MAS 21, ACC 11, Creemos 4; composition as of March 2022 - men 16, women 20, percent of women 55.6%

Chamber of Deputies - percent of vote by party - NA; seats by party - MAS 75, ACC 39, Creemos 16; composition as of March 2022 - men 70,

women 60, percent of women 46.2%; note - total Plurinational Legislative Assembly percent of women as of March 2022 - 48.2%

Judicial branch: *highest court(s)*: Supreme Court or Tribunal Supremo de Justicia (consists of 12 judges or ministros organized into civil, penal, social, and administrative chambers); Plurinational Constitutional Tribunal (consists of 7 primary and 7 alternate magistrates); Plurinational Electoral Organ (consists of 7 members and 6 alternates); National Agro-Environment Court (consists of 5 primary and 5 alternate judges; Council of the Judiciary (consists of 3 primary and 3 alternate judges)

judge selection and term of office: Supreme Court, Plurinational Constitutional Tribunal, National Agro-Environmental Court, and Council of the Judiciary candidates pre-selected by the Plurinational Legislative Assembly and elected by direct popular vote; judges elected for 6-year terms; Plurinational Electoral Organ judges appointed - 6 by the Legislative Assembly and 1 by the president of the republic; members serve single 6-year terms

subordinate courts: National Electoral Court; District Courts (in each of the 9 administrative departments); agro-environmental lower courts

Political parties and leaders: Community Citizen Alliance or ACC [Carlos Diego MESA Gisbert]

Movement Toward Socialism or MAS [Juan Evo MORALES Ayma]

National Unity or UN [Samuel DORIA MEDINA Auza]

Revolutionary Left Front or FRI [Edgar GUZMAN Jauregui]

Social Democrat Movement or MDS [Ruben COSTAS Aguilera]

We Believe or Creemos [Luis Fernando CAMACHO Vaca]

note: We Believe or Creemos [Luis Fernando CAMACHO Vaca] is a coalition comprised of several opposition parties that participated in the 2020 election, which includes the Christian Democratic Party (PDC) and Solidarity Civic Unity (UCS)

International organization participation: CAN, CD, CELAC, FAO, G-77, IADB, IAEA, IBRD, ICAO, ICC (national committees), ICt, ICRM, IDA, IFAD, IFC, IFRCS, ILO, IMF, IMO, Interpol, IOC, IOM, IPU, ISO (correspondent), ITSO, ITU, LAES, LAIA, Mercosur

(associate), MIGA, MINUSTAH, MONUSCO, NAM, OAS, OPANAL, OPCW, PCA, UN, UN Security Council (temporary), UNAMID, UNASUR, UNCTAD, UNESCO, UNHRC, UNIDO, Union Latina, UNISFA, UNMIL, UNMISS, UNOCI, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador (vacant); Charge d’Affaires Maysa Rossana URENA MENACHO (since 1 September 2022)

chancery: 3014 Massachusetts Ave., NW, Washington, DC 20008

telephone: [1] (202) 483-4410

FAX: [1] (202) 328-3712

email address and website:

embolivia.wdc@gmail.com

consulate(s) general: Houston, Los Angeles, Maple Grove (MN), Miami, New York, Washington, DC

Diplomatic representation from the US: *chief of mission:* Ambassador (vacant); Charge d’Affaires Charisse PHILLIPS (since August 2020)

embassy: Avenida Arce 2780, La Paz

mailing address: 3220 La Paz Place, Washington DC 20512-3220

telephone: [591] (2) 216-8000

FAX: [591] (2) 216-8111

email address and website:

ConsularLaPazACS@state.gov

<https://bo.usembassy.gov/>

note: in September 2008, the Bolivian Government expelled the US Ambassador to Bolivia, Philip GOLDBERG, and both countries have yet to reinstate their ambassadors

Flag description: three equal horizontal bands of red (top), yellow, and green with the coat of arms centered on the yellow band; red stands for bravery and the blood of national heroes, yellow for the nation’s mineral resources, and green for the fertility of the land

note: similar to the flag of Ghana, which has a large black five-pointed

star centered in the yellow band; in 2009, a presidential decree made it mandatory for a so-called wiphala - a square, multi-colored flag representing the country's indigenous peoples - to be used alongside the traditional flag

National symbol(s): *llama, Andean condor, two national flowers:* the cantuta and the patuju; national colors: red, yellow, green

National anthem: *name:* "Cancion Patriotica" (Patriotic Song)

lyrics/music: Jose Ignacio de SANJINES/Leopoldo Benedetto VINCENTI

note: adopted 1852

National heritage: *total World Heritage Sites:* 7 (6 cultural, 1 natural)

selected World Heritage Site locales: City of Potosi (c); El Fuerte de Samaipata (c); Historic Sucre (c); Jesuit Missions of Chiquitos (c); Noel Kempff Mercado National Park (n); Tiahuanacu (c); Qhapaq Ñan/Andean Road System (c)

ECONOMY

Economic overview: Bolivia is a resource rich country with strong growth attributed to captive markets for natural gas exports – to Brazil and Argentina. However, the country remains one of the least developed countries in Latin America because of state-oriented policies that deter investment.

Following an economic crisis during the early 1980s, reforms in the 1990s spurred private investment, stimulated economic growth, and cut poverty rates. The period 2003-05 was characterized by political instability, racial tensions, and violent protests against plans - subsequently abandoned - to export Bolivia's newly discovered natural gas reserves to large Northern Hemisphere markets. In 2005-06, the government passed hydrocarbon laws that imposed significantly higher royalties and required foreign firms then operating under risk-sharing contracts to surrender all production to the state energy company in exchange for a predetermined service fee; the laws engendered much public debate. High commodity prices between 2010 and 2014 sustained rapid growth and large trade surpluses with GDP growing 6.8% in 2013 and 5.4% in 2014. The global decline in oil prices that began in late 2014 exerted downward pressure on the price Bolivia receives for exported gas and resulted in lower GDP growth rates - 4.9% in 2015 and 4.3% in 2016 - and losses in government revenue as well as fiscal and trade deficits.

A lack of foreign investment in the key sectors of mining and hydrocarbons, along with conflict among social groups, pose challenges for the Bolivian economy. In 2015, President Evo MORALES expanded efforts to court international investment and boost Bolivia's energy production capacity. MORALES passed an investment law and promised not to nationalize additional industries in an effort to improve the investment climate. In early 2016, the Government of Bolivia approved the 2016-2020 National Economic and Social Development Plan aimed at maintaining growth of 5% and reducing poverty.

Real GDP (purchasing power parity): \$92.59 billion (2020 est.)

\$100.45 billion (2019 est.)

\$98.27 billion (2018 est.)

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 598,082 (2020 est.)

subscriptions per 100 inhabitants: 5 (2020 est.)

country comparison to the world: 87

Telephones - mobile cellular: *total subscriptions:* 11,804,343 (2020 est.)

subscriptions per 100 inhabitants: 101 (2020 est.)

country comparison to the world: 79

Telecommunication systems: *general assessment:* the structure of Bolivia's fixed telecom market is different from most other countries; local services are primarily provided by 15 telecom cooperatives; these are non-profit-making companies privately owned and controlled by their users; since the market was liberalized, the cooperatives have also provided long-distance telephony, while several also offer broadband and pay TV service; they have invested in network upgrades in a bid to improve services for customers, and to expand their footprints; Bolivia has a multi-carrier system wherein consumers can choose a long-distance carrier for each call by dialing the carrier's prefix; several operators have also adopted fixed-wireless technologies, and some rent fiber-optic capacity; the fixed broadband services remain expensive, though the cost of bandwidth is only a fraction of what it was only a few years ago; services are still unavailable in many rural and remote areas, and even in some of the major urban areas; being a landlocked country, Bolivia had no direct access to submarine cable networks, and relies on satellite services or terrestrial links across neighboring countries; in September 2020 a new cable running via Peru, has increased capacity and contributed to a dramatic fall in end-user prices; fixed broadband services are fast migrating from DSL to fiber, while there are also cable broadband services available in some major cities; in 2007 the focus was on providing telecom services in rural areas under a project known as 'Territory with Total Coverage'; this project aims to increase telecom coverage through mobile rather than through fixed networks; Bolivia has

almost twenty times as many mobile phone subscribers as fixed line connections, and the trend towards fixed-mobile substitution continues; all the mobile companies offer 3G and LTE services; due to the poor quality, high cost, and poor reach of DSL, mobile networks have become the principal platform for voice services and data access; by early 2021 companies' networks reached more than 95% of the population; about 92% of all internet accesses are via smartphones (2021)

domestic: 5 per 100 fixed-line, mobile-cellular telephone use expanding rapidly and teledensity stands at 101 per 100 persons; most telephones are concentrated in La Paz, Santa Cruz, and other capital cities (2020)

international: country code - 591; Bolivia has no direct access to submarine cable networks and must therefore connect to the rest of the world either via satellite or through terrestrial links across neighboring countries; satellite earth station - 1 Intelsat (Atlantic Ocean) (2019)

Broadcast media: large number of radio and TV stations broadcasting with private media outlets dominating; state-owned and private radio and TV stations generally operating freely, although both pro-government and anti-government groups have attacked media outlets in response to their reporting (2019)

Internet country code: .bo

Internet users: *total:* 7,003,817 (2020 est.)

percent of population: 60% (2020 est.)

country comparison to the world: 77

Broadband - fixed subscriptions: *total:* 931,918 (2020 est.)

subscriptions per 100 inhabitants: 8 (2020 est.)

country comparison to the world: 76

TRANSPORTATION

National air transport system: *number of registered air carriers: 7* (2020)

inventory of registered aircraft operated by air carriers: 39

annual passenger traffic on registered air carriers: 4,122,113 (2018)

annual freight traffic on registered air carriers: 13.73 million (2018) mt-km

Civil aircraft registration country code prefix: CP

Pipelines: 5,457 km gas, 51 km liquid petroleum gas, 2,511 km oil, 1,627 km refined products (2013)

Railways: *total: 3,960 km* (2019)

narrow gauge: 3,960 km (2014) 1.000-m gauge

country comparison to the world: 51

Roadways: *total: 90,568 km* (2017)

paved: 9,792 km (2017)

unpaved: 80,776 km (2017)

country comparison to the world: 53

Waterways: 10,000 km (2012) (commercially navigable almost exclusively in the northern and eastern parts of the country)

country comparison to the world: 15

Merchant marine: *total:* 45

by type: general cargo 29, oil tanker 2, other 14 (2021)

country comparison to the world: 121

Ports and terminals: *river port(s):* Puerto Aguirre (Paraguay/Parana)

note: Bolivia has free port privileges in maritime ports in Argentina, Brazil, Chile, and Paraguay

MILITARY AND SECURITY

Military and security forces: Bolivian Armed Forces: Bolivian Army (Ejército de Boliviano, EB), Bolivian Naval Force (Fuerza Naval Boliviana, FNB), Bolivian Air Force (Fuerza Aerea Boliviana, FAB); Ministry of Government: National Police (Policía Nacional de Bolivia, PNB) (2022)

note: the PNB includes two paramilitary forces, the Anti-Narcotics Special Forces (Fuerza Especial de Lucha Contra el Narcotráfico, FELCN) and the Anti-Terrorist Group (GAT); the PNB is part of the reserves for the Armed Forces; the police and military share responsibility for border enforcement

Military expenditures: 1.4% of GDP (2021 est.)

1.4% of GDP (2020 est.)

1.4% of GDP (2019 est.) (approximately \$980 million)

1.5% of GDP (2018 est.) (approximately \$1 billion)

1.5% of GDP (2017 est.) (approximately \$1.01 billion)

country comparison to the world: 96

Military and security service personnel strengths: information varies widely; approximately 40,000 active troops (28,000 Army; 5,000 Navy; 7,000 Air Force); note - a considerable portion of the Navy personnel are marines and naval police; approximately 40,000 National Police (2022)

Military equipment inventories and acquisitions: the Bolivian Armed Forces are equipped with a mix of mostly older Brazilian, Chinese, European, and US equipment; since 2010, China and France have been the leading suppliers of military hardware to Bolivia (2022)

Military service age and obligation: compulsory for all men between the ages of 18 and 22; men can volunteer from the age of 16, women from 18; service is for 12 months; Search and Rescue service can be substituted for citizens who have reached the age of compulsory military service; duration of this service is 24 months (2022)

note: foreign nationals 18-22 residing in Bolivia may join the armed forces; joining speeds the process of acquiring Bolivian citizenship by naturalization

Military - note: Bolivia has a small naval force for patrolling some 5,000 miles of navigable rivers to combat narcotics trafficking and smuggling, provide disaster relief, and deliver supplies to remote rural areas, as well as for maintaining a presence on Lake Titicaca; the Navy also exists in part to cultivate a maritime tradition and as a reminder of Bolivia's desire to regain the access to the Pacific Ocean that the country lost to Chile in the War of the Pacific (1879-1884); every year on 23 March, the Navy participates in parades and government ceremonies commemorating the Día Del Mar (Day of the Sea) holiday that remembers the loss (2022)

TRANSNATIONAL ISSUES

Disputes - international: Contraband smuggling, human trafficking, and illegal narcotic trafficking are problems in the porous areas of its border regions with all of its neighbors (Argentina, Brazil, Chile, Paraguay, and Peru).

Bolivia-Chile: Despite tariff-free access to ports in southern Peru and northern Chile, Bolivia persists with its long-standing claims to regain sovereign access to the Pacific Ocean.

Bolivia-Peru: Despite tariff-free access to ports in southern Peru and northern Chile, Bolivia persists with its long-standing claims to regain sovereign access to the Pacific Ocean. Smuggling of archaeological artifacts from Peru to Bolivia, illegal timber and narcotics smuggling, human trafficking, and falsified documents are current issues.

Bolivia-Brazil: The Roboré Accord of March 29, 1958 placed the long-disputed Isla Suárez/Ilha de Guajará-Mirim, a fluvial island on the Río Mamoré, between the two towns of Guajará-Mirim (Brazil) and Guayaramerin (Bolivia), under Bolivian administration but did not resolve the sovereignty dispute

Bolivia-Argentina: Contraband smuggling, human trafficking, and illegal narcotic trafficking are problems in the porous areas of the border.

Bolivia-Paraguay: On April 27, 2009, the president of Argentina hosted the presidents of Bolivia and Paraguay together with representatives of the five other guarantor states -- Brazil, Chile, Peru, the United States, and Uruguay -- to the signing for the Final Record of the Boundary Commission in execution of the 1938 Peace Treaty between Bolivia and Paraguay.

Refugees and internally displaced persons: *refugees (country of origin):* 12,400 (Venezuela) (2022)

Illicit drugs: third-largest source country of cocaine and a major transit for Peruvian cocaine; in 2020 coca cultivation totaled 39,400 hectares (ha); illicit drug consumption is low in Bolivia; most cocaine is exported to other Latin American countries, such as Brazil, Paraguay, and

Argentina, for domestic consumption, or for onward transit to West Africa and Europe, not the United States

BOSNIA AND HERZEGOVINA

INTRODUCTION

Background: Bosnia and Herzegovina declared sovereignty in October 1991 and independence from the former Yugoslavia on 3 March 1992 after a referendum boycotted by ethnic Serbs. The Bosnian Serbs - supported by neighboring Serbia and Montenegro - responded with armed resistance aimed at partitioning the republic along ethnic lines and joining Serb-held areas to form a “Greater Serbia.” In March 1994, Bosniaks and Croats reduced the number of warring factions from three to two by signing an agreement creating a joint Bosniak-Croat Federation of Bosnia and Herzegovina. On 21 November 1995, in Dayton, Ohio, the warring parties initialed a peace agreement that ended three years of interethnic civil strife (the final agreement was signed in Paris on 14 December 1995).

The Dayton Peace Accords retained Bosnia and Herzegovina’s international boundaries and created a multiethnic and democratic government charged with conducting foreign, diplomatic, and fiscal policy. Also recognized was a second tier of government composed of two entities roughly equal in size: the predominantly Bosniak-Bosnian Croat Federation of Bosnia and Herzegovina and the predominantly Bosnian Serb-led Republika Srpska (RS). The Federation and RS governments are responsible for overseeing most government functions. Additionally, the Dayton Accords established the Office of the High Representative to oversee the implementation of the civilian aspects of the agreement. The Peace Implementation Council at its conference in Bonn in 1997 also gave the High Representative the authority to impose legislation and remove officials, the so-called “Bonn Powers.” An original NATO-led international peacekeeping force (IFOR) of 60,000 troops assembled in 1995 was succeeded over time by a smaller, NATO-led Stabilization Force (SFOR). In 2004, European Union peacekeeping troops (EUFOR) replaced SFOR. Currently, EUFOR deploys around 600 troops in theater in a security assistance and training capacity.

GEOGRAPHY

Location: Southeastern Europe, bordering the Adriatic Sea and Croatia

Geographic coordinates: 44 00 N, 18 00 E

Map references: Europe

Area: *total:* 51,197 sq km

land: 51,187 sq km

water: 10 sq km

country comparison to the world: 128

Area - comparative: slightly smaller than West Virginia

Land boundaries: *total:* 1,543 km

border countries (3): Croatia 956 km; Montenegro 242 km; Serbia 345 km

Coastline: 20 km

Maritime claims: NA

Climate: hot summers and cold winters; areas of high elevation have short, cool summers and long, severe winters; mild, rainy winters along coast

Terrain: mountains and valleys

Elevation: *highest point:* Maglic 2,386 m

lowest point: Adriatic Sea 0 m

mean elevation: 500 m

Natural resources: coal, iron ore, antimony, bauxite, copper, lead, zinc, chromite, cobalt, manganese, nickel, clay, gypsum, salt, sand, timber, hydropower

Land use: *agricultural land:* 42.2% (2018 est.)

arable land: 19.7% (2018 est.)

permanent crops: 2% (2018 est.)

permanent pasture: 20.5% (2018 est.)

forest: 42.8% (2018 est.)

other: 15% (2018 est.)

Irrigated land: 30 sq km (2012)

Major watersheds (area sq km): Atlantic Ocean drainage: (*Black Sea*) Danube (795,656 sq km)

Population distribution: the northern and central areas of the country are the most densely populated

Natural hazards: destructive earthquakes

Geography - note: within Bosnia and Herzegovina's recognized borders, the country is divided into a joint Bosniak/Croat Federation (about 51% of the territory) and the Bosnian Serb-led Republika Srpska or RS (about 49% of the territory); the region called Herzegovina is contiguous to Croatia and Montenegro, and traditionally has been settled by an ethnic Croat majority in the west and an ethnic Serb majority in the east

PEOPLE AND SOCIETY

Population: 3,816,459 (2022 est.)

country comparison to the world: 130

Nationality: *noun:* Bosnian(s), Herzegovinian(s)

adjective: Bosnian, Herzegovinian

Ethnic groups: Bosniak 50.1%, Serb 30.8%, Croat 15.4%, other 2.7%, not declared/no answer 1% (2013 est.)

note: Republika Srpska authorities dispute the methodology and refuse to recognize the results; Bosniak has replaced Muslim as an ethnic term in part to avoid confusion with the religious term Muslim - an adherent of Islam

Languages: Bosnian (official) 52.9%, Serbian (official) 30.8%, Croatian (official) 14.6%, other 1.6%, no answer 0.2% (2013 est.)

major-language sample(s): Knjiga svjetskih činjenica, neophodan izvor osnovnih informacija. (Bosnian/Montenegrin)

Knjiga svetskih činjenica, neophodan izvor osnovnih informacija. (Serbian)

Knjiga svjetskih činjenica, nužan izvor osnovnih informacija. (Croatian)

Religions: Muslim 50.7%, Orthodox 30.7%, Roman Catholic 15.2%, atheist 0.8%, agnostic 0.3%, other 1.2%, undeclared/no answer 1.1% (2013 est.)

Age structure: *0-14 years:* 13.18% (male 261,430/female 244,242)

15-24 years: 10.83% (male 214,319/female 201,214)

25-54 years: 44.52% (male 859,509/female 848,071)

55-64 years: 15.24% (male 284,415/female 300,168)

65 years and over: 16.22% (male 249,624/female 372,594) (2020 est.)

Dependency ratios: *total dependency ratio:* 48

youth dependency ratio: 21.5

elderly dependency ratio: 26.5

potential support ratio: 3.8 (2020 est.)

Median age: *total:* 43.3 years

male: 41.6 years

female: 44.8 years (2020 est.)

country comparison to the world: 27

Population growth rate: -0.22% (2022 est.)

country comparison to the world: 212

Birth rate: 8.41 births/1,000 population (2022 est.)

country comparison to the world: 214

Death rate: 10.26 deaths/1,000 population (2022 est.)

country comparison to the world: 32

Net migration rate: -0.38 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 122

Population distribution: the northern and central areas of the country are the most densely populated

Urbanization: *urban population:* 49.8% of total population (2022)

rate of urbanization: 0.61% annual rate of change (2020-25 est.)

Major urban areas - population: 344,000 SARAJEVO (capital) (2022)

Sex ratio: *at birth:* 1.07 male(s)/female

0-14 years: 1.07 male(s)/female

15-24 years: 1.06 male(s)/female

25-54 years: 1.02 male(s)/female

55-64 years: 0.96 male(s)/female

65 years and over: 0.42 male(s)/female

total population: 0.95 male(s)/female (2022 est.)

Mother's mean age at first birth: 27.7 years (2019 est.)

Maternal mortality ratio: 10 deaths/100,000 live births (2017 est.)

country comparison to the world: 143

Infant mortality rate: *total:* 5.21 deaths/1,000 live births

male: 5.34 deaths/1,000 live births

female: 5.07 deaths/1,000 live births (2022 est.)

country comparison to the world: 173

Life expectancy at birth: *total population: 77.98 years*

male: 75.02 years

female: 81.15 years (2022 est.)

country comparison to the world: 81

Total fertility rate: *1.36 children born/woman (2022 est.)*

country comparison to the world: 216

Contraceptive prevalence rate: *45.8% (2011/12)*

Drinking water source: *improved: urban: 99.9% of population*

rural: 100% of population

total: 99.9% of population

unimproved: urban: 0.1% of population

rural: 0% of population

total: 0.1% of population (2020 est.)

Current health expenditure: *9.1% of GDP (2019)*

Physicians density: *2.16 physicians/1,000 population (2015)*

Hospital bed density: *3.5 beds/1,000 population (2014)*

Sanitation facility access: *improved: urban: 99.5% of population*

unimproved: urban: 0.5% of population

HIV/AIDS - adult prevalence rate: *(2018) <.1%*

Obesity - adult prevalence rate: *17.9% (2016)*

country comparison to the world: 118

Alcohol consumption per capita: *total: 5.46 liters of pure alcohol (2019 est.)*

beer: 4.19 liters of pure alcohol (2019 est.)

wine: 0.47 liters of pure alcohol (2019 est.)

spirits: 0.62 liters of pure alcohol (2019 est.)

other alcohols: 0.17 liters of pure alcohol (2019 est.)

country comparison to the world: 80

Tobacco use: *total:* 35% (2020 est.)

male: 42% (2020 est.)

female: 28% (2020 est.)

country comparison to the world: 15

Children under the age of 5 years underweight: 1.6% (2012)

country comparison to the world: 116

Literacy: *definition:* age 15 and over can read and write

total population: 98.5%

male: 99.5%

female: 97.5% (2015)

School life expectancy (primary to tertiary education): *total:* 14 years

male: 14 years

female: 15 years (2014)

Unemployment, youth ages 15-24: *total:* 36.6%

male: 32.5%

female: 42.8% (2020 est.)

ENVIRONMENT

Environment - current issues: air pollution; deforestation and illegal logging; inadequate wastewater treatment and flood management facilities; sites for disposing of urban waste are limited; land mines left over from the 1992-95 civil strife are a hazard in some areas

Environment - international agreements: *party to:* Air Pollution, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Marine Life Conservation, Nuclear Test Ban, Ozone Layer Protection, Wetlands

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 27.25 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 21.85 megatons (2016 est.)

methane emissions: 2.92 megatons (2020 est.)

Climate: hot summers and cold winters; areas of high elevation have short, cool summers and long, severe winters; mild, rainy winters along coast

Land use: *agricultural land:* 42.2% (2018 est.)

arable land: 19.7% (2018 est.)

permanent crops: 2% (2018 est.)

permanent pasture: 20.5% (2018 est.)

forest: 42.8% (2018 est.)

other: 15% (2018 est.)

Urbanization: *urban population:* 49.8% of total population (2022)

rate of urbanization: 0.61% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.49% of GDP (2018 est.)

country comparison to the world: 66

Revenue from coal: *coal revenues: 0.34% of GDP (2018 est.)*
country comparison to the world: 17

Waste and recycling: *municipal solid waste generated annually:*
1,248,718 tons (2015 est.)
municipal solid waste recycled annually: 12 tons (2015 est.)
percent of municipal solid waste recycled: 0% (2015 est.)

Major watersheds (area sq km): *Atlantic Ocean drainage: (Black Sea) Danube (795,656 sq km)*

Total water withdrawal: *municipal: 360.8 million cubic meters (2017 est.)*
industrial: 71.8 million cubic meters (2017 est.)

Total renewable water resources: 37.5 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Bosnia and Herzegovina

local long form: none

local short form: Bosna i Hercegovina

former: People's Republic of Bosnia and Herzegovina, Socialist Republic of Bosnia and Herzegovina

abbreviation: BiH

etymology: the larger northern territory is named for the Bosna River; the smaller southern section takes its name from the German word "herzog," meaning "duke," and the ending "-ovina," meaning "land," forming the combination denoting "dukedom"

Government type: parliamentary republic

Capital: *name:* Sarajevo

geographic coordinates: 43 52 N, 18 25 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

daylight saving time: +1hr, begins last Sunday in March; ends last Sunday in October

etymology: the name derives from the Turkish noun *saray*, meaning "palace" or "mansion," and the term *ova*, signifying "plain(s)," to give a meaning of "palace plains" or "the plains about the palace"

Administrative divisions: 3 first-order administrative divisions - Brcko District (Brcko Distrikt) (ethnically mixed), Federation of Bosnia and Herzegovina (Federacija Bosne i Hercegovine) (predominantly Bosniak-Croat), Republika Srpska (predominantly Serb)

Independence: 1 March 1992 (from Yugoslavia); note - referendum for independence completed on 1 March 1992; independence declared on 3 March 1992

National holiday: Independence Day, 1 March (1992) and Statehood Day, 25 November (1943) - both observed in the Federation of Bosnia

and Herzegovina entity; Victory Day, 9 May (1945) and Dayton Agreement Day, 21 November (1995) - both observed in the Republika Srpska entity

note: there is no national-level holiday

Constitution: *history:* 14 December 1995 (constitution included as part of the Dayton Peace Accords); *note* - each of the political entities has its own constitution

amendments: decided by the Parliamentary Assembly, including a two-thirds majority vote of members present in the House of Representatives; the constitutional article on human rights and fundamental freedoms cannot be amended; amended several times, last in 2009

Legal system: civil law system; Constitutional Court review of legislative acts

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Bosnia and Herzegovina

dual citizenship recognized: yes, provided there is a bilateral agreement with the other state

residency requirement for naturalization: 8 years

Suffrage: 18 years of age, 16 if employed; universal

Executive branch: *chief of state:* Chairman of the Presidency Zeljka CVIJANOVIC (chairman since 16 November 2022; presidency member since 16 November 2022 - Serb seat); Zeljko KOMSIC (presidency member since 20 November 2018 - Croat seat); Denis BECIROVIC (presidency member since 16 November 2022 - Bosniak seat)

head of government: Chairman of the Council of Ministers Zoran TEGELTIJA (since 5 December 2019)

cabinet: Council of Ministers nominated by the council chairman, approved by the state-level House of Representatives

elections/appointments: 3-member presidency (1 Bosniak and 1 Croat

elected from the Federation of Bosnia and Herzegovina and 1 Serb elected from the Republika Srpska) directly elected by simple majority popular vote for a 4-year term (eligible for a second term, but then ineligible for 4 years); the presidency chairpersonship rotates every 8 months with the new member of the presidency elected with the highest number of votes starting the new mandate as chair; election last held on 2 October 2022 (next to be held in October 2026); the chairman of the Council of Ministers appointed by the presidency and confirmed by the state-level House of Representatives

election results: 2022: percent of vote Denis BECIROVIC - (SDP BiH) 57.4% - Bosniak seat; Zeljko KOMSIC (DF) 55.8% - Croat seat; Zeljka CVIJANOVIC (SNSD) 51.7% - Serb seat

2018: percent of vote - Milorad DODIK (SNSD) 53.9% - Serb seat; Zeljko KOMSIC (DF) 52.6% - Croat seat; Sefik DZAFEROVIC (SDA) 36.6% - Bosniak seat

2014: percent of vote - Mladen IVANIC (PDP) 48.7% - Serb seat; Dragan COVIC (HDZ-BiH) 52.2% - Croat seat; Bakir IZETBEGOVIC (SDA) 32.9% - Bosniak seat

note: President of the Federation of Bosnia and Herzegovina Marinko CAVARA (since 9 February 2015); Vice Presidents Melika MAHMUTBEGOVIC (since 9 February 2015), Milan DUNOVIC (since 9 February 2015); President of the Republika Srpska Zeljka CVIJANOVIC (since 18 November 2018); Vice Presidents Ramiz SALKIC (since 24 November 2014), Josip JERKOVIC (since 24 November 2014)

Legislative branch: *description:* bicameral Parliamentary Assembly or Skupstina consists of:

House of Peoples or Dom Naroda (15 seats - 5 Bosniak, 5 Croat, 5 Serb; members designated by the Federation of Bosnia and Herzegovina's House of Peoples and the Republika Srpska's National Assembly to serve 4-year terms) House of Representatives or Predstavnicki Dom (42 seats to include 28 seats allocated to the Federation of Bosnia and Herzegovina and 14 to the Republika Srpska; members directly elected by proportional representation vote to serve 4-year terms); note - the Federation of Bosnia

and Herzegovina has a bicameral legislature that consists of the House of Peoples (58 seats - 17 Bosniak, 17 Croat, 17 Serb, 7 other) and the House of Representatives (98 seats; members directly elected by proportional representation vote to serve 4-year terms); Republika Srpska's unicameral legislature is the National Assembly (83 directly elected delegates serve 4-year terms)

elections: House of Peoples - last held on 2 October 2022 (next to be held in 2026)

House of Representatives - last held on 2 October 2022 (next to be held in 2026)

election results: House of Peoples - percent of vote by coalition/party - NA; seats by coalition/party - NA; composition - men 12, women 3, percent of women 20%

House of Representatives - percent of vote by party/coalition - SDA 17.2%, SNSD 16.3%, HDZ BiH 8.8%, SDP 8.2%, SDS 7.1%, DF-GS 6.4%, NiP 5%, PDP 4.6%, NS/HC 3.1%, NES 3%, For Justice and Order 2.1%, DEMOS 1.9%, US 1.6%, BHI KF 1.3%, other 13.4%; seats by party/coalition - SDA 9, SNSD 6, SDP 5, HDZ BiH 4, DF-GS 3, NiP 3, SDS 2, PDP 2, NS/HC 2, NES 2, For Justice and Order 1, DEMOS 1, US 1, BHI KF 1; composition - men 31, women 11, percent of women 26.2%; note - total Parliamentary Assembly percent of women 24.6%

Judicial branch: *highest court(s):* Bosnia and Herzegovina (BiH) Constitutional Court (consists of 9 members); Court of BiH (consists of 44 national judges and 7 international judges organized into 3 divisions - Administrative, Appellate, and Criminal, which includes a War Crimes Chamber)

judge selection and term of office: BiH Constitutional Court judges - 4 selected by the Federation of Bosnia and Herzegovina House of Representatives, 2 selected by the Republika Srpska's National Assembly, and 3 non-Bosnian judges selected by the president of the European Court of Human Rights; Court of BiH president and national judges appointed by the High Judicial and Prosecutorial Council; Court of BiH president appointed for renewable 6-year term; other national judges appointed to serve until age 70; international judges recommended by the president of

the Court of BiH and appointed by the High Representative for Bosnia and Herzegovina; international judges appointed to serve until age 70
subordinate courts: the Federation has 10 cantonal courts plus a number of municipal courts; the Republika Srpska has a supreme court, 5 district courts, and a number of municipal courts

Political parties and leaders: Alliance for a Better Future of BiH or SBB BiH [Fahrudin RADONCIC]

Alliance of Independent Social Democrats or SNSD [Milorad DODIK]

Alternative Party for Democratic Activity or A-SDA [Nermin OGRESEVIC] (merged with Independent Bosnian Herzegovinian List to form NES)

Bosnian-Herzegovinian Initiative or BHI KF [Fuad KASUMOVIC]

Civic Alliance or GS [Reuf BAJROVIC]

Croat Peasants' Party or HSS [Mario KARAMATIC]

Croatian Christian Democratic Union of Bosnia and Herzegovina or HKDU [Ivanka BARIC]

Croatian Democratic Union or HDU [Miro GRABOVAC-TITAN]

Croatian Democratic Union of Bosnia and Herzegovina or HDZ-BiH [Dragan COVIC]

Croatian Democratic Union 1990 or HDZ-1990 [Ilija CVITANOVIC]

Croatian Party of Rights dr. Ante Starcevic or HSP-AS BiH [Stanko PRIMORAC]

Democratic Alliance or DEMOS [Nedeljko CUBRILOVIC]

Democratic Front of DF [Zeljko KOMSIC]

Democratic Peoples' Alliance or DNS [Nenad NESIC]

For Justice and Order [Nebojsa VUKANOVIC]

Independent Bloc or NB [Senad SEPIC]

Movement for Democratic Action or PDA [Elzina PIRIC]

National Democratic Movement or NDP [Dragan CAVIC]

Our Party or NS/HC [Edin FORTO]

Party for Democratic Action or SDA [Bakir IZETBEGOVIC]

Party of Democratic Progress or PDP [Branislav BORENOVIC]

People and Justice Party or NiP [Elmedin KONAKOVIC]

People's European Union of Bosnia and Herzegovina or NES [Nermin

OGRESEVIC]

Progressive Srpska or NS [Goran DORDIC]

Serb Democratic Party or SDS [Mirko SAROVIC]

Serb Radical Party-Dr. Vojislav Seselj or SRS-VS [Vojislav SESELJ]
(merged with PDP)

Social Democratic Party or SDP [Nermin NIKSIC]

Socialist Party or SP [Petar DOKIC]

United Srpska or US [Nenad STEVANDIC]

International organization participation: BIS, CD, CE, CEI, EAPC, EBRD, FAO, G-77, IAEA, IBRD, ICAO, ICC (NGOs), ICCt, ICRM, IDA, IFAD, IFC, IFRCS, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), MIGA, MINUSMA, MONUSCO, NAM (observer), OAS (observer), OIC (observer), OIF (observer), OPCW, OSCE, PFP, SELEC, UN, UNCTAD, UNESCO, UNIDO, UNWTO, UPU, WCO, WHO, WIPO, WMO, WTO (observer)

Diplomatic representation in the US: *chief of mission:* Ambassador Bojan VUJIC (since 16 September 2019)

chancery: 2109 E Street NW, Washington, DC 20037

telephone: [1] (202) 337-1500

branch office(s): Banja Luka, Mostar

Flag description: a wide blue vertical band on the fly side with a yellow isosceles triangle abutting the band and the top of the flag; the remainder of the flag is blue with seven full five-pointed white stars and two half stars top and bottom along the hypotenuse of the triangle; the triangle approximates the shape of the country and its three points stand for the constituent peoples - Bosniaks, Croats, and Serbs; the stars represent Europe and are meant to be continuous (thus the half stars at top and bottom); the colors (white, blue, and yellow) are often associated with neutrality and peace, and traditionally are linked with Bosnia

note: one of several flags where a prominent component of the design reflects the shape of the country; other such flags are those of Brazil, Eritrea, and Vanuatu

National symbol(s): *golden lily; national colors:* blue, yellow, white

National anthem: *name:* “Državna himna Bosne i Hercegovine” (The National Anthem of Bosnia and Herzegovina)

lyrics/music: none officially/Dusan SESTIC

note: music adopted 1999; lyrics proposed in 2008 and others in 2016 were not approved

National heritage: *total World Heritage Sites:* 4 (3 cultural, 1 natural)

selected World Heritage Site locales: Old Bridge Area of Mostar (c); Mehmed Paša Sokolović Bridge (c); Stećci Medieval Tombstones Graveyards (c); Primeval Beech Forests - Janj Forest (n)

ECONOMY

Economic overview: Bosnia and Herzegovina has a transitional economy with limited market reforms. The economy relies heavily on the export of metals, energy, textiles, and furniture as well as on remittances and foreign aid. A highly decentralized government hampers economic policy coordination and reform, while excessive bureaucracy and a segmented market discourage foreign investment. The economy is among the least competitive in the region. Foreign banks, primarily from Austria and Italy, control much of the banking sector, though the largest bank is a private domestic one. The konvertibilna marka (convertible mark) - the national currency introduced in 1998 - is pegged to the euro through a currency board arrangement, which has maintained confidence in the currency and has facilitated reliable trade links with European partners. Bosnia and Herzegovina became a full member of the Central European Free Trade Agreement in September 2007. In 2016, Bosnia began a three-year IMF loan program, but it has struggled to meet the economic reform benchmarks required to receive all funding installments.

Bosnia and Herzegovina's private sector is growing slowly, but foreign investment dropped sharply after 2007 and remains low. High unemployment remains the most serious macroeconomic problem. Successful implementation of a value-added tax in 2006 provided a steady source of revenue for the government and helped rein in gray-market activity, though public perceptions of government corruption and misuse of taxpayer money has encouraged a large informal economy to persist. National-level statistics have improved over time, but a large share of economic activity remains unofficial and unrecorded.

Bosnia and Herzegovina's top economic priorities are: acceleration of integration into the EU; strengthening the fiscal system; public administration reform; World Trade Organization membership; and securing economic growth by fostering a dynamic, competitive private sector.

Real GDP (purchasing power parity): \$47.05 billion (2020 est.)

\$49.17 billion (2019 est.)

\$47.82 billion (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 114

Real GDP growth rate: 3% (2017 est.)

3.2% (2016 est.)

3.1% (2015 est.)

Real GDP per capita: \$14,300 (2020 est.)

\$14,900 (2019 est.)

\$14,400 (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 109

GDP (official exchange rate): \$20.078 billion (2019 est.)

Inflation rate (consumer prices): 1.2% (2017 est.)

-1.1% (2016 est.)

country comparison to the world: 73

Credit ratings:

Moody's rating: B3 (2012)

Standard & Poors rating: B (2011)

note: The year refers to the year in which the current credit rating was first obtained.

GDP - composition, by sector of origin: *agriculture:* 6.8% (2017 est.)

industry: 28.9% (2017 est.)

services: 64.3% (2017 est.)

GDP - composition, by end use: *household consumption:* 77.4% (2017 est.)

government consumption: 20% (2017 est.)

investment in fixed capital: 16.6% (2017 est.)

investment in inventories: 2.3% (2017 est.)

exports of goods and services: 38.7% (2017 est.)

imports of goods and services: -55.1% (2017 est.)

Agricultural products: maize, milk, vegetables, potatoes, wheat, plums/sloes, apples, barley, cabbages, poultry

Industries: steel, coal, iron ore, lead, zinc, manganese, bauxite, aluminum, motor vehicle assembly, textiles, tobacco products, wooden furniture, ammunition, domestic appliances, oil refining

Industrial production growth rate: 3% (2017 est.)

country comparison to the world: 102

Labor force: 806,000 (2020 est.)

country comparison to the world: 145

Labor force - by occupation: *agriculture:* 18%

industry: 30.4%

services: 51.7% (2017 est.)

Unemployment rate: 33.28% (2019 est.)

35.97% (2018 est.)

note: official rate; actual rate is lower as many technically unemployed persons work in the gray economy

country comparison to the world: 210

Unemployment, youth ages 15-24: *total:* 36.6%

male: 32.5%

female: 42.8% (2020 est.)

country comparison to the world: 22

Population below poverty line: 16.9% (2015 est.)

Gini Index coefficient - distribution of family income: 33 (2011 est.)

33.1 (2007)

country comparison to the world: 130

Household income or consumption by percentage share:

lowest 10%: 2.9%

highest 10%: 25.8% (2011 est.)

Budget: *revenues:* 7.993 billion (2017 est.)

expenditures: 7.607 billion (2017 est.)

Budget surplus (+) or deficit (-): 2.1% (of GDP) (2017 est.)

country comparison to the world: 15

Public debt: 39.5% of GDP (2017 est.)

44.1% of GDP (2016 est.)

note: data cover general government debt and includes debt instruments issued (or owned) by government entities other than the treasury; the data include treasury debt held by foreign entities; the data include debt issued by subnational entities, as well as intra-governmental debt; intra-governmental debt consists of treasury borrowings from surpluses in the social funds, such as for retirement, medical care, and unemployment; debt instruments for the social funds are not sold at public auctions.

country comparison to the world: 130

Taxes and other revenues: 44% (of GDP) (2017 est.)

country comparison to the world: 26

1.7626 (2014 est.)

1.4718 (2013 est.)

ENERGY

Electricity access: *electrification - total population:* 100% (2020)

Electricity: *installed generating capacity:* 4.775 million kW (2020 est.)

consumption: 11,657,450,000 kWh (2019 est.)

exports: 7.316 billion kWh (2020 est.)

imports: 3.266 billion kWh (2020 est.)

transmission/distribution losses: 1.257 billion kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 62.8% of total installed capacity (2020 est.)

solar: 0.3% of total installed capacity (2020 est.)

wind: 1.5% of total installed capacity (2020 est.)

hydroelectricity: 35.4% of total installed capacity (2020 est.)

biomass and waste: 0.1% of total installed capacity (2020 est.)

Coal: *production:* 6.966 million metric tons (2020 est.)

consumption: 7.752 million metric tons (2020 est.)

exports: 525,000 metric tons (2020 est.)

imports: 1.366 million metric tons (2020 est.)

proven reserves: 2.264 billion metric tons (2019 est.)

Petroleum: *total petroleum production:* 0 bbl/day (2021 est.)

refined petroleum consumption: 34,700 bbl/day (2019 est.)

crude oil and lease condensate exports: 0 bbl/day (2018 est.)

crude oil and lease condensate imports: 13,900 bbl/day (2018 est.)

crude oil estimated reserves: 0 barrels (2021 est.)

Refined petroleum products - production: 0 bbl/day (2015 est.)

country comparison to the world: 121

Refined petroleum products - exports: 4,603 bbl/day (2015 est.)

country comparison to the world: 92

Refined petroleum products - imports: 18,280 bbl/day (2015 est.)

country comparison to the world: 129

Natural gas: *production:* 0 cubic meters (2021 est.)

consumption: 218.266 million cubic meters (2019 est.)

exports: 0 cubic meters (2021 est.)

imports: 218.266 million cubic meters (2019 est.)

proven reserves: 0 cubic meters (2021 est.)

Carbon dioxide emissions: 16.209 million metric tonnes of CO2 (2019 est.)

from coal and metallurgical coke: 10.923 million metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 4.871 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 415,000 metric tonnes of CO2 (2019 est.)

country comparison to the world: 95

Energy consumption per capita: 71.815 million Btu/person (2019 est.)

country comparison to the world: 83

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 706,135 (2020 est.)

subscriptions per 100 inhabitants: 22 (2020 est.)

country comparison to the world: 83

Telephones - mobile cellular: *total subscriptions:* 3,509,674 (2020 est.)

subscriptions per 100 inhabitants: 107 (2020 est.)

country comparison to the world: 134

Telecommunication systems: *general assessment:* the telecom market has been liberalized and a regulatory framework created based on the EU's regulatory framework for communications; although Bosnia-Herzegovina remains an EU candidate country, in July 2017 it applied amended mobile roaming charges to fit in with changes introduced across the Union; further roaming agreements were made in 2019 with other western Balkan countries; the fixed-line broadband network is comparatively underdeveloped, with the result that investments made in mobile upgrades to facilitate broadband connectivity in the country to a greater extent than is common elsewhere in Europe; internet services are available; DSL and cable are the main platforms for fixed-line connectivity, while fiber broadband as yet has only a small market presence; the three MNOs, each affiliated with one of the incumbent fixed-line operators, provide national coverage with 3G, though LTE coverage is only about 89%; their upgraded networks are helping to support broadband in rural areas where fixed-line infrastructure is insufficient; mobile data and mobile broadband offers will provide future revenue growth given the limited potential of mobile voice services; the MNOs tested LTE services under trial licenses from 2013, commercial launches were delayed until the award of spectrum in early 2019; the regulator stipulated that licenses must provide national coverage within five years; trials of 5G technology have been undertaken, though there are no plans to launch services commercially in the short term, given that the MNOs can continue to exploit the capacity of their existing LTE networks

(2021)

domestic: fixed-line teledensity roughly 22 per 100 persons and mobile-cellular subscribership stands at 107 telephones per 100 persons (2020)

international: country code - 387; no satellite earth stations

Broadcast media: *3 public TV broadcasters*: Radio and TV of Bosnia and Herzegovina, Federation TV (operating 2 networks), and Republika Srpska Radio-TV; a local commercial network of 5 TV stations; 3 private, near-national TV stations and dozens of small independent TV broadcasting stations; 3 large public radio broadcasters and many private radio stations (2019)

Internet country code: .ba

Internet users: *total*: 2,394,995 (2020 est.)

percent of population: 73% (2020 est.)

country comparison to the world: 123

Broadband - fixed subscriptions: *total*: 770,424 (2020 est.)

subscriptions per 100 inhabitants: 24 (2020 est.)

country comparison to the world: 78

TRANSPORTATION

National air transport system: *number of registered air carriers:* 1 (2020)

inventory of registered aircraft operated by air carriers: 1

annual passenger traffic on registered air carriers: 7,070 (2015)

annual freight traffic on registered air carriers: 87 (2015) mt-km

Civil aircraft registration country code prefix: T9

Airports: *total:* 24 (2021)

country comparison to the world: 129

Airports - with paved runways: *total:* 7

2,438 to 3,047 m: 4

1,524 to 2,437 m: 1

under 914 m: 2 (2021)

Airports - with unpaved runways: *total:* 17

1,524 to 2,437 m: 1

914 to 1,523 m: 5

under 914 m: 11 (2021)

Heliports: 6 (2021)

Pipelines: 147 km gas, 9 km oil (2013)

Railways: *total:* 965 km (2014)

standard gauge: 965 km (2014) 1.435-m gauge (565 km electrified)

country comparison to the world: 90

Roadways: *total:* 22,926 km (2010)

paved: 19,426 km (2010) (4,652 km of interurban roads)

unpaved: 3,500 km (2010)

country comparison to the world: 108

Waterways: 990 km (2022) (Sava River on northern border; open to shipping but use limited)

country comparison to the world: 70

Ports and terminals: *river port(s):* Bosanska Gradiska, Bosanski Brod, Bosanski Samac, Brcko, Orasje (Sava River)

MILITARY AND SECURITY

Military and security forces: Armed Forces of Bosnia and Herzegovina (AFBiH or Oruzanih Snaga Bosne i Hercegovine, OSBiH): Operations Command (includes Army, Air, and Air Defense units), Support Command (2022)

Military expenditures: 0.9% of GDP (2021 est.)

0.9% of GDP (2020)

0.8% of GDP (2019) (approximately \$370 million)

0.9% of GDP (2018) (approximately \$370 million)

0.9% of GDP (2017) (approximately \$360 million)

country comparison to the world: 137

Military and security service personnel strengths: approximately 9,000 active duty personnel (2022)

Military equipment inventories and acquisitions: the military's inventory includes mainly Soviet-era weapons systems with a small and varied mix of older European and US equipment (2021)

Military service age and obligation: 18 years of age for voluntary military service; mandatory retirement at age 35 or after 15 years of service for junior enlisted personnel, mandatory retirement at age 50 and 30 years of service for non-commissioned officers, mandatory retirement at age 55 and 30 years of service for all commissioned officers; conscription abolished in 2005 (2021)

note: as of 2019, women made up about 7% of the military's full-time personnel

Military - note: the Armed Forces of Bosnia and Herzegovina (AFBiH) are comprised of the former Bosnian-Croat Army of the Federation of Bosnia and Herzegovina (Vojska Federacije Bosne i Hercegovin, VF) and the Bosnian-Serb Republic of Serbia Army (Vojska Republike Srpske, VRS); the two forces were unified under the 2003 Law on Defense, which also established the country's Ministry of Defense

the European Union Force Bosnia and Herzegovina (EUFOR) has

operated in the country to oversee implementation of the Dayton/Paris Agreement since taking over from NATO's Stabilization Force (SFOR) in 2004; in addition to its security mission, EUFOR supports the overall EU comprehensive strategy for Bosnia and Herzegovina and the efforts of the AFBiH to attain NATO standards; as of 2022, it had about 600 troops from 19 countries

Bosnia and Herzegovina joined NATO's Partnership for Peace (PfP) program in 2007 and was invited to join NATO's Membership Action Plan in 2010; as of 2022, NATO maintained a military headquarters in Sarajevo with the mission of assisting Bosnia and Herzegovina with the PfP program and promoting closer integration with NATO, as well as providing logistics and other support to EUFOR

TERRORISM

Terrorist group(s): Islamic Revolutionary Guard Corps/Qods Force

TRANSNATIONAL ISSUES

Disputes - international: *Bosnia and Herzegovina-Serbia:* Serbia delimited about half of the boundary with Bosnia and Herzegovina, but sections along the Drina River remain in dispute.

Bosnia and Herzegovina-Croatia: none identified

Bosnia and Herzegovina-Montenegro: none identified

Refugees and internally displaced persons: *refugees (country of origin):* 5,112 (Croatia) (2020)

IDPs: 92,000 (Bosnian Croats, Serbs, and Bosniaks displaced by inter-ethnic violence, human rights violations, and armed conflict during the 1992-95 war) (2021)

stateless persons: 149 (mid-year 2021)

note: 108,942 estimated refugee and migrant arrivals (January 2015-November 2022)

Illicit drugs: drug trafficking groups are major players in the procurement and transportation of large quantities of cocaine destined for European markets

BOTSWANA

INTRODUCTION

Background: Seeking to stop the incorporation of their land into Rhodesia (Zimbabwe) or the Union of South Africa, in 1885, three tribal chiefs traveled to Great Britain and successfully lobbied the British Government to put “Bechuanaland” under UK protection. Upon independence in 1966, the British protectorate of Bechuanaland adopted the new name of Botswana. More than five decades of uninterrupted civilian leadership, progressive social policies, and significant capital investment have created one of the most stable economies in Africa. The ruling Botswana Democratic Party has won every national election since independence; President Mokgweetsi Eric MASISI assumed the presidency in April 2018 following the retirement of former President Ian KHAMA due to constitutional term limits. MASISI won his first election as president in October 2019, and he is Botswana’s fifth president since independence. Mineral extraction, principally diamond mining, dominates economic activity, though tourism is a growing sector due to the country’s conservation practices and extensive nature preserves. Botswana has one of the world’s highest rates of HIV/AIDS infection, but also one of Africa’s most progressive and comprehensive programs for dealing with the disease.

GEOGRAPHY

Location: Southern Africa, north of South Africa

Geographic coordinates: 22 00 S, 24 00 E

Map references: Africa

Area: *total:* 581,730 sq km

land: 566,730 sq km

water: 15,000 sq km

country comparison to the world: 50

Area - comparative: slightly smaller than Texas; almost four times the size of Illinois

Land boundaries: *total:* 4,347.15 km

border countries (4): Namibia 1,544 km; South Africa 1,969 km; Zambia 0.15 km; Zimbabwe 834 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: semiarid; warm winters and hot summers

Terrain: predominantly flat to gently rolling tableland; Kalahari Desert in southwest

Elevation: *highest point:* Manyelanong Hill 1,495 m

lowest point: junction of the Limpopo and Shashe Rivers 513 m

mean elevation: 1,013 m

Natural resources: diamonds, copper, nickel, salt, soda ash, potash, coal, iron ore, silver

Land use: *agricultural land:* 45.8% (2018 est.)

arable land: 0.6% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 45.2% (2018 est.)

forest: 19.8% (2018 est.)

other: 34.4% (2018 est.)

Irrigated land: 20 sq km (2012)

Major rivers (by length in km): Zambezi (shared with Zambia [s]), Angola, Namibia, Zimbabwe, and Mozambique [m]) - 2,740 km; Limpopo (shared with South Africa [s], Zimbabwe, and Mozambique [m]) - 1,800 km; Okavango river mouth (shared with Angola [s], and Namibia) - 1,600 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Orange (941,351 sq km)

Indian Ocean drainage: Zambezi (1,332,412 sq km)

Internal (*endorheic basin*) drainage: Okavango Basin (863,866 sq km)

Major aquifers: Lower Kalahari-Stampriet Basin, Upper Kalahari-Cuvelai-Upper Zambezi Basin

Population distribution: the population is primarily concentrated in the east with a focus in and around the capital of Gaborone, and the far central-eastern city of Francistown; population density remains low in other areas in the country, especially in the Kalahari to the west as shown in this population distribution map

Natural hazards: periodic droughts; seasonal August winds blow from the west, carrying sand and dust across the country, which can obscure visibility

Geography - note: landlocked; population concentrated in the southern and eastern parts of the country

PEOPLE AND SOCIETY

Population: 2,384,246 (2022 est.)

country comparison to the world: 145

Nationality: *noun:* Motswana (singular), Batswana (plural)

adjective: Motswana (singular), Batswana (plural)

Ethnic groups: Tswana (or Setswana) 79%, Kalanga 11%, Basarwa 3%, other, including Kgalagadi and people of European ancestry 7%

Languages: Setswana 77.3%, Sekalanga 7.4%, Shekgalagadi 3.4%, English (official) 2.8%, Zezuru/Shona 2%, Sesarwa 1.7%, Sembukushu 1.6%, Ndebele 1%, other 2.8% (2011 est.)

Religions: Christian 79.1%, Badimo 4.1%, other 1.4% (includes Baha'i, Hindu, Muslim, Rastafarian), none 15.2%, unspecified 0.3% (2011 est.)

Demographic profile: Botswana has experienced one of the most rapid declines in fertility in Sub-Saharan Africa. The total fertility rate has fallen from more than 5 children per woman in the mid 1980s to approximately 2.4 in 2013. The fertility reduction has been attributed to a host of factors, including higher educational attainment among women, greater participation of women in the workforce, increased contraceptive use, later first births, and a strong national family planning program. Botswana was making significant progress in several health indicators, including life expectancy and infant and child mortality rates, until being devastated by the HIV/AIDs epidemic in the 1990s.

Today Botswana has the third highest HIV/AIDS prevalence rate in the world at approximately 22%, however comprehensive and effective treatment programs have reduced HIV/AIDS-related deaths. The combination of declining fertility and increasing mortality rates because of HIV/AIDS is slowing the population aging process, with a narrowing of the youngest age groups and little expansion of the oldest age groups. Nevertheless, having the bulk of its population (about 60%) of working age will only yield economic benefits if the labor force is healthy, educated, and productively employed.

Batswana have been working as contract miners in South Africa since the 19th century. Although Botswana's economy improved shortly after independence in 1966 with the discovery of diamonds and other minerals, its lingering high poverty rate and lack of job opportunities continued to push workers to seek mining work in southern African countries. In the early 1970s, about a third of Botswana's male labor force worked in South Africa (lesser numbers went to Namibia and Zimbabwe). Not until the 1980s and 1990s, when South African mining companies had reduced their recruitment of foreign workers and Botswana's economic prospects had improved, were Batswana increasingly able to find job opportunities at home.

Most Batswana prefer life in their home country and choose cross-border migration on a temporary basis only for work, shopping, visiting family, or tourism. Since the 1970s, Botswana has pursued an open migration policy enabling it to recruit thousands of foreign workers to fill skilled labor shortages. In the late 1990s, Botswana's prosperity and political stability attracted not only skilled workers but small numbers of refugees from neighboring Angola, Namibia, and Zimbabwe.

Age structure: 0-14 years: 30.54% (male 357,065/female 350,550)

15-24 years: 18.31% (male 208,824/female 215,462)

25-54 years: 39.67% (male 434,258/female 484,922)

55-64 years: 5.92% (male 59,399/female 77,886)

65 years and over: 5.56% (male 53,708/female 75,159) (2020 est.)

Dependency ratios: total dependency ratio: 61.1

youth dependency ratio: 53.8

elderly dependency ratio: 7.3

potential support ratio: 13.8 (2020 est.)

Median age: total: 25.7 years

male: 24.5 years

female: 26.7 years (2020 est.)

country comparison to the world: 157

Population growth rate: 1.4% (2022 est.)

country comparison to the world: 68

Birth rate: 20.28 births/1,000 population (2022 est.)

country comparison to the world: 70

Death rate: 9.05 deaths/1,000 population (2022 est.)

country comparison to the world: 59

Net migration rate: 2.81 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 41

Population distribution: the population is primarily concentrated in the east with a focus in and around the capital of Gaborone, and the far central-eastern city of Francistown; population density remains low in other areas in the country, especially in the Kalahari to the west as shown in this population distribution map

Urbanization: *urban population:* 72.2% of total population (2022)

rate of urbanization: 2.47% annual rate of change (2020-25 est.)

Major urban areas - population: 269,000 GABORONE (capital) (2018)

Sex ratio: *at birth:* 1.03 male(s)/female

0-14 years: 1.02 male(s)/female

15-24 years: 0.96 male(s)/female

25-54 years: 0.9 male(s)/female

55-64 years: 0.79 male(s)/female

65 years and over: 0.6 male(s)/female

total population: 0.92 male(s)/female (2022 est.)

country comparison to the world: 59

Infant mortality rate: *total:* 25.18 deaths/1,000 live births

male: 27.54 deaths/1,000 live births

female: 22.75 deaths/1,000 live births (2022 est.)

country comparison to the world: 67

Life expectancy at birth: *total population:* 65.64 years

male: 63.6 years

female: 67.74 years (2022 est.)

country comparison to the world: 200

Total fertility rate: 2.39 children born/woman (2022 est.)

country comparison to the world: 74

Contraceptive prevalence rate: 67.4% (2017)

Drinking water source: *improved: urban:* 98.1% of population

rural: 96.9% of population

total: 99.4% of population

unimproved: urban: 0.2% of population

rural: 3.1% of population

total: 0.6% of population (2020 est.)

Current health expenditure: 6.1% of GDP (2019)

Physicians density: 0.38 physicians/1,000 population (2018)

Hospital bed density: 1.8 beds/1,000 population

Sanitation facility access: *improved: urban:* 94.9% of population

rural: 63% of population

total: 85.6% of population

unimproved: urban: 5.1% of population

rural: 37% of population

total: 14.4% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 19.9% (2020 est.)

country comparison to the world: 3

Major infectious diseases: *degree of risk:* high (2020)

food or waterborne diseases: bacterial diarrhea, hepatitis A, and typhoid fever

vectorborne diseases: malaria

Obesity - adult prevalence rate: 18.9% (2016)

country comparison to the world: 114

Alcohol consumption per capita: *total:* 5.98 liters of pure alcohol (2019 est.)

beer: 2.93 liters of pure alcohol (2019 est.)

wine: 0.46 liters of pure alcohol (2019 est.)

spirits: 0.96 liters of pure alcohol (2019 est.)

other alcohols: 1.64 liters of pure alcohol (2019 est.)

country comparison to the world: 71

Tobacco use: *total*: 19.4% (2020 est.)

male: 30.4% (2020 est.)

female: 8.3% (2020 est.)

country comparison to the world: 90

Education expenditures: 6.9% of GDP (2019 est.)

country comparison to the world: 21

Literacy: *definition*: age 15 and over can read and write

total population: 88.5%

male: 88%

female: 88.9% (2015)

School life expectancy (primary to tertiary education): *total*: 13 years

male: 13 years

female: 13 years (2013)

Unemployment, youth ages 15-24: *total*: 46.2%

male: 44.9%

female: 47.8% (2020 est.)

ENVIRONMENT

Environment - current issues: overgrazing; desertification; limited freshwater resources; air pollution

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Nuclear Test Ban, Ozone Layer Protection, Wetlands
signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 21.24 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 6.34 megatons (2016 est.)

methane emissions: 5.73 megatons (2020 est.)

Climate: semiarid; warm winters and hot summers

Land use: *agricultural land:* 45.8% (2018 est.)

arable land: 0.6% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 45.2% (2018 est.)

forest: 19.8% (2018 est.)

other: 34.4% (2018 est.)

Urbanization: *urban population:* 72.2% of total population (2022)

rate of urbanization: 2.47% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.23% of GDP (2018 est.)

country comparison to the world: 88

Revenue from coal: *coal revenues:* 0.45% of GDP (2018 est.)

country comparison to the world: 13

Waste and recycling: *municipal solid waste generated annually:* 210,854 tons (2010 est.)

municipal solid waste recycled annually: 2,109 tons (2005 est.)

percent of municipal solid waste recycled: 1% (2005 est.)

Major rivers (by length in km): Zambezi (shared with Zambia [s]), Angola, Namibia, Zimbabwe, and Mozambique [m]) - 2,740 km; Limpopo (shared with South Africa [s], Zimbabwe, and Mozambique [m]) - 1,800 km; Okavango river mouth (shared with Angola [s], and Namibia) - 1,600 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Orange (941,351 sq km)

Indian Ocean drainage: Zambezi (1,332,412 sq km)

Internal (*endorheic basin*) drainage: Okavango Basin (863,866 sq km)

Major aquifers: Lower Kalahari-Stampriet Basin, Upper Kalahari-Cuvelai-Upper Zambezi Basin

Total water withdrawal: *municipal:* 100.6 million cubic meters (2017 est.)

industrial: 23.4 million cubic meters (2017 est.)

agricultural: 69 million cubic meters (2017 est.)

Total renewable water resources: 12.24 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Botswana

conventional short form: Botswana

local long form: Republic of Botswana

local short form: Botswana

former: Bechuanaland

etymology: the name Botswana means “Land of the Tswana” - referring to the country’s major ethnic group

Government type: parliamentary republic

Capital: *name:* Gaborone

geographic coordinates: 24 38 S, 25 54 E

time difference: UTC+2 (7 hours ahead of Washington, DC, during Standard Time)

etymology: named after GABORONE (ca. 1825-1931), a revered kgosi (chief) of the Tlokwa tribe, part of the larger Tswana ethnic group

Administrative divisions: 10 districts and 6 town councils*; Central, Chobe, Francistown*, Gaborone*, Ghanzi, Jwaneng*, Kgalagadi, Kgatleng, Kweneng, Lobatse*, North East, North West, Selebi-Phikwe*, South East, Southern, Sowa Town*

Independence: 30 September 1966 (from the UK)

National holiday: Independence Day (Botswana Day), 30 September (1966)

Constitution: *history:* previous 1960 (preindependence); latest adopted March 1965, effective 30 September 1966

amendments: proposed by the National Assembly; passage requires approval in two successive Assembly votes with at least two-thirds majority in the final vote; proposals to amend constitutional provisions on fundamental rights and freedoms, the structure and branches of government, and public services also requires approval by majority vote in a referendum and assent by the president of the republic; amended

several times, last in 2016

Legal system: mixed legal system of civil law influenced by the Roman-Dutch model and also customary and common law

International law organization participation: accepts compulsory ICJ jurisdiction with reservations; accepts ICCT jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Botswana

dual citizenship recognized: no

residency requirement for naturalization: 10 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Mokgweetsi Erics Masisi (since 1 April 2018); Vice President Slumber Tsogoane (since 4 April 2018); note - the president is both chief of state and head of government

head of government: President Mokgweetsi Erics Masisi (since 1 April 2018); Vice President Slumber Tsogoane (since 4 April 2018);

cabinet: Cabinet appointed by the president

elections/appointments: president indirectly elected by the National Assembly for a 5-year term (eligible for a second term); election last held on 23 October 2019 (next to be held in 2024 October); vice president appointed by the president

election results: President Seretse Khama Ian KHAMA (since 1 April 2008) stepped down on 1 April 2018 having completed the constitutionally mandated 10-year term limit; upon his retirement, then Vice President MASISI became president; national elections held on 23 October 2019 gave MASISI'S BPD 38 seats in the National Assembly which then selected MASISI as President (2019)

Legislative branch: *description:* unicameral Parliament consists of the National Assembly (63 seats; 57 members directly elected in single-seat constituencies by simple majority vote, 4 nominated by the president and indirectly elected by simple majority vote by the rest of the National Assembly, and 2 ex-officio members - the president and attorney general;

elected members serve 5-year terms); note - the House of Chiefs (Ntlo ya Dikgosi), an advisory body to the National Assembly, consists of 35 members - 8 hereditary chiefs from Botswana's principal tribes, 22 indirectly elected by the chiefs, and 5 appointed by the president; the House of Chiefs consults on issues including powers of chiefs, customary courts, customary law, tribal property, and constitutional amendments
elections: last held on 23 October 2019 (next to be held in October 2024)
election results: percent of vote by party - BDP 52.7%, UDC 35.9%, BPF 4.4%, AP 5.1%, other 1.7%; seats by party - BDP 38, UDC 15, BPF 3, AP 1; composition as of February 2022 - men 56, women 7, percent of women 11.1%

Judicial branch: *highest court(s)*: Court of Appeal, High Court (each consists of a chief justice and a number of other judges as prescribed by the Parliament)

judge selection and term of office: Court of Appeal and High Court chief justices appointed by the president and other judges appointed by the president upon the advice of the Judicial Service Commission; all judges appointed to serve until age 70

subordinate courts: Industrial Court (with circuits scheduled monthly in the capital city and in 3 districts); Magistrates Courts (1 in each district); Customary Court of Appeal; Paramount Chief's Court/Urban Customary Court; Senior Chief's Representative Court; Chief's Representative's Court; Headman's Court

Political parties and leaders: Alliance of Progressives or AP [Ndaba GAOLATHE]

Botswana Congress Party or BCP [Dumelang SALESHANDO]

Botswana Democratic Party or BDP [Mokgweetsi MASISI]

Botswana Movement for Democracy or BMD [Sidney PILANE]

Botswana National Front or BNF [Duma BOKO]

Botswana Patriotic Front or BPF [Biggie BUTALE]

Botswana Peoples Party or BPP [Motlatsi MOLAPISI]

Real Alternative Party or RAP [Gaontebale MOKGOSI]

Umbrella for Democratic Change or UDC [Duma BOKO] (various

times the coalition has included the BMD, BPP, BCP and BNF) (2019)

International organization participation: ACP, AfDB, AU, C, CD, FAO, G-77, IAEA, IBRD, ICAO, ICCT, ICRM, IDA, IFAD, IFC, IFRCS, ILO, IMF, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), MIGA, NAM, OPCW, SACU, SADC, UN, UNCTAD, UNESCO, UNIDO, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Onkokame Kitso MOKAILA (since 17 September 2020)

chancery: 1531-1533 New Hampshire Avenue NW, Washington, DC 20036

telephone: [1] (202) 244-4990

FAX: [1] (202) 244-4164

email address and website:

Flag description: light blue with a horizontal white-edged black stripe in the center; the blue symbolizes water in the form of rain, while the black and white bands represent racial harmony

National symbol(s): zebra; *national colors:* light blue, white, black

National anthem: *name:* “Fatshe leno la rona” (Our Land)

lyrics/music: Kgalemang Tumedisco MOTSETE

note: adopted 1966

National heritage: *total World Heritage Sites:* 2 (1 cultural, 1 natural)

selected World Heritage Site locales: Tsodilo Hills (c); Okavango Delta
(n)

ECONOMY

Economic overview: Until the beginning of the global recession in 2008, Botswana maintained one of the world's highest economic growth rates since its independence in 1966. Botswana recovered from the global recession in 2010, but only grew modestly until 2017, primarily due to a downturn in the global diamond market, though water and power shortages also played a role. Through fiscal discipline and sound management, Botswana has transformed itself from one of the poorest countries in the world five decades ago into a middle-income country with a per capita GDP of approximately \$18,100 in 2017. Botswana also ranks as one of the least corrupt and best places to do business in Sub-Saharan Africa.

Because of its heavy reliance on diamond exports, Botswana's economy closely follows global price trends for that one commodity. Diamond mining fueled much of Botswana's past economic expansion and currently accounts for one-quarter of GDP, approximately 85% of export earnings, and about one-third of the government's revenues. In 2017, Diamond exports increased to the highest levels since 2013 at about 22 million carats of output, driving Botswana's economic growth to about 4.5% and increasing foreign exchange reserves to about 45% of GDP. De Beers, a major international diamond company, signed a 10-year deal with Botswana in 2012 and moved its rough stone sorting and trading division from London to Gaborone in 2013. The move was geared to support the development of Botswana's nascent downstream diamond industry.

Tourism is a secondary earner of foreign exchange and many Botswana engage in tourism-related services, subsistence farming, and cattle rearing. According to official government statistics, unemployment is around 20%, but unofficial estimates run much higher. The prevalence of HIV/AIDS is second highest in the world and threatens the country's impressive economic gains.

Real GDP (purchasing power parity): \$37.72 billion (2020 est.)

\$40.95 billion (2019 est.)

\$39.75 billion (2018 est.)

note: data are in 2017 dollars

ENERGY

Electricity access: *electrification - total population: 59% (2019)*

electrification - urban areas: 71% (2019)

electrification - rural areas: 29% (2019)

Electricity: *installed generating capacity: 766,000 kW (2020 est.)*

consumption: 3,515,900,000 kWh (2019 est.)

exports: 0 kWh (2019 est.)

imports: 1.101 billion kWh (2019 est.)

transmission/distribution losses: 631 million kWh (2019 est.)

Electricity generation sources: *fossil fuels: 99.8% of total installed capacity (2020 est.)*

solar: 0.2% of total installed capacity (2020 est.)

Coal: *production: 1.876 million metric tons (2020 est.)*

consumption: 1.416 million metric tons (2020 est.)

exports: 497,000 metric tons (2020 est.)

imports: 0 metric tons (2020 est.)

proven reserves: 1.66 billion metric tons (2019 est.)

Petroleum: *total petroleum production: 0 bbl/day (2021 est.)*

refined petroleum consumption: 21,700 bbl/day (2019 est.)

Refined petroleum products - imports: *21,090 bbl/day (2015 est.)*

country comparison to the world: 116

Carbon dioxide emissions: *5.965 million metric tonnes of CO₂ (2019 est.)*

from coal and metallurgical coke: 2.922 million metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 3.042 million metric tonnes of CO₂ (2019 est.)

country comparison to the world: 131

Energy consumption per capita: *34.095 million Btu/person (2019 est.)*

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 140,003 (2020 est.)

subscriptions per 100 inhabitants: 6 (2020 est.)

country comparison to the world: 128

Telephones - mobile cellular: *total subscriptions:* 3,829,408 (2020 est.)

subscriptions per 100 inhabitants: 163 (2020 est.)

country comparison to the world: 131

Telecommunication systems: *general assessment:* effective regulatory reform has made Botswana's telecom market one of the most liberalized in the region; there is a service-neutral licensing regime adapted to the convergence of technologies and services, and several operators now compete in all telecom sectors; Botswana has one of the highest mobile penetration rates in Africa; in a bid to generate new revenue streams and secure market share, the three mobile network operators have entered the underdeveloped broadband sector by adopting of 3G, LTE, and WiMAX technologies; in the fixed-line broadband market they compete with a large number of ISPs, some of which have rolled out their own wireless access infrastructure; the landlocked country depends on satellites for international bandwidth, and on other countries for transit capacity to the landing points of international submarine cables; the landing of additional cables in the region in recent years has improved the competitive situation in this sector, while prices for connectivity have fallen dramatically (2022)

domestic: fixed-line teledensity has declined in recent years and now stands at roughly 6 telephones per 100 persons; mobile-cellular teledensity is roughly 163 telephones per 100 persons (2020)

international: country code - 267; international calls are made via satellite, using international direct dialing; 2 international exchanges; digital microwave radio relay links to Namibia, Zambia, Zimbabwe, and South Africa; satellite earth station - 1 Intelsat (Indian Ocean)

Broadcast media: 2 TV stations - 1 state-owned and 1 privately

owned; privately owned satellite TV subscription service is available; 2 state-owned national radio stations; 4 privately owned radio stations broadcast locally (2019)

Internet country code: .bw

Internet users: *total:* 1,505,040 (2020 est.)

percent of population: 64% (2020 est.)

country comparison to the world: 135

Broadband - fixed subscriptions: *total:* 259,525 (2020 est.)

subscriptions per 100 inhabitants: 11 (2020 est.)

country comparison to the world: 111

TRANSPORTATION

National air transport system: *number of registered air carriers:* 1 (2020)

inventory of registered aircraft operated by air carriers: 6

annual passenger traffic on registered air carriers: 253,417 (2018)

annual freight traffic on registered air carriers: 110,000 (2018) mt-km

Civil aircraft registration country code prefix: A2

Airports: *total:* 74 (2021)

country comparison to the world: 70

Airports - with paved runways: *total:* 10

over 3,047 m: 2

2,438 to 3,047 m: 1

1,524 to 2,437 m: 6

914 to 1,523 m: 1 (2021)

Airports - with unpaved runways: *total:* 64

1,524 to 2,437 m: 5

914 to 1,523 m: 46

under 914 m: 13 (2021)

Railways: *total:* 888 km (2014)

narrow gauge: 888 km (2014) 1.067-m gauge

country comparison to the world: 95

Roadways: *total:* 31,747 km (2017)

paved: 9,810 km (2017)

unpaved: 21,937 km (2017)

country comparison to the world: 94

MILITARY AND SECURITY

Military and security forces: Botswana Defense Force (BDF): Ground Forces Command, Air Arm Command, Defense Logistics Command (2022)

note: both the BDF and the Botswana Police Service report to the Ministry of Defense, Justice, and Security

Military expenditures: 3% of GDP (2021 est.)

3% of GDP (2020 est.)

2.8% of GDP (2019) (approximately \$760 million)

2.8% of GDP (2018) (approximately \$730 million)

2.9% of GDP (2017) (approximately \$740 million)

country comparison to the world: 31

Military and security service personnel strengths: approximately 9,000 active BDF personnel (2022)

Military equipment inventories and acquisitions: the BDF has a mix of foreign-supplied and mostly older weapons and equipment, largely from Europe (2021)

Military service age and obligation: 18 is the legal minimum age for voluntary military service for men and women; no conscription (2022)

Military - note: Bechuanaland/Botswana did not have a permanent military during colonial times, with the British colonial administrators relying instead on small, lightly armed constabularies such as the Bechuanaland Mounted Police, the Bechuanaland Border Police, and by the early 1960s, the Police Mobile Unit (PMU); after independence in 1966, Botswana militarized the PMU and gave it responsibility for the country's defense rather than create a conventional military force; however, turmoil in neighboring countries and numerous cross-border incursions by Rhodesian and South African security forces in the 1960s and 1970s demonstrated that the PMU was inadequate for defending the country and led to the establishment of the Botswana Defense Force (BDF) in 1977; as of 2022, the BDF's primary missions included securing

territorial integrity/border security and internal duties such as disaster relief and anti-poaching

Botswana participates in the Southern African Development Community (SADC) Standby Force, and in 2021-2022 contributed nearly 300 troops to the SADC's effort to help the Mozambique Government suppress an insurgency (2022)

TRANSNATIONAL ISSUES

Disputes - international: none identified

BOUVET ISLAND

INTRODUCTION

Background: This uninhabited, volcanic, Antarctic island is almost entirely covered by glaciers making it difficult to approach; it is recognized as the most remote island on Earth. (It is furthest in distance from any other point of land, 1,639 km from Antarctica.) Bouvet Island was discovered in 1739 by a French naval officer after whom it is named. No claim was made until 1825, when the British flag was raised. A few expeditions visited the island in the late 19th century. In 1929, the UK waived its claim in favor of Norway, which had occupied the island two years previously. In 1971, Norway designated Bouvet Island and the adjacent territorial waters a nature reserve. Since 1977, Norway has run an automated meteorological station and studied foraging strategies and distribution of fur seals and penguins on the island. In February 2006, an earthquake weakened the station's foundation causing it to be blown out to sea in a winter storm. Norway erected a new research station in 2014 that can hold six people for periods of two to four months.

GEOGRAPHY

Location: island in the South Atlantic Ocean, southwest of the Cape of Good Hope (South Africa)

Geographic coordinates: 54 26 S, 3 24 E

Map references: Antarctic Region

Area: *total:* 49 sq km

land: 49 sq km

water: 0 sq km

country comparison to the world: 232

Area - comparative: about 0.3 times the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 29.6 km

Maritime claims: *territorial sea:* 4 nm

Climate: antarctic

Terrain: volcanic; coast is mostly inaccessible

Elevation: *highest point:* Olavtoppen (Olav Peak) 780 m

lowest point: South Atlantic Ocean 0 m

Natural resources: none

Land use: *agricultural land:* 0% (2018 est.)

arable land: 0% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 0% (2018 est.)

other: 100% (2018 est.)

Natural hazards: occasional volcanism, rock slides; harsh climate, surrounded by pack ice in winter

Geography - note: almost entirely covered by glacial ice (93%); declared a nature reserve by Norway; the distance from Bouvet Island to

Norway is 12,776 km, which is almost one-third the circumference of the earth

PEOPLE AND SOCIETY

Population: uninhabited

ENVIRONMENT

Environment - current issues: none; almost entirely ice covered

Climate: antarctic

Land use: *agricultural land:* 0% (2018 est.)

arable land: 0% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 0% (2018 est.)

Disputes - international: none identified

BRAZIL

INTRODUCTION

Background: Following more than three centuries under Portuguese rule, Brazil gained its independence in 1822, maintaining a monarchical system of government until the abolition of slavery in 1888 and the subsequent proclamation of a republic by the military in 1889. Brazilian coffee exporters politically dominated the country until populist leader Getulio VARGAS rose to power in 1930. VARGAS governed over various versions of democratic and authoritarian regimes from 1930 to 1945. Democratic rule returned (including a democratically elected VARGAS administration from 1951 to 1955) and lasted until 1964, when the military overthrew President Joao GOULART. The military regime censored journalists and repressed and tortured dissidents in the late 1960s and early 1970s. The dictatorship lasted until 1985, when the military regime peacefully ceded power to civilian rulers, and the Brazilian Congress passed its current constitution in 1989.

By far the largest and most populous country in South America, Brazil continues to pursue industrial and agricultural growth and development of its interior. Having successfully weathered a period of global financial difficulty in the late 20th century, under President Luiz Inacio LULA da Silva (2003-2010) Brazil was seen as one of the world's strongest emerging markets and a contributor to global growth. The awarding of the 2014 FIFA World Cup and 2016 Summer Olympic Games, the first ever to be held in South America, was symbolic of the country's rise. However, from about 2013 to 2016, Brazil was plagued by a sagging economy, high unemployment, and high inflation, only emerging from recession in 2017. Former President Dilma ROUSSEFF (2011-2016) was removed from office in 2016 by Congress for having committed impeachable acts against Brazil's budgetary laws, and her vice president, Michel TEMER, served the remainder of her second term. A money-laundering investigation, Operation Lava Jato, uncovered a vast corruption scheme and prosecutors charged several high-profile Brazilian politicians with crimes. Former-President LULA was convicted of accepting bribes and served jail time (2018-19), although his conviction

was overturned in early 2021. LULA's revival became complete in October 2022 when he narrowly defeated incumbent Jair BOLSONARO (2019-2022) in the presidential election. LULA will assume the office on 1 January 2023.

GEOGRAPHY

Location: Eastern South America, bordering the Atlantic Ocean

Geographic coordinates: 10 00 S, 55 00 W

Map references: South America

Area: *total:* 8,515,770 sq km

land: 8,358,140 sq km

water: 157,630 sq km

note: includes Arquipelago de Fernando de Noronha, Atol das Rocas, Ilha da Trindade, Ilhas Martin Vaz, and Penedos de Sao Pedro e Sao Paulo

country comparison to the world: 6

Area - comparative: slightly smaller than the US

Land boundaries: *total:* 16,145 km

border countries (10): Argentina 1,263 km; Bolivia 3,403 km; Colombia 1,790 km; French Guiana 649 km; Guyana 1,308 km; Paraguay 1,371 km; Peru 2,659 km; Suriname 515 km; Uruguay 1,050 km; Venezuela 2,137 km

Coastline: 7,491 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

continental shelf: 200 nm or to edge of the continental margin

Climate: mostly tropical, but temperate in south

Terrain: mostly flat to rolling lowlands in north; some plains, hills, mountains, and narrow coastal belt

Elevation: *highest point:* Pico da Neblina 2,994 m

lowest point: Atlantic Ocean 0 m

mean elevation: 320 m

Natural resources: alumina, bauxite, beryllium, gold, iron ore, manganese, nickel, niobium, phosphates, platinum, tantalum, tin, rare

earth elements, uranium, petroleum, hydropower, timber

Land use: *agricultural land:* 32.9% (2018 est.)

arable land: 8.6% (2018 est.)

permanent crops: 0.8% (2018 est.)

permanent pasture: 23.5% (2018 est.)

forest: 61.9% (2018 est.)

other: 5.2% (2018 est.)

Irrigated land: 54,000 sq km (2012)

Major lakes (area sq km): *fresh water lake(s):* Lagoa dos Patos - 10,140 sq km

salt water lake(s): Lagoa Mirim (shared with Uruguay) - 2,970 sq km

Major rivers (by length in km): Amazon river mouth (shared with Peru [s]) - 6,400 km; Rio de la Plata/Parana river source (shared with Paraguay, Argentina, and Uruguay [m]) - 4,880 km; Tocantins - 3,650 km; Sao Francisco - 3,180 km; Paraguay river source (shared with Argentina and Paraguay [m]) - 2,549 km; Rio Negro river mouth (shared with Colombia [s] and Venezuela) - 2,250 km; Uruguay river source (shared with Argentina and Uruguay [m]) - 1,610 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Amazon (6,145,186 sq km), Orinoco (953,675 sq km), Paraná (2,582,704 sq km), São Francisco (617,814 sq km), Tocantins (764,213 sq km)

Major aquifers: Amazon Basin, Guarani Aquifer System, Maranhao Basin

Population distribution: the vast majority of people live along, or relatively near, the Atlantic coast in the east; the population core is in the southeast, anchored by the cities of Sao Paulo, Brasilia, and Rio de Janeiro

Natural hazards: recurring droughts in northeast; floods and occasional frost in south

Geography - note: *note 1:* largest country in South America and in the Southern Hemisphere; shares common boundaries with every South American country except Chile and Ecuador; most of the Pantanal, the world's largest tropical wetland, extends through the west central part of the country; shares Iguazu Falls, the world's largest waterfalls system, with Argentina

note 2: cassava (manioc) the sixth most important food crop in the world - after maize, rice, wheat, potatoes, and soybeans - seems to have originated in the west-central part of Brazil; pineapples are probably indigenous to the southern Brazil-Paraguay region

note 3: Rocas Atoll, located off the northeast coast of Brazil, is the only atoll in the South Atlantic.

Rocas Atoll:

PEOPLE AND SOCIETY

Population: 217,240,060 (2022 est.)

country comparison to the world: 7

Nationality: *noun:* Brazilian(s)

adjective: Brazilian

Ethnic groups: White 47.7%, mixed 43.1%, Black 7.6%, Asian 1.1%, Indigenous 0.4% (2010 est.)

Languages: Portuguese (official and most widely spoken language); note - less common languages include Spanish (border areas and schools), German, Italian, Japanese, English, and a large number of minor Amerindian languages

major-language sample(s): O Livro de Fatos Mundiais, a fonte indispensável para informação básica. (Brazilian Portuguese)

Religions: Roman Catholic 64.6%, other Catholic 0.4%, Protestant 22.2% (includes Adventist 6.5%, Assembly of God 2.0%, Christian Congregation of Brazil 1.2%, Universal Kingdom of God 1.0%, other Protestant 11.5%), other Christian 0.7%, Spiritist 2.2%, other 1.4%, none 8%, unspecified 0.4% (2010 est.)

Demographic profile: Brazil's rapid fertility decline since the 1960s is the main factor behind the country's slowing population growth rate, aging population, and fast-paced demographic transition. Brasilia has not taken full advantage of its large working-age population to develop its human capital and strengthen its social and economic institutions but is funding a study abroad program to bring advanced skills back to the country. The current favorable age structure will begin to shift around 2025, with the labor force shrinking and the elderly starting to compose an increasing share of the total population. Well-funded public pensions have nearly wiped out poverty among the elderly, and Bolsa Familia and other social programs have lifted tens of millions out of poverty. More than half of Brazil's population is considered middle class, but poverty and income inequality levels remain high; the Northeast, North, and

Center-West, women, and black, mixed race, and indigenous populations are disproportionately affected. Disparities in opportunities foster social exclusion and contribute to Brazil's high crime rate, particularly violent crime in cities and favelas (slums).

Brazil has traditionally been a net recipient of immigrants, with its southeast being the prime destination. After the importation of African slaves was outlawed in the mid-19th century, Brazil sought Europeans (Italians, Portuguese, Spaniards, and Germans) and later Asians (Japanese) to work in agriculture, especially coffee cultivation. Recent immigrants come mainly from Argentina, Chile, and Andean countries (many are unskilled illegal migrants) or are returning Brazilian nationals. Since Brazil's economic downturn in the 1980s, emigration to the United States, Europe, and Japan has been rising but is negligible relative to Brazil's total population. The majority of these emigrants are well-educated and middle-class. Fewer Brazilian peasants are emigrating to neighboring countries to take up agricultural work.

Age structure: 0-14 years: 21.11% (male 22,790,634/female 21,907,018)

15-24 years: 16.06% (male 17,254,363/female 16,750,581)

25-54 years: 43.83% (male 46,070,240/female 46,729,640)

55-64 years: 9.78% (male 9,802,995/female 10,911,140)

65 years and over: 9.21% (male 8,323,344/female 11,176,018) (2020 est.)

Dependency ratios: total dependency ratio: 43.5

youth dependency ratio: 29.7

elderly dependency ratio: 13.8

potential support ratio: 7.3 (2020 est.)

Median age: total: 33.2 years

male: 32.3 years

female: 34.1 years (2020 est.)

country comparison to the world: 101

Population growth rate: 0.7% (2022 est.)

country comparison to the world: 128

Birth rate: 13.96 births/1,000 population (2022 est.)

country comparison to the world: 127

Death rate: 6.81 deaths/1,000 population (2022 est.)

country comparison to the world: 125

Net migration rate: -0.19 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 109

Population distribution: the vast majority of people live along, or relatively near, the Atlantic coast in the east; the population core is in the southeast, anchored by the cities of Sao Paulo, Brasilia, and Rio de Janeiro

Urbanization: *urban population:* 87.6% of total population (2022)

rate of urbanization: 0.87% annual rate of change (2020-25 est.)

Major urban areas - population: 22.430 million Sao Paulo, 13.634 million Rio de Janeiro, 6.194 million Belo Horizonte, 4.804 million BRASILIA (capital), 4.220 million Recife, 4.185 million Porto Alegre (2022)

Sex ratio: *at birth:* 1.05 male(s)/female

0-14 years: 1.04 male(s)/female

15-24 years: 1.03 male(s)/female

25-54 years: 0.98 male(s)/female

55-64 years: 0.9 male(s)/female

65 years and over: 0.58 male(s)/female

total population: 0.97 male(s)/female (2022 est.)

Maternal mortality ratio: 60 deaths/100,000 live births (2017 est.)

country comparison to the world: 88

Infant mortality rate: *total:* 13.31 deaths/1,000 live births

male: 14.75 deaths/1,000 live births

female: 11.8 deaths/1,000 live births (2022 est.)

country comparison to the world: 109

Life expectancy at birth: *total population:* 75.92 years

male: 72.5 years

female: 79.5 years (2022 est.)

country comparison to the world: 112

Total fertility rate: 1.8 children born/woman (2022 est.)

country comparison to the world: 144

Contraceptive prevalence rate: 80.5% (2019)

Drinking water source: *improved: urban:* 99.8% of population

rural: 96.9% of population

total: 99.4% of population

unimproved: urban: 0.2% of population

rural: 3.1% of population

total: 0.6% of population (2020 est.)

Current health expenditure: 9.6% of GDP (2019)

Physicians density: 2.31 physicians/1,000 population (2019)

Hospital bed density: 2.1 beds/1,000 population (2017)

Sanitation facility access: *improved: urban:* 94.1% of population

rural: 63.6% of population

total: 90.2% of population

unimproved: urban: 5.9% of population

rural: 36.4% of population

total: 9.8% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 0.6% (2020 est.)

country comparison to the world: 57

Major infectious diseases: *degree of risk:* very high (2020)

food or waterborne diseases: bacterial diarrhea and hepatitis A

vectorborne diseases: dengue fever and malaria

water contact diseases: schistosomiasis

note: widespread ongoing transmission of a respiratory illness caused by the novel coronavirus (COVID-19) is occurring throughout Brazil; as of 18 August 2022, Brazil has reported a total of 34,201,280 cases of COVID-19 or 16,090.22 cumulative cases of COVID-19 per 100,000 population with a total of 681,763 cumulative deaths or a rate 320.74

cumulative deaths per 100,000 population; as of 17 August 2022, 86.79% of the population has received at least one dose of COVID-19 vaccine

Obesity - adult prevalence rate: 22.1% (2016)

country comparison to the world: 82

Alcohol consumption per capita: *total:* 6.12 liters of pure alcohol (2019 est.)

beer: 3.84 liters of pure alcohol (2019 est.)

wine: 0.24 liters of pure alcohol (2019 est.)

spirits: 2 liters of pure alcohol (2019 est.)

other alcohols: 0.04 liters of pure alcohol (2019 est.)

country comparison to the world: 68

Tobacco use: *total:* 12.8% (2020 est.)

male: 16.2% (2020 est.)

female: 9.4% (2020 est.)

country comparison to the world: 118

Education expenditures: 6.1% of GDP (2018 est.)

country comparison to the world: 31

Literacy: *definition:* age 15 and over can read and write

total population: 93.2%

male: 93%

female: 93.4% (2018)

School life expectancy (primary to tertiary education): *total:* 16 years

male: 15 years

female: 16 years (2019)

Unemployment, youth ages 15-24: *total:* 31.3%

male: 27.5%

female: 36.3% (2020 est.)

ENVIRONMENT

Environment - current issues: deforestation in Amazon Basin destroys the habitat and endangers a multitude of plant and animal species indigenous to the area; illegal wildlife trade; illegal poaching; air and water pollution in Rio de Janeiro, Sao Paulo, and several other large cities; land degradation and water pollution caused by improper mining activities; wetland degradation; severe oil spills

Environment - international agreements: *party to:* Antarctic-Environmental Protection, Antarctic-Marine Living Resources, Antarctic Seals, Antarctic Treaty, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands, Whaling
signed, but not ratified: Marine Dumping-London Protocol

Air pollutants: *particulate matter emissions:* 11.49 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 462.3 megatons (2016 est.)

methane emissions: 401.83 megatons (2020 est.)

Climate: mostly tropical, but temperate in south

Land use: *agricultural land:* 32.9% (2018 est.)

arable land: 8.6% (2018 est.)

permanent crops: 0.8% (2018 est.)

permanent pasture: 23.5% (2018 est.)

forest: 61.9% (2018 est.)

other: 5.2% (2018 est.)

Urbanization: *urban population:* 87.6% of total population (2022)

rate of urbanization: 0.87% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.62% of GDP

(2018 est.)

country comparison to the world: 61

Revenue from coal: *coal revenues:* 0.01% of GDP (2018 est.)

country comparison to the world: 46

Waste and recycling: *municipal solid waste generated annually:* 79,889,010 tons (2015 est.)

municipal solid waste recycled annually: 1,118,446 tons (2014 est.)

percent of municipal solid waste recycled: 1.4% (2014 est.)

Major lakes (area sq km): *fresh water lake(s):* Lagoa dos Patos - 10,140 sq km

salt water lake(s): Lagoa Mirim (shared with Uruguay) - 2,970 sq km

Major rivers (by length in km): Amazon river mouth (shared with Peru [s]) - 6,400 km; Rio de la Plata/Parana river source (shared with Paraguay, Argentina, and Uruguay [m]) - 4,880 km; Tocantins - 3,650 km; Sao Francisco - 3,180 km; Paraguay river source (shared with Argentina and Paraguay [m]) - 2,549 km; Rio Negro river mouth (shared with Colombia [s] and Venezuela) - 2,250 km; Uruguay river source (shared with Argentina and Uruguay [m]) - 1,610 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Amazon (6,145,186 sq km), Orinoco (953,675 sq km), Paraná (2,582,704 sq km), São Francisco (617,814 sq km), Tocantins (764,213 sq km)

Major aquifers: Amazon Basin, Guarani Aquifer System, Maranhao Basin

Total water withdrawal: *municipal:* 16.74 billion cubic meters (2017 est.)

industrial: 9.511 billion cubic meters (2017 est.)

agricultural: 39.43 billion cubic meters (2017 est.)

Total renewable water resources: 8.647 trillion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Federative Republic of Brazil

conventional short form: Brazil

local long form: Republica Federativa do Brasil

local short form: Brasil

etymology: the country name derives from the brazilwood tree that used to grow plentifully along the coast of Brazil and that was used to produce a deep red dye

Government type: federal presidential republic

Capital: *name:* Brasilia

geographic coordinates: 15 47 S, 47 55 W

time difference: UTC-3 (2 hours ahead of Washington, DC, during Standard Time)

time zone note: Brazil has four time zones, including one for the Fernando de Noronha Islands

etymology: name bestowed on the new capital of Brazil upon its inauguration in 1960; previous Brazilian capitals had been Salvador from 1549 to 1763 and Rio de Janeiro from 1763 to 1960

Administrative divisions: 26 states (estados, singular - estado) and 1 federal district* (distrito federal); Acre, Alagoas, Amapa, Amazonas, Bahia, Ceara, Distrito Federal*, Espirito Santo, Goias, Maranhao, Mato Grosso, Mato Grosso do Sul, Minas Gerais, Para, Paraiba, Parana, Pernambuco, Piaui, Rio de Janeiro, Rio Grande do Norte, Rio Grande do Sul, Rondonia, Roraima, Santa Catarina, Sao Paulo, Sergipe, Tocantins

Independence: 7 September 1822 (from Portugal)

National holiday: Independence Day, 7 September (1822)

Constitution: *history:* several previous; latest ratified 5 October 1988

amendments: proposed by at least one third of either house of the National Congress, by the president of the republic, or by simple majority vote by more than half of the state legislative assemblies; passage requires

at least three-fifths majority vote by both houses in each of two readings; constitutional provisions affecting the federal form of government, separation of powers, suffrage, or individual rights and guarantees cannot be amended; amended many times, last in 2021

Legal system: civil law; note - a new civil law code was enacted in 2002 replacing the 1916 code

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* yes

citizenship by descent only: yes

dual citizenship recognized: yes

residency requirement for naturalization: 4 years

Suffrage: voluntary between 16 to 18 years of age, over 70, and if illiterate; compulsory between 18 to 70 years of age; note - military conscripts by law cannot vote

Executive branch: *chief of state:* President Jair BOLSONARO (since 1 January 2019); Vice President Antonio Hamilton Martins MOURAO (since 1 January 2019); note - the president is both chief of state and head of government

head of government: President Jair BOLSONARO (since 1 January 2019); Vice President Antonio Hamilton Martins MOURAO (since 1 January 2019)

cabinet: Cabinet appointed by the president

elections/appointments: president and vice president directly elected on the same ballot by absolute majority popular vote in 2 rounds if needed for a single 4-year term (eligible for an immediate second term, and additional terms after a one-term break); election last held on 2 October 2022 with runoff on 30 October 2022 (next to be held on 4 October 2026)

election results:

2022: Luiz Inacio LULA da Silva elected president in second round; percent of vote in first round - Luiz Inacio LULA da Silva (PT) 48.4%, Jair BOLSONARO (PSL) 43.2%, Simone TEBET (MDB) 4.2%, Ciro

GOMES (PDT) 3%, other 1.2%; percent of vote in second round - Luiz Inacio LULA da Silva (PT) 50.9%, Jair BOLSONARO (PSL) 49.1%; note - LULA will take office 1 January 2023

2018: Jair BOLSONARO elected president in second round; percent of vote in first round - Jair BOLSONARO (PSL) 46%, Fernando HADDAD (PT) 29.3%, Ciro GOMEZ (PDT) 12.5%, Geraldo ALCKMIN (PSDB) 4.8%, other 7.4%; percent of vote in second round - Jair BOLSONARO (PSL) 55.1%, Fernando HADDAD (PT) 44.9%

2014: Dilma ROUSSEFF reelected president in second round; percent of vote in second round - Dilma ROUSSEFF (PT) 51.6%, Aecio NEVES (PSDB) 48.4%; note - on 12 May 2016, Brazil's Senate voted to hold an impeachment trial of President Dilma ROUSSEFF, who was then suspended from her executive duties; Vice President Michel TEMER took over as acting president; on 31 August 2016 the Senate voted 61-20 in favor of conviction and her removal from office; TEMER served as president for the remainder of ROUSSEFF's term, which ended 1 January 2019

Legislative branch: *description:* bicameral National Congress or Congresso Nacional consists of:

Federal Senate or Senado Federal (81 seats; 3 members each from 26 states and 3 from the federal district directly elected in multi-seat constituencies by simple majority vote to serve 8-year terms, with one-third and two-thirds of the membership elected alternately every 4 years) Chamber of Deputies or Camara dos Deputados (513 seats; members directly elected in multi-seat constituencies by party-list proportional representation vote to serve 4-year terms)

elections:

Federal Senate - last held on 2 October 2022 for one-third of the Senate (next to be held on 4 October 2026 for two-thirds of the Senate) Chamber of Deputies - last held on 2 October 2022 (next to be held on 4 October 2026)

election results:

Federal Senate - percent of vote by party - NA; seats by party - PL 8, Brazil Union 5, PT 4, Progressistas 3, PSD 2, Republican 2, MBD 1, PSB

1, PSC 1; note - complete Federal Senate composition after 2022 election - PL 13, Brazil Union 12, MDB 10, PSD 10, PT 9, Progressistas 7, Podemos 6, PSDB 4, Republicans 3, PDT 2, Cidadania 1, PSB 1, PSC 1, PROS 1, REDE 1

Chamber of Deputies - percent of vote by party - NA; seats by party - PL 99, PT 67, Brazil Union 59, PP 47, MDB 42, PSD 42, Republicans 41, PDT 17, PSB 14, PSDB 13, Podemos 12, PSOL 12, Avante 7, PCdoB 6, PSC 6, PV 6, Cidadania 5, Patriota 4, PROS 4, SD 4, NOVO 3, REDE 2, PTB 1

Judicial branch: *highest court(s)*: Supreme Federal Court or Supremo Tribunal Federal (consists of 11 justices)

judge selection and term of office: justices appointed by the president and approved by the Federal Senate; justices appointed to serve until mandatory retirement at age 75

subordinate courts: Tribunal of the Union, Federal Appeals Court, Superior Court of Justice, Superior Electoral Court, regional federal courts; state court system

Political parties and leaders: Act (Agir) [Daniel TOURINHO] (formerly Christian Labor Party or PTC)

Avante [Luis Henrique de Oliveira RESENDE] (formerly Labor Party of Brazil or PTdoB)

Brazil Union (Uniao Brasil); note - founded from a merger between the Democrats (DEM) and the Social Liberal Party (PSL)

Brazilian Communist Party or PCB [Astrogildo PEREIRA]

Brazilian Democratic Movement or MDB [Luiz Felipe Baleia TENUTO Rossi]

Brazilian Labor Party or PTB [Kassyo Santos RAMOS]

Brazilian Renewal Labor Party or PRTB [Aiceia RODRIGUES and Hamilton MOURAO]

Brazilian Labor Party or PTB

Brazilian Social Democracy Party or PSDB [Bruno ARAUJO]

Brazilian Socialist Party or PSB [Carlos Roberto SIQUEIRA de Barros]

Christian Democracy or DC [Jose Maria EYMAEL] (formerly Christian

Social

Cidadania [Roberto Joao Pereira FREIRE] (formerly Popular Socialist Party or PPS)

Communist Party of Brazil or PCdoB [Luciana SANTOS]

Democratic Labor Party or PDT [Carlos LUPI]

Democratic Party or PSDC

Democrats or DEM [Jose AGRIPINO] (formerly Liberal Front Party or PFL); note - dissolved in February 2022

Green Party or PV [Jose Luiz PENNA]

Liberal Party or PL [Luciano BIVAR and Antonio de RUEDA] (formerly Party of the Republic or PR)

National Mobilization Party or PMN [Antonio Carlos Bosco MASSAROLLO]

New Party or NOVO [Eduardo RIBEIRO]

Patriota [Adilson BAROSSO Oliveira] (formerly National Ecologic Party or PEN)

Podemos [Renata ABREU] (formerly National Labor Party or PTN)

Progressive Party (Progressistas) or PP [Ciro NOGUEIRA]

Republican Social Order Party or PROS [Euripedes JUNIOR]

Republicans (Republicanos) [Marcos Antonio PEREIRA] (formerly Brazilian Republican Party or PRB)

Social Christian Party or PSC [Everaldo Dias PEREIRA]

Social Democratic Party or PSD [Alfredo COATIT Neto]

Social Liberal Party or PSL [Luciano Caldas BIVAR]

Socialism and Freedom Party or PSOL [Juliano MEDEIROS]

Solidarity or SD [Paulinho DA FORÇA]

Sustainability Network or REDE [Marina SILVA]

United Socialist Workers' Party or PSTU [Jose Maria DE ALMEIDA]

Workers' Cause Party or PCO [Rui Costa PIMENTA]

Workers' Party or PT [Gleisi HOFFMANN]

International organization participation: AfDB (nonregional member), BIS, BRICS, CAN (associate), CD, CELAC, CPLP, FAO, FATF, G-15, G-20, G-24, G-5, G-77, IADB, IAEA, IBRD, ICAO, ICC (national committees), ICCT, ICRM, IDA, IFAD, IFC, IFRCS, IHO, ILO,

consulate(s) general: Recife, Porto Alegre, Rio de Janeiro, Sao Paulo

branch office(s): Belo Horizonte

Flag description: green with a large yellow diamond in the center bearing a blue celestial globe with 27 white five-pointed stars; the globe has a white equatorial band with the motto ORDEM E PROGRESSO

(Order and Progress); the current flag was inspired by the banner of the former Empire of Brazil (1822-1889); on the imperial flag, the green represented the House of Braganza of Pedro I, the first Emperor of Brazil, while the yellow stood for the Habsburg Family of his wife; on the modern flag the green represents the forests of the country and the yellow rhombus its mineral wealth (the diamond shape roughly mirrors that of the country); the blue circle and stars, which replaced the coat of arms of the original flag, depict the sky over Rio de Janeiro on the morning of 15 November 1889 - the day the Republic of Brazil was declared; the number of stars has changed with the creation of new states and has risen from an original 21 to the current 27 (one for each state and the Federal District)

note: one of several flags where a prominent component of the design reflects the shape of the country; other such flags are those of Bosnia and Herzegovina, Eritrea, and Vanuatu

National symbol(s): Southern Cross constellation; national colors: green, yellow, blue

National anthem: *name:* “Hino Nacional Brasileiro” (Brazilian National Anthem)

lyrics/music: Joaquim Osorio Duque ESTRADA/Francisco Manoel DA SILVA

note: music adopted 1890, lyrics adopted 1922; the anthem’s music, composed in 1822, was used unofficially for many years before it was adopted

National heritage: *total World Heritage Sites:* 23 (15 cultural, 7 natural, 1 mixed)

selected World Heritage Site locales: Brasilia (c); Historic Salvador de Bahia (c); Historic Ouro Preto (c); Historic Olinda (c); Iguaçu National Park (n); Jesuit Missions of the Guaranis (c); Rio de Janeiro: Carioca Landscapes (c); Central Amazon Conservation Complex (n); Atlantic Forest South-East Reserves (n); Paraty and Ilha Grande – Culture and Biodiversity (m)

ECONOMY

Economic overview: Brazil is the eighth-largest economy in the world, but is recovering from a recession in 2015 and 2016 that ranks as the worst in the country's history. In 2017, Brazil's GDP grew 1%, inflation fell to historic lows of 2.9%, and the Central Bank lowered benchmark interest rates from 13.75% in 2016 to 7%.

The economy has been negatively affected by multiple corruption scandals involving private companies and government officials, including the impeachment and conviction of Former President Dilma ROUSSEFF in August 2016. Sanctions against the firms involved — some of the largest in Brazil — have limited their business opportunities, producing a ripple effect on associated businesses and contractors but creating opportunities for foreign companies to step into what had been a closed market.

The succeeding TEMER administration has implemented a series of fiscal and structural reforms to restore credibility to government finances. Congress approved legislation in December 2016 to cap public spending. Government spending growth had pushed public debt to 73.7% of GDP at the end of 2017, up from over 50% in 2012. The government also boosted infrastructure projects, such as oil and natural gas auctions, in part to raise revenues. Other economic reforms, proposed in 2016, aim to reduce barriers to foreign investment, and to improve labor conditions. Policies to strengthen Brazil's workforce and industrial sector, such as local content requirements, have boosted employment, but at the expense of investment.

Brazil is a member of the Common Market of the South (Mercosur), a trade bloc that includes Argentina, Paraguay and Uruguay - Venezuela's membership in the organization was suspended In August 2017. After the Asian and Russian financial crises, Mercosur adopted a protectionist stance to guard against exposure to volatile foreign markets and it currently is negotiating Free Trade Agreements with the European Union and Canada.

Real GDP (purchasing power parity): \$2,989,430,000,000 (2020 est.)

\$3,115,910,000,000 (2019 est.)

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 30,653,813 (2020 est.)
subscriptions per 100 inhabitants: 14 (2020 est.)
country comparison to the world: 7

Telephones - mobile cellular: *total subscriptions:* 205,834,781 (2020 est.)
subscriptions per 100 inhabitants: 97 (2020 est.)
country comparison to the world: 6

Telecommunication systems: *general assessment:* Brazil is one of the largest mobile and broadband markets in Latin America with healthy competition and pricing; the development of 5G, was scheduled for March 2020 but was delayed due to interference issues with satellite TV broadcasts and the pandemic; the auction was completed November 2021; the licenses are obliged to provide 5G services to all capital cities by July 2022, as well as about 35,500km of the national highway network; the country also has one of the largest fixed line broadband markets in Latin America, though broadband subscriptions is only slightly above the regional average, trailing behind Chile, Argentina, and Uruguay; amendments to the licensing regime adopted in October 2019 also require that ISPs which have switched to authorizations invest money saved from lighter regulations in the expansion of broadband services; the fixed line broadband market has seen rapid growth for a number of years, with a growing focus on fiber broadband; in 2019 the number of fiber accesses overtook DSL connections; the country is a key landing point for a number of important submarine cables connecting to the US, Central and South America, the Caribbean, Europe, and Africa; several new cable systems are due to come into service through to 2022, which will increase bandwidth and push down broadband prices for end-users; investments have also been made into terrestrial fiber cables between Brazil, Argentina, and Chile (2021)

domestic: fixed-line connections stand at roughly 14 per 100 persons; less-expensive mobile-cellular technology has been a major impetus

broadening telephone service to the lower-income segments of the population with mobile-cellular teledensity roughly 97 per 100 persons (2020)

international: country code - 55; landing points for a number of submarine cables, including Malbec, ARBR, Tamnat, SAC, SAM-1, Atlantis -2, Seabras-1, Monet, EllaLink, BRUSA, GlobeNet, AMX-1, Brazilian Festoon, Bicentenario, Unisur, Junior, Americas -II, SAE x1, SAIL, SACS and SABR that provide direct connectivity to South and Central America, the Caribbean, the US, Africa, and Europe; satellite earth stations - 3 Intelsat (Atlantic Ocean), 1 Inmarsat (Atlantic Ocean region east), connected by microwave relay system to Mercosur Brazilsat B3 satellite earth station; satellites is a major communication platform, as it is almost impossible to lay fiber optic cable in the thick vegetation (2019)

Broadcast media: state-run Radiobras operates a radio and a TV network; more than 1,000 radio stations and more than 100 TV channels operating - mostly privately owned; private media ownership highly concentrated (2022)

Internet country code: .br

Internet users: *total:* 172,173,121 (2020 est.)

percent of population: 81% (2020 est.)

country comparison to the world: 4

Broadband - fixed subscriptions: *total:* 36,344,670 (2020 est.)

subscriptions per 100 inhabitants: 17 (2020 est.)

country comparison to the world: 4

TRANSPORTATION

National air transport system: *number of registered air carriers:* 9 (2020)

inventory of registered aircraft operated by air carriers: 443

annual passenger traffic on registered air carriers: 102,109,977 (2018)

annual freight traffic on registered air carriers: 1,845,650,000 (2018) mt-km

Civil aircraft registration country code prefix: PP

Airports: *total:* 4,093 (2021)

Airports - with unpaved runways: *total:* 3,395

1,524 to 2,437 m: 92

914 to 1,523 m: 1,619

under 914 m: 1,684 (2021)

Heliports: 13 (2021)

Pipelines: 5,959 km refined petroleum product (1,165 km distribution, 4,794 km transport), 11,696 km natural gas (2,274 km distribution, 9,422 km transport), 1,985 km crude oil (distribution), 77 km ethanol/petrochemical (37 km distribution, 40 km transport) (2016)

Railways: *total:* 29,849.9 km (2014)

standard gauge: 194 km (2014) 1.435-m gauge

narrow gauge: 23,341.6 km (2014) 1.000-m gauge (24 km electrified)

broad gauge: 5,822.3 km (2014) 1.600-m gauge (498.3 km electrified)

dual gauge: 492 km (2014) 1.600-1.000-m gauge

country comparison to the world: 9

Roadways: *total:* 2 million km (2018)

paved: 246,000 km (2018)

unpaved: 1.754 million km (2018)

country comparison to the world: 4

Waterways: 50,000 km (2012) (most in areas remote from industry and population)

country comparison to the world: 2

Merchant marine: *total:* 864

by type: bulk carrier 11, container ship 19, general cargo 42, oil tanker 31, other 761 (2021)

country comparison to the world: 27

Ports and terminals: *major seaport(s):* Belem, Itajai, Paranagua, Rio Grande, Rio de Janeiro, Santos, Sao Sebastiao, Tubarao

oil terminal(s): DTSE/Gegua oil terminal, Ilha Grande (Gebig), Guaiba Island terminal, Guamare oil terminal

container port(s) (TEUs): Itajai (1,223,262), Paranagua (865,110), Santos (4,165,248) (2019)

LNG terminal(s) (import): Pecem, Rio de Janeiro

river port(s): Manaus (Amazon)

dry bulk cargo port(s): Sepetiba ore terminal, Tubarao

MILITARY AND SECURITY

Military and security forces: Brazilian Armed Forces (Forças Armadas Brasileiras): Brazilian Army (Exercito Brasileiro, EB), Brazilian Navy (Marinha do Brasil, MB, includes Naval Aviation (Aviacao Naval Brasileira) and Marine Corps (Corpo de Fuzileiros Navais)), Brazilian Air Force (Forca Aerea Brasileira, FAB) (2022)

Military expenditures: 1.3% of GDP (2021 est.)

1.4% of GDP (2020)

1.4% of GDP (2019) (approximately \$35.6 billion)

1.5% of GDP (2018) (approximately \$36 billion)

1.4% of GDP (2017) (approximately \$34.4 billion)

country comparison to the world: 102

Military and security service personnel strengths: approximately 360,000 active military personnel (220,000 Army; 70,000 Navy; 70,000 Air Force) (2022)

Military equipment inventories and acquisitions: the Brazilian military's inventory consists of a mix of domestically-produced and imported weapons, largely from Europe and the US; since 2010, the US and several European countries are the leading suppliers of military equipment to Brazil; Brazil's defense industry is capable of designing and manufacturing equipment for all three military services and for export; it also jointly produces equipment with other countries (2022)

Military service age and obligation: 18-45 years of age for compulsory military service for men (women exempted); only 5-10% of those inducted are required to serve; conscript service obligation is 10-12 months; 17-45 years of age for voluntary service (2022)

note: in 2020, women comprised approximately 9% of the Brazilian military

Military - note: the origins of Brazil's military stretch back to the 1640s the three national police forces – the Federal Police, Federal Highway Police, and Federal Railway Police – have domestic security

responsibilities and report to the Ministry of Justice and Public Security (Ministry of Justice); there are two distinct units within the state police forces: the civil police, which performs an investigative role, and the military police, charged with maintaining law and order in the states and the Federal District; despite the name, military police forces report to the Ministry of Justice, not the Ministry of Defense; the National Public Security Force (Força Nacional de Segurança Pública or SENASP) is a national police force made up of Military Police from various states; the armed forces also have some domestic security responsibilities and report to the Ministry of Defense

Brazil has Major Non-NATO Ally (MNNA) status with the US; MNNA is a designation under US law that provides foreign partners with certain benefits in the areas of defense trade and security cooperation; while MNNA status provides military and economic privileges, it does not entail any security commitments (2022)

Maritime threats: the International Maritime Bureau reports the territorial waters of Brazil are a risk for armed robbery against ships; in 2021, three attacks against commercial vessels were reported, a decrease from the seven attacks in 2020; all of these occurred in the port of Macapá while ships were berthed or at anchor

TERRORISM

Terrorist group(s): Hizballah (2022)

TRANSNATIONAL ISSUES

Disputes - international: *Brazil-Bolivia:* The Roboré Accord of March 29, 1958 placed the long-disputed Isla Suárez/Ilha de Guajará-Mirim, a fluvial island on the Río Mamoré, between the two towns of Guajará-Mirim (Brazil) and Guayaramerin (Bolivia), under Bolivian administration but did not resolve the sovereignty dispute

Brazil-Colombia: Contraband smuggling (narcotics and arms), illegal migration, trafficking in animals, plants, lumber, illegal exploitation of mineral resources, Colombian (FARC) insurgent incursions in the area remain problematic issues.

Brazil-Uruguay: The uncontested boundary dispute between Brazil and Uruguay over over Arroyo de la Invernada triangle and sovereignty over Isla Brasilera leaves the tripoint with Argentina in question. Smuggling of firearms and narcotics continues to be an issue along the Uruguay-Brazil border.

Brazil-Venezuela: Colombian-organized illegal narcotics and paramilitary activities penetrate Brazil's border region with Venezuela.

Refugees and internally displaced persons: *refugees (country of origin):* 261,441 (Venezuela) (economic and political crisis; includes Venezuelans who have claimed asylum, are recognized as refugees, or received alternative legal stay) (2020)

IDPs: 21,000

stateless persons: 14 (mid-year 2021)

Illicit drugs: a significant transit and destination country for cocaine; most of the cocaine enters Brazil from neighboring producing countries Bolivia, Colombia, and Peru then goes to West Africa and Europe, but an increasing percentage feeds substantial domestic drug consumption; second-largest consumer of cocaine hydrochloride and cocaine-derivative products in the world

BRITISH INDIAN OCEAN TERRITORY

INTRODUCTION

Background: Formerly administered as part of the British Crown Colony of Mauritius, the British Indian Ocean Territory (BIOT) was established as an overseas territory of the UK in 1965. A number of the islands of the territory were later transferred to the Seychelles when it attained independence in 1976. Subsequently, BIOT has consisted only of the six main island groups comprising the Chagos Archipelago. Only Diego Garcia, the largest and most southerly of the islands, is inhabited. It contains a joint UK-US naval support facility and hosts one of four dedicated ground antennas that assist in the operation of the Global Positioning System (GPS) navigation system (the others are on Kwajalein (Marshall Islands), at Cape Canaveral, Florida (US), and on Ascension Island (Saint Helena, Ascension, and Tristan da Cunha)). The US Air Force also operates a telescope array on Diego Garcia as part of the Ground-Based Electro-Optical Deep Space Surveillance System (GEODSS) for tracking orbital debris, which can be a hazard to spacecraft and astronauts.

Between 1967 and 1973, former agricultural workers, earlier residents in the islands, were relocated primarily to Mauritius, but also to the Seychelles. Negotiations between 1971 and 1982 resulted in the establishment of a trust fund by the British Government as compensation for the displaced islanders, known as Chagossians. Beginning in 1998, the islanders pursued a series of lawsuits against the British Government seeking further compensation and the right to return to the territory. In 2006 and 2007, British court rulings invalidated the immigration policies contained in the 2004 BIOT Constitution Order that had excluded the islanders from the archipelago, but upheld the special military status of Diego Garcia. In 2008, the House of Lords, as the final court of appeal in the UK, ruled in favor of the British Government by overturning the lower court rulings and finding no right of return for the Chagossians. In March 2015, the Permanent Court of Arbitration unanimously held that the marine protected area that the UK declared around the Chagos Archipelago in April 2010 was in violation of the UN Convention on the

Law of the Sea.

In February 2019, the International Court of Justice ruled in an advisory opinion that Britain's decolonization of Mauritius was not completed lawfully because of continued Chagossian claims. A non-binding May 2019 UN General Assembly vote demanded that Britain end its "colonial administration" of the Chagos Archipelago and that it be returned to Mauritius. UK officials defend Britain's sovereignty over the islands and argue that the issue is a bilateral dispute between Mauritius and the UK that does not warrant international intervention.

GEOGRAPHY

Location: archipelago in the Indian Ocean, south of India, about halfway between Africa and Indonesia

Geographic coordinates: 6 00 S, 71 30 E;note - Diego Garcia 7 20 S, 72 25 E

Map references: Political Map of the World

Area: *total:* 60 sq km

land: 60 sq km (44 Diego Garcia)

water: 54,340 sq km

note: includes the entire Chagos Archipelago of 55 islands

Area - comparative: land area is about one-third the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 698 km

Maritime claims: *territorial sea:* 12 nm

Environment (Protection and Preservation) Zone: 200 nm

Climate: tropical marine; hot, humid, moderated by trade winds

Terrain: flat and low coral atolls (most areas do not exceed two m in elevation); sits atop the submarine volcanic Chagos- Laccadive Ridge

Elevation: *highest point:* ocean-side dunes on Diego Garcia 9 m

lowest point: Indian Ocean 0 m

Natural resources: coconuts, fish, sugarcane

Land use: *agricultural land:* 0% (2018 est.)

arable land: 0% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 0% (2018 est.)

other: 100% (2018 est.)

Natural hazards: none; located outside routes of Indian Ocean cyclones

Geography - note: *note 1:* archipelago of 55 islands; Diego Garcia, the largest and southernmost island, occupies a strategic location in the central Indian Ocean; the island is the site of a joint US-UK military facility

note 2: Diego Garcia is the only inhabited island of the BIOT and one of only two British territories where traffic drives on the right, the other being Gibraltar

PEOPLE AND SOCIETY

Population: no indigenous inhabitants

note: approximately 1,200 former agricultural workers resident in the Chagos Archipelago, often referred to as Chagossians or Ilois, were relocated to Mauritius and the Seychelles in the 1960s and 1970s; approximately 3,000 UK and US military personnel and civilian contractors living on the island of Diego Garcia (2018)

ENVIRONMENT

Environment - current issues: wastewater discharge into the lagoon on Diego Garcia

Climate: tropical marine; hot, humid, moderated by trade winds

Land use: *agricultural land:* 0% (2018 est.)

arable land: 0% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 0% (2018 est.)

forest: 0% (2018 est.)

other: 100% (2018 est.)

GOVERNMENT

Country name: *conventional long form:* British Indian Ocean Territory
conventional short form: none

abbreviation: BIOT

etymology: self-descriptive name specifying the territory's affiliation and location

Dependency status: overseas territory of the UK; administered by a commissioner, resident in the Foreign, Commonwealth, and Development Office in London

Legal system: the laws of the UK apply where applicable

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022)

head of government: Commissioner Paul CANDLER (since 8 July 2021); Administrator Kit PYMAN; note - both reside in the UK and are represented by Commander Steven R. DRYSDALE, RN, commanding British Forces on Diego Garcia (since 19 February 2021)

cabinet: NA

elections/appointments: the monarchy is hereditary; commissioner and administrator appointed by the monarch

International organization participation: UPU

Diplomatic representation in the US: none (overseas territory of the UK)

Diplomatic representation from the US: *embassy:* none (overseas territory of the UK)

Flag description: white with six blue wavy horizontal stripes; the flag of the UK is in the upper hoist-side quadrant; the striped section bears a palm tree and yellow crown (the symbols of the territory) centered on the outer half of the flag; the wavy stripes represent the Indian Ocean; although not officially described, the six blue stripes may stand for the six main atolls of the archipelago

National anthem: *note:* as an overseas territory of the United Kingdom, “God Save the King” is official (see United Kingdom)

ECONOMY

Economic overview: All economic activity is concentrated on the largest island of Diego Garcia, where a joint UK-US military facility is located. Construction projects and various services needed to support the military installation are performed by military and contract employees from the UK, Mauritius, the Philippines, and the US. Some of the natural resources found in this territory include coconuts, fish, and sugarcane.

Exchange rates: the US dollar is used

COMMUNICATIONS

Telecommunication systems: *general assessment:* separate facilities for military and public needs are available (2018)

domestic: all commercial telephone services are available, including connection to the Internet (2018)

international: country code (Diego Garcia) - 246; landing point for the SAFE submarine cable that provides direct connectivity to Africa, Asia and near-by Indian Ocean island countries; international telephone service is carried by satellite (2019)

Broadcast media: Armed Forces Radio and Television Service (AFRTS) broadcasts over 3 separate frequencies for US and UK military personnel stationed on the islands

Internet country code: .io

Communications - note: Diego Garcia hosts one of four dedicated ground antennas that assist in the operation of the Global Positioning System (GPS) navigation system (the others are on Kwajalein (Marshall Islands), at Cape Canaveral, Florida (US), and on Ascension Island (Saint Helena, Ascension, and Tristan da Cunha))

TRANSPORTATION

Airports: *total:* 1 (2021)

Airports - with paved runways: *total:* 1

over 3,047 m: 1 (2021)

Roadways: *note:* short section of paved road between port and airfield on Diego Garcia

Ports and terminals: *major seaport(s):* Diego Garcia

MILITARY AND SECURITY

Military and security forces: no regular military forces

Military - note: defense is the responsibility of the UK; in November 2016, the UK extended the US lease on Diego Garcia until December 2036

TRANSNATIONAL ISSUES

Disputes - international: Mauritius and Seychelles claim the Chagos Islands; negotiations between 1971 and 1982 resulted in the establishment of a trust fund by the British Government as compensation for the displaced islanders, known as Chagossians, who were evicted between 1967-73; in 2001, the former inhabitants of the archipelago were granted UK citizenship and the right of return; in 2006 and 2007, British court rulings invalidated the immigration policies contained in the 2004 BIOT Constitution Order that had excluded the islanders from the archipelago; in 2008, a House of Lords' decision overturned lower court rulings, once again denying the right of return to Chagossians; in addition, the UK created the world's largest marine protection area around the Chagos islands prohibiting the extraction of any natural resources therein

BRITISH VIRGIN ISLANDS

INTRODUCTION

Background: First inhabited by Arawak and later by Carib Indians, the Virgin Islands were settled by the Dutch in 1648 and then annexed by the English in 1672. The islands were part of the British colony of the Leeward Islands (1872-1960); they were granted autonomy in 1967. The economy is closely tied to the larger and more populous US Virgin Islands to the west; the US dollar is the legal currency. On 6 September 2017, Hurricane Irma devastated the island of Tortola. An estimated 80% of residential and business structures were destroyed or damaged, communications disrupted, and local roads rendered impassable.

GEOGRAPHY

Location: Caribbean, between the Caribbean Sea and the North Atlantic Ocean, east of Puerto Rico

Geographic coordinates: 18 30 N, 64 30 W

Map references: Central America and the Caribbean

Area: *total:* 151 sq km

land: 151 sq km

water: 0 sq km

note: comprised of 16 inhabited and more than 20 uninhabited islands; includes the islands of Tortola, Anegada, Virgin Gorda, Jost van Dyke

Area - comparative: about 0.9 times the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 80 km

Maritime claims: territorial sea: 12 nm

exclusive fishing zone: 200 nm

Climate: subtropical; humid; temperatures moderated by trade winds

Terrain: coral islands relatively flat; volcanic islands steep, hilly

Elevation: *highest point:* Mount Sage 521 m

lowest point: Caribbean Sea 0 m

Natural resources: NEGL; pleasant climate, beaches foster tourism

Land use: *agricultural land:* 46.7% (2018 est.)

arable land: 6.7% (2018 est.)

permanent crops: 6.7% (2018 est.)

permanent pasture: 33.3% (2018 est.)

forest: 24.3% (2018 est.)

other: 29% (2018 est.)

Population distribution: a fairly even distribution throughout the inhabited islands, with the largest islands of Tortola, Anegada, Virgin

Gorda, and Jost Van Dyke having the largest populations

Natural hazards: hurricanes and tropical storms (July to October)

Geography - note: strong ties to nearby US Virgin Islands and Puerto Rico

PEOPLE AND SOCIETY

Population: 38,632 (2022 est.)

Nationality: *noun:* British Virgin Islander(s)

adjective: British Virgin Islander

Ethnic groups: African/Black 76.3%, Latino 5.5%, White 5.4%, mixed 5.3%, Indian 2.1%, East Indian 1.6%, other 3%, unspecified 0.8% (2010 est.)

Languages: English (official)

Religions: Protestant 70.2% (Methodist 17.6%, Church of God 10.4%, Anglican 9.5%, Seventh Day Adventist 9.0%, Pentecostal 8.2%, Baptist 7.4%, New Testament Church of God 6.9%, other Protestant 1.2%), Roman Catholic 8.9%, Jehovah's Witness 2.5%, Hindu 1.9%, other 6.2%, none 7.9%, unspecified 2.4% (2010 est.)

Age structure: 0-14 years: 16.48% (male 3,088/female 3,156)

15-24 years: 12.22% (male 2,212/female 2,418)

25-54 years: 47.84% (male 8,476/female 9,652)

55-64 years: 12.83% (male 2,242/female 2,521)

65 years and over: 10.63% (male 1,921/female 2,105) (2021 est.)

Median age: *total:* 37.2 years

male: 37 years

female: 37.5 years (2020 est.)

Population growth rate: 1.91% (2022 est.)

Birth rate: 10.95 births/1,000 population (2022 est.)

Death rate: 5.38 deaths/1,000 population (2022 est.)

Net migration rate: 13.56 migrant(s)/1,000 population (2022 est.)

Population distribution: a fairly even distribution throughout the inhabited islands, with the largest islands of Tortola, Anegada, Virgin Gorda, and Jost Van Dyke having the largest populations

Urbanization: *urban population:* 49.3% of total population (2022)
rate of urbanization: 1.73% annual rate of change (2020-25 est.)

Major urban areas - population: 15,000 ROAD TOWN (capital)
(2018)

Sex ratio: *at birth:* 1.05 male(s)/female

0-14 years: 0.98 male(s)/female

15-24 years: 0.92 male(s)/female

25-54 years: 0.88 male(s)/female

55-64 years: 0.93 male(s)/female

65 years and over: 0.76 male(s)/female

total population: 0.91 male(s)/female (2022 est.)

Infant mortality rate: *total:* 14.16 deaths/1,000 live births

male: 16.89 deaths/1,000 live births

female: 11.28 deaths/1,000 live births (2022 est.)

Life expectancy at birth: *total population:* 79.67 years

male: 78.17 years

female: 81.25 years (2022 est.)

Total fertility rate: 1.35 children born/woman (2022 est.)

Drinking water source: *improved:* *total:* 99.9% of population

unimproved: *total:* 0.1% of population (2020 est.)

Sanitation facility access: *improved:* *urban:* 97.5% of population

rural: 97.5% of population

total: 97.5% of population

unimproved: *urban:* 2.5% of population

rural: 2.5% of population

total: 2.5% of population (2015 est.)

Education expenditures: 2.9% of GDP (2019 est.)

Literacy: School life expectancy (primary to tertiary education): *total:* 12 years

male: 12 years

female: 12 years (2018)

ENVIRONMENT

Environment - current issues: limited natural freshwater resources except for a few seasonal streams and springs on Tortola; most of the islands' water supply comes from desalination plants; sewage and mining/industry waste contribute to water pollution, threatening coral reefs

Air pollutants: *carbon dioxide emissions:* 0.21 megatons (2016 est.)

Climate: subtropical; humid; temperatures moderated by trade winds

Land use: *agricultural land:* 46.7% (2018 est.)

arable land: 6.7% (2018 est.)

permanent crops: 6.7% (2018 est.)

permanent pasture: 33.3% (2018 est.)

forest: 24.3% (2018 est.)

other: 29% (2018 est.)

Urbanization: *urban population:* 49.3% of total population (2022)

rate of urbanization: 1.73% annual rate of change (2020-25 est.)

Waste and recycling: *municipal solid waste generated annually:* 21,099 tons (2000 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: British Virgin Islands

abbreviation: BVI

etymology: the myriad islets, cays, and rocks surrounding the major islands reminded explorer Christopher COLUMBUS in 1493 of Saint Ursula and her 11,000 virgin followers (Santa Ursula y las Once Mil Virgenes), which over time shortened to the Virgins (las Virgenes)

Government type: Overseas Territory of the UK with limited self-government; parliamentary democracy

Dependency status: overseas territory of the UK; internal self-governing

Capital: *name:* Road Town

geographic coordinates: 18 25 N, 64 37 W

time difference: UTC-4 (1 hour ahead of Washington, DC, during Standard Time)

etymology: name refers to the nautical term “roadstead” or “roads,” a body of water less sheltered than a harbor but where ships can lie reasonably safely at anchor sheltered from rip currents, spring tides, or ocean swells

Administrative divisions: none (overseas territory of the UK)

Independence: none (overseas territory of the UK)

National holiday: Territory Day, 1 July (1956)

Constitution: *history:* several previous; latest effective 15 June 2007 (The Virgin Islands Constitution Order 2007)

amendments: initiated by any elected member of the House of Assembly; passage requires simple majority vote by the elected members of the Assembly and assent by the governor on behalf of the monarch; amended 2015

Legal system: English common law

Citizenship: see United Kingdom

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022); represented by Governor John J. RANKIN (since 29 January 2021)

head of government: Premier Dr. Natalio WHEATLEY (since 5 May 2022)

cabinet: Executive Council appointed by the governor from members of the House of Assembly

elections/appointments: the monarchy is hereditary; governor appointed by the monarch; following legislative elections, the leader of the majority party or majority coalition usually appointed premier by the governor

note: on 5 May 2022, Premier Andrew FAHIE removed by a no confidence vote in House of Assembly following his arrest on drug trafficking and money laundering charges on 28 April 2022; Premier Dr. Natalio WHEATLEY sworn in as premier on 5 May 2022

Legislative branch: *description:* unicameral House of Assembly (15 seats; 13 members - 9 in single-seat constituencies and 4 at-large seats directly elected by simple majority vote and 2 ex-officio members - the attorney general and the speaker - chosen from outside the House; members serve 4-year terms)

elections: last held on 25 February 2019 (next to be held in 2023)

election results: percent of vote by party - VIP 46.5%, NDP 28.2%, PVIM 17.4%, PU 8%; seats by party - VIP 8, NDP 3, PVIM 1, PU 1; composition as of March 2022 - men 11, women 4, percent of women 26.7%

Judicial branch: *highest court(s):* the Eastern Caribbean Supreme Court (ECSC) is the superior court of the Organization of Eastern Caribbean States; the ECSC - headquartered on St. Lucia - consists of the Court of Appeal - headed by the chief justice and 4 judges - and the High Court with 18 judges; the Court of Appeal is itinerant, traveling to member states on a schedule to hear appeals from the High Court and subordinate courts; High Court judges reside in the member states, with 3

in the British Virgin Islands

judge selection and term of office: Eastern Caribbean Supreme Court chief justice appointed by Her Majesty, Queen ELIZABETH II; other justices and judges appointed by the Judicial and Legal Services Commission; Court of Appeal justices appointed for life with mandatory retirement at age 65; High Court judges appointed for life with mandatory retirement at age 62

subordinate courts: Magistrates' Courts

Political parties and leaders: National Democratic Party or NDP [Marlon PENN]

Progressive Virgin Islands Movement or PVIM [Ronnie SKELTON]

Progressives United or PU [Julian FRASER]

Virgin Islands Party or VIP [Natalio WHEATLEY]

International organization participation: Caricom (associate), CDB, Interpol (subbureau), IOC, OECS, UNESCO (associate), UPU

Diplomatic representation in the US: none (overseas territory of the UK)

Diplomatic representation from the US: *embassy:* none (overseas territory of the UK)

Flag description: blue with the flag of the UK in the upper hoist-side quadrant and the Virgin Islander coat of arms centered in the outer half of the flag; the coat of arms depicts a woman flanked on either side by a vertical column of six oil lamps above a scroll bearing the Latin word VIGILATE (Be Watchful); the islands were named by COLUMBUS in 1493 in honor of Saint Ursula and her 11 virgin followers (some sources say 11,000) who reputedly were martyred by the Huns in the 4th or 5th century; the figure on the banner holding a lamp represents the saint; the other lamps symbolize her followers

National symbol(s): zenaida dove, white cedar flower; national colors: yellow, green, red, white, blue

National anthem: *note:* as an overseas territory of the United Kingdom, "God Save the King" is official (see United Kingdom)

ECONOMY

Economic overview: The economy, one of the most stable and prosperous in the Caribbean, is highly dependent on tourism, which generates an estimated 45% of the national income. More than 934,000 tourists, mainly from the US, visited the islands in 2008. Because of traditionally close links with the US Virgin Islands, the British Virgin Islands has used the US dollar as its currency since 1959.

Livestock raising is the most important agricultural activity; poor soils limit the islands' ability to meet domestic food requirements.

In the mid-1980s, the government began offering offshore registration to companies wishing to incorporate in the islands, and incorporation fees now generate substantial revenues. Roughly 400,000 companies were on the offshore registry by yearend 2000. The adoption of a comprehensive insurance law in late 1994, which provides a blanket of confidentiality with regulated statutory gateways for investigation of criminal offenses, made the British Virgin Islands even more attractive to international business.

Real GDP (purchasing power parity): \$500 million (2017 est.)

\$490.2 million (2016 est.)

\$481.1 million (2015 est.)

Real GDP growth rate: 2% (2017 est.)

1.9% (2016 est.)

1.8% (2015 est.)

1.1% (2016 est.)

GDP - composition, by sector of origin: *agriculture:* 0.2% (2017 est.)

industry: 6.8% (2017 est.)

services: 93.1% (2017 est.)

GDP - composition, by end use: *household consumption: 25.1% (2017 est.)*

government consumption: 7.5% (2017 est.)

investment in fixed capital: 21.7% (2017 est.)

investment in inventories: 20.4% (2017 est.)

exports of goods and services: 94.7% (2017 est.)

imports of goods and services: -69.4% (2017 est.)

Agricultural products: fruits, vegetables; livestock, poultry; fish

Industries: tourism, light industry, construction, rum, concrete block, offshore banking center

Industrial production growth rate: 1.1% (2017 est.)

Labor force: 12,770 (2004)

Labor force - by occupation: *agriculture: 0.6%*

industry: 40%

services: 59.4% (2005)

Unemployment rate: 2.9% (2015 est.)

Budget: *revenues: 400 million (2017 est.)*

expenditures: 400 million (2017 est.)

Budget surplus (+) or deficit (-): 0% (of GDP) (2017 est.)

Taxes and other revenues: 38.9% (of GDP) (2017 est.)

Fiscal year: 1 April - 31 March

Current account balance: \$362.6 million (2011 est.)

\$279.8 million (2010 est.)

Exports: \$23 million (2017 est.)

\$23 million (2015 est.)

note: Data are in current year dollars and do not include illicit exports or re-exports.

Exports - partners: Malta 30%, Seychelles 29%, Switzerland 14%

(2019)

Exports - commodities: recreational boats, aircraft, diamonds, paintings, precious stones (2019)

Imports: \$300 million (2017 est.)

\$210 million (2016 est.)

Imports - partners: Germany 32%, United States 22%, Italy 9%, France 7%, Seychelles 7% (2019)

Imports - commodities: recreational boats, aircraft, refined petroleum, cars, furniture (2019)

Debt - external: \$36.1 million (1997)

Exchange rates: the US dollar is used

ENERGY

Electricity access: *electrification - total population: 100% (2020)*

Electricity: *installed generating capacity: 33,000 kW (2020 est.)*

consumption: 116.298 million kWh (2019 est.)

exports: 0 kWh (2020 est.)

imports: 0 kWh (2020 est.)

transmission/distribution losses: 22.5 million kWh (2019 est.)

Electricity generation sources: *fossil fuels: 98.8% of total installed capacity (2020 est.)*

solar: 0.2% of total installed capacity (2020 est.)

wind: 1% of total installed capacity (2020 est.)

Petroleum: *total petroleum production: 0 bbl/day (2021 est.)*

refined petroleum consumption: 1,200 bbl/day (2019 est.)

Refined petroleum products - imports: *1,227 bbl/day (2015 est.)*

Carbon dioxide emissions: *173,000 metric tonnes of CO2 (2019 est.)*

from petroleum and other liquids: 173,000 metric tonnes of CO2 (2019 est.)

Energy consumption per capita: *80.136 million Btu/person (2019 est.)*

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 7,000 (2020 est.)
subscriptions per 100 inhabitants: 23 (2020 est.)

Telephones - mobile cellular: *total subscriptions:* 35,163 (2020 est.)
subscriptions per 100 inhabitants: 116 (2020 est.)

Telecommunication systems: *general assessment:* the telecom sector has seen a decline in subscriber numbers (particularly for prepaid mobile services the mainstay of short term visitors) and revenue; fixed and mobile broadband services are two areas that have benefited from the crisis as employees and students have resorted to working from home; one major casualty may be the region's second largest telco operator, Digicel; the company filed for bankruptcy in the US in April 2020; it continues to operate in all of its Caribbean markets as it seeks to refinance billions of dollars of debt; the other major telco, regional incumbent Cable & Wireless Communications (CWC), is experiencing similar drops in subscriber numbers and revenue; CWC is expanding and enhancing its fixed and mobile networks in many of the countries it serves around the Caribbean, despite many locations being small islands with very small populations; one area of the telecom market that is not prepared for growth is 5G mobile; governments, regulators, and even the mobile network operators have shown that they have not been investing in 5G opportunities at the present time; network expansion and enhancements remain concentrated around improving LTE coverage. (2021)

domestic: fixed-line connections exceed 23 per 100 persons and mobile cellular subscribership is roughly 116 per 100 persons (2020)

international: country code - 1-284; landing points for PCCS, ECFS, CBUS, Deep Blue Cable, East-West, PAN-AM, Americas-1, Southern Caribbean Fiber, Columbus- Iib, St Thomas - St Croix System, Taino-Carib, and Americas INorth via submarine cable to Caribbean, Central and South America, and US (2019)

Broadcast media: 1 private TV station; multi-channel TV is available from cable and satellite subscription services; about a half-dozen private

radio stations

Internet country code: .vg

Internet users: *total:* 23,585 (2020 est.)

percent of population: 78% (2020 est.)

Broadband - fixed subscriptions: *total:* 6,738 (2020 est.)

subscriptions per 100 inhabitants: 22 (2020 est.)

TRANSPORTATION

Civil aircraft registration country code prefix: VP-L

Airports: *total:* 4 (2021)

Airports - with paved runways: *total:* 2

914 to 1,523 m: 1

under 914 m: 1 (2021)

Airports - with unpaved runways: *total:* 2

914 to 1,523 m: 2 (2021)

Roadways: *total:* 200 km (2007)

paved: 200 km (2007)

Merchant marine: *total:* 30

by type: general cargo 3, other 27 (2021)

Ports and terminals: *major seaport(s):* Road Harbor

MILITARY AND SECURITY

Military - note: defense is the responsibility of the UK

TRANSNATIONAL ISSUES

Disputes - international: none

Illicit drugs: transshipment point for South American narcotics destined for the US and Europe; large offshore financial center makes it vulnerable to money laundering

BRUNEI

INTRODUCTION

Background: The Sultanate of Brunei's influence peaked between the 15th and 17th centuries when its control extended over coastal areas of northwest Borneo and the southern Philippines. Brunei subsequently entered a period of decline brought on by internal strife over royal succession, colonial expansion of European powers, and piracy. In 1888, Brunei became a British protectorate; independence was achieved in 1984. The same family has ruled Brunei for over six centuries.

Brunei benefits from extensive petroleum and natural gas fields, the source of one of the highest per capita GDPs in the world. In 2017, Brunei celebrated the 50th anniversary of the Sultan Hassanali BOLKIAH's accession to the throne.

GEOGRAPHY

Location: Southeastern Asia, along the northern coast of the island of Borneo, bordering the South China Sea and Malaysia

Geographic coordinates: 4 30 N, 114 40 E

Map references: Southeast Asia

Area: *total:* 5,765 sq km

land: 5,265 sq km

water: 500 sq km

country comparison to the world: 172

Area - comparative: slightly smaller than Delaware

Land boundaries: *total:* 266 km

border countries (1): Malaysia 266 km

Coastline: 161 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm or to median line

Climate: tropical; hot, humid, rainy

Terrain: flat coastal plain rises to mountains in east; hilly lowland in west

Elevation: *highest point:* Bukit Pagon 1,850 m

lowest point: South China Sea 0 m

mean elevation: 478 m

Natural resources: petroleum, natural gas, timber

Land use: *agricultural land:* 2.5% (2018 est.)

arable land: 0.8% (2018 est.)

permanent crops: 1.1% (2018 est.)

permanent pasture: 0.6% (2018 est.)

forest: 71.8% (2018 est.)

other: 25.7% (2018 est.)

Irrigated land: 10 sq km (2012)

Natural hazards: typhoons, earthquakes, and severe flooding are rare

Geography - note: close to vital sea lanes through South China Sea linking Indian and Pacific Oceans; two parts physically separated by Malaysia; the eastern part, the Temburong district, is an exclave and is almost an enclave within Malaysia

PEOPLE AND SOCIETY

Population: 478,054 (2022 est.)

note: immigrants make up approximately 26% of the total population, according to UN data (2019)

country comparison to the world: 173

Nationality: *noun:* Bruneian(s)

adjective: Bruneian

Ethnic groups: Malay 65.8%, Chinese 10.2%, other 24% (2020 est.)

Languages: Malay (Bahasa Melayu) (official), English, Chinese dialects

major-language sample(s): Buku Fakta Dunia, sumber yang diperlukan untuk maklumat asas. (Malay)

Religions: Muslim (official) 80.9%, Christian 7.1%, Buddhist 7.1%, other (includes indigenous beliefs) 5% (2016 est.)

Demographic profile: Brunei is a small, oil-rich sultanate of less than half a million people, making it the smallest country in Southeast Asia by population. Its total fertility rate – the average number of births per woman – has been steadily declining over the last few decades, from over 3.5 in the 1980s to below replacement level today at nearly 1.8. The trend is due to women’s increased years of education and participation in the workforce, which have resulted in later marriages and fewer children. Yet, the population continues to grow because of the large number of women of reproductive age and a reliance on foreign labor – mainly from Malaysia, Thailand, the Philippines, Indonesia, and South Asian countries – to fill low-skilled jobs.

Brunei is officially Muslim, and Malay is the official language. The country follows an official Malay national ideology, Malay Islamic Monarchy, which promotes Malay language and culture, Islamic values, and the monarchy. Only seven of Brunei’s native groups are recognized in the constitution and are defined as “Malay” – Brunei Malays, Belait, Kedayan, Dusun, Bisayah, Lun Bawang, and Sama- Baiau. Together they

make up about 66% percent of the population and are referred to as the Bumiputera. The Bumiputera are entitled to official privileges, including land ownership, access to certain types of employment (Royal Brunei Armed Forces and Brunei Shell Petroleum), easier access to higher education, and better job opportunities in the civil service.

Brunei's Chinese population descends from migrants who arrived when Brunei was a British protectorate (1888 and 1984). They are prominent in the non-state commercial sector and account for approximately 10% of the population. Most Bruneian Chinese are permanent residents rather than citizens despite roots going back several generations. Many are stateless and are denied rights granted to citizens, such as land ownership, subsidized health care, and free secondary and university education. Because of the discriminatory policies, the number of Chinese in Brunei has shrunk considerably in the last 50 years. Native ethnic groups that are not included in the Bumiputera are not recognized in the constitution and are not officially identified as "Malay" or automatically granted citizenship. Foreign workers constitute some quarter of the labor force.

Age structure: *0-14 years:* 22.41% (male 53,653/female 50,446)

15-24 years: 16.14% (male 37,394/female 37,559)

25-54 years: 47.21% (male 103,991/female 115,291)

55-64 years: 8.34% (male 19,159/female 19,585)

65 years and over: 5.9% (male 13,333/female 14,067) (2020 est.)

Unemployment, youth ages 15-24: *total:* 21.4%

male: 19%

female: 25.8% (2019 est.)

ENVIRONMENT

Environment - current issues: no major environmental problems, but air pollution control is becoming a concern; seasonal trans-boundary haze from forest fires in Indonesia

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Ozone Layer Protection, Ship Pollution

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 5.78 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 7.66 megatons (2016 est.)

methane emissions: 8.4 megatons (2020 est.)

Climate: tropical; hot, humid, rainy

Land use: *agricultural land:* 2.5% (2018 est.)

arable land: 0.8% (2018 est.)

permanent crops: 1.1% (2018 est.)

permanent pasture: 0.6% (2018 est.)

forest: 71.8% (2018 est.)

other: 25.7% (2018 est.)

Urbanization: *urban population:* 78.9% of total population (2022)

rate of urbanization: 1.44% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.05% of GDP (2018 est.)

country comparison to the world: 127

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 70

Waste and recycling: *municipal solid waste generated annually:* 216,253 tons (2016 est.)

Total water withdrawal: *municipal:* 151.5 million cubic meters (2017 est.)

agricultural: 5.3 million cubic meters (2017 est.)

Total renewable water resources: 8.5 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Brunei Darussalam

conventional short form: Brunei

local long form: Negara Brunei Darussalam

local short form: Brunei

etymology: derivation of the name is unclear; according to legend, MUHAMMAD SHAH, who would become the first sultan of Brunei, upon discovering what would become Brunei exclaimed “Baru nah,” which roughly translates as “there” or “that’s it”

Government type: absolute monarchy or sultanate

Capital: *name:* Bandar Seri Begawan

geographic coordinates: 4 53 N, 114 56 E

time difference: UTC+8 (13 hours ahead of Washington, DC, during Standard Time)

etymology: named in 1970 after Sultan Omar Ali SAIFUDDIEN III (1914-1986; “The Father of Independence”) who adopted the title of “Seri Begawan” (approximate meaning “honored lord”) upon his abdication in 1967; “bandar” in Malay means “town” or “city”; the capital had previously been called Bandar Brunei (Brunei Town)

Administrative divisions: 4 districts (daerah-daerah, singular - daerah); Belait, Brunei dan Muara, Temburong, Tutong

Independence: 1 January 1984 (from the UK)

National holiday: National Day, 23 February (1984); note - 1 January 1984 was the date of independence from the UK, 23 February 1984 was the date of independence from British protection; the Sultan’s birthday, 15 June

Constitution: *history:* drafted 1954 to 1959, signed 29 September 1959; note - some constitutional provisions suspended since 1962 under a State of Emergency, others suspended since independence in 1984

amendments: proposed by the monarch; passage requires submission to

the Privy Council for Legislative Council review and finalization takes place by proclamation; the monarch can accept or reject changes to the original proposal provided by the Legislative Council; amended several times, last in 2010

Legal system: mixed legal system based on English common law and Islamic law; note - in April 2019, the full sharia penal codes came into force and apply to Muslims and partly to non-Muslims in parallel with present common law codes

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICC

Citizenship: *citizenship by birth:* no

citizenship by descent only: the father must be a citizen of Brunei

dual citizenship recognized: no

residency requirement for naturalization: 12 years

Suffrage: 18 years of age for village elections; universal

Executive branch: *chief of state:* Sultan and Prime Minister Sir HASSANAL Bolkiah (since 5 October 1967); note - the monarch is both chief of state and head of government

head of government: Sultan and Prime Minister Sir HASSANAL Bolkiah (since 5 October 1967)

cabinet: Council of Ministers appointed and presided over by the monarch; note - 4 additional advisory councils appointed by the monarch are the Religious Council, Privy Council for constitutional issues, Council of Succession, and Legislative Council; Sultan and Prime Minister Sir HASSANAL Bolkiah is also Minister of Finance, Defense, and Foreign Affairs and Trade

elections/appointments: none; the monarchy is hereditary

Legislative branch: *description:* unicameral Legislative Council or Majlis Mesyuarat Negara Brunei (33 seats; 20 members appointed by the sultan from ex-officio cabinet ministers, titled people, and prominent citizens in public service and various professional fields and 13 members from 4 multi-seat constituencies, and 3 ex-officio members - the speaker

and first and second secretaries

elections: January 2017 - appointed by the sultan

election results: NA; composition (as of February 2022) - men 30, women 3, percent of women 9.1%

Judicial branch: *highest court(s):* Supreme Court (consists of the Court of Appeal and the High Court, each with a chief justice and 2 judges); Sharia Court (consists the Court of Appeals and the High Court); note - Brunei has a dual judicial system of secular and sharia (religious) courts; the Judicial Committee of Privy Council (in London) serves as the final appellate court for civil cases only

judge selection and term of office: Supreme Court judges appointed by the monarch to serve until age 65, and older if approved by the monarch; Sharia Court judges appointed by the monarch for life

subordinate courts: Intermediate Court; Magistrates' Courts; Juvenile Court; small claims courts; lower sharia courts

Political parties and leaders: National Development Party or NDP [YASSIN Affendi]

note: Brunei National Solidarity Party or PPKB [Abdul LATIF bin Chuchu] and People's Awareness Party or PAKAR [Awang Haji MAIDIN bin Haji Ahmad] were deregistered in 2007; parties are small and have limited activity

International organization participation: ADB, APEC, ARF, ASEAN, C, CP, EAS, FAO, G-77, IAEA, IBRD, ICAO, ICC (NGOs), ICRM, IDA, IFRCs, ILO, IMF, IMO, IMSO, Interpol, IOC, ISO (correspondent), ITSO, ITU, NAM, OIC, OPCW, UN, UNCTAD, UNESCO, UNIFIL, UNWTO, UPU, WCO, WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Dato Paduka Haji Serbini bin Haji ALI (since 28 January 2016)

chancery: 3520 International Court NW, Washington, DC 20008

telephone: [1] (202) 237-1838

email address and website:

ConsularBrunei@state.gov

<https://bn.usembassy.gov/>

Flag description: yellow with two diagonal bands of white (top, almost double width) and black starting from the upper hoist side; the national emblem in red is superimposed at the center; yellow is the color of royalty and symbolizes the sultanate; the white and black bands denote Brunei's chief ministers; the emblem includes five main components: a swallow-tailed flag, the royal umbrella representing the monarchy, the wings of four feathers symbolizing justice, tranquility, prosperity, and peace, the two upraised hands signifying the government's pledge to preserve and promote the welfare of the people, and the crescent moon denoting Islam, the state religion; the state motto "Always render service with God's guidance" appears in yellow Arabic script on the crescent; a ribbon below the crescent reads "Brunei, the Abode of Peace"

National symbol(s): *royal parasol; national colors:* yellow, white, black

National anthem: *name:* "Allah Peliharakan Sultan" (God Bless His Majesty)

lyrics/music: Pengiran Haji Mohamed YUSUF bin Pengiran Abdul Rahim/Awang Haji BESAR bin Sagap

note: adopted 1951

ECONOMY

Economic overview: Brunei is an energy-rich sultanate on the northern coast of Borneo in Southeast Asia. Brunei boasts a well-educated, largely English-speaking population; excellent infrastructure; and a stable government intent on attracting foreign investment. Crude oil and natural gas production account for approximately 65% of GDP and 95% of exports, with Japan as the primary export market.

Per capita GDP is among the highest in the world, and substantial income from overseas investment supplements income from domestic hydrocarbon production. Bruneian citizens pay no personal income taxes, and the government provides free medical services and free education through the university level.

The Bruneian Government wants to diversify its economy away from hydrocarbon exports to other industries such as information and communications technology and halal manufacturing, permissible under Islamic law. Brunei's trade increased in 2016 and 2017, following its regional economic integration in the ASEAN Economic Community, and the expected ratification of the Trans-Pacific Partnership trade agreement.

Real GDP (purchasing power parity): \$27.23 billion (2020 est.)

\$26.91 billion (2019 est.)

\$25.9 billion (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 140

Real GDP growth rate: 1.3% (2017 est.)

-2.5% (2016 est.)

-0.4% (2015 est.)

country comparison to the world: 161

Real GDP per capita: \$62,200 (2020 est.)

\$62,100 (2019 est.)

\$60,400 (2018 est.)

ENERGY

Electricity access: *electrification - total population:* 100% (2020)

Electricity: *installed generating capacity:* 1.261 million kW (2020 est.)

consumption: 4,140,140,000 kWh (2019 est.)

exports: 0 kWh (2019 est.)

imports: 0 kWh (2019 est.)

transmission/distribution losses: 497 million kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 100% of total installed capacity (2020 est.)

solar: 0.1% of total installed capacity (2020 est.)

Petroleum: *total petroleum production:* 107,300 bbl/day (2021 est.)

refined petroleum consumption: 18,800 bbl/day (2019 est.)

crude oil and lease condensate exports: 103,100 bbl/day (2018 est.)

crude oil and lease condensate imports: 0 bbl/day (2018 est.)

crude oil estimated reserves: 1.1 billion barrels (2021 est.)

Refined petroleum products - production: 10,310 bbl/day (2015 est.)

country comparison to the world: 100

Refined petroleum products - exports: 0 bbl/day (2015 est.)

country comparison to the world: 135

Refined petroleum products - imports: 6,948 bbl/day (2015 est.)

country comparison to the world: 159

Natural gas: *production:* 12,498,299,000 cubic meters (2020 est.)

consumption: 4,166,987,000 cubic meters (2020 est.)

exports: 7,774,406,000 cubic meters (2020 est.)

imports: 0 cubic meters (2021 est.)

proven reserves: 260.515 billion cubic meters (2021 est.)

Carbon dioxide emissions: 9.956 million metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 2.387 million metric tonnes of CO₂

(2019 est.)

from consumed natural gas: 7.569 million metric tonnes of CO₂ (2019 est.)

country comparison to the world: 107

Energy consumption per capita: 415.184 million Btu/person (2019 est.)

country comparison to the world: 5

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 103,885 (2020 est.)

subscriptions per 100 inhabitants: 24 (2020 est.)

country comparison to the world: 136

Telephones - mobile cellular: *total subscriptions:* 526,589 (2020 est.)

subscriptions per 100 inhabitants: 123 (2020 est.)

country comparison to the world: 173

Telecommunication systems: *general assessment:* Brunei's mobile market experienced drop-off in subscriber numbers in 2020; in 2022 there was a concerted effort to build out the fixed-line infrastructure while progressing towards introducing 5G mobile services; Brunei's fixed-line market is one of the few countries in the world to have displayed significant growth rather than a decline in teledensity in the last few years; this upward trend is set to continue as the new Unified National Network (UNN) works diligently to expand and enhance the fixed-line infrastructure around the country; strong growth was also seen in the fixed broadband space, on the back of those same infrastructure developments that are part of the Brunei Vision 2035 initiative; fixed broadband is starting from a relatively low base by international standards and is still only at 18%, leaving lots of room for growth; mobile and mobile broadband, on the other hand, are still suffering from the market contractions first felt in 2020; Brunei's 2G GSM network is shut down, with the spectrum to be reallocated to 3G, 4G, and potentially 5G use (2021)

domestic: every service available; nearly 24 per 100 fixed-line, 120 per 100 mobile-cellular (2020)

international: country code - 673; landing points for the SEA-ME-WE-3, SJC, AAG, Lubuan-Brunei Submarine Cable via optical telecommunications submarine cables that provides links to Asia, the Middle East, Southeast Asia, Africa, Australia, and the US; satellite earth stations - 2 Intelsat (1 Indian Ocean and 1 Pacific Ocean) (2019)

Broadcast media: state-controlled Radio Television Brunei (RTB) operates 5 channels; 3 Malaysian TV stations are available; foreign TV broadcasts are available via satellite systems; RTB operates 5 radio networks and broadcasts on multiple frequencies; British Forces Broadcast Service (BFBS) provides radio broadcasts on 2 FM stations; some radio broadcast stations from Malaysia are available via repeaters

Internet country code: .bn

Internet users: *total:* 415,609 (2020 est.)

percent of population: 95% (2020 est.)

country comparison to the world: 163

Broadband - fixed subscriptions: *total:* 71,078 (2020 est.)

subscriptions per 100 inhabitants: 16 (2020 est.)

country comparison to the world: 134

TRANSPORTATION

National air transport system: *number of registered air carriers:* 1 (2020)

inventory of registered aircraft operated by air carriers: 10

annual passenger traffic on registered air carriers: 1,234,455 (2018)

annual freight traffic on registered air carriers: 129.35 million (2018)
mt-km

Civil aircraft registration country code prefix: V8

Airports: *total:* 1 (2021)

country comparison to the world: 215

Airports - with paved runways: *over 3,047 m:* 1 (2021)

Heliports: 3 (2021)

Pipelines: 33 km condensate, 86 km condensate/gas, 628 km gas, 492 km oil (2013)

Roadways: *total:* 2,976 km (2014)

paved: 2,559 km (2014)

unpaved: 417 km (2014)

country comparison to the world: 163

Waterways: 209 km (2012) (navigable by craft drawing less than 1.2 m; the Belait, Brunei, and Tutong Rivers are major transport links)

country comparison to the world: 106

Merchant marine: *total:* 96

by type: general cargo 18, oil tanker 3, other 75 (2021)

country comparison to the world: 90

Ports and terminals: *major seaport(s):* Muara

oil terminal(s): Lumut, Seria

LNG terminal(s) (export): Lumut

MILITARY AND SECURITY

Military and security forces: Royal Brunei Armed Forces: Land Force, Navy, Air Force, Joint Force (2022)

note: the Gurkha Reserve Unit (GRU) under the Ministry of Defense is a special guard force for the Sultan, the royal family, and the country's oil installations

Military expenditures: 3.1% of GDP (2021 est.)

3.7% of GDP (2020 est.)

3.1% of GDP (2019) (approximately \$870 million)

2.7% of GDP (2018) (approximately \$720 million)

2.8% of GDP (2017) (approximately \$750 million)

country comparison to the world: 30

Military and security service personnel strengths: approximately 6,000 total active troops (4,000 Army; 1,000 Navy; 1,000 Air Force) (2022)

Military equipment inventories and acquisitions: the Brunei imports nearly all of its military equipment and weapons systems and has a variety of suppliers, including the US and several European countries (2021)

Military service age and obligation: 17 years of age for voluntary military service; non-Malays are ineligible to serve (2022)

note: the Gurkha Reserve Unit (GRU) employs about 500 Gurkhas from Nepal, the majority of whom are veterans of the British Army and the Singapore Police Force who have joined the GRU as a second career

Military - note: the Royal Brunei Armed Forces were formed in 1961 with British support as the Brunei Malay Regiment; "Royal" was added as an honorary title in 1965; the military was given its current title in 1984

Brunei has a long-standing defense relationship with the United Kingdom and hosts a British Army garrison, which includes a Gurkha battalion and a jungle warfare school; Brunei also hosts a Singaporean

military training base (2022)

TRANSNATIONAL ISSUES

Disputes - international: per Letters of Exchange signed in 2009, Malaysia in 2010 ceded two hydrocarbon concession blocks to Brunei in exchange for Brunei's sultan dropping claims to the Limbang corridor, which divides Brunei; nonetheless, Brunei claims a maritime boundary extending as far as a median with Vietnam, thus asserting an implicit claim to Louisa Reef

Refugees and internally displaced persons: *stateless persons:* 20,863 (mid-year 2021); note - thousands of stateless persons, often ethnic Chinese, are permanent residents and their families have lived in Brunei for generations; obtaining citizenship is difficult and requires individuals to pass rigorous tests on Malay culture, customs, and language; stateless residents receive an International Certificate of Identity, which enables them to travel overseas; the government is considering changing the law prohibiting non- Bruneians, including stateless permanent residents, from owning land

Trafficking in persons: *current situation:* human traffickers exploit foreign victims in Brunei; some men and women who migrate to Brunei to work as domestics or in retail or construction are subject to involuntary servitude, debt-based coercion, contract switching, non-payment of wages, passport confiscation, physical abuse, or confinement; some female migrants entering Brunei on tourist visas are forced into prostitution; some traffickers use Brunei as a transit point for victims used for sex and labor trafficking in Malaysia and Indonesia

tier rating: Tier 2 Watch List — Brunei does not fully meet the minimum standards for the elimination of trafficking but is making significant efforts to do so; the government enacted the 2019 Trafficking in Persons Order, which criminalized sex and labor trafficking and separated trafficking crimes from migrant smuggling crimes; the government formalized its interagency anti-trafficking in persons committee; instituted a committee to review foreign worker recruitment practices, ratified the ASEAN Convention against Trafficking in Persons, and acceded to the

UN TIP Protocol; however, authorities did not formally identify any trafficking cases, did not initiate any new trafficking prosecutions, and did not convict any traffickers; trafficking victims continued to be detained, deported, and charged with crimes without law enforcement determining if they were forced to commit the illegal acts by traffickers; the government again did not allocate money to a fund established in 2004 for victim compensation and repatriation; a draft national action plan to combat trafficking was not completed for the sixth consecutive year (2020)

Illicit drugs: drug trafficking and illegally importing controlled substances are serious offenses in Brunei and carry a mandatory death penalty

BULGARIA

INTRODUCTION

Background: The Bulgars, a Central Asian Turkic tribe, merged with the local Slavic inhabitants in the late 7th century to form the first Bulgarian state. In succeeding centuries, Bulgaria struggled with the Byzantine Empire to assert its place in the Balkans, but by the end of the 14th century the country was overrun by the Ottoman Turks. Northern Bulgaria attained autonomy in 1878 and all of Bulgaria became independent from the Ottoman Empire in 1908. Having fought on the losing side in both World Wars, Bulgaria fell within the Soviet sphere of influence and became a People's Republic in 1946. Communist domination ended in 1990, when Bulgaria held its first multiparty election since World War II and began the contentious process of moving toward political democracy and a market economy while combating inflation, unemployment, corruption, and crime. The country joined NATO in 2004 and the EU in 2007.

GEOGRAPHY

Location: Southeastern Europe, bordering the Black Sea, between Romania and Turkey

Geographic coordinates: 43 00 N, 25 00 E

Map references: Europe

Area: *total:* 110,879 sq km

land: 108,489 sq km

water: 2,390 sq km

country comparison to the world: 105

Area - comparative: almost identical in size to Virginia; slightly larger than Tennessee

Land boundaries: *total:* 1,806 km

border countries (5): Greece 472 km; Macedonia 162 km; Romania 605 km; Serbia 344 km; Turkey 223 km

Coastline: 354 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

Climate: temperate; cold, damp winters; hot, dry summers

Terrain: mostly mountains with lowlands in north and southeast

Elevation: *highest point:* Musala 2,925 m

lowest point: Black Sea 0 m

mean elevation: 472 m

Natural resources: bauxite, copper, lead, zinc, coal, timber, arable land

Land use: *agricultural land:* 46.9% (2018 est.)

arable land: 29.9% (2018 est.)

permanent crops: 1.5% (2018 est.)

permanent pasture: 15.5% (2018 est.)

forest: 36.7% (2018 est.)

other: 16.4% (2018 est.)

Irrigated land: 1,020 sq km (2012)

Major rivers (by length in km): Danube (shared with Germany [s], Austria, Slovakia, Czechia, Hungary, Croatia, Serbia, Ukraine, Moldova, and Romania [m]) - 2,888 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: (*Black Sea*) Danube (795,656 sq km)

Population distribution: a fairly even distribution throughout most of the country, with urban areas attracting larger populations

Natural hazards: earthquakes; landslides

Geography - note: strategic location near Turkish Straits; controls key land routes from Europe to Middle East and Asia

PEOPLE AND SOCIETY

Population: 6,873,253 (2022 est.)

country comparison to the world: 107

Nationality: *noun:* Bulgarian(s)

adjective: Bulgarian

Ethnic groups: Bulgarian 76.9%, Turkish 8%, Romani 4.4%, other 0.7% (including Russian, Armenian, and Vlach), other (unknown) 10% (2011 est.)

note: Romani populations are usually underestimated in official statistics and may represent 9–11% of Bulgaria's population

Languages: Bulgarian (official) 76.8%, Turkish 8.2%, Romani 3.8%, other 0.7%, unspecified 10.5% (2011 est.)

Urbanization: *urban population:* 76.4% of total population (2022)

rate of urbanization: -0.28% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues: 0.22% of GDP (2018 est.)*

country comparison to the world: 89

Revenue from coal: *coal revenues: 0.14% of GDP (2018 est.)*

country comparison to the world: 23

Waste and recycling: *municipal solid waste generated annually: 3.011 million tons (2015 est.)*

municipal solid waste recycled annually: 572,993 tons (2015 est.)

percent of municipal solid waste recycled: 19% (2015 est.)

Major rivers (by length in km): Danube (shared with Germany [s], Austria, Slovakia, Czechia, Hungary, Croatia, Serbia, Ukraine, Moldova, and Romania [m]) - 2,888 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: (*Black Sea*) Danube (795,656 sq km)

Total water withdrawal: *municipal: 882 million cubic meters (2017 est.)*

industrial: 3.942 billion cubic meters (2017 est.)

agricultural: 834.5 million cubic meters (2017 est.)

Total renewable water resources: 21.3 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Bulgaria

conventional short form: Bulgaria

local long form: Republika Bulgaria

local short form: Bulgaria

former: Kingdom of Bulgaria, People's Republic of Bulgaria

etymology: named after the Bulgar tribes who settled the lower Balkan region in the 7th century A.D.

Government type: parliamentary republic

Capital: *name:* Sofia

geographic coordinates: 42 41 N, 23 19 E

time difference: UTC+2 (7 hours ahead of Washington, DC, during Standard Time)

daylight saving time: +1hr, begins last Sunday in March; ends last Sunday in October

etymology: named after the Saint Sofia Church in the city, parts of which date back to the 4th century A.D.

Administrative divisions: 28 provinces (oblasti, singular - oblast); Blagoevgrad, Burgas, Dobrich, Gabrovo, Haskovo, Kardzhali, Kyustendil, Lovech, Montana, Pazardzhik, Pernik, Pleven, Plovdiv, Razgrad, Ruse, Shumen, Silistra, Sliven, Smolyan, Sofia, Sofia- Grad (Sofia City), Stara Zagora, Targovishte, Varna, Veliko Tarnovo, Vidin, Vratsa, Yambol

Independence: 3 March 1878 (as an autonomous principality within the Ottoman Empire); 22 September 1908 (complete independence from the Ottoman Empire)

National holiday: Liberation Day, 3 March (1878)

Constitution: *history:* several previous; latest drafted between late 1990 and early 1991, adopted 13 July 1991

amendments: proposed by the National Assembly or by the president of

the republic; passage requires three-fourths majority vote of National Assembly members in three ballots; signed by the National Assembly chairperson; note - under special circumstances, a “Grand National Assembly” is elected with the authority to write a new constitution and amend certain articles of the constitution, including those affecting basic civil rights and national sovereignty; passage requires at least two-thirds majority vote in each of several readings; amended several times, last in 2015

Legal system: civil law

International law organization participation: accepts compulsory ICJ jurisdiction with reservations; accepts ICCT jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Bulgaria

dual citizenship recognized: yes

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Rumen RADEV (since 22 January 2017); Vice President Iliana IOTOVA (since 22 January 2017)

head of government: Prime Minister Gulub DONEV (since 2 August 2022); note - Prime Minister DONEV leads a caretaker government until snap elections are held on 2 October 2022

cabinet: Council of Ministers nominated by the prime minister, elected by the National Assembly

elections/appointments: president and vice president elected on the same ballot by absolute majority popular vote in 2 rounds if needed for a 5-year term (eligible for a second term); election last held on 14 and 21 November 2021 (next to be held in fall 2026); chairman of the Council of Ministers (prime minister) elected by the National Assembly; deputy prime ministers nominated by the prime minister, elected by the National Assembly

election results: 2021: Rumen RADEV reelected president in second

round; percent of vote in the first round - Rumen RADEV (independent) 49.4%, Anastas GERDZHIKOV (independent) 22.8%, Mustafa KARADAYI (DPS) 11.6%, Kostadin KOSTADINOV (Revival) 3.9%, Lozan PANOV (independent) 3.7%, other 8.6%; percent of vote in the second round - Rumen RADEV 66.7%, Anastas GERDZHIKOV 31.8%, neither 1.5%

2016: Rumen RADEV elected president in second round; percent of vote in the second round - Rumen RADEV (independent, supported by Bulgarian Socialist Party) 59.4%, Tsetska TSACHEVA (GERB) 36.2%, neither 4.5%

2011: Rosen PLEVNELIEV elected president in the second round; percent of vote in the second round - Rosen PLEVNELIEV (independent) 52.6%, Ivailo KALFIN (BSP) 47.4%

Legislative branch: *description:* unicameral National Assembly or Narodno Sabranie (240 seats; members directly elected in multi-seat constituencies by proportional representation vote to serve 4-year terms)
elections: last held on 2 October 2022 (next election to be held in 2026)
election results: percent of vote by party/coalition - GERB-SDS 24.5%, PP 19.5%, DPS 13.3%, Revival 9.8%, BSP for Bulgaria 9%, DB 7.2%, BV 4.5%, other 12.2%; seats by party/coalition GERB-SDS 67, PP 53, DPS 36, Revival 27, BSP for Bulgaria 25, DB 20, BV 12; composition - men NA, women NA, percent of women NA%

Judicial branch: *highest court(s):* Supreme Court of Cassation (consists of a chairman and approximately 72 judges organized into penal, civil, and commercial colleges); Supreme Administrative Court (organized into 2 colleges with various panels of 5 judges each); Constitutional Court (consists of 12 justices); note - Constitutional Court resides outside the judiciary

judge selection and term of office: Supreme Court of Cassation and Supreme Administrative judges elected by the Supreme Judicial Council or SJC (consists of 25 members with extensive legal experience) and appointed by the president; judges can serve until mandatory retirement at age 65; Constitutional Court justices elected by the National Assembly

and appointed by the president and the SJC; justices appointed for 9-year terms with renewal of 4 justices every 3 years

subordinate courts: appeals courts; regional and district courts; administrative courts; courts martial

Political parties and leaders: Agrarian People's Union or ZNS [Roumen YONCHEV]

BSP for Bulgaria [Korneliya NINOVA] (alliance of BSP, PKT, New Dawn, Ecoglasnost)

Bulgaria of the Citizens or DBG [Dimitar DELCHEV]

Bulgarian Agrarian People's Union or BZNS [Nikolay NENCHEV]

Bulgarian Rise or BV [Stefan YANEV]

Bulgarian Socialist Party or BSP [Korneliya NINOVA]

Citizens for the European Development of Bulgaria or GERB [Boyko BORISOV] (alliance with SDS)

Democratic Bulgaria or DB (alliance of Yes! Bulgaria, DSB, and The Greens) [Atanas ATANASOV, Hristo IVANOV]

Democrats for a Strong Bulgaria or DSB [Atanas ATANASOV]
Ecoglasnost [Emil GEORGIEV]

Green Movement or The Greens [Borislav SANDOV, Vladislav PENEV]

Middle European Class or SEC [Konstantin BACHIISKI]

Movement for Rights and Freedoms or DPS [Mustafa KARADAYI]

Movement 21 or D21 [Tatyana DONCHEVA]

New Dawn [Mincho MINCHEV]

Political Club Thrace or PKT [Stefan NACHEZ]

Political Movement "Social Democrats" or PDS [Elena NONEVA]

Revival [Kostadin KOSTADINOV]

Stand Up.BG or IS.BG [Maya MONOLOVA]

Stand Up.BG, We Are Coming! or IBG-NI [Maya MONOLOVA, Nikolay HADZHIGENOV] (coalition of IS.BG, D21, DBG, ENP, and ZNS)

There is Such a People or ITN [Slavi TRIFONOV]

United People's Party or ENP [Valentina VASILEVA-FILADELFEVS]

Union of Democratic Forces or SDS [Rumen HRISTOV] (alliance with GERB)

Yes! Bulgaria [Hristo IVANOV]

Volt Bulgaria or Volt [Nastimir ANANIEV]

We Continue the Change of PP [Kiril PETKOV and Asen VASILEV]
(electoral alliance of PP, PDS, SEC, and Volt)

International organization participation: Australia Group, BIS, BSEC, CD, CE, CEI, CERN, EAPC, EBRD, ECB, EIB, EU, FAO, G- 9, IAEA, IBRD, ICAO, ICC (national committees), ICCT, ICRM, IDA, IFC, IFRCS, IHO (pending member), ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, IPU, ISO, ITU, ITUC (NGOs), MIGA, NATO, NSG, OAS (observer), OIF, OPCW, OSCE, PCA, SELEC, UN, UNCTAD, UNESCO, UNHCR, UNIDO, UNMIL, UNWTO, UPU, Wassenaar Arrangement, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO, ZC

Flag description: three equal horizontal bands of white (top), green, and red; the pan-Slavic white-blue-red colors were modified by substituting a green band (representing freedom) for the blue

note: the national emblem, formerly on the hoist side of the white stripe, has been removed

National symbol(s): *lion; national colors:* white, green, red

National anthem: *name:* “Mila Rodino” (Dear Homeland)

lyrics/music: Tsvetan Tsvetkov RADOSLAVOV

note: adopted 1964; composed in 1885 by a student en route to fight in the Serbo-Bulgarian War

National heritage: *total World Heritage Sites:* 10 (7 cultural, 3 natural)
selected World Heritage Site locales: Boyana Church (c); Madara Rider (c); Thracian Tomb of Kazanlak (c); Rock- Hewn Churches of Ivanovo (c); Rila Monastery (c); Ancient City of Nessebar (c); Thracian Tomb of Sveshtari (c); Srebarna Nature Reserve (n); Pirin National Park (n); Primeval Beech Forests of the Carpathians (n)

ECONOMY

Economic overview: Bulgaria, a former communist country that entered the EU in 2007, has an open economy that historically has demonstrated strong growth, but its per-capita income remains the lowest among EU members and its reliance on energy imports and foreign demand for its exports makes its growth sensitive to external market conditions.

The government undertook significant structural economic reforms in the 1990s to move the economy from a centralized, planned economy to a more liberal, market-driven economy. These reforms included privatization of state-owned enterprises, liberalization of trade, and strengthening of the tax system - changes that initially caused some economic hardships but later helped to attract investment, spur growth, and make gradual improvements to living conditions. From 2000 through 2008, Bulgaria maintained robust, average annual real GDP growth in excess of 6%, which was followed by a deep recession in 2009 as the financial crisis caused domestic demand, exports, capital inflows and industrial production to contract, prompting the government to rein in spending. Real GDP growth remained slow - less than 2% annually - until 2015, when demand from EU countries for Bulgarian exports, plus an inflow of EU development funds, boosted growth to more than 3%. In recent years, strong domestic demand combined with low international energy prices have contributed to Bulgaria's economic growth approaching 4% and have also helped to ease inflation. Bulgaria's prudent public financial management contributed to budget surpluses both in 2016 and 2017.

Bulgaria is heavily reliant on energy imports from Russia, a potential vulnerability, and is a participant in EU-backed efforts to diversify regional natural gas supplies. In late 2016, the Bulgarian Government provided funding to Bulgaria's National Electric Company to cover the \$695 million compensation owed to Russian nuclear equipment manufacturer Atomstroyexport for the cancellation of the Belene Nuclear Power Plant project, which the Bulgarian Government terminated in

2012. As of early 2018, the government was floating the possibility of resurrecting the Belene project. The natural gas market, dominated by state-owned Bulgargaz, is also almost entirely supplied by Russia. Infrastructure projects such as the Inter-Connector Greece-Bulgaria and Inter-Connector Bulgaria-Serbia, which would enable Bulgaria to have access to non-Russian gas, have either stalled or made limited progress. In 2016, the Bulgarian Government established the State eGovernment Agency. This new agency is responsible for the electronic governance, coordinating national policies with the EU, and strengthening cybersecurity.

Despite a favorable investment regime, including low, flat corporate income taxes, significant challenges remain. Corruption in public administration, a weak judiciary, low productivity, lack of transparency in public procurements, and the presence of organized crime continue to hamper the country's investment climate and economic prospects.

Real GDP (purchasing power parity): \$155.06 billion (2020 est.)

Refined petroleum products - exports: 92,720 bbl/day (2015 est.)

country comparison to the world: 45

Refined petroleum products - imports: 49,260 bbl/day (2015 est.)

country comparison to the world: 83

Natural gas: *production:* 62.439 million cubic meters (2020 est.)

consumption: 2,929,401,000 cubic meters (2019 est.)

exports: 2.747 million cubic meters (2020 est.)

imports: 2,950,157,000 cubic meters (2019 est.)

proven reserves: 5.663 billion cubic meters (2021 est.)

Carbon dioxide emissions: 38.373 million metric tonnes of CO2 (2019 est.)

from coal and metallurgical coke: 20.483 million metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 12.248 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 5.642 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 67

Energy consumption per capita: 103.924 million Btu/person (2019 est.)

country comparison to the world: 55

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 872,757 (2020 est.)

subscriptions per 100 inhabitants: 13 (2020 est.)

country comparison to the world: 77

Telephones - mobile cellular: *total subscriptions:* 7,945,739 (2020 est.)

subscriptions per 100 inhabitants: 114 (2020 est.)

country comparison to the world: 98

Telecommunication systems: *general assessment:* Bulgaria's telecom market was for some years affected by the difficult macroeconomic climate, as well as by relatively high unemployment and a shrinking population; these factors continue to slow investments in the sector, though revenue growth has returned since 2019; there still remains pressure on revenue growth, with consumers migrating from fixed-line voice telephony to mobile and VoIP alternatives, while the volume of SMS and MMS traffic has been affected by the growing use of alternative OTT messaging services; investing in network upgrades and its development of services based on 5G have stimulated other market players to invest in their own service provision; by the end of 2022 about 70% of the population is expected to be covered by 5G; the broadband market in Bulgaria enjoys excellent cross-platform competition; the share of the market held by DSL has fallen steadily as a result of customers being migrated to fiber networks; by early 2021 about 65% of fixed-line broadband subscribers were on fiber infrastructure; Bulgaria joins the U.S. State Department's Clean Network initiative in a bid to protect its 5G communications networks (2022)

domestic: fixed-line over 13 per 100 persons, mobile-cellular teledensity, fostered by multiple service providers, is over 114 telephones per 100 persons (2020)

international: country code - 359; Caucasus Cable System via submarine cable provides connectivity to Ukraine, Georgia and Russia; a combination submarine cable and land fiber-optic system provides

connectivity to Italy, Albania, and Macedonia; satellite earth stations - 3 (1 Intersputnik in the Atlantic Ocean region, 2 Intelsat in the Atlantic and Indian Ocean regions) (2019)

Broadcast media: 4 national terrestrial TV stations with 1 state-owned and 3 privately owned; a vast array of TV stations are available from cable and satellite TV providers; state-owned national radio broadcasts over 3 networks; large number of private radio stations broadcasting, especially in urban areas

Internet country code: .bg

Internet users: *total:* 4,853,811 (2020 est.)

percent of population: 70% (2020 est.)

country comparison to the world: 92

Broadband - fixed subscriptions: *total:* 2,115,053 (2020 est.)

subscriptions per 100 inhabitants: 30 (2020 est.)

country comparison to the world: 56

TRANSPORTATION

National air transport system: *number of registered air carriers:* 8 (2020)

inventory of registered aircraft operated by air carriers: 44

annual passenger traffic on registered air carriers: 1,022,645 (2018)

annual freight traffic on registered air carriers: 1.38 million (2018) mt-km

Civil aircraft registration country code prefix: LZ

Airports: *total:* 68 (2021)

country comparison to the world: 72

Airports - with paved runways: *total:* 57

over 3,047 m: 2

2,438 to 3,047 m: 17

1,524 to 2,437 m: 12

under 914 m: 26 (2021)

Airports - with unpaved runways: *total:* 11

914 to 1,523 m: 2

under 914 m: 9 (2021)

Heliports: 1 (2021)

Pipelines: 2,765 km gas, 346 km oil, 378 km refined products (2017)

Railways: *total:* 5,114 km (2014)

standard gauge: 4,989 km (2014) 1,435-m gauge (2,880 km electrified)

narrow gauge: 125 km (2014) 0.760-m gauge

country comparison to the world: 37

Roadways: *total:* 19,512 km (2011)

paved: 19,235 km (2011) (includes 458 km of expressways)

unpaved: 277 km (2011)

note: does not include Category IV local roads

country comparison to the world: 115

Waterways: 470 km (2009)

country comparison to the world: 91

Merchant marine: *total:* 79

by type: bulk carrier 4, general cargo 14, oil tanker 8, other 53 (2021)

country comparison to the world: 99

Ports and terminals: *major seaport(s):* Burgas, Varna (Black Sea)

MILITARY AND SECURITY

Military and security forces: *Bulgarian Armed Forces:* Land Forces (Army), Naval Forces, Bulgarian Air Forces (Voennovazdushni Sili, VVS), Joint Special Forces; Ministry of Interior: Border Guards (2022)

Military expenditures: 1.7% of GDP (2022 est.)

1.6% of GDP (2021)

1.6% of GDP (2020)

3.1% of GDP (2019) (approximately \$2.95 billion)

1.5% of GDP (2018) (approximately \$1.72 billion)

country comparison to the world: 76

Military and security service personnel strengths: approximately 28,000 active duty personnel (17,000 Army; 4,000 Navy; 7,000 Air Force) (2022)

Military equipment inventories and acquisitions: the military's inventory consists primarily of Soviet-era equipment, although in recent years Bulgaria has procured limited amounts of more modern weapons systems from some Western countries (2022)

Military service age and obligation: 18 years of age for voluntary military service; conscription ended in 2007; service obligation 6-9 months (2022)

note 1: in 2021, women comprised about 17% of the Bulgarian military's full-time personnel

note 2: in 2020, Bulgaria announced a program to allow every citizen up to the age of 40 to join the armed forces for 6 months of military service in the voluntary reserve

Military - note: Bulgaria became a member of NATO in 2004; Bulgaria conducts its own air policing mission, but because of Russian aggression in the Black Sea region, NATO allies have sent detachments of fighters to augment the Bulgarian Air Force since 2014 (2022)

TERRORISM

Terrorist group(s): Islamic State of Iraq and ash-Sham (ISIS); Islamic Revolutionary Guard Corps/Qods Force

TRANSNATIONAL ISSUES

Disputes - international: none

Refugees and internally displaced persons: *refugees (country of origin):* 19,014 (Syria) (mid-year 2021); 51,864 (Ukraine) (as of 22 November 2022)

stateless persons: 1,143 (mid-year 2021)

note: 83,250 estimated refugee and migrant arrivals (January 2015-September 2022); Bulgaria is predominantly a transit country

Illicit drugs: source country for amphetamine tablets

BURKINA FASO

INTRODUCTION

Background: Many of Burkina Faso's ethnic groups arrived in the region between the 12th and 15th centuries. The Gurma and Mossi peoples established several of the largest kingdoms in the area and used horse-mounted warriors in military campaigns. Of the various Mossi kingdoms, the most powerful were Ouagadougou and Yatenga. In the late 19th century, European states competed for control of the region. France eventually conquered the area and established it as a French protectorate.

The area achieved independence from France in 1960 and changed its name to Burkina Faso in 1984. Repeated military coups were common in the country's first few decades. The last successful coup occurred in 1987 when Blaise COMPAORE deposed the former president, established a government, and ruled for 27 years. In October 2014, COMPAORE resigned following protests against his repeated efforts to amend the constitution's two-term presidential limit. An interim administration led a year-long transition period organizing presidential and legislative elections. In November 2015, Roch Marc Christian KABORE was elected president; he was reelected in November 2020.

Terrorist groups - including groups affiliated with Al-Qa'ida and the Islamic State - began attacks in the country in 2016 and conducted attacks in the capital in 2016, 2017, and 2018. By late 2021, insecurity in Burkina Faso had displaced 1.4 million people and led to significant jumps in humanitarian needs and food insecurity. In addition to terrorism, the country faces a myriad of problems including high population growth, recurring drought, pervasive and perennial food insecurity, and limited natural resources. It is one of the world's poorest countries.

GEOGRAPHY

Location: Western Africa, north of Ghana

Geographic coordinates: 13 00 N, 2 00 W

Map references: Africa

Area: *total:* 274,200 sq km

land: 273,800 sq km

water: 400 sq km

Area - comparative: slightly larger than Colorado

Land boundaries: *total:* 3,611 km

border countries (6): Benin 386 km; Cote d'Ivoire 545 km; Ghana 602 km; Mali 1325 km; Niger 622 km; Togo 131 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: three climate zones including a hot tropical savanna with a short rainy season in the southern half, a tropical hot semi-arid steppe climate typical of the Sahel region in the northern half, and small area of hot desert in the very north of the country bordering the Sahara Desert

Terrain: mostly flat to dissected, undulating plains; hills in the west and southeast; occupies an extensive plateau with savanna that is grassy in the north and gradually gives way to sparse forests in the south

Elevation: *highest point:* Tena Kourou 749 m

lowest point: Mouhoun (Black Volta) River 200 m

mean elevation: 297 m

Natural resources: gold, manganese, zinc, limestone, marble, phosphates, pumice, salt

Land use: *agricultural land:* 44.2% (2018 est.)

arable land: 22% (2018 est.)

permanent crops: 37% (2018 est.)

permanent pasture: 21.93% (2018 est.)

forest: 19.3% (2018 est.)

other: 36.5% (2018 est.)

Irrigated land: 550 sq km (2016)

Major rivers (by length in km): Volta river source (shared with Ghana [m]) - 1,600 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Niger (2,261,741 sq km), Volta (410,991 sq km)

Population distribution: Most of the population is located in the center and south. Nearly one-third of the population lives in cities. The capital and largest city is Ouagadougou (Ouaga), with a population of 1.8 million as shown in this population distribution map (2019)

Natural hazards: recurring droughts

Geography - note: landlocked savanna cut by the three principal rivers of the Black, Red, and White Voltas

PEOPLE AND SOCIETY

Population: 21,935,389 (2022 est.)

Nationality: *noun:* Burkinabe (singular and plural)

adjective: Burkinabe

Ethnic groups: Mossi 52%, Fulani 8.4%, Gurma 7%, Bobo 4.9%, Gurunsi 4.6%, Senufo 4.5%, Bissa 3.7%, Lobi 2.4%, Dagara 2.4%, Tuareg/Bella 1.9%, Dioula 0.8%, unspecified/no answer 0.3%, other 7.2% (2010 est.)

Languages: French (official), native African languages belonging to Sudanic family spoken by 90% of the population

Religions: Muslim 63.2%, Roman Catholic 24.6%, Protestant 6.9%, traditional/animist 4.2%, none 0.7%, unspecified 0.4% (2017-18 est.)

Demographic profile: Burkina Faso has a young age structure – the result of declining mortality combined with steady high fertility – and continues to experience rapid population growth, which is putting increasing pressure on the country's limited arable land. More than 65% of the population is under the age of 25, and the population is growing at 3% annually. Mortality rates, especially those of infants and children, have decreased because of improved health care, hygiene, and sanitation, but women continue to have an average of almost 6 children. Even if fertility were substantially reduced, today's large cohort entering their reproductive years would sustain high population growth for the foreseeable future. Only about a third of the population is literate and unemployment is widespread, dampening the economic prospects of Burkina Faso's large working-age population.

Migration has traditionally been a way of life for Burkinabe, with seasonal migration being replaced by stints of up to two years abroad. Cote d'Ivoire remains the top destination, although it has experienced periods of internal conflict. Under French colonization, Burkina Faso became a main labor source for agricultural and factory work in Cote d'Ivoire. Burkinabe also migrated to Ghana, Mali, and Senegal for work

between the world wars. Burkina Faso attracts migrants from Cote d'Ivoire, Ghana, and Mali, who often share common ethnic backgrounds with the Burkinabe. Despite its food shortages and high poverty rate, Burkina Faso has become a destination for refugees in recent years and hosts about 26,000 Malian refugees as of July 2022.

(2018)

Age structure: *0-14 years:* 43.58% (male 4,606,350/female 4,473,951)

15-24 years: 20.33% (male 2,121,012/female 2,114,213)

25-54 years: 29.36% (male 2,850,621/female 3,265,926)

55-64 years: 3.57% (male 321,417/female 423,016)

65 years and over: 3.16% (male 284,838/female 374,057) (2020 est.)

Dependency ratios: *total dependency ratio:* 87.9

youth dependency ratio: 83.4

elderly dependency ratio: 4.5

potential support ratio: 22.1 (2020 est.)

Median age: *total:* 17.9 years

male: 17 years

female: 18.7 years (2020 est.)

Population growth rate: 2.53% (2022 est.)

Birth rate: 33.57 births/1,000 population (2022 est.)

Death rate: 7.71 deaths/1,000 population (2022 est.)

Net migration rate: -0.61 migrant(s)/1,000 population (2022 est.)

Population distribution: Most of the population is located in the center and south. Nearly one-third of the population lives in cities. The capital and largest city is Ouagadougou (Ouaga), with a population of 1.8 million as shown in this population distribution map

(2019)

Urbanization: *urban population:* 31.9% of total population (2022)

rate of urbanization: 4.75% annual rate of change (2020-25 est.)

Major urban areas - population: 3.056 million OUAGADOUGOU (capital), 1.074 million Bobo-Dioulasso (2022)

Sex ratio: *at birth:* 1.03 male(s)/female

0-14 years: 1.03 male(s)/female

15-24 years: 1.01 male(s)/female

25-54 years: 0.86 male(s)/female

55-64 years: 0.75 male(s)/female

65 years and over: 0.66 male(s)/female

total population: 0.96 male(s)/female (2022 est.)

Mother's mean age at first birth: 19.4 years (2010 est.)

note: data represents median age at first birth among women 25-29

Maternal mortality ratio: 320 deaths/100,000 live births (2017 est.)

Infant mortality rate: *total:* 49.42 deaths/1,000 live births

male: 53.7 deaths/1,000 live births

female: 45.02 deaths/1,000 live births (2022 est.)

Life expectancy at birth: *total population:* 63.44 years

male: 61.63 years

female: 65.31 years (2022 est.)

Total fertility rate: 4.27 children born/woman (2022 est.)

Contraceptive prevalence rate: 35.3% (2020/21)

Drinking water source: *improved: urban:* 94.7% of population

rural: 71.3% of population

total: 78.5% of population

unimproved: urban: 5.3% of population

rural: 28.7% of population

total: 21.5% of population (2020 est.)

Current health expenditure: 5.5% of GDP (2019)

Physicians density: 0.09 physicians/1,000 population (2019)

Hospital bed density: 0.4 beds/1,000 population

Sanitation facility access: *improved: urban:* 90.8% of population

rural: 37.7% of population

total: 54% of population

unimproved: urban: 9.2% of population

rural: 62.3% of population

total: 46% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 0.7% (2020 est.)

Major infectious diseases: *degree of risk:* very high (2020)

food or waterborne diseases: bacterial and protozoal diarrhea, hepatitis A, and typhoid fever

vectorborne diseases: dengue fever and malaria

water contact diseases: schistosomiasis

animal contact diseases: rabies

respiratory diseases: meningococcal meningitis

note: on 21 March 2022, the US Centers for Disease Control and Prevention (CDC) issued a Travel Alert for polio in Africa; Burkina Faso is currently considered a high risk to travelers for circulating vaccine-derived polioviruses (cVDPV); vaccine-derived poliovirus (VDPV) is a strain of the weakened poliovirus that was initially included in oral polio vaccine (OPV) and *that has changed over time and behaves more like the wild or naturally occurring virus*; this means it can be spread more easily to people who are unvaccinated against polio and who come in contact with the stool or respiratory secretions, such as from a sneeze, of an “infected” person who received oral polio vaccine; the CDC recommends that before any international travel, anyone unvaccinated, incompletely vaccinated, or with an unknown polio vaccination status should complete the routine polio vaccine series; before travel to any high-risk destination, the CDC recommends that adults who previously completed the full, routine polio vaccine series receive a single, lifetime booster dose of polio vaccine

Obesity - adult prevalence rate: 5.6% (2016)

Alcohol consumption per capita: *total:* 7.28 liters of pure alcohol (2019 est.)

beer: 1 liters of pure alcohol (2019 est.)

wine: 0.08 liters of pure alcohol (2019 est.)

spirits: 0.31 liters of pure alcohol (2019 est.)

other alcohols: 5.88 liters of pure alcohol (2019 est.)

Tobacco use: *total*: 14.3% (2020 est.)

male: 22.1% (2020 est.)

female: 6.4% (2020 est.)

Children under the age of 5 years underweight: 16.4% (2019)

Education expenditures: 5.8% of GDP (2019 est.)

Literacy: *definition*: age 15 and over can read and write

total population: 39.3%

male: 49.2%

female: 31% (2018)

School life expectancy (primary to tertiary education): *total*: 9 years

male: 9 years

female: 9 years (2020)

Unemployment, youth ages 15-24: *total*: 8.6%

male: 8.9%

female: 8.4% (2019)

ENVIRONMENT

Environment - current issues: recent droughts and desertification severely affecting agricultural activities, population distribution, and the economy; overgrazing; soil degradation; deforestation (2019)

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Marine Life Conservation, Ozone Layer Protection, Wetlands

signed, but not ratified: Nuclear Test Ban

Air pollutants: *particulate matter emissions:* 36.78 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 3.42 megatons (2016 est.)

methane emissions: 12.85 megatons (2020 est.)

Climate: three climate zones including a hot tropical savanna with a short rainy season in the southern half, a tropical hot semi-arid steppe climate typical of the Sahel region in the northern half, and small area of hot desert in the very north of the country bordering the Sahara Desert

Land use: *agricultural land:* 44.2% (2018 est.)

arable land: 22% (2018 est.)

permanent crops: 37% (2018 est.)

permanent pasture: 21.93% (2018 est.)

forest: 19.3% (2018 est.)

other: 36.5% (2018 est.)

Urbanization: *urban population:* 31.9% of total population (2022)

rate of urbanization: 4.75% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 4.54% of GDP (2018 est.)

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

Food insecurity: *severe localized food insecurity:* due to civil

insecurity in the north - according to the latest analysis, 3.45 million people are projected to be food insecure and in need of humanitarian assistance between June and August 2022; in Centre-Nord and Sahel regions, insecurity continues to cause population displacements and, as of March 2022, about 1.85 million people had been displaced and required assistance; domestic cereal production in 2021 was estimated at a below-average level due to effects of adverse weather and civil conflict, further aggravating conditions; abnormally high prices of food are also a contributory factor that have constrained access to food; the coup d'état that occurred in January 2022 is an additional factor that could increase civil insecurity and further stress food insecurity conditions (2022)

Waste and recycling: *municipal solid waste generated annually:* 2,575,251 tons (2015 est.)

municipal solid waste recycled annually: 309,030 tons (2005 est.)

percent of municipal solid waste recycled: 12% (2005 est.)

Major rivers (by length in km): Volta river source (shared with Ghana [m]) - 1,600 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Niger (2,261,741 sq km), Volta (410,991 sq km)

Total water withdrawal: *municipal:* 375.6 million cubic meters (2017 est.)

industrial: 21.7 million cubic meters (2017 est.)

agricultural: 420.7 million cubic meters (2017 est.)

Total renewable water resources: 13.5 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Burkina Faso

local long form: none

local short form: Burkina Faso

former: Upper Volta, Republic of Upper Volta

etymology: name translates as “Land of the Honest (Incorruptible) Men”

Government type: presidential republic

Capital: *name:* Ouagadougou

geographic coordinates: 12 22 N, 1 31 W

time difference: UTC 0 (5 hours ahead of Washington, DC, during Standard Time)

etymology: Ouagadougou is a Francophone spelling of the native name “Wogodogo,” meaning “where people get honor and respect”

Administrative divisions: 13 regions; Boucle du Mouhoun, Cascades, Centre, Centre-Est, Centre-Nord, Centre-Ouest, Centre-Sud, Est, Hauts-Bassins, Nord, Plateau-Central, Sahel, Sud-Ouest

Independence: 5 August 1960 (from France)

National holiday: Republic Day, 11 December (1958); note - commemorates the day that Upper Volta became an autonomous republic in the French Community

Constitution: *history:* several previous; latest approved by referendum 2 June 1991, adopted 11 June 1991, temporarily suspended late October to mid-November 2014; initial draft of a new constitution to usher in the new republic was completed in January 2017 and a final draft was submitted to the government in December 2017; a constitutional referendum originally scheduled for adoption in March 2019 was postponed; on 1 March 2022 a transition charter was adopted, allowing military authorities to rule for three years and barring transitional President Lt. Col. Paul-Henri Sandaogo DAMIBA from being an electoral

candidate after the transition

amendments: proposed by the president, by a majority of National Assembly membership, or by petition of at least 30,000 eligible voters submitted to the Assembly; passage requires at least three-fourths majority vote in the Assembly; failure to meet that threshold requires majority voter approval in a referendum; constitutional provisions on the form of government, the multiparty system, and national sovereignty cannot be amended; amended several times

Legal system: civil law based on the French model and customary law; in mid-2019, the National Assembly amended the penal code

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Burkina Faso

dual citizenship recognized: yes

residency requirement for naturalization: 10 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* transitional President Capt Ibrahim TRAORE (since 30 September 2022); note - on 30 September 2022, a military junta led by TRAORE, took power and ousted President Lt. Col. Paul-Henri Sandaogo DAMIBA and took over as head of the Patriotic Movement for Safeguard and Restoration.

head of government: Prime Minister Albert OUEDRAOGO (since 3 March 2022); note - transitional President Lt. Col. DAMIBA appointed OUEDRAOGO Prime Minister on 3 March 2022; the position had been vacant since 24 January 2022 when the military ousted former Prime Minister Lassina ZERBO

cabinet: Council of Ministers appointed by the president on the recommendation of the prime minister

elections/appointments: president elected by absolute majority popular vote in 2 rounds if needed for a 5-year term (eligible for a second); last

held on 22 November 2020 (next to be held in November 2025); prime minister appointed by the president with consent of the National Assembly; note - on 1 March 2022 a transition charter was adopted, allowing military authorities to rule for three years and barring transitional President Lt. Col. Paul-Henri Sandaogo DAMIBA from being an electoral candidate after the transition.

election results: 2020: Roch Marc Christian KABORE reelected president in first round; percent of vote - Roch Marc Christian KABORE (MPP) 57.9%, Eddie KOMBOIGO (CDP) 15.5%, Zephirin DIABRE (UPC) 12.5%, other 14.1%

2015: Roch Marc Christian KABORE elected president in first round; percent of vote - Roch Marc Christian KABORE (MPP) 53.5%, Zephirin DIABRE (UPC) 29.6%, Tahirou BARRY (PAREN) 3.1%, Benewende Stanislas SANKARA (UNIRMS) 2.8%, other 10.9%

Legislative branch: *description:* unicameral National Assembly (127 seats; 111 members directly elected in 13 multi-seat constituencies by party-list proportional representation vote and 26 members elected in a nationwide constituency by proportional representation vote; all member serve 5-year terms)

elections: last held on 22 November 2020 (next to be held in November 2025)

election results: percent of vote by party - MPP 34.6%, CDP 13.3%, UPC 10.2%, NTD 5.6%, other 36.3%; seats by party - MPP 56, CDP 20, NTD 13, UPC 12, other 26; composition as of October 2021 - men 119, women 8, percent of women 6.3%

Judicial branch: *highest court(s):* Supreme Court of Appeals or Cour de Cassation (consists of NA judges); Council of State (consists of NA judges); Constitutional Council or Conseil Constitutionnel (consists of the council president and 9 members)

judge selection and term of office: Supreme Court judge appointments mostly controlled by the president of Burkina Faso; judges have no term limits; Council of State judge appointment and tenure NA; Constitutional Council judges appointed by the president of Burkina Faso upon the

proposal of the minister of justice and the president of the National Assembly; judges appointed for 9-year terms with one-third of membership renewed every 3 years

subordinate courts: Appeals Court; High Court; first instance tribunals; district courts; specialized courts relating to issues of labor, children, and juveniles; village (customary) courts

Political parties and leaders: Act Together [Kadre OUEDRAOGO]

African Democratic Rally/Alliance for Democracy and Federation or

ADF/RDA [Gilbert Noel OUEDRAOGO]

Congress for Democracy and Progress or CDP [Eddie KOMBOIGO]

Convergence for Progress and Solidarity-Generation 3 or CPS-G3

Movement for the Future Burkina Faso or MBF

National Convention for Progress or CNP

New Era for Democracy or NTD [Vincent DABILGOU]

Pan-African Alliance for Refoundation or APR

Party for Democracy and Socialism/Metba or PDS/Metba [Philippe OUEDRAOGO]

Party for Development and Change or PDC [Aziz SEREME]

Patriotic Rally for Integrity or RPI

Peoples Movement for Progress or MPP [Roch Marc Christian KABORE]

Progressives United for Renewal or PUR

Union for Progress and Reform or UPC [Zephirin DIABRE]

Union for Rebirth - Sankarist Party or UNIR-PS [Benewende Stanislas SANKARA]

note: only parties with seats in the National Assembly included

International organization participation: ACP, AfDB, AU, CD, ECOWAS, EITI (compliant country), Entente, FAO, FZ, G-77, IAEA, IBRD, ICAO, ICC (NGOs), ICCT, ICRM, IDA, IDB, IFAD, IFC, IFRCs, ILO, IMF, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), MIGA, MINUSMA, MONUSCO, NAM, OIC, OIF, OPCW, PCA, UN, UNAMID, UNCTAD, UNESCO, UNIDO, UNISFA, UNITAR, UNWTO, UPU, WADB (regional), WAEMU, WCO, WFTU (NGOs),

Flag description: two equal horizontal bands of red (top) and green with a yellow five-pointed star in the center; red recalls the country’s struggle for independence, green is for hope and abundance, and yellow represents the country’s mineral wealth

note: uses the popular Pan-African colors of Ethiopia

National symbol(s): *white stallion; national colors:* red, yellow, green

National anthem: *name:* “Le Ditanye” (Anthem of Victory)

lyrics/music: Thomas SANKARA

note: adopted 1974; also known as “Une Seule Nuit” (One Single Night); written by the country’s former president, an avid guitar player

National heritage: *total World Heritage Sites:* 3 (2 cultural, 1 natural)

selected World Heritage Site locales: Ruins of Loropéni (c); Ancient Ferrous Metallurgy Sites (c); W-Arly-Pendjari Complex (n)

ECONOMY

Economic overview: Burkina Faso is a poor, landlocked country that depends on adequate rainfall. Irregular patterns of rainfall, poor soil, and the lack of adequate communications and other infrastructure contribute to the economy's vulnerability to external shocks. About 80% of the population is engaged in subsistence farming and cotton is the main cash crop. The country has few natural resources and a weak industrial base.

Cotton and gold are Burkina Faso's key exports - gold has accounted for about three-quarters of the country's total export revenues. Burkina Faso's economic growth and revenue depends largely on production levels and global prices for the two commodities. The country has seen an upswing in gold exploration, production, and exports.

In 2016, the government adopted a new development strategy, set forth in the 2016-2020 National Plan for Economic and Social Development, that aims to reduce poverty, build human capital, and to satisfy basic needs. A new three-year IMF program (2018-2020), approved in 2018, will allow the government to reduce the budget deficit and preserve critical spending on social services and priority public investments.

While the end of the political crisis has allowed Burkina Faso's economy to resume positive growth, the country's fragile security situation could put these gains at risk. Political insecurity in neighboring Mali, unreliable energy supplies, and poor transportation links pose long-term challenges.

Real GDP (purchasing power parity): \$45.16 billion (2020 est.)

\$44.27 billion (2019 est.)

\$41.88 billion (2018 est.)

note: data are in 2017 dollars

Real GDP growth rate: 6.4% (2017 est.)

5.9% (2016 est.)

3.9% (2015 est.)

Real GDP per capita: \$2,200 (2020 est.)

\$2,200 (2019 est.)

\$2,100 (2018 est.)

note: data are in 2017 dollars

GDP (official exchange rate): \$14.271 billion (2018 est.)

Inflation rate (consumer prices): -3.2% (2019 est.)

1.9% (2018 est.)

1.4% (2017 est.)

Credit ratings:

Standard & Poors rating: *B (2017)*

note: The year refers to the year in which the current credit rating was first obtained.

GDP - composition, by sector of origin: *agriculture: 31% (2017 est.)*

industry: 23.9% (2017 est.)

services: 44.9% (2017 est.)

GDP - composition, by end use: *household consumption: 56.5% (2017 est.)*

government consumption: 23.9% (2017 est.)

investment in fixed capital: 24.6% (2017 est.)

investment in inventories: 1% (2017 est.)

exports of goods and services: 28.4% (2017 est.)

imports of goods and services: -34.4% (2017 est.)

Agricultural products: sorghum, maize, millet, cotton, cow peas, sugar cane, groundnuts, rice, sesame seed, vegetables

Industries: cotton lint, beverages, agricultural processing, soap, cigarettes, textiles, gold

Industrial production growth rate: 10.4% (2017 est.)

Labor force: 8.501 million (2016 est.)

note: a large part of the male labor force migrates annually to neighboring countries for seasonal employment

Labor force - by occupation: *agriculture:* 90%

ENERGY

Electricity access: *electrification - total population: 22% (2019)*

electrification - urban areas: 69% (2019)

electrification - rural areas: 2% (2019)

Electricity: *installed generating capacity: 392,000 kW (2020 est.)*

consumption: 2,033,520,000 kWh (2019 est.)

exports: 0 kWh (2019 est.)

imports: 600 million kWh (2019 est.)

transmission/distribution losses: 248 million kWh (2019 est.)

Electricity generation sources: *fossil fuels: 89.4% of total installed capacity (2020 est.)*

solar: 3.3% of total installed capacity (2020 est.)

hydroelectricity: 6.9% of total installed capacity (2020 est.)

biomass and waste: 0.4% of total installed capacity (2020 est.)

Petroleum: *total petroleum production: 0 bbl/day (2021 est.)*

refined petroleum consumption: 30,800 bbl/day (2019 est.)

Refined petroleum products - imports: 23,580 bbl/day (2015 est.)

Carbon dioxide emissions: 4.444 million metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 4.444 million metric tonnes of CO₂ (2019 est.)

Energy consumption per capita: 3.23 million Btu/person (2019 est.)

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 75,039 (2020 est.)
subscriptions per 100 inhabitants: (2020 est.) less than 1

Telephones - mobile cellular: *total subscriptions:* 22,117,218 (2020 est.)
subscriptions per 100 inhabitants: 106 (2020 est.)

Telecommunication systems: *general assessment:* Burkina Faso's telecom sector in recent years has made some gains in providing the necessary infrastructure and bandwidth to support telecom services; an IXP completed in September 2020 increased international bandwidth capacity by a third, while in mid-2021 the government was able to start the second phase of a national fiber backbone project; this will link the capital city to an addition 145 municipalities, and provide additional connectivity to terrestrial cables in neighboring countries; the activities of the militants in side areas of the country jeopardize overall security, and render it difficult for the telcos to safeguard their networks and equipment; Burkina Faso joins G5 Sahel countries to eliminate roaming fees (2022)

domestic: fixed-line connections stand at less than 1 per 100 persons; mobile-cellular usage nearly 106 per 100, with multiple providers there is competition and the hope for growth from a low base; Internet penetration is 16% (2020)

international: country code - 226; satellite earth station - 1 Intelsat (Atlantic Ocean)

Broadcast media: since the official inauguration of Terrestrial Digital Television (TNT) in December 2017, Burkina Faso now has 14 digital TV channels among which 2 are state-owned; there are more than 140 radio stations (commercial, religious, community) available throughout the country including a national and regional state-owned network; the state-owned Radio Burkina and the private Radio Omega are among the most widespread stations and both include broadcasts in French and local languages (2019)

Internet country code: .bf

Internet users: *total:* 4,598,721 (2020 est.)

percent of population: 22% (2020 est.)

Broadband - fixed subscriptions: *total:* 13,979 (2020 est.)

subscriptions per 100 inhabitants: 0.1 (2020 est.)

TRANSPORTATION

National air transport system: *number of registered air carriers:* 1 (2020)

inventory of registered aircraft operated by air carriers: 3

annual passenger traffic on registered air carriers: 151,531 (2018)

annual freight traffic on registered air carriers: 100,000 (2018) mt-km

Civil aircraft registration country code prefix: XT

Airports: *total:* 23 (2021)

Airports - with paved runways: *total:* 2

over 3,047 m: 1

2,438 to 3,047 m: 1 (2021)

Airports - with unpaved runways: *total:* 21

1,524 to 2,437 m: 3

914 to 1,523 m: 13

under 914 m: 5 (2021)

Railways: *total:* 622 km (2014)

narrow gauge: 622 km (2014) 1.000-m gauge

note: another 660 km of this railway extends into Cote d'Ivoire

Roadways: *total:* 15,304 km (2014)

paved: 3,642 km (2014)

unpaved: 11,662 km (2014)

MILITARY AND SECURITY

Military and security forces: Armed Forces of Burkina Faso (FABF): Army of Burkina Faso (L'Armee de Terre, LAT), Air Force of Burkina Faso (Force Aerienne de Burkina Faso, FABF), National Gendarmerie; Volunteers for the Defense of the Fatherland (VDP) (2022)

note 1: the National Gendarmerie officially reports to the Ministry of Defense, but usually operates in support of the Ministry of Security and the Ministry of Justice; Gendarmerie troops are typically integrated with Army forces in antiterrorism operations

note 2: the VDP is a civilian defense force established in 2019 to act as auxiliaries to the Army in the fight against militants; the volunteers receive two weeks of training and typically assist with carrying out surveillance, information-gathering, and escort duties

Military expenditures: 2.4% of GDP (2021 est.)

2.4% of GDP (2020 est.)

2.2% of GDP (2019 est.) (approximately \$450 million)

1.9% of GDP (2018 est.) (approximately \$370 million)

1.4% of GDP (2017 est.) (approximately \$260 million)

Military and security service personnel strengths: approximately 13,000 personnel (8,000 Army; 500 Air Force; 4,500 National Gendarmerie) (2022)

note 1: in 2019, the Burkina Faso Government announced an initial strength goal for the VDF of 15,000 members, but in October 2022 announced plans to recruit up to 50,000 VDF volunteers

note 2: in 2022, Burkina Faso announced a special recruitment for 3,000 additional soldiers to assist with its fight against terrorist groups operating in the country

Military equipment inventories and acquisitions: the FABF has a mix of foreign-supplied weapons; since 2010, it has received limited amounts of mostly donated secondhand equipment from a variety of countries (2022)

Military service age and obligation: 18-26 years of age for voluntary military service; no conscription; women may serve in supporting roles (2022)

Military deployments: 650 (plus about 180 police) Mali (MINUSMA) (May 2022)

note: Burkina Faso is part of a four (formerly five)-nation anti-jihadist task force known as the G4 Sahel Group, set up in 2014 with Chad, Mali (withdrew in 2022), Mauritania, and Niger; it has committed 550 troops and 100 gendarmes to the force; as of 2020, defense forces from each of the participating states were allowed to pursue terrorist fighters up to 100 km into neighboring countries; the force is backed by France, the UN, and the US

Military - note: including the most recent in October 2022, the military has conducted eight coups since 1960; as of 2022, the military was also actively engaged in combat operations with terrorist groups linked to al-Qa'ida and the Islamic State of Iraq and ash-Sham (ISIS), particularly in the northern and eastern regions; in the north, Jama'at Nusrat al-Islam wal-Muslimin (JNIM), a coalition of al-Qa'ida linked militant groups, has exploited ethnic tensions and perceptions of state neglect, as well as grievances over corruption, patronage politics, social stratification, and land disputes; in 2022, JNIM conducted attacks in 10 of the country's 13 provinces; most of the attacks were assessed to be by the Macina Liberation Front (FLM) of the JNIM coalition; the ISIS-Greater Sahara (ISIS-GS) terrorist group operated in the eastern part of the country; in 2022, an estimated 40% of the country was not under government control (2022)

TERRORISM

Terrorist group(s): Ansarul Islam; Islamic State of Iraq and ash-Sham in the Greater Sahara (ISIS-GS); al-Mulathamun Battalion (al-Mourabitoun); Jama'at Nusrat al-Islam wal-Muslimin (JNIM)

TRANSNATIONAL ISSUES

Disputes - international: adding to illicit cross-border activities, Burkina Faso has issues concerning unresolved boundary alignments with its neighbors; demarcation is currently underway with Mali; the dispute with Niger was referred to the ICJ in 2010, and a dispute over several villages with Benin persists; Benin retains a border dispute with Burkina Faso around the town of Koualau/Kourou

Refugees and internally displaced persons: *refugees (country of origin):* 33,611 (Mali) (2022)

IDPs: 1,761,915 (2022)

BURMA

INTRODUCTION

Background: Burma, colonized by Britain in the 19th century and granted independence post-World War II, contains ethnic Burman and scores of other ethnic and religious minority groups that have all resisted external efforts to consolidate control of the country throughout its history, extending to the several minority groups today that possess independent fighting forces and control pockets of territory. Burman and armed ethnic minorities fought off-and-on until military Gen. NE WIN seized power in 1962. He ruled Burma until 1988 when a military junta took control. In 1990, the junta permitted an election but then rejected the results when the main opposition National League for Democracy (NLD) and its leader AUNG SAN SUU KYI (ASSK) won in a landslide. The junta placed ASSK under house arrest for much of the next 20 years, until November 2010. In 2007, rising fuel prices in Burma led pro-democracy activists and Buddhist monks to launch a “Saffron Revolution” consisting of large protests against the ruling junta, which violently suppressed the movement by killing an unknown number of participants and arresting thousands. The regime prevented new elections until it had drafted a constitution designed to preserve its control; it passed the new constitution in its 2008 referendum, days after Cyclone Nargis killed at least 138,000. The junta conducted an election in 2010, but the NLD boycotted the vote, and the military’s Union Solidarity and Development Party easily won; international observers denounced the election as flawed.

With former or current military officers installed in its most senior positions, Burma began a halting process of political and economic reforms. Officials freed prisoners, brokered ceasefires with ethnic armed organizations (EAOs), amended courts, expanded civil liberties, brought ASSK into government in 2012, and permitted the NLD in 2015 to take power after a sweeping electoral win.

However, Burma’s first credibly elected civilian government, with ASSK as the de facto head of state, faced strong headwinds after five decades of military dictatorship. The NLD government drew international

criticism for blocking investigations of Burma's military for operations, which the US Department of State determined constituted genocide, on its Rohingya population that killed thousands and forced more than 770,000 Rohingya to flee into neighboring Bangladesh. The military did not support an NLD pledge in 2019 to examine reforming the military's 2008 constitution. When the 2020 elections resulted in further NLD gains, the military denounced them as fraudulent. This challenge led Commander-in-Chief Sr. General MIN AUNG HLAING (MAH) to launch a coup in February 2021 that has left Burma reeling with the return to authoritarian rule, the detention of ASSK and thousands of pro-democracy actors, and renewed brutal repression against protestors, widespread violence, and economic decline.

Since the coup and subsequent crackdown, lawmakers elected in the November 2020 election and members of parliament ousted by the military have formed a shadow National Unity Government (NUG). Members of the NUG include representatives from the NLD, ethnic minority groups, civil society, and other minor parties. In May 2021, the NUG announced the formation of an armed wing called the People's Defense Force, and in September announced the start of an insurgency against the military junta that has continued into 2022.

GEOGRAPHY

Location: Southeastern Asia, bordering the Andaman Sea and the Bay of Bengal, between Bangladesh and Thailand

Geographic coordinates: 22 00 N, 98 00 E

Map references: Southeast Asia

Area: *total:* 676,578 sq km

land: 653,508 sq km

water: 23,070 sq km

country comparison to the world: 42

Area - comparative: slightly smaller than Texas

Land boundaries: *total:* 6,522 km

border countries (5): Bangladesh 271 km; China 2,129 km; India 1,468 km; Laos 238 km; Thailand 2,416 km

Coastline: 1,930 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

continental shelf: 200 nm or to the edge of the continental margin

Climate: tropical monsoon; cloudy, rainy, hot, humid summers (southwest monsoon, June to September); less cloudy, scant rainfall, mild temperatures, lower humidity during winter (northeast monsoon, December to April)

Terrain: central lowlands ringed by steep, rugged highlands

Elevation: *highest point:* Gamlang Razi 5,870 m

lowest point: Andaman Sea/Bay of Bengal 0 m

mean elevation: 702 m

Natural resources: petroleum, timber, tin, antimony, zinc, copper, tungsten, lead, coal, marble, limestone, precious stones, natural gas, hydropower, arable land

Land use: *agricultural land*: 19.2% (2018 est.)

arable land: 16.5% (2018 est.)

permanent crops: 2.2% (2018 est.)

permanent pasture: 0.5% (2018 est.)

forest: 48.2% (2018 est.)

other: 32.6% (2018 est.)

Irrigated land: 22,950 sq km (2012)

Major rivers (by length in km): Mekong (shared with China [s], Laos, Thailand, Cambodia, and Vietnam [m]) - 4,350 km; Salween river mouth (shared with China [s] and Thailand) - 3,060 km; Irrawaddy river mouth (shared with China [s]) - 2,809 km; Chindwin - 1,158 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Indian Ocean drainage: Brahmaputra (651,335 sq km), Ganges (1,016,124 sq km), Irrawaddy (413,710 sq km), Salween (271,914 sq km)

Pacific Ocean drainage: Mekong (805,604 sq km)

Population distribution: population concentrated along coastal areas and in general proximity to the shores of the Irrawaddy River; the extreme north is relatively underpopulated

Natural hazards: destructive earthquakes and cyclones; flooding and landslides common during rainy season (June to September); periodic droughts

Geography - note: strategic location near major Indian Ocean shipping lanes; the north-south flowing Irrawaddy River is the country's largest and most important commercial waterway

PEOPLE AND SOCIETY

Population: 57,526,449 (2022 est.)

country comparison to the world: 25

Nationality: *noun:* Burmese (singular and plural)

adjective: Burmese

Ethnic groups: Burman (Bamar) 68%, Shan 9%, Karen 7%, Rakhine 4%, Chinese 3%, Indian 2%, Mon 2%, other 5%

note: government recognizes 135 indigenous ethnic groups

Languages: Burmese (official)

major-language sample(s):

ကဏ္ဍအချက်အလက်စာအုပ်- အခြေခံအချက်အလက်တွေအတွက် မရှိမဖြစ်တဲ့ အချင်းအမြစ် (Burmese)

note: minority ethnic groups use their own languages

Religions: Buddhist 87.9%, Christian 6.2%, Muslim 4.3%, Animist 0.8%, Hindu 0.5%, other 0.2%, none 0.1% (2014 est.)

note: religion estimate is based on the 2014 national census, including an estimate for the non-enumerated population of Rakhine State, which is assumed to mainly affiliate with the Islamic faith; as of December 2019, Muslims probably make up less than 3% of Burma's total population due to the large outmigration of the Rohingya population since 2017

Demographic profile: Burma's 2014 national census – the first in more than 30 years – revealed that the country's total population is approximately 51.5 million, significantly lower than the Burmese Government's prior estimate of 61 million. The Burmese Government assumed that the 2% population growth rate between 1973 and 1983 remained constant and that emigration was zero, ignoring later sample surveys showing declining fertility rates and substantial labor migration abroad in recent decades. These factors reduced the estimated average annual growth rate between 2003 and 2014 to about .9%. Among Southeast Asian countries, Burma's life expectancy is among the lowest and its infant and maternal mortality rates are among the highest. The large difference in life expectancy between women and men has resulted

in older age cohorts consisting of far more women than men.

Burma's demographic transition began in the 1950s, when mortality rates began to drop. Fertility did not start to decrease until the 1960s, sustaining high population growth until the decline accelerated in the 1980s. The birth rate has held fairly steady from 2000 until today. Since the 1970s, the total fertility rate (TFR) has fallen more than 60%, from almost 6 children per woman to 2.2 in 2016. The reduced TFR is largely a result of women marrying later and more women never marrying, both being associated with greater educational attainment and labor force participation among women. TFR, however, varies regionally, between urban and rural areas, by educational attainment, and among ethnic groups, with fertility lowest in urban areas (where it is below replacement level).

The shift in Burma's age structure has been slow (45% of the population is still under 25 years of age) and uneven among its socioeconomic groups. Any economic boost from the growth of the working-age population is likely to take longer to develop, to have a smaller impact, and to be distributed unequally. Rural poverty and unemployment continue to drive high levels of internal and international migration. The majority of labor migration is internal, mainly from rural to urban areas. The new government's growing regional integration, reforms, and improved diplomatic relations are increasing the pace of international migration and destination choices. As many as 4-5 million Burmese, mostly from rural areas and several ethnic groups, have taken up unskilled jobs abroad in agriculture, fishing, manufacturing, and domestic service. Thailand is the most common destination, hosting about 70% of Burma's international migrants, followed by Malaysia, China, and Singapore.

Burma is a patchwork of more than 130 religious and ethnic groups, distinguishing it as one of the most diverse countries in the region. Ethnic minorities face substantial discrimination, and the Rohingya, the largest Muslim group, are arguably the most persecuted population in the country. The Burmese Government and the Buddhist majority see the Rohingya as a threat to identity, competitors for jobs and resources,

terrorists, and some still resent them for their alliance with Burma's British colonizers during its 19th century. Since at least the 1960s, they have been subjected to systematic human rights abuses, violence, marginalization, and disenfranchisement, which authorities continue to deny. Despite living in Burma for centuries, many Burmese see the Rohingya as illegal Bengali immigrants and refer to them Bengalis. As a result, the Rohingya have been classified as foreign residents and stripped of their citizenship, rendering them one of the largest stateless populations in the world.

Hundreds of thousands of Burmese from various ethnic groups have been internally displaced (an estimated 644,000 as of year-end 2016) or have fled to neighboring countries over the decades because of persecution, armed conflict, rural development projects, drought, and natural disasters. Bangladesh has absorbed the most refugees from Burma, with an estimated 33,000 officially recognized and 200,000 to 500,000 unrecognized Rohingya refugees, as of 2016. An escalation in violation has caused a surge in the inflow of Rohingya refugees since late August 2017, raising the number to an estimated 870,000. As of June 2017, another approximately 132,500 refugees, largely Rohingya and Chin, were living in Malaysia, and more than 100,000, mostly Karen, were housed in camps along the Burma-Thailand border.

Age structure: 0-14 years: 25.97% (male 7,524,869/female 7,173,333)

15-24 years: 17% (male 4,852,122/female 4,769,412)

25-54 years: 42.76% (male 11,861,971/female 12,337,482)

55-64 years: 8.22% (male 2,179,616/female 2,472,681)

65 years and over: 6.04% (male 1,489,807/female 1,928,778) (2020 est.)

potential support ratio: 10.9 (2020 est.)

Median age: total: 29.2 years

male: 28.3 years

female: 30 years (2020 est.)

country comparison to the world: 133

Population growth rate: 0.78% (2022 est.)

country comparison to the world: 118

Birth rate: 16.34 births/1,000 population (2022 est.)

country comparison to the world: 99

Death rate: 7.13 deaths/1,000 population (2022 est.)

country comparison to the world: 115

Net migration rate: -1.37 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 156

Population distribution: population concentrated along coastal areas and in general proximity to the shores of the Irrawaddy River; the extreme north is relatively underpopulated

Urbanization: *urban population:* 31.8% of total population (2022)

rate of urbanization: 1.85% annual rate of change (2020-25 est.)

Major urban areas - population: 5.514 million RANGOON (Yangon) (capital), 1.501 million Mandalay (2022)

Sex ratio: *at birth:* 1.06 male(s)/female

0-14 years: 1.05 male(s)/female

15-24 years: 1.02 male(s)/female

25-54 years: 0.96 male(s)/female

55-64 years: 0.89 male(s)/female

65 years and over: 0.63 male(s)/female

total population: 0.97 male(s)/female (2022 est.)

Mother's mean age at first birth: 24.7 years (2015/16 est.)

note: data represents median age at first birth among women 25-49

Maternal mortality ratio: 250 deaths/100,000 live births (2017 est.)

country comparison to the world: 42

Infant mortality rate: *total:* 32.94 deaths/1,000 live births

male: 36.18 deaths/1,000 live births

female: 29.52 deaths/1,000 live births (2022 est.)

country comparison to the world: 44

Life expectancy at birth: *total population:* 69.92 years

male: 68.27 years

female: 71.67 years (2022 est.)

country comparison to the world: 172

Total fertility rate: 2.02 children born/woman (2022 est.)

country comparison to the world: 104

Contraceptive prevalence rate: 52.2% (2015/16)

Drinking water source: *improved: urban:* 95.4% of population

rural: 80.7% of population

total: 85.3% of population

unimproved: urban: 4.6% of population

rural: 19.3% of population

total: 14.7% of population (2020 est.)

Current health expenditure: 4.7% of GDP (2019)

Physicians density: 0.74 physicians/1,000 population (2019)

Hospital bed density: 1 beds/1,000 population (2017)

Sanitation facility access: *improved: urban:* 93.9% of population

rural: 81.3% of population

total: 85.2% of population

unimproved: urban: 6.1% of population

rural: 18.7% of population

total: 14.8% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 0.6% (2019 est.)

country comparison to the world: 58

Major infectious diseases: *degree of risk:* very high (2020)

food or waterborne diseases: bacterial and protozoal diarrhea, hepatitis A, and typhoid fever

vectorborne diseases: dengue fever, malaria, and Japanese encephalitis

animal contact diseases: rabies

Obesity - adult prevalence rate: 5.8% (2016)

country comparison to the world: 172

Alcohol consumption per capita: *total:* 2.06 liters of pure alcohol (2019 est.)

beer: 0.5 liters of pure alcohol (2019 est.)

wine: 0.02 liters of pure alcohol (2019 est.)

spirits: 1.55 liters of pure alcohol (2019 est.)

other alcohols: 0 liters of pure alcohol (2019 est.)

country comparison to the world: 128

Tobacco use: *total:* 44.1% (2020 est.)

male: 68.5% (2020 est.)

female: 19.7% (2020 est.)

country comparison to the world: 2

Children under the age of 5 years underweight: 19.1% (2017/18)

country comparison to the world: 23

Child marriage: *women married by age 15:* 1.9%

women married by age 18: 16%

men married by age 18: 5% (2016 est.)

Education expenditures: 2% of GDP (2019 est.)

country comparison to the world: 178

Literacy: *definition:* age 15 and over can read and write

total population: 89.1%

male: 92.4%

female: 86.3% (2019)

School life expectancy (primary to tertiary education): *total:* 11 years

male: 10 years

female: 11 years (2018)

Unemployment, youth ages 15-24: *total:* 1.5%

male: 1.4%

female: 1.6% (2019 est.)

ENVIRONMENT

Environment - current issues: deforestation; industrial pollution of air, soil, and water; inadequate sanitation and water treatment contribute to disease; rapid depletion of the country's natural resources

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands

signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 34.69 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 25.28 megatons (2016 est.)

methane emissions: 42.2 megatons (2020 est.)

Climate: tropical monsoon; cloudy, rainy, hot, humid summers (southwest monsoon, June to September); less cloudy, scant rainfall, mild temperatures, lower humidity during winter (northeast monsoon, December to April)

Land use: *agricultural land:* 19.2% (2018 est.)

arable land: 16.5% (2018 est.)

permanent crops: 2.2% (2018 est.)

permanent pasture: 0.5% (2018 est.)

forest: 48.2% (2018 est.)

other: 32.6% (2018 est.)

Urbanization: *urban population:* 31.8% of total population (2022)

rate of urbanization: 1.85% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 1.69% of GDP (2018 est.)

country comparison to the world: 38

Revenue from coal: *coal revenues:* 0.01% of GDP (2018 est.)

country comparison to the world: 47

Food insecurity: *severe localized food insecurity: due to conflict, political instability, and economic constraints* - the political crisis, following the military takeover on 1 February 2021, resulted in increased tensions and unrest throughout the country; the current uncertain political situation may further compromise the fragile situation of vulnerable households and the Rohingya IDPs residing in the country; armed conflict between the military and non-state armed groups led to population displacements, disrupted agricultural activities and limited access for humanitarian support especially in Rakhine, Chin, Kachin, Kayin, Kayah and Shan states; income losses and a decline in remittances, due to the impact of the COVID-19 pandemic, have affected the food security situation of vulnerable households; domestic prices of Emata rice, the most consumed variety in the country, were at high levels in May 2022, constraining access to a key staple food (2022)

Waste and recycling: *municipal solid waste generated annually:* 4,677,307 tons (2000 est.)

Major rivers (by length in km): Mekong (shared with China [s], Laos, Thailand, Cambodia, and Vietnam [m]) - 4,350 km; Salween river mouth (shared with China [s] and Thailand) - 3,060 km; Irrawaddy river mouth (shared with China [s]) - 2,809 km; Chindwin - 1,158 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Indian Ocean drainage: Brahmaputra (651,335 sq km), Ganges (1,016,124 sq km), Irrawaddy (413,710 sq km), Salween (271,914 sq km)

Pacific Ocean drainage: Mekong (805,604 sq km)

Total water withdrawal: *municipal:* 3.323 billion cubic meters (2017 est.)

industrial: 498.4 million cubic meters (2017 est.)

agricultural: 29.57 billion cubic meters (2017 est.)

Total renewable water resources: 1.168 trillion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Union of Burma

conventional short form: Burma

local long form: Pyidaungzu Thammada Myanma Naingngandaw
(translated as the Republic of the Union of Myanmar)

local short form: Myanma Naingngandaw

former: Socialist Republic of the Union of Burma, Union of Myanmar

etymology: both “Burma” and “Myanmar” derive from the name of the majority Burman (Bamar) ethnic group

note: since 1989 the military authorities in Burma and the deposed parliamentary government have promoted the name Myanmar as a conventional name for their state; the US Government has not officially adopted the name

Government type: parliamentary republic

Capital: *name:* Rangoon (aka Yangon, continues to be recognized as the primary Burmese capital by the US Government); Nay Pyi Taw is the administrative capital

geographic coordinates: 16 48 N, 96 10 E

time difference: UTC+6.5 (11.5 hours ahead of Washington, DC, during Standard Time)

etymology: Rangoon/Yangon derives from the Burmese words *yan* and *koun*, which mean “enemies” and “expelled” respectively and provide the meaning of “end of strife”; Nay Pyi Taw translates as: “Great City of the Sun” or “Abode of Kings”

Administrative divisions: 7 regions (taing-myar, singular - taing), 7 states (pyi ne-myar, singular - pyi ne), 1 union territory

regions: Ayeyarwady (Irrawaddy), Bago, Magway, Mandalay, Sagaing, Tanintharyi, Yangon (Rangoon)

states: Chin, Kachin, Kayah, Karen, Mon, Rakhine, Shan

union territory: Nay Pyi Taw

Independence: 4 January 1948 (from the UK)

National holiday: Independence Day, 4 January (1948); Union Day, 12 February (1947)

Constitution: *history:* previous 1947, 1974 (suspended until 2008); latest drafted 9 April 2008, approved by referendum 29 May 2008

amendments: proposals require at least 20% approval by the Assembly of the Union membership; passage of amendments to sections of the constitution on basic principles, government structure, branches of government, state emergencies, and amendment procedures requires 75% approval by the Assembly and approval in a referendum by absolute majority of registered voters; passage of amendments to other sections requires only 75% Assembly approval; military granted 25% of parliamentary seats by default; amended 2015

Legal system: mixed legal system of English common law (as introduced in codifications designed for colonial India) and customary law

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: both parents must be citizens of Burma

dual citizenship recognized: no

residency requirement for naturalization: none

note: an applicant for naturalization must be the child or spouse of a citizen

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* Prime Minister, State Administration Council (SAC) Chair, Sr. Gen. MIN AUNG HLAING (since 1 August 2021); note - MIN AUNG HLAING self-appointed himself to the role of prime minister of a “caretaker” provisional government that subsumed the SAC on 1 August 2021; the SAC, chaired by MIN AUNG HLAING, has served as the executive governing body since 2 February 2021, following the 1 February 2021 military takeover of the government and the declaration of a state of emergency and still exists under the provisional

government according to state media

head of government: Prime Minister, State Administration Council (SAC) Chair, Sr. Gen. MIN AUNG HLAING (since 1 August 2021); MIN AUNG HLAING self-appointed himself to the role of prime minister of a “caretaker” provisional government that subsumed the SAC on 1 August 2021

cabinet: Cabinet appointments shared by the president and the commander-in-chief; note - after 1 February, the military junta replaced the cabinet

elections/appointments: prior to the military takeover, president was indirectly elected by simple majority vote by the full Assembly of the Union from among 3 vice-presidential candidates nominated by the Presidential Electoral College (consists of members of the lower and upper houses and military members); the other 2 candidates become vice presidents (president elected for a 5-year term); election last held on 28 March 2018; the military junta pledged to hold new elections in 2023

election results: 2018: WIN MYINT elected president in an indirect by-election held on 28 March 2018 after the resignation of HTIN KYAW; Assembly of the Union vote - WIN MYINT (NLD) 403, MYINT SWE (USDP) 211, HENRY VAN THIO (NLD) 18, 4 votes canceled (636 votes cast); note - WIN MYINT and other key leaders of the ruling NLD party were placed under arrest following the military takeover on 1 February 2021

2016: Assembly of the Union vote - HTIN KYAW elected president; HTIN KYAW (NLD) 360, MYINT SWE (USDP) 213, HENRY VAN THIO (NLD) 79 (652 votes cast)

state counsellor: State Counselor AUNG SAN SUU KYI (since 6 April 2016); note - under arrest since 1 February 2021 (has been sentenced to 26 years in prison as of October 2022); formerly served as minister of foreign affairs and minister for the office of the president

note: a parliamentary bill creating the position of “state counsellor” was signed into law by former President HTIN KYAW on 6 April 2016; a state counsellor serves the equivalent term of the president and is similar to a prime minister in that the holder acts as a link between the parliament

and the executive branch

Legislative branch: *description:* bicameral Assembly of the Union or Pyidaungsu consists of:

House of Nationalities or Amyotha Hluttaw, (224 seats; 168 members directly elected in single-seat constituencies by absolute majority vote with a second round if needed and 56 appointed by the military; members serve 5-year terms) House of Representatives or Pyithu Hluttaw, (440 seats, currently 433; 330 members directly elected in single-seat constituencies by simple majority vote and 110 appointed by the military; members serve 5-year terms); note - on 1 February 2021, the military dissolved the Assembly of the Union; the State Administration Council (SAC) governs in place of the Assembly of the Union

elections: House of Nationalities - last held on 8 November 2020 (next to be held in 2025)

House of Representatives - last held on 8 November 2020 (next to be held in 2025); note - the military junta overturned the results of the 8 November legislative elections

election results: House of Nationalities - percent of vote by party - NLD 61.6%, USDP 3.1%, ANP 1.8%, MUP 1.3%, KySDP 1.3%, other 5.9%, military appointees 25%; seats by party - NLD 138, USDP 7, ANP 4, MUP 3, KySPD 3, SNLD 2, TNP 2, other 2, canceled due to insurgency 7, military appointees 56

House of Representatives - percent of vote by party - NLD 58.6%, USDP 5.9%, SNLD 3.0%, other 7.5%, military 25%; seats by party - NLD 258, USDP 26, SNLD 13, ANP 4, PNO 3, TNP 3, MUP 2, KySPD 2, other 4, canceled due to insurgency 15, military appointees 110

Judicial branch: *highest court(s):* Supreme Court of the Union (consists of the chief justice and 7-11 judges)

judge selection and term of office: chief justice and judges nominated by the president, with approval of the Lower House, and appointed by the president; judges normally serve until mandatory retirement at age 70

subordinate courts: High Courts of the Region; High Courts of the State; Court of the Self-Administered Division; Court of the Self-Administered

Zone; district and township courts; special courts (for juvenile, municipal, and traffic offenses); courts martial

Political parties and leaders: Arakan National Party or ANP [THAR TUN HLA]

Democratic Party or DP [U THU WAI]

Kayah State Democratic Party or KySDP

Kayin People's Party or KPP [TUN AUNG MYINT]

Kokang Democracy and Unity Party or KDUP [LUO XINGGUANG]

La Hu National Development Party or LHNDP [KYA HAR SHAL]

Lisu National Development Party or LNDP [U ARKI DAW]

Mon Unity Party (formed in 2019 from the All Mon Region Democracy Party and Mon National Party)

National Democratic Force or NDF [KHIN MAUNG SWE]

National League for Democracy or NLD [AUNG SAN SUU KYI]

National Unity Party or NUP [U HAN SHWE]

Pa-O National Organization or PNO [AUNG KHAM HTI]

People's Party [KO KO GYI]

Shan Nationalities Democratic Party or SNDP [SAI AI PAO]

Shan Nationalities League for Democracy or SNLD

Ta'ang National Party or TNP [AIK MONE]

Tai-Leng Nationalities Development Party or TNDP [U SAI HTAY AUNG]

Union Solidarity and Development Party or USDP [THAN HTAY]

Unity and Democracy Party of Kachin State or UDPKS [U KHAT HTEIN NAN]

Wa Democratic Party or WDP [KHUN HTUN LU]

Wa National Unity Party or WNUP [NYI PALOTE]

Zomi Congress for Democracy or ZCD [PU CIN SIAN THANG]

numerous smaller parties

International organization participation: ADB, ARF, ASEAN, BIMSTEC, CP, EAS, EITI (candidate country), FAO, G-77, IAEA, IBRD, ICAO, ICRM, IDA, IFAD, IFC, IFRCS, IHO, ILO, IMF, IMO, Interpol, IOC, IOM, IPU, ISO (correspondent), ITU, ITUC (NGOs),

Flag description: design consists of three equal horizontal stripes of yellow (top), green, and red; centered on the green band is a large white five-pointed star that partially overlaps onto the adjacent colored stripes; the design revives the triband colors used by Burma from 1943-45, during the Japanese occupation

National symbol(s): *chinthé* (mythical lion); *national colors:* yellow, green, red, white

National anthem: *name:* “Kaba Ma Kyei” (Till the End of the World, Myanmar)

lyrics/music: SAYA TIN

note: adopted 1948; Burma is among a handful of non-European nations

that have anthems rooted in indigenous traditions; the beginning portion of the anthem is a traditional Burmese anthem before transitioning into a Western-style orchestrated work

National heritage: *total World Heritage Sites:* 2 (both cultural)
selected World Heritage Site locales: Pyu Ancient Cities; Bagan

ECONOMY

Economic overview: Since Burma began the transition to a civilian-led government in 2011, the country initiated economic reforms aimed at attracting foreign investment and reintegrating into the global economy. Burma established a managed float of the Burmese kyat in 2012, granted the Central Bank operational independence in July 2013, enacted a new anti-corruption law in September 2013, and granted licenses to 13 foreign banks in 2014-16. State Counsellor AUNG SAN SUU KYI and the ruling National League for Democracy, who took power in March 2016, have sought to improve Burma's investment climate following the US sanctions lift in October 2016 and reinstatement of Generalized System of Preferences trade benefits in November 2016. In October 2016, Burma passed a foreign investment law that consolidates investment regulations and eases rules on foreign ownership of businesses.

Burma's economic growth rate recovered from a low growth under 6% in 2011 but has been volatile between 6% and 8% between 2014 and 2018. Burma's abundant natural resources and young labor force have the potential to attract foreign investment in the energy, garment, information technology, and food and beverage sectors. The government is focusing on accelerating agricultural productivity and land reforms, modernizing and opening the financial sector, and developing transportation and electricity infrastructure. The government has also taken steps to improve transparency in the mining and oil sectors through publication of reports under the Extractive Industries Transparency Initiative (EITI) in 2016 and 2018.

Despite these improvements, living standards have not improved for the majority of the people residing in rural areas. Burma remains one of the poorest countries in Asia – approximately 26% of the country's 51 million people live in poverty. The isolationist policies and economic mismanagement of previous governments have left Burma with poor infrastructure, endemic corruption, underdeveloped human resources, and inadequate access to capital, which will require a major commitment to reverse. The Burmese Government has been slow to address impediments

to economic development such as unclear land rights, a restrictive trade licensing system, an opaque revenue collection system, and an antiquated banking system.

Real GDP (purchasing power parity): \$247.24 billion (2020 est.)

Refined petroleum products - production: 13,330 bbl/day (2017 est.)

country comparison to the world: 97

Refined petroleum products - exports: 0 bbl/day (2015 est.)

country comparison to the world: 137

Refined petroleum products - imports: 102,600 bbl/day (2015 est.)

country comparison to the world: 53

Natural gas: *production:* 17,710,912,000 cubic meters (2019 est.)

consumption: 3,612,431,000 cubic meters (2019 est.)

exports: 14,188,161,000 cubic meters (2019 est.)

imports: 475.156 million cubic meters (2020 est.)

proven reserves: 637.128 billion cubic meters (2021 est.)

Carbon dioxide emissions: 31.848 million metric tonnes of CO2 (2019 est.)

from coal and metallurgical coke: 3.881 million metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 20.832 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 7.134 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 75

Energy consumption per capita: 10.679 million Btu/person (2019 est.)

country comparison to the world: 154

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 523,951 (2020 est.)

subscriptions per 100 inhabitants: 1 (2020 est.)

country comparison to the world: 92

Telephones - mobile cellular: *total subscriptions:* 78,548,329 (2020 est.)

subscriptions per 100 inhabitants: 144 (2020 est.)

country comparison to the world: 21

Telecommunication systems: *general assessment:* Burma, one of the least developed telecom markets in Asia, saw growth in mobile and broadband services through foreign competition and roll out of 4G and 5G networks; infrastructure development challenged by flooding, unreliable electricity, inefficient bureaucracy, and corruption; digital divide affects rural areas; fixed broadband remains low due to number of fixed-lines and near saturation of the mobile platform; healthy m-banking platform; tests for NB-IoT; benefit from launch of regional satellite; government utilizes intermittent censorship and shut-down of Internet in political crisis (2020)

domestic: fixed-line is just under 1 per 100, while mobile-cellular is roughly 144 per 100 (2020)

international: country code - 95; landing points for the SeaMeWe-3, SeaMeWe-5, AAE-1 and Singapore-Myanmar optical telecommunications submarine cable that provides links to Asia, the Middle East, Africa, Southeast Asia, Australia and Europe; satellite earth stations - 2, Intelsat (Indian Ocean) and ShinSat (2019)

Broadcast media: government controls all domestic broadcast media; 2 state-controlled TV stations with 1 of the stations controlled by the armed forces; 2 pay-TV stations are joint state-private ventures; access to satellite TV is limited; 1 state-controlled domestic radio station and 9 FM stations that are joint state-private ventures; transmissions of several international broadcasters are available in parts of Burma; the Voice of America (VOA), Radio Free Asia (RFA), BBC Burmese service, the

Democratic Voice of Burma (DVB), and Radio Australia use shortwave to broadcast in Burma; VOA, RFA, and DVB produce daily TV news programs that are transmitted by satellite to audiences in Burma; in March 2017, the government granted licenses to 5 private broadcasters, allowing them digital free-to-air TV channels to be operated in partnership with government-owned Myanmar Radio and Television (MRTV) and will rely upon MRTV's transmission infrastructure; following the February 2021 military coup, the regime revoked the media licenses of most independent outlets, including the free-to-air licenses for DVB and Mizzima (2022)

Internet country code: .mm

Internet users: *total:* 19,043,428 (2020 est.)

percent of population: 35% (2020 est.)

country comparison to the world: 40

Broadband - fixed subscriptions: *total:* 688,185 (2020 est.)

subscriptions per 100 inhabitants: 1 (2020 est.)

country comparison to the world: 81

TRANSPORTATION

National air transport system: *number of registered air carriers:* 8 (2020)

inventory of registered aircraft operated by air carriers: 42

annual passenger traffic on registered air carriers: 3,407,788 (2018)

annual freight traffic on registered air carriers: 4.74 million (2018) mt-km

Civil aircraft registration country code prefix: XY

Ports and terminals: *major seaport(s):* Mawlamyine (Moulmein),
Sittwe

river port(s): Rangoon (Yangon) (Rangoon River)

MILITARY AND SECURITY

Military and security forces: *Burmese Defense Service (Tatmadaw):* Army (Tatmadaw Kyi), Navy (Tatmadaw Yay), Air Force (Tatmadaw Lay); People's Militia; Ministry of Home Affairs: People's Police Force; Border Guard Forces/Police (2022)

note: under the 2008 constitution, the Tatmadaw controls appointments of senior officials to lead the Ministry of Defense, the Ministry of Border Affairs, and the Ministry of Home Affairs; in March 2022, a new law gave the commander-in-chief of the Tatmadaw the authority to appoint or remove the head of the police force

Military expenditures: 3.4% of GDP (2021 est.)

3% of GDP (2020 est.)

4.1% of GDP (2019 est.) (approximately \$7.7 billion)

4.4% of GDP (2018 est.) (approximately \$8.1 billion)

4.7% of GDP (2017 est.) (approximately \$7.8 billion)

country comparison to the world: 26

Military and security service personnel strengths: estimates vary widely, from approximately 300,000 to as many as 400,000 active duty personnel (2022)

Military equipment inventories and acquisitions: the Burmese military inventory is comprised mostly of older Chinese and Russian/Soviet-era equipment with a smaller mix of more modern acquisitions; since 2010, China and Russia have been the leading suppliers of military hardware; Burma has a limited defense industry, including a growing shipbuilding capability (2022)

Military service age and obligation: 18-35 years of age (men) and 18-27 years of age (women) for voluntary military service; no conscription (a 2010 law reintroducing conscription has not yet entered into force); 2-year service obligation; male (ages 18-45) and female (ages 18-35) professionals (including doctors, engineers, mechanics) serve up to 3 years; service terms may be stretched to 5 years in an officially declared

emergency (2021)

Military - note: since the country's founding, the armed forces have been heavily involved in domestic politics, running the country for five decades following a military coup in 1962; prior to the 2021 coup, the military already controlled three key security ministries (Defense, Border, and Home Affairs), one of two vice presidential appointments, 25% of the parliamentary seats, and had a proxy political party, the Union Solidarity and Development Party (USDP)

as of 2022, the military owned and operated two business conglomerates that had over 100 subsidiaries and close ties to other companies; the business activities of these conglomerates included banking and insurance, hotels, tourism, jade and ruby mining, timber, construction, real estate, and the production of palm oil, sugar, soap, cement, beverages, drinking water, coal, and gas; some of the companies supplied goods and services to the military, such as food, clothing, insurance, and cellphone service; the military also managed a film industry, publishing houses, and television stations

as of 2022, the military's primary operational focus was internal security, particularly attempts to quell a growing armed insurgency against the 2021 coup and operations against ethnic-based separatist groups; these operations have resulted in numerous civilian casualties, human rights abuses, and internal displacement--ethnic-based armed groups have been fighting for self-rule against the Burmese Government since the country's 1948 independence; as of 2022, there were approximately 20 such groups operating in Burma with strengths of a few hundred up to more than 20,000 estimated fighters; some were organized along military lines with "brigades" and "divisions" and armed with heavy weaponry, including artillery; they reportedly controlled an estimated one-third of the country's territory, primarily in the border regions; key groups included the United Wa State Army, Karen National Union, Kachin Independence Army, Arakan Army, Ta'ang National Liberation Army, and the Myanmar Nationalities Democratic Alliance Army

as of 2022, Burma also had a large number of other armed militias

which took many different forms and varied in allegiances and size; most were pro-military junta and associated with the Burmese military (Tatmadaw); some were integrated within the Tatmadaw's command structure as Border Guard Forces (BGF); the BGF were organized as 325-man battalions, which included a mix of militia forces, ethnic armed groups, and government soldiers; they were armed, supplied, and paid by the Tatmadaw; other pro-military government militias were not integrated within the Tatmadaw command structure but received direction from the military and were recognized as government militias; the amount of support they received from the Tatmadaw varied depending on local security conditions; the third type of pro-government militias were small community-based units that were armed, coordinated, and trained by local Tatmadaw forces and activated as needed; as of 2022, the military junta government was raising new militia units to help combat the popular uprising

in mid-2022, the rebel National Unity Government claimed its armed wing, the People's Defense Force (PDF), had more than 60,000 fighters organized into battalions; in addition, several armed ethnic groups have added their support to antijunta resistance groups or joined forces with local units of the PDF (2022)

TRANSNATIONAL ISSUES

Disputes - international: over half of Burma's population consists of diverse ethnic groups who have substantial numbers of kin in neighboring countries; Bangladesh struggles to accommodate 912,000 Rohingya, Burmese Muslim minority from Rakhine State, living as refugees in Cox's Bazar; Burmese border authorities are constructing a 200 km (124 mi) wire fence designed to deter illegal cross-border transit and tensions from the military build-up along border with Bangladesh in 2010; Bangladesh referred its maritime boundary claims with Burma and India to the International Tribunal on the Law of the Sea; Burmese forces attempting to dig in to the largely autonomous Shan State to rout local militias tied to the drug trade, prompts local residents to periodically flee into neighboring Yunnan Province in China; fencing along the India-Burma international border at Manipur's Moreh town is in progress to check illegal drug trafficking and movement of militants; over 100,000 mostly Karen refugees and asylum seekers fleeing civil strife, political upheaval, and economic stagnation in Burma were living in remote camps in Thailand near the border as of May 2017

Refugees and internally displaced persons: *IDPs:* 671,011 (government offensives against armed ethnic minority groups near its borders with China and Thailand, natural disasters, forced land evictions) (2021)

stateless persons: 600,000 (mid-year 2021); note - Rohingya Muslims, living predominantly in Rakhine State, are Burma's main group of stateless people; the Burmese Government does not recognize the Rohingya as a "national race" and stripped them of their citizenship under the 1982 Citizenship Law, categorizing them as "non-nationals" or "foreign residents;" under the Rakhine State Action Plan drafted in October 2014, the Rohingya must demonstrate their family has lived in Burma for at least 60 years to qualify for a lesser naturalized citizenship and the classification of Bengali or be put in detention camps and face deportation; native-born but non-indigenous people, such as Indians, are

also stateless; the Burmese Government does not grant citizenship to children born outside of the country to Burmese parents who left the country illegally or fled persecution, such as those born in Thailand; the number of stateless persons has decreased dramatically because hundreds of thousands of Rohingya have fled to Bangladesh since 25 August 2017 to escape violence

Trafficking in persons: *current situation:* human traffickers exploit men, women, and children through forced labor, and women and children in sex trafficking in Burma and abroad; Burmese men are forced to work domestically and abroad in fishing, manufacturing, forestry, agriculture, and construction; fishermen are lured into forced labor in remote waters and offshore by recruitment agencies in Burma and Southeast Asia; Burmese women increasingly are lured to China for marriage under false pretenses and are subjected to sex trafficking, forced concubinage and childbearing, and forced domestic labor; men, women, and children in ethnic minority areas are at increased risk of sex trafficking and forced labor in farming, manufacturing, and construction; men and boys are recruited locally by traffickers for forced labor in oil palm, banana, and rubber plantations, in mining, fishing, and bamboo, teak, rice, and sugarcane harvesting; some military personnel, civilian brokers, border guard officials, and ethnic armed groups continue to recruit child soldiers, particularly in conflict areas

tier rating: Tier 3 — Burma does not fully meet the minimum standards for the elimination of trafficking and is not making significant efforts to do so; authorities increased the investigation and prosecution of trafficking crimes, including those involving officials, and the investigation of forced labor in the fishing sector; the government identified and referred more victims to care and enacted legislation enhancing protections for child victims; however, a policy or pattern of forced labor existed; the use of children in labor and support roles by the military increased in conflict zones in Rakhine and Shan States; displacement resulting from military conflict made Rohingya and other ethnic groups vulnerable to human trafficking; the constitutionally guaranteed power of the military continued to limit the government's

ability to address forced adult labor and child soldier recruitment; although authorities allocated increased funding to victim protection, most services to trafficking victims were provided by NGOs and foreign donors (2020)

Illicit drugs: a major source of illicit methamphetamine and opiates; illicit import of precursor chemicals from China increased production and trafficking of synthetic drugs; second-largest opium poppy cultivator in Asia, with an estimated 20,200 hectares grown in 2019; “Yaba,” a tablet containing methamphetamine, caffeine, and other stimulants, is produced in Burma and trafficked regionally; ethnic armed organizations, military-affiliated militias, and transnational criminal organizations oversee billion dollar drug production and trafficking industry; drugs produced in Burma are trafficked beyond Southeast Asia to Australia, New Zealand, and Japan; not a major source or transit country for drugs entering the United States
(2021)

BURUNDI

INTRODUCTION

Background: Established in the 1600s, the Burundi Kingdom has had borders similar to those of modern Burundi since the 1800s. Burundi's two major ethnic groups, the majority Hutu and minority Tutsi, share a common language and culture and largely lived in peaceful cohabitation under Tutsi monarchs in pre-colonial Burundi. Regional, class, and clan distinctions contributed to social status in the Burundi Kingdom, yielding a complex class structure. German colonial rule in the late 19th and early 20th centuries and Belgian rule after World War I preserved Burundi's monarchy. Seeking to simplify administration, Belgian colonial officials reduced the number of chiefdoms and eliminated most Hutu chiefs from positions of power. In 1961, the Burundian Tutsi king's oldest son, Louis RWAGASORE was murdered by a competing political faction shortly before he was set to become prime minister, triggering increased political competition that contributed to later instability. Burundi gained its independence from Belgium in 1962 as the Kingdom of Burundi.

Revolution in neighboring Rwanda stoked ethnic polarization as the Tutsi increasingly feared violence and loss of political power. A failed Hutu-led coup in 1965 triggered a purge of Hutu officials and set the stage for Tutsi officers to overthrow the monarchy in 1966 and establish a Tutsi-dominated republic. A Hutu rebellion in 1972 that resulted in the death of several thousand Tutsi civilians sparked a brutal crackdown on Hutu civilians by the Tutsi-led military, which ultimately killed 100,000-200,000 people. International pressure led to a new constitution in 1992 and democratic elections in June 1993. Burundi's first democratically elected president, Hutu Melchior NDADAYE, was assassinated in October 1993 after only 100 days in office by Tutsi military officers fearing Hutu domination, sparking a civil war. His successor, Cyprien NTARYAMIRA, died when the Rwandan president's plane he was traveling on was shot down in April 1994, which triggered the Rwandan genocide and further entrenched ethnic conflict in Burundi. The internationally brokered Arusha Agreement, signed in 2000, and subsequent cease-fire agreements with armed movements ended the

1993-2005 civil war. Burundi's second democratic elections were held in 2005, resulting in the election of Pierre NKURUNZIZA as president. He was reelected in 2010 and again in 2015 after a controversial court decision allowed him to circumvent a term limit. President Evariste NDAYISHIMIYE - from NKURUNZIZA's ruling party - was elected in 2020.

GEOGRAPHY

Location: Central Africa, east of the Democratic Republic of the Congo, west of Tanzania

Geographic coordinates: 3 30 S, 30 00 E

Map references: Africa

Area: *total:* 27,830 sq km

land: 25,680 sq km

water: 2,150 sq km

country comparison to the world: 146

Area - comparative: slightly smaller than Maryland

Land boundaries: *total:* 1,140 km

border countries (3): Democratic Republic of the Congo 236 km; Rwanda 315 km; Tanzania 589 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: equatorial; high plateau with considerable altitude variation (772 m to 2,670 m above sea level); average annual temperature varies with altitude from 23 to 17 degrees Celsius but is generally moderate as the average altitude is about 1,700 m; average annual rainfall is about 150 cm; two wet seasons (February to May and September to November), and two dry seasons (June to August and December to January)

Terrain: hilly and mountainous, dropping to a plateau in east, some plains

Elevation: *highest point:* unnamed elevation on Mukike Range 2,685 m

lowest point: Lake Tanganyika 772 m

mean elevation: 1,504 m

Natural resources: nickel, uranium, rare earth oxides, peat, cobalt, copper, platinum, vanadium, arable land, hydropower, niobium, tantalum, gold, tin, tungsten, kaolin, limestone

Land use: *agricultural land:* 73.3% (2018 est.)

arable land: 38.9% (2018 est.)

permanent crops: 15.6% (2018 est.)

permanent pasture: 18.8% (2018 est.)

forest: 6.6% (2018 est.)

other: 20.1% (2018 est.)

Irrigated land: 230 sq km (2012)

Major lakes (area sq km): *fresh water lake(s):* Lake Tanganyika (shared with Democratic Republic of Congo, Tanzania, and Zambia) - 32,000 sq km

Major watersheds (area sq km): Atlantic Ocean drainage: Congo (3,730,881 sq km), (*Mediterranean Sea*) Nile (3,254,853 sq km)

Population distribution: one of Africa's most densely populated countries; concentrations tend to be in the north and along the northern shore of Lake Tanganyika in the west; most people live on farms near areas of fertile volcanic soil as shown in this population distribution map

Natural hazards: flooding; landslides; drought

Geography - note: landlocked; straddles crest of the Nile-Congo watershed; the Kagera, which drains into Lake Victoria, is the most remote headstream of the White Nile

PEOPLE AND SOCIETY

Population: 12,696,478 (2022 est.)

country comparison to the world: 77

Nationality: *noun:* Burundian(s)

adjective: Burundian

Ethnic groups: Hutu, Tutsi, Twa (Pygmy)

Languages: Kirundi only 29.7% (official); French only 0.3% (official); Swahili only 0.2%; English only 0.1% (official); Kirundi and French 8.4%; Kirundi, French, and English 2.4%, other language combinations 2%, unspecified 56.9% (2008 est.)

major-language sample(s): Igitabo Mpuzamakungu c'ibimenyetso bifatika, isoko ntabanduka ku nkuru z'urufatiro. (Kirundi)

note: data represent languages read and written by people 10 years of age or older; spoken Kirundi is nearly universal

Religions: Roman Catholic 58.6%, Protestant 35.3% (includes Adventist 2.7% and other Protestant 32.6%), Muslim 3.4%, other 1.3%, none 1.3% (2016-17 est.)

Demographic profile: Burundi is a densely populated country with a high population growth rate, factors that combined with land scarcity and poverty place a large share of its population at risk of food insecurity. About 90% of the population relies on subsistence agriculture. Subdivision of land to sons, and redistribution to returning refugees, results in smaller, overworked, and less productive plots. Food shortages, poverty, and a lack of clean water contribute to a 60% chronic malnutrition rate among children. A lack of reproductive health services has prevented a significant reduction in Burundi's maternal mortality and fertility rates, which are both among the world's highest. With two-thirds of its population under the age of 25 and a birth rate of about 6 children per woman, Burundi's population will continue to expand rapidly for decades to come, putting additional strain on a poor country.

Historically, migration flows into and out of Burundi have consisted

overwhelmingly of refugees from violent conflicts. In the last decade, more than a half million Burundian refugees returned home from neighboring countries, mainly Tanzania. Reintegrating the returnees has been problematic due to their prolonged time in exile, land scarcity, poor infrastructure, poverty, and unemployment. Repatriates and existing residents (including internally displaced persons) compete for limited land and other resources. To further complicate matters, international aid organizations reduced their assistance because they no longer classified Burundi as a post-conflict country. Conditions have deteriorated since renewed violence erupted in April 2015, causing another outpouring of refugees. In addition to refugee out-migration, Burundi has hosted thousands of refugees from neighboring countries, mostly from the Democratic Republic of the Congo and lesser numbers from Rwanda.

Age structure: *0-14 years:* 43.83% (male 2,618,868/female 2,581,597)

15-24 years: 19.76% (male 1,172,858/female 1,171,966)

25-54 years: 29.18% (male 1,713,985/female 1,748,167)

55-64 years: 4.17% (male 231,088/female 264,131)

65 years and over: 3.06% (male 155,262/female 207,899) (2020 est.)

Dependency ratios: *total dependency ratio:* 91

youth dependency ratio: 86.4

elderly dependency ratio: 4.5

potential support ratio: 22 (2020 est.)

Median age: *total:* 17.7 years

male: 17.4 years

female: 18 years (2020 est.)

country comparison to the world: 217

Population growth rate: 3.63% (2022 est.)

country comparison to the world: 4

Birth rate: 35.17 births/1,000 population (2022 est.)

country comparison to the world: 16

Death rate: 5.96 deaths/1,000 population (2022 est.)

country comparison to the world: 161

Net migration rate: 7.09 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 12

Population distribution: one of Africa's most densely populated countries; concentrations tend to be in the north and along the northern shore of Lake Tanganyika in the west; most people live on farms near areas of fertile volcanic soil as shown in this population distribution map

Urbanization: *urban population:* 14.4% of total population (2022)

rate of urbanization: 5.43% annual rate of change (2020-25 est.)

Major urban areas - population: 1.139 million BUJUMBURA (capital) (2022)

Sex ratio: *at birth:* 1.03 male(s)/female

0-14 years: 1.02 male(s)/female

15-24 years: 1 male(s)/female

25-54 years: 0.98 male(s)/female

55-64 years: 0.88 male(s)/female

65 years and over: 0.62 male(s)/female

total population: 0.99 male(s)/female (2022 est.)

Mother's mean age at first birth: 21.5 years (2016/17 est.)

note: data represents median age at first birth among women 25-49

Maternal mortality ratio: 548 deaths/100,000 live births (2017 est.)

country comparison to the world: 16

Infant mortality rate: *total:* 37.84 deaths/1,000 live births

male: 42.02 deaths/1,000 live births

female: 33.54 deaths/1,000 live births (2022 est.)

country comparison to the world: 35

Life expectancy at birth: *total population:* 67.42 years

male: 65.32 years

female: 69.59 years (2022 est.)

country comparison to the world: 190

Total fertility rate: 5.03 children born/woman (2022 est.)

Education expenditures: *5.1% of GDP (2018 est.)*

country comparison to the world: 57

Literacy: *definition: age 15 and over can read and write*

total population: 68.4%

male: 76.3%

female: 61.2% (2017)

School life expectancy (primary to tertiary education): *total: 11 years*

male: 11 years

female: 11 years (2018)

Unemployment, youth ages 15-24: *total: 2.9%*

male: 4.4%

female: 2% (2014 est.)

ENVIRONMENT

Environment - current issues: soil erosion as a result of overgrazing and the expansion of agriculture into marginal lands; deforestation (little forested land remains because of uncontrolled cutting of trees for fuel); habitat loss threatens wildlife populations

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Ozone Layer Protection, Wetlands

signed, but not ratified: Law of the Sea, Nuclear Test Ban

Air pollutants: *particulate matter emissions:* 35.61 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 0.5 megatons (2016 est.)

methane emissions: 1.42 megatons (2020 est.)

Climate: equatorial; high plateau with considerable altitude variation (772 m to 2,670 m above sea level); average annual temperature varies with altitude from 23 to 17 degrees Celsius but is generally moderate as the average altitude is about 1,700 m; average annual rainfall is about 150 cm; two wet seasons (February to May and September to November), and two dry seasons (June to August and December to January)

Land use: *agricultural land:* 73.3% (2018 est.)

arable land: 38.9% (2018 est.)

permanent crops: 15.6% (2018 est.)

permanent pasture: 18.8% (2018 est.)

forest: 6.6% (2018 est.)

other: 20.1% (2018 est.)

Urbanization: *urban population:* 14.4% of total population (2022)

rate of urbanization: 5.43% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 10.31% of GDP

(2018 est.)

country comparison to the world: 3

Revenue from coal: *coal revenues: 0% of GDP (2018 est.)*

country comparison to the world: 72

Food insecurity: *widespread lack of access: due to the effects of weather* - about 646,000 people are estimated to be severely food insecure between June and September 2022; the main drivers are poor rains in May in some central and southern eastern areas that affected pulses production, the socio-economic impact of the COVID-19 pandemic, and high food prices due to elevated fuel prices inflating transport costs (2022)

Waste and recycling: *municipal solid waste generated annually:* 1,872,016 tons (2002 est.)

Major lakes (area sq km): *fresh water lake(s):* Lake Tanganyika (shared with Democratic Republic of Congo, Tanzania, and Zambia) - 32,000 sq km

Major watersheds (area sq km): *Atlantic Ocean drainage:* Congo (3,730,881 sq km), *(Mediterranean Sea)* Nile (3,254,853 sq km)

Total water withdrawal: *municipal:* 43.1 million cubic meters (2017 est.)

industrial: 15 million cubic meters (2017 est.)

agricultural: 222 million cubic meters (2017 est.)

Total renewable water resources: 12.536 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Burundi

conventional short form: Burundi

local long form: Republique du Burundi (French)/ Republika y'u Burundi (Kirundi)

local short form: Burundi

former: Urundi, German East Africa, Ruanda-Urundi, Kingdom of Burundi

etymology: name derived from the pre-colonial Kingdom of Burundi (17th-19th century)

Government type: presidential republic

Capital: *name:* Gitega (political capital), Bujumbura (commercial capital); note - in January 2019, the Burundian parliament voted to make Gitega the political capital of the country while Bujumbura would remain its economic capital; as of 2022, the government's move to Gitega remains incomplete

geographic coordinates: 3 25 S, 29 55 E

time difference: UTC+2 (7 hours ahead of Washington, DC, during Standard Time)

etymology: the naming origins for both Gitega and Bujumbura are obscure; Bujumbura's name prior to independence in 1962 was Usumbura

Administrative divisions: 18 provinces; Bubanza, Bujumbura Mairie, Bujumbura Rural, Bururi, Cankuzo, Cibitoke, Gitega, Karuzi, Kayanza, Kirundo, Makamba, Muramvya, Muyinga, Mwaro, Ngozi, Rumonge, Rutana, Ruyigi

Independence: 1 July 1962 (from UN trusteeship under Belgian administration)

National holiday: Independence Day, 1 July (1962)

Constitution: *history:* several previous, ratified by referendum 28 February 2005

amendments: proposed by the president of the republic after consultation with the government or by absolute majority support of the membership in both houses of Parliament; passage requires at least two-thirds majority vote by the Senate membership and at least four-fifths majority vote by the National Assembly; the president can opt to submit amendment bills to a referendum; constitutional articles including those on national unity, the secularity of Burundi, its democratic form of government, and its sovereignty cannot be amended; amended 2018 (amendments extended the presidential term from 5 to 7 years, reintroduced the position of prime minister, and reduced the number of vice presidents from 2 to 1)

Legal system: mixed legal system of Belgian civil law and customary law

International law organization participation: has not submitted an ICJ jurisdiction declaration; withdrew from ICCt in October 2017

Citizenship: *citizenship by birth:* no

citizenship by descent only: the father must be a citizen of Burundi

dual citizenship recognized: no

residency requirement for naturalization: 10 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Evariste NDAYISHIMIYE (since 18 June 2020); Vice President Prosper BAZOMBANZA (since 24 June 2020); note - the president is both chief of state and head of government

head of government: President Evariste NDAYISHIMIYE (since 18 June 2020); Vice President Prosper BAZOMBANZA (since 24 June 2020); Prime Minister Gervais NDIRAKOBUCA (since 7 September 2022)

cabinet: Council of Ministers appointed by president

elections/appointments: president directly elected by absolute majority popular vote in 2 rounds if needed for a 7-year term (eligible for a second term); election last held on 20 May 2020 (next to be held in 2027); vice presidents nominated by the president, endorsed by Parliament; note - a 2018 constitutional referendum effective for the 2020 election, increased

the presidential term from 5 to 7 years with a 2-consecutive-term limit, reinstated the position of the prime minister position, and reduced the number of vice presidents from 2 to 1

election results: 2020: Evariste NDAYISHIMIYE elected president; percent of vote - Evariste NDAYISHIMIYE (CNDDFDD) 71.5%, Agathon RWASA (CNL) 25.2%, Gaston SINDIMWO (UPRONA) 1.7%, OTHER 1.6%

Legislative branch: *description:* bicameral Parliament or Parlement consists of:

Senate or Inama Nkenguzamateka (39 seats in the July 2020 election); 36 members indirectly elected by an electoral college of provincial councils using a three-round voting system, which requires a two-thirds majority vote in the first two rounds and simple majority vote for the two leading candidates in the final round; 3 seats reserved for Twas, and 30% of all votes reserved for women; members serve 5-year terms)

National Assembly or Inama Nshingamateka (123 seats in the May 2020 election; 100 members directly elected in multiseat constituencies by proportional representation vote and 23 co-opted members; 60% of seats allocated to Hutu and 40% to Tutsi; 3 seats reserved for Twas; 30% of total seats reserved for women; members serve 5-year terms)

elections:

Senate - last held on 20 July 2020 (next to be held in 2025)

National Assembly - last held on 20 May 2020 (next to be held in 2025)

election results: Senate - percent of vote by party - CNDD-FDD 87.2%, Twa 7.7%, CNL 2.6%, UPRONA 2.6%; seats by party - CNDD-FDD 34, CNL 1, UPRONA 1, Twa 3; composition - men 23, women 16, percent of women 37.2% National Assembly - percent of vote by party - CNDD-FDD 70.9%, CNL 23.4%, UPRONA 2.5%, other (co-opted Twa) 3.2%; seats by party - CNDD-FDD 86, CNL 32, UPRONA 2, Twa 3; composition - men 76, women 47, percent of women 38.2%; note - total Parliament percent of women 38%

Judicial branch: *highest court(s):* Supreme Court (consists of 9 judges and organized into judicial, administrative, and cassation chambers);

Constitutional Court (consists of 7 members)

judge selection and term of office: Supreme Court judges nominated by the Judicial Service Commission, a 15- member independent body of judicial and legal profession officials), appointed by the president and confirmed by the Senate; judge tenure NA; Constitutional Court judges appointed by the president and confirmed by the Senate and serve 6-year nonrenewable terms

subordinate courts: Courts of Appeal; County Courts; Courts of Residence; Martial Court; Court Against Corruption; Commercial Court

Political parties and leaders: Front for Democracy in Burundi-Nyakuri or FRODEBU-Nyakuri [Keffa NIBIZI]

Front for Democracy in Burundi-Sahwanya or FRODEBU-Sahwanya [Pierre Claver NAHIMANA]

National Congress for Liberty or CNL [Agathon RWASA]

National Council for the Defense of Democracy - Front for the Defense of Democracy or CNDD-FDD [Evariste NDAYISHIMIYE]

National Liberation Forces or FNL [Jacques BIGITIMANA]

Union for National Progress (Union pour le Progress Nationale) or UPRONA [Abel GASHATSI]

International organization participation: ACP, AfDB, ATMIS, AU, CEMAC, CEPGL, CICA, COMESA, EAC, FAO, G-77, IBRD, ICAO, ICCt, ICRM, IDA, IFAD, IFC, IFRCs, ILO, IMF, Interpol, IOC, IOM, IPU, ISO (correspondent), ITU, ITUC (NGOs), MIGA, NAM, OIF, OPCW, UN, UNAMID, UNCTAD, UNESCO, UNIDO, UNISFA, UNWTO, UPU, WCO, WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Jean de Dieu NDIKUMANA (since 7 July 2021)

chancery: 2233 Wisconsin Avenue NW, Washington, DC 20007

telephone: [1] (202) 342-2574

FAX: [1] (202) 342-2578

email address and website:

Flag description: divided by a white diagonal cross into red panels (top and bottom) and green panels (hoist side and fly side) with a white disk superimposed at the center bearing three red six-pointed stars outlined in green arranged in a triangular design (one star above, two stars below); green symbolizes hope and optimism, white purity and peace, and red the blood shed in the struggle for independence; the three stars in the disk represent the three major ethnic groups: Hutu, Twa, Tutsi, as well as the three elements in the national motto: unity, work, progress

National symbol(s): *lion; national colors:* red, white, green

National anthem: *name:* “Burundi Bwacu” (Our Beloved Burundi)

lyrics/music: Jean-Baptiste NTAHOKAJA/Marc BARENGAYABO

note: adopted 1962

ECONOMY

Economic overview: Burundi is a landlocked, resource-poor country with an underdeveloped manufacturing sector. Agriculture accounts for over 40% of GDP and employs more than 90% of the population. Burundi's primary exports are coffee and tea, which account for more than half of foreign exchange earnings, but these earnings are subject to fluctuations in weather and international coffee and tea prices, Burundi is heavily dependent on aid from bilateral and multilateral donors, as well as foreign exchange earnings from participation in the African Union Mission to Somalia (AMISOM). Foreign aid represented 48% of Burundi's national income in 2015, one of the highest percentages in Sub-Saharan Africa, but this figure decreased to 33.5% in 2016 due to political turmoil surrounding President NKURUNZIZA's bid for a third term. Burundi joined the East African Community (EAC) in 2009.

Burundi faces several underlying weaknesses – low governmental capacity, corruption, a high poverty rate, poor educational levels, a weak legal system, a poor transportation network, and overburdened utilities – that have prevented the implementation of planned economic reforms. The purchasing power of most Burundians has decreased as wage increases have not kept pace with inflation, which reached approximately 18% in 2017.

Real GDP growth dropped precipitously following political events in 2015 and has yet to recover to pre-conflict levels. Continued resistance by donors and the international community will restrict Burundi's economic growth as the country deals with a large current account deficit.

Real GDP (purchasing power parity): \$8.69 billion (2020 est.)

\$8.67 billion (2019 est.)

\$8.51 billion (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 165

ENERGY

Electricity access: *electrification - total population:* 11% (2019)
electrification - urban areas: 66% (2019)
electrification - rural areas: 2% (2019)

Electricity: *installed generating capacity:* 100,000 kW (2020 est.)
consumption: 440.774 million kWh (2019 est.)
exports: 0 kWh (2019 est.)
imports: 100 million kWh (2019 est.)
transmission/distribution losses: 15.96 million kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 33.3% of total installed capacity (2020 est.)
solar: 2.3% of total installed capacity (2020 est.)
hydroelectricity: 62.8% of total installed capacity (2020 est.)
biomass and waste: 1.7% of total installed capacity (2020 est.)

Petroleum: *total petroleum production:* 0 bbl/day (2021 est.)
refined petroleum consumption: 5,000 bbl/day (2019 est.)

Refined petroleum products - imports: 1,374 bbl/day (2015 est.)
country comparison to the world: 195

Carbon dioxide emissions: 715,000 metric tonnes of CO₂ (2019 est.)
from petroleum and other liquids: 715,000 metric tonnes of CO₂ (2019 est.)
country comparison to the world: 183

Energy consumption per capita: 1.087 million Btu/person (2019 est.)
country comparison to the world: 194

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 18,300 (2020 est.)

subscriptions per 100 inhabitants: (2020 est.) less than 1

country comparison to the world: 177

Telephones - mobile cellular: *total subscriptions:* 6,631,151 (2020 est.)

subscriptions per 100 inhabitants: 56 (2020 est.)

country comparison to the world: 111

Telecommunication systems: *general assessment:* Burundi provides an attractive telecom market given its high population density and existing low subscription rates for all services; one downside for investors is that the country has a very low economic output, disposable income is also very low, and fixed-line infrastructure is poor outside the main urban areas; this is a greater motivation for investors to focus on improving mobile networks than in expanding fixed-line infrastructure; to overcome difficulties associated with the poor telecom infrastructure, the government has supported a number of prominent telcos building a national fiber backbone network; this network offers onward connectivity to submarine cable infrastructure landings in Kenya and Tanzania; the first sections of this network were switched on in early 2014, and additional provinces have since been connected; in addition, the government in early 2018 kick-started the Burundi Broadband project, which aims to deliver national connectivity by 2025; based on this improved infrastructure the government and ITU have developed an ICT strategy to make use of telecoms to promote the country's socio-economic development through to 2028; progress made by Tanzania with its own national backbone network has benefited Burundi, which has been provided with onward connectivity to most countries in the region; International bandwidth capacity has continued to increase in recent years, including a 38% increase in the nine months to September 2021, resulting in lower retail prices for consumers; two of the mobile operators have launched 3G and LTE services to capitalize on the growing demand

for internet access; the number of mobile subscribers increased 7% in the third quarter of 2021, quarter-on-quarter; similar growth is expected for the next two years at least, which will help bring the mobile level closer to the average for the region (2022)

domestic: telephone density one of the lowest in the world; fixed-line connections stand at less than 1 per 100 persons; mobile-cellular usage is about 56 per 100 persons (2020)

international: country code - 257; satellite earth station - 1 Intelsat (Indian Ocean); the government, supported by the World Bank, has backed a joint venture with a number of prominent telecoms to build a national fiber backbone network, offering onward connectivity to submarine cable infrastructure landings in Kenya and Tanzania (2019)

Broadcast media: state-controlled Radio Television Nationale de Burundi (RTNB) operates a TV station and a national radio network; 3 private TV stations and about 10 privately owned radio stations; transmissions of several international broadcasters are available in Bujumbura (2019)

Internet country code: .bi

Internet users: *total:* 1,070,170 (2020 est.)

percent of population: 9% (2020 est.)

country comparison to the world: 145

Broadband - fixed subscriptions: *total:* 4,230 (2020 est.)

subscriptions per 100 inhabitants: 0.04 (2020 est.)

country comparison to the world: 190

TRANSPORTATION

Civil aircraft registration country code prefix: 9U

Airports: *total:* 7 (2021)

country comparison to the world: 166

Airports - with paved runways: *total:* 1

over 3,047 m: 1 (2021)

Airports - with unpaved runways: *total:* 6

914 to 1,523 m: 4

under 914 m: 2 (2021)

Heliports: 1 (2021)

Roadways: *total:* 12,322 km (2016)

paved: 1,500 km (2016)

unpaved: 10,822 km (2016)

country comparison to the world: 130

Waterways: 673 km (2022) (mainly on Lake Tanganyika between Bujumbura, Burundi's principal port, and lake ports in Tanzania, Zambia, and the Democratic Republic of the Congo)

country comparison to the world: 83

Ports and terminals: *lake port(s):* Bujumbura (Lake Tanganyika)

MILITARY AND SECURITY

Military and security forces: National Defense Forces (Forces de Defense Nationale, FDN): Army (includes maritime wing, air wing); Ministry of Public Security: National Police (Police Nationale du Burundi) (2022)

Military expenditures: 2% of GDP (2021 est.)

2.1% of GDP (2020 est.)

3% of GDP (2019 est.) (approximately \$120 million)

2.3% of GDP (2018 est.) (approximately \$100 million)

2.1% of GDP (2017 est.) (approximately \$95 million)

country comparison to the world: 56

Military and security service personnel strengths: approximately 30,000 active duty troops, the majority of which are ground forces (2022)

Military equipment inventories and acquisitions: the FDN is armed mostly with weapons from Russia and the former Soviet Union, with some Western equipment, largely from France; since 2010, the FDN has received small amounts of mostly second-hand equipment from China, South Africa, and the US (2021)

Military service age and obligation: 18 years of age for voluntary military service (2021)

Military deployments: 760 Central African Republic (MINUSCA); 5,400 Somalia (ATMIS) (2022)

Military - note: in addition to its foreign deployments, the FDN was focused on internal security missions, particularly against rebel groups opposed to the regime such as National Forces of Liberation (FNL), the Resistance for the Rule of Law-Tabara (aka RED Tabara), and Popular Forces of Burundi (FPB or FOREBU); these groups were based in the neighboring Democratic Republic of Congo and have carried out sporadic attacks in Burundi (2022)

TRANSNATIONAL ISSUES

Disputes - international: cross-border conflicts persist among Tutsi, Hutu, other ethnic groups, associated political rebels, armed gangs, and various government forces in the Great Lakes region

Burundi-Rwanda: Burundi's Ngozi province and Rwanda's Butare province dispute the two-kilometer-square hilly farmed area of Sabanerwa in the Rukurazi Valley where the Akanyaru/Kanyaru River shifted its course southward after heavy rains in 1965 around Kibinga Hill in Rwanda's Butare Province

Refugees and internally displaced persons: *refugees (country of origin):* 85,470 (Democratic Republic of the Congo) (refugees and asylum seekers) (2022)

IDPs: 84,791 (some ethnic Tutsis remain displaced from intercommunal violence that broke out after the 1993 coup and fighting between government forces and rebel groups; violence since April 2015) (2022)
stateless persons: 767 (mid-year 2021)

CABO VERDE

INTRODUCTION

Background: The uninhabited islands were discovered and colonized by the Portuguese in the 15th century; Cabo Verde subsequently became a trading center for African slaves and later an important coaling and resupply stop for whaling and transatlantic shipping. The fusing of European and various African cultural traditions is reflected in Cabo Verde's Krioulo language, music, and pano textiles. Following independence in 1975, and a tentative interest in unification with Guinea-Bissau, a one-party system was established and maintained until multi-party elections were held in 1990. Cabo Verde continues to sustain one of Africa's most stable democratic governments and one of its most stable economies, maintaining a currency formerly pegged to the Portuguese escudo and then the euro since 1998. Repeated droughts during the second half of the 20th century caused significant hardship and prompted heavy emigration. As a result, Cabo Verde's expatriate population - concentrated in Boston and Western Europe - is greater than its domestic one. Most Cabo Verdeans have both African and Portuguese antecedents. Cabo Verde's population descends from its first permanent inhabitants in the late 15th-century – a preponderance of West African slaves, a small share of Portuguese colonists, and even fewer Italians and Spaniards. Among the nine inhabited islands, population distribution is variable. Islands in the east are very dry and are home to the country's growing tourism industry. The more western islands receive more precipitation and support larger populations, but agriculture and livestock grazing have damaged their soil fertility and vegetation. For centuries, the country's overall population size has fluctuated significantly, as recurring periods of famine and epidemics have caused high death tolls and emigration. In November 2021, Jose Maria NEVES was sworn in as Cabo Verde's latest president.

GEOGRAPHY

Location: Western Africa, group of islands in the North Atlantic Ocean, west of Senegal

Geographic coordinates: 16 00 N, 24 00 W

Map references: Africa

Area: *total:* 4,033 sq km

land: 4,033 sq km

water: 0 sq km

country comparison to the world : 175

Area - comparative: slightly larger than Rhode Island

Land boundaries: *total:* 0 km

Coastline: 965 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

measured from claimed archipelagic baselines

Climate: temperate; warm, dry summer; precipitation meager and erratic

Terrain: steep, rugged, rocky, volcanic

Elevation: *highest point:* Mt. Fogo (a volcano on Fogo Island) 2,829 m

lowest point: Atlantic Ocean 0 m

Natural resources: salt, basalt rock, limestone, kaolin, fish, clay, gypsum

Land use: *agricultural land:* 18.6% (2018 est.)

arable land: 11.7% (2018 est.)

permanent crops: 0.7% (2018 est.)

permanent pasture: 6.2% (2018 est.)

forest: 21% (2018 est.)

other: 60.4% (2018 est.)

Irrigated land: 35 sq km (2012)

Population distribution: among the nine inhabited islands, population distribution is variable; islands in the east are very dry and are only sparsely settled to exploit their extensive salt deposits; the more southerly islands receive more precipitation and support larger populations, but agriculture and livestock grazing have damaged the soil fertility and vegetation; approximately half of the population lives on Sao Tiago Island, which is the location of the capital of Praia; Mindelo, on the northern island of Sao Vicente, also has a large urban population as shown in this population distribution map

Natural hazards: prolonged droughts; seasonal harmattan wind produces obscuring dust; volcanically and seismically active

volcanism: Fogo (2,829 m), which last erupted in 1995, is Cabo Verde's only active volcano

Geography - note: strategic location 500 km from west coast of Africa near major north-south sea routes; important communications station; important sea and air refueling site; one of four North Atlantic archipelagos that make up Macaronesia; the others are Azores (Portugal), Canary Islands (Spain), and Madeira (Portugal)

PEOPLE AND SOCIETY

Population: 596,707 (2022 est.)

country comparison to the world: 172

Nationality: *noun:* Cabo Verdean(s)

adjective: Cabo Verdean

Ethnic groups: Creole (Mulatto) 71%, African 28%, European 1%

Languages: Portuguese (official), Krioulo (a Portuguese-based Creole language with two main dialects spoken in Cabo Verde and in the Cabo Verdean diaspora worldwide)

Religions: Roman Catholic 77.3%, Protestant 4.6% (includes Church of the Nazarene 1.7%, Adventist 1.5%, Assembly of God 0.9%, Universal Kingdom of God 0.4%, and God and Love 0.1%), other Christian 3.4% (includes Christian Rationalism 1.9%, Jehovah's Witness 1%, and New Apostolic 0.5%), Muslim 1.8%, other 1.3%, none 10.8%, unspecified 0.7% (2010 est.)

Demographic profile: Cabo Verde's population descends from its first permanent inhabitants in the late 15th-century - a preponderance of West African slaves, a small share of Portuguese colonists, and even fewer Italians, Spaniards, and Portuguese Jews. Over the centuries, the country's overall population size has fluctuated significantly, as recurring periods of famine and epidemics have caused high death tolls and emigration.

Labor migration historically reduced Cabo Verde's population growth and still provides a key source of income through remittances. Expatriates probably outnumber Cabo Verde's resident population, with most families having a member abroad. Cabo Verdeans have settled in the US, Europe, Africa, and South America. The largest diaspora community in New Bedford, Massachusetts, dating to the early 1800s, is a byproduct of the transatlantic whaling industry. Cabo Verdean men fleeing poverty at home joined the crews of US whaling ships that stopped in the islands. Many settled in New Bedford and stayed in the whaling or shipping trade,

worked in the textile or cranberry industries, or operated their own transatlantic packet ships that transported compatriots to the US. Increased Cabo Verdean emigration to the US coincided with the gradual and eventually complete abolition of slavery in the archipelago in 1878.

During the same period, Portuguese authorities coerced Cabo Verdeans to go to Sao Tome and Principe and other Portuguese colonies in Africa to work as indentured laborers on plantations. In the 1920s, when the US implemented immigration quotas, Cabo Verdean emigration shifted toward Portugal, West Africa (Senegal), and South America (Argentina). Growing numbers of Cabo Verdean labor migrants headed to Western Europe in the 1960s and 1970s. They filled unskilled jobs in Portugal, as many Portuguese sought out work opportunities in the more prosperous economies of northwest Europe. Cabo Verdeans eventually expanded their emigration to the Netherlands, where they worked in the shipping industry. Migration to the US resumed under relaxed migration laws. Cabo Verdean women also began migrating to southern Europe to become domestic workers, a trend that continues today and has shifted the gender balance of Cabo Verdean emigration.

Emigration has declined in more recent decades due to the adoption of more restrictive migration policies in destination countries. Reduced emigration along with a large youth population, decreased mortality rates, and increased life expectancies, has boosted population growth, putting further pressure on domestic employment and resources. In addition, Cabo Verde has attracted increasing numbers of migrants in recent decades, consisting primarily of people from West Africa, Portuguese-speaking African countries, Portugal, and China. Since the 1990s, some West African migrants have used Cabo Verde as a stepping stone for illegal migration to Europe.

Age structure: 0-14 years: 27.95% (male 82,010/female 81,012)

15-24 years: 18.69% (male 54,521/female 54,504)

25-54 years: 40.76% (male 115,811/female 121,923)

55-64 years: 7.12% (male 18,939/female 22,597)

65 years and over: 5.48% (male 12,037/female 19,901) (2020 est.)

ENVIRONMENT

Environment - current issues: deforestation due to demand for firewood; water shortages; prolonged droughts and improper use of land (overgrazing, crop cultivation on hillsides lead to desertification and erosion); environmental damage has threatened several species of birds and reptiles; illegal beach sand extraction; overfishing

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Wetlands
signed, but not ratified: none of the selected agreements

Air pollutants: *particulate matter emissions:* 31.99 micrograms per cubic meter (2016 est.)
carbon dioxide emissions: 0.54 megatons (2016 est.)
methane emissions: 0.13 megatons (2020 est.)

Climate: temperate; warm, dry summer; precipitation meager and erratic

Land use: *agricultural land:* 18.6% (2018 est.)
arable land: 11.7% (2018 est.)
permanent crops: 0.7% (2018 est.)
permanent pasture: 6.2% (2018 est.)
forest: 21% (2018 est.)
other: 60.4% (2018 est.)

Urbanization: *urban population:* 67.5% of total population (2022)
rate of urbanization: 1.83% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.38% of GDP (2018 est.)
country comparison to the world: 72

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 73

Waste and recycling: *municipal solid waste generated annually:*
132,555 tons (2012 est.)

Total water withdrawal: *municipal:* 1.6 million cubic meters (2017 est.)

industrial: 400,000 cubic meters (2017 est.)

agricultural: 25 million cubic meters (2017 est.)

Total renewable water resources: 300 million cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Cabo Verde

conventional short form: Cabo Verde

local long form: Republica de Cabo Verde

local short form: Cabo Verde

etymology: the name derives from Cap-Vert (Green Cape) on the Senegalese coast, the westernmost point of Africa and the nearest mainland to the islands

Government type: parliamentary republic

Capital: *name:* Praia

geographic coordinates: 14 55 N, 23 31 W

time difference: UTC-1 (4 hours ahead of Washington, DC, during Standard Time)

etymology: the earlier Portuguese name was Villa de Praia (“Village of the Beach”); it became just Praia in 1974 (prior to full independence in 1975)

Administrative divisions: 22 municipalities (concelhos, singular - concelho); Boa Vista, Brava, Maio, Mosteiros, Paul, Porto Novo, Praia, Ribeira Brava, Ribeira Grande, Ribeira Grande de Santiago, Sal, Santa Catarina, Santa Catarina do Fogo, Santa Cruz, Sao Domingos, Sao Filipe, Sao Lourenco dos Orgaos, Sao Miguel, Sao Salvador do Mundo, Sao Vicente, Tarrafal, Tarrafal de Sao Nicolau

Independence: 5 July 1975 (from Portugal)

National holiday: Independence Day, 5 July (1975)

Constitution: *history:* previous 1981; latest effective 25 September 1992

amendments: proposals require support of at least four fifths of the active National Assembly membership; amendment drafts require sponsorship of at least one third of the active Assembly membership; passage requires at least two-thirds majority vote by the Assembly membership;

constitutional sections, including those on national independence, form of government, political pluralism, suffrage, and human rights and liberties, cannot be amended; revised 1995, 1999, 2010

Legal system: civil law system of Portugal

International law organization participation: as not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Cabo Verde

dual citizenship recognized: yes

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Jose Maria NEVES (since 9 November 2021)

head of government: Prime Minister Ulisses CORREIA E. SILVA (since 22 April 2016)

cabinet: Council of Ministers appointed by the president on the recommendation of the prime minister

elections/appointments: president directly elected by absolute majority popular vote in 2 rounds if needed for a 5-year term (eligible for a second term); election last held on 17 October 2021 (next to be held in October 2026); prime minister nominated by the National Assembly and appointed by the president (2021)

election results: *election results:* 2020: Jose Maria NEVES elected president; percent of vote - Jose Maria NEVES (PAICV) 51.7%, Carlos VEIGA (MPD) 42.4%, Casimiro DE PINA (Independent) 1.8%, Fernando Rocha DELGADO (Independent) 1.4%, Helio SANCHES (independent) 1.14%, Gilson ALVES (independent) 0.8%, Joaquim MONTEIRO (independent) 3.4%

election results: 2015: Jorge Carlos FONSECA reelected president; percent of vote - Jorge Carlos FONSECA (MPD) 74.1%, Albertino GRACA (independent) 22.5%, other 3% (2021)

African Party for the Independence of Cape Verde (APICV):
Movement for Democracy (MFD)

Legislative branch: *description:* unicameral National Assembly or Assembleia Nacional (72 seats; members directly elected in multi-seat constituencies by proportional representation vote; members serve 5-year terms)

elections: last held on 18 April 2021 (next to be held in April 2026) (2021)

election results: percent of vote by party MPD 50.2%, PAICV 39.6%, UCID 9.0%; seats by party - MPD 38, PAICV 30, UCID 4; composition - men 44, women 28, percent of women 37.5% (2021)

Judicial branch: *highest court(s):* Supreme Court of Justice (consists of the chief justice and at least 7 judges and organized into civil, criminal, and administrative sections)

judge selection and term of office: judge appointments - 1 by the president of the republic, 1 elected by the National Assembly, and 3 by the Superior Judicial Council (SJC), a 16-member independent body chaired by the chief justice and includes the attorney general, 8 private citizens, 2 judges, 2 prosecutors, the senior legal inspector of the Attorney General's office, and a representative of the Ministry of Justice; chief justice appointed by the president of the republic from among peers of the Supreme Court of Justice and in consultation with the SJC; judges appointed for life

subordinate courts: appeals courts, first instance (municipal) courts; audit, military, and fiscal and customs courts

Political parties and leaders: African Party for Independence of Cabo Verde or PAICV [Jose Maria NEVES]

Democratic and Independent Cabo Verdean Union or UCID [Joao DOS SANTOS LUIS]

Democratic Christian Party or PDC [Manuel RODRIGUES]

Democratic Renewal Party or PRD [Victor FIDALGO]

Movement for Democracy or MPD [Ulisses CORREIA E SILVA]

Party for Democratic Convergence or PCD [Dr. Eurico MONTEIRO]

Party of Work and Solidarity or PTS [Anibal MEDINA]

Social Democratic Party or PSD [Joao ALEM]

International organization participation: ACP, AfDB, AOSIS, AU, CD, CPLP, ECOWAS, FAO, G-77, IAEA, IBRD, ICAO, ICCt (signatory), ICRM, IDA, IFAD, IFC, IFRCs, ILO, IMF, IMO, Interpol, IOC, IOM, IPU, ITS0, ITU, ITUC (NGOs), MIGA, NAM, OIF, OPCW, UN, UNCTAD, UNESCO, UNIDO, Union Latina, UNWTO, UPU, WCO, WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Jose Luis do Livramento MONTEIRO ALVES DE BRITO (since 23 December 2020)

chancery: 3415 Massachusetts Avenue NW, Washington, DC 20007

Flag description: five unequal horizontal bands; the top-most band of blue - equal to one half the width of the flag - is followed by three bands of white, red, and white, each equal to 1/12 of the width, and a bottom stripe of blue equal to one quarter of the flag width; a circle of 10 yellow, five-pointed stars is centered on the red stripe and positioned 3/8 of the length of the flag from the hoist side; blue stands for the sea and the sky, the circle of stars represents the 10 major islands united into a nation, the

stripes symbolize the road to formation of the country through peace (white) and effort (red)

National symbol(s): ten, five-pointed, yellow stars; national colors: blue, white, red, yellow

National anthem: *name:* “Cantico da Liberdade” (Song of Freedom)
lyrics/music: Amilcar Spencer LOPES/Adalberto Higino Tavares SILVA
note: adopted 1996

National heritage: *total World Heritage Sites:* 1 (cultural)
selected World Heritage Site locales: Cidade Velha; Historic Center of Ribeira Grande

ECONOMY

Economic overview: Cabo Verde's economy depends on development aid, foreign investment, remittances, and tourism. The economy is service-oriented with commerce, transport, tourism, and public services accounting for about three-fourths of GDP. Tourism is the mainstay of the economy and depends on conditions in the euro-zone countries. Cabo Verde annually runs a high trade deficit financed by foreign aid and remittances from its large pool of emigrants; remittances as a share of GDP are one of the highest in Sub-Saharan Africa.

Although about 40% of the population lives in rural areas, the share of food production in GDP is low. The island economy suffers from a poor natural resource base, including serious water shortages, exacerbated by cycles of long-term drought, and poor soil for growing food on several of the islands, requiring it to import most of what it consumes. The fishing potential, mostly lobster and tuna, is not fully exploited.

Economic reforms are aimed at developing the private sector and attracting foreign investment to diversify the economy and mitigate high unemployment. The government's elevated debt levels have limited its capacity to finance any shortfalls.

Real GDP (purchasing power parity): \$3.36 billion (2020 est.)

\$3.94 billion (2019 est.)

\$3.73 billion (2018 est.)

MILITARY AND SECURITY

Military and security forces: Cabo Verdean Armed Forces (FACV): Army (also called the National Guard, GN; includes a small air component), Cabo Verde Coast Guard (Guardia Costeira de Cabo Verde, GCCV); Ministry of Internal Affairs: National Police (2022)

Military expenditures: 0.5% of GDP (2021 est.)

0.5% of GDP (2020 est.)

0.5% of GDP (2019 est.) (approximately \$20 million)

0.5% of GDP (2018 est.) (approximately \$20 million)

0.5% of GDP (2017 est.) (approximately \$20 million)

country comparison to the world: 157

Military and security service personnel strengths: approximately 1,200 personnel including about 100 in the Coast Guard (2022)

Military equipment inventories and acquisitions: the FACV has a limited amount of mostly dated and second-hand equipment, largely from China, some European countries, and the former Soviet Union (2022)

Military service age and obligation: 18-35 years of age for male and female selective compulsory military service; 2-years conscript service obligation; 17 years of age for voluntary service (with parental consent) (2022)

Military - note: as of 2022, the FACV/National Guard was mostly a ground force with 2 infantry battalions and a small air component with a maritime patrol squadron; the Coast Guard had a few coastal patrol craft and patrol boats

TRANSNATIONAL ISSUES

Disputes - international: none

Refugees and internally displaced persons: *stateless persons*: 115
(mid-year 2021)

Illicit drugs: Cabo Verde is a transit hub for cocaine, marijuana, and other drugs trafficked from Latin America to Europe; marijuana, cocaine, hashish, heroin, and methamphetamine are the most frequently consumed drugs in Cabo Verde

CAMBODIA

INTRODUCTION

Background: Most Cambodians consider themselves to be Khmers, descendants of the Angkor Empire that extended over much of Southeast Asia and reached its zenith between the 10th and 13th centuries. Attacks by the Thai and Cham (from present-day Vietnam) weakened the empire, ushering in a long period of decline. The king placed the country under French protection in 1863, and it became part of French Indochina in 1887. Following Japanese occupation in World War II, Cambodia gained full independence from France in 1953. In April 1975, after a seven-year struggle, communist Khmer Rouge forces captured Phnom Penh and evacuated all cities and towns. At least 1.5 million Cambodians died from execution, forced hardships, or starvation during the Khmer Rouge regime under POL POT. A December 1978 Vietnamese invasion drove the Khmer Rouge into the countryside, began a 10-year Vietnamese occupation, and touched off 20 years of civil war.

The 1991 Paris Peace Accords mandated democratic elections and a cease-fire, which was not fully respected by the Khmer Rouge. UN-sponsored elections in 1993 helped restore some semblance of normalcy under a coalition government. Factional fighting in 1997 ended the first coalition government, but a second round of national elections in 1998 led to the formation of another coalition government and renewed political stability. The remaining elements of the Khmer Rouge surrendered in early 1999. Some of the surviving Khmer Rouge leaders were tried for crimes against humanity by a hybrid UN-Cambodian tribunal supported by international assistance. In 2018, the tribunal heard its final cases, but it remains in operation to hear appeals. Elections in July 2003 were relatively peaceful, but it took one year of negotiations between contending political parties before a coalition government was formed. In October 2004, King Norodom SIHANOUK abdicated the throne and his son, Prince Norodom SIHAMONI, was selected to succeed him. Local (Commune Council) elections were held in Cambodia in 2012, with little of the violence that preceded prior elections. National elections in July 2013 were disputed, with the opposition - the Cambodia National Rescue

Party (CNRP) - boycotting the National Assembly. The political impasse was ended nearly a year later, with the CNRP agreeing to enter parliament in exchange for commitments by the ruling Cambodian People's Party (CPP) to undertake electoral and legislative reforms. The CNRP made further gains in local commune elections in June 2017, accelerating sitting Prime Minister HUN SEN's efforts to marginalize the CNRP before national elections in 2018. HUN SEN arrested CNRP President KEM SOKHA in September 2017. The Supreme Court dissolved the CNRP in November 2017 and banned its leaders from participating in politics for at least five years. The CNRP's seats in the National Assembly were redistributed to smaller, less influential opposition parties, while all of the CNRP's 5,007 seats in the commune councils throughout the country were reallocated to the CPP. With the CNRP banned, the CPP swept the 2018 national elections, winning all 125 National Assembly seats and effectively turning the country into a one-party state.

Cambodia has strong and growing economic and political ties with its large neighbor to the north, China. More than 53% of foreign investment in the country in 2021 came from China, and Beijing has provided over \$15 billion in financial assistance since the 1990s. China accounted for 443 percent of Cambodia's foreign debt in 2021. The CPP also partly sees Chinese support as a counterbalance to Thailand and Vietnam and to international criticism of the CPP's human rights and antidemocratic record.

GEOGRAPHY

Location: Southeastern Asia, bordering the Gulf of Thailand, between Thailand, Vietnam, and Laos

Geographic coordinates: 13 00 N, 105 00 E

Map references: Southeast Asia

Area: *total:* 181,035 sq km

land: 176,515 sq km

water: 4,520 sq km

country comparison to the world: 90

Area - comparative: one and a half times the size of Pennsylvania; slightly smaller than Oklahoma

Land boundaries: *total:* 2,530 km

border countries (3): Laos 555 km; Thailand 817 km; Vietnam 1158 km

Coastline: 443 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

continental shelf: 200 nm

Climate: tropical; rainy, monsoon season (May to November); dry season (December to April); little seasonal temperature variation

Terrain: mostly low, flat plains; mountains in southwest and north

Elevation: *highest point:* Phnum Aoral 1,810 m

lowest point: Gulf of Thailand 0 m

mean elevation: 126 m

Natural resources: oil and gas, timber, gemstones, iron ore, manganese, phosphates, hydropower potential, arable land

Land use: *agricultural land:* 32.1% (2018 est.)

arable land: 22.7% (2018 est.)

permanent crops: 0.9% (2018 est.)

permanent pasture: 8.5% (2018 est.)

forest: 56.5% (2018 est.)

other: 11.4% (2018 est.)

Irrigated land: 3,540 sq km (2012)

Major lakes (area sq km): *fresh water lake(s)*: Tonle Sap - 2,700-16,000 sq km

Major rivers (by length in km): Mekong (shared with China [s], Burma, Thailand, Laos, and Vietnam [m]) - 4,350 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): **Pacific Ocean drainage**: Mekong (805,604 sq km)

Population distribution: population concentrated in the southeast, particularly in and around the capital of Phnom Penh; further distribution is linked closely to the Tonle Sap and Mekong Rivers

Natural hazards: monsoonal rains (June to November); flooding; occasional droughts

Geography - note: a land of paddies and forests dominated by the Mekong River and Tonle Sap (Southeast Asia's largest freshwater lake)

PEOPLE AND SOCIETY

Population: 16,713,015 (2022 est.)

country comparison to the world: 72

Nationality: *noun:* Cambodian(s)

adjective: Cambodian

Ethnic groups: Khmer 95.4%, Cham 2.4%, Chinese 1.5%, other 0.7% (2019-20 est.)

Languages: Khmer (official) 95.8%, minority languages 2.9%, Chinese 0.6%, Vietnamese 0.5%, other 0.2% (2019 est.)

major-language sample(s):

សៀវភៅហេតុការណ៍នៅលើពិភពលោក
ទីតាំងព័ត៌មានមូលដ្ឋានគ្រឹះយ៉ាងសំខាន់។ (Khmer)

Religions: Buddhist (official) 97.1%, Muslim 2%, Christian 0.3%, other 0.5% (2019 est.)

Demographic profile: Cambodia is a predominantly rural country with among the most ethnically and religiously homogenous populations in Southeast Asia: more than 95% of its inhabitants are Khmer and more than 95% are Buddhist. The population's size and age structure shrank and then rebounded during the 20th century as a result of conflict and mass death. During the Khmer Rouge regime between 1975 and 1979 as many as 1.5 to 2 million people are estimated to have been killed or died as a result of starvation, disease, or overwork - a loss of about 25% of the population. At the same time, emigration was high, and the fertility rate sharply declined. In the 1980s, after the overthrow of the Khmer Rouge, fertility nearly doubled and reached pre-Khmer Rouge levels of close to 7 children per woman, reflecting in part higher infant survival rates. The baby boom was followed by a sustained fertility decline starting in the early 1990s, eventually decreasing from 3.8 in 2000 to 2.9 in 2010, although the rate varied by income, education, and rural versus urban location. Despite continuing fertility reduction, Cambodia still has a

youthful population that is likely to maintain population growth through population momentum. Improvements have also been made in mortality, life expectancy, and contraceptive prevalence, although reducing malnutrition among children remains stalled. Differences in health indicators are pronounced between urban and rural areas, which experience greater poverty.

Cambodia is predominantly a country of migration, driven by the search for work, education, or marriage. Internal migration is more prevalent than international migration, with rural to urban migration being the most common, followed by rural to rural migration. Urban migration focuses on the pursuit of unskilled or semi-skilled jobs in Phnom Penh, with men working mainly in the construction industry and women working in garment factories. Most Cambodians who migrate abroad do so illegally using brokers because it is cheaper and faster than through formal channels, but doing so puts them at risk of being trafficked for forced labor or sexual exploitation. Young Cambodian men and women migrate short distances across the Thai border using temporary passes to work in agriculture, while others migrate long distances primarily into Thailand and Malaysia for work in agriculture, fishing, construction, manufacturing, and domestic service. Cambodia was a refugee sending country in the 1970s and 1980s as a result of the brutality of the Khmer Rouge regime, its ousting by the Vietnamese invasion, and the resultant civil war. Tens of thousands of Cambodians fled to Thailand; more than 100,000 were resettled in the US in the 1980s. Cambodia signed a multi-million dollar agreement with Australia in 2014 to voluntarily resettle refugees seeking shelter in Australia. However, the deal has proven to be a failure because of poor conditions and a lack of support services for the few refugees willing to accept the offer.

Age structure: 0-14 years: 30.18% (male 2,582,427/female 2,525,619)

15-24 years: 17.28% (male 1,452,784/female 1,472,769)

25-54 years: 41.51% (male 3,442,051/female 3,584,592)

ENVIRONMENT

Environment - current issues: illegal logging activities throughout the country and strip mining for gems in the western region along the border with Thailand have resulted in habitat loss and declining biodiversity (in particular, destruction of mangrove swamps threatens natural fisheries); soil erosion; in rural areas, most of the population does not have access to potable water; declining fish stocks because of illegal fishing and overfishing; coastal ecosystems choked by sediment washed loose from deforested areas inland

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Marine Life Conservation, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands, Whaling

signed, but not ratified: Law of the Sea

Air pollutants: *particulate matter emissions:* 23.98 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 9.92 megatons (2016 est.)

methane emissions: 14.88 megatons (2020 est.)

Climate: tropical; rainy, monsoon season (May to November); dry season (December to April); little seasonal temperature variation

Land use: *agricultural land:* 32.1% (2018 est.)

arable land: 22.7% (2018 est.)

permanent crops: 0.9% (2018 est.)

permanent pasture: 8.5% (2018 est.)

forest: 56.5% (2018 est.)

other: 11.4% (2018 est.)

Urbanization: *urban population:* 25.1% of total population (2022)

rate of urbanization: 3.06% annual rate of change (2020-25 est.)

note - [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): **Pacific Ocean drainage:** Mekong (805,604 sq km)

Total water withdrawal: *municipal:* 98 million cubic meters (2017 est.)

industrial: 33 million cubic meters (2017 est.)

agricultural: 2.053 billion cubic meters (2017 est.)

Total renewable water resources: 476.1 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Kingdom of Cambodia

conventional short form: Cambodia

local long form: Preahreacheanachakr Kampuchea (phonetic transliteration)

local short form: Kampuchea

former: Khmer Republic, Democratic Kampuchea, People's Republic of Kampuchea, State of Cambodia

etymology: the English name Cambodia is an anglicization of the French Cambodge, which is the French transliteration of the native name Kampuchea

Government type: parliamentary constitutional monarchy

Capital: *name:* Phnom Penh

geographic coordinates: 11 33 N, 104 55 E

time difference: UTC+7 (12 hours ahead of Washington, DC, during Standard Time)

etymology: Phnom Penh translates as "Penh's Hill" in Khmer; the city takes its name from the present Wat Phnom (Hill Temple), the tallest religious structure in the city, whose establishment, according to legend, was inspired in the 14th century by a pious nun, Daun PENH

Administrative divisions: 24 provinces (khett, singular and plural) and 1 municipality (krong, singular and plural)

provinces: Banteay Meanchey, Battambang, Kampong Cham, Kampong Chhnang, Kampong Speu, Kampong Thom, Kampot, Kandal, Kep, Koh Kong, Kratie, Mondolkiri, Oddar Meanchey, Pailin, Preah Sihanouk, Preah Vihear, Prey Veng, Pursat, Ratanakiri, Siem Reap, Stung Treng, Svay Rieng, Takeo, Tbong Khmum

municipalities: Phnom Penh (Phnum Penh)

Independence: 9 November 1953 (from France)

National holiday: Independence Day, 9 November (1953)

Constitution: *history:* previous 1947; latest promulgated 21 September 1993

amendments: proposed by the monarch, by the prime minister, or by the president of the National Assembly if supported by one fourth of the Assembly membership; passage requires two-thirds majority of the Assembly membership; constitutional articles on the multiparty democratic form of government and the monarchy cannot be amended; amended 1999, 2008, 2014, 2018, and 2021

Legal system: civil law system (influenced by the UN Transitional Authority in Cambodia) customary law, Communist legal theory, and common law

International law organization participation: accepts compulsory ICJ jurisdiction with reservations; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Cambodia

dual citizenship recognized: yes

residency requirement for naturalization: 7 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* King Norodom SIHAMONI (since 29 October 2004)

head of government: Prime Minister HUN SEN (since 14 January 1985)

cabinet: Council of Ministers named by the prime minister and appointed by the monarch

elections/appointments: monarch chosen by the 9-member Royal Council of the Throne from among all eligible males of royal descent; following legislative elections, a member of the majority party or majority coalition named prime minister by the Chairman of the National Assembly and appointed by the monarch

Legislative branch: *description:* bicameral Parliament of Cambodia consists of:

Senate (62 seats; 58 indirectly elected by parliamentarians and commune

councils, 2 indirectly elected by the National Assembly, and 2 appointed by the monarch; members serve 6-year terms)

National Assembly (125 seats; members directly elected in multi-seat constituencies by proportional representation vote; members serve 5-year terms)

elections:

Senate - last held on 25 February 2018 (next to be held in 2024); National Assembly - last held on 29 July 2018 (next to be held in July 2023)

election results:

Senate - percent of vote by party - CPP 96%, FUNCINPEC 2.4%, KNUP 1.6%; seats by party - CPP 58; composition -men 53, women 9, percent of women 14.5%

National Assembly - percent of vote by party - CPP 76.9%, FUNCINPEC 5.9%, LDP 4.9%, Khmer Will Party 3.4%, other 8.9%; seats by party - CPP 125; composition - men 100, women 25, percent of women 20%; note - total Parliament of Cambodia percent of women 18.2%

Judicial branch: *highest court(s):* Supreme Council (organized into 5- and 9-judge panels and includes a court chief and deputy chief); Constitutional Court (consists of 9 members); note - in 1997, the Cambodian Government requested UN assistance in establishing trials to prosecute former Khmer Rouge senior leaders for crimes against humanity committed during the 1975-1979 Khmer Rouge regime; the Extraordinary Chambers of the Courts of Cambodia (also called the Khmer Rouge Tribunal) was established in 2006 and began hearings for the first case in 2009; court proceedings remain ongoing in 2021

judge selection and term of office: Supreme Court and Constitutional Council judge candidates recommended by the Supreme Council of Magistracy, a 17-member body chaired by the monarch and includes other high-level judicial officers; judges of both courts appointed by the monarch; Supreme Court judges appointed for life; Constitutional Council judges appointed for 9-year terms with one-third of the court renewed every 3 years

subordinate courts: Appellate Court; provincial and municipal courts; Military Court

Political parties and leaders: Candlelight Party or CP (the latest incarnation of the Sam Rainsy Party or SRP and the former Human Rights Party or HRP, which joined to form the Cambodia National Rescue Party or CNRP in 2012; the CNRP was dissolved in 2017)

Cambodian People's Party or CPP [HUN SEN]

Khmer Will Party [KONG MONIKA]

Khmer National Unity Party or KNUP (an offshoot of FUNCINPEC)
[NHEK BUN CHHAY]

League for Democracy Party or LDP [KHEM Veasna]

National United Front for Independent, Neutral, Peaceful, and
Cooperative Cambodia or FUNCINPEC [Prince NORODOM
CHAKRAVUTH]

note - other minor parties that registered for the 2022 commune-level elections included: Cambodia National Love Party, Cambodia Nationality Party, Cambodian Youth Party, Cambodia Reform Party, Kampucheaniyum Party, Grassroots Democratic Party, Khmer United Party, Beehive Social Democratic Party, Cambodia Indigenous People's Democracy Party, Ekpheap Cheat Khmer Party, Reaksmey Khemara Party, Khmer Economic Development Party (2022)

note: following the 2017 commune election, the CPP-led government arrested the CNRP president Kem SOKHA for treason, dissolved the party on similar grounds, and forced most of its senior leadership into exile, where the party's former president, Sam RAINSY, had been living since late 2015; as of March 2022, a total of 17 political parties had registered to run in the June 2022 commune-level elections, and opposition parties, particularly the Candlelight Party, continued to report, intimidation, harassment, and arrests by the Cambodian Government

International organization participation: ADB, ARF, ASEAN, CICA, EAS, FAO, G-77, IAEA, IBRD, ICAO, ICRM, IDA, IFAD, IFC, IFRCS, ILO, IMF, IMO, Interpol, IOC, IOM, IPU, ISO (correspondent), ITU, MINUSMA, MIGA, NAM, OIF, OPCW, PCA, UN, UNAMID, UNCTAD, UNESCO, UNIDO, UNIFIL, UNISFA, UNMISS, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador
KEO Chhea (since 19 April 2022)

chancery: 4530 16th Street NW, Washington, DC 20011

telephone: [1] (202) 726-7742

Flag description: three horizontal bands of blue (top), red (double width), and blue with a white, three-towered temple, representing Angkor Wat, outlined in black in the center of the red band; red and blue are traditional Cambodian colors

note: only national flag to prominently incorporate an actual identifiable building into its design (a few other national flags - those of Afghanistan, San Marino, Portugal, and Spain - show small generic buildings as part of their coats of arms on the flag)

National symbol(s): Angkor Wat temple, kouprey (wild ox); national colors: red, blue

National anthem: *name:* “Nokoreach” (Royal Kingdom)

lyrics/music: CHUON NAT/F. PERRUCHOT and J. JEKYLL

note: adopted 1941, restored 1993; the anthem, based on a Cambodian folk tune, was restored after the defeat of the Communist regime

National heritage: *total World Heritage Sites:* 3 (all cultural)

selected World Heritage Site locales: Angkor; Temple of Preah Vihear;
Sambor Prei Kuk

ECONOMY

Economic overview: Cambodia has experienced strong economic growth over the last decade; GDP grew at an average annual rate of over 8% between 2000 and 2010 and about 7% since 2011. The tourism, garment, construction and real estate, and agriculture sectors accounted for the bulk of growth. Around 700,000 people, the majority of whom are women, are employed in the garment and footwear sector. An additional 500,000 Cambodians are employed in the tourism sector, and a further 200,000 people in construction. Tourism has continued to grow rapidly with foreign arrivals exceeding 2 million per year in 2007 and reaching 5.6 million visitors in 2017. Mining also is attracting some investor interest and the government has touted opportunities for mining bauxite, gold, iron and gems.

Still, Cambodia remains one of the poorest countries in Asia, and long-term economic development remains a daunting challenge, inhibited by corruption, limited human resources, high income inequality, and poor job prospects. According to the Asian Development Bank (ADB), the percentage of the population living in poverty decreased to 13.5% in 2016. More than 50% of the population is less than 25 years old. The population lacks education and productive skills, particularly in the impoverished countryside, which also lacks basic infrastructure.

The World Bank in 2016 formally reclassified Cambodia as a lower middle-income country as a result of continued rapid economic growth over the past several years. Cambodia's graduation from a low-income country will reduce its eligibility for foreign assistance and will challenge the government to seek new sources of financing. The Cambodian Government has been working with bilateral and multilateral donors, including the Asian Development Bank, the World Bank and IMF, to address the country's many pressing needs; more than 20% of the government budget will come from donor assistance in 2018. A major economic challenge for Cambodia over the next decade will be fashioning an economic environment in which the private sector can create enough jobs to handle Cambodia's demographic imbalance.

Textile exports, which accounted for 68% of total exports in 2017, have driven much of Cambodia's growth over the past several years. The textile sector relies on exports to the United States and European Union, and Cambodia's dependence on its comparative advantage in textile production is a key vulnerability for the economy, especially because Cambodia has continued to run a current account deficit above 9% of GDP since 2014.

Real GDP (purchasing power parity): \$70.08 billion (2020 est.)

\$72.36 billion (2019 est.)

ENERGY

Electricity access: *electrification - total population: 75% (2019)*

electrification - urban areas: 100% (2019)

electrification - rural areas: 67% (2019)

Electricity: *installed generating capacity: 2.954 million kW (2020 est.)*

consumption: 10,288,340,000 kWh (2019 est.)

exports: 0 kWh (2019 est.)

imports: 3.063 billion kWh (2019 est.)

transmission/distribution losses: 1.187 billion kWh (2019 est.)

Electricity generation sources: *fossil fuels: 52% of total installed capacity (2020 est.)*

solar: 1.2% of total installed capacity (2020 est.)

hydroelectricity: 45.6% of total installed capacity (2020 est.)

biomass and waste: 1.2% of total installed capacity (2020 est.)

Coal: *production: 0 metric tons (2020 est.)*

consumption: 2.974 million metric tons (2020 est.)

exports: 0 metric tons (2020 est.)

imports: 3.311 million metric tons (2020 est.)

proven reserves: 0 metric tons (2019 est.)

Petroleum: *total petroleum production: 0 bbl/day (2021 est.)*

refined petroleum consumption: 64,100 bbl/day (2019 est.)

Refined petroleum products - imports: *43,030 bbl/day (2015 est.)*

country comparison to the world: 86

Carbon dioxide emissions: *13.844 million metric tonnes of CO2 (2019 est.)*

from coal and metallurgical coke: 4.837 million metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 9.007 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 98

Energy consumption per capita: 13.629 million Btu/person (2019 est.)

country comparison to the world: 142

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 55,603 (2020 est.)

subscriptions per 100 inhabitants: (2020 est.) less than 1

country comparison to the world: 155

Telephones - mobile cellular: *total subscriptions:* 21,086,791 (2020 est.)

subscriptions per 100 inhabitants: 126 (2020 est.)

country comparison to the world: 59

Telecommunication systems: *general assessment:* Cambodia's mobile-dominated telecoms sector spent much of 2020 battling two major challenges: the global pandemic, and the government's retraction of trial licenses for the rollout of 5G; citing concerns about waste and inefficiency occurring if each operator built a separate 5G infrastructure in order to maximize their own network's coverage (and, presumably, to capture greater market share), the regulator withdrew the licenses that the operators had been using for their 5G trials; this was despite all of the operators having already announced a successful completion of their trials; more than a year later, the market is still waiting on the government to release its 5G policy and roadmap, along with the allocation of spectrum and approvals to permit commercial operation; there is little expectation of any further progress happening before the start of 2022; the mobile network operators have maintained their focus and investment strategies on upgrading and expanding their existing LTE networks around the country, and to 5G-enable their base stations; when the 5G market eventually arrives, the underlying infrastructure will at least be ready to support a rapid adoption of the higher-value applications and services; the mobile market fell back slightly during 2020 and 2021 (in terms of total subscriber numbers) as the Covid-19 crisis wore on, but it remains in relatively good health as mobile users increased their data usage over the period; the mobile broadband market experienced a small but very rare contraction in 2020, although rates were already very high in this area; there is likely to be a quick rebound to previous levels once

economic conditions stabilize, followed by a modest rates of growth over the next five years; the number of fixed telephony lines in service continues to fall sharply as customers migrate to mobile platforms for both voice and data; the lack of any widespread fixed-line infrastructure has had a flow-on effect in the fixed-line broadband market, a sector that also remains largely under-developed (2021)

domestic: fixed-line connections stand at less than 1 per 100 persons; mobile-cellular usage, aided by competition among service providers, is about 130 per 100 persons (2020)

international: country code - 855; landing points for MCT and AAE-1 via submarine cables providing communication to Asia, the Middle East, Europe and Africa; satellite earth station - 1 Intersputnik (Indian Ocean region) (2019)

Broadcast media: mixture of state-owned, joint public-private, and privately owned broadcast media; 27 TV broadcast stations with most operating on multiple channels, including 1 state-operated station broadcasting from multiple locations, 11 stations either jointly operated or privately owned with some broadcasting from several locations; multi-channel cable and satellite systems are available (2019); 84 radio broadcast stations - 1 state-owned broadcaster with multiple stations and a large mixture of public and private broadcasters; one international broadcaster is available (2019) as well as one Chinese joint venture television station with the Ministry of Interior; several television and radio operators broadcast online only (often via Facebook) (2019)

Internet country code: .kh

Internet users: *total*: 5,440,559 (2019 est.)

percent of population: 33% (2019 est.)

country comparison to the world: 84

Broadband - fixed subscriptions: *total*: 233,732 (2020 est.) Slowly increase as focus is on mobile internet

subscriptions per 100 inhabitants: 1 (2020 est.)

country comparison to the world: 114

TRANSPORTATION

National air transport system: *number of registered air carriers:* 6 (2020)

inventory of registered aircraft operated by air carriers: 25

annual passenger traffic on registered air carriers: 1,411,059 (2018)

annual freight traffic on registered air carriers: 680,000 (2018) mt-km

Civil aircraft registration country code prefix: XU

Airports: *total:* 16 (2021)

country comparison to the world: 142

Airports - with paved runways: *total:* 6

2,438 to 3,047 m: 3

1,524 to 2,437 m: 2

914 to 1,523 m: 1 (2021)

Airports - with unpaved runways: *total:* 10

1,524 to 2,437 m: 2

914 to 1,523 m: 7

under 914 m: 1 (2021)

Heliports: 1 (2021)

Railways: *total:* 642 km (2014)

narrow gauge: 642 km (2014) 1.000-m gauge

note: under restoration

country comparison to the world: 107

Roadways: *total:* 47,263 km (2013)

paved: 12,239 km (2013)

unpaved: 35,024 km (2013)

country comparison to the world: 83

Waterways: 3,700 km (2012) (mainly on Mekong River)

country comparison to the world: 30

Merchant marine: *total:* 245

by type: container ship 2, general cargo 162, oil tanker 18, other 63 (2021)
country comparison to the world: 60

Ports and terminals: *major seaport(s):* Sihanoukville (Kampong Saom)

river port(s): Phnom Penh (Mekong)

MILITARY AND SECURITY

Military and security forces: *Royal Cambodian Armed Forces (RCAF):* Royal Cambodian Army, Royal Khmer Navy, Royal Cambodian Air Force, Royal Gendarmerie; the National Committee for Maritime Security (performs Coast Guard functions and has representation from military and civilian agencies); Ministry of Interior: Cambodian National Police (2022)

Military expenditures: 2.5% of GDP (2021 est.)

2.5% of GDP (2020 est.)

2.2% of GDP (2019 est.) (approximately \$1.2 billion)

2.2% of GDP (2018 est.) (approximately \$1.13 billion)

2.1% of GDP (2017 est.) (approximately \$1.02 billion)

country comparison to the world: 38

Military and security service personnel strengths: information varies; approximately 100,000 total active troops including less than 5,000 Navy and Air Force personnel; approximately 10,000 Gendarmerie (2022)

Military equipment inventories and acquisitions: the RCAF is armed largely with older Chinese and Russian-origin equipment; since 2010, it has received limited amounts of more modern equipment from a variety of suppliers, particularly China (2022)

note: in December 2021, the US Government halted arms-related trade with Cambodia, citing deepening Chinese military influence, corruption, and human rights abuses by the government and armed forces; the policy of denial applied to licenses or other approvals for exports and imports of defense articles and defense services destined for or originating in Cambodia, with exceptions (on a case-by-case basis) related to conventional weapons destruction and humanitarian demining activities

Military service age and obligation: 18 is the legal minimum age for compulsory and voluntary military service (conscription only selectively enforced since 1993); women may volunteer (2022)

note: in 2018, women made up an estimated 6% of the active duty military and 88 women held the rank of general

Military deployments: 225 Central African Republic (MINUSCA); 180 Lebanon (UNIFIL); 290 Mali (MINUSMA) (May 2022)

Military - note: the Royal Cambodian Armed Forces (RCAF) was re-established in 1993 under the first coalition government from the merger of the Cambodian Government's military forces (Cambodian People's Armed Forces) and the two noncommunist resistance forces (Sihanoukist National Army, aka National Army for Khmer Independence, and the Khmer People's National Liberation Armed Forces); thousands of communist Khmer Rouge fighters began surrendering by 1994 under a government amnesty program and the last of the Khmer Rouge forces (National Army of Democratic Kampuchea) were demobilized or absorbed into the RCAF in 1999

Cambodia was once one of the most land mined countries in the world; by the early 1990s, various aid organizations estimated there were 8 to 10 million landmines scattered throughout the country; the mines were laid during Cambodia's decades-long war by the Cambodian army, the Vietnamese, the Khmer Rouge, the non-communist fighters, and US forces; part of Cambodia's defense policy is demining the territory with the intent of having the entire country cleared of unexploded ordnances by 2035; over 1 million landmines and over 3 million explosives were discovered and removed from 1992 to 2018 (2022)

TRANSNATIONAL ISSUES

Disputes - international: Cambodia-Laos: Cambodia is concerned that Laos' extensive upstream dam construction will affect Cambodian waters downstream

Cambodia-Thailand Cambodia and Thailand have agreed to maintain peace along the border regardless of the decision of the International Court of Justice (ICJ) over territorial dispute near Cambodia's Preah Vihear Temple; the ICJ decision of 11 November 2013 determined that Cambodia had sovereignty over the whole territory of the promontory of Preah Vihear; the border disputes do not involve large amounts of territory, and most of the issues were settled by the Nov. 11, 2013 ICJ ruling

Cambodia-Vietnam: issues include casinos built in Cambodia near the border (gambling and prostitution); narcotics (criminals, crime, and abuse); trafficking of women and children, petrol smuggling into Cambodia from Vietnam, illegal logging, and illegal migration; a positive development is the special economic Zone in Bavet, Svay Rieng Province, Cambodia that is being developed by the Manhattan (Svay Rieng) International Group of Taiwan

Refugees and internally displaced persons: *stateless persons:* 57,444 (mid-year 2021)

Trafficking in persons: *current situation:* human traffickers exploit Cambodian men, women, and children in forced labor and sex trafficking in Cambodia and abroad, and foreign nationals are trafficked in Cambodia; Cambodian adults and children migrate to other countries in the region or increasingly to the Middle East where traffickers force them to work in agriculture, fishing, construction, manufacturing, and domestic servitude; significant numbers of Cambodian men and boys are subject to forced labor on Thai ships in international waters and may experience physical abuse, nonpayment or underpayment of wages, and confinement at sea for years; brick kiln owners exploit thousands of Cambodians, including children, through debt-based coercion; children from poor

families are vulnerable to forced labor, often with the complicity of their parents, in domestic servitude, forced begging, or street vending in Thailand and Vietnam; Cambodian and ethnic Vietnamese women and girls from rural areas move to cities and tourist areas where they are sex trafficked

tier rating: Tier 2 Watch List — Cambodia does not fully meet the minimum standards for the elimination of trafficking but is making significant efforts to do so; authorities continued to prosecute and convict traffickers and utilized new victim identification and data collection technologies; the government enacted a five-year national action plan to combat human trafficking; however, corruption continued to impede law enforcement efforts, criminal proceedings, and services to victims; some corrupt officials may have profited directly from sex and labor trafficking or accepted bribes to dismiss charges or reduce sentences; insufficient judicial monitoring systems enabled suspected traffickers to flee before trial; authorities failed to issue formal guidance allowing the use of undercover techniques in anti-trafficking investigations (2020)

Illicit drugs: manufacture of methamphetamine expanding due to transnational crime syndicates moving from China to evade the law; drugs destined for Australia, Japan, New Zealand and the Republic of Korea and the rest of East and South-East Asia (2021)

CAMEROON

INTRODUCTION

Background: Much of the area of present-day Cameroon was ruled by powerful chiefdoms before becoming a German colony in 1884 known as Kamerun. After World War I, the territory was divided between France and the UK as League of Nations mandates. French Cameroon became independent in 1960 as the Republic of Cameroon. The following year the southern portion of neighboring British Cameroon voted to merge with the new country to form the Federal Republic of Cameroon. In 1972, a new constitution replaced the federation with a unitary state, the United Republic of Cameroon. The country has generally enjoyed stability, which has enabled the development of agriculture, roads, and railways, as well as a petroleum industry. Despite slow movement toward democratic reform, political power remains firmly in the hands of President Paul BIYA.

GEOGRAPHY

Location: Central Africa, bordering the Bight of Biafra, between Equatorial Guinea and Nigeria

Geographic coordinates: 6 00 N, 12 00 E

Map references: Africa

Area: *total:* 475,440 sq km

land: 472,710 sq km

water: 2,730 sq km

country comparison to the world: 56

Area - comparative: slightly larger than California; about four times the size of Pennsylvania

Land boundaries: *total:* 5,018 km

border countries (6): Central African Republic 901 km; Chad 1,116 km; Republic of the Congo 494 km; Equatorial Guinea 183 km; Gabon 349 km; Nigeria 1975 km

Coastline: 402 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

Climate: varies with terrain, from tropical along coast to semiarid and hot in north

Terrain: diverse, with coastal plain in southwest, dissected plateau in center, mountains in west, plains in north

Elevation: *highest point:* Fako on Mont Cameroun 4,045 m

lowest point: Atlantic Ocean 0 m

mean elevation: 667 m

Natural resources: petroleum, bauxite, iron ore, timber, hydropower

Land use: *agricultural land:* 20.6% (2018 est.)

arable land: 13.1% (2018 est.)

permanent crops: 3.3% (2018 est.)

permanent pasture: 4.2% (2018 est.)

forest: 41.7% (2018 est.)

other: 37.7% (2018 est.)

Irrigated land: 290 sq km (2012)

Major lakes (area sq km): *fresh water lake(s)*: Lake Chad (endorheic lake shared with Niger, Nigeria, and Chad) - 10,360-25,900 sq km note - area varies by season and year to year

Major watersheds (area sq km): **Atlantic Ocean drainage**: Congo (3,730,881 sq km), Niger (2,261,741 sq km)

Internal (endorheic basin) drainage: Lake Chad (2,497,738 sq km)

Major aquifers: Lake Chad Basin

Population distribution: population concentrated in the west and north, with the interior of the country sparsely populated as shown in this population distribution map

Natural hazards: volcanic activity with periodic releases of poisonous gases from Lake Nyos and Lake Monoun volcanoes

volcanism: Mt. Cameroon (4,095 m), which last erupted in 2000, is the most frequently active volcano in West Africa; lakes in Oku volcanic field have released fatal levels of gas on occasion, killing some 1,700 people in 1986

Geography - note: sometimes referred to as the hinge of Africa because of its central location on the continent and its position at the west-south juncture of the Gulf of Guinea; throughout the country there are areas of thermal springs and indications of current or prior volcanic activity; Mount Cameroon, the highest mountain in Sub-Saharan west Africa, is an active volcano

PEOPLE AND SOCIETY

Population: 29,321,637 (2022 est.)

country comparison to the world: 51

Nationality: *noun:* Cameroonian(s)

adjective: Cameroonian

Ethnic groups: Bamileke-Bamu 24.3%, Beti/Bassa, Mbam 21.6%, Biu-Mandara 14.6%, Arab-Choa/Hausa/Kanuri 11%, Adamawa-Ubangi, 9.8%, Grassfields 7.7%, Kako, Meka/Pygmy 3.3%, Cotier/Ngoe/Oroko 2.7%, Southwestern Bantu 0.7%, foreign/other ethnic group 4.5% (2018 est.)

Languages: 24 major African language groups, English (official), French (official)

major-language sample(s): The World Factbook, the indispensable source for basic information. (English)

The World Factbook, une source indispensable d'informations de base. (French)

Religions: Roman Catholic 38.3%, Protestant 25.5%, other Christian 6.9%, Muslim 24.4%, animist 2.2%, other 0.5%, none 2.2% (2018 est.)

Demographic profile: Cameroon has a large youth population, with more than 60% of the populace under the age of 25. Fertility is falling but remains at a high level, especially among poor, rural, and uneducated women, in part because of inadequate access to contraception. Life expectancy remains low at about 55 years due to the prevalence of HIV and AIDs and an elevated maternal mortality rate, which has remained high since 1990. Cameroon, particularly the northern region, is vulnerable to food insecurity largely because of government mismanagement, corruption, high production costs, inadequate infrastructure, and natural disasters. Despite economic growth in some regions, poverty is on the rise, and is most prevalent in rural areas, which are especially affected by a shortage of jobs, declining incomes, poor school and health care infrastructure, and a lack of clean water and sanitation. Underinvestment

in social safety nets and ineffective public financial management also contribute to Cameroon's high rate of poverty. The activities of Boko Haram, other armed groups, and counterinsurgency operations have worsened food insecurity in the Far North region.

International migration has been driven by unemployment (including fewer government jobs), poverty, the search for educational opportunities, and corruption. The US and Europe are preferred destinations, but, with tighter immigration restrictions in these countries, young Cameroonians are increasingly turning to neighboring states, such as Gabon and Nigeria, South Africa, other parts of Africa, and the Near and Far East. Cameroon's limited resources make it dependent on UN support to host more than 490,000 refugees and asylum seekers as of September 2022. These refugees and asylum seekers are primarily from the Central African Republic and Nigeria. Internal and external displacement have grown dramatically in recent years. Boko Haram's attacks and counterattacks by government forces in the Far North since 2014 have increased the number of internally displaced people. Armed conflict between separatists and Cameroon's military in the Northwest and Southwest since 2016 have displaced hundreds of thousands of the country's Anglophone minority.

Age structure: 0-14 years: 42.34% (male 5,927,640/female 5,820,226)

15-24 years: 20.04% (male 2,782,376/female 2,776,873)

25-54 years: 30.64% (male 4,191,151/female 4,309,483)

55-64 years: 3.87% (male 520,771/female 552,801)

unimproved: urban: 4.9% of population

rural: 43.8% of population

total: 21.4% of population (2020 est.)

Current health expenditure: 3.6% of GDP (2019)

Physicians density: 0.13 physicians/1,000 population (2019)

Hospital bed density: 1.3 beds/1,000 population

Sanitation facility access: *improved:* urban: 83.2% of population

rural: 27.7% of population

total: 59.7% of population

unimproved: urban: 16.8% of population

rural: 72.3% of population

total: 40.3% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 3% (2020 est.)

country comparison to the world: 15

Major infectious diseases: degree of risk: very high (2020)

food or waterborne diseases: bacterial and protozoal diarrhea, hepatitis A, and typhoid fever

vectorborne diseases: malaria and dengue fever

water contact diseases: schistosomiasis

animal contact diseases: rabies

respiratory diseases: meningococcal meningitis

note: on 21 March 2022, the US Centers for Disease Control and

Prevention (CDC) issued a Travel Alert for polio in Africa; Cameroon is currently considered a high risk to travelers for circulating vaccine-derived polioviruses (cVDPV); vaccine-derived poliovirus (VDPV) is a strain of the weakened poliovirus that was initially included in oral polio vaccine (OPV) and that has changed over time and behaves more like the wild or naturally occurring virus; this means it can be spread more easily to people who are unvaccinated against polio and who come in contact with the stool or respiratory secretions, such as from a sneeze, of an “infected” person who received oral polio vaccine; the CDC recommends that before any international travel, anyone unvaccinated, incompletely vaccinated, or with an unknown polio vaccination status should complete the routine polio vaccine series; before travel to any high-risk destination, the CDC recommends that adults who previously completed the full, routine polio vaccine series receive a single, lifetime booster dose of polio vaccine

Obesity - adult prevalence rate: 11.4% (2016)

country comparison to the world: 135

Alcohol consumption per capita: *total:* 4.09 liters of pure alcohol (2019 est.)

beer: 2.36 liters of pure alcohol (2019 est.)

wine: 0.16 liters of pure alcohol (2019 est.)

spirits: 0.01 liters of pure alcohol (2019 est.)

other alcohols: 1.56 liters of pure alcohol (2019 est.)

country comparison to the world: 93

Tobacco use: *total:* 7.3% (2020 est.)

male: 13.2% (2020 est.)

female: 1.4% (2020 est.)

country comparison to the world: 155

Children under the age of 5 years underweight: 11% (2018/19)

country comparison to the world: 55

Child marriage: *women married by age 15:* 10.7%

women married by age 18: 29.8%

men married by age 18: 2.9% (2018 est.)

Education expenditures: 3.1% of GDP (2019 est.)

country comparison to the world: 143

Literacy: *definition:* age 15 and over can read and write

total population: 77.1%

male: 82.6%

female: 71.6% (2018)

School life expectancy (primary to tertiary education): *total: 12*

years

male: 13 years

female: 11 years (2016)

Unemployment, youth ages 15-24: *total: 6.3%*

male: 5.8%

female: 6.8% (2014 est.)

ENVIRONMENT

Environment - current issues: waterborne diseases are prevalent; deforestation and overgrazing result in erosion, desertification, and reduced quality of pastureland; poaching; overfishing; overhunting

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands, Whaling
signed, but not ratified: Nuclear Test Ban

Air pollutants: *particulate matter emissions:* 65.26 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 8.29 megatons (2016 est.)

methane emissions: 30.71 megatons (2020 est.)

Climate: varies with terrain, from tropical along coast to semiarid and hot in north

Land use: *agricultural land:* 20.6% (2018 est.)

arable land: 13.1% (2018 est.)

permanent crops: 3.3% (2018 est.)

permanent pasture: 4.2% (2018 est.)

forest: 41.7% (2018 est.)

other: 37.7% (2018 est.)

Urbanization: *urban population:* 58.7% of total population (2022)

rate of urbanization: 3.43% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 2.5% of GDP (2018 est.)

country comparison to the world: 27

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 75

Food insecurity: *severe localized food insecurity:* due to civil insecurity and population displacements - according to a March 2022 analysis, about 2.4 million people are projected to be severely food insecure between June and August 2022; this is mainly the result of conflict, sociopolitical unrest and high food prices (2022)

Waste and recycling: municipal solid waste generated annually: 3,270,617 tons (2013 est.)

municipal solid waste recycled annually: 13,082 tons (2009 est.)

percent of municipal solid waste recycled: 0.4% (2009 est.)

Major lakes (area sq km): *fresh water lake(s):* Lake Chad (endorheic lake shared with Niger, Nigeria, and Chad) - 10,360-25,900 sq km note - area varies by season and year to year

Major watersheds (area sq km): **Atlantic Ocean drainage:** Congo (3,730,881 sq km), Niger (2,261,741 sq km)

Internal (endorheic basin) drainage: Lake Chad (2,497,738 sq km)

Major aquifers: Lake Chad Basin

Total water withdrawal: *municipal:* 246.8 million cubic meters (2017 est.)

industrial: 104.6 million cubic meters (2017 est.)

agricultural: 737 million cubic meters (2017 est.)

Total renewable water resources: 283.15 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Cameroon

conventional short form: Cameroon

local long form: Republique du Cameroun (French)/Republic of Cameroon (English)

local short form: Cameroun/Cameroon

former: Kamerun, French Cameroon, British Cameroon, Federal Republic of Cameroon, United Republic of Cameroon

etymology: in the 15th century, Portuguese explorers named the area near the mouth of the Wouri River the Rio dos Camaroes (River of Prawns) after the abundant shrimp in the water; over time the designation became Cameroon in English; this is the only instance where a country is named after a crustacean

Government type: presidential republic

Capital: *name:* Yaounde

geographic coordinates: 3 52 N, 11 31 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

etymology: founded as a German colonial settlement of Jaunde in 1888 and named after the local Yaunde (Ewondo) people

Administrative divisions: 10 regions (regions, singular - region); Adamaoua, Centre, East (Est), Far North (Extreme-Nord), Littoral, North (Nord), North-West (Nord-Ouest), West (Ouest), South (Sud), South-West (Sud-Ouest)

Independence: 1 January 1960 (from French-administered UN trusteeship)

National holiday: State Unification Day (National Day), 20 May (1972)

Constitution: *history:* several previous; latest effective 18 January 1996

amendments: proposed by the president of the republic or by Parliament; amendment drafts require approval of at least one third of the membership

in either house of Parliament; passage requires absolute majority vote of the Parliament membership; passage of drafts requested by the president for a second reading in Parliament requires two-thirds majority vote of its membership; the president can opt to submit drafts to a referendum, in which case passage requires a simple majority; constitutional articles on Cameroon's unity and territorial integrity and its democratic principles cannot be amended; amended 2008

Legal system: mixed legal system of English common law, French civil law, and customary law

International law organization participation: accepts compulsory ICJ jurisdiction; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of Cameroon

dual citizenship recognized: no

residency requirement for naturalization: 5 years

Suffrage: 20 years of age; universal

Executive branch: *chief of state:* President Paul BIYA (since 6 November 1982)

head of government: Prime Minister Joseph Dion NGUTE (since 4 January 2019); Deputy Prime Minister Amadou ALI (since 2014)

cabinet: Cabinet proposed by the prime minister, appointed by the president

elections/appointments: president directly elected by simple majority popular vote for a 7-year term (no term limits); election last held on 7 October 2018 (next to be held in October 2025); prime minister appointed by the president

election results: Paul BIYA reelected president; percent of vote - Paul BIYA (CPDM) 71.3%, Maurice KAMTO (MRC) 14.2%, Cabral LIBII (Univiers) 6.3%, other 8.2% (2018)

Legislative branch: description: bicameral Parliament or Parlement consists of:

Senate or Senat (100 seats; 70 members indirectly elected by regional councils and 30 appointed by the president; members serve 5-year terms)

National Assembly or Assemblée Nationale (180 seats; members directly elected in multi-seat constituencies by simple majority vote to serve 5-year terms)

elections: Senate - last held on 25 March 2018 (next to be held in 2023)

National Assembly - last held on 9 February 2020 (current term extended by president); note - the Constitutional Court has ordered a partial rerun of elections in the English speaking areas; date to be determined

election results: Senate - percent of vote by party - CDPM 81.1%, SDF 8.6%, UNDP 5.8%, UDC 1.16%, other 2.8%; seats by party - CPDM 63, SDF 7; composition as of March 2022 - men 74, women 26, percent of women 26%

National Assembly - percent of vote by party - NA; seats by party - CPDM 139, UNDP 7, SDF 5, PCRN 5, UDC 4, FSNC 3, MDR 2, Union of Socialist Movements 2; 13 vacant; composition as of March 2022 - men 119, women 61, percent of women 33.9%; note - total Parliament percent of women 31.1%

Judicial branch: *highest court(s):* Supreme Court of Cameroon (consists of 9 titular and 6 surrogate judges and organized into judicial, administrative, and audit chambers); Constitutional Council (consists of 11 members)

judge selection and term of office: Supreme Court judges appointed by the president with the advice of the Higher Judicial Council of Cameroon, a body chaired by the president and includes the minister of justice, selected magistrates, and representatives of the National Assembly; judge term NA; Constitutional Council members appointed by the president for single 9-year terms

subordinate courts: Parliamentary Court of Justice (jurisdiction limited to cases involving the president and prime minister); appellate and first instance courts; circuit and magistrates' courts

Political parties and leaders: Alliance for Democracy and

Development [Marcel YONDO]

Cameroon People's Democratic Movement or CPDM [Paul BIYA]

Cameroon People's Party or CPP [Edith Kah WALLA]

Cameroon Renaissance Movement or MRC [Maurice KAMTO]

Cameroonian Democratic Union or UDC [Adamou Ndam NJOYA]

Cameroonian Party for National Reconciliation or PCRN [Cabral LIBII]

Front for the National Salvation of Cameroon or FSNC [Issa Tchiroma BAKARY]

Movement for the Defense of the Republic or MDR [Dakole DAISSALA]

Movement for the Liberation and Development of Cameroon or MLDC
[Marcel YONDO]

National Union for Democracy and Progress or UNDP [Maigari BELLO BOUBA]

Progressive Movement or MP [Jean-Jacques EKINDI]

Social Democratic Front or SDF [John FRU NDI]

Union of Peoples of Cameroon or UPC [Provisionary Management Bureau] [Cecil ODHIAMBO]

Union of Socialist Movements

International organization participation: ACP, AfDB, AU, BDEAC, C, CEMAC, EITI (compliant country), FAO, FZ, G-77, IAEA, IBRD, ICAO, ICRM, IDA, IDB, IFAD, IFC, IFRCs, IHO, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), LCBC, MIGA, MNJTF, MONUSCO, NAM, OIC, OIF, OPCW, PCA, UN, UNCTAD, UNESCO, UNHCR, UNHRC, UNIDO, UNOCI, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Henri ETOUNDI ESSOMBA (since 27 June 2016)

chancery: 2349 Massachusetts Avenue NW, Washington, DC 20008

telephone: [1] (202) 265-8790

branch office(s): Douala

Flag description: three equal vertical bands of green (hoist side), red, and yellow, with a yellow five-pointed star centered in the red band; the vertical tricolor recalls the flag of France; red symbolizes unity, yellow the sun, happiness, and the savannahs in the north, and green hope and the forests in the south; the star is referred to as the “star of unity”

note: uses the popular Pan-African colors of Ethiopia

National symbol(s): lion; national colors: green, red, yellow

National anthem: *name:* “O Cameroun, Berceau de nos Ancetres” (O Cameroon, Cradle of Our Forefathers)

lyrics/music: Rene Djam AFAME, Samuel Minkio BAMBA, Moise Nyatte NKO’O [French], Benard Nsokika FONLON [English]/Rene Djam AFAME

note: adopted 1957; Cameroon’s anthem, also known as “Chant de Ralliement” (The Rallying Song), has been used unofficially since 1948 and officially adopted in 1957; the anthem has French and English versions whose lyrics differ

National heritage: total World Heritage Sites: 2 (both natural)

selected World Heritage Site locales: Dja Faunal Reserve; Sangha Trinational Forest

ECONOMY

Economic overview: Cameroon's market-based, diversified economy features oil and gas, timber, aluminum, agriculture, mining and the service sector. Oil remains Cameroon's main export commodity, and despite falling global oil prices, still accounts for nearly 40% of exports. Cameroon's economy suffers from factors that often impact underdeveloped countries, such as stagnant per capita income, a relatively inequitable distribution of income, a top-heavy civil service, endemic corruption, continuing inefficiencies of a large parastatal system in key sectors, and a generally unfavorable climate for business enterprise.

Since 1990, the government has embarked on various IMF and World Bank programs designed to spur business investment, increase efficiency in agriculture, improve trade, and recapitalize the nation's banks. The IMF continues to press for economic reforms, including increased budget transparency, privatization, and poverty reduction programs. The Government of Cameroon provides subsidies for electricity, food, and fuel that have strained the federal budget and diverted funds from education, healthcare, and infrastructure projects, as low oil prices have led to lower revenues.

Cameroon devotes significant resources to several large infrastructure projects currently under construction, including a deep seaport in Kribi and the Lom Pangar Hydropower Project. Cameroon's energy sector continues to diversify, recently opening a natural gas-powered electricity generating plant. Cameroon continues to seek foreign investment to improve its inadequate infrastructure, create jobs, and improve its economic footprint, but its unfavorable business environment remains a significant deterrent to foreign investment.

Real GDP (purchasing power parity): \$94.94 billion (2020 est.)

\$94.25 billion (2019 est.)

\$90.87 billion (2018 est.)

ENERGY

Electricity access: *electrification - total population: 70% (2019)*

electrification - urban areas: 98% (2019)

electrification - rural areas: 32% (2019)

Electricity: *installed generating capacity: 1.754 million kW (2020 est.)*

consumption: 6,508,840,000 kWh (2019 est.)

exports: 0 kWh (2019 est.)

imports: 19 million kWh (2019 est.)

transmission/distribution losses: 1.864 billion kWh (2019 est.)

Electricity generation sources: *fossil fuels: 32.5% of total installed capacity (2020 est.)*

solar: 0.2% of total installed capacity (2020 est.)

hydroelectricity: 67.3% of total installed capacity (2020 est.)

Petroleum: *total petroleum production: 63,200 bbl/day (2021 est.)*

refined petroleum consumption: 37,900 bbl/day (2019 est.)

crude oil and lease condensate exports: 62,200 bbl/day (2018 est.)

crude oil and lease condensate imports: 20,200 bbl/day (2018 est.)

crude oil estimated reserves: 200 million barrels (2021 est.)

Refined petroleum products - production: 39,080 bbl/day (2015 est.)

country comparison to the world: 82

Refined petroleum products - exports: 8,545 bbl/day (2015 est.)

country comparison to the world: 84

Refined petroleum products - imports: 14,090 bbl/day (2015 est.)

country comparison to the world: 138

Natural gas: *production: 2,678,486,000 cubic meters (2019 est.)*

consumption: 986.189 million cubic meters (2019 est.)

exports: 1,603,156,000 cubic meters (2019 est.)

imports: 0 cubic meters (2021 est.)

proven reserves: 135.071 billion cubic meters (2021 est.)

Carbon dioxide emissions: 7.105 million metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 5.171 million metric tonnes of CO₂ (2019 est.)

from consumed natural gas: 1.935 million metric tonnes of CO₂ (2019 est.)

country comparison to the world: 125

Energy consumption per capita: 6.187 million Btu/person (2019 est.)

country comparison to the world: 167

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 964,378 (2020 est.)

subscriptions per 100 inhabitants: 4 (2020 est.)

country comparison to the world: 74

Telephones - mobile cellular total subscriptions: 22,350,310 (2020 est.)

subscriptions per 100 inhabitants: 84 (2020 est.)

country comparison to the world: 55

Telecommunication systems: *general assessment:* Cameroon was for many years one of the few countries in Africa with only two competing mobile operators; the investment programs among operators over the next few years will considerably boost mobile broadband services in rural areas of the country, many of which are under served by fixed-line infrastructure; the government has also been supportive, having launched its 'Cameroon Digital 2020' program, aimed at improving connectivity nationally; improved submarine and terrestrial cable connectivity has substantially increased international bandwidth, in turn leading to reductions in access prices for consumers; other projects such as Acceleration of the Digital Transformation of Cameroon are aimed at developing the digital economy (2022)

domestic: only a little above 3 per 100 persons for fixed-line subscriptions; mobile-cellular usage has increased sharply, reaching a subscribership base of roughly 95 per 100 persons (2020)

international: country code - 237; landing points for the SAT-3/WASC, SAIL, ACE, NCSCS, Ceiba-2, and WACS fiberoptic submarine cable that provides connectivity to Europe, South America, and West Africa; satellite earth stations - 2 Intelsat (Atlantic Ocean) (2019)

Broadcast media: government maintains tight control over broadcast media; state-owned Cameroon Radio Television (CRTV), broadcasting on both a TV and radio network, was the only officially recognized and fully licensed broadcaster until August 2007, when the government finally

issued licenses to 2 private TV broadcasters and 1 private radio broadcaster; about 70 privately owned, unlicensed radio stations operating but are subject to closure at any time; foreign news services required to partner with state-owned national station (2019)

Internet country code: .cm

Internet users: *total:* 10,087,428 (2020 est.)

percent of population: 38% (2020 est.)

country comparison to the world: 55

Broadband - fixed subscriptions: *total:* 722,579 (2020 est.)

subscriptions per 100 inhabitants: 3 (2020 est.)

country comparison to the world: 79

TRANSPORTATION

National air transport system: *number of registered air carriers:* 1 (2020)

inventory of registered aircraft operated by air carriers: 3

annual passenger traffic on registered air carriers: 265,136 (2018)

annual freight traffic on registered air carriers: 70,000 (2018) mt-km

Civil aircraft registration country code prefix: TJ

Airports: *total:* 33 (2021)

country comparison to the world: 111

Airports - with paved runways: *total:* 11

over 3,047 m: 2

2,438 to 3,047 m: 5

1,524 to 2,437 m: 3

914 to 1,523 m: 1 (2021)

Airports - with unpaved runways: *total:* 22

1,524 to 2,437 m: 4

914 to 1,523 m: 10

under 914 m: 8 (2021)

Pipelines: 53 km gas, 5 km liquid petroleum gas, 1,107 km oil, 35 km water (2013)

Railways: *total:* 987 km (2014)

narrow gauge: 987 km (2014) 1.000-m gauge

note: railway connections generally efficient but limited; rail lines connect major cities of Douala, Yaounde, Ngaoundere, and Garoua; passenger and freight service provided by CAMRAIL

country comparison to the world: 89

Roadways: *total:* 77,589 km (2016)

paved: 5,133 km (2016)

unpaved: 72,456 km (2016)

country comparison to the world: 64

Waterways: (2010) (major rivers in the south, such as the Wouri and the Sanaga, are largely non-navigable; in the north, the Benue, which connects through Nigeria to the Niger River, is navigable in the rainy season only to the port of Garoua)

Merchant marine: *total:* 94

by type: bulk carrier 3, container ship 1 ,general cargo 35, oil tanker 24, other 31 (2021)

country comparison to the world: 93

Ports and terminals: *oil terminal(s):* Limboh Terminal

river port(s): Douala (Wouri)

Garoua (Benoue)

MILITARY AND SECURITY

Military and security forces: *Cameroon Armed Forces (Forces Armees Camerounaises, FAC):* Army (L'Armee de Terre), Navy (Marine Nationale Republique, MNR, includes naval infantry), Air Force (Armee de l'Air du Cameroun, AAC), Rapid Intervention Battalion (Bataillons d'Intervention Rapide or BIR), National Gendarmerie, Presidential Guard (2022)

note 1 : the National Police and the National Gendarmerie are responsible for internal security; the Police report to the General Delegation of National Security, while the Gendarmerie reports to the Secretariat of State for Defense in charge of the Gendarmerie

note 2: the Rapid Intervention Battalion (BIR) maintains its own command and control structure and reports directly to the president; the BIR is structured as a large brigade with up to 9 battalions, detachments, or groups consisting of infantry, airborne/airmobile, amphibious, armored reconnaissance, counterterrorism, and support elements, such as artillery and intelligence

Military expenditures: 1% of GDP (2021 est.)

1% of GDP (2020 est.)

1.4% of GDP (2019 est.) (approximately \$710 million)

1.4% of GDP (2018 est.) (approximately \$710 million)

1.5% of GDP (2017 est.) (approximately \$710 million)

country comparison to the world: 126

Military and security service personnel strengths: information varies; approximately 40,000 active-duty troops; (25,000 ground forces, including the Rapid Intervention Battalion/BIR and Presidential Guard; 2,000 Navy; 1,000 Air Force; 12,000 Gendarmerie) (2022)

note: the BIR has approximately 5,000 personnel

Military equipment inventories and acquisitions: the FAC inventory includes a wide mix of mostly older or second-hand Chinese, Russian, and Western equipment, with a limited quantity of more modern weapons; since 2010, China has been the leading supplier of armaments

to the FAC (2021)

Military service age and obligation: 18-23 years of age for male and female voluntary military service; no conscription; high school graduation required; service obligation 4 years (2021)

Military deployments: 750 (plus about 350 police) Central African Republic (MINUSCA) (May 2022)

note: Cameroon has committed approximately 2,000-2,500 troops to the Multinational Joint Task Force (MNJTF) against Boko Haram and other terrorist groups operating in the general area of the Lake Chad Basin and along Nigeria's northeast border; national MNJTF troop contingents are deployed within their own country territories, although cross-border operations occur occasionally

Military - note: as of 2022, the FAC was largely focused on the threat from the terrorist group Boko Haram along its frontiers with Nigeria and Chad (Far North region) and an insurgency from armed Anglophone separatist groups in the North-West and South-West regions (as of early 2022, this internal conflict has left an estimated 4,000 civilians dead and over 700,000 people displaced since fighting started in 2016); in addition, the FAC often deployed units to the border region with the Central African Republic to counter intrusions from armed militias and bandits

Maritime threats: the International Maritime Bureau reports the territorial and offshore waters in the Niger Delta and Gulf of Guinea remain a very high risk for piracy and armed robbery of ships; in 2021, there were 34 reported incidents of piracy and armed robbery at sea in the Gulf of Guinea region; although a significant decrease from the total number of 81 incidents in 2020, it included the one hijacking and three of five ships fired upon worldwide; while boarding and attempted boarding to steal valuables from ships and crews are the most common types of incidents, almost a third of all incidents involve a hijacking and/or kidnapping; in 2021, 57 crew members were kidnapped in seven separate incidents in the Gulf of Guinea, representing 100% of kidnappings worldwide; Nigerian pirates in particular are well armed and very aggressive, operating as far as 200 nm offshore; the Maritime

Administration of the US Department of Transportation has issued a Maritime Advisory (2022-001 - Gulf of Guinea-Piracy/Armed Robbery/Kidnapping for Ransom) effective 4 January 2022, which states in part, “Piracy, armed robbery, and kidnapping for ransom continue to serve as significant threats to US-flagged vessels transiting or operating in the Gulf of Guinea”

TERRORISM

Terrorist group(s): Boko Haram; Islamic State of Iraq and ash-Sham - West Africa

note: details about the history, aims, leadership, organization, areas of operation, tactics, targets, weapons, size, and sources of support of the group(s) appear(s) in Appendix-T

TRANSNATIONAL ISSUES

Disputes - international: Joint Border Commission with Nigeria reviewed 2002 ICJ ruling on the entire boundary and bilaterally resolved differences, including June 2006 Greentree Agreement that immediately ceded sovereignty of the Bakassi Peninsula to Cameroon with a full phase-out of Nigerian control and patriation of residents in 2008; Cameroon and Nigeria agreed on maritime delimitation in March 2008; sovereignty dispute between Equatorial Guinea and Cameroon over an island at the mouth of the Ntem River; only Nigeria and Cameroon have heeded the Lake Chad Commission's admonition to ratify the delimitation treaty, which also includes the Chad-Niger and Niger-Nigeria boundaries

Refugees and internally displaced persons: refugees (country of origin): 353,362 (Central African Republic), 138,107 (Nigeria) (2022)

IDPs: 975,786 (2022) (includes far north, northwest, and southwest)

Trafficking in persons: *current situation:* human traffickers exploit domestic and foreign victims in Cameroon and Cameroonians abroad; deteriorating economic and education conditions and diminished police and judicial presence caused by conflict in the Northwest and Southwest has left displaced persons vulnerable to trafficking; parents may be lured by promises of education or a better life for their children in urban areas, and then the children are subject to forced labor and sex trafficking; teenagers and adolescents may be lured to cities with promises of employment and then become victims of forced labor and sex trafficking; children from neighboring countries are forced to work in spare parts shops or cattle grazing by business owners and herders; Cameroonians, often from rural areas, are exploited in forced labor and sex trafficking in the Middle East, Europe, the United States, and African countries

tier rating: Tier 2 Watch List — Cameroon does not meet the minimum standards for the elimination of trafficking, but is making significant efforts to do so; authorities investigated at least nine suspected trafficking cases, identified 77 victims, and provided some training on trafficking indicators to officials and teachers; however, officials prosecuted and

convicted fewer traffickers; standard operating procedures for the identification and referral of trafficking victims were not implemented, and officials were not trained on the measures; the government did not report referring trafficking victims to government institutions for vulnerable children, but NGO-funded centers provided care for an unknown number of child victims; 2012 anti-trafficking legislation addressing victim and witness protection in conformity with international law was not passed for the eighth consecutive year (2020)

CANADA

INTRODUCTION

Background: A land of vast distances and rich natural resources, Canada became a self-governing dominion in 1867, while retaining ties to the British crown. Canada gained legislative independence from Britain in 1931 and formalized its constitutional independence from the UK when it passed the Canada Act in 1982. Economically and technologically, the nation has developed in parallel with the US, its neighbor to the south across the world's longest international border. Canada faces the political challenges of meeting public demands for quality improvements in health care, education, social services, and economic competitiveness, as well as responding to the particular concerns of predominantly francophone Quebec. Canada also aims to develop its diverse energy resources while maintaining its commitment to the environment.

GEOGRAPHY

Location: Northern North America, bordering the North Atlantic Ocean on the east, North Pacific Ocean on the west, and the Arctic Ocean on the north, north of the conterminous US

Geographic coordinates: 60 00 N, 95 00 W

Map references: North America

Area: *total:* 9,984,670 sq km

land: 9,093,507 sq km

water: 891,163 sq km

country comparison to the world: 3

Area - comparative: slightly larger than the US

Land boundaries: *total:* 8,891 km

border countries (1): US 8,891 km (includes 2,475 km with Alaska)

note: Canada is the world's largest country that borders only one country

Coastline: 202,080 km

note: the Canadian Arctic Archipelago - consisting of 36,563 islands, several of them some of the world's largest -contributes to Canada easily having the longest coastline in the world

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

continental shelf: 200 nm or to the edge of the continental margin

Climate: varies from temperate in south to subarctic and arctic in north

Terrain: mostly plains with mountains in west, lowlands in southeast

Elevation: *highest point:* Mount Logan 5,959 m

lowest point: Atlantic/Pacific/Arctic Oceans 0 m

mean elevation: 487 m

Natural resources: bauxite, iron ore, nickel, zinc, copper, gold, lead, uranium, rare earth elements, molybdenum, potash, diamonds, silver, fish,

timber, wildlife, coal, petroleum, natural gas, hydropower

Land use: *agricultural land:* 6.8% (2018 est.)

arable land: 4.7% (2018 est.)

permanent crops: 0.5% (2018 est.)

permanent pasture: 1.6% (2018 est.)

forest: 34.1% (2018 est.)

other: 59.1% (2018 est.)

Irrigated land: 8,700 sq km (2012)

Major lakes (area sq km): *fresh water lake(s):* Huron* - 35,972 sq km; Great Bear Lake - 31,328 sq km; Superior* - 28,754 sq km; Great Slave Lake - 28,568 sq km; Lake Winnipeg - 24,387 sq km; Erie* - 12,776 sq km; Ontario* - 9,790 sq km; Lake Athabasca - 7,935 sq km; Reindeer Lake - 6,650 sq km; Nettilling Lake - 5,542 sq km

note - Great Lakes area shown as Canadian waters*

Major rivers (by length in km): Mackenzie - 4,241 km; Yukon river source (shared with the US [m]) - 3,185 km; Saint Lawrence river mouth (shared with US) - 3,058 km; Nelson - 2,570 km; Columbia river source (shared with the US [m]) - 1,953 km; Churchill - 1,600 km; Fraser - 1,368 km; Ottawa - 1,271 km; Athabasca - 1,231 km; North Saskatchewan - 1,220 km; Liard - 1,115 km

note - [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Mississippi* (Gulf of Mexico) (3,202,185 sq km, Canada only 32,000 sq km), Nelson (Hudson Bay) (1,093,141 sq km), Saint Lawrence* (1,049,636 sq km, Canada only 839,200 sq km)

Arctic Ocean drainage: Mackenzie (1,706,388 sq km)

Pacific Ocean drainage: Yukon* (847,620 sq km, Canada only 823,800 sq km), Columbia* (657,501 sq km, Canada only 103,000 sq km)

*note - watersheds shared with the US shown with **

Major aquifers: Northern Great Plains Aquifer

Population distribution: *vast majority of Canadians are positioned in*

a discontinuous band within approximately 300 km of the southern border with the United States; the most populated province is Ontario, followed by Quebec and British Columbia

Natural hazards: continuous permafrost in north is a serious obstacle to development; cyclonic storms form east of the Rocky Mountains, a result of the mixing of air masses from the Arctic, Pacific, and North American interior, and produce most of the country's rain and snow east of the mountains

volcanism: the vast majority of volcanoes in Western Canada's Coast Mountains remain dormant

Geography - note: *note 1:* second-largest country in world (after Russia) and largest in the Americas; strategic location between Russia and US via north polar route; approximately 90% of the population is concentrated within 160 km (100 mi) of the US border

note 2: Canada has more fresh water than any other country and almost 9% of Canadian territory is water; Canada has at least 2 million and possibly over 3 million lakes - that is more than all other countries combined

PEOPLE AND SOCIETY

Population: 38,232,593 (2022 est.)

country comparison to the world: 38

Nationality: *noun:* Canadian(s)

adjective: Canadian

Ethnic groups: Canadian 32.3%, English 18.3%, Scottish 13.9%, French 13.6%, Irish 13.4%, German 9.6%, Chinese 5.1%, Italian 4.6%, North American Indian 4.4%, East Indian 4%, Ukrainian 3.9%, other 47.7% (2016 est.)

note: percentages add up to more than 100% because respondents were able to identify more than one ethnic origin

Languages: English (official) 58.7%, French (official) 22%, Punjabi 1.4%, Italian 1.3%, Spanish 1.3%, German 1.3%, Cantonese 1.2%, Tagalog 1.2%, Arabic 1.1%, other 10.5% (2011 est.)

major-language sample(s): The World Factbook, the indispensable source for basic information. (English)

The World Factbook, une source indispensable d'informations de base. (French)

Religions: Catholic 39% (includes Roman Catholic 38.8%, other Catholic .2%), Protestant 20.3% (includes United Church 6.1%, Anglican 5%, Baptist 1.9%, Lutheran 1.5%, Pentecostal 1.5%, Presbyterian 1.4%, other Protestant 2.9%), Orthodox 1.6%, other Christian 6.3%, Muslim 3.2%, Hindu 1.5%, Sikh 1.4%, Buddhist 1.1%, Jewish 1%, other 0.6%, none 23.9% (2011 est.)

Age structure: 0-14 years: 15.99% (male 3,094,008/female 2,931,953)

15-24 years: 11.14% (male 2,167,013/female 2,032,064)

25-54 years: 39.81% (male 7,527,554/female 7,478,737)

55-64 years: 14.08% (male 2,624,474/female 2,682,858)

65 years and over: 18.98% (male 3,274,298/female 3,881,126) (2020 est.)

Dependency ratios: *total dependency ratio:* 51.2

youth dependency ratio: 23.9

elderly dependency ratio: 27.4

potential support ratio: 3.7 (2020 est.)

Median age: *total: 41.8 years*

male: 40.6 years

female: 42.9 years (2020 est.)

country comparison to the world: 40

Population growth rate: *0.75% (2022 est.)*

country comparison to the world: 122

Birth rate: *10.17 births/1,000 population (2022 est.)*

country comparison to the world: 186

Death rate: *8.12 deaths/1,000 population (2022 est.)*

country comparison to the world: 81

Net migration rate: *5.46 migrant(s)/1,000 population (2022 est.)*

country comparison to the world: 21

Population distribution: vast majority of Canadians are positioned in a discontinuous band within approximately 300 km of the southern border with the United States; the most populated province is Ontario, followed by Quebec and British Columbia

Urbanization: *urban population: 81.8% of total population (2022)*

rate of urbanization: 0.95% annual rate of change (2020-25 est.)

Major urban areas - population: 6.313 million Toronto, 4.277 million Montreal, 2.632 million Vancouver, 1.611 million Calgary, 1.519 million Edmonton, 1.423 million OTTAWA (capital) (2022)

Sex ratio: *at birth: 1.05 male(s)/female*

0-14 years: 1.06 male(s)/female

15-24 years: 1.06 male(s)/female

25-54 years: 1.01 male(s)/female

55-64 years: 0.98 male(s)/female

65 years and over: 0.75 male(s)/female

total population: 0.98 male(s)/female (2022 est.)

Mother's mean age at first birth: 29.4 years (2019 est.)

Maternal mortality ratio: 10 deaths/100,000 live births (2017 est.)
country comparison to the world: 145

Infant mortality rate: *total:* 4.38 deaths/1,000 live births
male: 4.66 deaths/1,000 live births
female: 4.08 deaths/1,000 live births (2022 est.)
country comparison to the world: 184

Life expectancy at birth: *total population:* 83.8 years
male: 81.52 years
female: 86.21 years (2022 est.)
country comparison to the world: 6

Total fertility rate: 1.57 children born/woman (2022 est.)
country comparison to the world: 191

Drinking water source: *improved:* *urban:* 99.3% of population
rural: 99.1% of population
total: 99.2% of population
unimproved: *urban:* 0.7% of population
rural: 0.9% of population
total: 0.8% of population (2020 est.)

Current health expenditure: 10.8% of GDP (2019)

Physicians density: 2.44 physicians/1,000 population (2019)

Hospital bed density: 2.5 beds/1,000 population (2019)

Sanitation facility access: *improved:* *urban:* 99.1% of population
rural: 98.9% of population
total: 99% of population
unimproved: *urban:* 0.9% of population
rural: 1.1% of population
total: 1% of population (2020 est.)

Obesity - adult prevalence rate: 29.4% (2016)
country comparison to the world: 26

Alcohol consumption per capita: *total:* 8 liters of pure alcohol (2019 est.)

beer: 3.5 liters of pure alcohol (2019 est.)

wine: 2 liters of pure alcohol (2019 est.)

spirits: 2.1 liters of pure alcohol (2019 est.)

other alcohols: 0.4 liters of pure alcohol (2019 est.)

country comparison to the world: 44

Tobacco use: *total:* 13% (2020 est.)

male: 15.3% (2020 est.)

female: 10.7% (2020 est.)

country comparison to the world: 117

Education expenditures: 5.3% of GDP (2011 est.)

country comparison to the world: 48

School life expectancy (primary to tertiary education): *total:* 16 years

male: 16 years

female: 17 years (2019)

Unemployment, youth ages 15-24: *total:* 20.2%

male: 20.9%

female: 19.4% (2020 est.)

ENVIRONMENT

Environment - current issues: metal smelting, coal-burning utilities, and vehicle emissions impacting agricultural and forest productivity; air pollution and resulting acid rain severely affecting lakes and damaging forests; ocean waters becoming contaminated due to agricultural, industrial, mining, and forestry activities

Environment - international agreements: *party to:* Air Pollution, Air Pollution-Heavy Metals, Air Pollution-Multi-effect Protocol, Air Pollution-Nitrogen Oxides, Air Pollution-Persistent Organic Pollutants, Air Pollution-Sulphur 85, Air Pollution-Sulphur 94, Antarctic-Environmental Protection, Antarctic-Marine Living Resources, Antarctic Treaty, Biodiversity, Climate Change, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Marine Dumping-London Protocol, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Wetlands
signed, but not ratified: Air Pollution-Volatile Organic Compounds, Marine Life Conservation

Air pollutants: *particulate matter emissions:* 6.48 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 544.89 megatons (2016 est.)

methane emissions: 101.82 megatons (2020 est.)

Climate: varies from temperate in south to subarctic and arctic in north

Land use: *agricultural land:* 6.8% (2018 est.)

arable land: 4.7% (2018 est.)

permanent crops: 0.5% (2018 est.)

permanent pasture: 1.6% (2018 est.)

forest: 34.1% (2018 est.)

other: 59.1% (2018 est.)

Urbanization: *urban population:* 81.8% of total population (2022)

rate of urbanization: 0.95% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.08% of GDP (2018 est.)

country comparison to the world: 118

Revenue from coal: *coal revenues:* 0.08% of GDP (2018 est.)

country comparison to the world: 27

Waste and recycling: *municipal solid waste generated annually:* 25,103,034 tons (2014 est.)

municipal solid waste recycled annually: 5,168,715 tons (2008 est.)

percent of municipal solid waste recycled: 20.6% (2008 est.)

Major lakes (area sq km): *fresh water lake(s):* Huron* - 35,972 sq km; Great Bear Lake - 31,328 sq km; Superior* - 28,754 sq km; Great Slave Lake - 28,568 sq km; Lake Winnipeg - 24,387 sq km; Erie* - 12,776 sq km; Ontario* - 9,790 sq km; Lake Athabasca - 7,935 sq km; Reindeer Lake - 6,650 sq km; Nettilling Lake - 5,542 sq km

note - Great Lakes area shown as Canadian waters*

Major rivers (by length in km): Mackenzie - 4,241 km; Yukon river source (shared with the US [m]) - 3,185 km; Saint Lawrence river mouth (shared with US) - 3,058 km; Nelson - 2,570 km; Columbia river source (shared with the US [m]) - 1,953 km; Churchill - 1,600 km; Fraser - 1,368 km; Ottawa - 1,271 km; Athabasca - 1,231 km; North Saskatchewan - 1,220 km; Liard - 1,115 km

note - [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Mississippi* (Gulf of Mexico) (3,202,185 sq km, Canada only 32,000 sq km), Nelson (Hudson Bay) (1,093,141 sq km), Saint Lawrence* (1,049,636 sq km, Canada only 839,200 sq km)

Arctic Ocean drainage: Mackenzie (1,706,388 sq km)

Pacific Ocean drainage: Yukon* (847,620 sq km, Canada only 823,800 sq km), Columbia* (657,501 sq km, Canada only 103,000 sq km)

*note - watersheds shared with the US shown with **

Major aquifers: Northern Great Plains Aquifer

Total water withdrawal: *municipal:* 4.888 billion cubic meters (2017 est.)

industrial: 28.07 billion cubic meters (2017 est.)

agricultural: 2.639 billion cubic meters (2017 est.)

Total renewable water resources: 2.902 trillion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Canada

etymology: the country name likely derives from the St. Lawrence Iroquoian word “kanata” meaning village or settlement

Government type: federal parliamentary democracy (Parliament of Canada) under a constitutional monarchy; a Commonwealth realm; federal and state authorities and responsibilities regulated in constitution

Capital: *name:* Ottawa

geographic coordinates: 45 25 N, 75 42 W

time difference: UTC-5 (same time as Washington, DC, during Standard Time)

daylight saving time: +1 hr, begins second Sunday in March; ends first Sunday in November

time zone note: Canada has six time zones

etymology: the city lies on the south bank of the Ottawa River, from which it derives its name; the river name comes from the Algonquin word “adawe” meaning “to trade” and refers to the indigenous peoples who used the river as a trade highway

Administrative divisions: 10 provinces and 3 territories*; Alberta, British Columbia, Manitoba, New Brunswick, Newfoundland and Labrador, Northwest Territories*, Nova Scotia, Nunavut*, Ontario, Prince Edward Island, Quebec, Saskatchewan, Yukon*

Independence: 1 July 1867 (union of British North American colonies); 11 December 1931 (recognized by UK per Statute of Westminster)

National holiday: Canada Day, 1 July (1867)

Constitution: *history:* consists of unwritten and written acts, customs, judicial decisions, and traditions dating from 1763; the written part of the constitution consists of the Constitution Act of 29 March 1867, which

created a federation of four provinces, and the Constitution Act of 17 April 1982

amendments: proposed by either house of Parliament or by the provincial legislative assemblies; there are 5 methods for passage though most require approval by both houses of Parliament, approval of at least two thirds of the provincial legislative assemblies and assent and formalization as a proclamation by the governor general in council; the most restrictive method is reserved for amendments affecting fundamental sections of the constitution, such as the office of the monarch or the governor general, and the constitutional amendment procedures, which require unanimous approval by both houses and by all the provincial assemblies, and assent of the governor general in council; amended 11 times, last in 2011 (Fair Representation Act, 2011)

Legal system: common law system except in Quebec, where civil law based on the French civil code prevails

International law organization participation: accepts compulsory ICJ jurisdiction with reservations; accepts ICCt jurisdiction

Citizenship: *citizenship by birth*: yes

citizenship by descent only: yes

dual citizenship recognized: yes

residency requirement for naturalization: minimum of 3 of last 5 years resident in Canada

Suffrage: 18 years of age; universal

Executive branch: *chief of state*: King CHARLES III (since 8 September 2022); represented by Governor General Mary SIMON (since 6 July 2021)

head of government: Prime Minister Justin Pierre James TRUDEAU (Liberal Party) (since 4 November 2015)

cabinet: Federal Ministry chosen by the prime minister usually from among members of his/her own party sitting in Parliament

elections/appointments: the monarchy is hereditary; governor general appointed by the monarch on the advice of the prime minister for a 5-year

term; following legislative elections, the leader of the majority party or majority coalition in the House of Commons generally designated prime minister by the governor general

note: the governor general position is largely ceremonial

Legislative branch: description: bicameral Parliament or Parlement consists of:

Senate or Senat (105 seats; members appointed by the governor general on the advice of the prime minister and can serve until age 75)

House of Commons or Chambre des Communes (338 seats; members directly elected in single-seat constituencies by simple majority vote with terms up to 4 years)

elections: Senate - appointed; latest appointments in July 2021

House of Commons - last held on 20 September 2021 (next to be held on or before 20 October 2025)

election results:

Senate - composition as of May 2022 - men 47, women 45, percent of women 48.9%

House of Commons - percent of vote by party - CPC 33.7%, Liberal Party 32.6%, NDP 17.8%, Bloc Quebecois 7.7%, Greens 2.3%, other 5.9%; seats by party - Liberal Party 159, CPC 119, NDP 25, Bloc Quebecois 32, Greens 2, independent 1 ; composition as of May 2022 - men 235, women 103, percent of women 30.5%; note - total Parliament percent of women 34.4%

Judicial branch: *highest court(s):* Supreme Court of Canada (consists of the chief justice and 8 judges); note - in 1949, Canada abolished all appeals beyond its Supreme Court, which prior to that time, were heard by the Judicial Committee of the Privy Council (in London)

judge selection and term of office: chief justice and judges appointed by the prime minister in council; all judges appointed for life with mandatory retirement at age 75

subordinate courts: federal level: Federal Court of Appeal; Federal Court; Tax Court; federal administrative tribunals; Courts Martial; provincial/territorial level: provincial superior, appeals, first instance, and

specialized courts; note - in 1999, the Nunavut Court - a circuit court with the power of a provincial superior court, as well as a territorial court - was established to serve isolated settlements

Political parties and leaders: Bloc Quebecois [Yves-Francois BLANCHET]

Conservative Party of Canada or CPC [Candice BERGEN (interim)]

Green Party [Amita KUTTNER (interim)]

Liberal Party [Justin TRUDEAU]

New Democratic Party or NDP [Jagmeet SINGH]

People's Party of Canada [Maxime BERNIER]

International organization participation: ADB (nonregional member), AfDB (nonregional member), APEC, Arctic Council, ARF, ASEAN (dialogue partner), Australia Group, BIS, C, CD, CDB, CE (observer), EAPC, EBRD, EITI (implementing country), FAO, FATF, G-7, G-8, G-10, G-20, IADB, IAEA, IBRD, ICAO, ICC (national committees), ICCT, ICRM, IDA, IEA, IFAD, IFC, IFRCs, IGAD (partners), IHO, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), MIGA, MINUSTAH, MONUSCO, NAFTA, NATO, NEA, NSG, OAS, OECD, OIF, OPCW, OSCE, Pacific Alliance (observer), Paris Club, PCA, PIF (partner), UN, UNCTAD, UNESCO, UNFICYP, UNHCR, UNMISS, UNRWA, UNTSO, UPU, USMCA, Wassenaar Arrangement, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO, ZC

Diplomatic representation in the US: *chief of mission:* Ambassador Kirsten HILLMAN (since 17 July 2020)

chancery: 501 Pennsylvania Avenue NW, Washington, DC 20001

telephone: [1] (844) 880-6519

FAX: [1] (202) 682-7738

email address and website:

ccs.scc@international.gc.ca

[lang=eng](https://www.international.gc.ca/country-pays/us-eu/washington.aspx?lang=eng)

consulate(s) general: Atlanta, Boston, Chicago, Dallas, Denver, Detroit,

Los Angeles, Miami, Minneapolis, New York, San Francisco/Silicon Valley, Seattle

trade office(s): Houston, Palo Alto (CA), San Diego; note - there are trade offices in the Consulates General

Diplomatic representation from the US: *chief of mission:*

Ambassador David L. COHEN (since December 2021)

embassy: 490 Sussex Drive, Ottawa, Ontario K1N 1G8

mailing address: 5480 Ottawa Place, Washington DC 20521-5480

telephone: [1] (613) 238-5335

FAX: [1] (613) 241-7845

email address and website:

OttawaNIV@state.gov

<https://ca.usembassy.gov/>

consulate(s) general: Calgary, Halifax, Montreal, Quebec City, Toronto, Vancouver

consulate(s): Winnipeg

Flag description: two vertical bands of red (hoist and fly side, half width) with white square between them; an 11 -pointed red maple leaf is centered in the white square; the maple leaf has long been a Canadian symbol

National symbol(s): maple leaf, beaver; national colors: red, white

National anthem: *name*: “O Canada”

lyrics/music: Adolphe-Basile ROUTHIER [French], Robert Stanley WEIR [English]/Calixa LAVALLEE

note: adopted 1980; originally written in 1880, “O Canada” served as an unofficial anthem many years before its official adoption; the anthem has French and English versions whose lyrics differ; as a Commonwealth realm, in addition to the national anthem, “God Save the King” serves as the royal anthem (see United Kingdom)

National heritage: *total World Heritage Sites*: 20 (9 cultural, 10 natural, 1 mixed) (2021)

selected World Heritage Site locales: L’Anse aux Meadows (c); Canadian

Rocky Mountain Parks (n); Dinosaur Provincial Park (n); Historic District of Old Quebec (c); Old Town Lunenburg (c); Wood Buffalo National Park (n); Head-Smashed-In Buffalo Jump (c); Gros Morne National Park (n); Pimachiowin Aki (m)

ECONOMY

Economic overview: Canada resembles the US in its market-oriented economic system, pattern of production, and high living standards. Since World War II, the impressive growth of the manufacturing, mining, and service sectors has transformed the nation from a largely rural economy into one primarily industrial and urban. Canada has a large oil and natural gas sector with the majority of crude oil production derived from oil sands in the western provinces, especially Alberta. Canada now ranks third in the world in proved oil reserves behind Venezuela and Saudi Arabia and is the world's seventh-largest oil producer.

The 1989 Canada-US Free Trade Agreement and the 1994 North American Free Trade Agreement (which includes Mexico) dramatically increased trade and economic integration between the US and Canada. Canada and the US enjoy the world's most comprehensive bilateral trade and investment relationship, with goods and services trade totaling more than \$680 billion in 2017, and two-way investment stocks of more than \$800 billion. Over three-fourths of Canada's merchandise exports are destined for the US each year. Canada is the largest foreign supplier of energy to the US, including oil, natural gas, and electric power, and a top source of US uranium imports.

Given its abundant natural resources, highly skilled labor force, and modern capital stock, Canada enjoyed solid economic growth from 1993 through 2007. The global economic crisis of 2007-08 moved the Canadian economy into sharp recession by late 2008, and Ottawa posted its first fiscal deficit in 2009 after 12 years of surplus. Canada's major banks emerged from the financial crisis of 2008-09 among the strongest in the world, owing to the financial sector's tradition of conservative lending practices and strong capitalization. Canada's economy posted strong growth in 2017 at 3%, but most analysts are projecting Canada's economic growth will drop back closer to 2% in 2018.

Real GDP (purchasing power parity): \$1,742,790,000,000 (2020 est.)

\$1,842,330,000,000 (2019 est.)

\$1,808,660,000,000 (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 15

Real GDP growth rate: 1.66% (2019 est.)

2.02% (2018 est.)

3.17% (2017 est.)

country comparison to the world: 148

Real GDP per capita: \$45,900 (2020 est.)

\$49,000 (2019 est.)

\$48,800 (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 34

GDP (official exchange rate): \$1,741,865,000,000 (2019 est.)

Inflation rate (consumer prices): 1.9% (2019 est.)

2.2% (2018 est.)

1.5% (2017 est.)

country comparison to the world: 106

Credit ratings: *Fitch rating:* AA+ (2020)

Moody's rating: Aaa (2002)

Standard & Poors rating: AAA (2002)

note: The year refers to the year in which the current credit rating was first obtained.

GDP - composition, by sector of origin: *agriculture:* 1.6% (2017 est.)

industry: 28.2% (2017 est.)

services: 70.2% (2017 est.)

GDP - composition, by end use: *household consumption:* 57.8% (2017 est.)

government consumption: 20.8% (2017 est.)

investment in fixed capital: 23% (2017 est.)

investment in inventories: 0.7% (2017 est.)

exports of goods and services: 30.9% (2017 est.)

imports of goods and services: -33.2% (2017 est.)

Agricultural products: wheat, rapeseed, maize, barley, milk, soybeans, potatoes, oats, peas, pork

Industries: transportation equipment, chemicals, processed and unprocessed minerals, food products, wood and paper products, fish products, petroleum, natural gas

Industrial production growth rate: 4.9% (2017 est.)

country comparison to the world: 60

Labor force: 18.136 million (2020 est.)

country comparison to the world: 30

Labor force - by occupation: agriculture: 2%

industry: 13%

services: 6%

industry and services: 76%

manufacturing: 3% (2006 est.)

Unemployment rate: 5.67% (2019 est.)

5.83% (2018 est.)

country comparison to the world: 92

Unemployment, youth ages 15-24: total: 20.2%

male: 20.9%

female: 19.4% (2020 est.)

country comparison to the world: 76

Population below poverty line: 9.4% (2008 est.)

note: this figure is the Low Income Cut-Off, a calculation that results in higher figures than found in many comparable economies; Canada does not have an official poverty line

Gini Index coefficient - distribution of family income: 33.3 (2017 est.)

31.5 (1994)

country comparison to the world: 128

Household income or consumption by percentage share:

lowest 10%: 2.6%

highest 10%: 24.8% (2000)

1.0298 (2013 est.)

ENERGY

Electricity access: *electrification - total population:* 100% (2020)

Electricity: *installed generating capacity:* 153.251 million kW (2020 est.)

consumption: 539.695 billion kWh (2020 est.)

exports: 67.2 billion kWh (2020 est.)

imports: 9.8 billion kWh (2020 est.)

transmission/distribution losses: 32.937 billion kWh (2020 est.)

Electricity generation sources: *fossil fuels:* 16.5% of total installed capacity (2020 est.)

nuclear: 14.7% of total installed capacity (2020 est.)

solar: 0.7% of total installed capacity (2020 est.)

wind: 5.7% of total installed capacity (2020 est.)

hydroelectricity: 60.8% of total installed capacity (2020 est.)

biomass and waste: 1.6% of total installed capacity (2020 est.)

Coal: *production:* 48.328 million metric tons (2020 est.)

consumption: 25.642 million metric tons (2020 est.)

exports: 32.026 million metric tons (2020 est.)

imports: 7.577 million metric tons (2020 est.)

proven reserves: 6.582 billion metric tons (2019 est.)

Petroleum: *total petroleum production:* 5,468,100 bbl/day (2021 est.)

refined petroleum consumption: 2,629,300 bbl/day (2019 est.)

crude oil and lease condensate exports: 3.177 million bbl/day (2018 est.)

crude oil and lease condensate imports: 793,800 bbl/day (2018 est.)

crude oil estimated reserves: 170.3 billion barrels (2021 est.)

Refined petroleum products - production: 2.009 million bbl/day (2017 est.)

country comparison to the world: 10

Refined petroleum products - exports: 1.115 million bbl/day (2017 est.)

country comparison to the world: 8

Refined petroleum products - imports: 405,700 bbl/day (2017 est.)

country comparison to the world: 21

Natural gas: *production:* 178,723,494,000 cubic meters (2019 est.)

consumption: 124,502,315,000 cubic meters (2019 est.)

exports: 76,094,066,000 cubic meters (2019 est.)

imports: 28,026,440,000 cubic meters (2019 est.)

proven reserves: 2,067,126,000,000 cubic meters (2021 est.)

Carbon dioxide emissions: 612.084 million metric tonnes of CO2 (2019 est.)

from coal and metallurgical coke: 56.087 million metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 311.336 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 244.66 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 9

Energy consumption per capita: 403.7 million Btu/person (2019 est.)

country comparison to the world: 6

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 13.34 million (2020 est.)

subscriptions per 100 inhabitants: 35 (2020 est.)

country comparison to the world: 15

Telephones - mobile cellular: *total subscriptions:* 32.36 million (2020 est.)

subscriptions per 100 inhabitants: 86 (2020 est.)

country comparison to the world: 45

Telecommunication systems: *general assessment:* the Canadian telecom market continues to show steady development as operators invest in network upgrades; much of the investment among telcos has been channelled into LTE infrastructure to capitalize on consumer demand for mobile data services, while there has also been further investment in 5G; investment programs have also been supported by regulatory efforts to ensure that operators have spectrum available to develop 5G services; an investment in fixed-line infrastructure, focused on FttP and, among cable broadband providers; government policy has encouraged the extension of broadband to rural and regional areas, with the result that services are almost universally available and the emphasis now is on improving service speeds to enable the entire population to benefit from the digital economy and society; cable broadband is the principal access platform, followed by DSL; the mobile rate remains comparatively low by international standards; Canadians have provided for LTE and LTE-A infrastructure; despite topographical challenges and the remoteness of many areas, the major players effectively offer 99% population coverage with LTE; operators now provide up to 70% population coverage with 5G (2022)

domestic: Nearly 37 per 100 fixed-line and 96 per 100 mobile-cellular teledensity; domestic satellite system with about 300 earth stations (2020)

international: country code - 1 ; landing points for the Nunavut Undersea Fiber Optic Network System, Greenland Connect, Persona, GTT Atlantic,

and Express, Ketchikan 1 Submarine Fiber Cable system, St Pierre and Miquelon Cable submarine cables providing links to the US and Europe; satellite earth stations - 7 (5 Intelsat - 4 Atlantic Ocean and 1 Pacific Ocean, and 2 Intersputnik - Atlantic Ocean region) (2019)

Broadcast media: 2 public TV broadcasting networks, 1 in English and 1 in French, each with a large number of network affiliates; several private-commercial networks also with multiple network affiliates; overall, about 150 TV stations; multi-channel satellite and cable systems provide access to a wide range of stations including US stations; mix of public and commercial radio broadcasters with the Canadian Broadcasting Corporation (CBC), the public radio broadcaster, operating 4 radio networks, Radio Canada International, and radio services to indigenous populations in the north; roughly 1,119 licensed radio stations (2016)

Internet country code: .ca

Internet users: *total:* 36,896,088 (2020 est.)

percent of population: 97% (2020 est.)

country comparison to the world: 27

Broadband - fixed subscriptions: *total:* 15,825,813 (2020 est.)

subscriptions per 100 inhabitants: 42 (2020 est.)

country comparison to the world: 16

TRANSPORTATION

National air transport system: *number of registered air carriers:* 51 (2020)

inventory of registered aircraft operated by air carriers: 879

annual passenger traffic on registered air carriers: 89.38 million (2018)

annual freight traffic on registered air carriers: 3,434,070,000 (2018) mt-km

Civil aircraft registration country code prefix: C

Airports: *total:* 1,467 (2021)

country comparison to the world: 4

Airports - with paved runways: *total:* 523

over 3,047 m: 21

2,438 to 3,047 m: 19

1,524 to 2,437 m: 147

914 to 1,523 m: 257

under 914 m: 79 (2021)

Airports - with unpaved runways: *total:* 944

1,524 to 2,437 m: 75

914 to 1,523 m: 385

under 914 m: 484 (2021)

Heliports: 26 (2021)

Pipelines: 840,000 km oil and gas (2020)

Railways: *total:* 49,422 km (2021) *note:* 129 km electrified (2021)

standard gauge: 49,422 km (2021) 1.435-m gauge

country comparison to the world: 5

Roadways: *total:* 1,042,300 km (2011)

paved: 415,600 km (2011) (includes 17,000 km of expressways)

unpaved: 626,700 km (2011)

country comparison to the world: 8

Waterways: 636 km (2011) (Saint Lawrence Seaway of 3,769 km, including the Saint Lawrence River of 3,058 km, shared with United States)

country comparison to the world: 85

Merchant marine: *total:* 679

by type: bulk carrier 22, container ship 1, general cargo 66, oil tanker 15, other 575 (2021)

country comparison to the world: 34

Ports and terminals: *major seaport(s):* Halifax, Saint John (New Brunswick), Vancouver

oil terminal(s): Lower Lakes terminal

container port(s) (TEUs): Montreal (1,745,244), Vancouver (3,398,860) (2019)

LNG terminal(s) (import): Saint John

river and lake port(s): Montreal, Quebec City, Sept-Isles (St. Lawrence)

dry bulk cargo port(s): Port-Cartier (iron ore and grain),

Fraser River Port (Fraser) Hamilton (Lake Ontario)

MILITARY AND SECURITY

Military and security forces: Canadian Forces: Canadian Army, Royal Canadian Navy, Royal Canadian Air Force, Canadian Joint Operations Command, Canadian Special Operations Forces Command; Primary Reserve (army, air, naval reserves); Coast Guard (Department of Fisheries and Oceans) (2022)

note: the Army reserves include the Canadian Rangers, which provides a limited presence in Canada's northern, coastal, and isolated areas for sovereignty, public safety, and surveillance roles

Military expenditures: 1.4% of GDP (2021 est.)

1.4% of GDP (2020)

1.3% of GDP (2019) (approximately \$26 billion)

1.3% of GDP (2018) (approximately \$25.7 billion)

1.4% of GDP (2017) (approximately \$27.6 billion)

country comparison to the world: 97

Military and security service personnel strengths: approximately 70,000 active armed forces personnel (23,000 Army; 12,000 Navy; 12,000 Air Force; 23,000 other) (2022)

note: the Army also has approximately 19,000 part-time volunteer soldiers in the Reserve Force, including about 5,500 Rangers

Military equipment inventories and acquisitions: the CAF's inventory is a mix of domestically-produced equipment and imported weapons systems from Australia, Europe, Israel, and the US; since 2010, the leading supplier has been the US; Canada's defense industry develops, maintains, and produces a range of equipment, including aircraft, combat vehicles, naval vessels, and associated components (2022)

Military service age and obligation: 17 years of age for voluntary male and female military service (with parental consent); 16 years of age for Reserve and Military College applicants; Canadian citizenship or permanent residence status required; maximum 34 years of age; service obligation 3-9 years (2022)

note 1 : Canada opened up all military occupations to women in 2001 ; in 2020, women comprised about 16% of the CAF

Military deployments: the CAF has nearly 1,400 military personnel forward deployed for NATO air, land, and sea missions in the European theater, including up to 650 troops in Latvia and 140 in Romania (2022)

note: in response to Russia's 2022 invasion of Ukraine, some NATO countries, including Canada, have sent additional troops and equipment to the battlegroups deployed in NATO territory in eastern Europe

Military - note: Canada is a member of NATO and was one of the original 12 countries to sign the North Atlantic Treaty (also known as the Washington Treaty) in 1949

Canada is part of the North American Aerospace Defense Command (NORAD; established 1958); NORAD is a Canada-US bi-national military command responsible for monitoring and defending North American airspace; traditionally, a Canadian Armed Forces officer has served as the deputy commander of NORAD

Canada's defense relationship with the US extends back to the Ogdensburg Declaration of 1940, when the two countries formally agreed on military cooperation, including the establishment of the Permanent Joint Board on Defense (PJBD), which continued to be the highest-level bilateral defense forum between Canada and the US as of 2022

British troops withdrew from Canada in 1871 as part of the UK-US Treaty of Washington; following the withdrawal, the first Canadian militia, known as the Royal Canadian Regiment, was organized in 1883 to protect Canadian territory and defend British interests abroad, which it did in the South African War (1899-1902), Canada's first overseas conflict; militia units formed the backbone of the more than 425,000 Canadian soldiers that went to Europe during World War I in what was called the Canadian Expeditionary Force; the Royal Canadian Navy was created in 1910, while the Canadian Air Force was established in 1920 and became the Royal Canadian Air Force in 1924; the Canadian Army was officially founded in 1942; a unified Canadian Armed Forces was created in 1968

TERRORISM

Terrorist group(s): Islamic State of Iraq and ash-Sham (ISIS); Hizballah

note: details about the history, aims, leadership, organization, areas of operation, tactics, targets, weapons, size, and sources of support of the group(s) appear(s) in Appendix-T

TRANSNATIONAL ISSUES

Disputes - international: managed maritime boundary disputes with the US at Dixon Entrance, Beaufort Sea, Strait of Juan de Fuca, and the Gulf of Maine, including the disputed Machias Seal Island and North Rock; Canada and the United States dispute how to divide the Beaufort Sea and the status of the Northwest Passage but continue to work cooperatively to survey the Arctic continental shelf; US works closely with Canada to intensify security measures for monitoring and controlling legal and illegal movement of people, transport, and commodities across the international border; sovereignty dispute with Denmark over Hans Island in the Kennedy Channel between Ellesmere Island and Greenland; commencing the collection of technical evidence for submission to the Commission on the Limits of the Continental Shelf in support of claims for continental shelf beyond 200 nm from its declared baselines in the Arctic, as stipulated in Article 76, paragraph 8, of the UN Convention on the Law of the Sea

Refugees and internally displaced persons: *refugees (country of origin):* 22,400 (Venezuela) (refugees and migrants) (2020); 9,883 (Nigeria), 7,571 (Turkey), 7,385 (Iran), 6,965 (Pakistan), 6,287 (China), 5,244 (Colombia) (mid-year 2021)
stateless persons: 3,823 (mid-year 2021)

Illicit drugs: illicit production of fentanyl primarily for Canada's domestic drug market with at least small quantities smuggled to the US; complex laboratories setup for fentanyl production have been found and Mexican traffickers present in the country; Canada legalized marijuana in 2018

CAYMAN ISLANDS

INTRODUCTION

Background: The Cayman Islands were colonized from Jamaica by the British during the 18th and 19th centuries and were administered by Jamaica after 1863. In 1959, the islands became a territory within the Federation of the West Indies. When the Federation dissolved in 1962, the Cayman Islands chose to remain a British dependency. The territory has transformed itself into a significant offshore financial center.

GEOGRAPHY

Location: Caribbean, three-island group (Grand Cayman, Cayman Brac, Little Cayman) in Caribbean Sea, 240 km south of Cuba and 268 km northwest of Jamaica

Geographic coordinates: 19 30 N, 80 30 W

Map references: Central America and the Caribbean

Area: *total:* 264 sq km

land: 264 sq km

water: 0 sq km

country comparison to the world: 210

Area - comparative: 1.5 times the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 160 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm

exclusive fishing zone: 200 nm

Climate: tropical marine; warm, rainy summers (May to October) and cool, relatively dry winters (November to April)

Terrain: low-lying limestone base surrounded by coral reefs

Elevation: *highest point:* 1 km SW of The Bluff on Cayman Brac 50 m

lowest point: Caribbean Sea 0 m

Natural resources: fish, climate and beaches that foster tourism

Land use: *agricultural land:* 11.2% (2018 est.)

arable land: 0.8% (2018 est.)

permanent crops: 2.1% (2018 est.)

permanent pasture: 8.3% (2018 est.)

forest: 52.9% (2018 est.)

other: 35.9% (2018 est.)

Population distribution: majority of the population resides on Grand Cayman

Natural hazards: hurricanes (July to November)

Geography - note: important location between Cuba and Central America

PEOPLE AND SOCIETY

Population: 64,309 (2022 est.)

note: most of the population lives on Grand Cayman

country comparison to the world: 204

Nationality: *noun:* Caymanian(s)

adjective: Caymanian

Ethnic groups: mixed 40%, White 20%, African descent 20%, expatriates of various ethnic groups 20%

Languages: English (official) 90.9%, Spanish 4%, Filipino 3.3%, other 1.7%, unspecified 0.1% (2010 est.)

Religions: Protestant 67.8% (includes Church of God 22.6%, Seventh Day Adventist 9.4%, Presbyterian/United Church 8.6%, Baptist 8.3%, Pentecostal 7.1%, non-denominational 5.3%, Anglican 4.1%, Wesleyan Holiness 2.4%), Roman Catholic 14.1%, Jehovah's Witness 1.1%, other 7%, none 9.3%, unspecified 0.7% (2010 est.)

Age structure: 0-14 years: 17.75% (male 5,535/female 5,457)

15-24 years: 11.86% (male 3,673/female 3,675)

25-54 years: 41.37% (male 12,489/female 13,140)

55-64 years: 14.78% (male 4,398/female 4,755)

65 years and over: 14.24% (male 4,053/female 4,769) (2020 est.)

Median age: *total:* 40.5 years

male: 39.7 years

female: 41.2 years (2020 est.)

country comparison to the world: 51

Population growth rate: 1.83% (2022 est.)

country comparison to the world: 49

Birth rate: 11.69 births/1,000 population (2022 est.)

country comparison to the world: 159

Death rate: 5.97 deaths/1,000 population (2022 est.)

country comparison to the world: 160

Net migration rate: 12.56 migrant(s)/1,000 population (2022 est.)

note: major destination for Cubans trying to migrate to the US

country comparison to the world: 6

Population distribution: majority of the population resides on Grand Cayman

Urbanization: *urban population:* 100% of total population (2022)

rate of urbanization: 1.13% annual rate of change (2020-25 est.)

Major urban areas - population: 35,000 GEORGE TOWN (capital) (2018)

Sex ratio: *at birth:* 1.02 male(s)/female

0-14 years: 1.01 male(s)/female

15-24 years: 1 male(s)/female

25-54 years: 0.95 male(s)/female

55-64 years: 0.94 male(s)/female

65 years and over: 0.7 male(s)/female

total population: 0.95 male(s)/female (2022 est.)

Infant mortality rate: *total:* 7.65 deaths/1,000 live births

male: 9.26 deaths/1,000 live births

female: 6.01 deaths/1,000 live births (2022 est.)

country comparison to the world: 154

Life expectancy at birth: *total population:* 82.04 years

male: 79.35 years

female: 84.79 years (2022 est.)

country comparison to the world: 29

Total fertility rate: 1.82 children born/woman (2022 est.)

country comparison to the world: 140

Drinking water source: *improved: urban:* 97.4% of population

total: 97.4% of population

unimproved: urban: 2.6% of population

total: 2.6% of population (2015 est.)

Sanitation facility access: *improved: urban: 95.6% of population*
total: 95.6% of population
unimproved: urban: 4.4% of population
total: 4.4% of population (2015 est.)

Unemployment, youth ages 15-24: *total: 13.8%*
male: 16.4%
female: 11.4% (2015 est.)

ENVIRONMENT

Environment - current issues: no natural freshwater resources; drinking water supplies are met by reverse osmosis desalination plants and rainwater catchment; trash washing up on the beaches or being deposited there by residents; no recycling or waste treatment facilities; deforestation (trees being cut down to create space for commercial use)

Air pollutants: *carbon dioxide emissions:* 0.55 megatons (2016 est.)

Climate: tropical marine; warm, rainy summers (May to October) and cool, relatively dry winters (November to April)

Land use: *agricultural land:* 11.2% (2018 est.)

arable land: 0.8% (2018 est.)

permanent crops: 2.1% (2018 est.)

permanent pasture: 8.3% (2018 est.)

forest: 52.9% (2018 est.)

other: 35.9% (2018 est.)

Urbanization: *urban population:* 100% of total population (2022)

rate of urbanization: 1.13% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0% of GDP (2018 est.)

country comparison to the world: 164

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 76

Waste and recycling: *municipal solid waste generated annually:* 60,000 tons (2014 est.)

municipal solid waste recycled annually: 12,600 tons (2013 est.)

percent of municipal solid waste recycled: 21% (2013 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Cayman Islands

etymology: the islands' name comes from the native Carib word "caiman," describing the marine crocodiles living there

Government type: parliamentary democracy; self-governing overseas territory of the UK

Dependency status: overseas territory of the UK

Capital: *name:* George Town (on Grand Cayman)

geographic coordinates: 19 18 N, 81 23 W

time difference: UTC-5 (same time as Washington, DC, during Standard Time)

etymology: named after English King GEORGE III (1738-1820)

Administrative divisions: 6 districts; Bodden Town, Cayman Brac and Little Cayman, East End, George Town, North Side, West Bay

Independence: none (overseas territory of the UK)

National holiday: Constitution Day, the first Monday in July (1959)

Constitution: *history:* several previous; latest approved 10 June 2009, entered into force 6 November 2009 (The Cayman Islands Constitution Order 2009)

amendments: amended 2016, 2020

Legal system: English common law and local statutes

Citizenship: see United Kingdom

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022); represented by Governor Martyn ROPER (since 29 October 2018)

head of government: Premier Wayne PANTON (since 21 April 2021)

cabinet: Cabinet selected from the Parliament and appointed by the

governor on the advice of the premier

elections/appointments: the monarchy is hereditary; governor appointed by the monarch; following legislative elections, the leader of the majority party or majority coalition appointed premier by the governor

Legislative branch: *description:* unicameral Parliament (21 seats; 19 members directly elected by majority vote and 2 ex officio members -the deputy governor and attorney general - appointed by the governor; members serve 4-year terms)

elections: last held on 14 April 2021 (next to be held on 2025)

election results: percent of vote by party - independent 79.1%, PPM 19.6%; seats by party - independent 12, PPM 7; composition of elected members - men 15, women 4, percent of women 21.1%; ex-officio members - men 2

Judicial branch: *highest court(s):* Court of Appeal (consists of the court president and at least 2 judges); Grand Court (consists of the court president and at least 2 judges); note - appeals beyond the Court of Appeal are heard by the Judicial Committee of the Privy Council (in London)

judge selection and term of office: Court of Appeal and Grand Court judges appointed by the governor on the advice of the Judicial and Legal Services Commission, an 8-member independent body consisting of governor appointees, Court of Appeal president, and attorneys; Court of Appeal judges' tenure based on their individual instruments of appointment; Grand Court judges normally appointed until retirement at age 65 but can be extended until age 70

subordinate courts: Summary Court

Political parties and leaders: Cayman Islands Peoples Party or CIPP [Ezzard MILLER]

People's Progressive Movement or PPM [Roy McTAGGART]

International organization participation: Caricom (associate), CDB, Interpol (subbureau), IOC, UNESCO (associate), UPU

Diplomatic representation in the US: none (overseas territory of the

UK)

Diplomatic representation from the US: *embassy:* none (overseas territory of the UK); consular services provided through the US Embassy in Jamaica

Flag description: a blue field with the flag of the UK in the upper hoist-side quadrant and the Caymanian coat of arms centered on the outer half of the flag; the coat of arms includes a crest with a pineapple, representing the connection with Jamaica, and a turtle, representing Cayman's seafaring tradition, above a shield bearing a golden lion, symbolizing Great Britain, below which are three green stars (representing the three islands) surmounting white and blue wavy lines representing the sea; a scroll below the shield bears the motto HE HATH FOUNDED IT UPON THE SEAS

National symbol(s): green sea turtle

National anthem: *name:* "Beloved Isle Cayman"

lyrics/music: Leila E. ROSS

note: adopted 1993; served as an unofficial anthem since 1930; as an overseas territory of the United Kingdom, in addition to the local anthem, "God Save the King" is official (see United Kingdom)

ECONOMY

Economic overview: With no direct taxation, the islands are a thriving offshore financial center. More than 65,000 companies were registered in the Cayman Islands as of 2017, including more than 280 banks, 700 insurers, and 10,500 mutual funds. A stock exchange was opened in 1997. Nearly 90% of the islands' food and consumer goods must be imported. The Caymanians enjoy a standard of living comparable to that of Switzerland.

Tourism is also a mainstay, accounting for about 70% of GDP and 75% of foreign currency earnings. The tourist industry is aimed at the luxury market and caters mainly to visitors from North America. Total tourist arrivals exceeded 2.1 million in 2016, with more than three-quarters from the US.

Real GDP (purchasing power parity): \$4.78 billion (2019 est.) note: data are in 2017 dollars

\$4.61 billion (2018 est.) note: data are in 2017 dollars

Roadways: *total:* 785 km (2007)

paved: 785 km (2007)

country comparison to the world: 189

Merchant marine: *total:* 160

by type: bulk carrier 32, container ship 1, general cargo 1, oil tanker 23, other 103 (2021)

country comparison to the world: 73

Ports and terminals: *major seaport(s):* Cayman Brac, George Town

MILITARY AND SECURITY

Military and security forces: no regular military forces; Royal Cayman Islands Police Service

Military - note: defense is the responsibility of the UK

TRANSNATIONAL ISSUES

Disputes - international: none

Illicit drugs: major offshore financial center vulnerable to drug trafficking money laundering

CENTRAL AFRICAN REPUBLIC

INTRODUCTION

Background: The Central African Republic (CAR) is a perennially weak state that sits at the crossroads of ethnic and linguistic groups in the center of the African continent. Among the last areas of Sub-Saharan Africa to be drawn into the world economy, its introduction into trade networks around the early 1700s fostered significant competition among its population. The local population sought to benefit from the lucrative Atlantic, trans-Saharan, and Indian Ocean trade in enslaved people and ivory. Slave raids aided by the local populations fostered animosity between ethnic groups that remains today. The territory was established as a French colony named Ubangui-Shari in 1903, and France modeled its administration of the colony after the Belgian Congo, subcontracting control of the territory to private companies that collected rubber and ivory. Although France banned the domestic slave trade in CAR in the 1910s, the private companies continued to exploit the population through forced labor. The colony of Ubangi-Shari gained independence from France as the Central African Republic in August 1960, but the death of independence leader Barthélemy BOGANDA six months prior led to an immediate struggle for power.

CAR's political history has since been marred by a series of coups, the first of which brought Jean-Bedel BOKASSA to power in 1966. BOKASSA's regime was characterized by widespread corruption and an intolerance of opposition, which manifested in the disappearances of many who challenged BOKASSA's rule. In an effort to prolong his mandate, he named himself emperor in 1976 and changed the country's name to the Central African Empire. His regime's economic mismanagement culminated in widespread student protests in early 1979 that were violently suppressed by security forces. BOKASSA, rumored to have participated in the killing of some young students after the protests, fell out of favor with the international community and was overthrown in a French-backed coup in 1979. After BOKASSA's departure, the country's name once again became the Central African Republic.

CAR's fifth coup in March 2013 unseated President Francois BOZIZE

after a mainly Muslim rebel coalition named the Seleka seized the capital and forced BOZIZE, who himself had taken power in a coup in 2003, to flee the country. Widespread abuses by the Seleka spurred the formation of mainly Christian self-defense groups that called themselves the anti-Balaka, which have also committed human rights abuses against Muslim populations in retaliation. Since the rise of the self-defense groups, conflict in CAR has become increasingly ethnoreligious-based, although focused on identity as opposed to religious ideology. Elections organized by a transitional government in early 2016 installed independent candidate Faustin-Archange TOUNGARA as president; he was reelected in December 2020. A peace agreement signed in February 2019 between the government and the main armed factions has had little effect, and armed groups remain in control of large swaths of the country's territory.

GEOGRAPHY

Location: Central Africa, north of Democratic Republic of the Congo

Geographic coordinates: 7 00 N, 21 00 E

Map references: Africa

Area: *total:* 622,984 sq km

land: 622,984 sq km

water: 0 sq km

country comparison to the world: 47

Area - comparative: slightly smaller than Texas; about four times the size of Georgia

Land boundaries: *total:* 5,920 km

border countries (5): Cameroon 901 km; Chad 1556 km; Democratic Republic of the Congo 1,747 km; Republic of the Congo 487 km; South Sudan 1055 km; Sudan 174 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: tropical; hot, dry winters; mild to hot, wet summers

Terrain: vast, flat to rolling plateau; scattered hills in northeast and southwest

Elevation: *highest point:* Mont Ngaoui 1,410 m

lowest point: Oubangui River 335 m

mean elevation: 635 m

Natural resources: diamonds, uranium, timber, gold, oil, hydropower

Land use: *agricultural land:* 8.1% (2018 est.)

arable land: 2.9% (2018 est.)

permanent crops: 0.1% (2018 est.)

permanent pasture: 5.1% (2018 est.)

forest: 36.2% (2018 est.)

other: 55.7% (2018 est.)

Irrigated land: 10 sq km (2012)

Major rivers (by length in km): Ubangi river [s] (shared with Democratic Republic of Congo and Republic of Congo [m]) - 2,270 km
note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): **Atlantic Ocean drainage:** Congo (3,730,881 sq km), (Mediterranean Sea) Nile (3,254,853 sq km)

Internal (endorheic basin) drainage: Lake Chad (2,497,738 sq km)

Major aquifers: Congo Basin, Lake Chad Basin

Population distribution: majority of residents live in the western and central areas of the country, especially in and around the capital of Bangui as shown in this population distribution map

Natural hazards: hot, dry, dusty harmattan winds affect northern areas; floods are common

Geography - note: landlocked; almost the precise center of Africa

PEOPLE AND SOCIETY

Population: 5,454,533 (2022 est.)

country comparison to the world: 119

Nationality: *noun:* Central African(s)

adjective: Central African

Ethnic groups: Baya 28.8%, Banda 22.9%, Mandjia 9.9%, Sara 7.9%, M'Baka-Bantu 7.9%, Arab-Fulani (Peul) 6%, Mbum 6%, Ngbanki 5.5%, Zande-Nzakara 3%, other Central African Republic ethnic groups 2%, non-Central African Republic ethnic groups .1% (2003 est.)

Languages: French (official), Sangho (lingua franca and national language), tribal languages

Religions: Christian 89%, Muslim 9%, folk religion 1%, unaffiliated 1% (2020 est.)

note: animistic beliefs and practices strongly influence the Christian majority

Demographic profile: The Central African Republic's (CAR) humanitarian crisis has worsened since the coup of March 2013. CAR's high mortality rate and low life expectancy are attributed to elevated rates of preventable and treatable diseases (including malaria and malnutrition), an inadequate health care system, precarious food security, and armed conflict. Some of the worst mortality rates are in western CAR's diamond mining region, which has been impoverished because of government attempts to control the diamond trade and the fall in industrial diamond prices. To make matters worse, the government and international donors have reduced health funding in recent years. The CAR's weak educational system and low literacy rate have also suffered as a result of the country's ongoing conflict. Schools are closed, qualified teachers are scarce, infrastructure, funding, and supplies are lacking and subject to looting, and many students and teachers have been displaced by violence.

Rampant poverty, human rights violations, unemployment, poor infrastructure, and a lack of security and stability have led to forced

displacement internally and externally. Since the political crisis that resulted in CAR's March 2013 coup began in December 2012, approximately 600,000 people have fled to Chad, the Democratic Republic of the Congo, and other neighboring countries, while another estimated 600,000 were displaced internally as of October 2019. The UN has urged countries to refrain from repatriating CAR refugees amid the heightened lawlessness. (2019)

Age structure: 0-14 years: 39.49% (male 1,188,682/female 1,176,958)

15-24 years: 19.89% (male 598,567/female 593,075)

25-54 years: 32.95% (male 988,077/female 986,019)

55-64 years: 4.32% (male 123,895/female 134,829)

65 years and over: 3.35% (male 78,017/female 122,736) (2020 est.)

unimproved: urban: 46.2% of population

rural: 87.6% of population

total: 70.1% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 2.9% (2020 est.)

country comparison to the world: 18

Major infectious diseases: degree of risk: very high (2020)

food or waterborne diseases: bacterial and protozoal diarrhea, hepatitis A and E, and typhoid fever

vectorborne diseases: malaria and dengue fever

water contact diseases: schistosomiasis

animal contact diseases: rabies

respiratory diseases: meningococcal meningitis

note: on 21 March 2022, the US Centers for Disease Control and Prevention (CDC) issued a Travel Alert for polio in Africa; the Central African Republic is currently considered a high risk to travelers for circulating vaccine-derived polioviruses (cVDPV); vaccine-derived poliovirus (VDPV) is a strain of the weakened poliovirus that was initially included in oral polio vaccine (OPV) and that has changed over time and behaves more like the wild or naturally occurring virus; this means it can be spread more easily to people who are unvaccinated against polio and who come in contact with the stool or respiratory secretions, such as from a sneeze, of an “infected” person who received oral polio vaccine; the CDC recommends that before any international travel, anyone unvaccinated, incompletely vaccinated, or with an unknown polio vaccination status should complete the routine polio vaccine series; before travel to any high-risk destination, the CDC recommends that adults who previously completed the full, routine polio vaccine series receive a single, lifetime booster dose of polio vaccine

Obesity - adult prevalence rate: 7.5% (2016)

country comparison to the world: 159

Alcohol consumption per capita: *total:* 0.94 liters of pure alcohol (2019 est.)

beer: 0.55 liters of pure alcohol (2019 est.)

wine: 0.04 liters of pure alcohol (2019 est.)

spirits: 0.02 liters of pure alcohol (2019 est.)

other alcohols: 0.33 liters of pure alcohol (2019 est.)

country comparison to the world: 152

Children under the age of 5 years underweight: 20.5% (2019)

country comparison to the world: 19

Child marriage: *women married by age 15:* 25.8%

women married by age 18: 61%

men married by age 18: 17.1% (2019 est.)

Education expenditures: 1.8% of GDP (2019 est.)

country comparison to the world: 182

rate of urbanization: 3.32% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 8.99% of GDP (2018 est.)

country comparison to the world: 5

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 77

Food insecurity: *exceptional shortfall in aggregate food production/*

supplies: due to internal conflict - persisting conflicts and displacements are expected to continue affecting agricultural activities and limit farmers' access to crop growing areas and inputs, with a negative impact on 2022 crop production; according to an analysis issued in April 2022, the number of severely food insecure people in "Crisis" and above were estimated at 2.2 million between April and August 2022, mainly due to high levels of civil insecurity, population displacements and high food prices (2022)

Waste and recycling: municipal solid waste generated annually: 1,105,983 tons (2014 est.)

Major rivers (by length in km): Ubangi river [s] (shared with Democratic Republic of Congo and Republic of Congo [m]) - 2,270 km
note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Congo (3,730,881 sq km), (Mediterranean Sea) Nile (3,254,853 sq km)

Internal (endorheic basin) drainage: Lake Chad (2,497,738 sq km)

Major aquifers: Congo Basin, Lake Chad Basin

Total water withdrawal: *municipal:* 60.1 million cubic meters (2017 est.)

industrial: 12 million cubic meters (2017 est.)

agricultural: 400,000 cubic meters (2017 est.)

Total renewable water resources: 141 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Central African Republic

conventional short form: none

local long form: Republique Centrafricaine

local short form: none

former: Ubangi-Shari, Central African Empire

abbreviation: CAR

etymology: self-descriptive name specifying the country's location on the continent; "Africa" is derived from the Roman designation of the area corresponding to present-day Tunisia "Africa terra," which meant "Land of the Afri" (the tribe resident in that area), but which eventually came to mean the entire continent

Government type: presidential republic

Capital: *name:* Bangui

geographic coordinates: 4 22 N, 18 35 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

etymology: established as a French settlement in 1889 and named after its location on the northern bank of the Ubangi River; the Ubangi itself was named from the native word for the "rapids" located beside the outpost, which marked the end of navigable water north from Brazzaville

Administrative divisions: 14 prefectures (prefectures, singular - prefecture), 2 economic prefectures* (prefectures economiques, singular - prefecture economique), and 1 commune**; Bamingui-Bangoran, Bangui**, Basse-Kotto, Haute-Kotto, Haut-Mbomou, Kemo, Lobaye, Mambere-Kadei, Mbomou, Nana-Grebizi*, Nana-Mambere, Ombella-Mpoko, Ouaka, Ouham, Ouham-Pende, Sangha-Mbaere*, Vakaga

Independence: 13 August 1960 (from France)

National holiday: Republic Day, 1 December (1958)

Constitution: *history:* several previous; latest (interim constitution)

approved by the Transitional Council 30 August 2015, adopted by referendum 13-14 December 2015, ratified 27 March 2016

amendments: proposals require support of the government, two thirds of the National Council of Transition, and assent by the “Mediator of the Central African” crisis; passage requires at least three-fourths majority vote by the National Council membership; non-amendable constitutional provisions include those on the secular and republican form of government, fundamental rights and freedoms, amendment procedures, or changes to the authorities of various high-level executive, parliamentary, and judicial officials

Legal system: civil law system based on the French model

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: citizenship by birth: no

citizenship by descent only: least one parent must be a citizen of the Central African Republic

dual citizenship recognized: yes

residency requirement for naturalization: 35 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Faustin-Archange TOUADERA (since 30 March 2016)

head of government: Prime Minister Felix MOLOUA (since 7 February 2022); note - Prime Minister Henri-Marie DONDRA resigned on 2 February 2022

cabinet: Council of Ministers appointed by the president

elections/appointments: under the 2015 constitution, the president is elected by universal direct suffrage for a period of 5 years (eligible for a second term); election last held 27 December 2020 (next to be held in December 2025); note -Central African Republic held presidential and partial legislative elections on December 27, 2020; voting was disrupted in some areas, so those constituencies held the first round of their legislative elections on March 14, 2021 while some of the constituencies

that did vote on December 27, 2020 held runoff elections for their legislators.

election results: 2020/2021: Faustin-Archange TOUADERA reelected president in first round; percent of vote - Faustin-Archange TOUADERA (independent) 53.9%, Anicet Georges DOLOGUELE (URCA) 21%, other 25.1%

2015: Faustin-Archange TOUADERA elected president in the second round; percent of vote in first round - Anicet-Georges DOLOGUELE (URCA) 23.7%, Faustin-Archange TOUADERA (independent) 19.1%, Desire KOLINGBA (RDC) 12%, Martin ZIGUELE (MLPC) 11.4%, other 33.8%; percent of vote in second round - Faustin-Archange TOUADERA 62.7%, Anicet-Georges DOLOGUELE 37.3%

Legislative branch: description: unicameral National Assembly or Assemblée Nationale (140 seats; members directly elected in single-seat constituencies by absolute majority vote with a second round if needed; members serve 5-year terms)

elections: first round last held on 27 December 2020; note - on election day, voting in many electoral areas was disrupted by armed groups; on 13 February 2021, President TOUADERA announced that a new first round of elections will be held on 27 February for those areas controlled by armed groups and second round on 14 March

election results: December 2015 election: percent of vote by party - NA; seats by party - UNDP 16, URCA 11, RDC 8, MLPC 10, KNK 7, other 28, independent 60; composition as of March 2022 - men 122, women 18, percent of women 12.9%

Judicial branch: *highest court(s):* Supreme Court or Cour Supreme (consists of NA judges); Constitutional Court (consists of 9 judges, at least 3 of whom are women)

judge selection and term of office: Supreme Court judges appointed by the president; Constitutional Court judge appointments - 2 by the president, 1 by the speaker of the National Assembly, 2 elected by their peers, 2 are advocates elected by their peers, and 2 are law professors elected by their peers; judges serve 7-year non-renewable terms

subordinate courts: high courts; magistrates' courts

Political parties and leaders: African Party for Radical Transformation and Integration of States or PATRIE [Crepin MBOLI-GOUMBA]

Central African Democratic Rally or RDC [Desire KOLINGBA]

Movement for the Liberation of the Central African People or MLPC [Martin ZIGUELE]

National Convergence (also known as Kwa Na Kwa or KNK) [Francois BOZIZE]

National Movement of Independents or MOUNI

National Union for Democracy and Progress or UNDP [Michel AMINE]

National Union of Republican Democrats or UNADER

Party for Democratic Governance or PGD

Path of Hope [Karim MECKASSOUA]

Union for Central African Renewal or URCA [Anicet-Georges DOLOGUELE]

United Hearts Movement or MCU [Faustin-Archange TOUADERA]

note: only parties with seats in the Parliament included

International organization participation: ACP, AfDB, AU, BDEAC, CEMAC, EITI (compliant country) (suspended), FAO, FZ, G-77, IAEA, IBRD, ICAO, ICt, ICRM, IDA, IFAD, IFC, IFRCs, ILO, IMF, Interpol, IOC, IOM, ITSO, ITU, ITUC (NGOs), LCBC, MIGA, NAM, OIC (observer), OIF, OPCW, UN, UNCTAD, UNESCO, UNIDO, UNWTO, UPU, WCO, WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission*: Ambassador Martial NDOUBOU (since 17 September 2018)

chancery: 2704 Ontario Road NW, Washington, DC 20009

telephone: [1] (202) 483-7800

FAX: [1] (202) 332-9893

email address and website:

pc@usrcaembassy.org

<https://www.usrcaembassy.org/>

Diplomatic representation from the US: *chief of mission*:

Ambassador Patricia A. MAHONEY (since 8 April 2022)

embassy: Avenue David Dacko, Bangui

mailing address: 2060 Bangui Place, Washington DC 20521-2060

telephone: [236] 2161-0200

FAX: [236] 2161-4494

email address and website: <https://cf.usembassy.gov/>

Flag description: four equal horizontal bands of blue (top), white, green, and yellow with a vertical red band in center; a yellow five-pointed star to the hoist side of the blue band; banner combines the Pan-African and French flag colors; red symbolizes the blood spilled in the struggle for independence, blue represents the sky and freedom, white peace and dignity, green hope and faith, and yellow tolerance; the star represents aspiration towards a vibrant future

National symbol(s): elephant; national colors: blue, white, green, yellow, red

National anthem: *name:* “La Renaissance” (The Renaissance)

lyrics/music: Barthelemy BOGANDA/Herbert PEPPER

note: adopted 1960; Barthelemy BOGANDA wrote the anthem’s lyrics and was the first prime minister of the autonomous French territory

National heritage: *total World Heritage Sites:* 2 (natural)

selected World Heritage Site locales: Manovo-Gounda St. Floris National Park; Sangha Trinational Forest

ECONOMY

Economic overview: Subsistence agriculture, together with forestry and mining, remains the backbone of the economy of the Central African Republic (CAR), with about 60% of the population living in outlying areas. The agricultural sector generates more than half of estimated GDP, although statistics are unreliable in the conflict-prone country. Timber and diamonds account for most export earnings, followed by cotton. Important constraints to economic development include the CAR's landlocked geography, poor transportation system, largely unskilled work force, and legacy of misdirected macroeconomic policies. Factional fighting between the government and its opponents remains a drag on economic revitalization. Distribution of income is highly unequal and grants from the international community can only partially meet humanitarian needs. CAR shares a common currency with the Central African Monetary Union. The currency is pegged to the Euro.

Since 2009, the IMF has worked closely with the government to institute reforms that have resulted in some improvement in budget transparency, but other problems remain. The government's additional spending in the run-up to the 2011 election worsened CAR's fiscal situation. In 2012, the World Bank approved \$125 million in funding for transport infrastructure and regional trade, focused on the route between CAR's capital and the port of Douala in Cameroon. In July 2016, the IMF approved a three-year extended credit facility valued at \$116 million; in mid-2017, the IMF completed a review of CAR's fiscal performance and broadly approved of the government's management, although issues with revenue collection, weak government capacity, and transparency remain. The World Bank in late 2016 approved a \$20 million grant to restore basic fiscal management, improve transparency, and assist with economic recovery.

Participation in the Kimberley Process, a commitment to remove conflict diamonds from the global supply chain, led to a partially lifted the ban on diamond exports from CAR in 2015, but persistent insecurity is likely to constrain real GDP growth.

Real GDP (purchasing power parity): \$4.483 billion (2019 est.)

\$4.354 billion (2018 est.)

\$4.195 billion (2017 est.)

note: data are in 2017 dollars

country comparison to the world: 180

Real GDP growth rate: 4.3% (2017 est.)

Energy consumption per capita: *1.121 million Btu/person (2019 est.)*

country comparison to the world: 193

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 2,000 (2020 est.)

subscriptions per 100 inhabitants: (2020 est.) less than 1

country comparison to the world: 214

Telephones - mobile cellular: *total subscriptions:* 1.831 million (2020 est.)

subscriptions per 100 inhabitants: 38 (2020 est.)

country comparison to the world: 153

Telecommunication systems: *general assessment:* given the poor fixed-line infrastructure in most countries across Africa, voice and data services across the region are greatly dependent on mobile networks; in the majority of markets, including those with better developed fixed infrastructure such as South Africa, Nigeria, and Kenya, up to 98% of all voice and data connections are via mobile networks; during the last two to three years, national governments and telecom regulators have striven to improve fixed infrastructure with the wider aim of developing economic growth based on digital services and connectivity; this work is principally focused on delivering fiber-based connectivity; since the amount of copper infrastructure (DSL or HFC) used for broadband is so negligible, governments and private firms, including telcos are investing in fiber rather than in older technologies; while supporting broadband to premises, health centers, and government buildings, the new fiber infrastructure is mainly being deployed to provide mobile platforms and to support the rapid growth in data traffic (2022)

domestic: very limited telephone service with less than 1 fixed-line connection per 100 persons; with the presence of multiple providers mobile-cellular service has reached nearly 38 per 100 mobile-cellular subscribers; cellular usage is increasing from a low base; most fixed-line and mobile-cellular telephone services are concentrated in Bangui (2020)

international: country code - 236; satellite earth station - 1 Intelsat (Atlantic Ocean)

Broadcast media: government-owned network, Radiodiffusion

Television Centrafricaine, provides limited domestic TV broadcasting; state-owned radio network is supplemented by a small number of privately owned broadcast stations as well as a few community radio stations; transmissions of at least 2 international broadcasters are available (2017)

Internet country code: .cf

Internet users: *total:* 482,976 (2020 est.)

percent of population: 10% (2020 est.)

country comparison to the world: 158

Broadband - fixed subscriptions: *total:* 499 (2019 est.) Data available for 2019 only.

subscriptions per 100 inhabitants: 0.01 (2019 est.)

country comparison to the world: 210

TRANSPORTATION

National air transport system: *number of registered air carriers:* 2 (2020)

inventory of registered aircraft operated by air carriers: 2

annual passenger traffic on registered air carriers: 46,364 (2015)

annual freight traffic on registered air carriers: 0 (2015) mt-km

Civil aircraft registration country code prefix: TL

Airports: *total:* 39 (2021)

country comparison to the world: 106

Airports - with paved runways: *total:* 1

2,438 to 3,047 m: 1 (2021)

Airports - with unpaved runways: *total:* 37

2,438 to 3,047 m: 1

1,524 to 2,437 m: 11

914 to 1,523 m: 19

under 914 m: 6 (2021)

Roadways: *total:* 24,000 km (2018)

paved: 700 km (2018)

unpaved: 23,300 km (2018)

country comparison to the world: 105

Waterways: 2,800 km (2011) (the primary navigable river is the Ubangi, which joins the River Congo; it was the traditional route for the export of products because it connected with the Congo-Ocean railway at Brazzaville; because of the warfare on both sides of the River Congo from 1997, importers and exporters preferred routes through Cameroon)

country comparison to the world: 36

Ports and terminals: *river port(s):* Bangui (Oubangui)

Nola (Sangha): MILITARY AND SECURITY

Military and security forces: Central African Armed Forces

(Forces Armées Centrafricaines, FACA): Army (includes an air squadron, Escadrille Centrafricaine); Ministry of Interior: National Gendarmerie (Gendarmerie Nationale), National Police (2022)

note: in 2019-2021, the CAR created three Mixed Special Security units (Unités Spéciales Mixtes de Sécurité or USMS), regionally based battalion-sized units comprised of about 40% government and 60% rebel soldiers created to provide security along transportation corridors and at mining sites; the units are intended to be transitional in nature with a scheduled deployment time of two years

Military expenditures: 1.8% of GDP (2021 est.)

1.8% of GDP (2020 est.)

1.7% of GDP (2019 est.) (approximately \$50 million)

1.4% of GDP (2018 est.) (approximately \$40 million)

1.4% of GDP (2017 est.) (approximately \$40 million)

country comparison to the world: 69

Military and security service personnel strengths: information varies; approximately 8,000 FACA troops; up to 2,000 Gendarmerie; approximately 2,000 Mixed Special Security Units (2022)

Military equipment inventories and acquisitions: the FACA is lightly and poorly armed with mostly outdated weapons; since 2010, it has received small amounts of second-hand equipment from China, Russia, and Ukraine (2021)

note: since 2013, CAR has been under a UNSC arms embargo; the embargo bans all supplies of arms and related materiel to the country except to the CAR security forces if approved in advance by the relevant UN Sanctions Committee

Military service age and obligation: 18 years of age for military service; no conscription (2021)

Military - note: the 2013 coup resulted in the institutional collapse of the FACA; its forces were overwhelmed and forced to flee to neighboring countries; it has been estimated that only 10% of the FACA returned after the coup, and it has struggled to rebuild in the years of instability since;

the European Union, France, Russia, the UN, and the US have provided various levels of security assistance in 2018, the UN Security Council approved Russian security assistance for the CAR to help train and advise FACA personnel, as well as transport them to operational areas, provide logistical support, and assist with medical evacuation; Russia sent private military contractors, and as of early 2022, as many as 2,000 were providing assistance to the FACA, as well as performing other security roles such as guarding mines and government officials; some Russian contractors and the CAR forces they supported have been accused of carrying out indiscriminate killings, using excessive force against civilians, and looting the UN Multidimensional Integrated Stabilization Mission in the Central African Republic (MINUSCA) has operated in the country since 2014; its peacekeeping mission includes providing security, protecting civilians, facilitating humanitarian assistance, disarming and demobilizing armed groups, and supporting the country's fragile transitional government; in November 2019, the UN Security Council extended the mandate of the MINUSCA peacekeeping mission another year; as of mid-2022, MINUSCA had nearly 15,000 total personnel

the European Union Training Mission in the Central African Republic (EUTM-RCA) has operated in the country since 2016, providing advice, training, and educational programs to the country's security forces (2022)

TRANSNATIONAL ISSUES

Disputes - international: Central African Republic-South Sudan: periodic violent skirmishes persist among related pastoral populations along the border with South Sudan over water and grazing rights

Central African Republic-Sudan: periodic violent skirmishes persist among related pastoral populations along the border with Sudan over water and grazing rights

Refugees and internally displaced persons: *refugees (country of origin):* 6,351 (Democratic Republic of Congo) (2022)

IDPs: 484,335 (clashes between army and rebel groups since 2005; tensions between ethnic groups) (2022)

CHAD

INTRODUCTION

Background: Chad emerged from a collection of powerful states that controlled the Sahelian belt starting around the 9th century. These states focused on controlling trans-Saharan trade routes and profited mostly from the slave trade. The Kanem-Bornu Empire, centered around the Lake Chad Basin, existed between the 9th and 19th centuries, and during its peak, the empire controlled territory stretching from southern Chad to southern Libya and included portions of modern-day Algeria, Cameroon, Nigeria, Niger, and Sudan. The Sudanese warlord Rabih AZ-ZUBAYR used an army comprised largely of slaves to conquer the Kanem-Bornu Empire in the late 19th century. In southeastern Chad, the Bagirmi and Ouaddai (Wadai) kingdoms emerged in the 15th and 16th centuries and lasted until the arrival of the French in the 19th and 20th centuries. France began moving into the region in the late 1880s and defeated the Bagirmi kingdom in 1897, Rabih AZ-ZUBAYR in 1900, and the Ouaddai kingdom in 1909. In the arid regions of northern Chad and southern Libya, an Islamic order called the Sanusiyya (Sanusi) relied heavily on the trans-Saharan slave trade and had upwards of 3 million followers by the 1880s. The French arrived in the region in the early 1900s and defeated the Sanusiyya in 1910 after years of intermittent war. By 1910, France had incorporated the northern arid region, the Lake Chad Basin, and southeastern Chad into French Equatorial Africa.

Chad achieved its independence in 1960 and saw three decades of instability, oppressive rule, civil war, and a Libyan invasion. With the help of the French military and several African countries, Chadian leaders expelled Libyan forces during the 1987 “Toyota War,” so named for the use of Toyota pickup trucks as fighting vehicles. In 1990, Chadian general Idriss DEBY led a rebellion against President Hissene HABRE. Under DEBY, Chad drafted and approved a constitution and held elections in 1996. DEBY led the country until April 2021 when he was killed during a rebel incursion. Shortly after his death, a group of military officials - led by former President DEBY’s son, Mahamat Idriss DEBY - took control of the government. The military officials dismissed the National Assembly,

suspended the Constitution, and formed a Transitional Military Council while pledging to hold democratic elections in October 2022.

Chad faces widespread poverty, an economy severely weakened by low international oil prices, and rebel and terrorist-led insurgencies in the Lake Chad Basin. Additionally, northern Chad has seen several waves of rebellions since 1998. In late 2015, the government imposed a state of emergency in the Lake Chad Basin following multiple attacks by the terrorist group Boko Haram, now known as ISIS-West Africa. In mid-2015, Boko Haram conducted bombings in N'Djamena. In late 2019, the Chadian government also declared a state of emergency in the Sila and Ouaddai regions bordering Sudan and in the Tibesti region bordering Niger where rival ethnic groups are still fighting. The army has suffered heavy losses to Islamic terror groups in the Lake Chad Basin. In March 2020, Islamic militants attacked a Chadian military camp in the Lake Chad Basin and killed nearly 100 soldiers; it was the deadliest attack in the history of the Chadian military.

GEOGRAPHY

Location: Central Africa, south of Libya

Geographic coordinates: 15 00 N, 19 00 E

Map references: Africa

Area: *total:* 1.284 million sq km

land: 1,259,200 sq km

water: 24,800 sq km

country comparison to the world: 22

Area - comparative: almost nine times the size of New York state; slightly more than three times the size of California

Land boundaries: *total:* 6,406 km

border countries (6): Cameroon 1,116 km; Central African Republic 1,556 km; Libya 1,050 km; Niger 1,196 km; Nigeria 85 km; Sudan 1,403 km

Coastline: 0 km (landlocked)

Maritime claims: none (landlocked)

Climate: tropical in south, desert in north

Terrain: broad, arid plains in center, desert in north, mountains in northwest, lowlands in south

Elevation: *highest point:* Emi Koussi 3,445 m

lowest point: Djourab 160 m

mean elevation: 543 m

Natural resources: petroleum, uranium, natron, kaolin, fish (Lake Chad), gold, limestone, sand and gravel, salt

Land use: *agricultural land:* 39.6% (2018 est.)

permanent pasture: 35.7% (2018 est.)

forest: 9.1% (2018 est.)

other: 51.3% (2018 est.)

Irrigated land: 300 sq km (2012)

Major lakes (area sq km): fresh water lake(s): Lake Chad (endorheic lake shared with Niger, Nigeria, and Cameroon) - 10,360-25,900 sq km
note - area varies by season and year to year

Major watersheds (area sq km): Atlantic Ocean drainage: Niger (2,261,741 sq km)

Internal (endorheic basin) drainage: Lake Chad (2,497,738 sq km)

Major aquifers: Lake Chad Basin, Nubian Aquifer System

Population distribution: the population is unevenly distributed due to contrasts in climate and physical geography; the highest density is found in the southwest, particularly around Lake Chad and points south; the dry Saharan zone to the north is the least densely populated as shown in this population distribution map

Natural hazards: hot, dry, dusty harmattan winds occur in north; periodic droughts; locust plagues

Geography - note: *note 1*: Chad is the largest of Africa's 16 landlocked countries

note 2: not long ago - geologically speaking - what is today the Sahara was green savannah teeming with wildlife; during the African Humid Period, roughly 11,000 to 5,000 years ago, a vibrant animal community, including elephants, giraffes, hippos, and antelope lived there; the last remnant of the "Green Sahara" exists in the Lakes of Ounianga (oo-nee-ahn-ga) in northern Chad, a series of 18 interconnected freshwater, saline, and hypersaline lakes now protected as a World Heritage site

note 3: Lake Chad, the most significant water body in the Sahel, is a remnant of a former inland sea, paleolake Mega-Chad; at its greatest extent, sometime before 5000 B.C., Lake Mega-Chad was the largest of four Saharan paleolakes that existed during the African Humid Period; it covered an area of about 400,000 sq km (150,000 sq mi), roughly the size

of today's Caspian Sea

PEOPLE AND SOCIETY

Demographic profile: Despite the start of oil production in 2003, 40% of Chad's population lives below the poverty line. The population will continue to grow rapidly because of the country's very high fertility rate and large youth cohort – more than 65% of the populace is under the age of 25 – although the mortality rate is high and life expectancy is low. Chad has the world's third highest maternal mortality rate. Among the primary risk factors are poverty, anemia, rural habitation, high fertility, poor education, and a lack of access to family planning and obstetric care. Impoverished, uneducated adolescents living in rural areas are most affected. To improve women's reproductive health and reduce fertility, Chad will need to increase women's educational attainment, job participation, and knowledge of and access to family planning. Only about a quarter of women are literate, less than 5% use contraceptives, and more than 40% undergo genital cutting.

As of October 2017, more than 320,000 refugees from Sudan and more than 75,000 from the Central African Republic strain Chad's limited resources and create tensions in host communities. Thousands of new refugees fled to Chad in 2013 to escape worsening violence in the Darfur region of Sudan. The large refugee populations are hesitant to return to their home countries because of continued instability. Chad was relatively stable in 2012 in comparison to other states in the region, but past fighting between government forces and opposition groups and inter-communal violence have left nearly 60,000 of its citizens displaced in the eastern part of the country.

Age structure: *0-14 years:* 47.43% (male 4,050,505/female 3,954,413)

food or waterborne diseases: bacterial and protozoal diarrhea, hepatitis A and E, and typhoid fever

vectorborne diseases: malaria and dengue fever

water contact diseases: schistosomiasis

animal contact diseases: rabies

respiratory diseases: meningococcal meningitis

note: on 21 March 2022, the US Centers for Disease Control and Prevention (CDC) issued a Travel Alert for polio in Africa; Chad is currently considered a high risk to travelers for circulating vaccine-derived polioviruses (cVDPV); vaccine-derived poliovirus (VDPV) is a strain of the weakened poliovirus that was initially included in oral polio vaccine (OPV) and that has changed over time and behaves more like the wild or naturally occurring virus; this means it can be spread more easily to people who are unvaccinated against polio and who come in contact with the stool or respiratory secretions, such as from a sneeze, of an “infected” person who received oral polio vaccine; the CDC recommends that before any international travel, anyone unvaccinated, incompletely vaccinated, or with an unknown polio vaccination status should complete the routine polio vaccine series; before travel to any high-risk destination, the CDC recommends that adults who previously completed the full, routine polio vaccine series receive a single, lifetime booster dose of polio vaccine

Obesity - adult prevalence rate: 6.1% (2016)

country comparison to the world: 170

Alcohol consumption per capita: *total:* 0.55 liters of pure alcohol (2019 est.)

beer: 0.37 liters of pure alcohol (2019 est.)

ENVIRONMENT

Environment - current issues: inadequate supplies of potable water; improper waste disposal in rural areas and poor farming practices contribute to soil and water pollution; desertification

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Nuclear Test Ban, Ozone Layer Protection, Wetlands

signed, but not ratified: Marine Dumping-London Convention

Air pollutants: *particulate matter emissions:* 53.01 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 1.02 megatons (2016 est.)

methane emissions: 30.69 megatons (2020 est.)

Climate: tropical in south, desert in north

Land use: *agricultural land:* 39.6% (2018 est.)

arable land: 3.9% (2018 est.)

permanent crops: 0% (2018 est.)

permanent pasture: 35.7% (2018 est.)

forest: 9.1% (2018 est.)

other: 51.3% (2018 est.)

Urbanization: *urban population:* 24.1% of total population (2022)

rate of urbanization: 4.1% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 3.81% of GDP (2018 est.)

country comparison to the world: 19

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 78

Food insecurity: *widespread lack of access:* due to civil insecurity and shortfall in cereal production - according to the latest analysis, about 2.1

million people are projected to be in “Crisis” and above, between June and August 2022 due to persisting insecurity in Lac and Tibesti regions that disrupted livelihood activities and caused population displacements, as well as a below-average cereal production in 2021 (2022)

Waste and recycling: *municipal solid waste generated annually:* 1,358,851 tons (2010 est.)

Major lakes (area sq km): *fresh water lake(s):* Lake Chad (endorheic lake shared with Niger, Nigeria, and Cameroon) - 10,360-25,900 sq km
note - area varies by season and year to year

Major watersheds (area sq km): **Atlantic Ocean drainage:** Niger (2,261,741 sq km)

Internal (endorheic basin) drainage: Lake Chad (2,497,738 sq km)

Major aquifers: Lake Chad Basin, Nubian Aquifer System

Total water withdrawal: *municipal:* 103.7 million cubic meters (2017 est.)

industrial: 103.7 million cubic meters (2017 est.)

agricultural: 672.2 million cubic meters (2017 est.)

Total renewable water resources: 45.7 billion cubic meters (2017 est.)

GOVERNMENT

Country name: conventional long form: Republic of Chad

conventional short form: Chad

local long form: Republique du Tchad/Jumhuriyat Tshad

local short form: Tchad/Tshad

etymology: named for Lake Chad, which lies along the country's western border; the word "tsade" means "large body of water" or "lake" in several local native languages

note: the only country whose name is composed of a single syllable with a single vowel

Government type: presidential republic

Capital: *name:* N'Djamena

geographic coordinates: 12 06 N, 15 02 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

etymology: name taken from the Arab name of a nearby village, Nijamina, meaning "place of rest"

Administrative divisions: 23 provinces (provinces, singular - province); Barh-El-Gazel, Batha, Borkou, Chari-Baguirmi, Ennedi-Est, Ennedi-Ouest, Guera, Hadjer-Lamis, Kanem, Lac, Logone Occidental, Logone Oriental, Mandoul, Mayo-Kebbi-Est, Mayo-Kebbi-Ouest, Moyen-Chari, N'Djamena, Ouaddai, Salamat, Sila, Tandjile, Tibesti, Wadi-Fira

Independence: 11 August 1960 (from France)

National holiday: Independence Day, 11 August (1960)

Constitution: *history:* several previous; latest approved 30 April 2018 by the National Assembly, entered into force 4 May 2018; suspended 21 April 2021 and remained so through April 2022

amendments: proposed as a revision by the president of the republic after a Council of Ministers (cabinet) decision or by the National Assembly;

approval for consideration of a revision requires at least three-fifths majority vote by the Assembly; passage requires approval by referendum or at least two-thirds majority vote by the Assembly

Legal system: mixed legal system of civil and customary law

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: both parents must be citizens of Chad

dual citizenship recognized: Chadian law does not address dual citizenship

residency requirement for naturalization: 15 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* Interim President Mahamat Idriss DEBY (since 20 April 2021); note - on 20 April 2021, newly reelected President Idriss DEBY Itno, Lt. Gen. died of injuries he sustained following clashes between government forces he was commanding and insurgents in the northern part of the country; following his death, Mahamat Idriss DEBY took control of the country and dismissed the Chadian parliament, establishing a Transitional Military Council and promising elections within eighteen months

head of government: Interim Prime Minister Albert Pahimi PADACHE (since 26 April 2021); note - PADACHE was appointed interim prime minister by the Transitional Military Council led by Mahamat Idriss DEBY

cabinet: Council of Ministers

elections/appointments: president directly elected by absolute majority popular vote in 2 rounds if needed for a 5-year term (no term limits); election last held on 11 April 2021; note - on 20 April 2021, military officials suspended the Constitution and formed a Transitional Military Council, pledging to hold democratic elections in October 2022

election results: 2021: Lt. Gen. Idriss DEBY Itno reelected; percent of vote - Lt. Gen. Idriss DEBY (MPS) 79.3%, Pahimi PADACKET Albert

(RNDT) 10.3%, Lydie BEASSEMBDA (Party for Democracy and Independence) 3.2%, other 7.2%

2016: Lt. Gen. Idriss DEBY Itno reelected president in first round; percent of vote - Lt. Gen. Idriss DEBY (MPS) 61.6%, Saleh KEBZABO (UNDR) 12.8%, Laokein Kourayo MEDAR (CTPD) 10.7%, Djimrangar DADNADJI (CAP-SUR) 5.1%, other 9.8%

Legislative branch: *description:* formerly a unicameral National Assembly or Assemblée Nationale (188 seats; 163 directly elected in multiseat constituencies by proportional representation vote and 25 directly elected in single-seat constituencies by absolute majority vote with a second round if needed; members serve 4-year terms); note - on 5 October 2021, Interim President Mahamat Idriss DEBY installed 93 members of an interim parliament, called the National Transitional Council (NTC), replacing the National Assembly which was disbanded after he took control of the country on 20 April 2021; according to DEBY, the NTC will act as a national assembly of transition until the country's next elections take place

elections: members of the so called "National Transitional Council" were installed by Interim President DEBY on 5 October 2021 (next parliamentary elections to be held September 2022)

election results: percent of vote by party - NA; seats by party - NA; composition - men 64, women 29, percent of women 31.2%

note: the National Assembly mandate was extended to 2020, reportedly due to a lack of funding for the scheduled 2015 election; the MPS has held a majority in the NA since 1997

Judicial branch: *highest court(s):* Supreme Court (consists of the chief justice, 3 chamber presidents, and 12 judges or councilors and divided into 3 chambers); Constitutional Council (consists of 3 judges and 6 jurists)

judge selection and term of office: Supreme Court chief justice selected by the president; councilors - 8 designated by the president and 7 by the speaker of the National Assembly; chief justice and councilors appointed for life; Constitutional Council judges - 2 appointed by the president and

1 by the speaker of the National Assembly; jurists - 3 each by the president and by the speaker of the National Assembly; judges appointed for 9-year terms

subordinate courts: High Court of Justice; Courts of Appeal; tribunals; justices of the peace

Political parties and leaders: Chadian Convention for Peace and Development or CTPD [Laoukein Kourayo MEDARD]

Federation Action for the Republic or FAR [Ngarledjy YORONGAR]

National Rally for Development and Progress or Viva-RNDP [Dr.

Nouradine Delwa Kassire COUMAKOYE]

National Union for Democracy and Renewal or UNDR [Saleh KEBZABO]

Party for Unity and Reconstruction or PUR

Patriotic Salvation Movement or MPS [formerly Idriss DEBY]

Rally for Democracy and Progress or RDP [Mahamat Allahou TAHER]

Rally of Chadian Nationalists/Awakening or RNDT/Le Reveil [Albert Pahimi PADACKE]

Social Democratic Party for a Change-over of Power or PDSA [Malloum YOBODA]

Union for Democracy and the Republic or UDR

Union for Renewal and Democracy or URD [Felix Romadounngar NIALBE]

note 1: 19 additional parties each contributed one member

note 2: only parties with at least two seats in the last elected National Assembly (February 2011) included

note: on 5 October 2021, Interim President Mahamat Idriss DEBY appointed 93 members to the interim National Transitional Council (NTC); 30% of the NTC members were retained from parties previously represented in the National Assembly

International organization participation: ACP, AfDB, AU, BDEAC, CEMAC, EITI (compliant country), FAO, FZ, G-77, IAEA, IBRD, ICAO, ICCT, ICRM, IDA, IDB, IFAD, IFC, IFRCS, ILO, IMF, Interpol, IOC, IOM, IPU, ITSO, ITU, ITUC (NGOs), LCBC, MIGA,

MINUSMA, MNJTF, NAM, OIC, OIF, OPCW, UN, UNCTAD, UNESCO, UNIDO, UNOCI, UNWTO, UPU, WCO, WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Koutou NGOTE GALI (since 22 June 2018)

chancery: 2401 Massachusetts Avenue NW, Washington, DC 20008

Flag description: three equal vertical bands of blue (hoist side), gold, and red; the flag combines the blue and red French (former colonial) colors with the red and yellow (gold) of the Pan-African colors; blue symbolizes the sky, hope, and the south of the country, which is relatively well-watered; gold represents the sun, as well as the desert in the north of the country; red stands for progress, unity, and sacrifice

note: almost identical to the flag of Romania but with a darker shade of blue; also similar to the flags of Andorra and Moldova, both of which have a national coat of arms centered in the yellow band; design based on the flag of France

National symbol(s): goat (north), lion (south); national colors: blue, yellow, red

National anthem: *name:* “La Tchadienne” (The Chadian)

lyrics/music: Louis GIDROL and his students/Paul VILLARD

note: adopted 1960

National heritage: *total World Heritage Sites:* 2 (1 natural, 1 mixed)

selected World Heritage Site locales: Lakes of Ounianga (n); Ennedi

Massif: Natural and Cultural Landscape (m)

ECONOMY

Economic overview: Chad's landlocked location results in high transportation costs for imported goods and dependence on neighboring countries. Oil and agriculture are mainstays of Chad's economy. Oil provides about 60% of export revenues, while cotton, cattle, livestock, and gum arabic provide the bulk of Chad's non-oil export earnings. The services sector contributes less than one-third of GDP and has attracted foreign investment mostly through telecommunications and banking.

Nearly all of Chad's fuel is provided by one domestic refinery, and unanticipated shutdowns occasionally result in shortages. The country regulates the price of domestic fuel, providing an incentive for black market sales.

Although high oil prices and strong local harvests supported the economy in the past, low oil prices now stress Chad's fiscal position and have resulted in significant government cutbacks. Chad relies on foreign assistance and foreign capital for most of its public and private sector investment. Investment in Chad is difficult due to its limited infrastructure, lack of trained workers, extensive government bureaucracy, and corruption. Chad obtained a three-year extended credit facility from the IMF in 2014 and was granted debt relief under the Heavily Indebted Poor Countries Initiative in April 2015.

In 2018, economic policy will be driven by efforts that started in 2016 to reverse the recession and to repair damage to public finances and exports. The government is implementing an emergency action plan to counterbalance the drop in oil revenue and to diversify the economy. Chad's national development plan (NDP) cost just over \$9 billion with a financing gap of \$6.7 billion. The NDP emphasized the importance of private sector participation in Chad's development, as well as the need to improve the business environment, particularly in priority sectors such as mining and agriculture.

The Government of Chad reached a deal with Glencore and four other banks on the restructuring of a \$1.45 billion oil-backed loan in February 2018, after a long negotiation. The new terms include an extension of the

maturity to 2030 from 2022, a two-year grace period on principal repayments, and a lower interest rate of the London Inter-bank Offer Rate (Libor) plus 2% - down from Libor plus 7.5%. The original Glencore loan was to be repaid with crude oil assets, however, Chad's oil sales were hit by the downturn in the price of oil. Chad had secured a \$312 million credit from the IMF in June 2017, but release of those funds hinged on restructuring the Glencore debt. Chad had already cut public spending to try to meet the terms of the IMF program, but that prompted strikes and protests in a country where nearly 40% of the population lives below the poverty line. Multinational partners, such as the African Development Bank, the EU, and the World Bank are likely to continue budget support in 2018, but Chad will remain at high debt risk, given its dependence on oil revenue and pressure to spend on subsidies and security.

Real GDP (purchasing power parity): \$24.97 billion (2020 est.)

ENERGY

Electricity access: *electrification - total population: 9% (2019)*

electrification - urban areas: 32% (2019)

electrification - rural areas: 1% (2019)

Electricity: *installed generating capacity: 87,000 kW (2020 est.)*

consumption: 188.46 million kWh (2019 est.)

exports: 0 kWh (2019 est.)

imports: 0 kWh (2019 est.)

transmission/distribution losses: 111 million kWh (2019 est.)

Electricity generation sources: *fossil fuels: 96.8% of total installed capacity (2020 est.)*

wind: 3.2% of total installed capacity (2020 est.)

Petroleum: *total petroleum production: 87,900 bbl/day (2021 est.)*

refined petroleum consumption: 12,600 bbl/day (2019 est.)

crude oil and lease condensate exports: 116,000 bbl/day (2018 est.)

crude oil and lease condensate imports: 0 bbl/day (2018 est.)

crude oil estimated reserves: 1.5 billion barrels (2021 est.)

Refined petroleum products - imports: *2,285 bbl/day (2015 est.)*

country comparison to the world: 189

Carbon dioxide emissions: *1.771 million metric tonnes of CO₂ (2019 est.)*

from petroleum and other liquids: 1.771 million metric tonnes of CO₂ (2019 est.)

country comparison to the world: 162

Energy consumption per capita: *1.575 million Btu/person (2019 est.)*

country comparison to the world: 190

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 5,340 (2020 est.)

subscriptions per 100 inhabitants: (2020 est.) less than 1

country comparison to the world: 204

Telephones - mobile cellular: *total subscriptions:* 8,687,151 (2020 est.)

subscriptions per 100 inhabitants: 53 (2020 est.)

country comparison to the world: 95

Telecommunication systems: *general assessment:* the telecom infrastructure is particularly poor; fixed, mobile and internet is well below African averages; Chad's telecom market offers some potential for investors to develop services given the low starting base; the country's first 3G/LTE mobile license was awarded in April 2014; Chad finally gained access to international fiber bandwidth in 2012 its national backbone infrastructure remains underdeveloped; the World Bank-funded Central African Backbone (CAB) project takes in Chad, while the country is also party to a Trans-Saharan Backbone project which will link a fiber cable to Nigeria and Algeria (2022)

domestic: fixed-line connections less than 1 per 100 persons; mobile-cellular subscribership base of about 53 per 100 persons (2020)

international: country code - 235; satellite earth station - 1 Intelsat (Atlantic Ocean)

Broadcast media: 1 state-owned TV station; 2 privately-owned TV stations; state-owned radio network, Radiodiffusion Nationale Tchadienne (RNT), operates national and regional stations; over 10 private radio stations; some stations rebroadcast programs from international broadcasters (2017)

Internet country code: .td

Internet users: *total:* 1,642,586 (2020 est.)

percent of population: 10% (2020 est.)

country comparison to the world: 133

TRANSPORTATION

National air transport system: *number of registered air carriers: 2*
(2020)

inventory of registered aircraft operated by air carriers: 3

Civil aircraft registration country code prefix: TT

Airports: *total: 59* (2021)

country comparison to the world: 81

Airports - with paved runways: *total: 9*

over 3,047 m: 2

2,438 to 3,047 m: 4

1,524 to 2,437 m: 2

under 914 m: 1 (2021)

Airports - with unpaved runways: *total: 50*

over 3,047 m: 1

2,438 to 3,047 m: 2

1,524 to 2,437 m: 14

914 to 1,523 m: 22

under 914 m: 11 (2021)

Pipelines: 582 km oil (2013)

Roadways: *total: 40,000 km* (2018)

note: consists of 25,000 km of national and regional roads and 15,000 km of local roads; 206 km of urban roads are paved

country comparison to the world: 88

Waterways: 12,400 km (2022) (Chari and Logone Rivers are navigable only in wet season) Chari is 11,400 km Logone is 1,000 km

country comparison to the world: 12

MILITARY AND SECURITY

Military and security forces: Chadian National Army (Armee Nationale du Tchad, ANT): Ground Forces (l'Armee de Terre, AdT), Chadian Air Force (l'Armee de l'Air Tchadienne, AAT), General Direction of the Security Services of State Institutions (Direction Generale des Services de Securite des Institutions de l'Etat, GDSSIE); National Gendarmerie; Ministry of Public Security and Immigration; National Nomadic Guard of Chad (GNNT), Chadian National Police (2022)

note: the GDSSIE, formerly known as the Republican Guard, is the presidential guard force and is considered to be Chad's elite military unit; it is reportedly a division-size unit with infantry, armor, and special forces/anti-terrorism regiments (known as the Special Anti-Terrorist Group or SATG, aka Division of Special Anti-Terrorist Groups or DGSAT)

Military expenditures: 2.5% of GDP (2021 est.)

2.9% of GDP (2020 est.)

2% of GDP (2019 est.) (approximately \$320 million)

2% of GDP (2018 est.) (approximately \$310 million)

2% of GDP (2017 est.) (approximately \$310 million)

country comparison to the world: 39

Military and security service personnel strengths: limited and varied information; estimated to have up to 35,000 active ANT personnel (25-30,000 Ground Forces; 300 Air Force; approximately 5,000 GDSSIE); approximately 5,000 National Gendarmerie; approximately 3,000 Nomadic Guard (2022)

Military equipment inventories and acquisitions: the ANT is mostly armed with older or second-hand equipment from Belgium, France, Russia, and the former Soviet Union; since 2010, it has received equipment, including donations, from more than 10 countries, including China, Italy, Ukraine, and the US (2021)

Military service age and obligation: 20 is the legal minimum age for compulsory military service for men with an 18-36 month service obligation (information varies); women are subject to 12 months of compulsory military or civic service at age 21; 18-35 for voluntary service; soldiers released from active duty are in the reserves until the age of 50 (2022)

Military deployments: 1,450 Mali (MINUSMA) (May 2022)

note 1: Chad has committed approximately 1,000-1,500 troops to the Multinational Joint Task Force (MNJTF) against Boko Haram and other terrorist groups operating in the general area of the Lake Chad Basin and along Nigeria's northeast border; national MNJTF troop contingents are deployed within their own territories, although cross-border operations are conducted periodically; in 2019, Chad sent more than 1,000 troops to Nigeria's Borno State to fight Boko Haram as part of the MNJTF mission

note 2: Chad is also part of a four (formerly five)-nation anti-jihadist task force known as the G4 Sahel Group, set up in 2014 with Chad, Mali (withdrew in 2022), Mauritania, and Niger; it has committed 550 troops and 100 gendarmes to the force; as of 2020, defense forces from each of the participating states were allowed to pursue terrorist fighters up to 100 km into neighboring countries; the force is backed by France, the UN, and the US

Military - note: as of 2022, the ANT was chiefly focused on counterterrorism and counterinsurgency operations; it was engaged with the Boko Haram (BH) and the Islamic State in West Africa (ISWA) terrorist groups in the Lake Chad Basin area (primarily the Lac Province) and in the Sahel, particularly the tri-border area with Burkina Faso, Mali, and Niger; in addition, the ANT was conducting operations against internal anti-government militias and armed dissident groups several rebel groups operate in northern Chad from bases in southern Libya, including the FACT (Front pour le Changement et la Concorde au Tchad), the Military Command Council for the Salvation of the Republic le Conseil de Commandement Militaire pour le salut de la République or CCSMR), the Union of Forces for Democracy and Development (le Union des

Forces pour la Démocratie et le Développement or UFDD), and the Union of Resistance Forces (le Union des Forces de la Résistance UFR); former Chadian President Idriss DEBY was killed in April 2021 during fighting in the northern part of the country between the FACT and the Chadian Army; some armed groups, including the UFDD and UFR, signed an accord in August 2022 in return for the release of prisoners, amnesty, and an end to hostilities between the Chadian Government and these armed factions; however, other armed groups, including the FACT and CCSMR, refused to join the accord (2022)

TERRORISM

Terrorist group(s): Boko Haram; Islamic State of Iraq and ash-Sham - West Africa (ISIS-WA)

TRANSNATIONAL ISSUES

Disputes - international: since 2003, ad hoc armed militia groups and the Sudanese military have driven hundreds of thousands of Darfur residents into Chad; Chad wishes to be a helpful mediator in resolving the Darfur conflict, and in 2010 established a joint border monitoring force with Sudan, which has helped to reduce cross-border banditry and violence; only Nigeria and Cameroon have heeded the Lake Chad Commission's admonition to ratify the delimitation treaty, which also includes the Chad-Niger and Niger-Nigeria boundaries

Refugees and internally displaced persons: refugees (country of origin): 394,666 (Sudan), 124,491 (Central African Republic), 35,907 (Cameroon), 20,257 (Nigeria) (2022)

IDPs: 381,289 (majority are in the east) (2022)

Trafficking in persons: current situation: human traffickers exploit domestic and foreign victims in Chad and Chadians abroad; most trafficking is internal; some children are sent by their parents to relatives or intermediaries to receive education, an apprenticeship, goods, or money and are then forced to work in domestic service or cattle herding; children are also forced to work in agriculture, gold mines, charcoal vending, and fishing, and those attending Koranic schools are forced into begging and street vending; girls from rural areas who search for work in larger towns are exploited in sex trafficking and domestic servitude; terrorist groups abduct children to serve as soldiers, suicide bombers, brides, and forced laborers

tier rating: Tier 2 Watch List – Chad does not fully meet the minimum standards for the elimination of trafficking but is making significant efforts to do so; one trafficker was convicted, the first under a 2018 law, but the government did not report investigating or prosecuting alleged traffickers, including complicit government officials; the government adopted a formal Road Map to implement its 2108 National Action Plan but did not report executing it; authorities did not identify any victims and have not drafted victim identification and referral procedures; the

government continued to make no effort to raise awareness on trafficking (2020)

Illicit drugs: NA

CHILE

INTRODUCTION

Background: Indigenous groups inhabited central and southern Chile for several thousands of years, living in mixed pastoralist and settled communities, ending with the Inca ruling the north of the country for nearly a century prior to the arrival of the Spanish in the 16th century. The Captaincy General of Chile was founded by the Spanish in 1541, lasting until Chile declared its independence in 1810. The subsequent struggle became tied to other South American independence conflicts, with a decisive victory over the Spanish not being achieved until 1818. In the War of the Pacific (1879-83), Chile defeated Peru and Bolivia to win its current northernmost regions. By the 1880s, the Chilean central government cemented its control over the central and southern regions inhabited by Mapuche Indigenous peoples. Between 1891 and 1973, a series of elected governments succeeded each other until the three-year-old Marxist government of Salvador ALLENDE was overthrown in 1973 by a military coup led by General Augusto PINOCHET, who ruled until a democratically elected president was inaugurated in 1990. Economic reforms, maintained consistently since the 1980s, contributed to steady growth, reduced poverty rates by over half, and helped secure the country's commitment to democratic and representative government. Chile has increasingly assumed regional and international leadership roles befitting its status as a stable, democratic nation.

GEOGRAPHY

Location: Southern South America, bordering the South Pacific Ocean, between Argentina and Peru

Geographic coordinates: 30 00 S, 71 00 W

Map references: South America

Area: *total:* 756,102 sq km

land: 743,812 sq km

water: 12,290 sq km

note: includes Easter Island (Isla de Pascua) and Isla Sala y Gomez

country comparison to the world: 39

Area - comparative: slightly smaller than twice the size of Montana

Land boundaries: *total:* 7,801 km

border countries (3): Argentina 6,691 km; Bolivia 942 km; Peru 168 km

Coastline: 6,435 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

continental shelf: 200/350 nm

Climate: temperate; desert in north; Mediterranean in central region; cool and damp in south

Terrain: low coastal mountains, fertile central valley, rugged Andes in east

Elevation: *highest point:* Nevado Ojos del Salado 6,893 m (highest volcano in the world)

lowest point: Pacific Ocean 0 m

mean elevation: 1,871 m

Natural resources: copper, timber, iron ore, nitrates, precious metals, molybdenum, hydropower

Land use: *agricultural land:* 21.1% (2018 est.)

arable land: 1.7% (2018 est.)

permanent crops: 0.6% (2018 est.)

permanent pasture: 18.8% (2018 est.)

forest: 21.9% (2018 est.)

other: 57% (2018 est.)

Irrigated land: 11,100 sq km (2012)

Major lakes (area sq km): *fresh water lake(s):* Lago General Carrera (shared with Argentina) - 2,240 sq km; Lago O'Higgins (shared with Argentina) - 1,010 sq km; Lago Llanquihue - 800 sq km; Lago Fagnano (shared with Argentina) - 590 sq km

Population distribution: 90% of the population is located in the middle third of the country around the capital of Santiago; the far north (anchored by the Atacama Desert) and the extreme south are relatively underpopulated

Natural hazards: severe earthquakes; active volcanism; tsunamis
volcanism: significant volcanic activity due to more than three-dozen active volcanoes along the Andes Mountains; Lascar (5,592 m), which last erupted in 2007, is the most active volcano in the northern Chilean Andes; Llaima (3,125 m) in central Chile, which last erupted in 2009, is another of the country's most active; Chaiten's 2008 eruption forced major evacuations; other notable historically active volcanoes include Cerro Hudson, Calbuco, Copahue, Guallatiri, Llullaillaco, Nevados de Chillan, Puyehue, San Pedro, and Villarrica; see note 2 under "Geography - note"

Geography - note: *note 1 :* the longest north-south trending country in the world, extending across 39 degrees of latitude; strategic location relative to sea lanes between the Atlantic and Pacific Oceans (Strait of Magellan, Beagle Channel, Drake Passage)

note 2: Chile is one of the countries along the Ring of Fire, a belt of active volcanoes and earthquake epicenters bordering the Pacific Ocean; up to 90% of the world's earthquakes and some 75% of the world's

volcanoes occur within the Ring of Fire

note 3: the Atacama Desert - the driest desert in the world - spreads across the northern part of the country; Ojos del Salado (6,893 m) in the Atacama Desert is the highest active volcano in the world, Chile's tallest mountain, and the second highest in the Western Hemisphere and the Southern Hemisphere - its small crater lake (at 6,390 m) is the world's highest lake

PEOPLE AND SOCIETY

Population: 18,430,408 (2022 est.)

country comparison to the world: 66

Nationality: *noun:* Chilean(s)

adjective: Chilean

Ethnic groups: White and non-Indigenous 88.9%, Mapuche 9.1%, Aymara 0.7%, other Indigenous groups 1% (includes Rapa Nui, Likan Antai, Quechua, Colla, Diaguita, Kawesqar, Yagan or Yamana), unspecified 0.3% (2012 est.)

Languages: Spanish 99.5% (official), English 10.2%, Indigenous 1% (includes Mapudungun, Aymara, Quechua, Rapa Nui), other 2.3%, unspecified 0.2%; note - shares sum to more than 100% because some respondents gave more than one answer on the census (2012 est.)

major-language sample(s): La Libreta Informativa del Mundo, la fuente indispensable de información básica. (Spanish)

Religions: Roman Catholic 60%, Evangelical 18%, atheist or agnostic 4%, none 17% (2018 est.)

Demographic profile: Chile is in the advanced stages of demographic transition and is becoming an aging society - with fertility below replacement level, low mortality rates, and life expectancy on par with developed countries. Nevertheless, with its dependency ratio nearing its low point, Chile could benefit from its favorable age structure. It will need to keep its large working-age population productively employed, while preparing to provide for the needs of its growing proportion of elderly people, especially as women - the traditional caregivers - increasingly enter the workforce. Over the last two decades, Chile has made great strides in reducing its poverty rate, which is now lower than most Latin American countries. However, its severe income inequality ranks as the worst among members of the Organization for Economic Cooperation and Development. Unequal access to quality education perpetuates this uneven income distribution.

Chile has historically been a country of emigration but has slowly become more attractive to immigrants since transitioning to democracy in 1990 and improving its economic stability (other regional destinations have concurrently experienced deteriorating economic and political conditions). Most of Chile's small but growing foreign-born population consists of transplants from other Latin American countries, especially Peru.

Age structure: *0-14 years:* 19.79% (male 1,836,240/female 1,763,124)

15-24 years: 13.84% (male 1,283,710/female 1,233,238)

25-54 years: 42.58% (male 3,882,405/female 3,860,700)

55-64 years: 11.98% (male 1,034,049/female 1,145,022)

65 years and over: 11.81% (male 902,392/female 1,245,890) (2020 est.)

Birth rate: 12.75 births/1,000 population (2022 est.)

country comparison to the world: 141

Death rate: 6.52 deaths/1,000 population (2022 est.)

country comparison to the world: 136

Net migration rate: 0.33 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 75

Population distribution: 90% of the population is located in the middle third of the country around the capital of Santiago; the far north (anchored by the Atacama Desert) and the extreme south are relatively underpopulated

Urbanization: *urban population:* 87.9% of total population (2022)

rate of urbanization: 0.78% annual rate of change (2020-25 est.)

Major urban areas - population: 6.857 million SANTIAGO (capital), 1.000 million Valparaíso, 902,000 Concepción (2022)

Sex ratio: *at birth:* 1.04 male(s)/female

0-14 years: 1.04 male(s)/female

15-24 years: 1.04 male(s)/female

male: 7.12 deaths/1,000 live births

female: 5.95 deaths/1,000 live births (2022 est.)

country comparison to the world: 165

Life expectancy at birth: total population: 79.79 years

male: 76.8 years

female: 82.92 years (2022 est.)

country comparison to the world: 54

Total fertility rate: 1.76 children born/woman (2022 est.)

country comparison to the world: 151

Contraceptive prevalence rate: 76.3% (2015/16)

Drinking water source: improved: urban: 100% of population

rural: 100% of population

total: 100% of population

Current health expenditure: 9.3% of GDP (2019)

Physicians density: 2.84 physicians/1,000 population (2020)

Hospital bed density: 2.1 beds/1,000 population (2018)

Sanitation facility access: improved: urban: 100% of population

rural: 100% of population

total: 100% of population

HIV/AIDS - adult prevalence rate: 0.6% (2020 est.)

country comparison to the world: 59

Obesity - adult prevalence rate: 28% (2016)

country comparison to the world: 32

Alcohol consumption per capita: total: 7.8 liters of pure alcohol
(2019 est.)

beer: 2.76 liters of pure alcohol (2019 est.)
wine: 2.61 liters of pure alcohol (2019 est.)
spirits: 2.43 liters of pure alcohol (2019 est.)
other alcohols: 0 liters of pure alcohol (2019 est.)
country comparison to the world: 47

Tobacco use: *total*: 29.2% (2020 est.)

male: 31.6% (2020 est.)

female: 26.8% (2020 est.)

country comparison to the world: 34

Children under the age of 5 years underweight

0.5% (2014): *country comparison to the world*: 126

Education expenditures: 5.4% of GDP (2018 est.)

country comparison to the world: 41

Literacy: *definition*: age 15 and over can read and write

total population: 96.4%

male: 96.3%

female: 96.3% (2017)

School life expectancy (primary to tertiary education): *total*: 17 years

male: 17 years

female: 17 years (2019)

Unemployment, youth ages 15-24: *total*: 24.9%

male: 23.7%

female: 26.6% (2020 est.)

ENVIRONMENT

Environment - current issues: air pollution from industrial and vehicle emissions; water pollution from raw sewage; noise pollution; improper garbage disposal; soil degradation; widespread deforestation and mining threaten the environment; wildlife conservation

Environment - international agreements: *party to:* Antarctic-Environmental Protection, Antarctic-Marine Living Resources, Antarctic Seals, Antarctic Treaty, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Marine Dumping-London Protocol, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Wetlands, Whaling
signed, but not ratified: none of the selected agreements

Air pollutants: particulate matter emissions: 21.03 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 85.82 megatons (2016 est.)

methane emissions: 15.97 megatons (2020 est.)

Climate: temperate; desert in north; Mediterranean in central region; cool and damp in south

Land use: *agricultural land:* 21.1% (2018 est.)

arable land: 1.7% (2018 est.)

permanent crops: 0.6% (2018 est.)

permanent pasture: 18.8% (2018 est.)

forest: 21.9% (2018 est.)

other: 57% (2018 est.)

Urbanization: *urban population:* 87.9% of total population (2022)

rate of urbanization: 0.78% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.49% of GDP (2018 est.)

country comparison to the world: 67

Revenue from coal: *coal revenues:* 0.01% of GDP (2018 est.)

country comparison to the world: 48

Waste and recycling: *municipal solid waste generated annually:*

6.517 million tons (2009 est.)

municipal solid waste recycled annually: 24,113 tons (2009 est.)

percent of municipal solid waste recycled: 0.4% (2009 est.)

Major lakes (area sq km): *fresh water lake(s):* Lago General Carrera (shared with Argentina) - 2,240 sq km; Lago O'Higgins (shared with Argentina) - 1,010 sq km; Lago Llanquihue - 800 sq km; Lago Fagnano (shared with Argentina) - 590 sq km

Total water withdrawal: *municipal:* 1.267 billion cubic meters (2017 est.)

industrial: 4.744 billion cubic meters (2017 est.)

agricultural: 29.42 billion cubic meters (2017 est.)

Total renewable water resources: 923.06 billion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Chile

conventional short form: Chile

local long form: Republica de Chile

local short form: Chile

etymology: derivation of the name is unclear, but it may come from the Mapuche word “chilli” meaning “limit of the earth” or from the Quechua “chiri” meaning “cold”

Government type: presidential republic

Capital: *name:* Santiago; note - Valparaíso is the seat of the national legislature

geographic coordinates: 33 27 S, 70 40 W

time difference: UTC-3 (2 hours ahead of Washington, DC, during Standard Time)

daylight saving time: +1 hr, begins second Sunday in August; ends second Sunday in May; note - Punta Arenas observes DST throughout the year

time zone note: Chile has three time zones: the continental portion at UTC-3; the southern Magallanes region, which does not use daylight savings time and remains at UTC-3 for the summer months; and Easter Island at UTC-5

etymology: Santiago is named after the biblical figure Saint James (ca. A.D. 3-44), patron saint of Spain, but especially revered in Galicia; “Santiago” derives from the local Galician evolution of the Vulgar Latin “Sanctu Iacobu”; Valparaíso derives from the Spanish “Valle Paraíso” meaning “Paradise Valley”

Administrative divisions: 16 regions (regiones, singular - region); Aysen, Antofagasta, Araucania, Arica y Parinacota, Atacama, Biobio, Coquimbo, Libertador General Bernardo O’Higgins, Los Lagos, Los Rios, Magallanes y de la Antartica Chilena (Magallanes and Chilean Antarctica), Maule, Nuble, Region Metropolitana (Santiago), Tarapaca, Valparaíso

note: the US does not recognize any claims to Antarctica

Independence: 18 September 1810 (from Spain)

National holiday: Independence Day, 18 September (1810)

Constitution: *history:* many previous; latest adopted 11 September 1980, effective 11 March 1981 ; a referendum held on 25 October 2020 approved forming a convention to draft a new constitution, and on 15-16 May 2021, a referendum was held to elect members to the convention; the convention will finalize in July 2022, and Chileans will vote on the new constitution in a 4 September referendum

amendments: proposed by members of either house of the National Congress or by the president of the republic; passage requires at least three-fifths majority vote of the membership in both houses and approval by the president; passage of amendments to constitutional articles, such as the republican form of government, basic rights and freedoms, the Constitutional Tribunal, electoral justice, the Council of National Security, or the constitutional amendment process, requires at least two-third majority vote by both houses of Congress and approval by the president; the president can opt to hold a referendum when Congress and the president disagree on an amendment; amended many times, last in 2020

Legal system: civil law system influenced by several West European civil legal systems; judicial review of legislative acts by the Constitutional Tribunal

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* yes

citizenship by descent only: yes

dual citizenship recognized: yes

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Gabriel BORIC (since 11

March 2022); note - the president is both chief of state and head of government

head of government: President Gabriel BORIC (since 11 March 2022)

cabinet: Cabinet appointed by the president

elections/appointments: president directly elected by absolute majority popular vote in 2 rounds if needed for a single 4-year term; election last held on 21 November 2021 with a runoff held on 19 December 2021 (next to be held on 23 November 2025 with runoff if needed on 20 December)

election results:

2021: Gabriel BORIC elected president in second round; percent of vote in first round - Jose Antonio KAST (FSC) 27.9%; Gabriel BORIC (AD) 25.8%; Franco PARISI (PDG) 12.8%; Sebastian SICHEL (ChP+) 12.8%; Yasna PROVOSTE (New Social Pact) 11.6%; other 9.1%; percent of vote in second round - Gabriel BORIC (AD) 55.9%; Jose Antonio KAST (FSC) 44.1%

2017: Sebastian PINERA Echenique elected president in second round; percent of vote in first round - Sebastian PINERA Echenique (independent) 36.6%; Alejandro GUILLIER (independent) 22.7%; Beatriz SANCHEZ (independent) 20.3%; Jose Antonio KAST (independent) 7.9%; Carolina GOIC (PdC) 5.9%; Marco ENRIQUEZ-OMINAMI (PRO) 5.7%; other 0.9%; percent of vote in second round - Sebastian PINERA Echenique 54.6%, Alejandro GUILLIER 45.4%

Legislative branch: *description:* bicameral National Congress or Congreso Nacional consists of:

Senate or Senado (50 seats); members directly elected in multi-seat constituencies by open party-list proportional representation vote to serve 8-year terms with one-half of the membership renewed every 4 years)

Chamber of Deputies or Camara de Diputados (155 seats; members directly elected in multi-seat constituencies by open party-list proportional representation vote to serve 4-year terms)

elections:

Senate - last held on 21 November 2021 (next to be held on 23 November 2025)

Chamber of Deputies - last held on 21 November 2021 (next to be held on

23 November 2025)

election results:

Senate - percent of vote by party - NA; seats by party - ChP+ 12 (RN 5, UDI 5, EVOPOLI 2), NPS 8 (PS 4, PPD 2, PDC 2), PLR 1, AD 4 (PCCh 2, FREVS 2) independent 2; note - total composition of the Senate as of 1 May 2022: seats by party - ChP+ 24 (RN 12, UDI 9, EVOPOLI 3), NPS 18 (PS 7, PPD 6, PDC 5), AD 6 (PCCh 2, FREVS 2, RD 2), PLR 1, independent 1 ; composition - men 38, women 12, percent of women 24% Chamber of Deputies - percent of vote by party - NA; seats by party - ChP+ 53 (RN 25, UDI 23, EVOPOLI 4, PRI 1), AD 37 (PCCh 12, CS 9, RD 8, Commons 6, FREVS 2), NPS 37 (PS 13, PDC 8, PPD 7, PL 4, PRSD 4, CIU 1), FSC 15 (PLR 14, PCC 1), PDG 6, PH 3, PEV 2, IU 1, independent 1 ; composition - men 100, women 55, percent of women 35.5%; note - overall National Congress percent of women 32.7%

Judicial branch: *highest court(s):* Supreme Court or Corte Suprema (consists of a court president and 20 members or ministros); Constitutional Court (consists of 10 members and is independent of the rest of the judiciary); Elections Qualifying Court (consists of 5 members) *judge selection and term of office:* Supreme Court president and judges (ministers) appointed by the president of the republic and ratified by the Senate from lists of candidates provided by the court itself; judges appointed for life with mandatory retirement at age 70; Constitutional Court members appointed - 3 by the Supreme Court, 3 by the president of the republic, 2 by the Chamber of Deputies, and 2 by the Senate; members serve 9-year terms with partial membership replacement every 3 years (the court reviews constitutionality of legislation); Elections Qualifying Court members appointed by lottery - 1 by the former president or vice president of the Senate and 1 by the former president or vice president of the Chamber of Deputies, 2 by the Supreme Court, and 1 by the Appellate Court of Valparaiso; members appointed for 4-year terms

subordinate courts: Courts of Appeal; oral criminal tribunals; military tribunals; local police courts; specialized tribunals and courts in matters such as family, labor, customs, taxes, and electoral affairs

Political parties and leaders

Approve Dignity (Apruebo Dignidad) coalition or AD (includes PC, FA, and FREVS) [Gabriel BORIC]

Broad Front Coalition (Frente Amplio) or FA (includes RD, CS, and Comunes) [Gonzalo WINTER]

Broad Social Movement of Leftist Citizens (includes former MAS and Izquierda Ciudadana) [Fernando ZAMORANO]

Chile We Can Do More or ChP+ [Sebastian SICHEL] (coalition includes EVOPOLI, PRI, RN, UDI)

Christian Conservative Party or PCC [Antaris VARELA]

Christian Democratic Party or PDC [Carmen FREI Ruiz-Tagle]

Christian Social Front or FSC [Jose Antonio KAST] (includes PCC, PLR)

Citizens or CIU [María Ignacia GOMEZ Martinez]

Commons (Comunes) [Jorge RAMIREZ]

Communist Party of Chile or PCCh [Guillermo TEILLIER del Valle]

Democratic Revolution or RD [Margarita PORTUGUEZ]

Green Ecological Party or PEV [Felix GONZALEZ] (dissolved 7 February 2022)

Humanist Party or PH [Octavio GONZALEZ]

Independent Democratic Union or UDI [Javier MACAYA]

Independent Regionalist Democratic Party or PRI [Hugo ORTIZ de Filippi]

Liberal Party (Partido Liberal de Chile) or PL [Patricio MORALES]

National Renewal or RN [Francisco CHAHUAN]

New Social Pact or NPS [Yasna PROVOSTE] (includes PDC, PL, PPD, PRSD, PS)

Party for Democracy or PPD [Natalia PERGIENTILI Domenech]

Party of the People or PDG [Franco Aldo PARISI Fernandez]

Political Evolution or EVOPoli [Luz POBLETE Coddou]

Radical Social Democratic Party or PRSD [Carlos MALDONADO Curti]

Republican Party or PLR [Rojo EDWARDS]

Social Convergence or CS [Alondra ARELLANO Hernandez]

Social Green Regionalist Federation or FREVS [Flavia TORREALBA Diaz]

Socialist Party or PS [Alvaro Antonio ELIZALDE Soto]

United Independents or IU [Cristian Alejandro CONTRERAS Radovic]

Flag description: two equal horizontal bands of white (top) and red; a

blue square the same height as the white band at the hoist-side end of the white band; the square bears a white five-pointed star in the center representing a guide to progress and honor; blue symbolizes the sky, white is for the snow-covered Andes, and red represents the blood spilled to achieve independence

note: design influenced by the US flag

National symbol(s): huemul (mountain deer), Andean condor; national colors: red, white, blue

National anthem: *name:* “Himno Nacional de Chile” (National Anthem of Chile)

lyrics/music: Eusebio LILLO Robles and Bernardo DE VERA y Pintado/
Ramon CARNICER y Battle

note: music adopted 1828, original lyrics adopted 1818, adapted lyrics adopted 1847; under Augusto PINOCHET’s military rule, a verse glorifying the army was added; however, as a protest, some citizens refused to sing this verse; it was removed when democracy was restored in 1990

National heritage: *total World Heritage Sites:* 7 (all cultural)

selected World Heritage Site locales: Rapa Nui National Park; Churches of Chiloe; Historic Valparaiso; Humberstone and Santa Laura Saltpeter Works; Sewell Mining Town; Qhapaq Ñan/Andean Road System; Chinchorro archeological sites

ECONOMY

Economic overview: Chile has a market-oriented economy characterized by a high level of foreign trade and a reputation for strong financial institutions and sound policy that have given it the strongest sovereign bond rating in South America. Exports of goods and services account for approximately one-third of GDP, with commodities making up some 60% of total exports. Copper is Chile's top export and provides 20% of government revenue.

From 2003 through 2013, real growth averaged almost 5% per year, despite a slight contraction in 2009 that resulted from the global financial crisis. Growth slowed to an estimated 1.4% in 2017. A continued drop in copper prices prompted Chile to experience its third consecutive year of slow growth.

Chile deepened its longstanding commitment to trade liberalization with the signing of a free trade agreement with the US, effective 1 January 2004. Chile has 26 trade agreements covering 60 countries including agreements with the EU, Mercosur, China, India, South Korea, and Mexico. In May 2010, Chile signed the OECD Convention, becoming the first South American country to join the OECD. In October 2015, Chile signed the Trans-Pacific Partnership trade agreement, which was finalized as the Comprehensive and Progressive Trans-Pacific Partnership (CPTPP) and signed at a ceremony in Chile in March 2018.

The Chilean Government has generally followed a countercyclical fiscal policy, under which it accumulates surpluses in sovereign wealth funds during periods of high copper prices and economic growth, and generally allows deficit spending only during periods of low copper prices and growth. As of 31 October 2016, those sovereign wealth funds - kept mostly outside the country and separate from Central Bank reserves - amounted to more than \$23.5 billion. Chile used these funds to finance fiscal stimulus packages during the 2009 economic downturn.

In 2014, then-President Michelle BACHELET introduced tax reforms aimed at delivering her campaign promise to fight inequality and to provide access to education and health care. The reforms are expected to

generate additional tax revenues equal to 3% of Chile's GDP, mostly by increasing corporate tax rates to OECD averages.

Real GDP (purchasing power parity): \$445.88 billion (2020 est.)

\$473.19 billion (2019 est.)

\$468.77 billion (2018 est.)

ENERGY

Electricity access: *electrification - total population:* 100% (2020)

Electricity: *installed generating capacity:* 29.808 million kW (2020 est.)
consumption: 75.302 billion kWh (2020 est.)

exports: 0 kWh (2020 est.)

imports: 0 kWh (2020 est.)

transmission/distribution losses: 4.62 billion kWh (2020 est.)

Electricity generation sources: *fossil fuels:* 51.9% of total installed capacity (2020 est.)

solar: 9.5% of total installed capacity (2020 est.)

wind: 6.9% of total installed capacity (2020 est.)

hydroelectricity: 26% of total installed capacity (2020 est.)

geothermal: 0.3% of total installed capacity (2020 est.)

biomass and waste: 5.4% of total installed capacity (2020 est.)

Coal: *production:* 542,000 metric tons (2020 est.)

consumption: 10.573 million metric tons (2020 est.)

exports: 134,000 metric tons (2020 est.)

imports: 10.607 million metric tons (2020 est.)

proven reserves: 1.181 billion metric tons (2019 est.)

Petroleum: *total petroleum production:* 11,900 bbl/day (2021 est.)

refined petroleum consumption: 361,700 bbl/day (2019 est.)

crude oil and lease condensate exports: 0 bbl/day (2018 est.)

crude oil and lease condensate imports: 172,700 bbl/day (2018 est.)

crude oil estimated reserves: 150 million barrels (2021 est.)

Refined petroleum products - production: 216,200 bbl/day (2017 est.)

country comparison to the world: 49

Refined petroleum products - exports: 7,359 bbl/day (2017 est.)

country comparison to the world: 87

Refined petroleum products - imports: 166,400 bbl/day (2017 est.)

country comparison to the world: 38

Natural gas: *production:* 1,109,962,000 cubic meters (2020 est.)

consumption: 6,558,312,000 cubic meters (2020 est.)

exports: 0 cubic meters (2021 est.)

imports: 4,602,471,000 cubic meters (2020 est.)

proven reserves: 97.976 billion cubic meters (2021 est.)

Carbon dioxide emissions: 88.333 million metric tonnes of CO2 (2019 est.)

from coal and metallurgical coke: 24.217 million metric tonnes of CO2 (2019 est.)

from petroleum and other liquids: 51.228 million metric tonnes of CO2 (2019 est.)

from consumed natural gas: 12.888 million metric tonnes of CO2 (2019 est.)

country comparison to the world: 47

Energy consumption per capita: 81.953 million Btu/person (2019 est.)

country comparison to the world: 72

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 2,567,938 (2020 est.)
subscriptions per 100 inhabitants: 13 (2020 est.)
country comparison to the world: 50

Telephones - mobile cellular: *total subscriptions:* 25,068,249 (2020 est.)
subscriptions per 100 inhabitants: 131 (2020 est.)
country comparison to the world: 51

Telecommunication systems: *general assessment:* the market for fixed and mobile telephony is highly competitive and rapidly evolving; the mobile rate is among the highest in South America; LTE infrastructure is extensive and 5G spectrum auctions which took place in February 2021 are expected to prompt the deployment of 5G networks by the end of the year, following extensive trials held by the MNOs; fixed broadband is relatively high for the region, with services among the fastest and least expensive in Latin America; government initiatives such as the National Fiber Optic project and Fibra Óptica Austral are providing high-capacity connectivity across the country and will further increase fixed-line broadband; there is a strong focus on fiber broadband, with the number of fiber subscribers having increased 61.7% in 2020, year-on-year; technological improvements have allowed operators to provide a variety of services via their networks, giving rise to a number of bundled packages at competitive prices, including access to video on demand services which in turn is increasing fixed-line broadband; traditional fixed-line teledensity continues to fall as consumers switch to mobile networks and to fixed broadband for voice and data connectivity; more than 8,300 schools receive free broadband as part of the ‘Connectivity for Education 2030’ project (2021)

domestic: number of fixed-line connections have dropped to about 13 per 100 in recent years as mobile-cellular usage continues to increase, reaching 131 telephones per 100 persons; domestic satellite system with 3 earth stations (2020)

international: country code - 56; landing points for the Pan-Am, Prat, SAM-1, American Movil-Telxius West Coast Cable, FOS Quellon-Chacabuco, Fibra Optical Austral, SAC and Curie submarine cables providing links to the US, Caribbean and to Central and South America; satellite earth stations - 2 Intelsat (Atlantic Ocean) (2019)

Broadcast media: national and local terrestrial TV channels, coupled with extensive cable TV networks; the state-owned Television Nacional de Chile (TVN) network is self-financed through commercial advertising revenues and is not under direct government control; large number of privately owned TV stations; about 250 radio stations

Internet country code: .cl

Internet users: *total:* 16,822,264 (2020 est.)

percent of population: 88% (2020 est.)

country comparison to the world: 43

Broadband - fixed subscriptions: *total:* 3,763,826 (2020 est.)

subscriptions per 100 inhabitants: 20 (2020 est.)

country comparison to the world: 41

TRANSPORTATION

National air transport system: *number of registered air carriers:* 9 (2020)

inventory of registered aircraft operated by air carriers: 173

annual passenger traffic on registered air carriers: 19,517,185 (2018)

annual freight traffic on registered air carriers: 1,226,440,000 (2018) mt-km

Civil aircraft registration country code prefix: CC

Airports: *total:* 481 (2021)

country comparison to the world: 14

Airports - with paved runways: *total:* 90

over 3,047 m: 5

2,438 to 3,047 m: 7

1,524 to 2,437 m: 23

914 to 1,523 m: 31

Airports - with unpaved runways: *total:* 391

2,438 to 3,047 m: 5

1,524 to 2,437 m: 11

914 to 1,523 m: 56

under 914 m: 319 (2021)

Heliports: 1 (2021)

Pipelines: 3,160 km gas, 781 km liquid petroleum gas, 985 km oil, 722 km refined products (2013)

Railways: *total:* 7,281.5 km (2014)

narrow gauge: 3,853.5 km (2014) 1,000-m gauge

broad gauge: 3,428 km (2014) 1,676-m gauge (1,691 km electrified)

country comparison to the world: 30

Roadways: *total:* 77,801 km (2016)

country comparison to the world: 62

Merchant marine: *total:* 231

by type: bulk carrier 6, container ship 5, general cargo 58, oil tanker 14, other 148 (2021)

country comparison to the world: 64

Ports and terminals: *major seaport(s):* Coronel, Huasco, Lirquen, Puerto Ventanas, San Antonio, San Vicente, Valparaiso

container port(s) (TEUs): San Antonio (1,709,635), Valparaiso (898,715) (2019)

LNG terminal(s) (import): Mejillones, Quintero

MILITARY AND SECURITY

Military and security forces: Armed Forces of Chile (Fuerzas Armadas de Chile): Chilean Army (Ejército de Chile), Chilean Navy (Armada de Chile, includes marine units and coast guard or Maritime Territory and Merchant Marine Directorate (Directemar)), Chilean Air Force (Fuerza Aerea de Chile, FACH); Ministry of the Interior and Public Security: Carabineros de Chile (National Police Force) (2022)

note: the Carabineros de Chile are responsible to both the Ministry of Defense and the Ministry of the Interior

Military expenditures: 2% of GDP (2021 est.)

2% of GDP (2020)

1.9% of GDP (2019) (approximately \$7.33 billion)

1.9% of GDP (2018) (approximately \$7.2 billion)

2% of GDP (2017) (approximately \$7.1 billion)

country comparison to the world: 57

Military and security service personnel strengths: approximately 70,000 active armed forces personnel (40,000 Army; 20,000 Navy; 10,000 Air Force); approximately 50,000 Carabineros (2022)

Military equipment inventories and acquisitions: the Chilean military inventory is comprised of a wide mix of mostly Western equipment and some domestically-produced systems; since 2010, it has received military hardware from nearly 15 countries with Germany and the US as the leading suppliers; Chile's defense industry has capabilities in military aircraft, ships, and vehicles (2022)

Military service age and obligation: 18-45 years of age for voluntary male and female military service; selective compulsory service (there are usually enough volunteers to make compulsory service unnecessary); service obligation is a minimum of 12 months for Army and 22 months for Navy and Air Force (2022)

note: as of 2021, women comprised approximately 18% of the armed forces

Military - note: the Chilean Army was founded in 1810, but traces its origins back to the Army of the Kingdom of Chile, which was established by the Spanish Crown in the early 1600s; the Navy traces its origins to 1817; it was first led by a British officer and its first ships were largely crewed by American, British, and Irish sailors; by the 1880s, the Chilean Navy was one of the most powerful in the Americas, and included the world's first protected cruiser (a ship with an armored deck to protect vital machine spaces); Chile's military aviation was inaugurated in 1913 with the creation of a military aviation school (2022)

TRANSNATIONAL ISSUES

Disputes - international: Chile and Peru rebuff Bolivia's reactivated claim to restore the Atacama corridor, ceded to Chile in 1884, but Chile has offered instead unrestricted but not sovereign maritime access through Chile to Bolivian natural gas; Chile rejects Peru's unilateral legislation to change its latitudinal maritime boundary with Chile to an equidistance line with a southwestern axis favoring Peru; in October 2007, Peru took its maritime complaint with Chile to the ICJ; territorial claim in Antarctica (Chilean Antarctic Territory) partially overlaps Argentine and British claims; the joint boundary commission, established by Chile and Argentina in 2001, has yet to map and demarcate the delimited boundary in the inhospitable Andean Southern Ice Field (Campo de Hielo Sur)

Refugees and internally displaced persons: refugees (country of origin): 448,138 (Venezuela) (economic and political crisis; includes Venezuelans who have claimed asylum or have received alternative legal stay) (2020)

Illicit drugs: transshipment country for cocaine destined for Europe and the region; some money laundering activity, especially through the Iquique Free Trade Zone; imported precursors passed on to Bolivia; domestic cocaine consumption is rising, making Chile a significant consumer of cocaine

CHINA

INTRODUCTION

Background: China's historical civilization dates to at least 13th century B.C., first under the Shang (to 1046 B.C.) and then the Zhou (1046-221 B.C) dynasties. The imperial era of China began in 221 B.C. under the Qin Dynasty and lasted until the fall of the Qing Dynasty in 1912. During this period, China alternated between periods of unity and disunity under a succession of imperial dynasties. In the 19th century, the Qing Dynasty suffered heavily from overextension by territorial conquest, insolvency, civil war, imperialism, military defeats, and foreign expropriation of ports and infrastructure. It collapsed following the Revolution of 1911, and China became a republic under SUN Yat-sen of the Kuomintang (KMT or Nationalist) Party. However, the republic was beset by division, warlordism, and continued foreign intervention. In the late 1920s, a civil war erupted between the ruling KMT-controlled government led by CHIANG Kai-shek, and the Chinese Communist Party (CCP). Japan occupied much of northeastern China in the early 1930s, and then launched a full-scale invasion of the country in 1937. The resulting eight years of warfare devastated the country and cost up to 20 million Chinese lives by the time of Japan's defeat in 1945. The Nationalist-Communist civil war continued with renewed intensity following the end of World War II and culminated with a CCP victory in 1949, under the leadership of MAO Zedong.

MAO and the CCP established an autocratic socialist system that, while ensuring the PRC's sovereignty, imposed strict controls over everyday life and launched agricultural, economic, political, and social policies - such as the Great Leap Forward (1958-1962) and the Cultural Revolution (1966-1976) - that cost the lives of millions of people. MAO died in 1976. Beginning in 1978, subsequent leaders DENG Xiaoping, JIANG Zemin, and HU Jintao focused on market-oriented economic development and opening up the country to foreign trade, while maintaining the rule of the CCP. Since the change, China has been among the world's fastest growing economies, with real gross domestic product averaging over 9% growth annually through 2021, lifting an estimated

800 million people out of poverty, and dramatically improving overall living standards. By 2011, the PRC's economy was the second largest in the world. The growth, however, has created considerable social displacement, adversely affected the country's environment, and reduced the country's natural resources. Current leader XI Jinping has continued these policies, but also has maintained tight political controls. Over the past decade, China has also increased its global outreach, including military deployments, participation in international organizations, and initiating a global connectivity initiative in 2013 called the "Belt and Road Initiative" (BRI). While many nations have signed on to BRI agreements to attract PRC investment, others have balked at the opaque lending behavior; weak environment, social, and governance (ESG) standards; and other practices that undermine local governance and foster corruption associated with some BRI-linked projects. XI Jinping assumed the positions of General Secretary of the Chinese Communist Party and Chairman of the Central Military Commission in 2012 and President in 2013. In March 2018, the PRC's National People's Congress passed an amendment abolishing presidential term limits, opening the door for XI to seek a third five-year term in 2023.

GEOGRAPHY

Location: Eastern Asia, bordering the East China Sea, Korea Bay, Yellow Sea, and South China Sea, between North Korea and Vietnam

Geographic coordinates: 35 00 N, 105 00 E

Map references: Asia

Area: *total:* 9,596,960 sq km

land: 9,326,410 sq km

water: 270,550 sq km

country comparison to the world: 5

Area - comparative: slightly smaller than the US

Land boundaries: *total:* 22,457 km

border countries (14): Afghanistan 91 km; Bhutan 477 km; Burma 2,129 km; India 2,659 km; Kazakhstan 1,765 km; North Korea 1,352 km; Kyrgyzstan 1,063 km; Laos 475 km; Mongolia 4,630 km; Nepal 1,389 km; Pakistan 438 km; Russia (northeast) 4,133 km and Russia (northwest) 46 km; Tajikistan 477 km; Vietnam 1,297 km

Coastline: 14,500 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

continental shelf: 200 nm or to the edge of the continental margin

Climate: extremely diverse; tropical in south to subarctic in north

Terrain: mostly mountains, high plateaus, deserts in west; plains, deltas, and hills in east

Elevation: *highest point:* Mount Everest (highest peak in Asia and highest point on earth above sea level) 8,849 m

lowest point: Turpan Pendi (Turfan Depression) -154 m

mean elevation: 1,840 m

Natural resources: coal, iron ore, helium, petroleum, natural gas,

arsenic, bismuth, cobalt, cadmium, ferrosilicon, gallium, germanium, hafnium, indium, lithium, mercury, tantalum, tellurium, tin, titanium, tungsten, antimony, manganese, magnesium, molybdenum, selenium, strontium, vanadium, magnetite, aluminum, lead, zinc, rare earth elements, uranium, hydropower potential (world's largest), arable land

Land use: *agricultural land:* 54.7% (2018 est.)

arable land: 11.3% (2018 est.)

permanent crops: 1.6% (2018 est.)

permanent pasture: 41.8% (2018 est.)

forest: 22.3% (2018 est.)

other: 23% (2018 est.)

Irrigated land: 690,070 sq km (2012)

Major lakes (area sq km): *fresh water lake(s):* Dongting Hu - 3,100 sq km; Poyang Hu - 3,350 sq km; Hongze Hu - 2,700 sq km; Tai Hu - 2,210 sq km; Hulun Nur - 1,590

salt water lake(s): Quinghai Hu - 4,460 sq km; Nam Co - 2,500 sq km; Siling Co - 1,860 sq km; Tangra Yumco - 1,400 sq km; Bosten Hu 1,380 sq km

Major rivers (by length in km): Yangtze - 6,300 km; Huang He - 5,464 km; Amur river source (shared with Mongolia and Russia [m]) - 4,444 km; Mekong river source (shared with Burma, Laos, Thailand, Cambodia, and Vietnam [m]) - 4,350 km; Brahmaputra river source (shared with India and Bangladesh [m]) - 3,969 km; Indus river source (shared with India and Pakistan [m]) - 3,610 km; Salween river source (shared with Thailand and Burma [m]) - 3,060 km; Irrawaddy river source (shared with Burma [m]) - 2,809 km; Pearl (shared with Vietnam [s]) - 2,200 km; Red river source (shared with Vietnam [m]) - 1,149 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): *Pacific Ocean drainage:* Amur (1,929,955 sq km), Huang He (944,970 sq km), Mekong (805,604 sq km), Yangtze (1,722,193 sq km)

Indian Ocean drainage: Brahmaputra (651,335 sq km), Ganges (1,016,124 sq km), Indus (1,081,718 sq km), Irrawaddy (413,710 sq km), Salween (271,914 sq km)

Arctic Ocean drainage: Ob (2,972,493 sq km)

Internal (endorheic basin) drainage: Tarim Basin (1,152,448 sq km), Amu Darya (534,739 sq km), Syr Darya (782,617 sq km), Lake Balkash (510,015 sq km)

Major aquifers: North China Aquifer System (Huang Huai Hai Plain), Song-Liao Plain, Tarim Basin

Population distribution: overwhelming majority of the population is found in the eastern half of the country; the west, with its vast mountainous and desert areas, remains sparsely populated; though ranked first in the world in total population, overall density is less than that of many other countries in Asia and Europe; high population density is found along the Yangtze and Yellow River valleys, the Xi Jiang River delta, the Sichuan Basin (around Chengdu), in and around Beijing, and the industrial area around Shenyang

Natural hazards: frequent typhoons (about five per year along southern and eastern coasts); damaging floods; tsunamis; earthquakes; droughts; land subsidence

volcanism: China contains some historically active volcanoes including Changbaishan (also known as Baitoushan, Baegdu, or P'aektu-san), Hainan Dao, and Kunlun although most have been relatively inactive in recent centuries

Geography - note: *note 1:* world's fourth largest country (after Russia, Canada, and US) and largest country situated entirely in Asia; Mount Everest on the border with Nepal is the world's tallest peak above sea level

note 2: the largest cave chamber in the world is the Miao Room, in the Gebihe cave system at China's Ziyun Getu He Chuandong National Park, which encloses some 10.78 million cu m (380.7 million cu ft) of volume; the world's largest sinkhole is the Xiaoxhai Tiankeng sinkhole in

Chongqing Municipality, which is 660 m deep, with a volume of 130 million cu m

note 3: China appears to have been the center of domestication for two of the world's leading cereal crops: millet in the north along the Yellow River and rice in the south along the lower or middle Yangtze River

PEOPLE AND SOCIETY

Population: 1,410,539,758 (2022 est.)

country comparison to the world: 1

Nationality: *noun:* Chinese (singular and plural)

adjective: Chinese

Ethnic groups: Han Chinese 91.1%, ethnic minorities 8.9% (includes Zhang, Hui, Manchu, Uighur, Miao, Yi, Tujia, Tibetan, Mongol, Dong, Buyei, Yao, Bai, Korean, Hani, Li, Kazakh, Dai, and other nationalities) (2021 est.)

note: the PRC officially recognizes 56 ethnic groups

Languages: Standard Chinese or Mandarin (official; Putonghua, based on the Beijing dialect), Yue (Cantonese), Wu (Shanghainese), Minbei (Fuzhou), Minnan (Hokkien-Taiwanese), Xiang, Gan, Hakka dialects, minority languages (see Ethnic groups entry); note - Zhuang is official in Guangxi Zhuang, Yue is official in Guangdong, Mongolian is official in Nei Mongol, Uighur is official in Xinjiang Uygur, Kyrgyz is official in Xinjiang Uygur, and Tibetan is official in Xizang (Tibet)

major-language sample(s):

世界概況 — 不可缺少的基本消息來源 (Standard Chinese)

Religions: folk religion 21.9%, Buddhist 18.2%, Christian 5.1%, Muslim 1.8%, Hindu < 0.1%, Jewish < 0.1%, other 0.7% (includes Daoist (Taoist)), unaffiliated 52.1% (2021 est.)

note: officially atheist

Age structure: 0-14 years: 17.29% (male 129,296,339/female 111,782,427)

15-24 years: 11.48% (male 86,129,841/female 73,876,148)

25-54 years: 46.81% (male 333,789,731/female 318,711,557)

55-64 years: 12.08% (male 84,827,645/female 83,557,507)

65 years and over: 12.34% (male 81,586,490/female 90,458,292) (2020 est.)

Dependency ratios: *total dependency ratio:* 42.2

youth dependency ratio: 25.2

elderly dependency ratio: 17

potential support ratio: 5.9 (2020 est.)

note: data do not include Hong Kong, Macau, and Taiwan

Median age: *total:* 38.4 years

male: 37.5 years

female: 39.4 years (2020 est.)

country comparison to the world: 62

Population growth rate: 0.19% (2022 est.)

country comparison to the world: 180

Birth rate: 9.93 births/1,000 population (2022 est.)

country comparison to the world: 189

Death rate: 7.9 deaths/1,000 population (2022 est.)

country comparison to the world: 97

Net migration rate: -0.11 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 104

Population distribution: overwhelming majority of the population is found in the eastern half of the country; the west, with its vast mountainous and desert areas, remains sparsely populated; though ranked first in the world in total population, overall density is less than that of many other countries in Asia and Europe; high population density is found along the Yangtze and Yellow River valleys, the Xi Jiang River delta, the Sichuan Basin (around Chengdu), in and around Beijing, and the industrial area around Shenyang

Urbanization: *urban population:* 63.6% of total population (2022)

rate of urbanization: 1.78% annual rate of change (2020-25 est.)

note: data do not include Hong Kong and Macau

Major urban areas - population: 28.517 million Shanghai, 21.333 million BEIJING (capital), 16.875 million Chongqing, 14.012 million Tianjin, 13.965 million Guangzhou, 12.831 million Shenzhen (2022)

Sex ratio: *at birth:* 1.1 male(s)/female

0-14 years: 1.15 male(s)/female

15-24 years: 1.16 male(s)/female

25-54 years: 1.05 male(s)/female

55-64 years: 1 male(s)/female

65 years and over: 0.68 male(s)/female

total population: 1.04 male(s)/female (2022 est.)

Maternal mortality ratio: 29 deaths/100,000 live births (2017 est.)

country comparison to the world: 111

Infant mortality rate: *total:* 6.76 deaths/1,000 live births

male: 7.19 deaths/1,000 live births

female: 6.3 deaths/1,000 live births (2022 est.)

country comparison to the world: 160

Life expectancy at birth: *total population:* 77.72 years

male: 75 years

female: 80.7 years (2022 est.)

country comparison to the world: 85

Total fertility rate: 1.45 children born/woman (2022 est.)

country comparison to the world: 210

Contraceptive prevalence rate: 84.5% (2017)

Drinking water source: *improved: urban:* 97.3% of population

rural: 91.5% of population

total: 95.1% of population

unimproved: urban: 2.7% of population

rural: 8.5% of population

total: 4.9% of population (2020 est.)

Current health expenditure: 5.4% of GDP (2019)

Physicians density: 2.23 physicians/1,000 population (2019)

Hospital bed density: 4.3 beds/1,000 population (2017)

Sanitation facility access: *improved: urban:* 97.6% of population

rural: 90.6% of population

total: 94.9% of population

unimproved: urban: 2.4% of population

rural: 9.4% of population

total: 5.1% of population (2020 est.)

Major infectious diseases: *degree of risk:* high (2020)

food or waterborne diseases: bacterial diarrhea, hepatitis A, and typhoid fever

vectorborne diseases: Crimean-Congo hemorrhagic fever, Japanese encephalitis

soil contact diseases: hantaviral hemorrhagic fever with renal syndrome (HFRS)

note: a new coronavirus is causing an outbreak of respiratory illness (COVID-19) in China; illness with this virus has ranged from mild to severe with fatalities reported; the US Department of State has issued a do not travel advisory for China due to COVID-19; the Centers for Disease Control and Prevention has also recommended against travel to China and published additional guidance at <https://wwwnc.cdc.gov/travel/notices/warning/novel-coronavirus-china>; the US Department of Homeland Security has issued instructions requiring US passengers who have been in China to travel through select airports where the US Government has implemented enhanced screening procedures; as of 18 August 2022, China has reported a total of 6,041,468 cases of COVID-19 or 410.62 cumulative cases of COVID-19 per 100,000 population with a total of 24,322 cumulative deaths or a rate 1.65 cumulative deaths per 100,000 population; as of 9 August 2022, 91.27% of the population has received at least one dose of COVID-19 vaccine

Obesity - adult prevalence rate: 6.2% (2016)

country comparison to the world: 169

Alcohol consumption per capita: *total:* 4.48 liters of pure alcohol (2019 est.)

beer: 1.66 liters of pure alcohol (2019 est.)

wine: 0.18 liters of pure alcohol (2019 est.)

spirits: 2.63 liters of pure alcohol (2019 est.)

other alcohols: 0 liters of pure alcohol (2019 est.)

country comparison to the world: 89

Tobacco use: *total: 25.6% (2020 est.)*

male: 49.4% (2020 est.)

female: 1.7% (2020 est.)

country comparison to the world: 44

Children under the age of 5 years underweight: *2.4% (2013)*

country comparison to the world: 103

Education expenditures: *3.5% of GDP (2018 est.)*

country comparison to the world: 123

Literacy: *definition: age 15 and over can read and write*

total population: 96.8%

male: 98.5%

female: 95.2% (2018)

School life expectancy (primary to tertiary education): *total: 14 years*

male: 14 years

female: 14 years (2015)

People - note: in October 2015, the Chinese Government announced that it would change its rules to allow all couples to have two children, loosening a 1979 mandate that restricted many couples to one child; the new policy was implemented on 1 January 2016 to address China's rapidly aging population and future economic needs

ENVIRONMENT

Environment - current issues: air pollution (greenhouse gases, sulfur dioxide particulates) from reliance on coal produces acid rain; China is the world's largest single emitter of carbon dioxide from the burning of fossil fuels; water shortages, particularly in the north; water pollution from untreated wastes; coastal destruction due to land reclamation, industrial development, and aquaculture; deforestation and habitat destruction; poor land management leads to soil erosion, landslides, floods, droughts, dust storms, and desertification; trade in endangered species

Environment - international agreements: party to: Antarctic-Environmental Protection, Antarctic-Marine Living Resources, Antarctic Treaty, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Desertification, Endangered Species, Environmental Modification, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Marine Dumping-London Protocol, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands, Whaling

signed, but not ratified: Comprehensive Nuclear Test Ban

Air pollutants: *particulate matter emissions:* 49.16 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 9,893.04 megatons (2016 est.)

methane emissions: 1,490.24 megatons (2020 est.)

Climate: extremely diverse; tropical in south to subarctic in north

Land use: *agricultural land:* 54.7% (2018 est.)

arable land: 11.3% (2018 est.)

permanent crops: 1.6% (2018 est.)

permanent pasture: 41.8% (2018 est.)

forest: 22.3% (2018 est.)

other: 23% (2018 est.)

Urbanization: *urban population:* 63.6% of total population (2022)

rate of urbanization: 1.78% annual rate of change (2020-25 est.)

note: data do not include Hong Kong and Macau

Revenue from forest resources: *forest revenues: 0.08% of GDP (2018 est.)*

country comparison to the world: 119

Revenue from coal: *coal revenues: 0.57% of GDP (2018 est.)*

country comparison to the world: 9

Waste and recycling: municipal solid waste generated annually: 210 million tons (2015 est.)

Major lakes (area sq km): *fresh water lake(s):* Dongting Hu - 3,100 sq km; Poyang Hu - 3,350 sq km; Hongze Hu - 2,700 sq km; Tai Hu - 2,210 sq km; Hulun Nur - 1,590

salt water lake(s): Quinghai Hu - 4,460 sq km; Nam Co - 2,500 sq km; Siling Co - 1,860 sq km; Tangra Yumco - 1,400 sq km; Bosten Hu 1,380 sq km

Major rivers (by length in km): Yangtze - 6,300 km; Huang He - 5,464 km; Amur river source (shared with Mongolia and Russia [m]) - 4,444 km; Mekong river source (shared with Burma, Laos, Thailand, Cambodia, and Vietnam [m]) - 4,350 km; Brahmaputra river source (shared with India and Bangladesh [m]) - 3,969 km; Indus river source (shared with India and Pakistan [m]) - 3,610 km; Salween river source (shared with Thailand and Burma [m]) - 3,060 km; Irrawaddy river source (shared with Burma [m]) - 2,809 km; Pearl (shared with Vietnam [s]) - 2,200 km; Red river source (shared with Vietnam [m]) - 1,149 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): *Pacific Ocean drainage:* Amur (1,929,955 sq km), Huang He (944,970 sq km), Mekong (805,604 sq km), Yangtze (1,722,193 sq km)

Indian Ocean drainage: Brahmaputra (651,335 sq km), Ganges (1,016,124 sq km), Indus (1,081,718 sq km), Irrawaddy (413,710 sq km), Salween (271,914 sq km)

Arctic Ocean drainage: Ob (2,972,493 sq km)

Internal (endorheic basin) drainage: Tarim Basin (1,152,448 sq km), Amu Darya (534,739 sq km), Syr Darya (782,617 sq km), Lake Balkash (510,015 sq km)

Major aquifers: North China Aquifer System (Huang Huai Hai Plain), Song-Liao Plain, Tarim Basin

Total water withdrawal: *municipal:* 79.4 billion cubic meters (2017 est.)

industrial: 133.5 billion cubic meters (2017 est.)

agricultural: 385.2 billion cubic meters (2017 est.)

Total renewable water resources: 2.84 trillion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* People's Republic of China

conventional short form: China

local long form: Zhonghua Renmin Gongheguo

local short form: Zhongguo

abbreviation: PRC

etymology: English name derives from the Qin (Chin) rulers of the 3rd century B.C., who comprised the first imperial dynasty of ancient China; the Chinese name Zhongguo translates as “Central Nation” or “Middle Kingdom”

Government type: communist party-led state

Capital: *name:* Beijing

geographic coordinates: 39 55 N, 116 23 E

time difference: UTC+8 (13 hours ahead of Washington, DC, during Standard Time)

time zone note: China is the largest country (in terms of area) with just one time zone; before 1949 it was divided into five

etymology: the Chinese meaning is “Northern Capital”

Administrative divisions: 23 provinces (sheng, singular and plural), 5 autonomous regions (zizhiqu, singular and plural), 4 municipalities (shi, singular and plural), and two special administrative regions (tebie xingzhengqu, singular and plural)

provinces: Anhui, Fujian, Gansu, Guangdong, Guizhou, Hainan, Hebei, Heilongjiang, Henan, Hubei, Hunan, Jiangsu, Jiangxi, Jilin, Liaoning, Qinghai, Shaanxi, Shandong, Shanxi, Sichuan, Yunnan, Zhejiang; (see note on Taiwan)

autonomous regions: Guangxi, Nei Mongol (Inner Mongolia), Ningxia, Xinjiang Uyghur, Xizang (Tibet)

municipalities: Beijing, Chongqing, Shanghai, Tianjin

special administrative regions: Hong Kong, Macau

note: China considers Taiwan its 23rd province; see separate entries for the special administrative regions of Hong Kong and Macau

Independence: 1 October 1949 (People's Republic of China established); notable earlier dates: 221 B.C. (unification under the Qin Dynasty); 1 January 1912 (Qing Dynasty replaced by the Republic of China)

National holiday: National Day (anniversary of the founding of the People's Republic of China), 1 October (1949)

Constitution: *history:* several previous; latest promulgated 4 December 1982

amendments: proposed by the Standing Committee of the National People's Congress or supported by more than one fifth of the National People's Congress membership; passage requires more than two-thirds majority vote of the Congress membership; amended several times, last in 2018

Legal system: civil law influenced by Soviet and continental European civil law systems; legislature retains power to interpret statutes; note - on 28 May 2020, the National People's Congress adopted the PRC Civil Code, which codifies personal relations and property relations

International law organization participation: has not submitted an ICJ jurisdiction declaration; non-party state to the ICCt

Citizenship: *citizenship by birth:* no

citizenship by descent only: least one parent must be a citizen of China

dual citizenship recognized: no

residency requirement for naturalization: while naturalization is theoretically possible, in practical terms it is extremely difficult; residency is required but not specified

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President XI Jinping (since 14 March 2013); Vice President WANG Qishan (since 17 March 2018)

head of government: Premier LI Keqiang (since 16 March 2013); Executive Vice Premiers HAN Zheng (since 19 March 2018), SUN Chunlan (since 19 March 2018), LIU He (since 19 March 2018), HU Chunhua (since 19 March 2018)

cabinet: State Council appointed by National People's Congress

elections/appointments: president and vice president indirectly elected by National People's Congress (no term limits); election last held on 17 March 2018 (next to be held in March 2023); premier nominated by president, confirmed by National People's Congress

election results: 2018: XI Jinping reelected president; National People's Congress vote - 2,970 (unanimously); WANG Qishan elected vice president with 2,969 votes

2013: XI Jinping elected president; National People's Congress vote - 2,952; LI Yuanchao elected vice president with 2,839 votes

note - in March 2018, the PRC's National People's Congress passed an amendment abolishing presidential term limits, opening the door for XI to seek a third five-year term in 2023

Legislative branch: *description:* unicameral National People's Congress or Quanguo Renmin Daibiao Dahui (maximum of 3,000 seats; members indirectly elected by municipal, regional, and provincial people's congresses, and the People's Liberation Army; members serve 5-year terms); *note - in practice, only members of the Chinese Communist Party (CCP), its 8 allied independent parties, and CCP-approved independent candidates are elected*

elections: last held in December 2017-February 2018 (next to be held in late 2022 to early 2023)

election results: percent of vote - NA; seats by party - NA; composition - men 2,238, women 742, percent of women 24.9%

Judicial branch: *highest court(s):* Supreme People's Court (consists of over 340 judges, including the chief justice and 13 grand justices organized into a civil committee and tribunals for civil, economic, administrative, complaint and appeal, and communication and transportation cases)

judge selection and term of office: chief justice appointed by the People's National Congress (NPC); limited to 2 consecutive 5-year-terms; other justices and judges nominated by the chief justice and appointed by the Standing Committee of the NPC; term of other justices and judges

determined by the NPC

subordinate courts: Higher People's Courts; Intermediate People's Courts; District and County People's Courts; Autonomous Region People's Courts; International Commercial Courts; Special People's Courts for military, maritime, transportation, and forestry issues

Political parties and leaders: Chinese Communist Party or CCP [XI Jinping]

note: China has 8 nominally independent small parties controlled by the CCP

International organization participation: ADB, AfDB (nonregional member), APEC, Arctic Council (observer), ARF, ASEAN (dialogue partner), BIS, BRICS, CDB, CICA, EAS, FAO, FATF, G-20, G-24 (observer), G-5, G-77, IADB, IAEA, IBRD, ICAO, ICC (national committees), ICRM, IDA, IFAD, IFC, IFRCs, IHO, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM (observer), IPU, ISO, ITSO, ITU, LAIA (observer), MIGA, MINURSO, MINUSMA, MONUSCO, NAM (observer), NSG, OAS (observer), OPCW, Pacific Alliance (observer), PCA, PIF (partner), SAARC (observer), SCO, SICA (observer), UN, UNAMID, UNCTAD, UNESCO, UNFICYP, UNHCR, UNHRC, UNIDO, UNIFIL, UNISFA, UNMIL, UNMISS, UNOCI, UN Security Council (permanent), UNTSO, UNWTO, UPU, WCO, WHO, WIPO, WMO, WTO, ZC

Diplomatic representation in the US: *chief of mission:* Ambassador QIN Gang (since 15 Sep 2021)

chancery: 3505 International Place NW, Washington, DC 20008

telephone: [1] (202) 495-2266

FAX: [1] (202) 495-2138

email address and website:

chinaemppress_us@mfa.gov.cn

<http://www.china-embassy.org/eng/>

consulate(s) general: Chicago, Los Angeles, New York, San Francisco;

note - the US ordered closure of the Houston consulate in late July 2020

Diplomatic representation from the US: *chief of mission:*

Ambassador Nicholas BURNS (since 2 April 2022)

embassy: 55 An Jia Lou Road, Chaoyang District, Beijing 100600

mailing address: 7300 Beijing Place, Washington DC 20521-7300

telephone: [86] (10) 8531-3000

FAX: [86] (10) 8531-4200

email address and website:

BeijingACS@state.gov

<https://china.usembassy-china.org.cn/>

consulate(s) general: Guangzhou, Shanghai, Shenyang, Wuhan; note - the Chinese Government ordered closure of the US consulate in Chengdu in late July 2020

Flag description: red with a large yellow five-pointed star and four smaller yellow five-pointed stars (arranged in a vertical arc toward the middle of the flag) in the upper hoist-side corner; the color red represents revolution, while the stars symbolize the four social classes - the working class, the peasantry, the urban petty bourgeoisie, and the national bourgeoisie (capitalists) - united under the Communist Party of China

National symbol(s): dragon, giant panda; national colors: red, yellow

National anthem: *name:* “Yiyongjun Jinxingqu” (The March of the Volunteers)

lyrics/music: TIAN Han/NIE Er

note: adopted 1949; the anthem, though banned during the Cultural Revolution, is more commonly known as “Zhongguo Guoge” (Chinese National Song); it was originally the theme song to the 1935 Chinese movie, “Sons and Daughters in a Time of Storm”

National heritage: total World Heritage Sites: 56 (14 natural, 38 cultural, 4 mixed)

selected World Heritage Site locales: Imperial Palaces of the Ming and Qing Dynasties (c); Mausoleum of the First Qin Emperor (c); The Great Wall (c); Summer Palace (c); Jiuzhaigou Valley (n); Potala Palace (c); Ancient Pingyao (c); Historic Macau (c); Dengfeng (c); Grand Canal (c); Mount Huangshan (m)

Government - note: in 2018, the Beijing established an investigatory National Supervisory Commission to oversee all state employees

ECONOMY

Economic overview: Since the late 1970s, China has moved from a closed, centrally planned system to a more market-oriented one that plays a major global role. China has implemented reforms in a gradualist fashion, resulting in efficiency gains that have contributed to a more than tenfold increase in GDP since 1978. Reforms began with the phaseout of collectivized agriculture, and expanded to include the gradual liberalization of prices, fiscal decentralization, increased autonomy for state enterprises, growth of the private sector, development of stock markets and a modern banking system, and opening to foreign trade and investment. China continues to pursue an industrial policy, state support of key sectors, and a restrictive investment regime. From 2013 to 2017, China had one of the fastest growing economies in the world, averaging slightly more than 7% real growth per year. Measured on a purchasing power parity (PPP) basis that adjusts for price differences, China in 2017 stood as the largest economy in the world, surpassing the US in 2014 for the first time in modern history. China became the world's largest exporter in 2010, and the largest trading nation in 2013. Still, China's per capita income is below the world average.

In July 2005 moved to an exchange rate system that references a basket of currencies. From mid-2005 to late 2008, the renminbi (RMB) appreciated more than 20% against the US dollar, but the exchange rate remained virtually pegged to the dollar from the onset of the global financial crisis until June 2010, when Beijing announced it would resume a gradual appreciation. From 2013 until early 2015, the renminbi held steady against the dollar, but it depreciated 13% from mid-2015 until end-2016 amid strong capital outflows; in 2017 the RMB resumed appreciating against the dollar – roughly 7% from end-of-2016 to end-of-2017. In 2015, the People's Bank of China announced it would continue to carefully push for full convertibility of the renminbi, after the currency was accepted as part of the IMF's special drawing rights basket. However, since late 2015 Beijing has strengthened capital controls and oversight of overseas investments to better manage the exchange rate and

maintain financial stability.

Beijing faces numerous economic challenges including: (a) reducing its high domestic savings rate and correspondingly low domestic household consumption; (b) managing its high corporate debt burden to maintain financial stability; (c) controlling off-balance sheet local government debt used to finance infrastructure stimulus; (d) facilitating higher-wage job opportunities for the aspiring middle class, including rural migrants and college graduates, while maintaining competitiveness; (e) dampening speculative investment in the real estate sector without sharply slowing the economy; (f) reducing industrial overcapacity; and (g) raising productivity growth rates through the more efficient allocation of capital and state-support for innovation. Economic development has progressed further in coastal provinces than in the interior, and by 2016 more than 169.3 million migrant workers and their dependents had relocated to urban areas to find work. One consequence of China's population control policy known as the "one-child policy" - which was relaxed in 2016 to permit all families to have two children - is that China is now one of the most rapidly aging countries in the world. Deterioration in the environment - notably air pollution, soil erosion, and the steady fall of the water table, especially in the North - is another longterm problem. China continues to lose arable land because of erosion and urbanization. Beijing is seeking to add energy production capacity from sources other than coal and oil, focusing on natural gas, nuclear, and clean energy development. In 2016, China ratified the Paris Agreement, a multilateral agreement to combat climate change, and committed to peak its carbon dioxide emissions between 2025 and 2030.

The government's 13th Five-Year Plan, unveiled in March 2016, emphasizes the need to increase innovation and boost domestic consumption to make the economy less dependent on government investment, exports, and heavy industry. However, China has made more progress on subsidizing innovation than rebalancing the economy. Beijing has committed to giving the market a more decisive role in allocating resources, but its policies continue to favor state-owned enterprises and emphasize stability. Beijing in 2010 pledged to double China's GDP by

2020, and the 13th Five Year Plan includes annual economic growth targets of at least 6.5% through 2020 to achieve that goal. In recent years, China has renewed its support for state-owned enterprises in sectors considered important to “economic security,” explicitly looking to foster globally competitive industries. Beijing also has undermined some market-oriented reforms by reaffirming the “dominant” role of the state in the economy, a stance that threatens to discourage private initiative and make the economy less efficient over time. The slight acceleration in economic growth in 2017—the first such uptick since 2010—gives Beijing more latitude to pursue its economic reforms, focusing on financial sector deleveraging and its Supply-Side Structural Reform agenda, first announced in late 2015.

Real GDP (purchasing power parity): \$23,009,780,000,000 (2020 est.)

\$22,492,450,000,000 (2019 est.)

\$21,229,360,000,000 (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 1

Real GDP growth rate: 6.14% (2019 est.)

6.75% (2018 est.)

6.92% (2017 est.)

country comparison to the world: 26

Real GDP per capita: \$16,400 (2020 est.)

\$16,100 (2019 est.)

\$15,200 (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 102

GDP (official exchange rate): \$14,327,359,000,000 (2019 est.)

note: because China’s exchange rate is determined by fiat rather than by market forces, the official exchange rate measure of GDP is not an accurate measure of China’s output; GDP at the official exchange rate substantially understates the actual level of China’s output vis-a-vis the rest of the world; in China’s situation, GDP at purchasing power parity

provides the best measure for comparing output across countries

Inflation rate (consumer prices): 2.8% (2019 est.)

2% (2018 est.)

1.5% (2017 est.)

country comparison to the world: 138

Credit ratings: *Fitch rating:* A+ (2007)

Moody's rating: A1 (2017)

Standard & Poors rating: A+ (2017)

note: The year refers to the year in which the current credit rating was first obtained.

GDP - composition, by sector of origin: *agriculture:* 7.9% (2017 est.)

industry: 40.5% (2017 est.)

services: 51.6% (2017 est.)

GDP - composition, by end use: *household consumption:* 39.1% (2017 est.)

government consumption: 14.5% (2017 est.)

investment in fixed capital: 42.7% (2017 est.)

investment in inventories: 1.7% (2017 est.)

exports of goods and services: 20.4% (2017 est.)

imports of goods and services: -18.4% (2017 est.)

Agricultural products: maize, rice, vegetables, wheat, sugar cane, potatoes, cucumbers, tomatoes, watermelons, sweet potatoes

Industries: world leader in gross value of industrial output; mining and ore processing, iron, steel, aluminum, and other metals, coal; machine building; armaments; textiles and apparel; petroleum; cement; chemicals; fertilizer; consumer products (including footwear, toys, and electronics); food processing; transportation equipment, including automobiles, railcars and locomotives, ships, aircraft; telecommunications equipment, commercial space launch vehicles, satellites

Industrial production growth rate: 6.1% (2017 est.)

country comparison to the world: 40

Labor force: 774.71 million (2019 est.)

note: by the end of 2012, China's working age population (15-64 years) was 1.004 billion

country comparison to the world: 1

Labor force - by occupation: agriculture: 27.7%

industry: 28.8%

services: 43.5% (2016 est.)

Unemployment rate: 3.64% (2019 est.)

3.84% (2018 est.)

note: data are for registered urban unemployment, which excludes private enterprises and migrants

ENERGY

Electricity access: *electrification - total population:* 100% (2020)

Electricity: *installed generating capacity:* 2,217,925,000 kW (2020 est.)

consumption: 6,875,088,640,000 kWh (2019 est.)

exports: 21.655 billion kWh (2019 est.)

imports: 4.858 billion kWh (2019 est.)

transmission/distribution losses: 333.01 billion kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 66% of total installed capacity (2020 est.)

nuclear: 4.8% of total installed capacity (2020 est.)

solar: 3.5% of total installed capacity (2020 est.)

wind: 6.2% of total installed capacity (2020 est.)

hydroelectricity: 17.8% of total installed capacity (2020 est.)

biomass and waste: 1.6% of total installed capacity (2020 est.)

Coal: *production:* 4,314,681,000 metric tons (2020 est.)

consumption: 4,506,387,000 metric tons (2020 est.)

exports: 6.652 million metric tons (2020 est.)

imports: 307.047 million metric tons (2020 est.)

proven reserves: 141.595 billion metric tons (2019 est.)

Petroleum: *total petroleum production:* 4,712,200 bbl/day (2021 est.)

refined petroleum consumption: 14,007,500 bbl/day (2019 est.)

crude oil and lease condensate exports: 52,500 bbl/day (2018 est.)

crude oil and lease condensate imports: 9,238,100 bbl/day (2018 est.)

crude oil estimated reserves: 26,022,600,000 barrels (2021 est.)

Refined petroleum products - production: 11.51 million bbl/day (2015 est.)

country comparison to the world: 2

Refined petroleum products - exports: 848,400 bbl/day (2015 est.)

country comparison to the world: 9

Refined petroleum products - import: 1.16 million bbl/day (2015

est.)

country comparison to the world: 4

Natural gas: *production:* 179,317,495,000 cubic meters (2019 est.)

consumption: 306,576,649,000 cubic meters (2019 est.)

exports: 3,548,831,000 cubic meters (2019 est.)

imports: 131,608,161,000 cubic meters (2019 est.)

proven reserves: 6,654,250,000,000 cubic meters (2021 est.)

Carbon dioxide emissions: 10,773,248,000 metric tonnes of CO₂ (2019 est.)

from coal and metallurgical coke: 8,652,419,000 metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 1,520,552,000 metric tonnes of CO₂ (2019 est.)

from consumed natural gas: 600.276 million metric tonnes of CO₂ (2019 est.)

country comparison to the world: 1

Energy consumption per capita: 105.687 million Btu/person (2019 est.)

country comparison to the world: 54

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 181.908 million (2020 est.)

subscriptions per 100 inhabitants: 13 (2020 est.)

country comparison to the world: 1

Telephones - mobile cellular: *total subscriptions:* 1.72 billion (2020 est.)

subscriptions per 100 inhabitants: 119 (2020 est.)

country comparison to the world: 1

Telecommunication systems: *general assessment:* China has the largest Internet market in the world with almost all subscribers accessing Internet through mobile devices; market is driven through government-allied investment; fast-developing data center market; government aims to provide universal and affordable broadband coverage through market competition and private investment in state-controlled enterprises; 3G and LTE subscribers will migrate to 5G aiming for 2 million 5G base stations by the end of 2022; government strengthens IoT policies to boost economic growth; China is pushing development of smart cities beyond Beijing; Beijing residents carry virtual card integrating identity, social security, health, and education documents; government controls gateways to global Internet through censorship, surveillance, and shutdowns; major exporter of broadcasting equipment world-wide (2022)

domestic: nearly 13 per 100 fixed line and 118 per 100 mobile-cellular; a domestic satellite system with several earth stations has been in place since 2018 (2020)

international: country code - 86; landing points for the RJCN, EAC-C2C, TPE, APCN-2, APG, NCP, TEA, SeaMeWe-3, SJC2, Taiwan Strait Express-1, AAE-1, APCN-2, AAG, FEA, FLAG and TSE submarine cables providing connectivity to Asia, the Middle East, Europe, and the US; satellite earth stations - 7 (5 Intelsat - 4 Pacific Ocean and 1 Indian Ocean; 1 Intersputnik - Indian Ocean region; and 1 Inmarsat - Pacific and Indian Ocean regions) (2019)

Broadcast media: all broadcast media are owned by, or affiliated with, the Chinese Communist Party (CCP) or a government agency; no privately owned TV or radio stations; state-run Chinese Central TV, provincial, and municipal stations offer more than 2,000 channels; the Central Propaganda Department as well as local (provincial, municipal) sends directives to all domestic media outlets to guide its reporting with the government maintaining authority to approve all programming; foreign-made TV programs must be approved/censored prior to broadcast; increasingly, PRC nationals turn to online platforms (Bilibili, Tencent Video, iQiyi, etc) to access PRC and international films and television shows. Video platforms have to abide by regulations issued by the Cyberspace Administration of China (CAC), which align with censorship policies from CCP propaganda authorities. (2022)

Internet country code: .cn

Internet users: *total:* 987 million (2020 est.)

percent of population: 70% (2020 est.)

country comparison to the world: 1

Airports - with paved runways: *total: 510*

over 3,047 m: 87

2,438 to 3,047 m: 187

1,524 to 2,437 m: 109

914 to 1,523 m: 43

under 914 m: 84 (2021)

Airports - with unpaved runways: *total: 23*

over 3,047 m: 2

2,438 to 3,047 m: 0

1,524 to 2,437 m: 1

914 to 1,523 m: 7

under 914 m: 13 (2021)

Heliports: 39 (2021)

Pipelines: 76,000 km gas, 30,400 km crude oil, 27,700 km refined petroleum products, 797,000 km water (2018)

Railways: *total: 150,000 km (2021) 1.435-m gauge (100,000 km electrified); 104,000 traditional, 40,000 high-speed*

country comparison to the world: 2

Roadways: *total: 5.2 million km (2020)*

paved: 4.578 million km (2020) (includes 168000 km of expressways)

unpaved: 622,000 km (2017)

country comparison to the world: 3

Waterways: 27,700 km (2020) (navigable waterways)

country comparison to the world: 6

Merchant marine: *total:* 6,662

by type: bulk carrier 1,558, container ship 341, general cargo 957, oil tanker 1,061, other 2,745 (2021)

country comparison to the world: 3

Ports and terminals: *major seaport(s):* Dalian, Ningbo, Qingdao, Qinhuangdao, Shanghai, Shenzhen, Tianjin

container port(s) (TEUs): Dalian (8,760,000), Guangzhou (23,236,200), Ningbo (27,530,000), Qingdao (21,010,000), Shanghai (43,303,000), Shenzhen (25,770,000), Tianjin (17,264,000) (2019)

LNG terminal(s) (import): Fujian, Guangdong, Jiangsu, Shandong, Shanghai, Tangshan, Zhejiang

river port(s): Guangzhou (Pearl)

Transportation - note: seven of the world's ten largest container ports are in China

MILITARY AND SECURITY

Military and security forces: *People's Liberation Army (PLA):* Ground Forces, Navy (PLAN, includes marines and naval aviation), Air Force (PLAAF, includes airborne forces), Rocket Force (strategic missile force), and Strategic Support Force (information, electronic, and cyber warfare, as well as space forces); *People's Armed Police (PAP, includes Coast Guard, Border Defense Force, Internal Security Forces); PLA Reserve Force (2022)*

note 1: the Strategic Support Force includes the Space Systems Department, which is responsible for nearly all PLA space operations, including space launch and support, space surveillance, space information support, space telemetry, tracking, and control, and space warfare

note 2: the PAP is a paramilitary police component of China's armed forces that is under the command of the Central Military Commission (CMC) and charged with internal security, law enforcement, counterterrorism, and maritime rights protection

note 3: in 2018, the Coast Guard was moved from the State Oceanic Administration to the PAP; in 2013, China merged four of its five major maritime law enforcement agencies – the China Marine Surveillance (CMS), Maritime Police, Fishery Law Enforcement (FLE), and Anti-Smuggling Police – into a unified coast guard

Military expenditures: 1.5% of GDP (2021 est.)

1.7% of GDP (2020 est.)

1.7% of GDP (2019) (approximately \$290 billion)

1.7% of GDP (2018) (approximately \$265 billion)

1.8% of GDP (2017) (approximately \$260 billion)

country comparison to the world: 88

Military and security service personnel strengths: approximately 2 million active duty troops (approximately 1 million Ground; 250,000 Navy/Marines; 350-400,000 Air Force; 120,000 Rocket Forces; 150-175,000 Strategic Support Forces); estimated 600-650,000 People's Armed Police (2022)

Military equipment inventories and acquisitions: the PLA is outfitted primarily with a wide mix of older and modern domestically-produced systems heavily influenced by technology derived from other countries; Russia has been the top supplier of foreign military equipment since 2010; China has a large defense-industrial sector capable of producing advanced weapons systems across all military domains (2022)

note: the PLA is in the midst of a decades-long modernization effort; in 2017, President XI set three developmental goals for the force - becoming a mechanized force with increased information and strategic capabilities by 2020, a fully modernized force by 2035, and a world-class military by mid-century

Military service age and obligation: 18-22 years of age for men for selective compulsory military service, with a 2-year service obligation; women 18-19 years of age who are high school graduates and meet requirements for specific military jobs are subject to conscription; women may also volunteer; all officers are volunteers (2022)

note: the PLA's conscription system functions as a levy; the PLA establishes the number of conscripts needed, which produces quotas for the provinces; each province provides a set number of soldiers or sailors; if the number of volunteers fails to meet quotas, the local governments may compel individuals to enter military service

Military deployments: 425 Mali (MINUSMA); 225 Democratic Republic of the Congo (MONUSCO); 420 Lebanon (UNIFIL); 1,050 South Sudan (UNMISS); up to 2,000 Djibouti (May 2022)

Military - note: established in 1927, the PLA is the military arm of the ruling Chinese Communist Party (CCP), which oversees the PLA through its Central Military Commission; the Central Military Commission is China's top military decision making body

the PRC's internal security forces consist primarily of the Ministry of Public Security (MPS), the Ministry of State Security (MSS), the People's Armed Police (PAP), and the militia; the PLA support the internal security forces as necessary:

the MPS controls the civilian national police, which serves as the first-

line force for public order; its primary mission is domestic law enforcement and maintaining order, including anti-rioting and anti-terrorism

the MSS is the PRC's main civilian intelligence and counterintelligence service

the PAP is a paramilitary component (or adjunct) of the PLA; its primary missions include internal security, maintaining public order, maritime security, and assisting the PLA in times of war; it is under the command of the Central Military Commission (CMC); the China Coast Guard (CCG) administratively falls under the PAP; the CCG has a variety of missions, such as maritime sovereignty enforcement, surveillance, resource protection, anti-smuggling, and general law enforcement

the militia is an armed reserve of civilians which serves as an auxiliary and reserve force for the PLA upon mobilization; it is distinct from the PLA's reserve forces; militia units are organized around towns, villages, urban sub-districts, and enterprises, and vary widely in composition and mission; they have dual civilian-military command structures; a key component of the militia are the local maritime forces, commonly referred to as the People's Armed Forces Maritime Militia (PAFMM); the PAFMM consists of mariners (and their vessels) who receive training, equipment, and other forms of support from the Navy and CCG (although the PAFMM remains separate from both) to perform tasks such as maritime patrolling, surveillance and reconnaissance, emergency/disaster response, transportation, search and rescue, and auxiliary tasks in support of naval operations in wartime; the PAFMM's tasks are often conducted in conjunction or coordination with the Navy and the CCG; it has been used to assert Beijing's maritime claims in the Sea of Japan and South China Sea (2022)

TRANSNATIONAL ISSUES

Disputes - international: China and India continue their security and foreign policy dialogue started in 2005 related to a number of boundary disputes across the 2,000 mile shared border; India does not recognize Pakistan's 1964 ceding to China of the Aksai Chin, a territory designated as part of the princely state of Kashmir by the British Survey of India in 1865; China claims most of the Indian state Arunachal Pradesh to the base of the Himalayas, but the US recognizes the state of Arunachal Pradesh as Indian territory; Bhutan and China continue negotiations to establish a common boundary alignment to resolve territorial disputes arising from substantial cartographic discrepancies, the most contentious of which lie in Bhutan's west along China's Chumbi salient; Chinese maps show an international boundary symbol (the so-called "nine-dash line") off the coasts of the littoral states of the South China Sea, where China has interrupted Vietnamese hydrocarbon exploration; China asserts sovereignty over Scarborough Reef along with the Philippines and Taiwan, and over the Spratly Islands together with Malaysia, the Philippines, Taiwan, Vietnam, and Brunei; the 2002 Declaration on the Conduct of Parties in the South China Sea eased tensions in the Spratlys, and in 2017 China and ASEAN began confidential negotiations for an updated Code of Conduct for the South China Sea designed not to settle territorial disputes but establish rules and norms in the region; this still is not the legally binding code of conduct sought by some parties; Vietnam and China continue to expand construction of facilities in the Spratlys and in early 2018 China began deploying advanced military systems to disputed Spratly outposts; China occupies some of the Paracel Islands also claimed by Vietnam and Taiwan; the Japanese-administered Senkaku Islands are also claimed by China and Taiwan; certain islands in the Yalu and Tumen Rivers are in dispute with North Korea; North Korea and China seek to stem illegal migration to China by North Koreans, fleeing privation and oppression; China and Russia have demarcated the once disputed islands at the Amur and Ussuri confluence and in the Argun River in accordance with their 2004 Agreement; China and Tajikistan

have begun demarcating the revised boundary agreed to in the delimitation of 2002; the decade-long demarcation of the China-Vietnam land boundary was completed in 2009; citing environmental, cultural, and social concerns, China has reconsidered construction of 13 dams on the Salween River, but energy-starved Burma, with backing from Thailand, continues to consider building five hydro-electric dams downstream despite regional and international protests

Refugees and internally displaced persons: refugees (country of origin): 303,107 (Vietnam), undetermined (North Korea) (mid-year 2021)

IDPs: undetermined (2021)

Trafficking in persons: *current situation:* human traffickers exploit domestic and foreign victims in China and Chinese people abroad; Chinese men, women, and children are victims of forced labor and sex trafficking in at least 60 countries; traffickers also use China as a transit point to subject foreign individuals to trafficking in other countries throughout Asia and in international maritime industries; state-sponsored forced labor is intensifying under the government's mass detention and political indoctrination campaign against Muslim minorities in the Xinjiang Uyghur Autonomous Region; well-organized criminal syndicates and local gangs subject Chinese women and girls to sex trafficking within China; women and girls from South Asia, Southeast Asia, and several countries in Africa experience forced labor in domestic service, forced concubinage leading to forced childbearing, and sex trafficking via forced and fraudulent marriage to Chinese men; African and Asian men reportedly experience conditions indicative of forced labor aboard Chinese-flagged fishing vessels; many North Korean refugees and asylum-seekers living in China illegally are particularly vulnerable to trafficking

tier rating: Tier 3 — China does not fully meet the minimum standards for elimination of trafficking and is not making significant efforts to do so; the government prosecuted and convicted some traffickers and continued to cooperate with international authorities to address forced and fraudulent marriages in China; however, there was a government policy

or pattern of widespread forced labor, including the continued mass arbitrary detention of more than one million Uyghurs, ethnic Kazakhs, ethnic Kyrgyz, and other Muslims in the Xinjiang Uyghur Autonomous Region; the government did not report any investigations, prosecutions, or convictions of law enforcement officials allegedly complicit despite continued reports of officials benefiting from, permitting, or directly facilitating sex trafficking; authorities did not report identifying any trafficking victims or referring them to protective services; it is likely that law enforcement arrested and detained unidentified trafficking victims for crimes traffickers compelled them to commit; for the third consecutive year, the government did not report the extent to which it funded anti-trafficking activities in furtherance of the 2013-2020 National Action Plan on Combating Human Trafficking (2020)

Illicit drugs: a major source of precursor chemicals, new psychoactive substances (NPS), and synthetic drugs, including fentanyl precursors and methamphetamine; PRC criminal organizations, transnational crime, and organizations from Mexico and Southeast Asia traffic licit precursor chemical components and illicit finished drugs within the PRC as well as to international markets; significant illicit drug consumption of methamphetamine and ketamine; a major destination and transit country for heroin produced in neighboring countries; the PRC remains a major source of NPS sold in North America and Europe (2021)

CHRISTMAS ISLAND

INTRODUCTION

Background: Although Europeans sighted the island as early as 1615, it was only named in 1643 by English Captain William MYNORS for the day of its rediscovery. Another English ship sailed by the island in 1688 and found it uninhabited. Attempts to explore the island over the next two centuries were hampered by steep cliffs and dense jungle. Phosphate discovery on the island in 1887, led to the UK annexing it the following year. In 1898, the Christmas Island Phosphate Company brought in 200 Chinese indentured servants to work the mines, along with Malays, Sikhs, and a small number of Europeans. The UK administered Christmas Island from Singapore.

Japan invaded the island in 1942, but islanders sabotaged Japanese mining operations, making the mines relatively unproductive. After World War II, Australia and New Zealand bought the Christmas Island Phosphate Company, and in 1958, the UK transferred sovereignty from Singapore to Australia in exchange for \$20 million for the loss of future phosphate income. In 1980, Australia set up the Christmas Island National Park and expanded its boundaries throughout the 1980s until it covered more than 60% of the Island's territory. The phosphate mine was closed in 1987 because of environmental concerns and Australia has rejected several efforts to reopen it.

In the 1980s, boats of asylum seekers started landing on Christmas Island and the migrants claimed refugee status since they were on Australian territory. In 2001, Australia declared Christmas Island outside the Australian migration zone and built an immigration detention center on the island. Completed in 2008, the controversial detention center was officially closed in 2018, but then reopened in early 2019. In 2020, the center served as a coronavirus quarantine facility for Australian citizens evacuated from China.

GEOGRAPHY

Location: Southeastern Asia, island in the Indian Ocean, south of Indonesia

Geographic coordinates: 10 30 S, 105 40 E

Map references: Southeast Asia

Area: *total:* 135 sq km

land: 135 sq km

water: 0 sq km

Area - comparative: about three-quarters the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 138.9 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 12 nm

exclusive fishing zone: 200 nm

Climate: tropical with a wet season (December to April) and dry season; heat and humidity moderated by trade winds

Terrain: steep cliffs along coast rise abruptly to central plateau

Elevation: *highest point:* Murray Hill 361 m

lowest point: Indian Ocean 0 m

Natural resources: phosphate, beaches

Land use: *agricultural land:* 0% (2018 est.)

other: 100% (2018 est.)

Population distribution: majority of the population lives on the northern tip of the island

Natural hazards: the narrow fringing reef surrounding the island can be a maritime hazard

Geography - note: located along major sea lanes of the Indian Ocean

PEOPLE AND SOCIETY

Population: 2,205 (2016 est.)

Nationality: *noun:* Christmas Islander(s)

adjective: Christmas Island

Ethnic groups: Chinese 70%, European 20%, Malay 10% (2001)

note: no indigenous population

Languages: English (official) 27.6%, Mandarin 17.2%, Malay 17.1%, Cantonese 3.9%, Min Nan 1.6%, Tagalog 1%, other 4.5%, unspecified 27.1% (2016 est.)

note: data represent language spoken at home

Religions: Muslim 19.4%, Buddhist 18.3%, Roman Catholic 8.8%, Protestant 6.5% (includes Anglican 3.6%, Uniting Church 1.2%, other 1.7%), other Christian 3.3%, other 0.6%, none 15.3%, unspecified 27.7% (2016 est.)

Age structure: 0-14 years: 12.79% (male 147/female 135)

15-24 years: 12.2% (male 202/female 67)

25-54 years: 57.91% (male 955/female 322)

55-64 years: 11.66% (male 172/female 85)

65 years and over: 5.44% (male 84/female 36) (2017 est.)

Population growth rate: 1.11% (2014 est.)

Population distribution: majority of the population lives on the northern tip of the island

ENVIRONMENT

Environment - current issues: loss of rainforest; impact of phosphate mining

Climate: tropical with a wet season (December to April) and dry season; heat and humidity moderated by trade winds

Land use: *agricultural land:* 0% (2018 est.)

other: 100% (2018 est.)

GOVERNMENT

Country name: *conventional long form:* Territory of Christmas Island

conventional short form: Christmas Island

etymology: named by English Captain William MYNORS for the day of its rediscovery, Christmas Day (25 December 1643); the island had been sighted by Europeans as early as 1615

Government type: non-self-governing overseas territory of Australia

Dependency status: non-self governing territory of Australia; administered from Canberra by the Department of Infrastructure, Transport, Cities & Regional Development

Capital: *name:* The Settlement (Flying Fish Cove)

geographic coordinates: 10 25 S, 105 43 E

time difference: UTC+7 (12 hours ahead of Washington, DC, during Standard Time)

etymology: self-descriptive name for the main locus of population

Administrative divisions: none (territory of Australia)

Independence: none (territory of Australia)

National holiday: Australia Day (commemorates the arrival of the First Fleet of Australian settlers), 26 January (1788)

Constitution: *history:* 1 October 1958 (Christmas Island Act 1958)

amendments: amended many times, last in 2020

Legal system: legal system is under the authority of the governor general of Australia and Australian law

Citizenship: see Australia

Suffrage: 18 years of age

Executive branch: chief of state: King CHARLES III (since 8 September 2022); represented by Governor General of the Commonwealth of Australia General David HURLEY (since 1 July 2019)

head of government: Acting Administrator Sarah VANDENBROEK

(since 4 October 2022)

cabinet: NA

elections/appointments: the monarchy is hereditary; governor general appointed by the monarch on the recommendation of the Australian prime minister; administrator appointed by the governor general of Australia for a 2-year term and represents the monarch and Australia

Legislative branch: *description:* unicameral Christmas Island Shire Council (9 seats; members directly elected by simple majority vote to serve 4-year terms)

elections: held every 2 years with half the members standing for election; last held in October 2021 (next to be held in October 2023)

election results: percent of vote - NA; seats by party - independent 9; composition as of 17 October 2021 - men 8, women 1, percent of women 11.1%

Judicial branch: *highest court(s):* under the terms of the Territorial Law Reform Act 1992, Western Australia provides court services as needed for the island, including the Supreme Court and subordinate courts (District Court, Magistrate Court, Family Court, Children's Court, and Coroners' Court)

Political parties and leaders: none

International organization participation: none

Diplomatic representation in the US: none (territory of Australia)

Diplomatic representation from the US: embassy: none (territory of Australia)

Flag description: territorial flag; divided diagonally from upper hoist to lower fly; the upper triangle is green with a yellow image of the Golden Bosun Bird superimposed; the lower triangle is blue with the Southern Cross constellation, representing Australia, superimposed; a centered yellow disk displays a green map of the island

note: the flag of Australia is used for official purposes

National symbol(s): golden bosun bird

National anthem: note: as a territory of Australia, “Advance Australia Fair” remains official as the national anthem, while “God Save the King” serves as the royal anthem (see Australia)

ECONOMY

Economic overview: The main economic activities on Christmas Island are the mining of low grade phosphate, limited tourism, the provision of government services and, since 2005, the construction and operation of the Immigration Detention Center. The government sector includes administration, health, education, policing, customs, quarantine, and defense.

Industries: tourism, phosphate extraction (near depletion)

Fiscal year: 1 July - 30 June

Exports - partners: Malaysia 36%, New Zealand 21%, Indonesia 20%, Australia 10% (2019)

Exports - commodities: calcium phosphates, fertilizers, valves, air pumps, industrial printers (2019)

Imports - partners: Australia 80%, United States 7%, Canada 5% (2019)

Imports - commodities: refined petroleum, cars, iron structures, aircraft, crustaceans (2019)

Exchange rates: Australian dollars (AUD) per US dollar -

1.311 (2017 est.)

1.3442 (2016 est.)

1.3442 (2015)

1.3291 (2014 est.)

1.1094 (2013 est.)

COMMUNICATIONS

Telecommunication systems: *general assessment:* internet access on Christmas Island is provided by satellite; improvements through the Regional Connectivity Program to the macro and small cell mobile sites will provide new and improved mobile, voice and data connectivity for residents and visitors; the upgrade will also support local businesses and community facilities, enabling increased residential access to essential services such as telehealth and education (2022)

domestic: improvements to Christmas Island include an upgrade to the macro cell base stations and deploy a new macro cell base station at the airport (2022)

international: international code - 61 8; ASC submarine cable to Singapore and Australia; satellite earth station - 1 (Intelsat provides telephone and telex service) (2019)

Broadcast media: 1 community radio station; satellite broadcasts of several Australian radio and TV stations (2017)

Internet country code: .cx

Internet users: *total:* 790 (2016 est.)

percent of population: 36% (2016 est.)

TRANSPORTATION

Airports: *total:* 1 (2021)

Airports - with paved runways: *total:* 1

1,524 to 2,437 m: 1 (2021)

Railways: *total:* 18 km (2017)

standard gauge: 18 km (2017) 1.435-m (not in operation)

note: the 18-km Christmas Island Phosphate Company Railway between Flying Fish Cove and South Point was decommissioned in 1987; some tracks and scrap remain in place

Roadways: *total:* 142 km (2011)

paved: 32 km (2011)

unpaved: 110 km (2011)

Ports and terminals: *major seaport(s):* Flying Fish Cove

MILITARY AND SECURITY

Military - note: defense is the responsibility of Australia

TRANSNATIONAL ISSUES

Disputes - international: none

CLIPPERTON ISLAND

INTRODUCTION

Background: This isolated atoll was named for John CLIPPERTON, an English pirate who was rumored to have made it his hideout early in the 18th century. Annexed by France in 1855 and claimed by the US, it was seized by Mexico in 1897. Arbitration eventually awarded the island to France in 1931, which took possession in 1935.

GEOGRAPHY

Location: Middle America, atoll in the North Pacific Ocean, 1,120 km southwest of Mexico

Geographic coordinates: 10 17 N, 109 13 W

Map references: Political Map of the World

Area: *total:* 6 sq km

land: 6 sq km

water: 0 sq km

Area - comparative: about 12 times the size of The Mall in Washington, DC

Land boundaries: *total:* 0 km

Coastline: 11.1 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm

Climate: tropical; humid, average temperature 20-32 degrees Celsius, wet season (May to October)

Terrain: coral atoll

Elevation: *highest point:* Rocher Clipperton 29 m

lowest point: Pacific Ocean 0 m

Natural resources: fish

Land use: *agricultural land:* 0% (2018 est.)

forest: 0% (2018 est.)

other: 100% (2018 est.)

Natural hazards: subject to tropical storms and hurricanes from May to October

Geography - note: the atoll reef is approximately 12 km (7.5 mi) in circumference; an attempt to colonize the atoll in the early 20th century ended in disaster and was abandoned in 1917

PEOPLE AND SOCIETY

Population: uninhabited

ENVIRONMENT

Environment - current issues: no natural resources, guano deposits depleted; the ring-shaped atoll encloses a stagnant fresh-water lagoon

Climate: tropical; humid, average temperature 20-32 degrees Celsius, wet season (May to October)

Land use: *agricultural land:* 0% (2018 est.)

forest: 0% (2018 est.)

other: 100% (2018 est.)

GOVERNMENT

Country name: *conventional long form:* none

conventional short form: Clipperton Island

local long form: none

local short form: Ile Clipperton

former: sometimes referred to as Ile de la Passion or Atoll Clipperton

etymology: named after an 18th-century English pirate who supposedly used the island as a base

Dependency status: possession of France; administered directly by the Minister of Overseas France

Legal system: the laws of France apply

Flag description: the flag of France is used

ECONOMY

Economic overview: Although 115 species of fish have been identified in the territorial waters of Clipperton Island, tuna fishing is the only economically viable species.

TRANSPORTATION

Ports and terminals: none; offshore anchorage only

MILITARY AND SECURITY

Military - note: defense is the responsibility of France

TRANSNATIONAL ISSUES

Disputes - international: none

COCOS (KEELING) ISLANDS

INTRODUCTION

Background: British captain William KEELING discovered Cocos (Keeling) Islands in 1609, and they were named the Cocos Islands in 1622 for their coconut trees. Some maps began referring to them as the Keeling Islands in 1703. In 1825, Scottish trader John CLUNIES-ROSS was trying to get to Christmas Island but was blown off-course and landed on Cocos (Keeling) Islands. The next year, a British trader hired John's brother to bring slaves and a harem of Malay women to create the first permanent settlement on the island. By the 1830s, the Clunies-Ross family had firmly established themselves as the leaders of the islands and they ruled Cocos (Keeling) Islands in a feudal style until 1978.

The UK annexed the islands in 1857 and administered them from Ceylon after 1878 and from Singapore after 1886. Cocos (Keeling) Islands hosted a cable relaying station and was attacked by the Germans in World War I. The Japanese similarly attacked the islands in World War II. The UK transferred the islands to Australia in 1955, which officially named the islands the Cocos (Keeling) Islands, and in 1978, Australia bought all the land held by the Clunies-Ross family, ending their control of the islands' governance. In a referendum in 1984, most islanders voted to integrate with Australia, and Western Australian laws have applied on the islands since 1992.

GEOGRAPHY

Location: Southeastern Asia, group of islands in the Indian Ocean, southwest of Indonesia, about halfway between Australia and Sri Lanka

Geographic coordinates: 12 30 S, 96 50 E

Map references: Southeast Asia

Area: *total:* 14 sq km

land: 14 sq km

water: 0 sq km

note: includes the two main islands of West Island and Home Island

country comparison to the world: 240

Area - comparative: about 24 times the size of The Mall in Washington, DC

Land boundaries: *total:* 0 km

Coastline: 26 km

Maritime claims: *territorial sea:* 12 nm

exclusive fishing zone: 200 nm

Climate: tropical with high humidity, moderated by the southeast trade winds for about nine months of the year

Terrain: flat, low-lying coral atolls

Elevation: *highest point:* South Point on South Island 9 m

lowest point: Indian Ocean 0 m

Natural resources: fish

Land use: *agricultural land:* 0% (2018 est.)

forest: 0% (2018 est.)

other: 100% (2018 est.)

Population distribution: only Home Island and West Island are populated

Natural hazards: cyclone season is October to April

Geography - note: *note 1:* there are 27 coral islands in the group; apart from North Keeling Island, which lies 30 km north of the main group, the islands form a horseshoe-shaped atoll surrounding a lagoon; North Keeling Island was declared a national park in 1995 and is administered by Parks Australia; the population on the two inhabited islands generally is split between the ethnic Europeans on West Island and the ethnic Malays on Home Island; the islands are thickly covered with coconut palms and other vegetation

note 2: site of a World War I naval battle in November 1914 between the Australian light cruiser HMAS Sydney and the German raider SMS Emden; after being heavily damaged in the engagement, the Emden was beached by her captain on North Keeling Island

PEOPLE AND SOCIETY

Population: 596 (July 2014 est.)

country comparison to the world: 236

Nationality: *noun:* Cocos Islander(s)

adjective: Cocos Islander

Ethnic groups Europeans, Cocos Malays: Languages

Malay (Cocos dialect) 68.8%, English 22.3%, unspecified 8.9%; *note* - data represent language spoken at home (2016 est.)

major-language sample(s): Buku Fakta Dunia, sumber yang diperlukan untuk maklumat asas. (Malay)

Religions: Muslim (predominantly Sunni) 75%, Anglican 3.5%, Roman Catholic 2.2%, none 12.9%, unspecified 6.3% (2016 est.)

Death rate: 8.89 deaths/1,000 population (2021 est.)

country comparison to the world: 63

Population distribution: only Home Island and West Island are populated

ENVIRONMENT

Environment - current issues: freshwater resources are limited to rainwater accumulations in natural underground reservoirs; illegal fishing a concern

Climate: tropical with high humidity, moderated by the southeast trade winds for about nine months of the year

Land use: *agricultural land:* 0% (2018 est.)

forest: 0% (2018 est.)

other: 100% (2018 est.)

GOVERNMENT

Country name: *conventional long form:* Territory of Cocos (Keeling) Islands

conventional short form: Cocos (Keeling) Islands

etymology: the name refers to the abundant coconut trees on the islands and to English Captain William KEELING, the first European to sight the islands in 1609

Government type: non-self-governing overseas territory of Australia

Dependency status: non-self governing territory of Australia; administered from Canberra by the Department of Infrastructure, Transport, Cities & Regional Development

Capital: *name:* West Island

geographic coordinates: 12 10 S, 96 50 E

time difference: UTC+6.5 (11.5 hours ahead of Washington, DC, during Standard Time)

Administrative divisions: none (territory of Australia)

Independence: none (territory of Australia)

National holiday: Australia Day (commemorates the arrival of the First Fleet of Australian settlers), 26 January (1788)

Constitution: *history:* 23 November 1955 (Cocos (Keeling) Islands Act 1955)

amendments: amended many times, last in 2020

Legal system: common law based on the Australian model

Citizenship: see Australia

Suffrage: 18 years of age

Executive branch: *chief of state:* King CHARLES III (since 8 September 2022); represented by Governor General of the Commonwealth of Australia General David HURLEY (since 1 July 2019)
head of government: Acting Administrator Sarah VANDENBROEK

(since 4 October 2022)

cabinet: NA

elections/appointments: the monarchy is hereditary; governor general appointed by the monarch on the recommendation of the Australian prime minister; administrator appointed by the governor general for a 2-year term and represents the monarch and Australia

Legislative branch: description: unicameral Cocos (Keeling) Islands Shire Council (7 seats; members directly elected by simple majority vote to serve 4-year terms with 4 members renewed every 2 years)

elections: last held on 16 October 2021 (next to be held in October 2023)

election results: percent of vote by party - NA; seats by party - NA; composition - men 4, women 3, percent of women 42.9%

Judicial branch: *highest court(s):* under the terms of the Territorial Law Reform Act 1992, Western Australia provides court services as needed for the island including the Supreme Court and subordinate courts (District Court, Magistrate Court, Family Court, Children's Court, and Coroners' Court)

Political parties and leaders: none

International organization participation: none

Diplomatic representation in the US: none (territory of Australia)

Diplomatic representation from the US: embassy: none (territory of Australia)

Flag description: the flag of Australia is used

National anthem: *note:* as a territory of Australia, "Advance Australia Fair" remains official as the national anthem, while "God Save the King" serves as the royal anthem (see Australia)

ECONOMY

Economic overview: Coconuts, grown throughout the islands, are the sole cash crop. Small local gardens and fishing contribute to the food supply, but additional food and most other necessities must be imported from Australia. There is a small tourist industry.

Real GDP growth rate: 1% (2003)

country comparison to the world: 171

Agricultural products: vegetables, bananas, pawpaws, coconuts

Industries: copra products, tourism

Labor force - by occupation: *note:* the Cocos Islands Cooperative Society Ltd. employs construction workers, stevedores, and lighterage workers; tourism is the other main source of employment

Unemployment rate: 0.1% (2011)

60% (2000 est.)

country comparison to the world: 1

Fiscal year: 1 July - 30 June

Exports - partners: United States 57%, Ireland 15% (2019)

Exports - commodities: computers, packaged medicines, precious metal watches, office machinery/parts, chemical analysis instruments (2019)

Imports - partners: Australia 73%, United Arab Emirates 15%, Netherlands 5% (2019)

Imports - commodities: gold, x-ray equipment, cars, prefabricated buildings, packaged medicines (2019)

Exchange rates: Australian dollars (AUD) per US dollar -

Disputes - international: none

COLOMBIA

INTRODUCTION

Background: Colombia was one of the three countries that emerged after the dissolution of Gran Colombia in 1830 (the others are Ecuador and Venezuela). A decades-long conflict between government forces, paramilitaries, and antigovernment insurgent groups heavily funded by the drug trade, principally the Revolutionary Armed Forces of Colombia (FARC), escalated during the 1990s. More than 31,000 former United Self Defense Forces of Colombia (AUC) paramilitaries demobilized by the end of 2006, and the AUC as a formal organization ceased to operate. In the wake of the paramilitary demobilization, illegal armed groups arose, whose members include some former paramilitaries. After four years of formal peace negotiations, the Colombian Government signed a final peace accord with the FARC in November 2016, which was subsequently ratified by the Colombian Congress. The accord calls for members of the FARC to demobilize, disarm, and reincorporate into society and politics. The accord also committed the Colombian Government to create three new institutions to form a ‘comprehensive system for truth, justice, reparation, and non-repetition,’ to include a truth commission, a special unit to coordinate the search for those who disappeared during the conflict, and a ‘Special Jurisdiction for Peace’ to administer justice for conflict-related crimes. Despite decades of internal conflict and drug-related security challenges, Colombia maintains relatively strong and independent democratic institutions characterized by peaceful, transparent elections and the protection of civil liberties.

GEOGRAPHY

Location: Northern South America, bordering the Caribbean Sea, between Panama and Venezuela, and bordering the North Pacific Ocean, between Ecuador and Panama

Geographic coordinates: 4 00 N, 72 00 W

Map references: South America

Area: *total:* 1,138,910 sq km

land: 1,038,700 sq km

water: 100,210 sq km

note: includes Isla de Malpelo, Roncador Cay, and Serrana Bank

country comparison to the world: 27

Area - comparative: slightly less than twice the size of Texas

Land boundaries: *total:* 6,672 km

border countries (5): Brazil 1,790 km; Ecuador 708 km; Panama 339 km; Peru 1,494 km; Venezuela 2,341 km

Coastline: 3,208 km (Caribbean Sea 1,760 km, North Pacific Ocean 1,448 km)

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm

continental shelf: 200-m depth or to the depth of exploitation

Climate: tropical along coast and eastern plains; cooler in highlands

Terrain: flat coastal lowlands, central highlands, high Andes Mountains, eastern lowland plains (Llanos)

Elevation: *highest point:* Pico Cristobal Colon 5,730 m

lowest point: Pacific Ocean 0 m

mean elevation: 593 m

Natural resources: petroleum, natural gas, coal, iron ore, nickel, gold, copper, emeralds, hydropower

Land use: *agricultural land:* 37.5% (2018 est.)

arable land: 1.4% (2018 est.)

permanent crops: 1.6% (2018 est.)

permanent pasture: 34.5% (2018 est.)

forest: 54.4% (2018 est.)

other: 8.1% (2018 est.)

Irrigated land: 10,900 sq km (2012)

Major rivers (by length in km): Rio Negro river source (shared with Venezuela and Brazil [m]) - 2,250 km; Orinoco (shared with Venezuela [s]) - 2,101 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Amazon (6,145,186 sq km), Orinoco (953,675 sq km)

Major aquifers: Amazon Basin

Population distribution: the majority of people live in the north and west where agricultural opportunities and natural resources are found; the vast grasslands of the llanos to the south and east, which make up approximately 60% of the country, are sparsely populated

Natural hazards: highlands subject to volcanic eruptions; occasional earthquakes; periodic droughts

volcanism: Galeras (4,276 m) is one of Colombia's most active volcanoes, having erupted in 2009 and 2010 causing major evacuations; it has been deemed a Decade Volcano by the International Association of Volcanology and Chemistry of the Earth's Interior, worthy of study due to its explosive history and close proximity to human populations; Nevado del Ruiz (5,321 m), 129 km (80 mi) west of Bogota, erupted in 1985 producing lahars (mudflows) that killed 23,000 people; the volcano last erupted in 1991; additionally, after 500 years of dormancy, Nevado del Huila reawakened in 2007 and has experienced frequent eruptions since then; other historically active volcanoes include Cumbal, Dona Juana, Nevado del Tolima, and Purace

Geography - note: only South American country with coastlines on both the North Pacific Ocean and Caribbean Sea

PEOPLE AND SOCIETY

Population: 49,059,221 (2022 est.)

country comparison to the world: 29

Nationality: *noun:* Colombian(s)

adjective: Colombian

Ethnic groups: Mestizo and White 87.6%, Afro-Colombian (includes Mulatto, Raizal, and Palenquero) 6.8%, Amerindian 4.3%, unspecified 1.4% (2018 est.)

Languages: Spanish (official) and 65 Amerindian languages

major-language sample(s): La Libreta Informativa del Mundo, la fuente indispensable de información básica. (Spanish)

Religions: Christian 92.3% (predominantly Roman Catholic), other 1%, unspecified 6.7% (2020 est.)

Demographic profile: Colombia is in the midst of a demographic transition resulting from steady declines in its fertility, mortality, and population growth rates. The birth rate has fallen from more than 6 children per woman in the 1960s to just above replacement level today as a result of increased literacy, family planning services, and urbanization. However, income inequality is among the worst in the world, and more than a third of the population lives below the poverty line.

Colombia experiences significant legal and illegal economic emigration and refugee outflows. Large-scale labor emigration dates to the 1960s; the United States and, until recently, Venezuela have been the main host countries. Emigration to Spain picked up in the 1990s because of its economic growth, but this flow has since diminished because of Spain's ailing economy and high unemployment. Colombia has been the largest source of Latin American refugees in Latin America, nearly 400,000 of whom live primarily in Venezuela and Ecuador. Venezuela's political and economic crisis since 2015, however, has created a reverse flow, consisting largely of Colombians returning home.

Forced displacement continues to be prevalent because of violence

among guerrillas, paramilitary groups, and Colombian security forces. Afro-Colombian and indigenous populations are disproportionately affected. Even with the Colombian Government's December 2016 peace agreement with the Revolutionary Armed Forces of Colombia (FARC), the risk of displacement remains as other rebel groups fill the void left by the FARC. Between 1985 and September 2017, nearly 7.6 million persons have been internally displaced, the highest total in the world. These estimates may undercount actual numbers because many internally displaced persons are not registered. Historically, Colombia also has one of the world's highest levels of forced disappearances. About 30,000 cases have been recorded over the last four decades—although the number is likely to be much higher—including human rights activists, trade unionists, Afro-Colombians, indigenous people, and farmers in rural conflict zones.

Because of political violence and economic problems, Colombia received limited numbers of immigrants during the 19th and 20th centuries, mostly from the Middle East, Europe, and Japan. More recently, growth in the oil, mining, and manufacturing sectors has attracted increased labor migration; the primary source countries are Venezuela, the US, Mexico, and Argentina. Colombia has also become a transit area for illegal migrants from Africa, Asia, and the Caribbean -- especially Haiti and Cuba -- who are en route to the US or Canada.

Age structure: *0-14 years:* 23.27% (male 5,853,351/female 5,567,196)

15-24 years: 16.38% (male 4,098,421/female 3,939,870)

25-54 years: 42.04% (male 10,270,516/female 10,365,423)

55-64 years: 9.93% (male 2,307,705/female 2,566,173)

65 years and over: 8.39% (male 1,725,461/female 2,390,725) (2020 est.)

Population growth rate: 0.59% (2022 est.)

country comparison to the world: 146

Birth rate: 15.21 births/1,000 population (2022 est.)

country comparison to the world: 114

Death rate: 7.73 deaths/1,000 population (2022 est.)

country comparison to the world: 102

Net migration rate: -1.58 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 159

Population distribution: the majority of people live in the north and west where agricultural opportunities and natural resources are found; the vast grasslands of the llanos to the south and east, which make up approximately 60% of the country, are sparsely populated

Urbanization: *urban population:* 82% of total population (2022)

rate of urbanization: 1.01% annual rate of change (2020-25 est.)

Major urban areas - population: 11.344 million BOGOTA (capital), 4.068 million Medellin, 2.837 million Cali, 2.325 million Barranquilla, 1.366 million Bucaramanga, 1.079 million Cartagena (2022)

Sex ratio: *at birth:* 1.05 male(s)/female

0-14 years: 1.05 male(s)/female

15-24 years: 1.04 male(s)/female

25-54 years: 0.94 male(s)/female

55-64 years: 0.85 male(s)/female

65 years and over: 0.65 male(s)/female

total population: 0.96 male(s)/female (2022 est.)

Mother's mean age at first birth: 21.7 years (2015 est.)

note: data represents median age at first birth among women 25-49

Maternal mortality ratio: 83 deaths/100,000 live births (2017 est.)

country comparison to the world: 78

Infant mortality rate: *total:* 11.65 deaths/1,000 live births
male: 13.07 deaths/1,000 live births
female: 10.15 deaths/1,000 live births (2022 est.)
country comparison to the world: 122

Life expectancy at birth: *total population:* 74.89 years
male: 71.27 years
female: 78.69 years (2022 est.)
country comparison to the world: 130

Total fertility rate: 1.95 children born/woman (2022 est.)
country comparison to the world: 115

Contraceptive prevalence rate: 81% (2015/16)

Drinking water source: *improved:* *urban:* 100% of population
rural: 87.5% of population
total: 97.7% of population
unimproved: *urban:* 0% of population
rural: 12.5% of population
total: 2.3% of population (2020 est.)

Current health expenditure: 7.7% of GDP (2019)

Physicians density: 2.33 physicians/1,000 population (2020)

Hospital bed density: 1.7 beds/1,000 population (2018)

Sanitation facility access: *improved:* *urban:* 99.1% of population
rural: 87.7% of population
total: 97% of population
unimproved: *urban:* 0.9% of population
rural: 12.3% of population
total: 3% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 0.4% (2020 est.)
country comparison to the world: 72

Major infectious diseases: *degree of risk:* high (2020)
food or waterborne diseases: bacterial diarrhea
vectorborne diseases: dengue fever, malaria, and yellow fever

note: widespread ongoing transmission of a respiratory illness caused by the novel coronavirus (COVID-19) is occurring throughout Colombia; as of 18 August 2022, Columbia has reported a total of 6,286,392 cases of COVID-19 or 12,354.62 cumulative cases of COVID-19 per 100,000 population with a total of 141,287 cumulative deaths or a rate 277.67 cumulative deaths per 100,000 population; as of 29 July 2022, 82.64% of the population has received at least one dose of COVID-19 vaccine

Obesity - adult prevalence rate: 22.3% (2016)

country comparison to the world: 78

Alcohol consumption per capita: *total:* 4.09 liters of pure alcohol (2019 est.)

beer: 3.09 liters of pure alcohol (2019 est.)

wine: 0.06 liters of pure alcohol (2019 est.)

spirits: 0.92 liters of pure alcohol (2019 est.)

other alcohols: 0.02 liters of pure alcohol (2019 est.)

country comparison to the world: 94

Tobacco use: *total:* 8.5% (2020 est.)

male: 12.4% (2020 est.)

female: 4.6% (2020 est.)

female: 33% (2020 est.)

ENVIRONMENT

Environment - current issues: deforestation resulting from timber exploitation in the jungles of the Amazon and the region of Chocó; illicit drug crops grown by peasants in the national parks; soil erosion; soil and water quality damage from overuse of pesticides; air pollution, especially in Bogota, from vehicle emissions

Environment - international agreements: party to: Antarctic-Environmental Protection, Antarctic Treaty, Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Marine Life Conservation, Nuclear Test Ban, Ozone Layer Protection, Ship Pollution, Tropical Timber 2006, Wetlands, Whaling
signed, but not ratified: Law of the Sea

Air pollutants: particulate matter emissions: 15.24 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 97.81 megatons (2016 est.)

methane emissions: 81.52 megatons (2020 est.)

Climate: tropical along coast and eastern plains; cooler in highlands

Land use: *agricultural land:* 37.5% (2018 est.)

arable land: 1.4% (2018 est.)

permanent crops: 1.6% (2018 est.)

permanent pasture: 34.5% (2018 est.)

forest: 54.4% (2018 est.)

other: 8.1% (2018 est.)

Urbanization: *urban population:* 82% of total population (2022)

rate of urbanization: 1.01% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 0.1% of GDP (2018 est.)

country comparison to the world: 111

Revenue from coal: *coal revenues:* 0.75% of GDP (2018 est.)

country comparison to the world: 8

Waste and recycling: *municipal solid waste generated annually:* 12,150,120 tons (2011 est.)

municipal solid waste recycled annually: 2,089,821 tons (2013 est.)

percent of municipal solid waste recycled: 17.2% (2013 est.)

Major rivers (by length in km): Rio Negro river source (shared with Venezuela and Brazil [m]) - 2,250 km; Orinoco (shared with Venezuela [s]) - 2,101 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Amazon (6,145,186 sq km), Orinoco (953,675 sq km)

Major aquifers: Amazon Basin

Total water withdrawal: *municipal:* 3.49 billion cubic meters (2017 est.)

industrial: 3.73 billion cubic meters (2017 est.)

agricultural: 6.391 billion cubic meters (2017 est.)

Total renewable water resources: 2.36 trillion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Republic of Colombia

conventional short form: Colombia

local long form: Republica de Colombia

local short form: Colombia

etymology: the country is named after explorer Christopher COLUMBUS

Government type: presidential republic

Capital: *name:* Bogota

geographic coordinates: 4 36 N, 74 05 W

time difference: UTC-5 (same time as Washington, DC, during Standard Time)

etymology: originally referred to as “Bacata,” meaning “enclosure outside of the farm fields,” by the indigenous Muisca

Administrative divisions: 32 departments (departamentos, singular - departamento) and 1 capital district* (distrito capital); Amazonas, Antioquia, Arauca, Atlantico, Bogota*, Bolivar, Boyaca, Caldas, Caqueta, Casanare, Cauca, Cesar, Choco, Cordoba, Cundinamarca, Guainia, Guaviare, Huila, La Guajira, Magdalena, Meta, Narino, Norte de Santander, Putumayo, Quindio, Risaralda, Archipelago de San Andres, Providencia y Santa Catalina (colloquially San Andres y Providencia), Santander, Sucre, Tolima, Valle del Cauca, Vaupes, Vichada

Independence: 20 July 1810 (from Spain)

National holiday: Independence Day, 20 July (1810)

Constitution: *history:* several previous; latest promulgated 4 July 1991

amendments: proposed by the government, by Congress, by a constituent assembly, or by public petition; passage requires a majority vote by Congress in each of two consecutive sessions; passage of amendments to constitutional articles on citizen rights, guarantees, and duties also require approval in a referendum by over one half of voters and participation of over one fourth of citizens registered to vote; amended many times, last in

2020

Legal system: civil law system influenced by the Spanish and French civil codes

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCT jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: least one parent must be a citizen or permanent resident of Colombia

dual citizenship recognized: yes

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President Gustavo Francisco PETRO Urrego (since 7 August 2022); Vice President Francia Elena MARQUEZ Mina (since 7 August 2022); the president is both chief of state and head of government

head of government: President Gustavo Francisco PETRO Urrego (since 7 August 2022); Vice President Francia Elena MARQUEZ Mina (since 7 August 2022)

cabinet: Cabinet appointed by the president

elections/appointments: president directly elected by absolute majority vote in 2 rounds if needed for a single 4-year term; election last held on 29 May 2022 with a runoff held on 19 June 2022 (next to be held on 31 May 2026); note -political reform in 2015 eliminated presidential reelection

election results:

2022: Gustavo Francisco PETRO Urrego elected president in second round; percent of vote in first round - Gustavo Francisco PETRO Urrego (PHxC) 40.3%, Rodolfo HERNANDEZ Suarez (LIGA) 28.2%, Federico GUTIERREZ (Team for Colombia / CREEMOS) 23.9%, other 7.6%; percent of vote in second round - Gustavo Francisco PETRO Urrego (PHxC) 50.4%, Rodolfo HERNANDEZ Suarez (LIGA) 47.3%

2018: Ivan DUQUE Marquez elected president in second round; percent

of vote - Ivan DUQUE Marquez (CD) 54%, Gustavo PETRO (Humane Colombia) 41.8%, other/blank/invalid 4.2%

Legislative branch: description: bicameral Congress or Congreso consists of:

Senate or Senado (108 seats; 100 members elected in a single nationwide constituency by party-list proportional representation vote, 2 members elected in a special nationwide constituency for indigenous communities, 5 members of the Commons political party, formerly the People's Alternative Revolutionary Force (FARC), for 2 legislative terms only: 2018-2022 and 2022-2026 as per the 2016 peace accord, and 1 seat reserved for the runner-up presidential candidate in the recent election; all members serve 4-year terms)

Chamber of Representatives or Camara de Representantes (188 seats; 162 members elected in multi-seat constituencies by party-list proportional representation vote, 2 members elected in a special nationwide constituency for Afro-Colombians, 1 member elected by Colombians residing abroad, 1 member elected in a special nationwide constituency for the indigenous communities, 5 members of the Commons political party for two legislative terms only: 2018-2022 and 2022-2026 as per the 2016 peace accord, 16 seats for rural conflict victims for two legislative terms only: 2022-2026 and 2026-2030, and 1 seat reserved for the runner-up vice presidential candidate in the recent election; all members serve 4-year terms)

elections:

Senate - last held on 13 March 2022 (next to be held in March 2026)

Chamber of Representatives - last held on 13 March 2022 (next to be held in March 2026)

election results:

Senate - percent of vote by party - NA; seats by party - PHxC 16, PC 16, PL 15, Green Alliance and Center Hope Coalition 14, CD 14, CR 11, U Party 10, MIRA-Colombia Free and Just Coalition 4; composition - men 75, women 33, percent of women 31%

Chamber of Representatives - percent of vote by party - NA; seats by party - PL 33, PHxC 28, PC 27, CR 18, CD 16, U Party 16, Green

Alliance 14, League of Anticorruption Governors 2, others 34;
composition - men 136, women 52, percent of women 28%; total
Congress percent of women 29%

Judicial branch: *highest court(s)*: Supreme Court of Justice or Corte Suprema de Justicia (consists of the Civil-Agrarian and Labor Chambers each with 7 judges, and the Penal Chamber with 9 judges); Constitutional Court (consists of 9 magistrates); Council of State (consists of 27 judges); Superior Judiciary Council (consists of 13 magistrates)

judge selection and term of office: Supreme Court judges appointed by the Supreme Court members from candidates submitted by the Superior Judiciary Council; judges elected for individual 8-year terms; Constitutional Court magistrates -nominated by the president, by the Supreme Court, and elected by the Senate; judges elected for individual 8-year terms; Council of State members appointed by the State Council plenary from lists nominated by the Superior Judiciary Council

subordinate courts: Superior Tribunals (appellate courts for each of the judicial districts); regional courts; civil municipal courts; Superior Military Tribunal; first instance administrative courts

Political parties and leaders: Alternative Democratic Pole or PDA [Alexander LOPEZ Maya]

Citizens Option (Opcion Ciudadana) or OC [Angel ALIRIO Moreno] (formerly known as the National Integration Party or PIN)

The Commons (formerly People's Alternative Revolutionary Force or FARC) [Rodrigo LONDONO Echeverry]

Conservative Party or PC [Carlos Andres TRUJILLO]

Democratic Center Party or CD [Alvaro URIBE Velez]

Fair and Free Colombia (Colombia Justa Libres) [Eduardo Canas Estrada and Ricardo Arias Mora]

Green Alliance [Claudia LOPEZ Hernandez]

Historic Pact for Colombia or PHxC (coalition composed of several left-leaning political parties and social movements)

Humane Colombia [Gustavo PETRO]

Independent Movement of Absolute Renovation or MIRA [Carlos

Eduardo GUEVARA]

League of Anti-Corruption Rulers or LIGA [Rodolfo HERNANDEZ Suarez]

Liberal Party or PL [Cesar GAVIRIA]

People's Alternative Revolutionary Force or FARC [Rodrigo LONDONO Echeverry]

Radical Change or CR [German VARGAS Lleras]

Team for Colombia - also known as the Experience Coalition or Coalition of the Regions (coalition composed of center-right and right-wing parties)

Union Party for the People or U Party [Dilian Francisca TORO]

We Believe Colombia or CREEMOS [Federico GUTIERREZ]

note: Colombia has numerous smaller political parties and movements

International organization participation: BCIE, BIS, CAN, Caricom (observer), CD, CDB, CELAC, EITI (candidate country), FAO, G-3, G-24, G-77, IADB, IAEA, IBRD, ICAO, ICC (national committees), ICt, ICRM, IDA, IFAD, IFC, IFRCs, IHO, ILO, IMF, IMO, IMSO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), LAES, LAIA, Mercosur (associate), MIGA, NAM, OAS, OPANAL, OPCW, Pacific Alliance, PCA, PROSUR, UN, UNASUR, UNCTAD, UNESCO, UNHCR, UNIDO, Union Latina, UNWTO, UPU, WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Luis Gilberto MURILLO URRUTIA (since 16 September 2022)

chancery: 1724 Massachusetts Avenue NW, Washington, DC 20036

telephone: [1] (202) 387-8338

FAX: [1] (202) 232-8643

consulate(s) general: Atlanta, Houston, Los Angeles, Miami, New York, Newark (NJ), Orlando, San Juan (Puerto Rico), Washington, DC

consulate(s): Boston, Chicago, San Francisco

Diplomatic representation from the US: *chief of mission:*

Ambassador (vacant); Charge d’Affaires Francisco L. PALMIERI (since 1 June 2022)

embassy: Carrera 45, No. 24B-27, Bogota

mailing address: 3030 Bogota Place, Washington DC 20521-3030

telephone: [57] (1) 275-2000

FAX: [57] (1) 275-4600

email address and website:

ACSBogota@state.gov

<https://co.usembassy.gov/>

Flag description: three horizontal bands of yellow (top, double-width), blue, and red; the flag retains the three main colors of the banner of Gran Colombia, the short-lived South American republic that broke up in 1830; various interpretations of the colors exist and include: yellow for the gold in Colombia’s land, blue for the seas on its shores, and red for the blood spilled in attaining freedom; alternatively, the colors have been described as representing more elemental concepts such as sovereignty and justice (yellow), loyalty and vigilance (blue), and valor and generosity (red); or simply the principles of liberty, equality, and fraternity

note: similar to the flag of Ecuador, which is longer and bears the Ecuadorian coat of arms superimposed in the center

National symbol(s): *Andean condor; national colors:* yellow, blue, red

National anthem: *name:* “Himno Nacional de la Republica de Colombia” (National Anthem of the Republic of Colombia)

lyrics/music: Rafael NUNEZ/Oreste SINDICI

note: adopted 1920; the anthem was created from an inspirational poem written by President Rafael NUNEZ

National heritage: *total World Heritage Sites:* 9 (6 cultural, 2 natural, 1 mixed)

selected World Heritage Site locales: Chiribiquete National Park (m); Coffee Cultural Landscape of Colombia (c); Historic Center of Santa Cruz de Mompox (c); Los Katíos National Park (n); Malpelo Fauna and Flora Sanctuary (n); Tierradentro National Archeological Park (c); San Agustín Archaeological Park (c); Colonial Cartagena (c); Qhapaq Ñan/Andean

Road System (c)

ECONOMY

Economic overview: Colombia heavily depends on energy and mining exports, making it vulnerable to fluctuations in commodity prices. Colombia is Latin America's fourth largest oil producer and the world's fourth largest coal producer, third largest coffee exporter, and second largest cut flowers exporter. Colombia's economic development is hampered by inadequate infrastructure, poverty, narcotrafficking, and an uncertain security situation, in addition to dependence on primary commodities (goods that have little value-added from processing or labor inputs).

Colombia's economy slowed in 2017 because of falling world market prices for oil and lower domestic oil production due to insurgent attacks on pipeline infrastructure. Although real GDP growth averaged 4.7% during the past decade, it fell to an estimated 1.8% in 2017. Declining oil prices also have contributed to reduced government revenues. In 2016, oil revenue dropped below 4% of the federal budget and likely remained below 4% in 2017. A Western credit rating agency in December 2017 downgraded Colombia's sovereign credit rating to BBB-, because of weaker-than-expected growth and increasing external debt. Colombia has struggled to address local referendums against foreign investment, which have slowed its expansion, especially in the oil and mining sectors. Colombia's FDI declined by 3% to \$10.2 billion between January and September 2017.

Colombia has signed or is negotiating Free Trade Agreements (FTA) with more than a dozen countries; the US-Colombia FTA went into effect in May 2012. Colombia is a founding member of the Pacific Alliance—a regional trade block formed in 2012 by Chile, Colombia, Mexico, and Peru to promote regional trade and economic integration. The Colombian government took steps in 2017 to address several bilateral trade irritants with the US, including those on truck scrappage, distilled spirits, pharmaceuticals, ethanol imports, and labor rights. Colombia hopes to accede to the Organization for Economic Cooperation and Development.

Real GDP (purchasing power parity): \$683.94 billion (2020 est.)
\$734.22 billion (2019 est.)
\$710.89 billion (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 32

Real GDP growth rate: 3.26% (2019 est.)
2.51% (2018 est.)
1.36% (2017 est.)

country comparison to the world: 91

Real GDP per capita: \$13,400 (2020 est.)
\$14,600 (2019 est.)
\$14,300 (2018 est.)

note: data are in 2017 dollars

country comparison to the world: 114

GDP (official exchange rate): \$323.255 billion (2019 est.)

Inflation rate (consumer prices): 3.5% (2019 est.)
3.2% (2018 est.)
4.3% (2017 est.)

country comparison to the world: 154

Credit ratings: *Fitch rating:* BBB- (2020)

Moody's rating: Baa2 (2014)

Standard & Poors rating: BBB- (2017)

note: The year refers to the year in which the current credit rating was first obtained.

GDP - composition, by sector of origin: *agriculture:* 7.2% (2017 est.)

industry: 30.8% (2017 est.)

services: 62.1% (2017 est.)

GDP - composition, by end use: *household consumption:* 68.2% (2017 est.)

government consumption: 14.8% (2017 est.)

investment in fixed capital: 22.2% (2017 est.)

investment in inventories: 0.2% (2017 est.)

exports of goods and services: 14.6% (2017 est.)

imports of goods and services: -19.7% (2017 est.)

Agricultural products: sugar cane, milk, oil palm fruit, potatoes, rice, bananas, cassava leaves, plantains, poultry, maize

Industries: textiles, food processing, oil, clothing and footwear, beverages, chemicals, cement; gold, coal, emeralds

Industrial production growth rate: -2.2% (2017 est.)

country comparison to the world: 185

Labor force: 19.309 million (2020 est.)

country comparison to the world: 28

Labor force - by occupation: agriculture: 17%

COMMUNICATIONS

Telephones - fixed lines: *total subscriptions:* 7,248,026 (2020 est.)
subscriptions per 100 inhabitants: 14 (2020 est.)
country comparison to the world: 22

Telephones - mobile cellular: *total subscriptions:* 67,672,570 (2020 est.)
subscriptions per 100 inhabitants: 133 (2020 est.)
country comparison to the world: 25

Telecommunication systems: *general assessment:* the telecom sector had a solid year thanks to positive performances in the fixed-line broadband, mobile broadband, and mobile voice and data markets; the fixed-line penetration remained stable by the end of 2020, though began to increase into 2021 as a result of the particular demands on households resulting from government measures associated with addressing the pandemic; the mobile market reached a penetration rate of 136% (an increase of over three percentage points on 2019) and managed to keep the same upward growth trajectory that it has sustained over the last ten years; the fixed-line broadband market also expanded, with the number of subscribers increasing 11.4%, and with revenue increasing 9.9% thanks to increased data usage as many customers were forced to work or study from home during the year; the mobile broadband market was the standout performer in 2020, with a 13% increase in the number of subscribers year-on-year, the penetration rate is relatively low compared to other Latin American countries; most significant of all was the surge in mobile broadband traffic a 51% increase over the previous year (2022)
domestic: fixed-line connections stand at about 14 per 100 persons; mobile cellular telephone subscribership is 133 per 100 persons; Partners Telecom Colombia's (WOM) market entrance in June 2021 increased competition among cellular service providers and is resulting in falling local and international calling rates and contributing to the steep decline in the market share of fixed-line services; domestic satellite system with 41 earth stations (2021)

international: country code - 57; landing points for the SAC, Maya-1, SAIT, ACROS, AMX-1, CFX-1, PCCS, Deep Blue Cable, Globe Net, PAN-AM, SAM-1 submarine cable systems providing links to the US, parts of the Caribbean, and Central and South America; satellite earth stations - 10 (6 Intelsat, 1 Inmarsat, 3 fully digitalized international switching centers) (2019)

Broadcast media: combination of state-owned and privately owned broadcast media provide service; more than 500 radio stations and many national, regional, and local TV stations (2019)

Internet country code: .co

Internet users: *total:* 35,618,019 (2020 est.)

percent of population: 70% (2020 est.)

country comparison to the world: 28

Broadband - fixed subscriptions: *total:* 7,764,772 (2020 est.)

subscriptions per 100 inhabitants: 15 (2020 est.)

country comparison to the world: 28

TRANSPORTATION

National air transport system: *number of registered air carriers:* 12 (2020)

inventory of registered aircraft operated by air carriers: 157

annual passenger traffic on registered air carriers: 33,704,037 (2018)

annual freight traffic on registered air carriers: 1,349,450,000 (2018) mt-km

Civil aircraft registration country code prefix: HJ, HK

Airports: *total:* 836 (2021)

country comparison to the world: 8

Airports - with paved runways: *total:* 121

over 3,047 m: 2

2,438 to 3,047 m: 9

1,524 to 2,437 m: 39

914 to 1,523 m: 53

under 914 m: 18 (2021)

Airports - with unpaved runways: *total:* 715

over 3,047 m: 1

1,524 to 2,437 m: 25

914 to 1,523 m: 201

under 914 m: 488 (2021)

Heliports: 3 (2021)

Pipelines: 4,991 km gas, 6,796 km oil, 3,429 km refined products (2013)

Railways: *total:* 2,141 km (2019)

standard gauge: 150 km (2019) 1.435-m gauge

narrow gauge: 1,991 km (2019) 0.914-m gauge

country comparison to the world: 72

Roadways: *total:* 205,379 km (2019)

country comparison to the world: 26

Waterways: 24,725 km (2019) (18,225 km navigable; the most important waterway, the River Magdalena, of which 1,092 km is navigable, is dredged regularly to ensure safe passage of cargo vessels and container barges)

country comparison to the world: 7

Merchant marine: *total:* 122

by type: general cargo 23, oil tanker 7, other 92 (2021)

country comparison to the world: 80

Ports and terminals: *major seaport(s):* Atlantic Ocean (Caribbean) - Cartagena, Santa Marta, Turbo

Pacific Ocean - Buenaventura: *oil terminal(s):* Covenas offshore terminal

container port(s) (TEUs): Buenaventura (1,121,267), Cartagena (2,995,031) (2019)

river port(s): Barranquilla (Rio Magdalena)

dry bulk cargo port(s): Puerto Bolivar (coal)

Pacific Ocean - Buenaventura

MILITARY AND SECURITY

Military and security forces: *Military Forces of Colombia (Fuerzas Militares de Colombia)*: National Army (Ejercito Nacional), Republic of Colombia Navy (Armada Republica de Colombia, ARC; includes Coast Guard), Colombian Air Force (Fuerza Aerea de Colombia, FAC); Colombian National Police (PNC; civilian force that is under the jurisdiction of the Ministry of Defense) (2022)

Military expenditures: 3% of GDP (2021 est.)

3% of GDP (2020 est.)

3.1% of GDP (2019) (approximately \$19.6 billion)

3.1% of GDP (2018) (approximately \$18.6 billion)

3.2% of GDP (2017) (approximately \$18.3 billion)

country comparison to the world: 32

Military and security service personnel strengths: approximately 260,000 total active troops (200,000 Army; 45,000 Navy, including about 20,000 marines; 14,000 Air Force); approximately 170,000 National Police (2022)

Military equipment inventories and acquisitions: the Colombian military inventory includes a wide mix of equipment from a variety of suppliers, including Canada, Europe, Israel, South Korea, and the US; Germany, Israel, and the US have been the leading suppliers of military hardware since 2010; Colombia's defense industry is active in producing air, land, and naval platforms (2022)

Military service age and obligation: 18-24 years of age for compulsory (men) and voluntary (men and women) military service; conscript service obligation is 18 months; conscripted soldiers reportedly include regular soldiers (conscripts without a high school degree), drafted high school graduates (bachilleres), and rural (campesino) soldiers who serve in their home regions (2022)

note: in 2020, conscripts reportedly comprised about 50% of the Colombian military's active force with approximately 60-90,000

conscripts brought into the military annually

Military deployments: 275 Egypt (MFO) (2022)

Military - note: as of 2022, the Colombian Armed Forces were primarily focused on internal security, particularly counter-narcotics, counter-terrorism, and counterinsurgency operations against drug traffickers, militants from several factions of the Revolutionary Armed Forces of Colombia (FARC) and National Liberation Army (ELN) terrorist/guerrilla organizations, and other illegal armed groups; the Colombian Government signed a peace agreement with the FARC in 2016, but some former members (known as dissidents) have returned to fighting (note - these dissident groups include the designated terrorist groups Revolutionary Armed Forces of Colombia - People's Army or FARC-EP and Segunda Marquetalia; see [Appendix T](#)); the Colombian military resumed operations against FARC dissidents and their successor paramilitary groups in late 2019; in 2017, the Colombian Government initiated formal peace talks with the ELN, but in January 2019, the government suspended the peace talks shortly after the ELN exploded a car bomb at the National Police Academy in Bogotá and resumed counter-terrorism/counterinsurgency operations against the group; operations against the FARC dissident groups and the ELN continued into 2022, although the Colombian Government resumed talks with ELN in November 2022; the military was also focused on the security challenges posed by its neighbor, Venezuela, where instability has attracted narcotics traffickers and both the ELN and FARC dissidents, including FARC-EP and Segunda Marquetalia, operate openly

Maritime threats: the International Maritime Bureau reports the territorial waters of Colombia are a risk for armed robbery against ships; in 2021, six attacks against commercial vessels were reported, an increase over the single attack in 2020; most of these occurred in the main port of Cartagena while ships were berthed or at anchor

TERRORISM

Terrorist group(s): National Liberation Army (ELN); Revolutionary Armed Forces of Colombia - People's Army (FARC-EP); Segunda Marquetalia

note: details about the history, aims, leadership, organization, areas of operation, tactics, targets, weapons, size, and sources of support of the group(s) appear(s) in Appendix-T

TRANSNATIONAL ISSUES

Disputes - international: in December 2007, ICJ allocated San Andres, Providencia, and Santa Catalina islands to Colombia under 1928 Treaty but did not rule on 82 degrees W meridian as maritime boundary with Nicaragua; managed dispute with Venezuela over maritime boundary and Venezuelan-administered Los Monjes Islands near the Gulf of Venezuela; Colombian-organized illegal narcotics, guerrilla, and paramilitary activities penetrate all neighboring borders and have caused Colombian citizens to flee mostly into neighboring countries; Colombia, Honduras, Nicaragua, Jamaica, and the US assert various claims to Bajo Nuevo and Serranilla Bank

Refugees and internally displaced persons: refugees (country of origin): 1,842,390 (Venezuela) (economic and political crisis; includes Venezuelans who have claimed asylum, are recognized as refugees, or received alternative legal stay) (2022)

IDPs: 8,258,460 (conflict between government and illegal armed groups and drug traffickers since 1985) (2022)
stateless persons: 11 (mid-year 2021)

Illicit drugs: Colombia is the world's top cocaine producer; exports and is a source of heroin and marijuana; coca cultivation was estimated at 245,000 hectares (ha) in 2020; potential pure cocaine production reached 1,010 metric tons in 2020

COMOROS

INTRODUCTION

Background: The archipelago of the Comoros in the Indian Ocean, composed of the islands of Mayotte, Anjouan, Moheli, and Grande Comore declared independence from France on 6 July 1975. Residents of Mayotte voted to remain in France, and France now has classified it as a department of France. Since independence, Comoros has endured political instability through realized and attempted coups. In 1997, the islands of Anjouan and Moheli declared independence from Comoros. In 1999, military chief Col. AZALI Assoumani seized power of the entire government in a bloodless coup; he initiated the 2000 Fomboni Accords, a power-sharing agreement in which the federal presidency rotates among the three islands, and each island maintains its local government. AZALI won the 2002 federal presidential election as president of the Union of the Comoros from Grande Comore Island, which held the first four-year term. AZALI stepped down in 2006 and President Ahmed Abdallah Mohamed SAMBI was elected as president from Anjouan. In 2007, Mohamed BACAR effected Anjouan's de-facto secession from the Union of the Comoros, refusing to step down when Comoros' other islands held legitimate elections in July. The African Union (AU) initially attempted to resolve the political crisis by applying sanctions and a naval blockade to Anjouan, but in March 2008 the AU and Comoran soldiers seized the island. The island's inhabitants generally welcomed the move. In 2009, the Comorian population approved a constitutional referendum extending the term of the president from four years to five years. In May 2011, Ikililou DHOININE won the presidency in peaceful elections widely deemed to be free and fair. In closely contested elections in 2016, former President AZALI Assoumani won a second term, when the rotating presidency returned to Grande Comore. A new July 2018 constitution removed the presidential term limits and the requirement for the presidency to rotate between the three main islands. In August 2018, President AZALI formed a new government and subsequently ran and was elected president in March 2019.

GEOGRAPHY

Location: Southern Africa, group of islands at the northern mouth of the Mozambique Channel, about two-thirds of the way between northern Madagascar and northern Mozambique

Geographic coordinates: 12 10 S, 44 15 E

Map references: Africa

Area: *total:* 2,235 sq km

land: 2,235 sq km

water: 0 sq km

country comparison to the world: 179

Area - comparative: slightly more than 12 times the size of Washington, DC

Land boundaries: *total:* 0 km

Coastline: 340 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: 200 nm

Climate: tropical marine; rainy season (November to May)

Terrain: volcanic islands, interiors vary from steep mountains to low hills

Elevation: *highest point:* Karthala 2,360 m

lowest point: Indian Ocean 0 m

Natural resources: fish

Land use: *agricultural land:* 84.4% (2018 est.)

arable land: 46.7% (2018 est.)

permanent crops: 29.6% (2018 est.)

permanent pasture: 8.1% (2018 est.)

forest: 1.4% (2018 est.)

other: 14.2% (2018 est.)

Irrigated land: 1.3 sq km (2012)

Population distribution: the capital city of Moroni, located on the western side of the island of Grande Comore, is the country's largest city; however, of the three islands that comprise Comoros, it is Anjouan that is the most densely populated as shown in this population distribution map

Natural hazards: cyclones possible during rainy season (December to April); volcanic activity on Grand Comore

volcanism: Karthala (2,361 m) on Grand Comore Island last erupted in 2007; a 2005 eruption forced thousands of people to be evacuated and produced a large ash cloud

Geography - note: important location at northern end of Mozambique Channel; the only Arab League country that lies entirely in the Southern Hemisphere

PEOPLE AND SOCIETY

Population: 876,437 (2022 est.)

country comparison to the world: 164

Nationality: *noun:* Comoran(s)

adjective: Comoran

Ethnic groups: Antalote, Cafre, Makoa, Oimatsaha, Sakalava

Languages: Arabic (official), French (official), Shikomoro (official; similar to Swahili) (Comorian)

Religions: Sunni Muslim 98%, other (including Shia Muslim, Roman Catholic, Jehovah's Witness, Protestant) 2%

note: Sunni Islam is the state religion

Demographic profile: Comoros' population is a melange of Arabs, Persians, Indonesians, Africans, and Indians, and the much smaller number of Europeans that settled on the islands between the 8th and 19th centuries, when they served as a regional trade hub. The Arab and Persian influence is most evident in the islands' overwhelmingly Muslim majority – about 98% of Comorans are Sunni Muslims. The country is densely populated, averaging nearly 350 people per square mile, although this varies widely among the islands, with Anjouan being the most densely populated.

Given the large share of land dedicated to agriculture and Comoros' growing population, habitable land is becoming increasingly crowded. The combination of increasing population pressure on limited land and resources, widespread poverty, and poor job prospects motivates thousands of Comorans each year to attempt to illegally migrate using small fishing boats to the neighboring island of Mayotte, which is a French territory. The majority of legal Comoran migration to France came after Comoros' independence from France in 1975, with the flow peaking in the mid-1980s.

At least 150,000 to 200,000 people of Comoran citizenship or descent live abroad, mainly in France, where they have gone seeking a better

quality of life, job opportunities, higher education (Comoros has no universities), advanced health care, and to finance elaborate traditional wedding ceremonies (aada). Remittances from the diaspora are an economic mainstay, in 2013 representing approximately 25% of Comoros' GDP and significantly more than the value of its exports of goods and services (only 15% of GDP). Grand Comore, Comoros' most populous island, is both the primary source of emigrants and the main recipient of remittances. Most remittances are spent on private consumption, but this often goes toward luxury goods and the aada and does not contribute to economic development or poverty reduction. Although the majority of the diaspora is now French-born with more distant ties to Comoros, it is unclear whether they will sustain the current level of remittances.

Age structure: 0-14 years: 36.68% (male 154,853/female 155,602)

15-24 years: 20.75% (male 85,208/female 90,422)

25-54 years: 33.99% (male 136,484/female 151,178)

55-64 years: 4.49% (male 17,237/female 20,781)

65 years and over: 4.08% (male 15,437/female 19,079) (2020 est.)

Dependency ratios: total dependency ratio: 75.5

youth dependency ratio: 67.4

elderly dependency ratio: 5.4

potential support ratio: 18.6 (2020 est.)

Median age: total: 20.9 years

male: 20.2 years

female: 21.5 years (2020 est.)

country comparison to the world: 188

Population growth rate: 1.37% (2022 est.)

country comparison to the world: 70

Birth rate: 22.52 births/1,000 population (2022 est.)

country comparison to the world: 55

Death rate: 6.55 deaths/1,000 population (2022 est.)

country comparison to the world: 135

Net migration rate: -2.25 migrant(s)/1,000 population (2022 est.)
country comparison to the world: 172

Population distribution: the capital city of Moroni, located on the western side of the island of Grande Comore, is the country's largest city; however, of the three islands that comprise Comoros, it is Anjouan that is the most densely populated as shown in this population distribution map

Urbanization: *urban population:* 29.9% of total population (2022)
rate of urbanization: 2.97% annual rate of change (2020-25 est.)

Major urban areas - population: 62,000 MORONI (capital) (2018)

Sex ratio: *at birth:* 1.03 male(s)/female

0-14 years: 1 male(s)/female

25-54 years: 0.91 male(s)/female

55-64 years: 0.85 male(s)/female

65 years and over: 0.76 male(s)/female

total population: 0.94 male(s)/female (2022 est.)

Mother's mean age at first birth: 23 years (2012 est.)

note: data represents median age at first birth among women 25-49

Maternal mortality ratio: 273 deaths/100,000 live births (2017 est.)

country comparison to the world: 40

Infant mortality rate: *total:* 57.1 deaths/1,000 live births

male: 67.17 deaths/1,000 live births

female: 46.73 deaths/1,000 live births (2022 est.)

country comparison to the world: 13

Life expectancy at birth: *total population:* 67.2 years

male: 64.93 years

female: 69.54 years (2022 est.)

country comparison to the world: 192

Total fertility rate: 2.78 children born/woman (2022 est.)

country comparison to the world: 56

Contraceptive prevalence rate: 19.4% (2012)

Drinking water source: *improved:* urban: 97.4% of population
rural: 88.5% of population
total: 91% of population
unimproved: urban: 2.6% of population
rural: 11.5% of population
total: 8.9% of population (2017 est.)

Current health expenditure: 5.2% of GDP (2019)

Physicians density: 0.26 physicians/1,000 population (2018)

Sanitation facility access: *improved:* urban: 62.4% of population
rural: 43.6% of population
total: 49% of population
unimproved: urban: 37.6% of population
rural: 56.4% of population
total: 51% of population (2017 est.)

HIV/AIDS - adult prevalence rate: (2020 est.) <0.1%

Obesity - adult prevalence rate: 7.8% (2016)

country comparison to the world: 157

Alcohol consumption per capita: *total:* 0.18 liters of pure alcohol (2019 est.)

beer: 0.04 liters of pure alcohol (2019 est.)

wine: 0.07 liters of pure alcohol (2019 est.)

spirits: 0.07 liters of pure alcohol (2019 est.)

other alcohols: 0 liters of pure alcohol (2019 est.)

country comparison to the world: 173

Tobacco use: *total:* 20.3% (2020 est.)

male: 29.5% (2020 est.)

female: 11.1% (2020 est.)

country comparison to the world: 83

Children under the age of 5 years underweight: 16.9% (2012)

country comparison to the world: 30

Education expenditures: 2.5% of GDP (2015 est.)

country comparison to the world: 168

Literacy: *definition:* age 15 and over can read and write

total population: 58.8%

male: 64.6%

female: 53% (2018)

School life expectancy (primary to tertiary education): *total:* 11 years

male: 11 years

female: 11 years (2014)

Unemployment, youth ages 15-24: *total:* 19.5%

male: 20%

female: 18.8% (2014)

ENVIRONMENT

Environment - current issues: deforestation; soil degradation and erosion results from forest loss and from crop cultivation on slopes without proper terracing; marine biodiversity affected as soil erosion leads to the silting of coral reefs

Environment - international agreements: party to: Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Ozone Layer Protection, Ship Pollution, Wetlands

signed, but not ratified: none of the selected agreements

Air pollutants: particulate matter emissions: 18.6 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 0.2 megatons (2016 est.)

methane emissions: 0.19 megatons (2020 est.)

Climate: tropical marine; rainy season (November to May)

Land use: *agricultural land:* 84.4% (2018 est.)

arable land: 46.7% (2018 est.)

permanent crops: 29.6% (2018 est.)

permanent pasture: 8.1% (2018 est.)

forest: 1.4% (2018 est.)

other: 14.2% (2018 est.)

Urbanization: *urban population:* 29.9% of total population (2022)

rate of urbanization: 2.97% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 1.39% of GDP (2018 est.)

country comparison to the world: 46

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 79

Waste and recycling: *municipal solid waste generated annually:*
91,013 tons (2015 est.)

Total water withdrawal: *municipal:* 4.8 million cubic meters (2017
est.)

industrial: 500,000 cubic meters (2017 est.)

agricultural: 4.7 million cubic meters (2017 est.)

Total renewable water resources: 1.2 billion cubic meters (2017
est.)

GOVERNMENT

Country name: *conventional long form:* Union of the Comoros

conventional short form: Comoros

local long form: Udzima wa Komori (Comorian)/ Union des Comores (French)/ Al Ittihad al Qumuri (Arabic)

local short form: Komori (Comorian)/ Les Comores (French)/ Juzur al Qamar (Arabic)

former: Comorian State, Federal Islamic Republic of the Comoros

etymology: name derives from the Arabic designation “Juzur al Qamar” meaning “Islands of the Moon”

Government type: federal presidential republic

Capital: *name:* Moroni

geographic coordinates: 11 42 S, 43 14 E

time difference: UTC+3 (8 hours ahead of Washington, DC, during Standard Time)

etymology: Moroni derives from “mroni,” which means “at the river” in Shingazidja, the Comorian language spoken on Grande Comore (N’gazidja)

Administrative divisions: 3 islands; Anjouan (Ndzuwani), Grande Comore (N’gazidja), Moheli (Mwali)

Independence: 6 July 1975 (from France)

National holiday: Independence Day, 6 July (1975)

Constitution: *history:* previous 1996, 2001; newest adopted 30 July 2018

amendments: proposed by the president of the union or supported by at least one third of the Assembly of the Union membership; adoption requires approval by at least three-quarters majority of the total Assembly membership or approval in a referendum

note: a referendum held on 30 July 2018 - boycotted by the opposition - overwhelmingly approved a new constitution that allows for 2

consecutive 5-year presidential terms and revises the rotating presidency within the islands

Legal system: mixed legal system of Islamic religious law, the French civil code of 1975, and customary law

International law organization participation: has not submitted an ICJ jurisdiction declaration; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of the Comoros

dual citizenship recognized: no

residency requirement for naturalization: 10 years

Suffrage: 18 years of age; universal

Executive branch: *chief of state:* President AZALI Assoumani (since 26 May 2016); note - the president is both chief of state and head of government

head of government: President AZALI Assoumani (since 26 May 2016)

cabinet: Council of Ministers appointed by the president

elections/appointments: president directly elected by simple majority popular vote in 2 rounds for a 5-year term (eligible for a second term); election last held on 24 March 2019 (next to be held in 2024)

election results: 2019: AZALI Assoumani (CRC) elected president in first round - AZALI Assoumani (CRC) 60.8%, Ahamada MAHAMOUDOU (PJ) 14.6%, Mouigni Baraka Said SOILIHI (Independent) 5.6%, other 19%

2016: AZALI Assoumani (CRC) elected president in the second round; percent of vote in first round - Mohamed Ali SOILIHI (UPDC) 17.6%, Mouigni BARAKA (RDC) 15.1%, AZALI Assoumani (CRC) 15%, Fahmi Said IBRAHIM (PEC) 14.5%, other 37.8%; percent of vote in second round - AZALI Assoumani (CRC) 41.4%, Mohamed Ali SOILIHI (UPDC) 39.7%; Mouigni BARAKA (RDC) 19%

Legislative branch: *description:* unicameral Assembly of the Union (33 seats; 24 members directly elected by absolute majority vote in 2

rounds if needed and 9 members indirectly elected by the 3 island assemblies; members serve 5-year terms) (2017)

elections: last held on 19 January 2020 with a runoff on 23 February 2020 (next to be held in 2025) (2020)

election results: seats by party -1st round - Boycotting parties 16, Independent 3, CRC 2, RDC 2, RADHI 1, Orange party 0; note - 9 additional seats filled by the 3 island assemblies; 2nd round - CRC 20, Orange Party 2, Independents 2; composition for elected members as of 2022 - men 20, women 4, percent of women 16.7% (2019)

Judicial branch: *highest court(s):* Supreme Court or Cour Supreme (consists of 7 judges)

judge selection and term of office: Supreme Court judges - selection and term of office NA

subordinate courts: Court of Appeals (in Moroni); Tribunal de premiere instance; island village (community) courts; religious courts

Political parties and leaders: only parties with seats in the Assembly of the Union listed:

Convention for the Renewal of the Comoros or CRC [AZALI Assoumani]

Orange Party [Mohamed DAOUDOU]

Independents (2018)

International organization participation: ACP, AfDB, AMF, AOSIS, AU, CAEU (candidates), COMESA, FAO, FZ, G-77, IBRD, ICAO, ICCt, ICRM, IDA, IDB, IFAD, IFC, IFRCs, ILO, IMF, IMO, IMSO, InOC, Interpol, IOC, IOM, ITSO, ITU, ITUC (NGOs), LAS, MIGA, NAM, OIC, OIF, OPCW, UN, UNCTAD, UNESCO, UNIDO, UPU, WCO, WHO, WIPO, WMO, WTO (observer)

Diplomatic representation in the US: *chief of mission:* Ambassador Issmail CHANFI (since 23 December 2020)

chancery: Mission to the UN, 866 United Nations Plaza, Suite 495, New York, NY 10017

telephone: [1] (212) 750-1637

FAX: [1] (212) 750-1657

email address and website:

comoros@un.int

<https://www.un.int/comoros/>

Diplomatic representation from the US: *embassy:* the US does not have an embassy in Comoros; the US Ambassador to Madagascar is accredited to Comoros

Flag description: four equal horizontal bands of yellow (top), white, red, and blue, with a green isosceles triangle based on the hoist; centered within the triangle is a vertical white crescent moon with the convex side facing the hoist and four white, five-pointed stars placed vertically in a line between the points of the crescent; the horizontal bands and the four stars represent the four main islands of the archipelago - Mwali, N'gazidja, Ndzuwani, and Mahore (Mayotte - department of France, but claimed by Comoros)

note: the crescent, stars, and color green are traditional symbols of Islam

National symbol(s): four five-pointed stars and crescent moon; national colors: green, white

National anthem: *name:* "Udzima wa ya Masiwa" (The Union of the Great Islands)

lyrics/music: Said Hachim SIDI ABDEREMANE/Said Hachim SIDI ABDEREMANE and Kamildine ABDALLAH

note: adopted 1978

ECONOMY

Economic overview: One of the world's poorest and smallest economies, the Comoros is made up of three islands that are hampered by inadequate transportation links, a young and rapidly increasing population, and few natural resources. The low educational level of the labor force contributes to a subsistence level of economic activity and a heavy dependence on foreign grants and technical assistance. Agriculture, including fishing, hunting, and forestry, accounts for about 50% of GDP, employs a majority of the labor force, and provides most of the exports. Export income is heavily reliant on the three main crops of vanilla, cloves, and ylang ylang (perfume essence); and the Comoros' export earnings are easily disrupted by disasters such as fires and extreme weather. Despite agriculture's importance to the economy, the country imports roughly 70% of its food; rice, the main staple, and other dried vegetables account for more than 25% of imports. Remittances from about 300,000 Comorans contribute about 25% of the country's GDP. France, Comoros's colonial power, remains a key trading partner and bilateral donor.

Comoros faces an education system in need of upgrades, limited opportunities for private commercial and industrial enterprises, poor health services, limited exports, and a high population growth rate. Recurring political instability, sometimes initiated from outside the country, and an ongoing electricity crisis have inhibited growth. The government, elected in mid-2016, has moved to improve revenue mobilization, reduce expenditures, and improve electricity access, although the public sector wage bill remains one of the highest in Sub-Saharan Africa. In mid-2017, Comoros joined the Southern African Development Community with 15 other regional member states.

Real GDP (purchasing power parity): \$2.73 billion (2020 est.)

\$2.6 billion (2019 est.)

\$2.55 billion (2018 est.)

paved: 673 km (2002)

unpaved: 207 km (2002)

country comparison to the world: 188

Merchant marine: *total:* 236

by type: bulk carrier 8, container ship 7, general cargo 112, oil tanker 31, other 78 (2021)

country comparison to the world: 63

Ports and terminals: *major seaport(s):* Moroni, Moutsamoudou

MILITARY AND SECURITY

Military and security forces: National Army for Development (l'Armee Nationale de Developpement, AND); Comoran Security Force (also called Comoran Defense Force (Force Comorienne de Defense, FCD), includes Gendarmerie); Ministry of Interior: Coast Guard, Federal Police, National Directorate of Territorial Safety (2022)

note: when the Gendarmerie serves as the judicial police, it reports to the Minister of Justice

Military and security service personnel strengths: estimated 600 Defense Force personnel; estimated 500 Federal Police (2022)

Military equipment inventories and acquisitions: the defense forces are lightly armed with a mix of mostly older equipment from a variety of countries, including France, Italy, Russia, and the US (2021)

Military service age and obligation: 18 years of age for 2-year voluntary military service for men and women; no conscription (2021)

Military - note: the security forces are limited in capabilities to performing search and rescue operations and maintaining internal security; a defense treaty with France provides naval resources for protection of territorial waters, training of Comoran military personnel, and air surveillance; France maintains a small maritime base and a Foreign Legion contingent on neighboring Mayotte (2022)

TRANSNATIONAL ISSUES

Disputes - international: claims French-administered Mayotte and challenges France's and Madagascar's claims to Banc du Geyser, a drying reef in the Mozambique Channel; in May 2008, African Union forces assisted the Comoros military in recapturing Anjouan Island from rebels who seized it in 2001

Trafficking in persons: *current situation:* human traffickers may exploit domestic and foreign victims in Comoros and Comorians abroad; some Comorian and Malagasy women are subject to forced labor in the Middle East; adults and children may be forced to work in agriculture, construction, or as domestics in Mayotte; children abandoned by parents who left to seek jobs abroad are vulnerable to exploitation in domestic service, vending, baking, fishing, and agriculture; children from poor families whose parents place them with a relative or acquaintance for educational opportunities are vulnerable to domestic servitude and physical and sexual abuse; some children in Koranic schools may experience forced labor in agriculture or domestic servitude; inadequate border controls; government corruption, and international crime networks leave Comorians vulnerable to international trafficking

tier rating:

Tier 3 — Comoros does not fully meet the minimum standards for the elimination of trafficking is not making significant efforts to do so; the Anti-Trafficking Task Force met for the first time since 2017 and began drafting a national action plan for combatting trafficking; the government took steps to ratify the 2000 UN TIP Protocol and supported centers that identify and provide care to victims of crime, would include trafficking victims; however, authorities continued to lack an understanding of trafficking and did not make any anti-trafficking law enforcement efforts; the government did not investigate, prosecute, or convict any alleged traffickers or officials suspected of complicity in trafficking; the government did not develop any standing operating procedures for identifying trafficking victims and referring them to limited care

providers; no public awareness campaigns were conducted (2020)

CONGO, DEMOCRATIC REPUBLIC OF THE

INTRODUCTION

Background: The Kingdom of Kongo ruled the area around the mouth of the Congo River from the 14th to 19th centuries. To the center and east, the Kingdoms of Luba and Lunda ruled from the 16th and 17th centuries to the 19th century. In the 1870s, European exploration of the Congo Basin, sponsored by King LEOPOLD II of Belgium, eventually allowed the ruler to acquire rights to the Congo territory and to make it his private property under the name of the Congo Free State. During the Free State, the king's colonial military forced the local population to produce rubber. From 1885 to 1908, millions of Congolese people died as a result of disease and exploitation. International condemnation finally forced LEOPOLD to cede the land to Belgium, creating the Belgian Congo.

The Republic of the Congo gained its independence from Belgium in 1960, but its early years were marred by political and social instability. Col. Joseph MOBUTU seized power and declared himself president in a November 1965 coup. He subsequently changed his name - to MOBUTU Sese Seko - as well as that of the country - to Zaire. MOBUTU retained his position for 32 years through several sham elections, as well as through brutal force. Ethnic strife and civil war, touched off by a massive inflow of refugees in 1994 from conflict in Rwanda and Burundi, led in May 1997 to the toppling of the MOBUTU regime by a rebellion backed by Rwanda and Uganda and fronted by Laurent KABILA. KABILA renamed the country the Democratic Republic of the Congo (DRC), but in August 1998 his regime was itself challenged by a second insurrection again backed by Rwanda and Uganda. Troops from Angola, Chad, Namibia, Sudan, and Zimbabwe intervened to support KABILA's regime. In January 2001, KABILA was assassinated and his son, Joseph KABILA, was named head of state. In October 2002, the new president was successful in negotiating the withdrawal of Rwandan forces occupying the eastern DRC; two months later, the Pretoria Accord was signed by all remaining warring parties to end the fighting and establish a government of national unity. Presidential, National Assembly, and

provincial elections took place in 2006, with Joseph KABILA elected to office.

National elections were held in November 2011 and disputed results allowed Joseph KABILA to be reelected to the presidency. While the DRC constitution barred President KABILA from running for a third term, the DRC Government delayed national elections originally slated for November 2016, to 30 December 2018. This failure to hold elections as scheduled fueled significant civil and political unrest, with sporadic street protests by KABILA's opponents and exacerbation of tensions in the tumultuous eastern DRC regions. Presidential, legislative, and provincial elections were held in late December 2018 and early 2019 across most of the country. The DRC Government canceled presidential elections in the cities of Beni and Butembo (citing concerns over an ongoing Ebola outbreak in the region) as well as Yumbi (which had recently experienced heavy violence).

Opposition candidate Felix TSHISEKEDI was announced the election winner on 10 January 2019 and inaugurated two weeks later. This was the first transfer of power to an opposition candidate without significant violence or a coup since the DRC's independence.

The DRC, particularly in the East, continues to experience violence perpetrated by more than 100 armed groups active in the region, including the Allied Democratic Forces, the Democratic Forces for the Liberation of Rwanda, and assorted Mai Mai militias. The UN Organization Stabilization Mission in the DRC (MONUSCO) has operated in the region since 1999 and is the largest and most expensive UN peacekeeping mission in the world.

GEOGRAPHY

Location: Central Africa, northeast of Angola

Geographic coordinates: 0 00 N, 25 00 E

Map references: Africa

Area: *total:* 2,344,858 sq km

land: 2,267,048 sq km

water: 77,810 sq km

country comparison to the world: 12

Area - comparative: slightly less than one-fourth the size of the US

Land boundaries: *total:* 11,027 km

border countries (9): Angola 2,646 km (of which 225 km is the boundary of Angola's discontiguous Cabinda Province); Burundi 236 km; Central African Republic 1,747 km; Republic of the Congo 1,775 km; Rwanda 221 km; South Sudan 714 km; Tanzania 479 km; Uganda 877 km; Zambia 2,332 km

Coastline: 37 km

Maritime claims: *territorial sea:* 12 nm

exclusive economic zone: since 2011, the DRC has had a Common Interest Zone agreement with Angola for the mutual development of off-shore resources

Climate: tropical; hot and humid in equatorial river basin; cooler and drier in southern highlands; cooler and wetter in eastern highlands; north of Equator - wet season (April to October), dry season (December to February); south of Equator - wet season (November to March), dry season (April to October)

Terrain: vast central basin is a low-lying plateau; mountains in east

Elevation: *highest point:* Pic Marguerite on Mont Ngaliema (Mount Stanley) 5,110 m

lowest point: Atlantic Ocean 0 m

mean elevation: 726 m

Natural resources: cobalt, copper, niobium, tantalum, petroleum, industrial and gem diamonds, gold, silver, zinc, manganese, tin, uranium, coal, hydropower, timber

Land use: *agricultural land:* 11.4% (2018 est.)

arable land: 3.1% (2018 est.)

permanent crops: 0.3% (2018 est.)

permanent pasture: 8% (2018 est.)

forest: 67.9% (2018 est.)

other: 20.7% (2018 est.)

Irrigated land: 110 sq km (2012)

Major lakes (area sq km): *fresh water lake(s):* Lake Tanganyika (shared with Burundi, Tanzania, and Zambia) - 32,000 sq km; Lake Albert (shared with Uganda) - 5,590 sq km; Lake Mweru (shared with Zambia) - 4,350 sq km; Lac Mai-Ndombe - 2,300 sq km; Lake Kivu (shared with Rwanda) - 2,220 sq km; Lake Edward (shared with Uganda) - 2,150 sq km; Lac Tumba - 500 sq km; Lac Upemba - 530 sq km

Major rivers (by length in km): Congo river mouth (shared with Zambia [s], Angola, and Republic of Congo) - 4,700 km; Ubangi river mouth (shared with Central African Republic [s] and Republic of Congo) - 2,270 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Congo (3,730,881 sq km), (Mediterranean Sea) Nile (3,254,853 sq km)

Indian Ocean drainage: Zambezi (1,332,412 sq km)

Major aquifers: Congo Basin

Population distribution: urban clusters are spread throughout the country, particularly in the northeast along the border with Uganda, Rwanda, and Burundi; the largest city is the capital, Kinshasha, located in the west along the Congo River; the south is least densely populated as

shown in this population distribution map

Natural hazards: periodic droughts in south; Congo River floods (seasonal); active volcanoes in the east along the Great Rift Valley

volcanism: Nyiragongo (3,470 m), which erupted in 2002 and is experiencing ongoing activity, poses a major threat to the city of Goma, home to a quarter million people; the volcano produces unusually fast-moving lava, known to travel up to 100 km /hr; Nyiragongo has been deemed a Decade Volcano by the International Association of Volcanology and Chemistry of the Earth's Interior, worthy of study due to its explosive history and close proximity to human populations; its neighbor, Nyamuragira, which erupted in 2010, is Africa's most active volcano; Visoke is the only other historically active volcano

Geography - note: *note 1:* second largest country in Africa (after Algeria) and largest country in Sub-Saharan Africa; straddles the equator; dense tropical rain forest in central river basin and eastern highlands; the narrow strip of land that controls the lower Congo River is the DRC's only outlet to the South Atlantic Ocean

note 2: because of its speed, cataracts, rapids, and turbulence the Congo River, most of which flows through the DRC, has never been accurately measured along much of its length; nonetheless, it is conceded to be the deepest river in the world; estimates of its greatest depth vary between 220 and 250 meters

PEOPLE AND SOCIETY

Population: 108,407,721 (2022 est.)

country comparison to the world: 14

Nationality: *noun:* Congolese (singular and plural)

adjective: Congolese or Congo

Ethnic groups: more than 200 African ethnic groups of which the majority are Bantu; the four largest tribes - Mongo, Luba, Kongo (all Bantu), and the Mangbetu-Azande (Hamitic) - make up about 45% of the population

Languages: French (official), Lingala (a lingua franca trade language), Kingwana (a dialect of Kiswahili or Swahili), Kikongo, Tshiluba

major-language sample(s): Buku oyo ya bosembo ya Mokili Mobimba Ezali na Makanisi ya Liboso Mpenza. (Lingala)

Religions: Roman Catholic 29.9%, Protestant 26.7%, other Christian 36.5%, Kimbanguist 2.8%, Muslim 1.3%, other (includes syncretic sects and indigenous beliefs) 1.2%, none 1.3%, unspecified 0.2% (2014 est.)

Demographic profile: Despite a wealth of fertile soil, hydroelectric power potential, and mineral resources, the Democratic Republic of the Congo (DRC) struggles with many socioeconomic problems, including high infant and maternal mortality rates, malnutrition, poor vaccination coverage, lack of access to improved water sources and sanitation, and frequent and early fertility. Ongoing conflict, mismanagement of resources, and a lack of investment have resulted in food insecurity; almost 30% of children under the age of 5 are malnourished. The overall coverage of basic public services – education, health, sanitation, and potable water – is very limited and piecemeal, with substantial regional and rural/urban disparities. Fertility remains high at more than 5 children per woman and is likely to remain high because of the low use of contraception and the cultural preference for larger families.

The DRC is a source and host country for refugees. Between 2012 and 2014, more than 119,000 Congolese refugees returned from the Republic

of Congo to the relative stability of northwest DRC, but more than 850,000 Congolese refugees and asylum seekers were hosted by neighboring countries as of December 2021. In addition, an estimated 5.5 million Congolese were internally displaced as of July 2022, the vast majority fleeing violence between rebel group and Congolese armed forces. Thousands of refugees have come to the DRC from neighboring countries, including Rwanda, the Central African Republic, South Sudan, and Burundi.

Age structure: 0-14 years: 46.38% (male 23,757,297/female 23,449,057)

15-24 years: 19.42% (male 9,908,686/female 9,856,841)

25-54 years: 28.38% (male 14,459,453/female 14,422,912)

55-64 years: 3.36% (male 1,647,267/female 1,769,429)

65 years and over: 2.47% (male 1,085,539/female 1,423,782) (2020 est.)

male: 16.5 years

female: 16.8 years (2020 est.)

country comparison to the world: 222

Population growth rate: 3.14% (2022 est.)

country comparison to the world: 9

Birth rate: 40.08 births/1,000 population (2022 est.)

country comparison to the world: 7

Death rate: 7.94 deaths/1,000 population (2022 est.)

country comparison to the world: 95

Net migration rate: -0.71 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 131

Population distribution: urban clusters are spread throughout the country, particularly in the northeast along the border with Uganda, Rwanda, and Burundi; the largest city is the capital, Kinshasha, located in the west along the Congo River; the south is least densely populated as shown in this population distribution map

Urbanization: *urban population:* 46.8% of total population (2022)
rate of urbanization: 4.33% annual rate of change (2020-25 est.)

Major urban areas - population: 15.628 million KINSHASA (capital), 2.765 million Mbuji-Mayi, 2.695 million Lubumbashi, 1.593 million Kananga, 1.366 million Kisangani, 1.190 million Bukavu (2022)

Sex ratio: *at birth:* 1.03 male(s)/female

0-14 years: 1.01 male(s)/female

15-24 years: 1.01 male(s)/female

25-54 years: 1 male(s)/female

55-64 years: 0.94 male(s)/female

65 years and over: 0.6 male(s)/female

total population: 1 male(s)/female (2022 est.)

Mother's mean age at first birth: 19.9 years (2013/14 est.)

note: data represents median age at first birth among women 20-49

Maternal mortality ratio: 473 deaths/100,000 live births (2017 est.)

country comparison to the world: 23

Infant mortality rate: *total:* 60.85 deaths/1,000 live births

male: 66.49 deaths/1,000 live births

female: 55.03 deaths/1,000 live births (2022 est.)

country comparison to the world: 10

Life expectancy at birth: *total population:* 61.83 years

male: 60.03 years

female: 63.69 years (2022 est.)

country comparison to the world: 216

Total fertility rate: 5.63 children born/woman (2022 est.)

country comparison to the world: 3

Contraceptive prevalence rate: 28.1% (2017/18)

Drinking water source: *improved: urban:* 88.8% of population

rural: 34.7% of population

total: 59.4% of population

unimproved: urban: 11.2% of population

rural: 65.3% of population

total: 40.6% of population (2020 est.)

Current health expenditure: 3.5% of GDP (2019)

Physicians density: 0.38 physicians/1,000 population (2018)

Sanitation facility access: *improved: urban:* 53.4% of population

rural: 20.5% of population

total: 35.5% of population

unimproved: urban: 46.6% of population

rural: 79.5% of population

total: 64.5% of population (2020 est.)

HIV/AIDS - adult prevalence rate: 0.7% (2020 est.)

country comparison to the world: 55

Major infectious diseases: *degree of risk:* very high (2020)

food or waterborne diseases: bacterial and protozoal diarrhea, hepatitis A, and typhoid fever

vectorborne diseases: malaria, dengue fever, and trypanosomiasis-gambiense (African sleeping sickness)

water contact diseases: schistosomiasis

animal contact diseases: rabies

note: on 21 March 2022, the US Centers for Disease Control and Prevention (CDC) issued a Travel Alert for polio in Africa; the Democratic Republic of the Congo is currently considered a high risk to travelers for circulating vaccine-derived polioviruses (cVDPV); vaccine-derived poliovirus (VDPV) is a strain of the weakened poliovirus that was initially included in oral polio vaccine (OPV) and that has changed over time and behaves more like the wild or naturally occurring virus; this

means it can be spread more easily to people who are unvaccinated against polio and who come in contact with the stool or respiratory secretions, such as from a sneeze, of an “infected” person who received oral polio vaccine; the CDC recommends that before any international travel, anyone unvaccinated, incompletely vaccinated, or with an unknown polio vaccination status should complete the routine polio vaccine series; before travel to any high-risk destination, the CDC recommends that adults who previously completed the full, routine polio vaccine series receive a single, lifetime booster dose of polio vaccine

Obesity - adult prevalence rate: 6.7% (2016)

country comparison to the world: 164

Alcohol consumption per capita: *total:* 0.56 liters of pure alcohol (2019 est.)

beer: 0.5 liters of pure alcohol (2019 est.)

wine: 0.01 liters of pure alcohol (2019 est.)

spirits: 0.05 liters of pure alcohol (2019 est.)

other alcohols: 0 liters of pure alcohol (2019 est.)

country comparison to the world: 161

Tobacco use: *total:* 12.8% (2020 est.)

male: 22.7% (2020 est.)

female: 2.9% (2020 est.)

country comparison to the world: 119

Children under the age of 5 years underweight: 23.1% (2017/18)

country comparison to the world: 13

Child marriage: *women married by age 15:* 0%

women married by age 18: 0.1%

men married by age 18: 0% (2017 est.)

Education expenditures: 1.5% of GDP (2017 est.)

country comparison to the world: 184

Literacy: *definition:* age 15 and over can read and write French, Lingala, Kingwana, or Tshiluba

total population: 77%

male: 88.5%

female: 66.5% (2016)

School life expectancy (primary to tertiary education): *total: 11*
years

male: 10 years

female: 9 years (2013)

Unemployment, youth ages 15-24: *total: 8.7%*

male: 11.3%

female: 6.8% (2012 est.)

ENVIRONMENT

Environment - current issues: poaching threatens wildlife populations; water pollution; deforestation (forests endangered by fires set to clear the land for agricultural purposes; forests also used as a source of fuel); soil erosion; mining (diamonds, gold, coltan - a mineral used in creating capacitors for electronic devices) causing environmental damage

Environment - international agreements: *party to:* Biodiversity, Climate Change, Climate Change-Kyoto Protocol, Climate Change-Paris Agreement, Comprehensive Nuclear Test Ban, Desertification, Endangered Species, Hazardous Wastes, Law of the Sea, Marine Dumping-London Convention, Nuclear Test Ban, Ozone Layer Protection, Tropical Timber 2006, Wetlands
signed, but not ratified: Environmental Modification

Air pollutants: *particulate matter emissions:* 37.62 micrograms per cubic meter (2016 est.)

carbon dioxide emissions: 2.02 megatons (2016 est.)

methane emissions: 61.24 megatons (2020 est.)

Climate: tropical; hot and humid in equatorial river basin; cooler and drier in southern highlands; cooler and wetter in eastern highlands; north of Equator - wet season (April to October), dry season (December to February); south of Equator - wet season (November to March), dry season (April to October)

Land use: *agricultural land:* 11.4% (2018 est.)

arable land: 3.1% (2018 est.)

permanent crops: 0.3% (2018 est.)

permanent pasture: 8% (2018 est.)

forest: 67.9% (2018 est.)

other: 20.7% (2018 est.)

Urbanization: *urban population:* 46.8% of total population (2022)

rate of urbanization: 4.33% annual rate of change (2020-25 est.)

Revenue from forest resources: *forest revenues:* 8.72% of GDP (2018 est.)

country comparison to the world: 6

Revenue from coal: *coal revenues:* 0% of GDP (2018 est.)

country comparison to the world: 80

Food insecurity: *widespread lack of access:* due to internal conflict in eastern regions and economic downturn - given the recent escalation of conflicts in the eastern provinces and the consequent population displacement, the magnitude and severity of acute food insecurity may exceed the projected levels; additionally, elevated staple food prices, both domestically and globally, pose a further risk to food insecurity (2022)

Waste and recycling: *municipal solid waste generated annually:* 14,385,226 tons (2016 est.)

municipal solid waste recycled annually: 704,876 tons (2005 est.)

percent of municipal solid waste recycled: 4.9% (2005 est.)

Major lakes (area sq km): *fresh water lake(s):* Lake Tanganyika (shared with Burundi, Tanzania, and Zambia) - 32,000 sq km; Lake Albert (shared with Uganda) - 5,590 sq km; Lake Mweru (shared with Zambia) - 4,350 sq km; Lac Mai-Ndombe - 2,300 sq km; Lake Kivu (shared with Rwanda) - 2,220 sq km; Lake Edward (shared with Uganda) - 2,150 sq km; Lac Tumba - 500 sq km; Lac Upemba - 530 sq km

Major rivers (by length in km): Congo river mouth (shared with Zambia [s], Angola, and Republic of Congo) - 4,700 km; Ubangi river mouth (shared with Central African Republic [s] and Republic of Congo) - 2,270 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): *Atlantic Ocean drainage:* Congo (3,730,881 sq km), (Mediterranean Sea) Nile (3,254,853 sq km)

Indian Ocean drainage: Zambezi (1,332,412 sq km)

Major aquifers: Congo Basin

Total water withdrawal: *municipal:* 464.9 million cubic meters (2017 est.)

industrial: 146.8 million cubic meters (2017 est.)

agricultural: 71.9 million cubic meters (2017 est.)

Total renewable water resources: 1.283 trillion cubic meters (2017 est.)

GOVERNMENT

Country name: *conventional long form:* Democratic Republic of the Congo

conventional short form: DRC

local long form: Republique Democratique du Congo

local short form: RDC

former: Congo Free State, Belgian Congo, Congo/Leopoldville, Congo/Kinshasa, Zaire

abbreviation: DRC (or DROC)

etymology: named for the Congo River, most of which lies within the DRC; the river name derives from Kongo, a Bantu kingdom that occupied its mouth at the time of Portuguese discovery in the late 15th century and whose name stems from its people the Bakongo, meaning “hunters”

Government type: semi-presidential republic

Capital: *name:* Kinshasa

geographic coordinates: 4 19 S, 15 18 E

time difference: UTC+1 (6 hours ahead of Washington, DC, during Standard Time)

time zone note: the DRC has two time zones

etymology: founded as a trading post in 1881 and named Leopoldville in honor of King LEOPOLD II of the Belgians, who controlled the Congo Free State, the vast central African territory that became the Democratic Republic of the Congo in 1960; in 1966, Leopoldville was renamed Kinshasa, after a village of that name that once stood near the site

Administrative divisions: 26 provinces (provinces, singular - province); Bas-Uele (Lower Uele), Equateur, Haut-Katanga (Upper Katanga), Haut-Lomami (Upper Lomami), Haut-Uele (Upper Uele), Ituri, Kasai, Kasai-Central, Kasai-Oriental (East Kasai), Kinshasa, Kongo Central, Kwango, Kwilu, Lomami, Lualaba, Mai-Ndombe, Maniema, Mongala, Nord-Kivu (North Kivu), Nord-Ubangi (North Ubangi), Sankuru, Sud-Kivu (South Kivu), Sud-Ubangi (South Ubangi), Tanganyika, Tshopo, Tshuapa

Independence: 30 June 1960 (from Belgium)

National holiday: Independence Day, 30 June (1960)

Constitution: *history:* several previous; latest adopted 13 May 2005, approved by referendum 18-19 December 2005, promulgated 18 February 2006

amendments: proposed by the president of the republic, by the government, by either house of Parliament, or by public petition; agreement on the substance of a proposed bill requires absolute majority vote in both houses; passage requires a referendum only if both houses in joint meeting fail to achieve three-fifths majority vote; constitutional articles, including the form of government, universal suffrage, judicial independence, political pluralism, and personal freedoms, cannot be amended; amended 2011

Legal system: civil law system primarily based on Belgian law, but also customary and tribal law

International law organization participation: accepts compulsory ICJ jurisdiction with reservations; accepts ICCt jurisdiction

Citizenship: *citizenship by birth:* no

citizenship by descent only: at least one parent must be a citizen of the Democratic Republic of the Congo

dual citizenship recognized: no

residency requirement for naturalization: 5 years

Suffrage: 18 years of age; universal and compulsory

Executive branch: *chief of state:* President Felix TSHISEKEDI (since 24 January 2019)

head of government: Prime Minister Anatole Collinet MAKOSSO (since 12 May 2021); Deputy Prime Ministers Jose MAKILA, Leonard She OKITUNDU, Henri MOVA Sankanyi (since February 2018)

cabinet: Ministers of State appointed by the president

elections/appointments: president directly elected by simple majority vote for a 5-year term (eligible for a second term); election last held on 30 December 2018 (next to be held in December 2023); prime minister

appointed by the president

election results: Felix TSHISEKEDI elected president; percent of vote - Felix TSHISEKEDI (UDPS) 38.6%, Martin FAYULU (Lamuka coalition) 34.8%, Emmanuel Ramazani SHADARY (PPRD) 23.9%, other 2.7%; note - election marred by serious voting irregularities (2018)

Legislative branch: *description:* bicameral Parliament or Parlement consists of:

Senate (109 seats; 109 members to include 108 indirectly elected by provincial assemblies by proportional representation vote to serve 5-year terms and a former president, appointed for life)

National Assembly (500 seats; 439 members directly elected in multi-seat constituencies by proportional representation vote and 61 directly elected in single-seat constituencies by simple majority vote; members serve 5-year terms)

elections: Senate - last held on 14 March 2019

National Assembly - last held on 30 December 2018 (first round), 31 March 2019 (second round): *election results:* Senate - percent of vote by party - NA; seats by party - PPRD 22, MLC 14, FR 7, RCD 7, PDC 6, CDC 3, MSR 3, PALU 2, other 18, independent 26; composition as of 2022 - men 83, women 26, percent of women 23.9% National Assembly - percent of vote by party - NA; seats by party - PPRD 62, UDPS 41, PPPD 29, MSR 27, MLC 22, PALU 19, UNC 17, ARC 16, AFDC 15, ECT 11, RRC 11, other 214 (includes numerous political parties that won 10 or fewer seats and 2 constituencies where voting was halted), independent 16; composition as of 2022 - men 436, women 64, percent of women 12.8%; total Parliament percent of women 14.8%

Judicial branch: *highest court(s):* Court of Cassation or Cour de Cassation (consists of 26 justices and organized into legislative and judiciary sections); Constitutional Court (consists of 9 judges)

judge selection and term of office: Court of Cassation judges nominated by the Judicial Service Council, an independent body of public prosecutors and selected judges of the lower courts; judge tenure NA; Constitutional Court judges - 3 nominated by the president, 3 by the

Judicial Service Council, and 3 by the legislature; judges appointed by the president to serve 9-year non-renewable terms with one-third of the membership renewed every 3 years

subordinate courts: State Security Court; Court of Appeals (organized into administrative and judiciary sections); Tribunal de Grande; magistrates' courts; customary courts

Political parties and leaders: Christian Democrat Party or PDC [Jose ENDUNDO]

Congolese Rally for Democracy or RCD [Azarias RUBERWA]

Convention of Christian Democrats or CDC

Engagement for Citizenship and Development or ECiDe [Martin FAYULU]

Forces of Renewal or FR [Mbusa NYAMWISI]

Lamuka coalition [Martin FAYULU] (includes ECiDe, MLC, Together for Change, CNB, and, Nouvel Elan)

Movement for the Liberation of the Congo or MLC [Jean-Pierre BEMBA]

Nouvel Elan [Adolphe MUZITO]

Our Congo or CNB ("Congo Na Bisu") [Freddy MATUNGULU]

People's Party for Reconstruction and Democracy or PPRD [Henri MOVA Sakanyi]

Social Movement for Renewal or MSR [Pierre LUMBI]

Together for Change ("Ensemble") [Moise KATUMBI]

Unified Lumumbist Party or PALU

Union for the Congolese Nation or UNC [Vital KAMERHE]

Union for Democracy and Social Progress or UDPS [Felix TSHISEKEDI]

International organization participation: ACP, AfDB, AU, CEMAC, CEPGL, COMESA, EITI (compliant country), FAO, G-24, G-77, IAEA, IBRD, ICAO, ICC (NGOs), ICCT, ICRM, IDA, IFAD, IFC, IFRCS, IHO, ILO, IMF, IMO, Interpol, IOC, IOM, IPU, ISO, ITSO, ITU, ITUC (NGOs), LCBC (observer), MIGA, NAM, OIF, OPCW, PCA, SADC, UN, UNCTAD, UNESCO, UNHCR, UNIDO, UNWTO, UPU,

WCO, WFTU (NGOs), WHO, WIPO, WMO, WTO

Diplomatic representation in the US: *chief of mission:* Ambassador Marie-Hélène MATHEY-BOO (since 6 June 2022)

chancery: 1100 Connecticut Avenue NW, Suite 725, Washington DC 20036

telephone: [1] (202) 234-7690; [1] (202) 234-7691

FAX: [1] (202) 234-2609

email address and website:

<https://www.ambardcusa.org/>

representative office: New York

Diplomatic representation from the US: *chief of mission:* Ambassador Michael A. HAMMER (since 22 December 2018)

embassy: 310 Avenue des Aviateurs, Kinshasa, Gombe

mailing address: 2220 Kinshasa Place, Washington DC 20521-2220

telephone: [243] 081 556-0151

FAX: [243] 81 556-0175

Flag description: sky blue field divided diagonally from the lower hoist corner to upper fly corner by a red stripe bordered by two narrow yellow stripes; a yellow, five-pointed star appears in the upper hoist corner; blue represents peace and hope, red the blood of the country's martyrs, and yellow the country's wealth and prosperity; the star symbolizes unity and the brilliant future for the country

National symbol(s): *leopard; national colors:* sky blue, red, yellow

National anthem: *name:* "Debout Congolaise" (Arise Congolese)

lyrics/music: Joseph LUTUMBA/Simon-Pierre BOKA di Mpasi Londi

note: adopted 1960; replaced when the country was known as Zaire; but readopted in 1997

National heritage: *total World Heritage Sites:* 5 (all natural)

selected World Heritage Site locales: Garamba National Park; Kahuzi-

Biega National Park; Okapi Wildlife Reserve; Salonga National Park;
Virunga National Park

ECONOMY

Economic overview: The economy of the Democratic Republic of the Congo - a nation endowed with vast natural resource wealth - continues to perform poorly. Systemic corruption since independence in 1960, combined with countrywide instability and intermittent conflict that began in the early-90s, has reduced national output and government revenue, and increased external debt. With the installation of a transitional government in 2003 after peace accords, economic conditions slowly began to improve as the government reopened relations with international financial institutions and international donors, and President KABILA began implementing reforms. Progress on implementing substantive economic reforms remains slow because of political instability, bureaucratic inefficiency, corruption, and patronage, which also dampen international investment prospects.

Renewed activity in the mining sector, the source of most export income, boosted Kinshasa's fiscal position and GDP growth until 2015, but low commodity prices have led to slower growth, volatile inflation, currency depreciation, and a growing fiscal deficit. An uncertain legal framework, corruption, and a lack of transparency in government policy are long-term problems for the large mining sector and for the economy as a whole. Much economic activity still occurs in the informal sector and is not reflected in GDP data.

Poverty remains widespread in DRC, and the country failed to meet any Millennium Development Goals by 2015. DRC also concluded its program with the IMF in 2015. The price of copper – the DRC's primary export - plummeted in 2015 and remained at record lows during 2016-17, reducing government revenues, expenditures, and foreign exchange reserves, while inflation reached nearly 50% in mid-2017 – its highest level since the early 2000s.

Real GDP (purchasing power parity): \$96.03 billion (2020 est.)
\$95.29 billion (2019 est.)
\$91.29 billion (2018 est.)

consumption: 7,181,700,000 kWh (2019 est.)

exports: 248 million kWh (2019 est.)

imports: 385 million kWh (2019 est.)

transmission/distribution losses: 2.142 billion kWh (2019 est.)

Electricity generation sources: *fossil fuels:* 0.1% of total installed capacity (2020 est.)

solar: 0.1% of total installed capacity (2020 est.)

hydroelectricity: 99.6% of total installed capacity (2020 est.)

biomass and waste: 0.3% of total installed capacity (2020 est.)

Coal: *production:* 0 metric tons (2020 est.)

consumption: 10,000 metric tons (2020 est.)

exports: 0 metric tons (2020 est.)

imports: 10,000 metric tons (2020 est.)

proven reserves: 88 million metric tons (2019 est.)

Petroleum: *total petroleum production:* 22,000 bbl/day (2021 est.)

refined petroleum consumption: 17,900 bbl/day (2019 est.)

crude oil and lease condensate exports: 21,300 bbl/day (2018 est.)

crude oil and lease condensate imports: 0 bbl/day (2018 est.)

crude oil estimated reserves: 180 million barrels (2021 est.)

Refined petroleum products - production: 0 bbl/day (2017 est.)

country comparison to the world: 132

Refined petroleum products - exports: 0 bbl/day (2015 est.)

country comparison to the world: 145

Refined petroleum products - imports: 21,140 bbl/day (2015 est.)

country comparison to the world: 115

Natural gas: *production:* 368,000 cubic meters (2019 est.)

consumption: 368,000 cubic meters (2019 est.)

exports: 0 cubic meters (2021 est.)

imports: 0 cubic meters (2021 est.)

proven reserves: 991 million cubic meters (2021 est.)

Carbon dioxide emissions: 2.653 million metric tonnes of CO₂ (2019 est.)

from coal and metallurgical coke: 44,000 metric tonnes of CO₂ (2019 est.)

from petroleum and other liquids: 2.608 million metric tonnes of CO₂ (2019 est.)

from consumed natural gas: 1,000 metric tonnes of CO₂ (2019 est.)

country comparison to the world: 151

Energy consumption per capita: 1.371 million Btu/person (2019 est.)

country comparison to the world: 192

COMMUNICATIONS

Telephones - mobile cellular: *total subscriptions:* 40,798,396 (2020 est.)

subscriptions per 100 inhabitants: 46 (2020 est.)

country comparison to the world: 38

Telecommunication systems: *general assessment:* the telecom system remains one of the least developed in the region; the government can only loosely regulate the sector; the investment made in infrastructure is derived from donor countries or from the efforts of foreign (particularly Chinese) companies and banks; efforts have been made to improve the regulation of the telecom sector; the limited fixed-line infrastructure has become the principal providers of basic telecom services; the development of the DRC's internet and broadband market has been held back by the poorly developed national and international infrastructure; the country was finally connected to international bandwidth through the WACS submarine cable in 2013; breakages in the WACS cable have exposed the vulnerability of international bandwidth, which is still limited; the Equiano submarine cable, and has also completed a 5,000km cable running through the DRC to link to cable systems landing in countries facing the Atlantic and Indian Oceans; the first commercial LTE networks were launched in May 2018 soon after LTE licenses were issued; mobile operators are keen to develop mobile data services, capitalizing on the growth of smartphones usage; there has been some progress with updating technologies, most of the GSM network has been upgraded to 3G by 2021 (2022)

domestic: inadequate fixed-line infrastructure with fixed-line connections less than 1 per 100 persons; mobile-cellular subscriptions over 46 per 100 persons (2020)

international: country code - 243; ACE and WACS submarine cables to West and South Africa and Europe; satellite earth station - 1 Intelsat (Atlantic Ocean) (2019)

Broadcast media: state-owned TV broadcast station with near national

coverage; more than a dozen privately owned TV stations - 2 with near national coverage; 2 state-owned radio stations are supplemented by more than 100 private radio stations; transmissions of at least 2 international broadcasters are available

Internet country code: .cd

Internet users: *total:* 12,538,597 (2020 est.)

percent of population: 14% (2020 est.)

country comparison to the world: 49

Broadband - fixed subscriptions: *total:* 31,000 (2020 est.)

subscriptions per 100 inhabitants: 0.03 (2020 est.)

country comparison to the world: 152

TRANSPORTATION

National air transport system: *number of registered air carriers:* 8 (2020)

inventory of registered aircraft operated by air carriers: 13

annual passenger traffic on registered air carriers: 932,043 (2018)

annual freight traffic on registered air carriers: 890,000 (2018) mt-km

Civil aircraft registration country code prefix: 9Q

Airports: *total:* 198 (2021)

country comparison to the world: 28

Airports - with paved runways: *total:* 26

over 3,047 m: 3

2,438 to 3,047 m: 3

1,524 to 2,437 m: 17

914 to 1,523 m: 2

under 914 m: 1 (2021)

Airports - with unpaved runways: *total:* 172

1,524 to 2,437 m: 20

914 to 1,523 m: 87

under 914 m: 65 (2021)

Heliports: 1 (2021)

Pipelines: 62 km gas, 77 km oil, 756 km refined products (2013)

Railways: *total:* 4,007 km (2014)

narrow gauge: 3,882 km (2014) 1.067-m gauge (858 km electrified)

125 1.000-mm gauge

country comparison to the world: 48

Roadways: *total:* 152,373 km (2015)

paved: 3,047 km (2015)

unpaved: 149,326 km (2015)

urban: 7,400 km (2015)

non-urban: 144,973 km

country comparison to the world: 34

Waterways: 15,000 km (2011) (including the Congo River, its tributaries, and unconnected lakes)

country comparison to the world: 9

Merchant marine: *total:* 22

by type: general cargo 4, oil tanker 2, other 16 (2021)

country comparison to the world: 145

Ports and terminals: *major seaport(s):* Banana

river or lake port(s): Boma, Bumba, Kinshasa, Kisangani, Matadi, Mbandaka (Congo); Kindu (Lualaba); Bukavu, Goma (Lake Kivu); Kalemie (Lake Tanganyika)

MILITARY AND SECURITY

Military and security forces: Armed Forces of the Democratic Republic of the Congo (Forces d'Armees de la Republique Democratique du Congo, FARDC): Land Forces, National Navy (La Marine Nationale), Congolese Air Force (Force Aerienne Congolaise, FAC); Republican Guard; Ministry of Interior: Congolese National Police, Directorate General for Migration (2022)

note: the Republican Guard is a division-size element consisting of approximately 5 regiments; it is regarded as the country's best equipped and trained military unit and is under the direct control of the president

Military expenditures: 0.7% of GDP (2021 est.)

0.7% of GDP (2020 est.)

0.9% of GDP (2019 est.) (approximately \$570 million)

0.8% of GDP (2018 est.) (approximately \$520 million)

0.9% of GDP (2017 est.) (approximately \$550 million)

country comparison to the world: 148

Military and security service personnel strengths: limited and widely varied information; approximately 100,000 active troops (mostly Army, but includes several thousand Navy and Air Force personnel, as well as about 10,000 Republican Guard; note - Navy personnel includes naval infantry) (2022)

Military equipment inventories and acquisitions: the FARDC is equipped mostly with a mix of second-hand Russian and Soviet-era weapons acquired from former Warsaw Pact nations; most equipment was acquired between 1970 and 2000; in recent years, Ukraine has been the largest supplier of arms to the FARDC (2021)

Military service age and obligation: 18-45 years of age for voluntary military service for men and women; 18-45 years of age for compulsory military service for men; it is unclear how much conscription is used (2021)

note: in eastern Congo, fighters from armed groups, and in some cases

government security forces, have been accused of forced recruitment of child soldiers

Military - note: the modern FARDC was created out of the armed factions of the two Congo wars of 1996-1997 and 1998-2003; as part of the peace accords that ended the last war, the largest rebel groups were incorporated into the FARDC; many armed groups, however, continue to fight and as of 2022, there were over 100 illegal armed groups operating in the country by some estimates; as of 2022, the FARDC was actively engaged in combat operations against numerous armed groups, particularly in the eastern provinces of Ituri, North Kivu, and South Kivu, although there was also violence in Maniema, Kasai, Kasai Central, and Tanganyika provinces; the military is widely assessed as being unable to provide adequate security throughout the country due to insufficient training, poor morale and leadership, ill-discipline and corruption, low equipment readiness, a fractious ethnic makeup, and the sheer size of the country and diversity of armed rebel groups

as of 2022, one of the primary armed groups the FARDC was conducting operations against was the March 23 Movement (M23, aka Congolese Revolutionary Army), which resumed attacks, largely against civilians, in the DRC province of North Kivu in 2022 after having been defeated in 2013 by FARDC and UN forces; the M23's resurgence has raised tensions between the DRC and Rwanda, as the DRC Government claims Rwanda backs the M23, which it has labeled a terrorist group, charges that the Rwandan Government has denied; M23 attacks and fighting between the FARDC and M23 in 2022 has led to the displacement of more than 200,000 people; UN troops were supporting the FARDC's operations against M23

the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo (MONUSCO) has operated in the central and eastern parts of the country since 1999; as of mid-2022, MONUSCO had around 15,000 personnel; MONUSCO includes a Force Intervention Brigade (FIB; 3 infantry battalions, plus artillery and special forces), the first ever UN peacekeeping force specifically tasked to carry out targeted offensive operations to neutralize and disarm groups

considered a threat to state authority and civilian security (2022)

TERRORISM

Terrorist group(s): Islamic State of Iraq and ash-Sham – Democratic Republic of the Congo (ISIS-DRC)

note: details about the history, aims, leadership, organization, areas of operation, tactics, targets, weapons, size, and sources of support of the group(s) appear(s) in Appendix-T

TRANSNATIONAL ISSUES

Disputes - international: heads of the Great Lakes states and UN pledged in 2004 to abate tribal, rebel, and militia fighting in the region, including northeast Congo, where the UN Organization Mission in the Democratic Republic of the Congo (MONUC), organized in 1999, maintains over 16,500 uniformed peacekeepers

Democratic Republic of Congo(DRC)-Republic of the Congo: the location of the boundary in the broad Congo River is indefinite except in the Pool Malebo/Stanley Pool area

Democratic Republic of Congo(DRC)-Uganda: Uganda rejects the DRC claim to Margherita Peak in the Rwenzori mountains and considers it a boundary divide; there is tension and violence on Lake Albert over prospective oil reserves at the mouth of the Semliki River

Democratic Republic of Congo(DRC)-Zambia: boundary commission continues discussions over Congolese-administered triangle of land on the right bank of the Lunkinda River claimed by Zambia near the DRC village of Pweto

Democratic Republic of Congo(DRC)-Angola: DRC accuses Angola of shifting monuments

Refugees and internally displaced persons: *refugees (country of origin):* 212,120 (Central African Republic), 209,798 (Rwanda), 56,653 (South Sudan) (refugees and asylum seekers), 41,836 (Burundi) (2022)

IDPs: 5.53 million (fighting between government forces and rebels since mid-1990s; conflict in Kasai region since 2016) (2022)

Trafficking in persons: *current situation:* human traffickers exploit domestic and foreign victims in Democratic Republic of the Congo and Congolese abroad; most trafficking is internal and involves the forced labor of men, women, and children in artisanal mining, agriculture, domestic servitude, sex trafficking, or child recruitment by armed groups; some traffickers are family members or others who promise victims or

victims' families educational or job opportunities and instead force victims to work as domestic servants, street vendors, gang members, or in commercial sex; some Congolese women and girls who migrate to other countries in Africa or the Middle East are exploited in sex trafficking or forced labor in agriculture, diamond mines, or domestic service; they may be fraudulently recruited by traffickers with false promises of jobs or education

tier rating: Tier 2 Watch List — The Democratic Republic of the Congo (DRC) does not fully meet the minimum standards for the elimination of trafficking but is making significant efforts to do so; the DRC was upgraded to Tier 2 Watch List because of several accomplishments; the government drafted and launched its first national anti-trafficking action plan; authorities increased law enforcement efforts, including investigating and prosecuting more trafficking crimes; a number of traffickers were convicted, including a high-ranking army officer and the leader of an armed group; however, authorities continued to lack standard operating procedures for identifying victims and referring them to care; there were credible allegations that the army abducted women and girls for sexual slavery and recruited and used child soldiers (2020)

Illicit drugs: country of origin of methamphetamine destined for overseas markets

CONGO, REPUBLIC OF THE

INTRODUCTION

Background: Upon independence in 1960, the former French region of Middle Congo became the Republic of the Congo. A quarter century of experimentation with Marxism was abandoned in 1990 and a democratically elected government took office in 1992. A two-year civil war that ended in 1999 restored former Marxist President Denis SASSOU-Nguesso, who had ruled from 1979 to 1992, and sparked a short period of ethnic and political unrest that was resolved by a peace agreement in late 1999. A new constitution adopted three years later provided for a multi-party system and a seven-year presidential term, and elections arranged shortly thereafter installed SASSOU-Nguesso. Following a year of renewed fighting, President SASSOU-Nguesso and southern-based rebel groups agreed to a final peace accord in March 2003. SASSOU-Nguesso was reelected in 2009 and, after passing a referendum allowing him to run for a third term, was reelected again in 2016. The Republic of Congo is one of Africa's largest petroleum producers, but with declining production it will need new offshore oil finds to sustain its oil earnings over the long term.

GEOGRAPHY

Location: Central Africa, bordering the South Atlantic Ocean, between Angola and Gabon

Geographic coordinates: 1 00 S, 15 00 E

Map references: Africa

Area: *total:* 342,000 sq km

land: 341,500 sq km

water: 500 sq km

country comparison to the world: 65

Area - comparative: slightly smaller than Montana; about twice the size of Florida

Land boundaries: *total:* 5,554 km

border countries (5): Angola 231 km; Cameroon 494 km; Central African Republic 487 km; Democratic Republic of the Congo 1,775 km; Gabon 2,567 km

Coastline: 169 km

Maritime claims: *territorial sea:* 12 nm

contiguous zone: 24 nm

exclusive economic zone: 200 nm

Climate: tropical; rainy season (March to June); dry season (June to October); persistent high temperatures and humidity; particularly enervating climate astride the Equator

Terrain: coastal plain, southern basin, central plateau, northern basin

Elevation: *highest point:* Mont Nabeba 1,020 m

lowest point: Atlantic Ocean 0 m

mean elevation: 430 m

Natural resources: petroleum, timber, potash, lead, zinc, uranium, copper, phosphates, gold, magnesium, natural gas, hydropower

Land use: *agricultural land*: 31.1% (2018 est.)

arable land: 1.6% (2018 est.)

permanent crops: 0.2% (2018 est.)

permanent pasture: 29.3% (2018 est.)

forest: 65.6% (2018 est.)

other: 3.3% (2018 est.)

Irrigated land: 20 sq km (2012)

Major rivers (by length in km): Ubangi (shared with Central African Republic [s] and Democratic Republic of Congo [m]) - 2,270 km

note – [s] after country name indicates river source; [m] after country name indicates river mouth

Major watersheds (area sq km): Atlantic Ocean drainage: Congo (3,730,881 sq km)

Major aquifers: Congo Basin

Population distribution: the population is primarily located in the south, in and around the capital of Brazzaville as shown in this population distribution map

Natural hazards: seasonal flooding

Geography - note: about 70% of the population lives in Brazzaville, Pointe-Noire, or along the railroad between them

PEOPLE AND SOCIETY

Population: 5,546,307 (2022 est.)

country comparison to the world: 118

Nationality: *noun:* Congolese (singular and plural)

adjective: Congolese or Congo

Ethnic groups: Kongo 40.5%, Teke 16.9%, Mbochi 13.1%, foreigner 8.2%, Sangha 5.6%, Mbere/Mbeti/Kele 4.4%, Punu 4.3%, Pygmy 1.6%, Oubanguiens 1.6%, Duma 1.5%, Makaa 1.3%, other and unspecified 1% (2014-15 est.)

Languages: French (official), French Lingala and Monokutuba (lingua franca trade languages), many local languages and dialects (of which Kikongo is the most widespread)

major-language sample(s):

Buku oyo ya bosembo ya Mokili Mobimba Ezali na Makanisi ya Liboso Mpenza. (Lingala)

Religions: Roman Catholic 33.1%, Awakening Churches/Christian Revival 22.3%, Protestant 19.9%, Salutiste 2.2%, Muslim 1.6%, Kimbanguiste 1.5%, other 8.1%, none 11.3% (2007 est.)

Demographic profile: The Republic of the Congo is one of the most urbanized countries in Africa, with nearly 70% of Congolese living in urban areas. The population is concentrated in the southwest of the country, mainly in the capital Brazzaville, Pointe-Noire, and along the railway line that connects the two. The tropical jungles in the north of the country are sparsely populated. Most Congolese are Bantu, and most belong to one of four main ethnic groups, the Kongo, Teke, Mbochi, and Sangha, which consist of over 70 subgroups.

The Republic of Congo is in the early stages of a demographic transition, whereby a population shifts from high fertility and mortality rates to low fertility and mortality rates associated with industrialized societies. Its total fertility rate (TFR), the average number of children born per woman, remains high at 4.4. While its TFR has steadily

decreased, the progress slowed beginning in about 1995. The slowdown in fertility reduction has delayed the demographic transition and Congo's potential to reap a demographic dividend, the economic boost that can occur when the share of the working-age population is larger than the dependent age groups.

The TFR differs significantly between urban and rural areas – 3.7 in urban areas versus 6.5 in rural areas. The TFR also varies among regions. The urban regions of Brazzaville and Pointe-Noire have much lower TFRs than other regions, which are predominantly or completely rural. The gap between desired fertility and actual fertility is also greatest in rural areas. Rural families may have more children to contribute to agricultural production and/or due to a lack of information about and access to contraception. Urban families may prefer to have fewer children because raising them is more expensive and balancing work and childcare may be more difficult. The number of births among teenage girls, the frequency of giving birth before the age of fifteen, and a lack of education are the most likely reasons for higher TFRs in rural areas. Although 90% of school-age children are enrolled in primary school, repetition and dropout rates are high and the quality of education is poor. Congolese women with no or little education start having children earlier and have more children in total than those with at least some secondary education.

Age structure: 0-14 years: 41.57% (male 1,110,484/female 1,089,732)

15-24 years: 17.14% (male 454,981/female 452,204)

25-54 years: 33.5% (male 886,743/female 886,312)

55-64 years: 4.59% (male 125,207/female 117,810)

65 years and over: 3.2% (male 75,921/female 93,676) (2020 est.)

Dependency ratios: total dependency ratio: 78.7

youth dependency ratio: 73.7

elderly dependency ratio: 4.9

potential support ratio: 20.3 (2020 est.)

Median age: total: 19.5 years

male: 19.3 years

female: 19.7 years (2020 est.)

country comparison to the world: 202

Population growth rate: 2.34% (2022 est.)

country comparison to the world: 30

Birth rate: 31.82 births/1,000 population (2022 est.)

country comparison to the world: 26

Death rate: 8.38 deaths/1,000 population (2022 est.)

country comparison to the world: 76

Net migration rate: 0 migrant(s)/1,000 population (2022 est.)

country comparison to the world: 86
